With over 25 years of international leadership experience, Akhilesh helps TCS customers unlock value and generate growth from their business applications investments. He oversees the strategy and growth of the organization's global SaaS application portfolio—ranging from long-standing enterprise application partners, such as SAP, Oracle, and Salesforce, to best-of-breed applications focused on specific business needs or industries. Akhilesh and his team of business and technology leaders focus on innovating, designing, and delivering Cloud-centric technology solutions that have helped some of the world's largest and most complex organizations to become agile enterprises, poised for growth and innovation. Under Akhilesh's leadership, the Enterprise Application Services practice has received numerous partner awards and leadership rankings from leading industry analysts.
