

SAP Business Intelligence - Business Objects Integration Services HiTech

SAP Business Objects (BOBJ) technologies bring in a competitive advantage by providing a connected, open, and interactive business intelligence solution to enhance your analytical reporting. BOBJ's undeniable potential has led to the phasing-out of SAP BI reporting products, making it imperative for you to migrate to SAP BOBJ.

Existing integration kits might help you do this, but do you have the expertise to choose the best-fit products, tools, and approach for your enterprise? Are you geared to accelerate migration timelines and mitigate costs?

At Tata Consultancy Services (TCS), our SAP BI-BOBJ Integration Services provide you with a structured approach, assessing your requirements and defining a migration roadmap. We have developed industry-specific standard universes and WebI reports for SAP BI Business content. With these solution accelerators, we ensure a smooth and cost-efficient migration.

Overview

With SAP BI products being replaced by SAP BOBJ, existing customers need to migrate to the new technologies with agility. Achieving complete integration of BOBJ with SAP BI is paramount as it significantly enhances your overall analytical reporting ability. However the efficacy of your migration could be checked by ambiguity regarding best-fit product, tool, and approach for your enterprise.

Through our SAP BI-BOBJ Integration Services, we leverage our proven expertise to help you select the best-fit reporting tools like Crystal Reports, WebI, Voyager or Xcelsius. Our solution accelerators, standard migration templates, and structured methodology enhance the possibilities of an effortless migration, enabling you to make early gains.

We bring in the know-how to give you a complete offering covering integration strategy and implementation. Our specific services for SAP BI-BOBJ integration include:

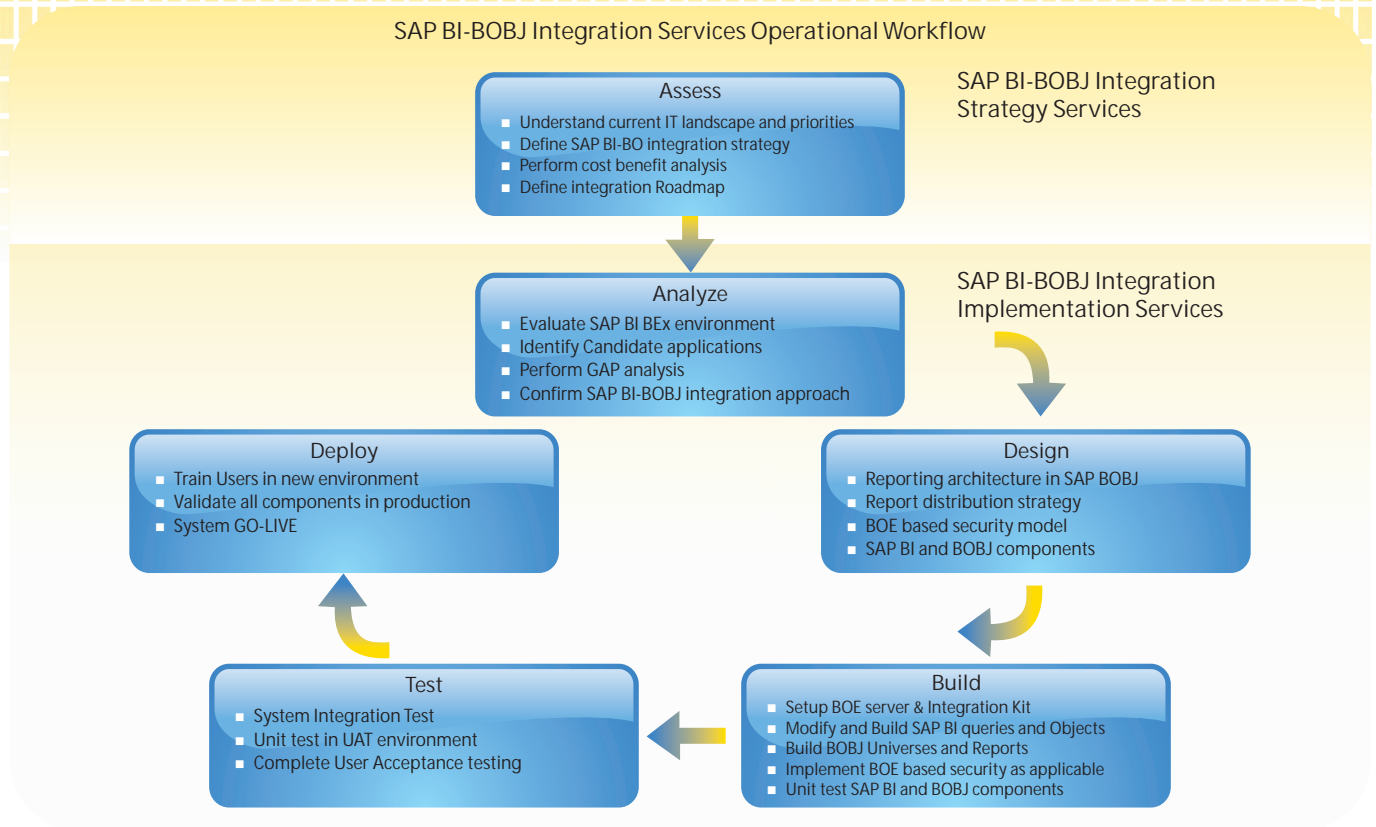

- Strategy services that help you with integration strategy consulting, assessment, cost-benefit analysis, and roadmap formulation.
- Implementation services that help you define a structured approach for SAP BI-BOBJ integration implementation.

Benefits

Our services ensure that you achieve a complete integration of BOBJ with SAP BI. Defined to bring in ease of migration, our services help you:

- Define the appropriate business intelligence strategy for your enterprise. Our strategy services help you select the right approach and BOBJ products after a thorough integration assessment of your enterprise.
- Define a roadmap for a seamless transition. Based on the existing business landscape and priorities, we define a roadmap that would ensure successful integration of SAP BI and BOBJ products.
- Implement SAP BOBJ smoothly. Our integration experts, pre-defined frameworks, standard universes and WebI reports, and solution accelerators, specifically for High Tech industry, help in a faster, smoother and first-time-right delivery.

SAP BI-BOBJ Integration Services Operational Workflow

Why TCS

At TCS, we have the ability to offer you both functional and technology services for your migration. Having aligned ourselves with the new SAP BI roadmap, we give you a comprehensive solution that allows you to leverage our:

- Proven approach and methodology. Our experienced team of professionals brings in vast experience in SAP BI-BOBJ integration. Our structured processes have helped us capture best practices across successful global engagements, which are leveraged to give you results.
- Global presence. Our networked delivery model helps deliver solutions across various geographies. We customize solutions to fit local cultural requirements, while delivering against common goals.
- Key strategic and global alliances. Our global alliances with technology providers give us access to the latest product information and solutions to expedite and support solution delivery.
