Commenting on the Q3 performance, Chief Executive Officer and Managing Director, N Chandrasekaran said:

“We have had an excellent quarter of well rounded performance and have driven a higher quality of revenue and increased profitability through focus on productivity and innovation. We had good revenue growth, balanced across service-lines, industries and geographies; our agile, customer-centric organization is delivering an increasing number of larger and deeper client relationships.” **He added:** “We believe that clients are going to invest in making their operations ‘digital-ready’ in 2013 and drive business growth. TCS is well positioned to help our clients in this journey.”

S. Mahalingam, Chief Financial Officer and Executive Director, said: “The overall performance has been in line with what we had outlined at the beginning of the year. Our superior execution in this seasonally weak quarter has delivered productivity gains and an expanded operating margin.” **He added:** “Our business model of delivering growth with the desired profitability requires us to invest in the front-end and in new capabilities and we will continue to make those investments.”

Operational Performance:

Growth in Q3 was broad-based. Among mature markets, USA and UK led the growth story. Amongst growth markets, Latin America showed double digit growth sequentially, followed by India. Amongst industries, growth was led by Banking, Financial Services and Insurance (BFSI), Energy & Utilities, Manufacturing & Retail & Distribution. In terms of services, TCS’ full services capabilities continue to be leveraged by customers with newer service lines like Enterprise Solutions, Infrastructure Services and Global Consulting driving growth. Asset Leveraged Solutions and Engineering and Industrial Services also showed higher growth.
