

Enabling bni to streamline its end-to-end
business operations with
greater operational control.

That's certainty

A subsidiary of Bahrain National Holding Company, bni (Bahrain National Insurance) is the largest non-life insurance company in Bahrain. bni was looking at rapidly growing its insurance business, while also gaining additional control in its day-to-day operations in the property and casualty lines of business. Leveraging its Insurance solution from TCS BANCIS, Tata Consultancy Services (TCS) implemented a complete end-to-end solution that supported all mainstream products, sales channels and lifecycle functionalities, helping integrate the reinsurance and accounting component. As one of the world's fastest growing technology and business solutions providers, TCS helped bni reduce the time to market of its products, while making it flexible to adapt to changes in existing products and processes. Helping increase production through the diversification of delivery channels and enhanced operational efficiency. And of course, enabling bni to experience certainty.
