

Powering BankMuscat's customers
with a multi-channel DMA and a 2-in-1
banking and brokerage account.

That's certainty

BankMuscat is the largest financial services provider in Oman. BankMuscat wanted to enhance its Investment Management and Private Banking offering by providing its customers with Direct Market Access and Internet Trading facility. It needed an integrated brokerage and investment banking platform that would enable clients to trade directly on multiple markets in GCC countries, besides facilitating online risk management, Straight-Through-Processing (STP) with street-side, core banking and internal systems. Further, BankMuscat wanted to differentiate itself by offering seamless trading through a linked two-in-one brokerage and BankMuscat account. Tata Consultancy Services (TCS) implemented TCS BOUNCS Securities Trading and Securities Processing, a comprehensive front-to-back office solution. As one of the world's fastest growing technology and business solutions providers, TCS enabled a common platform for securities trading, portfolio management, corporate actions and funds, which also complied with the business regulatory requirements of the region. Empowering BankMuscat's customers with seamless trading in multiple markets via multiple channels and multi-market portfolio management services. And, of course, enabling BankMuscat to experience certainty.

TATA CONSULTANCY SERVICES
Experience certainty.
