

## Tax Mantra™ Government

### Constantly changing regulations, consistently evolving user expectations

As your tax agency strives to provide efficient and user-friendly services in the wake of these, you need to strengthen it with reliable products and processes. Tata Consultancy Services (TCS) brings you Tax Mantra™, a comprehensive solution to cater to the needs of modern tax and revenue enterprises, as well as tax payers. This web-based solution enhances business functionality, supports taxpayer-friendly services and makes tax administration simpler and easier.

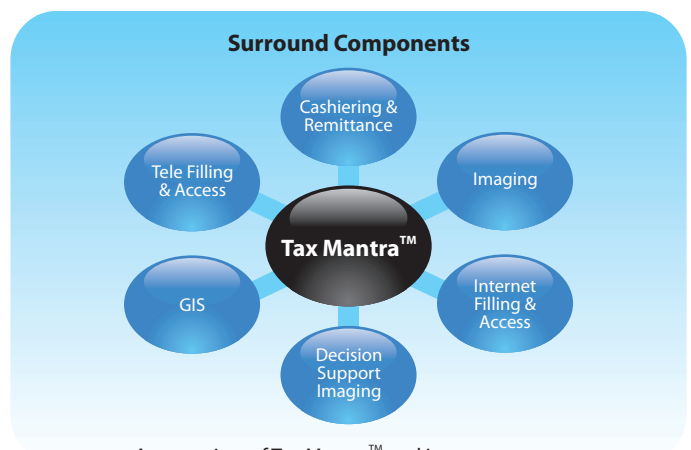

### About Tax Mantra™

Modern tax administration requires agile and robust systems to meet the needs of the agencies and tax payers, and support voluntary compliance. Easy to maintain and upgrade, these systems overcome the limitations of legacy systems, and provide a seamless, integrated solution to help all stakeholders access timely and accurate information.

TCS understands these requirements and brings to you Tax Mantra™, a complete tax administration solution that can be fully deployed within twelve months. This web-enabled, secure system is user and taxpayer-friendly, and has fully-integrated processes to support an endless number of tax types and business processes. With provision for taxpayer internet based registrations, filing, paying and status inquiries, it helps you provide enhanced services to taxpayers and increase their satisfaction levels while reducing internal processing times. It has an automated, real-time based task list for users, a dashboard for viewing revenue and performance, and automated audit selection to help your organization. It even provides real-time monitoring of collection of delinquent accounts and has other modules for:

- **Registration.** For acknowledging registration applications; searching for taxpayer's information; providing comprehensive reports and notices to taxpayers; and assigning risk to all accounts upon registration.
- **Processing and assessment.** For filing and payment acknowledgments; comprehensive searches of accounts; payments and filings; automated notices; identification of inconsistencies in reports, on-line and batch processing.

- **Taxpayer services.** Web enabled for electronic returns and payments; personal account management; FAQ support; and comprehensive information on tax programs.
- **Workflow.** For automated assignment and routing of cases; comprehensive alerts; messages and automatic reminders/todos; automatic escalation and automated tracking of information.
- **Performance monitoring and evaluation.** For reports and active monitoring of user performance.
- **Role-based administration.** For security and access control modules; master maintenance; audit trails; process logs and error logs; and comprehensive data archives.

An overview of Tax Mantra™ and its components
