The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. Nature and purpose of reserves

a. Retained earnings

This reserve represents undistributed accumulated earnings of the Company as on the date of statement of financial position.

6. Recent accounting standards

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective. Amendments to IFRS 9 and IFRS 7[1].

Annual Improvements to IFRS Accounting Standards[1] – Amendments to:

- IFRS 1 – First-time Adoption of International Financial Reporting Standards
- IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 – Financial Instruments
- IFRS 10 – Consolidated Financial Statements
- IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements[2]

IFRS 19 – Subsidiaries without Public Accountability: Disclosures[2]

[1]Effective for annual periods beginning on or after January 1, 2026.

[2]Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

In December 2024, the IASB issued targeted amendments to help companies better report the financial effects of nature-dependent electricity contracts, which are often structured as power purchase agreements (PPAs). The amount of electricity generated under these contracts can vary based on uncontrollable factors such as weather conditions. Current accounting requirements may not adequately capture how these contracts affect a company's performance. The amendments include: clarifying the application of the 'own-use' requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows. The Company does not expect this amendment to have any significant impact in its financial statements.

Annual Improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. These amendments include clarifications, simplifications, corrections and changes aimed at improving the consistency of several IFRS Accounting Standards. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Company does not expect these narrow amendments to have any significant impact in its financial statements.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

7. Financial assets, financial liabilities and equity instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value to be cash equivalents. Cash and cash equivalents consist of balances with banks and which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments recognised by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Derecognition

(a) Financial asset

The Company derecognises a financial asset when the contractual right to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flow in a transaction in which substantially all of the risks and rewards of the ownership of financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of financial asset.

The Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases the transferred assets are not derecognised.

(b) Financial liability

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The company also derecognises financial liability when its terms are modified and cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of financial liability the difference between the carrying amount extinguished and the consideration paid (including any non cash asset transferred or liabilities assumed) is recognised in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liabilities simultaneously.

a. Cash and cash equivalents

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Cash in hand	-	16,000
Balances with bank	226,930,706	135,232,196
Bank deposits (original maturity less than three months)	-	100,000,000
Total	**226,930,706**	**235,248,196**

b. Trade receivables

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Trade receivables - Billed – Current		
Trade receivables - Billed*	331,630,805	371,177,635
Less: Allowance for expected credit losses	(912)	(26,365,146)
Total	**331,629,893**	**344,812,489**

* Trade receivables include balances with related party of ZAR 32,311,734 as at December 31, 2025 (ZAR 33,324,761 as at December 31, 2024) (Refer Note No. 15)

Movement in allowance for expected credit losses

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
At January 1	**26,365,146**	**1,192,540**
Additional provision/(reversal) during the year	(26,364,234)	25,172,606
At December 31	912	26,365,146

c. Other financial assets

Other financial asset consist of the following:

Other Financial assets - current

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Employee advances (net of allowance)	304,746	857,327
Premises deposits (net of allowance)	5,936,500	3,118,277
Other*	9,061,374	6,447,007
Total	**15,302,620**	**10,422,611**

Other financial assets - non current

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Other deposits	16,699	16,699
Loan - Isisekelo Sethu Trust**	42,539,700	50,400,000
Premises deposits (net of allowance)	891,446	1,141,876
Total	43,447,845	51,558,575

* Other include balances with related party of ZAR 128,194 as at December 31, 2025 (ZAR 107,280 as at December 31, 2024) (Refer Note No. 15)

** The Company has entered into an agreement with Isisekelo Sethu Trust and signed a loan agreement with the Company. The loan will accrue interest at prime rate per annum and be repaid over 10 years.

d. Trade payables

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Trade payables*	433,202,613	545,032,087
Accrued expenses	124,414,412	109,450,805
Total	557,617,025	654,482,892

* Trade payables and Accrued expenses include balances with related party of ZAR 523,287,792 as at December 31, 2025 (ZAR 621,800,451 as at December 31, 2024) (Refer Note No. 15)

e. Other financial liabilities - current

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Accrued payroll	1,061,471	631,124
Liabilities towards customer contracts	873,293	-
Total	**1,934,764**	**631,124**

f. Financial instruments by category

The carrying value of financial assets and financial liabilities as at December 31, 2025 is as follows:

(Amount in ZAR)

	Amortised cost	Total carrying Value
Financial assets		
Cash and cash equivalents	226,930,706	226,930,706
Trade receivables		
Billed	331,629,893	331,629,893
Unbilled	19,665,756	19,665,756
Other financial assets	58,750,465	58,750,465
Total	**636,976,820**	**636,976,819**
Financial liabilities		
Trade payables	557,617,025	557,617,025
Other financial liabilities	1,934,764	1,934,764
Total	**559,551,789**	**559,551,788**

The carrying value of financial assets and financial liabilities as at December 31, 2024 is as follows:

(Amount in ZAR)

	Amortised cost	Total carrying Value
Financial assets		
Cash and cash equivalents	235,248,196	235,248,196
Trade receivables		
Billed	344,812,489	344,812,489
Unbilled	24,488,956	24,488,956
Other financial assets	61,981,186	61,981,186
Total	**666,530,827**	**666,530,827**
Financial liabilities		
Trade payables	654,482,892	654,482,892
Other financial liabilities	631,124	631,124
Total	**655,114,016**	**655,114,016**

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables and trade payables as at December 31, 2025 and December 31, 2024 approximate the fair value due to their nature. Carrying amounts of bank

deposits, earmarked balances with banks, other financial assets and other financial liabilities which are subsequently measured at amortised cost also approximate the fair value due to their nature in each of the periods presented.

g. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

h. Financial risk management

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

  The fluctuation in foreign currency exchange rate may have potential impact on the statement of financial statement, where any transaction references more than one currency or where assets/ liabilities are denominated in a currency other than functional currency of the company. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries.

  The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

  The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the functional currency of the Company.

  The following table sets forth information relating to foreign currency exposure as at December 31, 2025:

	USD (equivalent ZAR)	EUR (equivalent ZAR)	GBP (equivalent ZAR)	AUD (equivalent ZAR)
Net financial assets	2,925,449	(11,263)	-	380,525
Net financial liabilities	1,294,077	440,244	1,255,628	-

10% depreciation / appreciation of the respective foreign currencies with respect to functional currency of TATA CONSULTANCY SERVICES (SOUTH AFRICA) (PTY) LTD Company would result in decrease / increase in the Company's profit before taxes by approximately ZAR 30,476 for the year ended December 31, 2025.

The following table sets forth information relating to foreign currency exposure as at December 31, 2024:

	USD (equivalent ZAR)	EUR (equivalent ZAR)	GBP (equivalent ZAR)	AUD (equivalent ZAR)
Net financial assets	(33,497)	(11,927)	-	-
Net financial liabilities	914,006	122,708	1,318,301	-

10% depreciation / appreciation of the respective foreign currencies with respect to functional currency of TATA CONSULTANCY SERVICES (SOUTH AFRICA) (PTY) LTD Company would result in decrease / increase in the Company's profit before taxes by approximately ZAR 240,044 for the year ended December 31, 2024.

- **Interest rate risk**

The Company's investments are primarily in fixed rate interest bearing investments. Hence, the Company is not significantly exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled receivables, cash and cash equivalents, and other financial assets.

The Company considers that its receivables from related parties, has low credit risk based on the credit rating of the counter parties.

- **Exposure to credit risk**

The carrying amount of financial assets and contract assets represents the maximum credit exposure. The maximum exposure to credit risk was ZAR 706,532,058 and ZAR 734,721,277 as of December 31, 2025 and December 31, 2024, respectively being the total of the carrying amount of balances with bank, bank deposit, trade receivable, unbilled receivables, contract assets and other financial assets. Balance with bank are held with banks with high credit ratings. As of December 31, 2025 there were no indications that any defaults will occur on trade receivable, unbilled revenues contract assets, or other financial assets.

TATA CONSULTANCY SERVICES (SOUTH AFRICA) (PTY) LTD Company's exposure to customers is diversified and single customer contributes to more than 10% of outstanding trade receivables, unbilled receivables and contract assets as at December 31, 2025 and December 31, 2024.

(Amount in ZAR)

Client Name	As at December 31, 2025		As at December 31, 2024	
	Total trade receivables and Unbilled revenue	Percentage	Total trade receivables and Unbilled revenue	Percentage
Customer A	63,544,932	15.12%	76,027,810	17%
Customer B	-	0%	46,342,531	11%

- **Geographic concentration of credit risk**

The Company has geographic concentration of trade receivables (gross and net of allowances) and contract assets is as follows:

	As at December 31, 2025	As at December 31, 2024
Africa	100%	100%

Geographical concentration of trade receivables (gross and net of allowances) and contract assets is allocated based on the location of the customers.

The Company uses an allowance matrix to measure the expected credit loss of trade receivable from customers. The expected credit loss allowance is based on the ageing of the days the receivables are due and are as follows:

(Amount in ZAR)

December 31, 2025	Weighted average loss rate	Gross carrying amount*	Loss allowance	Credit impaired
No Due	0.33%	250,158,750	(823,702)	No
1-90	1.00%	54,069,521	(539,278)	No
91-180	5.39%	43,266	(2,334)	No
181-272	14.20%	-	-	No
>273	100%	-	-	Yes

December 31, 2024	Weighted average loss rate	Gross carrying amount*	Loss allowance	Credit impaired
No Due	0.82%	198,089,837	(1,630,279)	No
1-90	2.20%	82,340,176	(1,813,426)	No
91-180	7.14%	48,175,823	(3,440,291)	No
181-272	27.47%	26,393,420	(7,251,131)	No
>273	100%	-	-	Yes

*Gross carrying amount excludes inter-company receivables and receivable against which specific allowance has been made.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generates sufficient cash flows from operations to meet its financial obligations including lease liabilities as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as at:

(Amount in ZAR)

December 31, 2025	Due in 1st year	Due in 2nd to 5th year	Total
Non-derivative financial liabilities			
Trade payables	557,617,025	-	557,617,025
Lease liabilities	1,117,445	5,297,470	6,414,915
Other financial liabilities	1,934,764	-	1,934,764
Total	**560,669,234**	**5,297,470**	**565,966,704**

(Amount in ZAR)

December 31, 2024	Due in 1st year	Due in 2nd to 5th year	Total
Non-derivative financial liabilities			
Trade payables	654,482,892	-	654,482,892
Lease liabilities	-	-	-
Other financial liabilities	631,124	-	631,124
Total	**655,114,016**	**-**	**655,114,016**

i. Equity instruments

The authorised, issued, subscribed and fully paid up share capital consist of the following:

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Authorised		
20,000,000 ordinary shares of ZAR 1 each	**20,000,000**	**20,000,000**
Issued, Subscribed and Fully paid up		
18,000,001 ordinary shares of ZAR 1 each	**18,000,001**	**18,000,001**

The remaining unissued ordinary shares are under the unrestricted control of the directors until the forthcoming annual general meeting.

Share holding	Percentage	Percentage
TATA CONSULTANCY SERVICES (AFRICA) (PTY) LTD	70%	70%
Isisekelo Sethu Trust	30%	30%

Capital management

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term product and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

8. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right-to-use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and

equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the Company is as follows:

(Amount in ZAR)

	Additions for the year ended December 31, 2025	Net carrying amount as at December 31, 2025
Buildings	7,418,044	6,300,257
Total	**7,418,044**	**6,300,257**

(Amount in ZAR)

	Additions for the year ended December 31, 2024	Net carrying amount as at December 31, 2024
Buildings	-	-
Total	**-**	**-**

Depreciation on right-of-use asset is as follows:

	Year ended December 31, 2025
Buildings	1,117,788
Total	**1,117,788**

	Year ended December 31, 2024
Buildings	-
Total	-

Interest on lease liabilities is ZAR 463,875 and ZAR NIL for the year ended on December 31, 2025 and year ended on December 31, 2024, respectively.

The Company incurred ZAR 37,039,163 and ZAR 39,750,426 for year ended December 31, 2025 and for the year ended December 31, 2024, respectively, towards expenses relating to short-term leases and leases of low-value assets.

The total cash outflow for leases is ZAR 1,181,691 and ZAR 39,750,426 for year ended December 31, 2025, and for the year ended December 31, 2024, respectively, including cash outflow for short-term leases and leases of low-value assets.

The Company does not have lease term extension options that are not reflected in the measurement of lease liabilities.

9. Non-financial assets and liabilities

a. Property, plant and equipment

The Company recognizes the cost of an item of property, plant and equipment as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can measured reliably.

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight-line basis so as to expense the cost less residual value over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Useful lives
Buildings	20 years
Leasehold improvements	Lease term
Computer equipment	4 years
Furniture, fixtures, office equipment and other assets	2-10 years

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in statement of profit or loss.

The carrying amount of an item of property, plant and equipment shall be derecognised on disposal or when no future economic benefits are expected from its use or disposal.

Property, Plant and equipment consist of the following:

(Amount in ZAR)

	Leasehold improvements	Computer equipment	Furniture and fixtures	Office equipment	Electrical installations	Total
Gross block as at January 1, 2025	**190,000**	**17,291,624**	**328,084**	**1,065,764**	**954,366**	**19,829,838**

b. Other assets

Other assets consist of the following:

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Other assets - current		
Advance to suppliers	(3,206,757)	1
Prepaid expenses*	155,128,761	122,180,431
Contract fulfilment cost**	4,126,412	2,522,737
Contract assets	69,555,239	68,190,449
Other current assets - others	168,385	-
Total	**225,772,040**	**192,893,618**

* Prepaid expenses include balances with related party of ZAR 155,128,761 as at December 31, 2025 (ZAR 122,149,682 as at December 31, 2024) (Refer Note No. 15)

** Contract fulfilment cost of ZAR 46,540 for year ended December 31, 2025 (ZAR Nil for year ended December 31, 2024) has been amortized in statement of Profit and Loss.

c. Other liabilities

Other liabilities consist of the following:

(Amount in ZAR)

	As at December 31, 2025	As at December 31, 2024
Other liabilities - current		
Advance received from customers	-	96,024
Capital creditors	-	412,601
Indirect tax payable and other statutory liabilities	29,007,930	23,475,933
Total	**29,007,930**	**23,984,558**

10. Revenue recognition

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.

- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Transaction price attributed in case of contracts with subsidiary is arrived at on the basis of arm's length price. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of the licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and/or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals and geography.

Revenue from operations includes ZAR 12,684,178 for the year ended December 31, 2024 (for year ended December 31, 2024: ZAR 11,219,976) towards sale of equipment and software licences.

Revenue disaggregation by nature of services is as follows:

(Amount in ZAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Revenue from consultancy services*	1,927,201,996	1,952,126,450
Revenue from sale of equipment and software licences	12,684,178	11,219,976
Total	**1,939,886,174**	**1,963,346,426**

*Revenue includes recovery of expenses from Tata Consultancy Services Limited of ZAR (9,195,354) for December, 2025 (ZAR 1,662,925 for December, 2024) and TCS South Africa Branch of ZAR 172,056,286 for December, 2025 (ZAR 203,015,597 for December, 2024)

Revenue disaggregation by industry vertical is as follows:

(Amount in ZAR)

Industry vertical	For the year ended December 31, 2025	For the year ended December 31, 2024
Banking, financial services and insurance	1,068,100,180	1,038,653,536
Communication, media and technology	655,232,797	694,401,321
Retail and consumer business	112,100,477	120,710,233
Manufacturing	7,118,792	7,247,334
Transportation	15,664,261	-
Others	81,669,667	102,334,002
Total	**1,939,886,174**	**1,963,346,426**

Revenue disaggregation by geography is as follows:

(Amount in ZAR)

Geography	For the year ended December 31, 2025	For the year ended December 31, 2024
Africa	1,936,737,096	1,960,427,055
America	1,495,815	1,046,174
Europe	391,985	1,054,017
Asia Pacific	1,010,597	-
Others	250,681	819,180
Total	**1,939,886,174**	**1,963,346,426**

Geographical revenue is allocated based on the location of the customers.

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognized corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are futuristic and therefore subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is ZAR 1,114,331,569 out of which 737,824,352 (66.21%) is expected to be recognized as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in contract assets is given below:

(Amount in ZAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Balance at the beginning of the year	68,190,449	71,988,420
Invoices raised that were included in the contract assets balance at the beginning of the year	(60,469,937)	(51,121,316)
Increase due to revenue recognised during the year, excluding amounts billed during the year	61,834,798	47,323,345
Add / (Less): Translation during the year	(72)	-
Balance at the end of the year	**69,555,238**	**68,190,449**

Changes in unearned and deferred revenue are as follows:

(Amount in ZAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Balance at the beginning of the year	134,415,205	121,059,176
Revenue recognised that was included in the unearned and deferred revenue balance at the beginning of the year	(133,705,607)	(121,059,175)
Increase due to invoicing during the year, excluding amounts recognised as the revenue during the year	155,709,638	134,436,784
Add / (Less): Translation during the year	(10,496)	(21,580)
Closing balance as at December 31	**156,408,740**	**134,415,205**

11. Cost recognition

Costs and expenses are recognised when incurred and have been classified according to their primary functions in the following categories:

Cost of revenue

These costs primarily include employee compensation of personnel engaged in providing services, travel expenses, fees to external consultants, cost of equipment and software licences, depreciation and amortisation of production related equipment and software, facility expenses, communication expenses and other project related expenses.

Selling, general and administrative expenses

Selling costs primarily include employee compensation for sales and marketing personnel, travel expenses, advertising, business promotion expenses, bad debts and advances written off, allowance for expected credit losses and advances, facility expenses for sales and marketing offices and market research costs.

General and administrative costs primarily include employee compensation for administrative, supervisory, managerial and practice management personnel, depreciation and amortisation expenses of non-production equipment and software, facility expenses for administrative offices, communication expenses, fees to external consultants and other general expenses.

(Amount in ZAR)

Expenses by function	For the year ended December 31, 2025	For the year ended December 31, 2024
Cost of revenue	1,739,482,287	1,754,873,679
Selling, general and administrative expenses	79,880,282	126,990,525
Total	**1,819,362,569**	**1,881,864,204**

Costs and expenses are recognised when incurred and have been classified according to their nature.

The costs of the Company are broadly categorised into employee benefit expenses, depreciation and other operating expenses. Employee benefit expenses include employee compensation, allowances paid, contribution to various funds and staff welfare expenses. Other operating expenses mainly include fees to external consultants, facility expenses, travel expenses, cost of equipment and software licenses, communication expenses, bad debts and advances written off, allowance for doubtful trade receivables and advances (net) and other expenses. Other expenses is an aggregation of costs which are individually not material such as contribution to brand equity, employee cost recovery, corporate overhead allocation, commission and brokerage, recruitment and training, entertainment, etc.

Expenses by nature

(Amount in ZAR)

Other operating expenses	For the year ended December 31, 2025	For the year ended December 31, 2024
Project expenses	3,264,574	16,954,597
Facility running expenses*	38,993,804	41,489,815
Fees to external consultants	1,605,788,830	1,606,399,476
Cost of equipment and software licenses	10,692,981	14,079,525
Travel expenses*	7,604,030	3,979,328
Communication	1,819,938	1,888,848
Other expenses	32,210,750	25,836,545
Total	**1,700,374,907**	**1,710,628,134**

*Facility running expenses & Travel expenses includes short term lease expenses amounting ZAR 37,039,163 for December 31, 2024 (ZAR 39,750,426 for year ended December 31, 2024).

12. Other income

a. Finance income

Dividend income is recorded when the right to receive payment is established. Interest income is recognised using the effective interest method.

(Amount in ZAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Interest on bank balances and bank deposits	10,747,778	16,346,257
Others	7,194,564	984,478
Total	**17,942,342**	**17,330,735**

13. Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year.

Current income taxes

Current tax is based on the taxable profit for the year and is calculated using tax rates that have been enacted by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income taxes are provided for the temporary differences between the tax base of assets and liabilities and their reported amounts in the financial statements.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

The income tax expense consists of the following:

(Amount in ZAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Current tax		
Current tax expense for current year	41,648,154	35,268,097
Current tax (benefit) / expense pertaining to prior years	(424,816)	-
	41,223,338	**35,268,097**
Deferred tax		
Deferred tax expense for current year	(3,999,166)	(8,239,407)
Deferred tax expense resulting from reduction in tax rate	-	-
Deferred tax expense pertaining to prior years	(47,375)	34,993
	(4,046,541)	**(8,204,414)**
Total tax expense	**37,176,797**	**27,063,683**

The reconciliation of estimated income tax expense at the Statutory income tax rate to income tax expense reported in statement of profit or loss and other comprehensive income is as follows:

(Amount in ZAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Current tax expenses		
Income before taxes	138,543,253	98,958,710
Statutory tax rate	27.00%	27.00%
Expected income tax expense	37,406,678	26,718,853
Less: Income exempt from tax	-	-
Tax pertaining to prior years:		
Current tax	(424,816)	-
Deferred tax	(47,375)	(34,993)
Temporary disallowed expenses		
Other non deductible	242,310	379,823
Total tax expense	**37,176,797**	**27,063,683**

Significant components of net deferred tax assets and liabilities for year ended December 31, 2025 are as follows:

(Amount in ZAR)

	Opening balance	Recognised through profit or loss	Closing balance as on December 31, 2025
Deferred tax assets			
Deferred tax assets in relation to:			
Deferred revenue	36,292,105	5,738,865	42,030,970
Allowances for receivables, loans and advances	(2,476,031)	30,957	(2,445,074)
Provisions	12,826,432	(1,731,583)	11,094,849
Other advance - rent	(8,302)	8,302	-
Total deferred tax asset (net)	**46,634,204**	**4,046,541**	**50,680,745**

Significant components of net deferred tax assets and liabilities for the year ended December 31, 2024 are as follows:

(Amount in ZAR)

	Opening balance	Recognised through profit or loss	Closing balance as on December 31, 2024
Deferred tax assets			
Deferred tax assets in relation to:			
Deferred revenue	32,685,977	3,606,128	36,292,105
Allowances for receivables, loans and advances	(111,995)	(2,364,036)	(2,476,031)
Provisions	5,855,809	6,970,623	12,826,432
Other advance - rent	-	(8,302)	(8,302)
Total deferred tax asset (net)	**38,429,791**	**8,204,413**	**46,634,204**

14. Employee benefits

The Company provides for amount payable to be employees for compensated absences per the Company's policy, which are expected to occur within twelve months after the end of the period in which the employee render the related services are recognised as undiscounted liability at the date of statement of financial position.

Employee cost consist of the following:

(Amount in ZAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Contributions to provident and other funds	19,609,421	17,393,481
Salaries & bonus	119,910,081	124,086,355
Staff welfare	1,416,957	1,821,907
Total	**140,936,459**	**143,301,743**

Employee benefit obligation consist of the following:

(Amount in ZAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Employee benefit obligations - current		
Compensated absences	3,975,095	3,762,132
Other employee benefits	4,247	4,170
Total	**3,979,342**	**3,766,302**

15. Related party transactions

TATA CONSULTANCY SERVICES (SOUTH AFRICA) (PTY) LTD principal related parties consist of its ultimate holding company Tata Sons Private Limited, its parent of holding company Tata Consultancy Services Limited, its holding Company TATA CONSULTANCY SERVICES (AFRICA) (PTY) LTD and its subsidiaries, affiliates and its key managerial personnel. The Company routinely enters into transactions with its related parties in the ordinary course of business.

Transactions with related parties

Independent auditor's report	26.27

DIRECTORS' REPORT

The directors present their report together with the financial report of TCS Financial Solutions Australia Pty Limited (''the Company'') for the year ended March 31, 2026 and the auditor's report theron.

1. DIRECTORS

The names of the directors in office at any time during or since the end of the year are:

Vikram Singh	Appointed January 31, 2025
Venkateshwaran Srinivasan	Appointed June 12, 2017

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

2. PRINCIPAL ACTIVITIES

The principal activities of the Company during the financial year were the development and sale of specialist banking software and the provision of implementation and project management services.

No significant change in the nature of these activities occurred during the year.

3. REVIEW OF OPERATIONS

The profit of the Company for the financial year after providing for income tax amounted to AUD$ 7,128,588 (2025: AUD$ 13,209,242).

The Company has continued its focus on its core competency of product development with further growth of its core banking product to capture greater market share of the Banking sector.

4. ENVIRONMENTAL ISSUES

The Company's operations are not regulated by any significant environmental regulations under a law of the Commonwealth or of a state or territory of Australia.

5. DIVIDENDS

AUD$ 15,500,000 dividend was declared and paid to TCS FNS Pty Limited (Holding Company) during the financial year (2025: AUD$ 8,000,000).

6. EVENTS SUBSEQUENT TO REPORTING DATE

There have been no matters which have arisen in the interval between the end of the financial year and the date of this report, any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

7. LIKELY DEVELOPMENTS

Information about likely developments in the operations of the Company and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Company.

8. SHARES UNDER OPTIONS

No options over issued shares or interests in the Company were granted during or since the end of the financial year and there were no options outstanding at the date of this report.

9. INDEMNITY AND INSURANCE OF OFFICERS AND AUDITORS

No indemnities have been given or insurance premiums paid, during or since the end of the financial year, for any person who is or has been an officer or auditor of the Company.

10. PROCEEDINGS ON BEHALF OF COMPANY

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to any such proceedings during the year.

11. LEAD AUDITOR'S INDEPENDENCE DECLARATION

The Lead auditor's independence declaration is set out on page 5 and forms part of the directors' report for the financial year ended March 31, 2026.

This report is made out in accordance with a resolution of the directors:

Vikram Singh

Director

Date: 04 May, 2026

LEAD AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

To the Directors of TCS Financial Solutions Australia Pty Ltd

I declare that, to the best of my knowledge and belief, in relation to the audit of TCS Financial Solutions Australia Pty Ltd for the financial year ended 31 March 2026 there have been:

i. no contraventions of the auditor independence requirements as set out in the Corporations Act 2001 in relation to the audit; and

ii. no contraventions of any applicable code of professional conduct in relation to the audit.

SEE ACCOMPANYING NOTES (1 TO 17) FORMING PART OF THE FINANCIAL STATEMENTS.

Notes forming part of the financial statements

1. REPORTING ENTITY

TCS Financial Solutions Australia Pty Limited (the "Company") is a Company limited by shares, incorporated and domiciled in Australia. The registered office address is TCS Financial Solutions Australia Pty Limited, Level 6, 76 Berry Street, North Sydney NSW 2060. TCS FNS Pty Ltd is the parent entity holding 100% of shares of the Company. The main business of the Company is to create computer software for banking and to market and license the software worldwide and to provide maintenance services.

2. BASIS OF PREPARATION

a. Basis of accounting

These financial statements are general purpose financial statements for distribution to the shareholder and for the purpose of fulfilling the requirements of the Corporations Act, 2001. They have been prepared in accordance with Australian Accounting Standards – Simplified Disclosures made by the Australian Accounting Standards Board and the Corporations Act, 2001.

The statement of cash flows have been prepared under direct method, disclosing major classes of gross cash receipts and payments related to operating activities.The Accounting Standards require cash flows from interest, Proceeds from sale of Investment and dividends received and paid to be disclosed separately.

The financial statements were authorised for issue by the directors on 04th May, 2026.

b. Basis of measurement

The financial statements have been prepared on historical cost basis at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

3. MATERIAL ACCOUNTING POLICIES

a. Income tax

The income tax expense (income) for the year comprises current income tax expense (income) and deferred tax expense (income). Current and deferred income tax expense (income) is charged or credited directly to other comprehensive income instead of the profit or loss when the tax relates to items that are credited or charged directly to other comprehensive income.

The Group has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under AASB 137 Provisions, Contingent Liabilities and Contingent.

Current tax

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that:
    - is not a business combination; and
    - at the time of the transaction (i) affects neither accounting nor taxable profit or loss and (ii) does not give rise to equal taxable and deductible temporary differences

- temporary differences related to investments in subsidiaries and associates to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflects uncertainty related to income taxes, if any.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

Tax consolidation

The Company is part of a tax consolidated group headed by the Holding Company within Australia and is not the tax parent of this group.

Current tax expense and deferred tax balances arising from temporary differences of the members of the tax-consolidated group are recognised in the separate financial statements of the members of the tax-consolidated group using the 'separate tax payer within the group' approach.

The Company has entered into a tax sharing agreement with the head entity. The tax sharing agreement in the opinion of the directors, limits the joint and several liability of the other entities within the Tax Consolidated Group in case of a default by the Company.

The entities in the Tax Consolidated Group have also entered into a Tax Funding Agreement under which the Company fully compensate the head entity for any current tax payable assumed and is compensated by the head entity for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to the head entity under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognised in the Company's financial statements.

The Organisation for Economic Co-operation and Development (OECD) has published the model rules for global minimum tax (Pillar Two model rules).

The Group has determined that the global minimum top-up tax - which it is required to pay under Pillar Two legislation - is an income tax in the scope of AASB 112.

Pillar Two legislation has been enacted, or substantively enacted, in certain jurisdictions where the Group operates. The Group is within the scope of the OECD Pillar Two model rules and has evaluated the potential exposure to global minimum tax. The Group does not expect any material financial impact for the current period. The evaluation of the potential exposure is based on the most recent country-by-country reporting, and financial statements for the constituent entities in the Group.

b. Property, plant and equipment

Each class of property, plant and equipment is carried at cost, less any accumulated depreciation and impairment losses.

Plant and equipment

Items of plant and equipment are measured at cost less depreciation and impairment losses.

The cost of fixed assets constructed within the Group includes the cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including building and capitalised leased assets, but excluding freehold land, is depreciated on a straight line basis over their useful lives to the Group commencing from the time the asset is held ready for use. Leased assets are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the assets.

The useful life for each class of depreciable assets is:

Class of fixed asset	Useful life
Furniture and fittings	5-7 years
Plant and equipment	2.5 to 7 years
Motor vehicles	5 years
Leasehold improvements	10 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting period date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are included in the statement of profit or loss and other comprehensive income.

c. Intangible assets

Intangible assets purchased are measured at cost as at the date of acquisition, less accumulated amortisation and accumulated impairment, if any. Intangible assets acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses, if any. Intangible assets are amortised on a straight line basis.

d. Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of the financial asset or financial liability.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of any direct issue costs.

e. Impairment

Financial assets (other than at fair value)

The Company assesses at each reporting date whether a financial asset or a group of financial assets is impaired. AASB 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

f. Foreign currency transactions and balances

Functional and presentation currency

The functional currency of each entity is measured using the currency of the primary economic environment in which that entity operates. The financial statements are presented in Australian dollars which is the Company's functional and presentation currency.

Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the statement of profit or loss and other comprehensive income, except where deferred in other comprehensive income as a qualifying cash flow or net investment hedge.

Exchange difference arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the gain or loss is directly recognised in other comprehensive income, otherwise the exchange difference is recognised in the statement of profit or loss and other comprehensive income.

g. Employee benefits

Provision is made for the Company's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs.

Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. Those cash flows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows.

h. Provisions

Provisions are recognised when the Company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of amounts required to settle the obligation at the end of the reporting period.

i. Revenue

The Company earns revenue primarily from sale of computer software for banking and to market and license the software worldwide and to provide maintenance services.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on an output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using the percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues includes the cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue at the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the

contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how a customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of an enforceable right to payment for performance to date and any alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Revenue for fixed-price contracts is recognised using the percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of the licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is an unconditional right to receive cash, and the only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

In accordance with AASB 137, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

The billing to customers follow different schedules based upon the nature and type of goods and services being transferred. The billing schedules agreed with customers could include periodic performance based payments and/or milestone based progress payments. Invoices are payable within a contractually agreed credit period.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews any modifications to a contract in conjunction with the original contract on the basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event that the transaction price is revised for an existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by industry verticals, geography and nature of services.

j. Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

k. Critical accounting estimates and judgments

The Directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

l. Adoption of new and revised accounting standards

The Group has adopted International Tax Reform - Pillar Two Model Rules (Amendments to AASB 112 and AASB 1060) upon their release in June 2023.

The amendments provide a temporary mandatory exception from deferred tax accounting for the top-up tax, which is effective immediately, and require disclosures about the Pillar Two exposure.

The Group has applied a temporary mandatory relief from deferred tax accounting for the impacts of the top-up tax, if any, and will account for it as a current tax when it is incurred.

Notes forming part of the financial statements

4. REVENUE

(Amounts in AUD)

	For the year ended March 31, 2026	For the year ended March 31, 2025
Operating activities		
Consultancy revenue	2,273,148	2,471,318
License fees	10,911,724	19,172,615
Total	**13,184,872**	**21,643,933**
Non operating activities		
Interest received	5,766	13,222
Total	**5,766**	**13,222**

Revenue disaggregation by industry vertical is as follows:

(Amounts in AUD)

Industry vertical	For the year ended March 31, 2026	For the year ended March 31, 2025
Banking , financial services and insurance	13,184,872	21,643,933
Total	**13,184,872**	**21,643,933**

Revenue disaggregation by geography is as follows:

(Amounts in AUD)

Geography	For the year ended March 31, 2026	For the year ended March 31, 2025
Asia Pacific	2,970,116	2,707,892
India	10,214,756	18,936,041
Total	**13,184,872**	**21,643,933**

Geographical revenue is allocated based on the location of the customers.

Revenue disaggregation by timing of revenue recognition is as follows:

(Amounts in AUD)

	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue recognised at a point in time	10,233,033	18,962,431
Revenue recognised over time	2,951,839	2,681,502
Total	**13,184,872**	**21,643,933**

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in AASB 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognized corresponds to the value transferred to the customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are futuristic and therefore subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is AUD$ 1,721,185 out of which AUD$ 1,132,484 (65.80%) is expected to be recognized as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

5. INCOME TAX EXPENSES

(Amounts in AUD)

	For the year ended March 31, 2026	For the year ended March 31, 2025
Current tax expense	(3,005,828)	(5,598,817)
Tax expense related to prior years	307,971	329,411
Deferred tax benefit/(expense)	86,002	52,582
Total	**(2,611,855)**	**(5,216,824)**
Reconciliation of effective tax rate		
Profit before tax	9,740,443	18,426,066
Current tax provision @ 30% (2025: 30%)	(2,922,133)	(5,527,820)
Over/(under) provision from prior year	307,971	329,411

13. SHARE CAPITAL

(Amounts in AUD)

	As at March 31, 2026	As at March 31, 2025
Ordinary shares	4	4
Issued and fully paid	**4**	**4**

The Company does not have a limited amount of authorised capital and issued shares do not have a par value.

There has been no movement in ordinary shares on issue during the current or previous two financial years.

Ordinary shares participate in dividends and proceeds on winding up of the Company in proportion to the number of shares held.

At the shareholders' meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

Capital management

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term product and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

17. EVENTS AFTER BALANCE SHEET DATE

No matters or circumstances have arisen since the end of March 31, 2026, which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

18. DEED OF CROSS GUARANTEE

The Company has entered a deed of cross-guarantee with its holding company , TCS FNS Pty Limited.

Pursuant to *ASIC Corporations (Wholly owned Companies) Instrument 2016/785*, the Company guarantees to each creditor payment in full of any debt in the event of winding up of the companies under provisions of the Corporations Act, 2001. If a winding up occurs under the provisions of the Act, the Company will only be liable if after six months any creditor has not been paid in full.

The Company has also given similar guarantees if the Parent is wound up.

Notes forming part of the financial statements

A statement of comprehensive income and statement of financial position, comprising the Company which are a party to the Deed, after eliminating all transactions between parties to the Deed of Cross Guarantee, for the year ended 31 March 2026 is set out as follows:

DIRECTORS' DECLARATION

1. In the opinion of the directors of TCS Financial Solutions Australia Pty Limited (" the Company")

   (a) the Company is not publicly accountable.

   (b) the financial statements and notes, set out on pages (6 to 21), are in accordance with the Corporations Act 2001, including:

      (i) giving a true and fair view of the financial position of the Company as at March 31, 2026 and of its performance for the financial year ended on that date and

      (ii) complying with Australian Accounting Standards- Simplified Disclosure Requirements and the Corporations Regulations 2001; and

   (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

2. There are reasonable grounds to believe that the Company and the Group entities identified in the Note will be able to meet any obligations or liabilities to which they are or may become subject to by virtue of the deed of Cross Guarantee between the Company and those Group entities pursuant to ASIC Corporations (Wholly-owned Companies) Instrument 2016/785.

Signed in accordance with a resolution of the directors

Vikram Singh

Director

Date: 04th May, 2026

INDEPENDENT AUDITOR'S REPORT

To the shareholder of
TCS Financial Solutions Australia Pty Limited

Opinion

We have audited the Financial Report of TCS Financial Solutions Australia Pty Limited (the Company).

In our opinion, the accompanying Financial Report of the Company gives a true and fair view, including of the Company's financial position as at 31 March 2026 and of its financial performance for the year then ended, in accordance with the Corporations Act 2001, in compliance with Australian Accounting Standards - Simplified Disclosures and the Corporations Regulations 2001.

The Financial Report comprises:

- Statement of financial position as at 31 March 2026
- Statement of profit or loss and other comprehensive income, Statement of changes in equity, and Statement of cash flows for the year then ended
- The entity disclosure statement and accompanying basis of preparation as at 31 March 2026
- Notes, including material accounting policies
- Directors' Declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Report section of our report.

We are independent of the Company in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Other Information

Other Information is financial and non-financial information in TCS Financial Solutions Australia Pty Limited's annual report which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report in accordance with the Corporations Act 2001, including giving a true and fair view of the financial position and performance of the Company, and in compliance with Australian Accounting Standards -Simplified Disclosures and the Corporations Regulations 2001
- implementing necessary internal control to enable the preparation of a Financial Report in accordance with the Corporations Act 2001, including giving a true and fair view of the financial position and performance of the Company, and that is free from material misstatement, whether due to fraud or error
- assessing the Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so..

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our Auditor's Report.

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2026

The Directors have pleasure in submitting their report and the audited financial statements of the Company for the financial year ended 31 March 2026.

Principal activities

The Company is principally engaged in the provision of end-to-end information technology consulting and software services. There has been no significant change in the nature of these activities during the financial year.

Ultimate holding company

The Director regard Tata Sons Limited, a company incorporated in India, as the ultimate holding company during the financial year and until the date of this report.

Results

	RM
Profit for the year	31,990,048

Reserves and provisions

There were no material transfers to or from reserves and provisions during the financial year under review except as disclosed in the financial statements.

Dividends

Since the end of the previous financial year, the amount of dividends declared and paid by the Company were as follows:

- interim ordinary dividend of RM2.50 per ordinary share in respect of the financial year ended 31 March 2026, totalling RM5,000,000 declared on 27 June 2025 and paid on 30 June 2025;
- interim ordinary dividend of RM2.50 per ordinary share in respect of the financial year ended 31 March 2026, totalling RM5,000,000 declared on 22 August 2025 and paid on 25 August 2025;
- interim ordinary dividend of RM2.50 per ordinary share in respect of the financial year ended 31 March 2026, totalling RM5,000,000 declared on 17 November 2025 and paid on 24 November 2025.
- interim ordinary dividend of RM4.00 per ordinary share in respect of the financial year ended 31 March 2026, totalling RM8,000,000 declared on 20 February 2026 and paid on 23 February 2026.

The Directors do not recommend any final dividend in respect of the current financial year.

Directors of the Company

Directors who served during the financial year until the date of this report are:

Girish Payangatiri Ramachandran

Jeevan A/L Sarangam Rajoo

Vasudevan Rajagopalan

Sisir Kumar Sahu

Directors' interests in shares

The interests and deemed interests in the ordinary shares of the Company and of its related corporations of those who were Directors at financial year end as recorded in the Register of Directors' Shareholdings are as follows:

	Number of ordinary shares			
	At 1.4.2025	Bought	Sold	At 31.3.2026
Penultimate holding company				
Tata Consultancy Services Limited				
Direct interests:				
Girish Payangatiri Ramachandran	5,000	-	-	5,000
Vasudevan Rajagopalan	3,734	-		3,734
Sisir Kumar Sahu	576	-	-	576

The other Director holding office at 31 March 2026 did not have any interest in the ordinary shares of the Company and of its related corporations during the financial year.

Directors' benefits

Since the end of the previous financial year, no Director of the Company has received nor become entitled to receive any benefit (other than those shown below) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

The Directors' benefits paid to or receivable by directors in respect of the financial year ended 31 March 2026 are as follows:

Directors of the Company:

	RM
Remunerations	2,428,898

There were no arrangements during and at the end of the financial year which had the object of enabling Directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

Issue of shares and debentures

There were no changes in the issued and paid-up capital of the Company during the financial year. There were no debentures issued during the financial year.

Options granted over unissued shares

No options were granted to any person to take up unissued shares of the Company during the financial year.

Indemnity and insurance costs

During the financial year, no indemnity was given to or insurance was effected for Directors, officers and auditors of the Company.

Other statutory information

Before the financial statements of the Company were made out, the Directors took reasonable steps to ascertain that:

i) all known bad debts have been written off and adequate provision made for doubtful debts, and

ii) any current assets which were unlikely to be realised in the ordinary course of business have been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

i) that would render the amount written off for bad debts or the amount of the provision for doubtful debts in the Company inadequate to any substantial extent, or

ii) that would render the value attributed to the current assets in the financial statements of the Company misleading, or

iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Company misleading or inappropriate, or

iv) not otherwise dealt with in this report or the financial statements that would render any amount stated in the financial statements of the Company misleading.

At the date of this report, there does not exist:

i) any charge on the assets of the Company that has arisen since the end of the financial year and which secures the liabilities of any other person, or

ii) any contingent liability in respect of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Company to meet its obligations as and when they fall due.

In the opinion of the Directors, the financial performance of the Company for the financial year ended 31 March 2026 has not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

Auditors

The auditors, KPMG PLT, have indicated their willingness to accept re-appointment.

The auditors' remuneration of the Company during the year is RM36,388.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors:

Jeevan A/L Sarangam Rajoo
Director
Date : 30 April 2026

Sisir Kumar Sahu

Notes to the financial statements

TATA Consultancy Services Malaysia Sdn. Bhd. is a private limited liability company, incorporated and domiciled in Malaysia. The addresses of the principal place of business and registered office of the Company are as follows:

Principal place of business
Level 22A, Axiata Tower
No. 9, Jalan Stesen Sentral 5
50470 Kuala Lumpur Sentral
Kuala Lumpur, Malaysia

Registered office
12th Floor, Menara Symphony
No. 5, Jalan Prof. Khoo Kay Kim
Seksyen 13
46200 Petaling Jaya
Selangor, Malaysia

The Company is principally engaged in the provision of end-to-end information technology consulting and software services.

The immediate holding company during the financial year was Tata Consultancy Services Asia Pacific Pte. Ltd., a company incorporated in Singapore. The penultimate and ultimate holding companies during the financial year were Tata Consultancy Services Limited and Tata Sons Limited. Both companies were incorporated in India.

These financial statements were authorised for issue by the Board of Directors on 30 April 2026.

1. BASIS OF PREPARATION

(a) Statement of compliance

The financial statements of the Company have been prepared in accordance with Malaysian Private Entities Reporting Standard ("MPERS") and the requirements of the Companies Act 2016 in Malaysia.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 2.

(c) Functional and presentation currency

These financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional currency.

(d) Use of estimates and judgements

The preparation of the financial statements in conformity with MPERS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements.

2. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, unless otherwise stated.

(a) Foreign currency

Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting date.

All foreign currency differences are recognised in profit or loss.

(b) Financial instruments

(i) Initial recognition and measurement

A financial asset or financial liability is recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is recognised initially at the transaction price (including transaction costs except in the initial measurement of a financial asset or financial liability that is subsequently measured at fair value through profit or loss) unless the arrangement constitutes, in effect, a financing transaction for the Company (for a financial liability) or the counterparty (for a financial asset) to the arrangement. If the arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument as determined at initial recognition.

(ii) Subsequent measurement

Debt instruments that meet the following conditions are measured at amortised cost using the effective interest method:

(a) returns to the holder are determinable, e.g. a fixed amount and/or variable rate of return benchmark against a quoted or observable interest rate;

(b) there is no contractual provision that could result in the holder losing the principal amount or any interest attributable to the current period or prior periods; and

(c) prepayment option, if any, is not contingent on future events.

Debt instruments that are classified as current assets or current liabilities are measured at the undiscounted amount of the cash or other consideration expected to be paid or received unless the arrangement constitutes, in effect, a financing transaction.

All financial assets are assessed at each reporting date whether there is any objective evidence of impairment. An impairment loss is measured as follows:

- For an instrument measured at amortised cost, the impairment loss is the difference between the asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate.
- For an instrument measured at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

All other financial assets or financial liabilities not measured at amortised cost or cost less impairment are measured at fair value with changes recognised in profit or loss.

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or are settled, or control of the asset is not retained or substantially all of the risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount of the financial asset derecognised and the consideration received, including any newly created rights and obligations, is recognised in profit or loss.

A financial liability or part of it is derecognised when, and only when, the obligation specified in the contract is discharged, cancelled or expires. On derecognition of a financial liability, the difference between the carrying

amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(c) Plant and equipment

(i) Recognition and measurement

Items of plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain or loss on disposal of an item of plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and is recognised net within "other income" or "other expenses" respectively in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The cost of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment from the date that they are available for use. Construction-in-progress are not depreciated until the assets are ready fortheir intended use.

The estimated useful lives are as follows:

• Computers	4 years
• Furniture and fittings	5-10 years
• *Leasehold improvements*	Lease period
• *Office equipment*	5 years

If there is an indication that there has been a significant change since the last annual reporting date in the pattern by which the Company expects to consume an asset's future economic benefits, the Company would review its present depreciation method and, if current expectations differ, the Company would amend the residual value, depreciation method or useful life to reflect the new pattern.

(d) Leased assets

Operating leases

Leases, where the Company does not assume substantially all the risks and rewards of ownership are classified as operating leases and the leased assets are not recognised on the statement of financial position.

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease. Contingent rentals are charged to profit or loss in the reporting period in which they are incurred.

(e) Amount due from/to contract customers

Amount due from contract customers represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised to date less progress billings and recognised losses. Cost includes all expenditure related directly to specific projects and an allocation of fixed and variable overheads incurred in the Company's contract activities based on normal operating capacity. If progress billings exceed costs incurred plus recognised profits, then the difference is presented as amount due to contract customers which is part of trade and other payables in the statement of financial position.

(f) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks.

(g) Impairment of non-financial assets

The carrying amounts of non-financial assets (i.e. plant and equipment) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

Impairment losses are recognised in the profit or loss. Impairment losses recognised in respect ofcash-generating units are allocated to reduce the carrying amounts of the assets in the cash-generating unit (groups of cash-generating units) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed If there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

(h) Equity instruments

Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently.

Ordinary shares

Ordinary shares are classified as equity.

(i) Employee benefits

(i) Short-term employee benefits

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) State plans

The Company's contributions to statutory pension funds are charged to profit or loss in the financial year to which they relate. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(j) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre- tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

(k) Revenue and other income

(i) Goods sold and services

The Company earns revenue from services rendered in relation to information technology and consultancy services. Revenue is recognised only when evidence of an arrangement is obtained and the other criteria to support revenue recognition are met, including the price is fixed or determinable, services have been rendered and collectability of the resulting receivables is reasonably assured. Revenue is reported net of discounts and goods and services tax.

Revenue from bundled contracts that involve supplying computer equipment, licensing software and providing services is allocated separately based on their fair value.

Revenue from contract priced on a time and material basis is recognised as services are rendered and as related costs are incurred.

Revenue from software development contracts, which are generally time bound fixed price contracts, is recognised over the life of the contract using the percentage-of-completion method, with contract costs determining the degree of completion. Losses of such contracts are recognised when probable.

Revenue from Business Process Services contracts priced on the basis of time and material or unit of delivery is recognised as services are rendered or related obligation is performed.

Revenue from sale of internally developed software systems is recognised upon delivery, which is when the absolute right to use passes to the customer and the Company does not have material remaining service obligations.

Revenue from maintenance contracts is recognised on a pro-rate basis over the period of the contract.

(ii) Interest income

Interest income is recognised as it accrues using the effective interest method in profit or loss.

(l) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the temporary differences that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset if, and only if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they plan to settle current tax assets and liabilities on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3. PLANT AND EQUIPMENT

(Amount in RM)

	Computers	Furniture and fittings	Leasehold improvement	Office equipment	Construction-in-progress*	Total
Cost

INDEPENDENT AUDITORS' REPORT

TO THE MEMBER OF

TATA CONSULTANCY SERVICES MALAYSIA SDN. BHD.
(Registration No.: 200301022873 (625293-W))
(Incorporated in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of TATA Consultancy Services Malaysia Sdn. Bhd., which comprise the statement of financial position as at 31 March 2026, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 5 to 26.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2026, and of its financial performance and its cash flows for the year then ended in accordance with Malaysian Private Entities Reporting Standard and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the financial statements of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Company does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Company, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Company or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements of the Company that give a true and fair view in accordance with Malaysian Private Entities Reporting Standard and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Company, the Directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Company, including the disclosures, and whether the financial statements of the Company represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matter

This report is made solely to the member of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

AUDITOR'S REPORT

GTCNSZ (2026) NO.110C007550

To the Board of Directors of Tata Consultancy Services (China) Co., Ltd ,:

Opinion

We have audited the financial statement of TATA Consultancy Services (China) Co., Ltd , (the "Company"), which comprise the statement of financial position as at 31 December 2025, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and the notes to the financial statements.

In our opinion, the accompanying financial statement present fairly, in all material respects, the financial position of the Company as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with Accounting Standards for Business Enterprises.

Basis for Opinion

We conducted our audit in accordance with China Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement Section of our report. We are independent of the Company in accordance with the Code of Ethics together with the Independence Standards for Chinese Certified Public Accountant, and we fulfilled our other ethical responsibilities in accordance with these requirements and the Ethics Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charge with Governance for the Financial Statement

The Management is responsible for the preparation and fair presentation of the financial statement in accordance with Accounting Standards for Business Enterprises, and for such internal control as management determines in necessary to enable the preparation of financial statements that are free form material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charge with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statement

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with China Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise form fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with China Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, further events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Grant Thornton Zhitong Certified Public Accountants LLP

I. COMPANY BACKGROUND AND PRINCIPAL ACTIVITIES

TATA Consultancy Services (China) Co., Ltd. (hereafter the "Company") is a foreign owned investment enterprise registered on 18 October 2006 with the approval from Ministry of Commerce of PRC (Shang Zi Pi No.[2006]1936) and Beijing Municipal People's Government (Shang Wai Zi Jing Zi No. [2006] 20517) in 2006. The Company is located in Tower D, 3rd District, No.9 Building, Zhongguancun, Software Park, 8 Dongbeiwang West Road, Haidian District, Beijing. The registered capital of the Company is RMB 100,800,000 and the Company obtained its business license with the registered number of 110000410302580 (Register on 16 November 2006). In 2008, the registered capital changed to RMB 110,400,000 with the approval from Beijing Bureau of Commerce (Jing Shang Zi No.[2008]1748). The Company obtained the new business license (No. 110000410302580) which was reissued by Beijing municipal people's government.

In 2010, according to the Resolution of interim shareholders' meeting, the Company merged TITL. After that, the registered capital increase to RMB 201,936,346.00, with the approval from Beijing Municipal Commission of Commerce (Jing Shangwu Zi Zi No.[2010]1077). On 21 December 2010, the Company received the renewal certificate of approval (Shang Waizi Jing Zi No. [2006] 20517) and business license (No. 110000410302580) from Beijing Municipal People's Government.

On November 28, 2016, the Company changed the basic information include the change of ownership, cooperation rights and interests, with the record of Jing Hai Wai Zi Bei 201600099. The capital contributions of investors after changes shown as follow:

Investors	% of investment
TATA Consultancy Services Asia Pacific Pte Ltd	93.20
Beijing Zhongguancun Software Park Development Co.,Ltd	3.60
Tianjin Huayuan Software Area Construction and Development Co.,Ltd	3.20
Total	**100.00**

On November 26, 2021, according to the "TCS(China) (2021) Shareholder's Circular Resolution No. SH-2021-01" of the company, agree that Beijing Zhongguancun Software Park Development Co., Ltd. (hereinafter referred to as the "BZS") transfer all 7,269,709 shares and Tianjin Huayuan Software Area Construction and Development Co., Ltd. (hereinafter referred to as the "THS") transfer 6,461,963 shares held by it in the Company in accordance with Chinese relevant laws and regulations, the Promoters' Agreement relating to the establishment of (a Foreign-Invested Joint Stock Company) TATA Consultancy Services Asia Pacific Pte Ltd (hereinafter referred to as the "THS"), BZS and THS waive the preemptive right over the shares transferred by each other. While TCS does not waive the right of preemption of transferred shares.

The company's chinese name was changed with the approval from Beijing Haidian District Market Supervision and Administration Bureau on 18 May 2022. The company submitted the "Registration Notice" (JHDZ [2012] No. 0090313) on the same day, changed the contents of the responsible person, shareholder equity, personnel equity and enterprise type. The company obtained a revised business licence No.91110108717867162U on 18 May 2022. The capital contributions of investors after changes shown as follow:

Investors	% of investment
TATA Consultancy Services Asia Pacific Pte Ltd	100.00

In accordance with the resolution of the Board of Directors of the Company on the "Resolution on the Acquisition of the Share Capital of TCS Financial Solutions Beijing Co. Ltd " made in March 2023, it is agreed that in accordance with the appraisal report issued by Zoomlion Asset Appraisal Group Co., LTD in March 2023, at the consideration of RMB 34,090,100.00, to purchase 100% of the equity held by Tata Consultancy Services Financial Solutions Australia Pte LTD in TCS Financial Solutions Beijing Co. Ltd (hereinafter "FSBJ").

On 6 March 2023, the Company entered into a tripartite Equity Transfer Agreement with Tata Consultancy Services Financial Solutions Australia Pte LTD and FSBJ, under which the underlying equity transferred is 100% of the equity in FSBJ held by Tata Consultancy Services Financial Solutions Australia Pte LTD. The registered capital of FSBJ is US $5.25 million, the paid-in investment is US $5.25 million, and the transfer price of the underlying equity is RMB 34,090,100.00.

According to the board resolution of our Company in April 2024, we agree to merge with Jinxunrong Company. On May 22, 2024, our company signed a "Merger Agreement" with Jinxunrong Company, which stipulated that our Company intends to

absorb and merge Jinxunrong Company. After the implementation of this merger, all assets, liabilities, business, personnel, contracts, qualifications, and other rights and obligations of Jinxunrong Company will be taken over and inherited by our company, and our company will continue to exist. Jinxunrong Company will be deregistered. The change was approved by Beijing Haidian District Market Supervision Administration and a new unified social credit code 91110108717867162U business license was obtained on November 27, 2024.

The approved scope of business operations includes the development and production of software; the production and sale of self-product; the development, consultation, service and transfer of technology; the service of data processing and electronic information storage; the development, consultation and transfer of network technology; the integration of computer system; the wholesale and commission agent (apart from auctions) of computer and component, electronic products as well as office supplies; the import and export business of product and technology; the agent of import and export business; the business process outsourcing services (not related to state trading management of goods, involving quotas, licenses, and the management of commodity in accordance with relevant state provisions application).

II. BASIS OF PREPARATION

The financial statements are prepared in accordance with the Accounting Standards for Business Enterprises and corresponding application guidance, interpretations and other related provisions issued by the Ministry of Finance (collectively, "Accounting Standards for Business Enterprises").

The financial statements of the Company have been prepared on going concern basis.

The Company adopts the accrual basis of accounting. Except for certain financial instruments, the financial statements are prepared under the historical cost convention. In the event that impairment of assets occurs, a loss allowance is made accordingly in accordance with the relevant regulations.

III. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

1. Statement of compliance with the Accounting Standards for Business Enterprises

The financial statements have been prepared in compliance with the Accounting Standards for Business Enterprises to truly and completely present financial position as at 31 December 2025 and operating results and cash flows for the year ended 31 December 2025.

2. Accounting Period

The accounting period of the Company is from 1 January to 31 December.

3. Functional currency

The Company use Renminbi ("RMB") as its functional currency. The financial statements of the Company have been prepared in RMB.

4. Cash and cash equivalents

Cash comprises cash in hand and deposits that can be readily withdrawn on demand. Cash equivalents include short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of change in value.

5. Foreign currency transactions

Foreign currency transactions are translated to the functional currency of the Company at the spot exchange rates on the dates of the transactions.

Monetary items denominated in foreign currencies are translated to Renminbi at the spot exchange rate at the balance sheet date. The resulting exchange differences between the spot exchange rate on balance sheet date and the spot exchange rate on initial recognition or on the previous balance sheet date are recognised in profit or loss. Non-monetary items that are measured at historical cost in foreign currencies are translated to Renminbi using the exchange rate at the transaction date. Non-monetary items that are measured at fair value in foreign currencies are translated using the exchange rate at the date the fair value is determined. The resulting exchange differences are recognised in profit or loss.

6. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one enterprise and a financial liability or an equity instrument of another enterprise.

(1) Recognition and derecognition of financial instruments

A financial asset or a financial liability is recognized when the Company becomes a party to the contractual provisions of a financial instrument.

If one of the following criteria is met, a financial asset is derecognised:

① The contractual rights to the cash flows from the financial asset expire; or

② The financial asset was transferred, and the transfer qualifies for derecognition in accordance with criteria set out below in "Transfer of financial assets".

A financial liability (or part of it) is derecognized when its contractual obligation (or part of it) is discharged or cancelled or expires. If the Company (as a debtor) makes an agreement with the creditor to replace the current financial liability with assuming a new financial liability, and contractual provisions are different in substance, the current financial liability is derecognized and a new financial liability is recognized.

If the financial assets are traded regularly, the financial assets are recognized and derecognized at the transaction date.

(2) Classification and measurement of financial assets

The Company classifies financial assets as measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss at initial recognition on the basis of both the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Financial assets are measured at fair value at initial recognition. For financial assets measured at fair value through profit or loss, the related transaction costs are directly recorded in current profit or loss; for other types of financial assets, related transaction costs are included in the initial recognition amount. For receivables arising from the sale of products or the provision of services that do not contain or take into account significant financing components, the amount of consideration that the Company is expected to be entitled to collect shall be the initial recognition amount.

Financial assets measured at amortized cost

The Company classifies the financial assets that meet the following conditions and are not designated as measured at fair value through profit or loss as financial assets measured at amortized cost:

- The Company 's business model of managing the financial assets aims at collecting contractual cash flows;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After the initial recognition, the effective interest rate method is adopted to measure the amortized cost of such financial assets. Gains or losses arising from financial assets that are measured at amortized cost and are not part of any hedging relationship shall be recorded in the current profit or loss when the financial assets are derecognized, amortized according to the effective interest method or impaired.

Financial assets measured at fair value through other comprehensive income

The Company classifies the financial assets that simultaneously meet the following conditions and are not specified as measured at fair value through profit or loss as financial assets measured at fair value through other comprehensive income:

- The Company's business model of managing the financial asset aims at both collecting contractual cash flows and selling the financial assets.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After the initial recognition, this type of financial assets are subsequently measured at fair value. The interest, loss allowance or gain and exchange loss or gain calculated using the effective interest rate method are included in the current profit or loss, while other gains or losses are included in other comprehensive income. When derecognized, the accumulated gains or losses previously recorded in other comprehensive income shall be transferred out from other comprehensive income and recorded in the current profit or loss.

Financial assets measured at fair value through profit or loss

In addition to the above financial assets measured at amortized cost and measured at fair value through other comprehensive income, the Company classifies all other financial assets as financial assets measured at fair value through profit or loss. At the time of initial recognition, in order to eliminate or significantly reduce accounting mismatches, the Company irrevocably designates some financial assets that should have been measured at amortized cost or measured at fair value through other comprehensive income as financial assets measured at fair value through profit or loss.

After the initial recognition, this kind of financial asset is subsequently measured at fair value, and the gains or losses (including interest and dividend income) generated are recorded into the current profit or loss, unless the financial asset is part of the hedging relationship.

The business model of managing financial assets refers to how the Company manages financial assets to generate cash flows. The business model determines whether the cash flow from the financial assets under management of the Company is derived from the receipt of contractual cash flows, the sale of financial assets or a combination of both. The Company determines its business model for managing financial assets on the basis of objective facts and the specific business objectives for the management of financial assets determined by key management personnel.

The Company assesses the contractual cash flow characteristics of financial assets to determine whether the contractual cash flows generated by the relevant financial assets on specified dates are solely payments of principal and interest on the principal amount outstanding. Principal refers to the fair value of financial assets at initial recognition. Interest includes consideration for the time value of money, the credit risk associated with the amount of principal outstanding over a given period, and other basic lending risks and costs, as well as a profit margin. In addition, the Company assesses contractual terms that may cause a change in the time distribution or amount of the contractual cash flows of financial assets to determine whether they meet the requirements of the above contractual cash flow characteristics.

Only when the Company changes the business model of managing financial assets, all affected related financial assets shall be reclassified on the first day of the first reporting period after the change of the business model, otherwise the financial assets shall not be reclassified after the initial recognition.

Financial assets are measured at fair value upon initial recognition. For financial assets at fair value through profit or loss, related transaction costs are recognized directly in profit or loss. For other categories of financial assets, related transaction costs are included in the amount recognized at initial recognition. Receivables arising from sales of products or rendering of services that do not contain or are not considered to contain a significant financing component are initially measured at the amount of consideration to which the Company expects to be entitled.

(3) Classification and measurement of financial liabilities

At the time of initial recognition, the financial liabilities of the Company are classified as: financial liabilities measured at fair value through profit or loss, and financial liabilities measured at amortized cost. For financial liabilities that are not classified as measured at fair value through profit or loss, relevant transaction costs are included in their initial recognized amounts.

Financial liabilities measured at fair value through profit or loss

Financial liabilities measured at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated at the time of initial recognition as measured at fair value through profit or loss. For such financial liabilities, the subsequent measurement shall be made according to the fair value, and the gains or losses caused by changes in the fair value as well as the dividends and interest expenses related to such financial liabilities shall be recorded into current profit or loss.

Financial liabilities measured at amortized cost

For other financial liabilities, the effective interest rate method shall be adopted, the subsequent measurement shall be made at the amortized cost, and the gains or losses arising from derecognition or amortization shall be recorded into current profit or loss.

The distinction between financial liabilities and equity instruments

Financial liabilities refer to liabilities that meet one of the following conditions:

① A contractual obligation to deliver cash or other financial assets to other parties.

② A contractual obligation to exchange financial assets or financial liabilities with another party under potentially adverse conditions.

③ A non-derivative contract that has to be settled with or can be settled with the firm's own equity instruments in the future, under which the firm will deliver a variable number of its own equity instruments.

④ A derivative contract that has to be settled with or can be settled with the firm's own equity instruments in the future, except for a derivative contract in which a fixed number of its own equity instruments are to be exchanged for a fixed amount of cash or other financial assets.

An equity instrument is a contract that certifies ownership of the remaining interest in an enterprise's assets after all liabilities have been deducted.

If the Company cannot unconditionally avoid fulfilling a contractual obligation by delivering cash or other financial assets, such contractual obligation meets the definition of a financial liability.

If a financial instrument has to be settled with or can be settled with the Company's own equity instruments in the future, consideration needs to be given to whether the Company's own equity instruments used to settle the instrument is to be used as a substitute for cash or other financial assets, or to give the holder of the instrument the remaining interest in the issuer's assets after deduction of all liabilities. If it is the former, the instrument is a financial liability of the Company; if it is the latter, the instrument is an equity instrument of the Company.

(4) Fair value of financial instruments

For the determination of fair value of financial assets and financial liabilities, see Note III.7.

(5) Impairment of financial assets

On the basis of expected credit losses, the Company conducts impairment accounting treatment for the following items and recognises the allowance:

- Financial assets measured at amortized cost;
- Receivables and investments in debt instruments measured at fair value and accounted for in other comprehensive income;
- Contract assets as defined in the Accounting Standards for Business Enterprises No. 14 - Revenue;
- Lease receivables;
- Financial guarantee contracts (except for financial assets measured at fair value through profit or loss, transfer of financial assets that do not meet the conditions for derecognition or those caused by continuing involvement in transferred financial assets).

Measurement of expected credit losses

The term "expected credit loss" refers to the weighted average of the credit loss of a financial instrument weighted by the risk of default. Credit loss refers to the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, that is, the present value of all cash shortfalls.

The Company calculates the probabilistic weighted amount of the present value of the difference between the cash flows receivable under the contract and the cash flows expected to be received and recognizes the expected

credit loss, taking into account reasonable and supportable information concerning past events, current conditions and forecast of future economic conditions, with the respective risks of a default occurring as the weights.

The Company separately measures the expected credit losses of financial instruments at different stages. If the credit risk of the financial instrument has not increased significantly since the initial recognition, the financial instrument is in the first stage and the Company shall measure the loss allowance at an amount equal to 12-month expected credit losses; if the credit risk of the financial instrument has increased significantly since the initial recognition but no credit losses have occurred, the financial instrument is in the second stage and the Company shall measure the loss allowance at an amount equal to lifetime expected credit losses; if credit losses have occurred to a financial instrument since its initial recognition, it is in the third stage and the Company shall measure the loss allowance at an amount equal to lifetime expected credit losses.

For financial instruments with low credit risk at the balance sheet date, the Company assumes that the credit risk has not increased significantly since the initial recognition, and measures the loss allowance at an amount equal to 12-month expected credit losses.

The term "lifetime expected credit losses" refers to the expected credit losses resulting from all possible events of default during the entire expected life of a financial instrument. The expected credit losses within the next 12 months refer to the expected credit loss caused by the default event of the financial instrument that may occur within 12 months after the balance sheet date (or the expected duration of the financial instrument if the expected duration of the financial instrument is less than 12 months) and is part of lifetime expected credit losses.

When measuring expected credit losses, the Company shall take into account the longest contract period (including the option to renew the contract) for which it is exposed to credit risk.

The Company calculates interest income on the basis of the Book value before impairment provisions and the effective interest rate for financial instruments in stage I and stage II and with lower credit risk.

For financial instruments in the third stage, the interest income is calculated on the basis of the amortized cost of the Book value less the impairment provision and the effective interest rate.

For bills receivable, accounts receivable, financing receivables, other receivables, contract assets, etc., if the credit risk characteristics of a customer are significantly different from those of other customers in the group, or the credit risk characteristics of such customer are significantly changed, the Company shall assess for impairment individually for such receivables. In addition to the receivables assessed for impairment individually, the Company divides the receivables into groups according to the credit risk characteristics and calculates the loss allowance on the basis of the group.

Bills receivable, accounts receivable and contract assets

For bills receivable, accounts receivable and contract assets, regardless of whether there is a material financing component, the Company always measures its loss allowance at an amount equal to lifetime expected credit losses.

When an individual financial asset or contract asset cannot assess the information of expected credit loss at a reasonable cost, the Company divides the bills receivable, accounts receivable and contract assets into groups according to the credit risk characteristics, calculates the expected credit losses based on the groups which are determined as follows:

Accounts receivables

- Accounts receivable group 1: Accounts Receivable from Domestic Customers
- Accounts receivable group 2: Accounts Receivable from Related Parties

Other receivables

The Company divides other receivables into several groups according to the credit risk characteristics, and calculates the expected credit losses on the basis of the groups which are determined as follows:

- Other receivables group 1: Deposits and Guarantees Receivable
- Other receivables group 2: Due from Employees and Other Debtors

For other receivables divided into groups, the Company calculates the expected credit losses by default risk exposure and the expected credit losses rate over the next 12 months or the entire duration.

Debt investment and other debt investment

For debt investment and other debt investment, the Company calculates the expected credit loss based on the default risk exposure and the expected credit loss rate within the next 12 months or the entire duration according to the nature of the investment and the various types of counterparties and risk exposures.

An assessment of a significant increase in credit risk

By comparing the risk of default of financial instruments on the balance sheet date with the risk of default on the initial recognition date, the Company determines the relative change of default risk within the expected duration of financial instruments, so as to evaluate whether the credit risk of financial instruments has significantly increased since the initial recognition.

In determining whether credit risk has increased significantly since the initial recognition, the Company considers reasonable and supportable information, including forward-looking information that can be obtained without unnecessary additional cost or effort. Information considered by the Company includes:

- The debtor fails to pay the principal and interest as due under the contract;
- A material deterioration, if any, of the external or internal credit rating of the financial instrument that has occurred or is expected to occur;
- A serious deterioration of the debtor's business results occurred or is expected to occur;
- A change in the existing or anticipated technological, market, economic or legal environment which will have a material adverse effect on the debtor's ability to repay the Company.

According to the nature of financial instruments, the Company evaluates whether credit risk increases significantly on the basis of individual financial instruments or a group of financial instruments. When assessing on the basis of a group of financial instruments, the Company may classify financial instruments based on common credit risk characteristics, such as overdue information and credit risk rating.

Credit-impaired financial assets

On the balance sheet date, the Company evaluates whether credit impairment has occurred in financial assets measured at amortized cost and debt investments measured at fair value through other comprehensive income. When one or more events which have an adverse effect on the expected future cash flows of a financial asset occur, the financial asset becomes a credit-impaired financial asset. Evidence of credit impairment of financial assets includes the following observable information:

- Major financial difficulties occur to the issuer or the debtor;
- A breach of contract by the debtor, such as a default or late payment of interest or principal;
- The Company, for economic or contractual considerations relating to the debtor's financial difficulties, gives concessions that the debtor would not have made under any other circumstances;
- The debtor is likely to go bankrupt or undergo other financial restructuring;
- The financial difficulties of the issuer or debtor result in the disappearance of an active market for the financial asset.

Presentation of expected credit losses

In order to reflect the change of the credit risk of financial instruments since the initial recognition, the Company re-measures the expected credit losses on each balance sheet date, and the increase or recovered amount of the loss allowance thus formed shall be recorded into the current profit or loss as an loss allowance or gain. For a financial asset measured at amortized cost, the loss allowance shall offset the carrying amount of the financial asset as stated in the balance sheet; for the debt investment measured at fair value through other comprehensive income, the Company recognizes its loss allowancce in other comprehensive income and does not offset the carrying amount of the financial asset.

Write-offs

If the Company no longer reasonably expects that the contractual cash flows of a financial asset can be recovered in its entirety or a portion thereof, the carrying amount of the financial asset shall be directly written off. Such a write-off constitutes a derecognition of the relevant financial asset. This usually occurs when the Company determines that the debtor does not have assets or sources of income that generate sufficient cash flows to repay the amount to be written off. However, in accordance with the Company's procedures for recovering amounts due, the financial assets that have been written off may still be affected by the execution activities.

If a financial asset that has been written off is recovered later, a reversal of loss allowance shall be recorded in profit or loss of the current period.

7. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company measures related assets or liabilities at fair value assuming the assets or liabilities are exchanged in an orderly transaction in the principal market; in the absence of a principal market, assuming the assets or liabilities are exchanged in an orderly transaction in the most advantageous market. Principal market (or the most advantageous market) is the market that the Company can normally enter into a transaction on measurement date. The Company adopts the presumptions that would be used by market participants in achieving the maximized economic value of the assets or liabilities.

For financial assets or financial liabilities with active markets, the Company uses the quoted prices in active markets as their fair value. Otherwise, the Company uses valuation technique to determine their fair value.

Fair value measurement of a non-financial asset takes into account market participants' ability to generate economic benefits using the asset in its best way or by selling it to another market participant that would best use the asset.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs, and using unobservable inputs only if the observable inputs aren't available or impractical.

Fair value level for assets and liabilities measured or disclosed at fair value in the financial statements are determined according to the significant lowest level input to the entire measurement: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date; Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly; Level 3 inputs are unobservable inputs for the assets or liabilities.

At the balance sheet date, the Company revalues assets and liabilities being measured at fair value continuously in the financial statements to determine whether to change the levels of fair value measurement.

8. Fixed assets

(1) Recognition of fixed assets

Fixed assets represent the tangible assets held by the Company for use in production of goods, use in supply of services, rental or for administrative purposes with useful lives over one accounting year.

Fixed assets are only recognised when its related economic benefits are likely to flow to the Company and its cost can be reliably measured. Fixed asset are initially measured at cost.

(2) Depreciation of fixed assets

The cost of a fixed asset is depreciated using the straight-line method since the state of intended use, unless the fixed asset is classified as held for sale. Not considering impairment provision, the estimated useful lives, residual value rates and depreciation rates of each class of fixed assets are as follows:

Type	Estimated useful life (years)	Residual Value rate %	Depreciation rate %
Computer and communication equipment	4	-	25
Furniture and fixtures	5-10	-	10-20

For impaired fixed assets, cumulative amount of impairment provision is deducted in determinating the depreciation rate.

(3) For the impairment of the fixed assets, please refer to Note III. 12.

(4) Basis for Determination and Measurement Method of Fixed Assets under Finance Leases

When a leased fixed asset meets one or more of the following criteria, it is recognized as a fixed asset under a finance lease:

① Ownership of the leased asset is transferred to the Company at the end of the lease term.

② The Company has an option to purchase the leased asset, and the exercise price is expected to be sufficiently lower than the fair value of the leased asset at the date the option becomes exercisable, such that, at the inception of the lease, it is reasonably certain that the option will be exercised.

③ Even if ownership of the asset is not transferred, the lease term covers the major part of the asset's economic useful life.

④ At the inception of the lease, the present value of the minimum lease payments amounts to substantially all of the fair value of the leased asset.

⑤ The leased asset is of a specialized nature such that it is expected to be usable only by the Company without major modifications.

Fixed assets acquired under finance leases are initially recognized at the lower of the fair value of the leased asset at the inception of the lease and the present value of the minimum lease payments. The minimum lease payments are recorded as long-term payables, and the difference between the recorded amount of the leased asset and the long-term payables is recognized as unamortized financing charges. Any initial direct costs incurred by the lessee in connection with specific leasing activities, such as commissions, legal fees, travel expenses, and stamp duties attributable to the leasing project, are capitalized as part of the cost of the leased asset. Unamortized financing charges are allocated over each period during the lease term using the effective interest method.

Depreciation of assets acquired under finance leases follows the same policy as that for owned fixed assets. If it is reasonably certain that the Company will obtain ownership of the leased asset by the end of the lease term, depreciation is calculated over the asset's estimated useful life. If there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, depreciation is calculated over the shorter of the lease term and the estimated useful life of the leased asset.

(5) Useful lives, estimated residual values and depreciation methods are reviewed at least at each year-end.

The Company adjusts the useful lives of fixed assets if their expected useful lives are different with the original estimates and adjusts the estimated net residual values if they are different from the original estimates.

(6) Major Repair Expenses

Expenses incurred by the Company for regular inspections and major repairs of fixed assets are capitalized into the cost of the fixed asset if there is conclusive evidence that they meet the recognition criteria for fixed assets; otherwise, they are recognized in profit or loss for the current period. Depreciation on the fixed assets is not suspended during the intervals between regular major overhauls.

9. Construction in progress

Construction in progress is recognized based on the actual construction cost, including all expenditures incurred for construction Items, capitalised borrowing costs and any other costs directly attributable to bringing the asset to working condition for its intended use.

Construction in progress is transferred to fixed asset when it is ready for its intended use. For the impairment of construction in progress, please refer to Note III. 12.

10. Borrowing costs

(1) Capitalisation criteria

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset shall be capitalised as part of the cost of that asset. Other borrowing costs are expensed in profit or loss as incurred. The capitalisation of borrowing costs shall commence only when the following criteria are met:

A Capital expenditures have been incurred, including expenditures that have resulted in payment of cash, transfer of other assets or the assumption of interest-bearing liabilities;

B Borrowing costs have been incurred;

C The activities that are necessary to prepare the asset for its intended use or sale have commenced.

(2) Capitalisation period

The capitalisation of borrowing costs ceases when the asset under acquisition or construction becomes ready for its intended use, the borrowing costs incurred thereafter are recognised in profit or loss for the current period.

Capitalisation of borrowing costs is suspended during periods in which the acquisition or construction of a fixed asset is interrupted abnormally and the interruption lasts for more than 3 months, until the acquisition or construction is resumed.

11. Intangible assets

Intangible asset is software.

Intangible assets are stated at actual cost upon acquisition and the useful economic lives are determined at the point of acquisition. When the useful life is finite, amortisation method shall reflect the pattern in which the asset's economic benefits are expected to be realised. If the pattern cannot be determined reliably, the straight-line method shall be used. An intangible asset with an indefinite useful life shall not be amortised.

Amortisation method for intangible assets with finite useful lives is as follows:

Categories	Useful life (years)	Amortisation methods
Software	4	Straight-line method

The Company shall review the useful life and amortisation method of an intangible asset with a finite useful life at least at each year end. Changes of useful life and amortisation method shall be accounted for as a change in accounting estimate.

An intangible asset shall be derecognised in profit or loss when it is not expected to generate future economic benefits.

For the impairment of intangible assets, please refer to Note III. 12.

12. Impairment of assets

The impairment of fixed assets, right-of-use assets, intangible assets, etc. (Excluding inventories, deferred tax assets and financial assets) is determined as follows:

At each balance sheet date, the Company determines whether there is any indication of impairment. If any indication exists, the recoverable amount of the asset is estimated. In addition, the Company estimates the recoverable amounts of goodwill, intangible assets with indefinite useful lives and intangible assets not ready for use at each year-end, irrespective of whether there is any indication of impairment.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its present value of expected future cash flows. The recoverable amount is estimated for each individual asset. If it is not possible to estimate the recoverable amount of each individual asset, the Company determines the recoverable amount for the asset group to which the asset belongs. An asset group is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or asset groups.

An loss allowance is recognised in profit or loss when the recoverable amount of an asset is less than its carrying amount. A loss allowance of the asset is recognised accordingly.

Once a loss allowance is recognised, it is not reversed in a subsequent period.

13. Long-term deferred expenses

Long-term deferred expenses are recorded at the actual cost, and amortized using a straight-line method within the benefit period. For long-term deferred expense that cannot bring benefit in future period, the Company recognized its amortised cost in profit or loss for the current period.

14. Employee benefits

(1) Scope of employee benefits

Employee benefits refer to all forms of consideration or compensation given by the Company in exchange for service rendered by employees or for the termination of employment relationship. Employee benefits include short-term employee benefits, post-employment benefits, termination benefits and other long-term employee benefits. Benefits provided to the Company's spouse, children, dependents, family members of deceased employees or other beneficiaries are also part of the employee benefits.

(2) Short-term employee benefits

In the current period, the Company has accrued for the actual wages, bonuses, medical insurance for employees based on standard rate, work injury insurance and maternity insurance and other social insurance and housing fund incurred and these are recognised as liabilities and corresponding costs in the profit or loss. If the liability is not expected to be settled in full within twelve months after the end of the annual reporting period in which the employees render the related service, and if the financial impact is material, the liability is measured at the present value of the expected future payments.

(3) Post-employment benefits

Post-employment benefit plan includes defined contribution plans and defined benefit plans. Defined contribution plans are post-employment benefit plans under which an enterprise pays fixed contributions into a separate fund and will have no future obligations to pay the contributions. Defined benefit plans are post-employment benefit plans other than defined contribution plans. The Company has only defined contribution plan in place.

Defined contribution plans include basic pension insurance, unemployment insurance etc.

The Company shall recognise, in the accounting period in which an employee provides service, the contribution payable to a defined contribution plan as a liability, with a corresponding charge to the profit or loss for the current period or the cost of a relevant asset.

15. Provisions

A provision is recognised for an obligation related to a contingency if all the following conditions are satisfied:

(1) The Company has a present obligation;

(2) It is probable that an outflow of economic benefits will be required to settle the obligation; and

(3) The amount of the obligation can be estimated reliably.

A provision is initially measured at the best estimate of the expenditure required to settle the related present obligation. Factors pertaining to a contingency such as the risks, uncertainties and time value of money are taken into account as a whole in reaching the best estimate.Where the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows. The Company reviews the carrying amount of a provision at the balance sheet date and adjusts the carrying amount to the current best estimate.

If all or part of the expenditure necessary for settling the provision is expected to be compensated by a third party, the amount of compensation is separately recognized as an asset when it is basically certain to be received. The recognized compensation amount shall not exceed the carrying amount of the provision.

16. Revenue

General principles

The Company recognizes revenue when it has fulfilled its contractual performance obligation, that is, when the customer acquires control of the relevant goods or services.

If the contract contains two or more performance obligations, the Company shall, on the commencement date of the contract, allocate the transaction price to each single performance obligation according to the relative proportion of the stand-alone selling prices of goods or services committed by each single performance obligation, and measure the income according to the transaction price allocated to each single performance obligation.

If one of the following conditions is met, the Company satisfies a performance obligation over time; otherwise, the Company satisfies a performance obligation at a point in time:

① The customer simultaneously receives and consumes the economic benefits provided by the Company's performance as the Company performs.

② The customer can control the goods under construction during the performance of the Company.

③ The goods produced by the Company during the performance of the contract do not have alternative use, and the Company has the right to collect payment for the accumulated part of the performance completed to date during the whole period of the contract.

For the performance obligations performed over time, the Company shall recognize the income in accordance with the performance progress within that period. If the performance progress cannot be reasonably determined and the Company is expected to be compensated for the costs already incurred, the revenue shall be recognized according to the amount of the costs already incurred until the performance progress can be reasonably determined.

For performance obligations performed at a point in time, the Company recognizes revenue at the point when the customer acquires control of the relevant goods or services. In determining whether a customer has acquired control of goods or services, the Company will take into account the following indicators:

① The Company has a present right to payment for the good or service, that is, the customer is presently obliged to pay for the good or service.

② The Company has transferred the legal title of the good to the customer, that is, the customer has the legal title to the good.

③ The Company has transferred physical possession of the good to the customer, that is, the customer has physical possession of the good.

④ The Company has transferred the significant risks and rewards of ownership of the good to the customer, that is, the customer has obtained the significant risks and rewards of ownership of the good.

⑤ The customer has accepted the good or service.

⑥ Other indicators that the customer has obtained control of the good.

The Company's right to consideration for goods or services transferred to a customer (and this right depends on other factors other than the passage of time) is a contract asset which is subject to impairment on the basis of expected credit losses. The Company's unconditional right (depending only on the passage of time) to collect consideration from the customer is presented as an account receivable. The Company's obligation to transfer goods or services to a customer for which it has received consideration (or the amount due) from the customer is a contract liability.

The contract assets and contract liabilities under the same contract shall be presented on a net basis. If the net amount is the debit balance, it shall be presented under the item of "Contract assets" or "Other non-current assets" according to its liquidity; if the net amount is a credit balance, it shall be presented under the item "Contract liabilities" or "Other non-current liabilities" according to its liquidity.

The specific methods of the Company's revenue recognition: Revenue is recognized when control of the promised goods or services is transferred to the customer.

① Time-based and unit-based projects: Revenue is recognized based on the measurement of progress, such as the number of units delivered, labor hours incurred, or volume of transactions processed.

② Fixed-price projects: Revenue is recognized on a straight-line basis over the contract period, reflecting the passage of time, as the entity's performance obligation is satisfied over time.

17. Contract costs

Contract costs include incremental costs of obtaining a contract and costs to fulfil a contract.

Incremental costs of obtaining a contract are costs (such as a sales commission, etc.) that the Company would not have incurred if the contract had not been obtained. If the cost is expected to be recovered, the Company will recognize it as an asset as costs of obtaining a contract. Other expenses incurred by the Company for obtaining a contract, other than the incremental costs expected to be recovered, are recorded into the profit or loss of the current period when incurred.

If the costs incurred in fulfilling a contract are not within the scope of another Standard such as Inventories, the Company shall recognize an asset from the costs incurred to fulfil a contract:

① The costs relate directly to a current contract or to an anticipated contract and include direct labor, direct materials, overhead (or similar expenses), costs that are explicitly chargeable to the customer and other costs incurred solely in connection with the contract;

② The costs increase the Company's future resources for fulfilling its performance obligations;

③ The costs are expected to be recovered.

Assets recognized for costs of obtaining a contract or costs to fulfil a contract (hereinafter referred to as "assets related to contract costs") shall be amortized on the same basis as revenue recognition of goods or services related to such assets and shall be recorded into current profit or loss.

When the carrying amount of the assets related to the contract costs is higher than the difference between the following two items, the Company shall make loss allowance of the excess part and recognize it as a loss allowance of the assets:

① The remaining amount of consideration that the Company expects to receive in exchange for the goods or services to which the asset relates;

② The estimated costs to be incurred for the transfer of the relevant goods or services.

The costs to fulfil a contract recognized as an asset shall be presented in the item of "Inventories" with an amortization period of no more than one year or one normal operating cycle at the time of initial recognition; while the amortization period exceeding one year or one normal operating cycle at the time of initial recognition, the costs shall be presented in the item of "Other non-current assets".

The costs of obtaining a contract recognized as an asset shall be presented in the item of "Other current assets" with an amortization period of less than one year or one normal operating cycle at the time of initial recognition, and shall be presented in the item of "Other non-current assets" with an amortization period of more than one year or one normal operating cycle at the time of initial recognition.

18. Government grants

A government grant is recognised when there is reasonable assurance that the grant will be received and that the Company will comply with the conditions attaching to the grant.

If a government grant is in the form of a transfer of a monetary asset, it is measured at the amount received or receivable. If a government grant is in the form of a transfer of a non-monetary asset, it is measured at fair value. If fair value cannot be reliably determined, it is measured at a nominal amount of RMB 1.

Government grants related to assets are grants whose primary condition is that the Company qualifying for them should purchase, construct or otherwise acquire long-term assets. Government grants related to income are grants other than those related to assets.

For government grants with unspecified purpose, the amount of grants used to form a long-term asset is regarded as government grants related to an asset, the remaining amount of grants is regarded as government grants related to income. If it is not possible to distinguish, the amount of grants is treated as government grants related to income.

A government grant related to an asset is offset against the carrying amount of the related asset. A grant that compensates the Company for expenses or losses already incurred is recognised in profit or loss. A grant that compensates the Company for expenses or losses to be incurred in the future is recognised as deferred income, and included in profit or loss in the periods in which the expenses or losses are recognised. The Company applies a consistent approach to same or similar government grant transactions.

A grant related to ordinary activities is recognised as other income based on the economic substance. A grant not related to ordinary activities is recognised as non-operating income or offset against non-operating expenses.

When a recognised government grant is reversed, carrying amout of the related asset is adjusted if the grant was initially recognized as offset against the carrying amount of the related asset. If there is balance of relevant deferred income, it is offset against the carrying amount of relevant deferred income. Any excess of the reversal to the carrying amount of deferred income is recognised in profit or loss for the current period. For other circumstances, reversal is directly recognized in profit or loss for the current period.

19. Deferred tax assets and deferred tax liabilities

Income tax comprises of current tax and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that they relate to transactions or items recognised directly in equity and goodwill arising from a business combination.

Deferred tax assets and deferred tax liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases.

All the taxable temporary differences are recognized as deferred tax liabilities except for those incurred in the following transactions:

(1) Initial recognition of goodwill, or assets or liabilities in a transaction that is not a business combination and that affects neither accounting profit nor taxable profit (or deductible loss)(except for individual transactions in which the initial recognition of assets and liabilities results in equal amounts of taxable temporary differences and deductible temporary differences);

(2) Taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, and the Company is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The Company recognises a deferred tax asset for deductible temporary differences, deductible losses and tax credits carried forward to subsequent periods, to the extent that it is probable that future taxable profits will be available against which deductible temporary differences, deductible losses and tax credits can be utilised, except for those incurred in the following transactions:

(1) A transaction that is not a business combination and that affects neither accounting profit nor taxable profit (or deductible loss) (except for individual transactions in which the initial recognition of assets and liabilities results in equal amounts of taxable temporary differences and deductible temporary differences);

(2) Deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, the corresponding deferred tax asset is recognized when both of the following conditions are satisfied: it is probable that the temporary difference will reverse in the foreseeable future; and it is probable that taxable profits will be available in the future against which the temporary difference can be utilized.

At the balance sheet date, deferred tax is measured based on the tax consequences that would follow from the expected manner of recovery or settlement of the carrying amount of the assets and liabilities, using tax rates enacted at the reporting date that are expected to be applied in the period when the asset is recovered or the liability is settled.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date, and is reduced to the extent that it is no longer probable that the related tax benefits will be utilised. Such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

20. Leases

(1) Identification of leases

At inception of a contract, the Company, as a lessee or a lessor, shall assess whether the customer under the contract has the right to obtain substantially all of the economic benefits from use of the identified asset during the period of use and has to right to direct the use of the identified asset during the period of use. The Company considers the contract to be a lease or to include a lease if one of the parties to the contract conveys the right to control the use of one or more identified assets for a certain period of time in exchange for consideration.

(2) The Company acts as the lessee

At the commencement date, the Company recognizes the right-of-use assets and lease liabilities for all leases, except for short-term leases and leases of low value assets that are accounted for according to the simplified method.

For the accounting policy of the right-of-use assets, see Note III.21.

Lease liabilities are initially measured at the present value of the outstanding lease payments at the commencement date of the lease using the interest rate implicit in the lease. If the interest rate implicit in the lease cannot be determined, the incremental borrowing rate shall be used as the discount rate. The lease payments include: fixed payments and in-substance fixed payments; if there are lease incentives, the relevant amount of lease incentives shall be deducted; variable lease payments depending on an index or a rate; the exercise price of the option provided that the lessee is reasonably certain that the option will be exercised; the amount to be paid to exercise the option to terminate the lease if the lease term reflects that the lessee will exercise the option to terminate the lease; and the amount expected to be payable based on the residual value of the security provided by the lessee. The interest expense of the lease liability in each period of the lease term shall be calculated in accordance with the fixed periodic interest rate and recorded into the profit or loss of the current period. The variable lease payment not included in the measurement of lease liabilities shall be recorded into the current profit or loss when actually incurred.

Short-term lease

A short-term lease is a lease that, at the commencement date, has a lease term of 12 months or less, except for a lease that contains a purchase option.

The Company will record the lease payment amount of short-term lease into the cost of relevant assets or current profit or loss in each period of the lease term according to the straight-line method.

Leases of low value assets

Leases of low value assets refer to lease of a single leased asset whose value is less than 40,000 yuan when it is a brand-new asset.

The Company will include the lease payment of the low-value asset lease into the cost of the relevant asset or current profit or loss in each period of the lease term according to the straight-line method.

For leases of low value assets, the Company chooses to adopt the above simplified method according to the specific situation of each lease.

(3) The Company acts as the lessor

When the Company acts as the lessor, the leases that substantially transfer all the risks and rewards related to the ownership of the assets are recognized as finance leases, and other leases other than finance leases are recognized as operating leases.

Finance leases

In the case of finance leases, the Company takes the net investments in the lease as the carrying amounts of finance lease receivables at the commencement date, and the net lease investments are the sum of the unguaranteed residual value and the present value of the lease payments receivable at the commencement date discounted at the implicit interest rate. The Company, as the lessor, calculates and recognizes interest income for each period of the lease term at a fixed periodic rate. The variable lease payments obtained by the Company as the lessor and not included in the measurement of the net lease investments shall be recorded into the current profit or loss when actually incurred.

The derecognition and impairment of finance lease receivable shall be accounted for in accordance with the provisions of the "Accounting Standards for Business Enterprises No. 22 - Recognition and Measurement of Financial Instruments" and the "Accounting Standards for Business Enterprises No. 23 - Transfer of Financial Assets".

Operating lease

For the rent in the operating lease, the Company shall recognize the profit or loss of the current period in accordance with the straight-line method during each period of the lease term. The initial direct costs incurred in connection with the operating lease shall be capitalized, allocated on the same basis as the recognition of rental income during the lease term and recorded into the current profit or loss in installments. The variable lease payments obtained in connection with the operating lease and not included in the lease payments shall be recorded into the current profit or loss when actually incurred.

21. Right-of-use assets

(1) Criteria for the recognition of right-of-use assets

The Company's right-of-use assets refer to the Company's right to use the leased assets during the lease term as the lessee.

On the commencement date, the right-of-use assets shall be initially measured at cost. The cost includes: the initial measurement of the lease liability; for the amount of lease payments paid on or before the commencement date of the lease term, if there is a lease incentive, the relevant amount of lease incentive already enjoyed will be deducted; initial direct costs incurred by the Company as the lessee; the costs which the Company, as the lessee, expects to incur in dismantling and removing the leased assets, restoring the premises on which the leased assets are located or restoring the leased assets to the state agreed in the lease terms. The Company, as the lessee, shall recognise and measure the costs of demolition and restoration in accordance with the "Accounting Standards for Business Enterprises No.13 – Contingencies". Subsequent adjustments are made for any remeasurement of lease liabilities.

(2) Depreciation method of the right-of-use assets

The Company uses the straight line method of depreciation. Where the Company, as the lessee, can reasonably determine that it obtains the ownership of the leased assets upon expiration of the lease term, depreciation shall be accrued over the remaining useful life of the leased assets. Where it is impossible to reasonably determine that the ownership of the leased asset can be acquired at the expiration of the lease term, depreciation shall be accrued in the shorter period between the lease term and the remaining useful life of the leased asset.

(3) See Note III.12 for the impairment test method of the right-of-use assets and the loss allowance.

22. Changes in significant accounting policies, accounting estimates and correction of errors in prior periods

(1) Significant changes in accounting policies

China Accounting Standards for Business Enterprises

Pursuant to Board Resolution No. C-25-01H titled "Change from Enterprise Accounting System to China Accounting Standards for Business Enterprises" issued on November 17, 2025, the Company approved the change in its accounting policies from the former Accounting System for Business Enterprises and its supplementary provisions to the Accounting Standards for Business Enterprises, effective January 1, 2025.

In accordance with the provisions of ASBE 28 *Accounting Policies, Changes in Accounting Estimates and Corrections of Errors*, the Company has adopted the retrospective adjustment method for the transitional accounting treatment and has adjusted the comparative financial statements accordingly.

The impact of the implementing of the Accounting Standards for Business Enterprises on the items in the balance sheet as of January 1, 2025, is as follows:

Balance sheet line items	Amounts before adjustments (December 31, 2024)	Reclassification	Remeasurement	Amounts after adjustments (January 31, 2025)
Assets:				
Other current assets	6,557,376.04	-	-863,551.04	**5,693,825.00**
Fixed assets	18,264,287.10	-150,531.87	-	**18,113,755.23**
Construction in progress	1,375,944.95	-0.01	-	**1,375,944.94**

Other income	-	1,103,392.89	-	**1,103,392.89**
Gains from assets disposal	-	30,383.00	-	**30,383.00**
Non-operating income	1,148,278.78	-1,133,775.89	-	**14,502.89**
Income tax expenses	27,495,146.97	-	-10,908,536.82	**16,586,610.15**

(2) Changes in significant accounting estimates

During the reporting period, the Company had no changes in accounting estimates.

(3) Corrections of prior period errors

During the reporting period, the Company had no material corrections of prior period errors.

IV. TAXATION

1. Main types of taxes and corresponding tax rates

Tax type	Tax basis	Tax rate%
VAT	Taxable income	6
City maintenance and construction tax	Turnover tax paid	7
Education supplementary tax	Turnover tax paid	3
Local education supplementary tax	Turnover tax paid	2
Corporate income tax	Taxable profits	25

2. Tax preferential treatments and approval documents

Tax Exemption for Offshore Outsourcing Revenue

Pursuant to the provisions of Caishui [2016] No. 36, Appendix 4 "Policies on the Application of Zero VAT Rate and VAT Exemption for Cross-border Taxable Activities", offshore service outsourcing services provided to overseas entities that are wholly consumed overseas are subject to a zero VAT rate.

Accordingly, the Company's revenue from eligible offshore outsourcing activities during the period is exempt from VAT.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF
TATA CONSULTANCY SERVICES (THAILAND) LIMITED

Opinion

I have audited the financial statements of Tata Consultancy Services (Thailand) Limited (the "Company"), which comprise the statement of financial position as at 31 March 2026, the statements of income and changes in equity for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2026 and its financial performance for the year then ended in accordance with the Thai Financial Reporting Standard for Non-Publicly Accountable Entities (TFRS for NPAEs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that is relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRS for NPAEs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Notes to the financial statements for the year ended 31 March 2026

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements and were approved and authorised for issue by the directors on 5 May 2026.

1. GENERAL INFORMATION

Tata Consultancy Services (Thailand) Limited, the "Company", is incorporated in Thailand on 12 May 2008 and has its registered office at 1818, Rasa Two Building, 17th Floor, Room No. 1707, Phetchaburi Road, Makkasan Sub-district, Ratchathewi District, Bangkok.

The parent company and ultimate parent company during the financial year were Tata Consultancy Services Asia Pacific Pte. Ltd. and Tata Consultancy Services Limited, which were incorporated in Singapore and India, respectively.

The principal activities of the Company are IT consulting, software solutions and IT outsourcing services.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements are prepared in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities (Revised B.E. 2565) ('TFRS for NPAEs), which promulgated by the Federation of Accounting Professions (TFAC).

The financial statements are prepared and presented in Thai Baht. Accounting policies disclosed in Note 3 are applied consistently to all periods presented in these financial statements.

The preparation of financial statements in conformity with TFRS for NPAEs requires management to make judgments, estimates and assumptions that affect the application of the Company's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Foreign currency

Transactions in foreign currencies including non-monetary assets and liabilities denominated in foreign currencies are translated to Thai Baht at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies, are translated at the exchange rate at the reporting date.

Foreign currency differences are recognised in the statement of income.

(b) Cash and cash equivalents

Cash and cash equivalents comprise demand deposits and highly liquid short-term investments, which have maturities of three months or less from the date of acquisition.

(c) Trade and other current receivables

Trade and other current receivables are measured at invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories. Bad debts are written off when incurred. Bad debts recovered are recognised as other income in the statement of income at the amount received.

(d) Unbilled completed work

Unbilled completed work represents the amount expected to be collected from customers for services performed to date. The unbilled completed work is measured at costs incurred plus profits recognised to date (see note 3(j)) less progress billings and recognised losses.

(e) Leasehold improvement and equipment

Owned assets

Leasehold and equipment are measured at cost less accumulated depreciation and losses on decline in value.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Differences between the proceeds from disposal and the carrying amount of equipment are recognised in the statement of income.

Subsequent costs

The cost of replacing a part of an item of leasehold improvement and equipment is recognised in the carrying amount of the item when the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of leasehold improvement and equipment is recognised in the statement of income as incurred.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful life of each component of an asset and recognised in the statement of income. No depreciation is provided on assets under construction. The estimated useful lives are as follows:

Leasehold improvement	2 years 5 months
Furniture, fixture and office equipment	4-5 years

(f) Losses on decline in value

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of a permanent decline in value. If any such indication exists, the assets' recoverable amounts are estimated. A loss on decline in value is recognised if the carrying amount of an asset exceeds its recoverable amount. The loss on decline in value is recognised in the statement of income.

(g) Trade and other current payables

Trade and other current payables are stated at cost.

(h) Advanced payments from customers in excess of work completed

Advance payments from customers in excess of work completed are recognised when the Company receives consideration from customers that is greater than the stage of completion of services. Such advance payments from customers are subsequently recognised as revenue when the services are rendered.

(i) Provision

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate method.

Provision for employee benefits

Provision for employee benefits are recognised using the best estimate method at the reporting date. The Company derecognises the provision when actual payment is made.

(j) Revenue

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Rendering of services

Revenue from rendering of services is recognised as the services are provided.

Contract revenue

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a construction contract can be estimated reliably, contract revenue and expenses are recognised in the statement of income in proportion to the stage of completion of the contract.

The stage of completion is assessed based on cost-to-cost method. When the outcome of a contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in the statement of income.

(k) Operating leases

Payments made under operating leases are recognised on a straight-line basis over the term of the lease.

(l) Income tax

Income tax is calculated on the taxable income or loss for the year, using tax rates enacted at the reporting date.

4. CASH AND CASH EQUIVALENTS

(Unit : in thousand Baht)

	2026	2025
Cash at banks - current accounts	27,577	10,713

Independent Auditor's Report

NO.: 00303/2.1005/ AU.1/05/1694-6/1/ V/2026

THE SHAREHOLDERS,

BOARD OF COMMISSIONERS AND BOARD OF DIRECTORS

PT TATA CONSULTANCY SERVICES INDONESIA

Opinion

We have audited the financial statements of PT Tata Consultancy Services Indonesia ("the Company"), which comprise the statement of financial position as of 31 March 2026, the statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the year then ended, and notes to the financial statements, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of 31 March 2026, and its financial performance and its cash flows for the year then ended in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of the financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes forming part of Financial Statements

1. GENERAL

a. PT Tata Consultancy Services Indonesia (the "Company") was established in the Republic of Indonesia in 2006.

The Company's office is located at Gedung Menara Prima #16 Unit F, Jl. DR. Ide Anak Agung Gde Agung Blok 6.2, Kuningan, Jakarta Selatan 12950.

b. The Company is engaged in the Information Technology (IT) services, consulting and business solutions.

c. The Company is ultimately controlled by Tata Sons Limited (incorporated in India).

2. BASIS OF PREPARATION

a. Statement of compliance

The financial statements of the Company have been prepared in accordance with Indonesian Financial Accounting Standards ("SAK Indonesia").

These financial statements of the Company were authorized for issuance by the Board of Directors on 7 May 2026.

b. Functional and presentation currency

The financial statements are presented in Rupiah, which is the functional currency of the Company, Unless otherwise specified, financial information presented in Rupiah has been rounded to the nearest million.

c. Basis of measurement

The financial statements are prepared on the accrual basis using the historical cost concept, except where the accounting standards require fair value measurement.

d. Statement of cash flows

The statement of cash flows present the changes in cash and cash equivalents from operating, investing and financing activities and are prepared using the indirect method. The Company consider short-term time deposits with maturities of not more than three months at the date of acquisition to be cash equivalents.

e. Use of judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from the estimated amounts.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

(i) Judgments

Information about judgments made in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in Notes 3e and 10 – Revenue recognition: Management's judgment with respect to existence of contractual performance obligations, timing of revenue recognition, revenue classification, and determining whether the Company acts as an agent or as a principal.

(ii) Assumptions and estimation uncertainties

Information about the assumptions and estimation uncertainties at the reporting date that have a significant risk of resulting in material adjustments to the carrying amounts of assets and liabilities in the following year is included in Note 8 – Measurement of employee benefits obligation: key actuarial assumption.

Measurement of fair value: A number of accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs, other than quoted prices included in Level 1, that are observable, either directly (i.e. price) or indirectly (i.e. derived from other observable price).
- Level 3: inputs that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability are drawn from a mixture of different level sources of the fair value hierarchy, then the fair value measurement for the entire class of the asset or liability is considered to have been done using the lowest level input that is significant to the entire measurement (Level 3 being the lowest).

f. Statements of Financial Accounting Standards ("PSAK") issued but not yet effective

Certain amendments to or revised accounting standards and have been issued that are not yet effective for the year ended 31 March 2026 and have not been applied in preparing these financial statements. Among them, the following PSAKs, which will become effective for reporting periods beginning on or after 1 April 2026 and 1 April 2027, may be relevant to the Company's future financial statements, and may require retrospective application under PSAK 208, "Accounting Policies, Changes in Accounting Estimates, and Errors":

(i) Effective for reporting periods beginning on or after 1 April 2026

- Amendments to PSAK 221 - Lack of Exchangeability These amendments clarify i) when a currency is exchangeable into another currency, and ii)how and entity estimate a spot rate when a currency lacks exchangeability; and
- Classification and Measurement of Financial Instruments (Amendments to PSAK 109 and 107).

(ii) Effective for reporting periods beginning on or after 1 April 2027

- PSAK 118 - Presentation and Disclosure in Financial Statements

  PSAK 118 will replace PSAK 201 Presentation of Financial Statements. The new accounting standard introduces, among others, the following key new requirements:

  - The Company is required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. The Company is also required to present operating profit subtotal, a newly-defined subtotal. The Company's net profit will not change.

(iii) Effective for reporting periods beginning on or after 1 April 2027 (continued)

- PSAK 118 - Presentation and Disclosure in Financial Statements (continued)

  - Enhanced guidance is provided on how to group information in the financial statements.

    In addition, the Company is required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method. The Company is still in the process of assessing the impact of PSAK 118, particularly with respect to the structure of the Company's statement of profit or loss and the statement of cash flows. The Company is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as 'other'.

As of the issuance date of these financial statements, management has not determined the extent of the retrospective impact, if any, that the future adoption of these standards and amendments to standards will have on the Company's financial position and operating results.

3. MATERIAL ACCOUNTING POLICIES

The material accounting policies consistently applied in the preparation of the financial statements were as follows:

a. Cash and cash equivalents

Cash and cash equivalents of the Company include cash in banks and short-term time deposits with maturities of not more than three months from the date of acquisition.

b. Revenue

Revenue is measured based on the consideration specified in a contract with a customer. The Company recognizes revenue when it transfers control over a product or service to a customer.

The following table provides information about the nature and timing of the satisfaction of performance obligation in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of product/ service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition policies
Consultancy, maintenance and support services	Invoices are issued on a basis of contractual terms and are usually payable within 30 - 90 days.	Revenue is recognized based on time elapsed mode and revenue is straight lined over the period of performance.
Time and material and job contracts	Invoices are issued on a monthly basis and are usually payable within 30 - 90 days.	Revenue is recognized on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
Fixed price contracts	Invoices are issued on the basis contractual milestone and are usually payable within 30 - 90 days.	Revenue is recognized using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.
Third party hardware or software Internally developed software and manufactured systems (collectively termed as "products")	Customers obtain control of the products when the products are delivered to the customer's premises. Invoices are generated and revenue is recognized at that point in time. Invoices are usually payable within 30 – 90 days.	Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognized upfront at the point in time when the system/ software is delivered to the customer. In cases where implementation and / or customization services rendered significantly modifies or customizes the software, these services and software are accounted for as a single performance obligation and revenue is recognized over time on a POC method. Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned revenue is recognized when there are billings in excess of revenues.

c. Financial instruments

(i) Recognition and initial measurement

Financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instruments.

A financial asset (unless it is a receivable without significant financing component) or financial liability is initially measured at fair value plus or minus, for item not measured at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue. A receivable without a significant financing component is initially measured at the transaction price.

(ii) Financial assets

On initial recognition, a financial asset is classified as measured at amortized cost; fair value through other comprehensive income ("FVOCI") – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition, unless the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interests on the principal amount outstanding.

The financial assets measured at amortized cost are subsequently measured using the effective interest method. The gross carrying amount is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Gains or losses on derecognition of these financial assets are recognized in profit or loss.

(iii) Financial liabilities

Financial liabilities are classified as either measured at amortized cost, or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, it is a derivative, or it is designated as such on initial recognition.

Financial liabilities measured at amortized cost are subsequently measured using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Gains or losses on derecognition are also recognized in profit or loss.

Other liabilities measured at FVTPL are initially measured at fair value. Subsequent to initial recognition, those liabilities are measured at fair value and changes therein are recognized in profit or loss.

(iv) Derecognition

Financial assets

The Company enters into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and reward of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability, based on the modified terms, is recognized at fair value.

(v) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(vi) Impairment

The Company recognizes loss allowances for expected credit loss ("ECL") on financial assets

me asured at amortized cost.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. The Company measures loss allowances at an amount that reflects the lifetime ECL, except for cash and cash equivalents for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition, wherein the loss allowances are determined based on the 12-month ECL.

Loss allowances for trade and other receivables, and for contract assets that are measured at amortized cost, are measured at an amount that represents the lifetime ECL.

d. Impairment of non-financial assets

The carrying amount of each cash-generating unit ("CGU") within non-financial assets is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indications exist, then the asset's recoverable amount is estimated.

An impairment loss is recognized if the carrying amount of a CGU exceeds its recoverable amount. A CGU is the smallest identifiable asset group that generates cash flows that largely are independent from other assets. Impairment losses are recognized in profit or loss.

The recoverable amount of a CGU is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

e. Employment benefits

The obligation for post-employment benefits is calculated at the present value of estimated future benefits that the employees have earned in return for their services in the current and prior periods. The calculation is performed by a qualified actuary using the project unit credit method.

Gains or losses arising from actuarial remeasurement of the net defined benefit liability are recognized immediately in other comprehensive income. When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss.

f. Foreign currency translations

Transactions in foreign currencies are translated to the respective functional currency of the Company at the rates of exchange prevailing at transaction date. Monetary assets and liabilities denominated in foreign currencies are retranslated to the functional currency at the exchange rate at the reporting date. Foreign currency gains or losses on monetary items are comprised of the difference between amortized cost measured in the functional currency at the beginning of the period as adjusted for effective interest and payments during the period, and the amortized cost measured in foreign currency translated at the exchange rate at reporting date.

Non-monetary assets and liabilities denominated in a foreign currency that are measured at historical cost are translated using the exchange rate at the date of the transaction.

Foreign currency gains and losses on retranslation of monetary assets and liabilities that arise from operating activities are generally recognized in profit or loss.

g. Finance income

Finance income is comprised of interest income on funds invested and fair value gains on financial assets carried at fair-value-through-profit-or-loss.

h. Income tax

Income tax expense consists of current and deferred income tax. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to items recognized directly in equity or in other comprehensive income.

Current tax expense is the amount of tax paid, or payable on taxable income or loss for the year, using tax rates substantively enacted as of the reporting date. Current tax also includes true-up adjustments made to the previous years' tax provisions either to reconcile them with the income tax reported in annual tax returns, or to account for differences arising from tax assessments. Current tax expense is measured using the best estimate of the amount expected to be paid or received, taking into consideration the uncertainty associated with the complexity of tax regulations.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted as of the reporting date. This accounting policy also requires the recognition of tax benefits, such as tax loss carry forwards, which are originated in the current period that are expected to be realized in the future periods, to the extent that realization of such benefits is probable.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of their realization through future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

4. CASH AND CASH EQUIVALENTS

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Cash in banks	5,992	6,442
Short-term time deposits in Rupiah	18,100	17,000
	24,092	**23,442**

As of 31 Mrach 2026 and 2025, the company did not pledge its cash and cash equialents. Cash in banks can be withdrawn at any time from the bank without penalty.

5. TRADE AND OTHER RECEIVABLES, NET

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Trade receivables resulting from revenue generation activities consist of the following:		
Third parties	60,573	44,090
Related parties (Note 14d)	1,320	1,610
	61,893	**45,700**

	As at March 31, 2026	As at March 31, 2025
Other third parties receivables	988	844
Total trade and other receivables	**62,881**	**46,544**
Less: provision for impairment of trade receivables	(5,690)	(10,006)
Total trade and other receivables, net	**57,191**	**36,538**

As of 31 March 2026 and 2025, the Company did not pledge its trade receivables.

6. TRADE AND OTHER PAYABLES

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Trade payables:		
Related parties (Note 14d)	8,713	8,580
Third parties	1,726	10,533
	10,439	**19,113**
Other payables and accrued expenses:		
Related parties (Note 14d):		
Technical services	6,827	423
Royalty	209	217
Third parties:		
Employees' salaries and other compensation	2,592	4,796
Project	2,218	900
Professional fees	1,081	1,604
Others	1,474	1,403
	14,401	**9,343**
	24,840	**28,456**

7. UNEARNED REVENUE

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Balance at 1 April	5,809	2,362
Billings during the year	4,100	10,241
Revenue recognized during the year	(5,809)	(6,794)
Balance at 31 March	**4,100**	**5,809**

8. EMPLOYEE BENEFITS OBLIGATION

	As at March 31, 2026	As at March 31, 2025
a. Short-term employee benefits obligation	**177**	**314**

b. Post-employment benefits obligation

In accordance with Indonesian labor regulations, employees are entitled to certain post-employment benefits, which become vested upon termination of employment, or retirement. These benefits are primarily based on years of service and compensation at termination or retirement.

The following table reflects the balance of the obligation for post-employment benefits as of the reporting dates, as well as the movements in the obligation, and the expense recognized during 2026 and 2025:

	As at March 31, 2026	As at March 31, 2025
Movement in the defined benefit obligation		
Defined benefit obligation, beginning of year	7,679	6,469
- Current service cost	950	1,311
- Past service cost due to curtailment	(4,720)	-
- Interest cost	364	424
Included in other comprehensive income		
Actuarial losses (gains) arising from:		
- financial assumptions	286	(142)
- experience adjustment	123	(366)
Others		
- Benefits paid	(14)	(17)
Defined benefit obligation, end of year	**4,668**	**7,679**

Actuarial assumptions

Principal assumptions used in the actuarial calculations were as follows:

	2026	2025
Discount rate	**4.93% - 6.80% per annum**	6.37% - 7.11% per annum
Future salary increase rate	**7.00% per annum**	7.00% per annum

At 31 March 2026, the weighted-average duration of the defined benefit obligation is 14.72 years (2025: 14.61 years).

The discount rate is used in determining the present value of the benefit obligation at valuation date. In general, the discount rate correlates with the yield on zero coupon government bonds that are traded in active capital markets at the reporting date.

The future salary increase assumptions reflects the projected salary increments during the period from the valuation date through the expected retirement age. The salary increase rate is generally determined by applying inflation adjustments to pay scales, and by taking account of the length of service.

Sensitivity analysis

It is reasonably possible that the key actuarial assumptions applied in estimating the post-employment benefits may turn out to be different than expected. The range of such reasonably expected variability would affect the defined benefit obligation at the reporting date by the following amounts:

(In millions of Rupiah)

	2026		2025	
	1% increase	1% decrease	1% increase	1% decrease
Discount rate	(399)	457	(633)	723
Future salary increase rate	431	(385)	685	(613)

This analysis depicts the approximate sensitivity of the benefits obligation to a reasonably possible change in assumptions, but does not take account of the variability in the timing of the distribution of benefit payments expected under the plan.

9. SHARE CAPITAL AND APPROPRIATED RETAINED EARNINGS

As of 31 March 2026 and 2025, the Company's authorized share capital amounted to Rp 2,508 million (250 shares at a nominal value of Rp 10,030,000 (whole Rupiah) or USD 1,000 per share), of which amounted to Rp 1,003 million (100 shares at a nominal value of Rp 10,030,000 (whole Rupiah) or USD 1,000 per share) have been fully issued and paid-up by the following shareholders:

Shareholders	Nominal value			
	Number of shares	In millions of Rupiah	USD	%
Tata Consultancy Services Asia Pacific Pte., Ltd, Singapore	99	993	99,000	99%
Tata Consultancy Services Malaysia Sdn., Bhd, Malaysia	1	10	1,000	1%
	100	**1,003**	**100,000**	**100%**

Based on the General Shareholders' Meeting, the Company established a statutory reserve of 20% of the issued and paid-up share capital amounting to Rp 201 million in accordance with the Indonesian Limited Liability Company Law.

10. REVENUE AND CONTRACT ASSETS

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Rendering of consultancy, maintenance and support services		
(timing on revenue recognition: overtime):		
Third parties	98,160	86,584
Related parties (Note 15a)	3,565	5,669
	101,725	**92,523**
Sales of hardware and software (timing on revenue recognition point in time):		
Third parties	3,080	26
	104,805	**92,279**

Contract Assets

The contract assets primarily relate to the Company's right for consideration for work completed but not billed at the reporting date for its consultancy services. The following table provide information about contract assets from contracts with customers:

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Balance 1 April	9,931	15,516
Recognition (reversal) of revenue	8,967	9,422
Transferred to receivables	(12,204)	(15,007)
Balance 31 March	**6,694**	**9,931**

11. COST OF REVENUE

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Professional fees	27,963	25,970
Employees' salaries and other compensation	17,875	24,674
Projects and others	5,165	15,298
	51,003	**65,942**

12. GENERAL AND ADMINISTRATIVE EXPENSES

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Employees' salaries and other compensation	17,399	20,431
Taxes (Note 13c)	8,558	-
Travel	1,655	1,081
Professional fees	1,619	1,548
Utilities	1,324	1,469
Marketing and sales promotion	708	325
Others	1,113	678
	32,376	**25,532**

13. TAXATION

a. The components of income tax recognized in profit or loss are as follows:

(In millions of Rupiah)

	Year ended March 31, 2026	Year ended March 31, 2025
Current tax expense:		
Current year	2,328	2,068
Adjustments to prior years' tax expense	954	(344)
	3,282	**1,724**

	Year ended March 31, 2026	Year ended March 31, 2025
Deferred tax benefit:		
Origination and reversal of temporary differences	5,419	844
	8,701	**2,568**

b. Claims for tax refund consist of:

(In millions of Rupiah)

	Year ended March 31, 2026	Year ended March 31, 2025
Corporate income tax (CIT) overpayment:		
Fiscal year 2025	1,244	-
Fiscal year 2024	2,163	3,117
Fiscal year 2023	3,716	4,705
Value added tax (VAT):		
Fiscal year 2023	4,352	-
Withholding tax (WHT) art 21 and 23:		
Fiscal year 2023	573	-
	12,048	**7,822**

CIT overpayment for fiscal year 2023

On 12 June 2025, Indonesia Tax Authority (ITA) issued the Overpayment Tax Assessment Letter of the CIT for fiscal year 2023 which resulted in a CIT overpayment amounting to Rp 989 million as opposed to the Rp 4,705 million reported by the Company in CIT annual return. The Company received the CIT refund on 18 September 2025 amounting to Rp 989 million and filed the objection to the ITA on 23 October 2025 disputing the remaining amount of Rp 3,716 million. As of the issuance date of the financial statements, the objection is still ongoing.

VAT for fiscal year 2023

On 12 June 2025, ITA issued the Underpayments Tax Assessment Letter of VAT for period June – December 2023 and February – March 2024 which resulted in a VAT underpayment amounting to Rp 4,352 million. The Company disagreed with the tax assessment result and filed an objection letter to ITA on 23 October 2025. As of 31 March 2026, the objection is still ongoing.

WHT art 21 and 23 for fiscal year 2023

On 12 June 2025, ITA issued the Underpayments Tax Assessment Letter of WHT art 21 and 23 for period March 2024 which resulted in a WHT underpayment amounting to Rp 573 million. The Company disagreed with the underpayments tax assessment result and filed an objection letter to ITA on 23 October 2025. As of 31 March 2026, the objection is still ongoing.

Management believes that the Company has strong grounds to sustain its position in respect of the ongoing tax assessments; therefore, no provision has been recognized as of 31 March 2026.

c. On 30 April 2025, the Tax Office issued the Request for Explanation of Data and/or Information (SP2DK) of WHT art 26 for fiscal year 2021 and resulted in an underpayment of WHT art 26 amounting to Rp 4,634 million. The Company agreed to paid the underpayments including its administrative sanction on 25 October 2025 totaling Rp 5,682 million

and charged it as taxes expense to the 31 March 2026 profit or loss (Note 12).

d. Income tax expense is reconciled with profit before tax as follows:

(In millions of Rupiah)

	Year ended March 31, 2026	Year ended March 31, 2025
Profit before tax	26,526	13,821
Statutory tax rate	22%	22%
	5,836	**3,041**
Permanent differences	1,911	(129)
Adjustment to prior years' tax expense	954	(344)
Income tax expense	**8,701**	**2,568**

e. The details of the Company's deferred tax assets and liabilities are as follows:

(In millions of Rupiah)

	Year ended March 31, 2025	Recognized in profit or loss	Recognized in other comprehensive income	Year ended March 31, 2026
Deferred tax assets (liabilities):				
Provision for impairment of trade receivables	2,202	(949)	-	1,253
Accrued expenses	4,962	(3,705)	-	1,257
Employee benefits obligation	1,758	(783)	90	1,065
Lease liabilities (part of other current liabilities)	30	73	-	103
Fixed assets	(26)	(55)	-	(81)
Deferred tax assets, net	**8,926**	**(5,419)**	**90**	**3,597**

(In millions of Rupiah)

	Year ended March 31, 2024	Recognized in profit or loss	Recognized in other comprehensive income	Year ended March 31, 2025
Deferred tax assets (liabilities):				
Provision for impairment of trade receivables	4,987	(2,785)	-	2,202
Accrued expenses	3,463	1,499	-	4,962
Employee benefits obligation	1,423	447	(112)	1,758
Lease liabilities (part of other current liabilities)	-	30	-	30
Fixed assets	9	(35)	-	(26)
Deferred tax assets, net	**9,882**	**(844)**	**(112)**	**8,926**

e. The temporary difference that give rise to the deferred tax asset for the provision for impairment of trade receivables does not expire, however before such provision can be deductible the Company must provide evidence that the receivables are not collectible, and thereby must write off the uncollectible balances. Management believes

that the Company will be able to provide evidence that the receivables are not collectible as required by the Indonesian Income Tax Law.

f. Realization of the Company's deferred tax assets is dependent upon the availability of future taxable income. Management believes that these deferred tax assets are realizable in the foreseeable future.

g. Under the taxation laws of Indonesia, the Company submit/pay individual tax returns on the basis of self-assessment. The tax authorities may assess or amend taxes within the statute of limitations, under prevailing regulations.

The Company's tax positions may be challenged by the tax authorities. The Company's tax positions are formed on sound technical bases, in compliance with the tax regulations. Accordingly, management believes that no accruals for potential income tax liabilities is necessary. This assessment relies on estimates and assumptions and may involve judgment about future events. New information may become available that causes management to change its judgment. Such changes will impact tax expense in the period in which such determination is made.

14. RELATED PARTIES

The Company's parent company is Tata Consultancy Services Asia Pacific Pte., Ltd (incorporated in Singapore) and its intermediate parent is Tata Consultancy Services Limited (incorporated in India).

The Company's entities under common control are Tata Consultancy Services Malaysia Sdn., Bhd (incorporated in Malaysia), Tata Consultancy Services (China) Co., Ltd. and Tata America International Corporation (incorporated in United States).

Summary of transactions of the Company with its related parties were as follows:

(a) Revenue

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
Consultancy services rendered to (Note 10):		
Intermediate parent	2,593	3,006
Parent	172	1,957
Others	800	706
	3,565	**5,669**

(b) Purchases of services

(In millions of Rupiah)

	Year ended March 31, 2026	Year ended March 31, 2025
Services provided by:		
Intermediate parent	31,847	26,190

15. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Financial instruments

Financial assets consist of:

- Measured at amortized cost: cash and cash equivalents, trade and other receivables, contract assets, and refundable deposits.

Financial liabilities consist of:

- Measured at amortized cost: trade and other payables.

Most of the Company's financial assets and liabilities are expected to be realized, or settled in the near term. Therefore, their carrying amounts approximate their fair values.

Financial risk management

The main risks arising from the Company's financial instruments are credit risk, liquidity risk and currency risk.

Credit risk

Credit risk is the risk of financial loss in the event that a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk principally arises from trade receivables from customers. The Company manages and controls the credit risk of receivables by setting customers credit limits and monitoring the outstanding balances on an ongoing basis.

The carrying amounts of financial assets represent the maximum credit exposure, as follows:

	As at March 31, 2026	As at March 31, 2025
Cash in banks and cash equivalents	24,092	23,442
Trade and other receivables	57,191	36,538
Contract assets	6,694	9,931
Refundable deposits	173	180
	88,150	**70,091**

Impairment

An analysis of the credit quality of trade and other receivables and contract assets is summarized below:

(In millions of Rupiah)

	As at March 31, 2026	As at March 31, 2025
	Carrying amount	Carrying amount
Not past due	53,041	35,216
Past due:		
Less than 90 days	3,525	8,979
91 days to 1 year	3,530	2,274
1 year and above	3,789	-
	63,885	**46,469**

The following table provides information about the exposure to credit risk and ECLs for trade and other receivables and contract assets as at 31 March 2026 and 2025:

(In millions of Rupiah)

	March 31, 2026		
	Weighted average loss rate	Gross carrying amount	Loss allowance
Not past due		53,041	-
Past due:			
Less than 90 days	0 %	3,525	-
91 days to 1 year	0 %	3,530	-
1 year and above	60 %	9,479	(5,690)
		69,575	**(5,690)**

(In millions of Rupiah)

	March 31, 2025		
	Weighted average loss rate	Gross carrying amount	Loss allowance
Not past due		35,216	-
Past due:			-
Less than 90 days	0 %	8,979	-
91 days to 1 year	0 %	2,274	-
1 year and above	100 %	10,006	(10,006)
		56,475	**(10,006)**

The movement in the allowance for impairment in respect of trade receivables and contract assets during the years was as follows:

(In millions of Rupiah)

	Year ended March 31, 2026	Year ended March 31, 2025
Balance at 1 April	10,006	22,667
Reversal impairment loss on trade receivables	(4,316)	(12,661)
Balance at 31 March	**5,690**	**10,006**

Management considers reasonable and supportable information that is relevant and available without undue cost or effort. This include both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information. Based on evaluation at year end, management believes that provision for impairment of trade receivables and contract assets is sufficient.

Cash and cash equivalents

The Company's cash and cash equivalents are deposited at reputable banks that are subject to tight regulations, therefore, the exposure to loss is minimized.

Refundable deposits

Refundable deposits represent cash paid in advance by the Company whereby the Company expects to be refundable after a specific period of time, or when certain conditions are satisfied, therefore, no significant credit risk factors was identified.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial assets. The Company manage this liquidity risk by on-going monitoring of the projected and actual cash flows.

The following are the contractual maturities of financial liabilities, including estimated interest payments:

(In millions of Rupiah)

	Carrying amount	Contractual cash flows
		Total/Within 1 year
March 31, 2026		
Financial liabilities		
Trade and other payables	24,840	24,840
Lease liabilities (part of other current liabilities)	469	488
	25,309	**25,328**

(In millions of Rupiah)

	Carrying amount	Contractual cash flows
		Total/Within 1 year
March 31, 2025		
Financial liabilities		
Trade and other payables	28,456	28,456
Lease liabilities (part of other current liabilities)	138	139
	28,594	**28,595**

Currency risk

Payables arising from overseas suppliers expose the Company to fluctuating foreign exchange rates, from the currencies other than the Company's functional currency, primarily US Dollar (USD). The Company manages this risk also by buying or selling foreign currencies at spot rates, when necessary.

The Company's net exposure to currency risk is as follows:

(In millions of Rupiah)

	2026	2025
	US Dollars	US Dollars
Assets	680,950	884,272
Liabilities	(238,650)	(634,047)
Net exposure	**442,300**	**250,225**

At reporting dates, balances of monetary assets and liabilities denominated in USD are translated into Rupiah using the prevailing exchange rates which were Rp 16,949/USD at 31 March 2026; and Rp 16,667/USD at 31 March 2025.

The Company believes that a strengthening/weakening of the Rupiah, by against USD would not have significant impact to equity and profit or loss after tax. This analysis is based on USD rate variances that management considers as being reasonably possible at the reporting date. The analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecasted sales and purchases.

Capital risk management

The Company manages capital with the objective of being able to continue as a going concern and sustaining its ability to provide returns for shareholders and benefits for other stakeholders, as well as maintaining an optimal capital structure to minimize the effective cost of capital. This objective is achieved by optimizing debt levels.

INDEPENDENT AUDITOR'S REPORT

THE BOARD OF DIRECTORS AND STOCKHOLDERS
TATA CONSULTANCY SERVICES (PHILIPPINES), INC.

10th Floor, Panorama Tower
34th Street Corner Lane A
Bonifacio Global City, Taguig City

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Tata Consultancy Services (Philippines), Inc. (the "Company"), a wholly-owned subsidiary of Tata Consultancy Services Asia Pacific Pte. Ltd., which comprise the statements of financial position as at March 31, 2026 and 2025, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for the years then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2026 and 2025, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standard (PFRS) Accounting Standard.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standard, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010 of the Bureau of Internal Revenue

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information on taxes, duties and license fees in Note 26 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in our audits of the basic financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Tata Consultancy Services Limited (the "Intermediate Parent"), a company incorporated in India and Tata Sons Limited ("the Ultimate Parent"), a company incorporated in India is the Company's ultimate parent company.

The Company is registered with the Philippine Economic Zone Authorities (PEZA) under Republic Act No. 7916 (The Special Economic Zone Act of 2005) as an Ecozone IT Enterprise on June 2, 2010.

The Company is concurrently registered with the Philippine Board of Investments (BOI) under Executive Order No. 226 (Omnibus Investment Code of 1987) as an Export Market Enterprise on December 22, 2022.

2. BASIS OF PREPARATION

Statement of Compliance

The financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards as issued by the Philippine Financial and Sustainability Reporting Standards Council (FSRSC). PFRS Accounting Standards are based on International Financial Reporting Standards (IFRS) Accounting Standards issued by the International Accounting Standards Board (IASB).

Basis of Measurement

The financial statements of the Company have been prepared on the historical cost basis of accounting, except for the retirement benefit obligation which is measured at the present value of defined benefit obligation, certain financial instruments which are measured at fair value or amortized cost at the end of each reporting period and lease liability which is measured at amortized cost.

Functional and Presentation Currency

The financial statements are measured using the currency of the primary economic environment in which the Company operates. The financial statements are presented in Philippine Peso, which is the Company's functional currency. All amounts are rounded to the nearest Peso, except when otherwise indicated.

Authorization for Issuance of the Financial Statements

The accompanying financial statements were approved and authorized for issue by the Company's Board of Directors (BOD) on April 30, 2026.

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all years presented in the financial statements, except for the changes in accounting policies as explained below.

Adoption of New or Revised Standards, Amendments to Standards and Interpretations

The Company has adopted the following new standards, amendments to standards and interpretations starting April 1, 2025 and accordingly, changed its accounting policies. Except as otherwise indicated, the adoption did not have any significant impact on Company's financial statements.

Effective January 1, 2026

- *Amendments to the Classification and Measurement of Financial Instruments (Amendments to PFRS 9, Financial Instruments, and PFRS 7, Financial Instruments: Disclosures). The amendments relate to the date of recognition and derecognition financial assets.*

  Date of Recognition and Derecognition. The amendments clarified that:

  - a financial asset or financial liability is recognized on the date on which the entity becomes party to the contractual provisions of the instrument unless the regular way exemption applies;

- a financial asset is derecognized on the date on which the contractual rights to cash flows expire or the asset is transferred; and
- a financial liability is derecognized on the settlement date, which is the date on which the liability is extinguished because the obligation specified in the contract is discharged or cancelled or expires or the liability otherwise qualifies for derecognition.

Standard Issued But Not Yet Adopted

A number of new standards and amendments to standards are effective for annual periods beginning after April 1, 2024. However, the Company has not early adopted the following new or amended standards in preparing these financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Company's financial statements.

Effective January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements will replace* PAS 1 and aims to provide greater consistency in presentation of the income and cash flow statements, and more disaggregated information.
- A more structured income statement. PFRS 18 promotes a more structured income statement. It introduces a newly defined 'operating profit or loss' and 'profit or loss before financing and income tax' subtotals, and a requirement for all income and expenses to be classified into three new distinct categories - operating, investing, and financing - based on a company's main business activities. PFRS 18 also requires companies to analyze their operating expenses directly on the face of the income statement - either by nature, by function or on a mixed basis. Companies need to choose the presentation method that provides the 'most useful structured summary' of those expenses. New disclosures apply if any operating expenses are presented by function.
- Management-defined performance measures. PFRS 18 provides a definition for management-defined performance measures (MPMs) and introduces specific disclosure requirements. MPMs are subtotals of income and expenses that are used in public communications outside the financial statements, communicate management's view of an aspect of the financial performance of the entity as a whole and are not a required subtotal or a common income and expense subtotal listed in PFRS 18. For each MPM presented, companies will need to explain in a single note to the financial statements why the measure provides useful information and how it is calculated, and to reconcile it to an amount determined under PFRS Accounting Standards.
- Greater disaggregation of information. PFRS 18 provides enhanced guidance on how companies group information in the financial statements, including newly defined roles of the primary financial statements and the notes, principles of aggregation and disaggregation based on shared and non-shared characteristics, and specific guidance for labelling and describing items in a way that faithfully represents an item's characteristics.

PFRS 18 also now require goodwill to be presented as a line item in the statement of financial position.

Consequential amendments to PAS 7 requires the use of the operating profit or loss subtotal as the starting point when presenting operating cash flows under the indirect method and eliminate the options for classifying interest and dividend cash flows.

PFRS 18 also amends PAS 33, *Earnings per Share*, to permit companies to disclose additional amounts per share using as numerator a required income and expenses total or subtotal, a common subtotal listed in PFRS 18 or an MPM disclosed by the entity.

PFRS 18 applies for annual reporting periods beginning on or after January 1, 2027, with earlier application permitted. It applies retrospectively in accordance with PAS 8 Accounting Policies, Changes in Accounting Estimates and Errors. Specific reconciliations are required to be disclosed. Eligible entities including venture capital organizations, mutual funds and some insurers will be allowed to change their election for measuring investments in associates and joint ventures from equity method to fair value through profit or loss.

- Disclosures about Uncertainties in the Financial Statements (Amendments to Illustrative Examples on PFRS 7, PFRS 18, IAS 1, IAS 8, IAS 36 and IAS 37). To help companies disclose sufficient information about the effects of uncertainties and improve their consistency with information provided outside financial statements, the amendments provide illustrative examples demonstrating how companies can apply PFRS Accounting Standards when reporting the effects of uncertainties in their financial statements. The examples use climate-related scenarios as practical illustrations, but the underlying principles apply more broadly to all uncertainties.

The illustrative examples highlight specific disclosure requirements that may apply when a company is exposed to climate-related or other uncertainties. Companies may need to disclose information about:

- key assumptions related to future emissions allowance costs and the potential changes to emissions regulation used to calculate value in use;
- plant decommissioning and site restoration obligations, which may be material regardless of the size of provision; and
- the effects of climate-related risks on the company's credit risk exposures and related risk management practices.

The illustrative examples also highlight overarching disclosure requirements that may apply:

- whether and how announced climate-related strategies and commitments have affected the financial statements, specifically if a company determines that there is no impact on its financial position and performance at the reporting date;
- the effect of an uncertainty on the company's financial position and performance;
- disaggregated information about types of property, plant and equipment that are exposed to dissimilar climate-related matters which does not affect other types; and
- key assumptions and estimates - if there is a significant risk that changes could affect the subsequent year's financial statements (even if the uncertainty is not expected to be resolved in the subsequent year).

The illustrative examples do not have an effective date or transition requirements because they are not an integral part of the PFRS Accounting Standards. However, companies are expected to implement any change in their reporting on a timely basis.

Financial Assets & Financial Liabilities

Financial assets and liabilities are recognised on the date on which the Company becomes a party to the contractual provisions of the instrument unless the regular way exemption applies. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only on the date on which the contractual rights to the cash flows expire or the asset is transferred. The Company derecognises financial liabilities on the settlement date, which is the date on which the liability is extinguished because the obligation specified in the contract is discharged or cancelled or expires or the liability otherwise qualifies for derecognition.

Financial Assets at Amortized Cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial Assets at Fair Value through Other Comprehensive Income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

As at March 31, 2026 and 2025, the Company has no financial assets classified as measured at fair value through other comprehensive income.

Financial Assets at fair Value through Profit or Loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial Liabilities

Financial liabilities are measured at amortized cost using the effective interest method.

Impairment of Financial Assets (Other than at Fair Value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. PFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Prepayments

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as they are consumed in operations or expire with the passage of time.

Prepayments are classified in the statements of financial position as current assets when the cost of services related to the prepayments are expected to be incurred within one year or the Company's normal operating cycle, whichever is longer. Otherwise, prepayments are classified as noncurrent assets.

Property and Equipment

Property and equipment are initially measured at cost. The cost of an item of property and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates;
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by Management; and
- the initial estimate of the future costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

At the end of each reporting period, item of property and equipment measured using the cost model are carried at cost less any subsequent accumulated depreciation, amortization and impairment losses.

Subsequent expenditures relating to an item of property and equipment that have already been recognized are added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditures are recognized as expenses in the period in which those are incurred.

Depreciation is computed on the straight-line method based on the estimated useful lives of the assets as follows:

	Number of Years
Computer equipment	4
Furniture and fixtures	5
Office equipment	5 - 10
Leasehold improvements	5 or lease term, whichever is shorter

Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment losses. Cost includes directly attributable expenditures such as professional fees. Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized in accordance with PAS 23, *Borrowing Costs*. All other borrowing costs are recognized as an expense in the period in which they are incurred. Depreciation of these assets commences when the asset is available for use, that is, when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a Lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices.

The Company recognizees a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the lessee's incremental borrowing rate. Generally, the Company uses the lessee's incremental borrowing rate as the discount rate.

The Company determines the lessee's incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets.

The Company has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Impairment of Nonfinancial Assets

At the end of each reporting period, the Company assesses whether there is any indication that any of its nonfinancial assets, which comprise of property and equipment, may have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit (CGU) to which the asset belongs. A reasonable and consistent basis of allocation can be identified, assets are also allocated to individual (CGUs), or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognized as in profit or loss.

Impairment losses recognized in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. A reversal of an impairment loss is recognized in profit or loss.

Share Capital

Share capital are classified as equity. Incremental costs directly attributable to the issuance of new shares or options are shown in equity as a deduction from the proceeds, net of tax.

Treasury Shares

When share capital recognized as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognized as a deduction from equity. Repurchased shares are classified as treasury shares and are presented in the reserve for own shares. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is presented in additional paid-in capital.

Retained Earnings

Retained earnings represent accumulated profits or losses. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Unappropriated retained earnings represent that portion which is free and can be declared as dividends to stockholders. Appropriated retained earnings represent that portion which has been restricted and, therefore, not available for dividend declaration. When appropriation is no longer needed, it is reversed.

Other Comprehensive Income (OCI)

Other comprehensive income represents income and expense that are not recognized in profit or loss as required or permitted by the related accounting standards.

Revenue Recognition

The Company earns revenue primarily from providing IT services, business solutions and outsourcing services. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognized on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognized based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognized using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognized upfront at the point in time when the system/software is delivered to the customer. In cases where implementation and/or customization services rendered significantly modifies or customizes the software, these services and software are accounted for as a single performance obligation and revenue is recognized over time on a POC method .
- Revenue from the sale of distinct third party hardware is recognized at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognizes revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract fulfilment costs are generally expensed as incurred except for certain software license costs which meet the criteria for capitalization. Such costs are amortized over the contractual period or useful life of the license, whichever is less. The assessment of this criteria requires the application of judgement, when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognized when there are billings in excess of revenues. Contract liability is presented in the Company's financial statements as "unearned revenue".

The billing schedules agreed with customers could include periodic performance-based payments and/or milestone-based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with PAS 37, the Company recognizes an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by industry verticals, geography, and nature of services.

Use of significant judgments in revenue recognition

- The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products and services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgment to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
- Judgment is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. The Company has applied the practical expedient provided by PFRS 15, *Revenue Contracts with Customers*, whereby the Company does not adjust the transaction price for the effects of the time value of money where the period between when the control on goods and services transferred to the customer and when payment thereof is due, is one year or less. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and is reassessed at the each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.
- The Company exercises judgment in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
- Revenue for fixed-price contracts are recognized using percentage-of-completion method. The Company uses judgment to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

Finance and Other Income

Interest Income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Other Income

Other income is income generated outside the normal course of business and is recognized when it is probable that the economic benefits will flow to the Company and it can be measured reliably.

Expense Recognition

Costs and expenses are recognized when incurred and have been classified according to their primary functions in the following categories:

Cost of Revenue

These costs primarily include employee compensation of personnel engaged in providing services, travel expenses, fees to external consultants, cost of equipment and software licenses, depreciation and amortization of production related equipment and software, facility expenses, communication expenses and other project related expenses.

Selling, General and Administrative Expenses

Selling costs primarily include employee compensation for sales and marketing personnel, travel expenses, advertising, business promotion expenses, bad debts and advances written off, allowance for doubtful trade receivables and advances, facility expenses for sales and marketing offices and market research costs.

General and administrative costs primarily include employee compensation for administrative, supervisory, managerial and practice management personnel, depreciation and amortization expenses of non-production equipment and software, facility expenses for administrative offices, communication expenses, fees to external consultants and other general expenses.

Employee Benefits

Short-term Benefits

The Company recognizes a liability net of amounts already paid and an expense for services rendered by employees during the accounting period that are expected to be settled wholly before twelve months after the end of the reporting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

Compensated absences

Compensated absences are recognized as undiscounted liability as at the end of the reporting periods.

Post-employment Benefits

The Company classifies its retirement benefit as defined benefit plans. Under the defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, is reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability. Defined benefit costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements).
- Net interest expense or income.

The Company presents the first two components of defined benefit costs in profit or loss in the line item of cost of services and general and administrative expenses. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognized in the statements of financial position represents the present value of the defined benefit obligation.

Taxes

Current and deferred taxes are recognized in profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

Income tax expense represents the sum of current tax expense and deferred tax.

Current Tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net income as reported in the statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. As a PEZA-registered entity, the Company is entitled to corporate income tax holiday (ITH) for four years for IT and Business Process Outsourcing (BPO) projects effective on the committed date of start of commercial operations, or the actual date of start of commercial operations, whichever is earlier. The Company's liability for current tax is calculated using 0% tax rate for PEZA-registered activities under ITH and 5% tax rate for PEZA and BOI-registered activities and 25% tax rate for ordinary activities.

Deferred Tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, while deferred tax assets are generally recognized for all deductible temporary differences and carry forward benefits of unused net operating loss carry over (NOLCO), to the extent that it is probable that taxable profits will be available against which those deductible temporary differences and carry forward benefits of NOLCO can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Unrecognized deferred income tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that sufficient future taxable profits will allow the deferred income tax asset to be recovered.

Deferred tax liabilities and assets are measured using substantial enacted tax rates that are expected to apply in the period in which the liability is settled or the asset realized.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax assets against current tax liabilities and they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Value-added Tax (VAT)

Revenues, expenses and assets are recognized net of the amount of VAT, except:

- where the sales tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables that are stated with the amount of VAT included.

The net amount of sales tax recoverable from or payable to the tax authority is included as part of receivables or payables in the Company's statements of financial position.

Foreign Currency Denominated Transactions and Translation

Transactions in currencies other than Philippine Peso are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Gains and losses arising on settlement and retranslation are included in profit or loss for the year. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

Related Parties and Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individuals or corporate entities.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable (i.e., more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of the provision to be reimbursed, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to any provision is presented in profit or loss, net of reimbursement. If the effect of the time value of money is material, provisions are discounted using the current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Contingencies

Contingent liabilities are not recognized in the financial statements but are disclosed in the notes to the financial statements unless the outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed in the notes to the financial statements when an inflow of economic benefits is probable.

Events After the Reporting Period

The Company identifies events after the end of the reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. The financial statements of the Company are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to the financial statements when material.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that management have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in financial statements.

Determining Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency of the Company has been determined to be the Philippine Peso. The Philippine Peso is the currency of the primary economic environment in which the Company operates. It is the currency that mainly influences the Company in determining the costs and selling price of its services.

Determining Term and Discount Rate of Lease Agreement

The company evaluates if an arrangement qualifies to be a lease as per the requirements of PFRS 16, Leases. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Key source of estimation of uncertainty in respect of revenue recognition, impairment has been discussed in their respective policies.

Estimating Impairment Losses on Trade Receivable

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. PFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

As at March 31, 2026 and 2025, the management provided for allowances amounting to nil and P132.24 million, respectively considering doubtful collection from accounts (see Note 6).

Trade receivables recognized in the Company's statements of financial position amounted to P2,149.03 million and P2,069.04 million, as at March 31, 2026 and 2025, respectively (see Note 6).

Estimating Useful Lives of Property and Equipment

The useful lives of the Company's property and equipment are estimated based on the period over which the assets are expected to be available for use. The estimated useful lives are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the Company's assets. In addition, the estimation of the useful lives is based on the Company's collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of property and equipment would increase the recognized operating expenses and decrease non-current assets.

There is no change in the EUL of the Company's property and equipment in 2026 and 2025.

As at March 31, 2026 and 2025, the carrying amounts of the Company's property and equipment amounted to P441.53 million and P429.78 million, respectively (see Note 8).

Estimating Impairment of Nonfinancial Assets

The Company performs an impairment review when certain impairment indicators are present. Determining the recoverable amount of property and equipment, which require the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets, require the Company to make estimates and assumptions that can materially affect the financial statements. Future events could cause the Company to conclude that property and equipment and intangible asset are impaired. Any resulting impairment loss could have a material adverse impact on the financial position and results of operations.

The preparation of the estimated future cash flows involves significant judgment and estimations. While the Company believes that its assumptions are appropriate and reasonable, significant changes in the assumptions may materially affect the assessment of recoverable values and may lead to future additional impairment charges.

As at March 31, 2026 and 2025, the Company's management determined that there are no impairment indicators affecting its property and equipment.

Recoverability of Deferred Tax Assets

The Company reviews its deferred tax assets at each reporting date and reduces the carrying amounts to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. The Company also reviews expected timing and rates upon reversal of temporary differences and adjust impact

of deferred tax assets accordingly. The Company's assessment on the recognition of deferred tax assets is based on the forecasted taxable income of the subsequent reporting periods. This forecast is based on Company's past results and future expectation on revenues and expenses.

As at March 31, 2026 and 2025, Company has recognized deferred tax assets for retirement benefit obligation, bonus, and leave liability amounted to P8.47 million and nil, respectively. In 2025, management believed it was not probable that future taxable profits from its PEZA registered activities will be available against which the company can utilize the carryforward benefits of retirement benefit obligation, bonus and leave liability, respectively (see Notes 19 and 21).

Estimating Retirement Benefit Obligation and Expense

The determination of the retirement benefit obligation and expense is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include discount rates, mortality rates and rates of compensation increase, among others. Actual results that differ from the assumptions are accumulated and amortized over future periods and therefore, generally affect the recognized expense and recorded obligation in such future periods. While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the retirement obligations.

The retirement benefit expense charged to operations amounted to P75.22 million and P65.10 million in 2026 and 2025, respectively. The carrying amount of the retirement benefit obligation in the Company's statements of financial position amounted to P307.39 million and P302.13 million as at March 31, 2026 and 2025, respectively (see Note 11).

Estimating Provisions and Contingent Liabilities

The Company is involved in a certain claim, which arise in the normal course of business. The management believes that the claims lack legal basis and will contest any future proceedings. The estimate on the probable costs for the resolution of these possible claims is based upon analysis of potential results. Currently, the Company does not believe these claims will have a material adverse effect on the Company's financial statements. It is possible that future financial performance could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceeding.

Contingent liabilities are disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote.

5. CASH AND CASH EQUIVALENTS

This account consists of:

	Note	As at March 31, 2026	As at March 31, 2025
Cash on hand		P95,000	P95,000
Cash in banks	22, 23	70,175,650	14,812,775
Cash equivalents	22, 23	643,038,752	603,349,512
		P713,309,402	**P618,257,287**

Cash pertains to cash on hand and unrestricted cash in banks, which earned an average interest of 0.01%. Interest for time deposit earned an average interest of 3.04% and 3.39% in 2026 and 2025, respectively. Income earned on cash in banks amounted to P0.11 million and P0.12 million in 2026 and 2025, respectively, while interest income earned on time deposits amounted to P8.24 million and to P9.30 million in 2026 and 2025, respectively.

Notes forming part of the Financial Statements

6. TRADE RECEIVABLES - NET

(a) Current

This account consists of:

	As at March 31, 2026	As at March 31, 2025
Trade:		
Billed receivables	P1,679,071,833	P1,784,477,578
Unbilled receivables	425,377,760	406,261,141
	2,104,449,593	**2,190,738,719**
Allowance for impairment losses	-	(132,235,807)
	P2,104,449,593	**P2,058,502,912**

The average credit period taken on sales of services is 15-75 days. No interest is charged in the receivable exceeding the credit period.

Out of the total trade receivables, due from related parties amounted to P1,753.26 million and P1,694.79 million as at March 31, 2026 and 2025, respectively (see Note 18).

Movements of allowance for impairment losses:

	Note	As at March 31, 2026	As at March 31, 2025
Balance at beginning of year		P132,235,807	P14,821,415
Provision	16	581	117,401,107
Write-off		(132,223,103)	-
Foreign exchange gain (loss)		(13,285)	13,285
Balance at end of year		**P -**	**P132,235,807**

(b) Noncurrent

This account consists of:

	As at March 31, 2026	As at March 31, 2025
Trade:		
Unbilled receivables	P44,576,284	P10,538,872
	P44,576,284	**P10,538,872**

The noncurrent trade receivables pertains to sale of services where the credit period is more than one year from the balance sheet date. No interest is charged in the receivable exceeding credit period.

7. PREPAYMENTS AND OTHER CURRENT ASSETS

This account consists of:

	Note	As at March 31, 2026	As at March 31, 2025
Contract assets	14, 18	P379,122,678	P181,524,273
Prepaid expenses		69,070,418	20,007,338
Advances to employees		24,025,491	15,870,779

	Note	As at March 31, 2026	As at March 31, 2025
Sublease receivable	18	6,725,760	6,761,563
Advance rent	20	3,264,685	-
Other receivables		2,734,272	3,028,863
Refundable deposits	20, 22, 23	-	1,833,600
Others		1,892,089	1,078,193
		P486,835,393	**P230,104,609**

Prepaid expenses include health medical insurance.

Advances to employees is net of allowance for impairment losses amounting to nil and P0.05 million in 2026 and 2025, respectively. Doubtful expense is recognized in profit or loss under General and administrative expenses amounting to P0.0001 million and P0.04 million in 2026 and 2025, respectively (see Note 16).

Other receivables include receivables from Social Security System for advances made on behalf of the Company's employees.

Others include excess input VAT credit.

8. PROPERTY AND EQUIPMENT

Movements in the carrying amounts of the property and equipment are as follows:

	Computer Equipment	Furniture and Fixtures	Office Equipment	Leasehold Improvements	Construction in Progress	Total
Cost						
Balance, March 31, 2024	P739,041,266	P93,791,027	P283,273,408	P485,973,925	P78,567,056	P1,680,646,682
Addition	119,093,146	144,810	5,675,276	-	119,313,074	244,226,306
Reclassifications	3,790,250	-	1,748,522	-	(5,538,772)	-
Balance, March 31, 2025	**861,924,662**	**93,935,837**	**290,697,206**	**485,973,925**	**192,341,358**	**1,924,872,988**
Addition	43,555,410	994,510	4,674,483	75,406,857	18,510,041	143,141,301
Reclassifications	4,442,770	698,525	8,202,226	-	(13,343,521)	-
Balance, March 31, 2026	**909,922,842**	**95,628,872**	**303,573,915**	**561,380,782**	**197,507,878**	**2,068,014,289**
Accumulated Depreciation and Amortization						
Balance, March 31, 2024	549,456,015	90,995,711	262,972,766	479,577,669	-	1,383,002,161
Depreciation and amortization	93,665,440	2,493,948	10,412,777	5,523,506	-	112,095,671
Balance, March 31, 2025	**643,121,455**	**93,489,659**	**273,385,543**	**485,101,175**	**-**	**1,495,097,832**
Depreciation and amortization	104,018,585	485,688	9,539,784	17,337,408	-	131,381,465
Balance, March 31, 2026	**747,140,040**	**93,975,347**	**282,925,327**	**502,438,583**	**-**	**1,626,479,297**
Carrying Amounts						
March 31, 2025	P218,803,207	P446,178	P17,311,663	P872,750	P192,341,358	P429,775,156
March 31, 2026	**P162,782,802**	**P1,653,525**	**P20,648,588**	**P58,942,199**	**P197,507,878**	**P441,534,992**

The total amount of additions to property and equipment includes cash acquisitions amounting to P78.42 million and P241.71 million as at March 31, 2026 and 2025, respectively.

Management believes that there are no impairment indicators offsetting the Company's property and equipment.

Depreciation and amortization is recognized in profit or loss as follows:

	Note	As at March 31, 2026	As at March 31, 2025
Cost of services	15	P118,079,489	P96,413,738
General and administrative expenses	16	13,301,976	15,681,933
		P131,381,465	**P112,095,671**

9. OTHER NONCURRENT ASSETS

This account consists of:

	Note	As at March 31, 2026	As at March 31, 2025
Refundable deposits	20, 22, 23	P89,685,024	P81,375,240
Contract assets	14	-	9,696,243
Sublease receivable	18	-	4,919,491
Others		17	17
		P89,685,041	**P95,990,991**

10. TRADE AND OTHER PAYABLES

This account consists of:

	Note	As at March 31, 2026	As at March 31, 2025
Trade payables		P442,772,906	P530,528,596
Accrued short-term employee benefits		885,889,611	733,204,707
Unearned revenues	14	123,848,518	117,134,196
Withholding taxes payables		88,331,059	70,385,835
Provision for volume discount		68,213,049	52,097,347
Output VAT - net		22,893,037	6,375,296
Other statutory payables		54,887,771	59,915,986
	23	**P1,686,835,951**	**P1,569,641,963**

The average credit period on purchases of goods and services from suppliers is 30-45 days. No interest is charged on the trade payables. The Company has financial risk management policies in place to ensure that all payables are paid within the credit timeframe.

Accrued short-term employee benefits include provision for employee bonus, sick leave, and vacation leave accruals.

Output VAT is net of input VAT amounting to P22.93 million and P6.38 million as at March 31, 2026 and 2025, respectively. Claims for tax credit amounted to nil and P0.57 million as at March 31, 2026 and 2025.

Out of the total trade payables, due to related parties amounted to P254.51 million and P401.43 million as at March 31, 2026 and 2025, respectively (see Note 18).

Refer to Note 14 for changes in contract liabilities, presented above as "Unearned revenues".

Notes forming part of the Financial Statements

11. RETIREMENT BENEFIT PLAN

The Company operates a defined benefit plan for qualifying employees. Under the plan, the employees upon reaching the age of 60 years or more but not beyond 65 years, which is declared the compulsory retirement age, and have served at least five years in the Company are entitled to retirement benefits equivalent to at least one half month salary for every year of service rendered in the Company.

The plan typically exposes the participants to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Interest Rate Risk

A decrease in the government bond interest rate will increase the plan liability.

Longevity Risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The most recent actuarial valuation of the present value of the defined benefit obligation were carried out at March 31, 2026 by an independent actuary. The present value of the defined benefit obligation and the related current service cost were measured using the Projected Unit Credit Method.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

	Valuation at	
	2026	2025
Discount rate	7.20%	6.18%
Expected rate of salary increase	5.00%	5.00%

Amounts recognized in profit or loss and other comprehensive income in respect of this defined benefit plan are as follows:

	Note	Defined Benefit Obligation	
		2026	2025
Balance at beginning of year		P302,125,415	P241,500,461
Included in Profit or Loss			
Current service cost		56,549,619	50,010,177
Interest cost		18,671,351	15,093,779
		75,220,970	**65,103,956**
Contribution paid		(4,499,622)	(212,950)
Transferred obligation	18	(6,381,738)	-
Included in OCI			
Remeasurement gain arising from:			
Changes in demographic assumptions		(9,250,076)	-
Changes in financial assumptions		(46,513,852)	2,933,101
Forwarded		-	-

	Note	Defined Benefit Obligation	
		2026	2025
Continuation		-	-
Deviations of experience from			
assumptions		(3,310,099)	(7,199,153)
		(59,074,027)	**(4,266,052)**
Balance at end of year		**P307,390,998**	**P302,125,415**

Retirement benefits expense is recognized in profit or loss as follows:

	Note	As at March 31, 2026	As at March 31, 2025
Cost of services	15, 16, 17	P66,364,907	P53,230,850
General and administrative expenses	15, 16, 17	8,856,063	11,873,106
		P75,220,970	**P65,103,956**

The reasonably possible changes to the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	Increase (Decrease) in Defined Benefit Obligation	
	As at March 31, 2026	As at March 31, 2025
Discount rate:		
Increase by 0.5%	(P19,647,035)	(P20,160,603)
Decrease by 0.5%	21,416,889	22,072,788
Salary rate:		
Increase by 0.5%	21,864,116	22,290,368
Decrease by 0.5%	(20,267,598)	(20,627,608)
Employee turnover:		
Increase by 10%	(24,809,276)	(25,186,876)
Decrease by 10%	24,809,276	25,186,876

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the Projected Unit Credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the statements of financial position.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

There has been no change in the process used by the Company to manage its risks from prior periods.

Notes forming part of the Financial Statements

12. SHARE CAPITAL

An analysis of the Company's share capital is as follows:

	As at March 31, 2026	As at March 31, 2025
Authorized 3,000,000 ordinary shares of P100 par value		
Issued	2,762,000	2,762,000
Treasury shares	(380,000)	(380,000)
Total issued and outstanding	**2,382,000**	**2,382,000**

The Company has one class of ordinary shares which carries no right to fixed income.

Treasury Shares

On July 26, 2017, the BOD approved to buy-back 380,000 shares from Tata Consultancy Services Asia Pacific Pte. Ltd. for P1,454 per share for a total of P552.52 million. These shares will not be retired and shall be deemed as treasury shares.

13. RETAINED EARNINGS

Under the Revised Corporation Code of the Philippines, the Company is prohibited to retain surplus profits in excess of one hundred percent (100%) of its paid-up capital except: when justified by definite corporate expansion projects or programs approved by the BOD; when a company is prohibited under any loan agreement with any financial institution or creditor, whether local or foreign, from declaring dividends without its consent, and such consent has not yet been secured; or when it can be clearly shown that such retention is necessary under special circumstances, such as when there is a need for reserve for probable contingencies.

On July 26, 2024, the BOD approved the declaration of cash dividends at P73.89 per share amounting to P176 million. The dividends were paid on July 29, 2024.

On October 25, 2024, the BOD approved the declaration of cash dividends at P121.75 per share amounting to P290 million. The dividends were paid on October 28, 2024.

On March 17, 2025, The Company reversed the appropriated retained earnings amounting to P500 million for the purpose of business expansion held on March 15, 2024. Further, the BOD approved appropriation between P800 million to P1,200 million of the total retained earnings of P1,784.88 million as at March 31, 2025 for business expansion. Appropriation of P1,000 million was ratified by the BOD on May 2, 2025. Furthermore, the BOD approved the declaration of cash dividends at P96.22 per share amounting to P229.20 million. The dividends were paid on March 20, 2025.

On August 19, 2025, the BOD approved the declaration of cash dividends at P121.75 per share amounting to P290 million. The dividends were paid on August 22, 2025.

On November 21, 2025, the BOD approved the declaration of cash dividends at P125.94 per share amounting to P300 million. The dividends were paid on November 24, 2025.

On February 11, 2026, the BOD approved the declaration of cash dividends at P125.94 per share amounting to P300 million. The dividends were paid on February 13, 2026.

On March 26, 2026, the Company reversed the appropriated retained earnings amounting to P1,000 million for the purpose of business expansion held on March 17, 2025. Further, the BOD approved appropriation between P800 million to P1,300 million of the total retained earnings of P2,069.15 million as at March 31, 2026 for business expansion which is expected until 2030. Appropriation of P1,300 million was ratified by the BOD on April 30, 2026. Furthermore, the BOD approved the declaration of cash dividends at P100.76 per share amounting to P240 million. The dividends were paid on March 26, 2026.

Subsequent Events

On April 30, 2026, the BOD approved the declaration of cash dividends at P79.76 per share amounting to P190 million, which will be paid on or before May 15, 2026.

Notes forming part of the Financial Statements

14. REVENUE

An analysis of the Company's revenue is as follows:

	Note	As at March 31, 2026	As at March 31, 2025
Sale of service to third parties		P2,396,475,268	P2,096,056,938
Sale of service to related parties	18	6,216,509,859	5,576,010,257
		P8,612,985,127	**P7,672,067,195**

Sale of services is net of volume discount amounting to P76.55 million and P95.89 million in 2026 and 2025, respectively.

Revenue disaggregation by industry vertical is as follows:

	As at March 31, 2026	As at March 31, 2025
Banking, financial and insurance	P2,228,367,069	P2,399,321,288

Balance at the end of the year	10	**(P123,848,518)**	**(P117,134,196)**

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in PFRS 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognized corresponds to the value transferred to customer typically involving time and material, outcome based and event-based contracts.

Unsatisfied (or partially satisfied) performance obligations are futuristic and therefore subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc.). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations P11.56 billion out of which 25.42% is expected to be recognized as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

a. Sales to related parties were made at the Company's usual list prices. Purchases and direct cost-intercompany charges, representing subcontract costs for employee-related costs recoveries and reimbursements, were made at market price discounted to reflect the services purchased and the relationships between the parties. Sale of services is net of volume discount amounting to P75.01 million and P90.60 million in 2026 and 2025, respectively. Contract assets amounting to P81.09 million and P108.27 million are recognized from the Intermediate Parent as at 2026 and 2025, respectively. Direct Cost and General and Administrative Expenses Direct from the Company's intermediate parent company, Tata Consultancy Services Limited, consist of direct cost-intercompany charges under Cost of Services and Legal and Professional Fees under General and Administrative Expenses amounting to P495.24 million and nil, respectively.

b. On December 23, 2009, the BOD approved the subscription of the Company to Tata Brand Equity & Business Promotion Scheme (Scheme) and authorized its intermediate parent company, Tata Consultancy Services Limited, to enter into a Brand Equity and Business Promotion Agreement through its authorized signatories with Ultimate parent company Tata Sons Limited, on behalf of the Company, towards the Company's subscription to the Scheme. Total fees charged to the Company amounted to P5.99 million and P5.24 million in 2026 and 2025, respectively (see Note 16).

c. The Company's Parent Company has allocated its management cost to all its Asia Pacific subsidiaries. The management cost is allocated based on time spent of management personnel for respective subsidiaries. Total charges (refund) allocated to the Company amounted to (P1.28) million and P18.76 million in 2026 and 2025, respectively (see Note 16).

d. On April 1, 2013, the Company and its Intermediate parent signed an agreement for General Services and Cost Sharing. The Company is a subsidiary company of Tata Consultancy Services Limited, a group of companies (the "TCS group"), that is engaged in business of promoting, marketing, designing, developing, delivering, maintaining information technology services and products and delivery of information technology-enabled services. The Corporate Office of Tata Consultancy Services Limited ("TCS-HQ") raises charges on various subsidiaries distributing the expenses incurred by TCS-HQ comprising cost towards staffing and support activities and other support functions which has been provided by TCS-HQ and which can reasonably be allocated to subsidiaries. The Company hereby recognizes the efficiency and acknowledges benefit of the said referred services since services are not locally performed within the Philippines. Total management cost allocated to the Company amounted to P37.52 million and P29.57 million in 2026 and 2025, respectively (see Note 16).

e. In 2026, limited number of employees transitioned their employment from the Company to TCS e-Serve International Limited - Philippine Branch pursuant to a Tripartite Agreement. The transition was effected without interruption of service, with employees' tenure and benefit entitlements preserved. Consequently, TCS e-Serve International Limited - Philippine Branch assumed responsibility for the employees' future employment and defined benefit obligations. The movement represents realignment of employment with the delivery service framework of the entities. As part of this transition, retirement benefit liabilities amounting to P6.38 million were transferred from the Company to TCS eServe International Limited - Philippine Branch (see Notes 15,16, and 17).

Remuneration of Key Management Personnel

The remuneration of the key management personnel of the Company consists of short-term benefits amounting to P18.01 million and P16.89 million in 2026 and 2025, respectively.

19. INCOME TAXES

Income tax expense consists of:

	As at March 31, 2026	As at March 31, 2025
Current tax	P114,881,379	P102,530,803
Deferred tax benefit	(8,471,922)	-
	P106,409,457	**P102,530,803**

The reconciliation of the income tax expense computed at the statutory tax rate of 5% and the income tax expense shown in profit or loss is as follows:

	As at March 31, 2026	As at March 31, 2025
Income before income tax	P1,516,279,132	P1,251,527,609
Income tax at statutory rate	P75,813,957	P62,576,380
Income subject to 25% in ordinary tax Additions to (reductions in) income:	5,089,726	3,256,936
Tax resulting from the tax effects of:		
Non-deductible expenses	25,923,184	37,168,432
Income subject to final tax	(417,410)	(470,945)
Income tax expense	**P106,409,457**	**P102,530,803**

As at March 31, 2026 and 2025, the Company's recognized deferred tax assets amounted to P8.47 million and nil, respectively.

Deferred Tax Assets Movement

	Balance at March 31, 2025	Recognized in Profit or Loss	Balance at March 31, 2026
Balance at the beginning of the year	P -	P -	P -
Recognized in profit or loss:			
Retirement benefit obligation	-	3,146,241	3,146,241
Accrued bonus	-	2,961,476	2,961,476
Accrued leave	-	2,364,205	2,364,205
Balance at the end of the year	**P -**	**P8,471,922**	**P8,471,922**

In 2025, management believed it was not probable that future taxable profits from the Company's PEZA-registered activities will be available against which the Company can utilize the benefits from retirement benefit obligation, bonus and leave liability. As a result, the Company has not recognized the deferred tax assets on retirement benefit obligation, accrued bonus and leave. The Company's unrecognized deferred tax assets as of March 31, 2025 on retirement benefit obligations, accrued bonuses, and accrued leave amounted to P53.02 million, P75.17 million, and P22.96 million, respectively.

In 2026, management reassessed the recoverability of deferred tax assets during the period and determined that it is now probable that sufficient future taxable profits will be available for utilization. As a result, deferred tax assets in the current period were in the current period in accordance with applicable accounting standards. The Company's recognized deferred tax assets as of March 31, 2026 on retirement benefit obligations, accrued bonuses, and accrued leave amounted to P3.15 million, P2.96 million, and P2.36 million, respectively.

20. LEASES

The Company has entered into lease agreements with third parties in respect of the leases of office building spaces ranging from five to six years, renewable at the option of the lessee. The rent is payable monthly with an escalation rate ranging from 5% to 6% on the subsequent years. The Company does not have any lease restrictions and commitment towards variable rent as per the contract.

Right-of-Use Assets

The details of the right-of-use assets held by the Company is as follows:

	Additions for the Year Ended March 31, 2026	Deletion for the Year Ended March 31, 2026	Net Carrying Amount as at March 31, 2026
Building	P598,967,721	P -	P538,350,517
Building - Security deposit	8,948,294	-	7,952,795
Total	**P607,916,015**	**P -**	**P546,303,312**

	Additions for the Year Ended March 31, 2025	Deletion for the Year Ended March 31, 2025	Net Carrying Amount as at March 31, 2025
Building	(P4,823,945)	P -	P212,019,128
Building - Security deposit	-	-	2,571,116
Total	**(P4,823,945)**	**P -**	**P214,590,244**

Amortization on right-of-use asset is as follows:

	As at March 31, 2026	As at March 31, 2025
Building	P272,636,332	P256,965,460
Building - Security deposit	3,566,615	2,796,253
Total	**P276,202,947**	**P259,761,713**

Amortization of right-of-use assets charges to cost of services amounted to P276.20 million and P259.76 million in March 31, 2026 and 2025 respectively.

	As at March 31, 2026	As at March 31, 2025
Lease Liabilities		
Balance at April 1	P225,436,782	P516,930,073
Payments made	(320,182,484)	(312,019,960)
Interest charge for the year	34,696,299	20,526,670
Additions to lease liabilities	601,897,141	-
Balance at March 31	**P541,847,738**	**P225,436,783**

Non-current lease liabilities payable after one year amounted to P382.44 million and P54.54 million at March 31, 2026 and 2025, respectively.

Total cash outflow for leases is P320.18 million and P312.02 million for the year ended March 31, 2026 and 2025, respectively.

During the year ended March 31, 2026, the Company recognized additions to lease liabilities amounting to P601.90 million. These additions relate to the renewal of existing office space at Panorama. The recognized lease liabilities were measured at the present value of future lease payments, discounted using the incremental borrowing rate ranging from 6.11% to 6.24% as the discount rate of applicable at the commencement date.

Other Leases

The Company applied the recognition exemption for right-of-use asset and lease liability on various short-term leases. Rental expense incurred on these lease agreements amounted to nil and nil in March 31, 2026 and 2025, respectively (see notes 15 and 16).

Security Deposits

Total deposits made on these lease agreements amounted to P89.69 million and P83.21 million as at March 31, 2026 and 2025 (see Notes 7 and 9). Total advance rent amounted to P3.26 million and nil as at March 31, 2026 and 2025, respectively (see Note 7).

Interest income recognized in the statements of comprehensive income amounted to P3.53 million and P2.92 million in 2026 and 2025, respectively.

At the end of each reporting period, the Company had outstanding commitments for future minimum rentals payable under these lease agreements as follows:

	As at March 31, 2026	As at March 31, 2025
Not later than one year	P192,358,993	P180,633,015
Later than one year but not later than five years	407,701,748	62,361,791
	P600,060,741	**P242,994,806**

All additions, alteration and improvements made on the leased office units at Bench Tower and Panorama by the lessee (except movable furniture and fixtures, equipment, appliances, electronic items and others) installed at the lessee's expense and removable without damaging the leased office units and the premises, shall become the lessor's property upon the termination of the contract or its extension, without any obligation on the lessor's part to reimburse the lessee for the value thereof.

Should the lessor decide, at its sole discretion, that it does not wish to retain any of the said additions, alterations and improvements, it shall so advise the lessee at least 60 days prior to the termination of the Contract, and the lessee hereby undertakes to remove such additions, alterations and improvements from the leased office units at its sole expense.

Said obligation is considered contingent since the existence will be confirmed only by the occurrence or non-occurrence of an uncertain future event, i.e., lessor's decision prior to termination of contract.

21. REGISTRATION WITH PHILIPPINE ECONOMIC ZONE AUTHORITY AND PHILIPPINE BOARD OF INVESTMENTS

As discussed in Note 1, the Company was registered with PEZA to set up an I.T.-enabled facility to perform information technology outsourcing services and BPO to all types of enterprises, organizations, entities and companies. As a registered enterprise, the Company's project shall be entitled to incentives granted to non-pioneer projects under R.A. 7916 (The Special Economic Zone Act of 2005), as amended, and the PEZA IT. Guidelines.

Incentives include the following:

a. Corporate Income Tax Holiday (ITH) for four (4) years for original project effective on the committed date of start of commercial operations, or the actual date of start of commercial operations, whichever is earlier; ITH entitlement for the original project can also be extended for another three (3) years provided specific criteria are met for each additional year and prior PEZA approval is obtained; duly approved and registered "Expansion" and "New" projects are entitled to a three-year and four-year ITH, respectively;

b. Tax and duty-free importation of merchandise which include raw materials, capital equipment, machineries, and spare parts;

c. Exemption from wharfage dues and export tax, impost, or fees;

d. VAT zero-rating of local purchases subject to compliance with Bureau of Internal Revenue (BIR) and PEZA requirements; and

e. Exemption from payment of any and all local government imposts, fees, licenses or taxes except real estate tax; however, machinery installed and operated in the ecozone for manufacturing, processing or for industrial purposes shall not be subject to payment of real estate taxes for the first three years of operation of such machineries; production equipment not attached to real estate shall be exempt from real property taxes.

At the end of ITH, the following incentives shall apply:

a. The Company shall pay a 5% final tax on gross income, in lieu of all national and local taxes.

b. Additional deduction for training expenses (1/2 of value) against the 5% tax on gross income earned, but not to exceed 3%, subject to guidelines to be formulated by PEZA in coordination with the Department of Labor and Employment and the Department of Finance.

As discussed in Note 1, the Company was concurrently registered with the Philippine Board of Investments (BOI) under Executive Order No. 226 (Omnibus Investment Code of 1987), as amended, Title XIII of the National Internal Revenue Code of 1997, as amended by Republic Act No. 11534, or the CREATE Act, and the Fiscal Incentives Review Board Resolution No. 026-22. As a registered enterprise, the Company's project shall be entitled to the remaining incentives and subject to the representations and commitments set forth in its application for registration with PEZA, the provisions of the above-cited law, the rules and regulations promulgated thereunder, and the terms and conditions with PEZA and its Registrations or Supplemental Agreement. PEZA shall monitor the registered project's compliance thereof and administer the availment of remaining incentives.

Furthermore, R.A. 12066 (Corporate Recovery and Tax Incentives for Enterprises to Maximize Opportunities for Reinvigorating the Economy or CREATE MORE Act) extended the sunset provisions for the following incentives until 31 December 2034:

a. Five percent (5%) tax on Gross Income Earned

b. Duty Exemption

c. VAT Exemption and Zero Rating

22. Fair Value of Financial Instruments

The fair values of the Company's financial assets and financial liabilities are shown below:

	As of March 31, 2026		As of March 31, 2025	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets				
Cash and cash equivalents	P713,309,402	P713,309,402	P618,257,287	P618,257,287
Trade receivables	2,149,025,877	2,149,025,877	2,069,041,784	2,069,041,784
Refundable deposits	89,685,024	89,685,024	83,208,840	83,208,840
	P2,952,020,303	**P2,952,020,303**	**P2,770,507,911**	**P2,770,507,911**
Financial Liabilities				
Trade and other payables*	P1,125,293,578	P1,125,293,578	P1,101,416,993	P 1,101,416,993
Lease liabilities	541,847,738	541,847,738	225,436,783	225,436,783
	P1,667,141,316	**P1,667,141,316**	**P1,326,853,776**	**P1,326,853,776**

*Excluding non-financial instruments amounting to P561.54 million and P468.22 million as at March 31, 2026 and 2025, respectively.

The difference between the carrying amount of the trade and other payables disclosed in the statements of financial

position and the amount disclosed in this note pertains to government payables, provisions and deferred revenues that are not considered as financial liabilities.

Due to the short-term maturities of cash and cash equivalents, trade receivables, current refundable deposits and trade and other payables, their carrying amounts approximate their fair values.

The fair value of noncurrent refundable deposits cannot be measured reliably since there were no comparable market data and inputs for the sources of fair value such as discounted cash flow analysis. However, Management believes that their carrying amounts approximate their fair values. Fair value measurement of lease liabilities is not required.

23. FINANCIAL RISK MANAGEMENT

Financial Risk Management Objectives and Policies

The Company's activities expose it to a variety of financial risks such as market risks (including foreign exchange risk and interest rate risk), credit risk and liquidity risk The Company's overall risk management program seeks to minimize potential adverse effects on the financial performance of the Company. The policies for managing specific risks are summarized below:

Market Risk

Market risk refers to the possibility that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's profit or the value of its holdings of financial instruments. The Company focuses on two market risk areas such as interest rate risk and foreign currency risk. The objective and management of these risks are discussed below:

Foreign Exchange Risk

Foreign exchange risk arises when an investment's value changed due to changes in currency exchange rate. The Company undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuations arise with respect to transactions other than the functional currency. Foreign exchange risk arises when future commercial transactions and recognized assets and liabilities are denominated in a currency that is not the Company's functional currency. Significant fluctuation in the exchange rates could significantly affect the Company's financial position. The exposure is managed partly by natural hedges that arise from offsetting assets and liabilities that are denominated in foreign currencies. The Company kept its foreign currency transaction at a minimum to minimize the effect of foreign currency fluctuations.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities and their Philippine peso equivalents at the end of each reporting period are as follows:

	Currency	As of March 31, 2026		As of March 31, 2025	
		Currency Amount	PHP	Currency Amount	PHP
Financial Assets

THB	1.69	1.85

The sensitivity rate used in reporting foreign currency risk internally to key management personnel is 10% and it represents Management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% in foreign currency rates. The sensitivity analysis includes all the Company's foreign currency denominated monetary assets and liabilities.

The table below details the Company's sensitivity to a 10% increase and decrease in the Philippine Peso against the relevant foreign currencies. The sensitivity rate used reporting foreign currency risk internally to key management personnel is 10% and it represents Management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% in foreign currency rates. The sensitivity analysis includes all the Company's foreign currency denominated monetary assets and liabilities. A positive number below indicates an increase in profit when the Philippine Peso strengthens 10% against the relevant currency. For a 10% weakening of the Philippine Peso against the relevant currency, there would be an equal and opposite impact on the profit and the balances below would be negative.

	March 31, 2026

Management does not foresee or expect any significant change in its foreign currency risk exposures or in the strategies it employs to manage them soon.

Interest Rate Risk

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest.

The primary source of the Company interest rate risk relates to cash in banks. The interest rates on these assets are disclosed in Note 5 to the financial statements.

The cash in banks are short-term in nature and with the current interest rate level, any variation in the interest will not have a material impact on profit or loss of the Company.

Credit Risk

Credit risk refers to the possibility that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, when appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company uses other publicly available financial information and its own trading records to rate its major customers. The Company's exposure and the credit ratings of its counterparties are continuously monitored, and the aggregate value of transactions concluded is spread amongst approved counterparties.

Concentration of credit risk arises principally from the Company's trade receivables since there is limited number of individual counterparties. As at March 31, 2026 and 2025, the amounts due from related parties constitute 83% and 82% of the Company's total trade receivables. Total sales of service to related parties comprise 72% and 73% of the Company's total revenue for the years ended March 31, 2026 and 2025.

The following table presents the Company's maximum exposure to credit risk without taking account of the value of any collateral obtained.

	Note	As of March 31, 2026	As of March 31, 2025
Cash in banks	5	P70,175,650	P14,812,775
Cash equivalents	5	643,038,752	603,349,512
Trade receivables	6	2,149,025,877	2,069,041,784
Refundable deposits	7, 10, 22	89,685,024	83,208,840
		P2,951,925,303	**P2,770,412,911**

The Company does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

As at March 31, 2026 and 2025, the aging analysis of the Company's financial assets is as follows:

	Neither Past Due nor Impaired	Past Due Account but not Impaired				Impaired Financial Assets	Total
		1 – 90 Days Past Due	91 – 180 Days Past Due	181 – 270 Days Past Due	Over 271 Days Past Due		
2026							
Cash in banks	P70,175,650	P -	P -	P -	P -	P -	P70,175,650
Cash equivalents	643,038,752	-	-	-	-	-	643,038,752
Trade receivables	1,422,410,190	696,336,120	17,345,433	10,146,549	2,787,585	-	2,149,025,877
Refundable deposits	89,685,024	-	-	-	-	-	89,685,024
	P2,225,309,616	**P696,336,120**	**P17,345,433**	**P10,146,549**	**P2,787,585**	**P -**	**P2,951,925,303**

	Neither Past Due nor Impaired	Past Due Account but not Impaired				Impaired Financial Assets	Total
		1 – 90 Days Past Due	91 – 180 Days Past Due	181 – 270 Days Past Due	Over 271 Days Past Due		
2025							
Cash in banks	P14,812,775	P -	P -	P -	P -	P -	P14,812,775
Cash equivalents	603,349,512	-	-	-	-	-	603,349,512
Trade receivables	1,292,861,083	755,108,755	21,071,946	-	132,235,807	(132,235,807)	2,069,041,784
Refundable deposits	83,208,840	-	-	-	-	-	83,208,840
	P1,994,232,210	**755,108,755**	**P21,071,946**	**P -**	**P132,235,807**	**(P132,235,807)**	**P2,770,412,911**

The Company provided an allowance on past due account that believed to be impaired. Management believes that there is no change in the credit quality of financial assets from the date credit was initially granted up to the end of each reporting period.

The table below details the credit quality of the Company neither past due nor impaired financial assets:

	Neither Past Due nor Impaired		
	High Grade	Satisfactory Grade	Total
2026			
Cash in banks	P70,175,650	P -	P70,175,650
Cash equivalents	643,038,752	-	643,038,752
Trade receivables	1,422,410,190	-	1,422,410,190
Refundable deposits	-	89,685,024	89,685,024
	P2,135,624,592	**P89,685,024**	**P2,225,309,616**

	Neither Past Due nor Impaired		
	High Grade	Satisfactory Grade	Total
2025			
Cash in banks	P14,812,775	P -	P14,812,775
Cash equivalents	603,349,512	-	603,349,512
Trade receivables	1,292,861,083	-	1,292,861,083
Refundable deposits	-	83,208,840	83,208,840
	P1,911,023,370	**P83,208,840**	**P1,994,232,210**

The Company uses internal ratings to determine the credit quality of its financial assets. These have been mapped to the summary rating below.

High Grade - This applies to highly rated financial obligors, strong corporate counterparties, and personal borrowers with whom the Company has excellent repayment experience.

Satisfactory Grade - This applies to financial assets that are performing as expected, including loans and advances to small and medium sized entities and recently established businesses.

Acceptable Grade - This applies to counterparties with risk profiles that are subject to closer monitoring and scrutiny with the objective of managing risk and moving accounts to improved rating category.

Low Grade - This applies to risks that is neither past due nor expected to result in loss but where the Company requires a workout of the relationship unless an early reduction in risk is achievable.

Cash in Banks and Cash Equivalents

Cash in banks and cash equivalents are held with counterparties with high external credit ratings. The credit quality of these financial assets is high grade. Impairment on cash in banks and cash equivalents have been measured on a 12-month ECL basis and reflects the short maturities of the exposures. The Company considers that its cash in banks and cash equivalents have low risk based on the external credit ratings of its counterparties.

Trade Receivables

The Company computes impairment loss on trade receivables based on past collection experiences, current circumstances, and the impact of future economic conditions, if any, available at the reporting period. Loss rates are based on actual credit loss experience. Any adjustments to the loss rates for forecasts of future economic conditions are not expected to be material. The Company applies the simplified approach in providing for ECL prescribed by PFRS 9, which permits the use of the lifetime expected loss provision and applies a provision matrix. The maturity of the Company's trade receivables is less than one year so the lifetime expected credit losses and the 12-month expected credit losses are similar.

Other Receivables and Refundable Deposits

With respect to credit risk arising from other receivables and refundable deposits, the Company's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these financial assets. The Company trades only with reputable and recognized third parties.

Liquidity Risk

Liquidity risk is the possibility that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows. The Company maintains adequate highly liquid assets in the form of cash and cash equivalents to assure necessary liquidity.

The contractual maturities of financial liabilities including estimated payments as at March 31, 2026 and 2025 are as follows:

	Carrying Amount	Contractual Cash Flows					
		Total	Not Due	1 - 90 Days	91 - 180 Days	181 - 270 Days	Over 271 Days
2026							
Non-derivative financial liabilities							
Lease liabilities	P541,847,738	(P600,060,740)	(P8,346,333)	(P18,495,027)	(P15,223,041)	(P15,223,041)	(P542,773,298)

	P1,326,853,776	**(P1,344,411,799)**	**(P913,790,797)**	**(P210,132,544)**	**(P80,156,354)**	**(P53,280,211)**	**(P87,051,893)**

24. CAPITAL RISK MANAGEMENT

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximizing the return to shareholders. The Company is governed by the following fundamental strategies:

a. The Company enters bank guarantee for some operational transactions.

b. It does not enter high risk security or equity investments. The Company's overall strategy remains unchanged from 2015.

The capital structure of the Company consists of equity attributable to the shareholders comprising of share capital and retained earnings.

Equity is defined as capital and retained earnings of the Company, while assets include current and noncurrent assets.

The Company's equity ratio is as follows:

	As of March 31, 2026	As of March 31, 2025
Total equity	P1,868,156,680	P1,529,212,978
Total assets	4,435,165,939	3,657,760,071
Equity ratio	**0.42:1**	**0.42:1**

The Company has not externally imposed capital requirement. There was no change in the Company's approach to capital management for the years ended March 31, 2026 and 2025.

25. CONTINGENT LIABILITIES AND COMMITMENT

The Company has contractually committed P34.52 million and P23.79 million as at March 31, 2026 and 2025, respectively, for purchase of property, plant, and equipment. The company has given financial guarantees worth P53.61 million and P50.57 million as at March 31, 2026 and 2025, respectively. Claims against the Company not acknowledged as debts amounted to P1.77 million and P1.90 million as at March 31, 2026 and 2025, respectively.

The Company has contingent liability in respect of tax demand received from tax authority during the year of P7.39 million and P6.91 million as at March 31, 2026 and 2025, respectively. This demand order is being contested by the Company based on the management evaluation and advice of tax consultant.

26. SUPPLEMENTARY INFORMATION REQUIRED BY THE BUREAU OF INTERNAL REVENUE (BIR) UNDER REVENUE REGULATIONS (RR) NO. 15-2010

In addition to the disclosures mandated under PFRS Accounting Standards, and such other standards and/or conventions as may be adopted, companies are required by the BIR to provide in the notes to the financial statements, certain supplementary information for the taxable year. The amounts relating to such information may not necessarily be the same with those amounts disclosed in the financial statements which were prepared in accordance with PFRS Accounting Standards. Following are the tax information required for the taxable period ended March 31, 2026:

A. VAT

	Amount
Output VAT	P231,672,811
Basis of the Output VAT	
Vatable sales	P1,930,606,759
Exempt sales	2,011,917,406
Zero-rated sales	5,377,427,209
	P9,319,951,374

	Amount
Input VAT	
Beginning of the year	P567,529
Adjustment	-
Beginning of the year as adjusted	567,529
Current year's domestic purchases:	
Domestic purchases of goods other than capital goods	52,072
Purchase of capital goods exceeding 1 million	4,005,001

	Amount
Purchase of capital goods not exceeding 1 million	10,075
Importation of goods other than capital goods	-
Domestic purchases of services	155,910,315
Total	**160,544,992**
Less: Input VAT applied in current year	160,544,992
Balance at the end of the period	**P -**

B. Withholding Taxes

	Amount
Withholding tax - compensation	P511,235,164
Withholding tax - expanded	49,710,845
Withholding tax - final	176,175,673
Fringe benefit tax	2,585,702
	P739,707,384

C. All Other Taxes (Local and National)

Details of the Company's other taxes and licenses and permits paid or accrued during 2026 are as follows:

	Amount
Charged to Cost of Services	
PEZA processing fee for local sales, permit fees	P4,072,649
Charged to General and Administrative Expenses	
Permit fees, fringe benefit tax	7,784,861
	P11,857,510

D. As at March 31, 2026 the Company received Formal Letter of Demand, Letter of Authority, and Notice of Discrepancy

During the Fiscal year 2022-23, Company received a Formal Letter of Demand Notice from the Bureau of Internal Revenue covering fiscal year 2019, the amount of P183.34 million (Including Base Amount, Penalty & Interest) for deficiency taxes on Income Tax, Withholding Tax, Final Tax, Fringe Benefit Tax, Documentary Stamp Tax, Withholding Value-Added Tax, and Value-Added Tax. On May 14, 2024, the Company voluntarily paid P3.26 million representing expanded and final withholding taxes. The Company has contingent liability of P7.39 million, in respect of the remaining tax demand, is being contested by the Company based on the management evaluation and advise of tax consultant.

On October 16, 2025, Company received a Notice of Discrepancy from the Bureau of Internal Revenue for all internal revenue taxes covering fiscal year 2023, the amount of P743.84 million (Including Base Amount, Penalty & Interest) for deficiency taxes on Income Tax, Withholding Tax, Final Tax, Withholding Value-Added Tax, and Value-Added Tax. This is being contested by the Company based on the management evaluation and advise of tax consultant.

On July 29, 2025, Company received a Letter of Authority from the Bureau of Internal Revenue for all internal revenue taxes covering fiscal year 2024. On December 19, 2025, Company received a First Notice for Presentation of Records and/or Documents from the Bureau of Internal Revenue for all internal revenue taxes covering fiscal year 2024. On December 26, 2025, the Company submitted additional documentary evidence and registration requirements.

Information on amounts of customs duties, tariff fees and excise taxes are not applicable, since there are no transactions that the Company will be subjected to these taxes during the year.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders
Tata Consultancy Services (Philippines), Inc.

10th Floor, Panorama Tower, 34th Street Corner Lane A
Bonifacio Global City, Taguig City

We have audited, in accordance with Philippine Standards on Auditing, the accompanying financial statements of Tata Consultancy Services (Philippines), Inc. (the "Company"), a wholly-owned subsidiary of Tata Consultancy Services Asia Pacific Pte. Ltd., as at and for the years ended March 31, 2026 and 2025, and have issued our report thereon dated May 4, 2026.

Our audits were made for the purpose of forming an opinion on the basic financial statements of the Company taken as a whole. The supplementary information included in the Reconciliation of Retained Earnings Available for Dividend Declaration is the responsibility of the management.

This supplementary information is presented for purpose of complying with the Revised Securities Regulation Code Rule (SRC) 68, and is not a required part of the financial statements. Such supplementary information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

INDEPENDENT AUDITOR'S REPORT

May 8, 2026

Tata Consultancy Services Japan, Ltd.

KPMG AZSA LLC
Tokyo Office
Tetsushi Umetani
Designated Limited Liability Partner
Engagement Partner
Certified Public Accountant

Opinion

We have audited the financial statements, which comprise the balance sheet, the statement of income, the statement of changes in Equity and the related notes, and the accompanying supplementary schedules ("the financial statements and the accompanying supplementary schedules") of Tata Consultancy Services Japan, Ltd. ("the Company") as at March 31, 2026 and for the year from April 1, 2025 to March 31, 2026 in accordance with Article 436-2-1 of the Companies Act.

In our opinion, the financial statements and the accompanying supplementary schedules referred to above present fairly, in all material respects, the financial position and the results of operations of the Company for the period, for which the financial statements and the accompanying supplementary schedules were prepared, in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the *Audit of the Financial Statements and the Accompanying Supplementary Schedules* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The other information comprises the business report and its supplementary schedules. Management is responsible for the preparation and presentation of the other information. Corporate auditor is responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the reporting process for the other information.

Our opinion on the financial statements and the accompanying supplementary schedules does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements and the accompanying supplementary schedules, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the accompanying supplementary schedules or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and Corporate Auditor for the Financial Statements and the Accompanying Supplementary Schedules

Management is responsible for the preparation and fair presentation of the financial statements and the accompanying supplementary schedules in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements and the accompanying supplementary schedules that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements and the accompanying supplementary schedules, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan.

Corporate auditor is responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements and the Accompanying Supplementary Schedules

Our objectives are to obtain reasonable assurance about whether the financial statements and the accompanying supplementary schedules as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements and the accompanying supplementary schedules.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements and the accompanying supplementary schedules, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements and the accompanying supplementary schedules or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the financial statements and the accompanying supplementary schedules are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the financial statements and the accompanying supplementary schedules, including the disclosures, and whether the financial statements and the accompanying supplementary schedules represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with corporate auditor regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

We do not have any interest in the Company which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Notes forming part of the Financial Statements

(Translation)

[Notes to Significant Accounting Policies]

1. Valuation standard and method of inventory (merchandise, supplies)

At cost determined by the specific identification method (The balance sheet amount has been determined at the lower of cost and net realizable value.)

2. Depreciation method of fixed assets

(1) Tangible fixed assets excluding leased assets: Straight-line method:

Major useful lives are as follows:

Buildings	5-10 years
Tools, furniture, and fixtures	3-10 years

(2) Intangible fixed assets excluding leased assets

Software

Internal use: Straight-line method over the anticipated useful period 4 years

(3) Leased assets

Finance leases that do not transfer ownership of leased assets to the lessee:

Depreciation is computed using the straight-line method based on the lease term or the applicable useful life of an owned fixed asset, whichever is shorter, with a residual value of zero.

3. Provision

(1) Provision for doubtful debts

The Company provides for possible credit losses stemming from monetary claims and other receivables. Estimates of irrecoverable amounts are determined by considering historical loan-loss ratios for general receivables and on consideration of recoverable amounts on a case-by-case basis in instances of suspected bad debt or other dubious accounts.

(2) Provision for bonuses

Provision for bonuses is recorded based on estimated bonus payment amounts.

(3) Provision for loss on contracts

To prepare for losses on contracts, we estimated loss amount for the order contracts at the end of the business year.

4. Recognition of revenues and costs

For system integration contracts, etc., we assume an obligation to fulfill the provision of products and services in accordance with customer specifications, and as the obligation is satisfied over a certain period of time, revenue is recognized in accordance with the manner in which expenses are incurred (such as the progress measured as the ratio of actual costs to total estimated costs). With respect to maintenance and support service contracts, we have obligations to provide support services related to product maintenance and software development, etc., and because these obligations are fulfilled over a certain period of time, we recognize revenues based on a percentage of the total amount of goods or services transferred (the Output Method) or as time passes.

For products such as hardware equipment, revenue is recognized upon transfer of control because performance obligations are satisfied primarily when products are sold and the delivery to the customer is completed.

Transaction prices are measured based on the amount of consideration that the company expects to be entitled to in exchange for the transfer of promised goods or services to customers. The amount of consideration promised does not include important financial factors.

Notes forming part of the Financial Statements

For transactions in which the Company acts as an agent in providing goods or services to the customer (Transactions in which the Company does not obtain control of the goods or services transferred to the customer and only provides the services of arranging those goods or services), revenue is recognized at the net amount received from the customer less the amount paid to the vendor.

(Notes on Accounting Estimates)

Items whose amounts are recorded in the financial statements for the current fiscal year based on accounting estimates and which may have a material impact on the financial statements for the following fiscal year are as follows.

1.	Deferred tax asset	3,386 million yen
2.	Asset retirement obligations	763 million yen
3.	Provision for doubtful debts	0 million yen
4.	Provision for loss on order received	219 million yen

Information on important accounting estimates for identified items

1. Deferred tax asset

The recognition of deferred tax assets takes into account the possibility that deductible temporary differences may be made available to taxable income in the future. In assessing the recoverability of deferred tax assets, the expected reversal of deferred tax liabilities, expected future taxable income and tax planning are taken into account.

Our company estimates deferred tax assets based on its past taxable income levels and future business plans for the periods in which deferred tax assets can be recognized and believes that the calculation is reasonable. However, the projections of future taxable income may change depending on market trends and economic conditions surrounding our company.

2. Asset retirement obligations

Asset retirement obligations, which are obligations to restore rental properties such as the head office building to their original condition, are based on cost estimates from third parties.

3. Provision for doubtful debts

Please refer to (Notes on Items Related to Important Accounting Policies 3. Accounting Standard for the Provision (1) Provision for doubtful debts) for the accounting standard of the reserve for doubtful debts.

4. Provision for loss on contracts

Please refer to (Notes on Items Related to Important Accounting Policies 3. Accounting Standard for the Provision (3) Provision for loss on contracts) for the accounting standard of the reserve for loss on orders received.

[Notes to Balance Sheet]

1. Of notes receivable, accounts receivable and contract assets, the amounts of receivables and contract assets arising from contracts with customers are as follows, respectively:

Notes receivable	0 million yen
Accounts receivable	13,845 million yen
Contract assets	1,581 million yen

2. Financial assets and liabilities from/to affiliates:

Short-term financial assets	1,735 million yen
Short-term financial liabilities	4,126 million yen

3. Accumulated depreciation of tangible fixed assets 5,257 million yen

Notes forming part of the Financial Statements

4. Contingent liability

The Company has received, from the customer, a notice of intent to file a lawsuit seeking damages in connection with a system development project provided by the Company. The Company does not accept the content of such notice and believes that its contractual obligations have been appropriately fulfilled. Based on an assessment by the Company's management and advice from external legal counsel, as of the reporting date, no liability has been recognized and no provision has been recorded.

[Notes to Statement of Income]

1. Transactions with affiliates

Operating transactions

Net sales	14,301 million yen
Cost of sales	18,612 million yen
Selling, general and administrative expenses	1,680 million yen

[Notes to Statement of Changes in Equity]

1. Number of issued shares as of the end of the fiscal year

Common Stock 94,969 shares

2. Dividends

(1) Payments of dividends

Resolution	Type of Shares	Source of Dividend	Total amount of dividends (in Million Yen)	Dividends per share (in Yen)	Record Date	Effective date
The Shareholders' Meeting on May 16, 2025	Common stock	Retained earnings	4,318	45,471	March 31, 2025	May 17, 2025

(2) Dividends for which the record date is in the year ended March 31, 2026, but for which the effective date is in the next fiscal year

During the shareholders' meeting in May 2026, resolution as follows is expected to be resolved:

Resolution	Type of Shares	Source of Dividend	Total amount of dividends (in Million Yen)	Dividends per share (in Yen)	Record Date	Effective date
The Shareholders' Meeting on May 20, 2026	Common stock	Retained earnings	7,325	77,138	March 31, 2026	May 21, 2026
The Shareholders' Meeting on May 20, 2026	Common stock	Retained earnings	7,325	77,138	March 31, 2026	June 30, 2026

INDEPENDENT AUDITOR'S REPORT

Opinion

We have audited the financial statements of Tata Consultancy Services Italia S.r.l. (the Company), which comprise the balance sheet, the income statement and the notes as March, 31st, 2026.

In our opinion, the financial statements give a true and fair view of the financial position of the Company, as at March 31st, 2026, of the result of its operations and its cash flows for the year then ended in accordance with the Italian regulations and accounting principles governing financial statements.

Basis of opinion

We conducted our audit in accordance with International Standards Auditing (ISA Italia). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of this report. We are independent of the Company in accordance with ethical requirements and standards applicable in Italy that are relevant to the audit of financial statement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility of the management and of the Sole Auditor for the financial statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with the Italian regulations and accounting principles governing financial statement and, within the limits of the law, for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the international auditing standards (ISA Italia) will always detect a misstatement when it exists. Misstatements may arise from fraud or from error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with international auditing standards (ISA Italia), we exercise professional judgment and maintain professional skepticism throughout the audit. Also:

- we have identified and assessed the risks of material misstatement in the financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks; and obtained audit evidence that is sufficient and appropriate to provide a basis our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or overriding of internal control;

- we have obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- we have evaluated the appropriateness of the accounting policies used and the reasonableness of the accounting estimates and related disclosures made by management;
- we have concluded on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubts on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on auditor's report. However, future events or conditions may cause the Company to cease to operate as a going concern;
- we evaluated the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that provides a fair representation.

We have communicated with those charged with governance, as properly identified in accordance with ISA Italy, among other aspects, the planned scope and timing of the audit and the significant findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory provisions

Opinion in accordance with Article 14, paragraph 2 (e) of Legislative Decree 39/10.

The Directors of Tata Consultancy Services italia S.r.l. are responsible for the preparation of the report on operations of Tata Consultancy Services italia S.r.l. as March 31st, 2026, including its consistency with the related financial statements and its compliance with legal requirements.

We have performed the procedures specified in Auditing Standard (SA Italy) No. 720B for the purpose of expressing an opinion on the consistency of the management report with the financial statements of Tata Consultancy Services italia S.r.l. as March 31, 2026, and on its compliance with legal requirements, as well as to issue a statement on any material misstatement.

In our opinion, the management report is consistent with the statutory financial statements of Tata Consultancy Services italia S.r.l. as March 31, 2026, and is prepared in accordance with legal requirements.

With reference to the statement referred to in Article 14(2)(e) of Legislative Decree 39/10, made on the basis of the knowledge and understanding of the Company and its context acquired in the course of the audit, we have nothing to report.

MILAN, May 5, 2026

The Auditor

Dott . ssa Raffaella Pagani

Information at the foot of the balance sheet

As required by OIC 10 the following information is provided with regard to the Cash flow Statement for the accounting period

SUPPLEMENTARY NOTES, INITIAL PART PUBLISHING PRINCIPLES

Structure and Contents of the Financial Statements

The financial statements for the financial year closed as of 31/03/2026, composed of the Balance Sheet, Income Statement, financial statement and Notes correspond to the results of duly kept accounting entries and have been drawn up in accordance with the provisions of articles 2423 and 2423-bis of the Civil Code as well as in accordance with the accounting principles and accounting guidelines drawn up by the Italian Accounting Body (O.I.C.). The articles mentioned in this note, unless otherwise indicated, refer to the Civil Code.

The financial statement has been drawn up in compliance with the principles of clarity, correctness and truthfulness, as well as the general principle of materiality. A piece of data or information is considered important when the omission or incorrect indication of same could influence decisions taken by the recipients of financial statement information.

The financial statement has been drawn up on the presumption that the undertaking will carry on its business as a going concern.

It is structured in accordance with the provisions of articles 2424 and 2425 of the Civil Code according to the recitals set out by article 2423-ter. The Notes comply with the contents of articles 2427, 2427-bis and with all the other provisions that refer to them.

The entire document and all its related parts have been drawn up to give a fair and true picture of the Company's assets and financial situation as well as of the operating results. It gives, where necessary, additional supplementary information for this purpose.

In accordance with the provisions of Art. 2423-ter, each item is presented with the amount of the corresponding item from the previous year.

Interested parties are referred to the contents of the Management Report as regards information related to the Company's operating and financial trend, to relations and transactions with correlated parties.

ACCOUNTING PRINCIPLES

In accordance with the provisions of Art. 2423-bis of the Civil Code, following principles have been complied with while preparing the Financial Statements:

- prudential approach to entry assessment in accordance with the going-concern value and taking into account the substance of the transaction or arrangement;
- only profits actually achieved during the financial year are reported;
- proceeds and charges related to the financial year have been stated irrespective to their occurrence and payment;
- risks and losses accrued in the financial year are reported even if they became known after closure;
- sundry elements included in the various Financial Statements items have been assessed separately.

The assessment criteria provided for by art. 2426 of the Civil Code have been maintained unchanged compared to those used in the previous financial year.

The Financial Statements and these Notes have been drawn up in units of Euros.

Applied evaluation criteria

The assessment criteria provided for by art. 2426 of the Civil Code have been applied when drawing up these Financial statements.

Intangible fixed assets

At the end of the year, intangible fixed assets were fully amortised.

Tangible fixed assets

Tangible fixed assets have been entered in the Financial Statements at their purchase or in-house production cost. This cost includes additional costs as well as directly allocated costs.

The related amounts are entered after deduction of depreciation expenses, calculated systematically using the rates indicated below and related to their residual possibility of use that takes into account the use, destination and economic-technical duration of the assets.

Description	Applicable rates
Other assets:	
- Furniture	20%
- Electronic office equipment	25%

There have been no changes in depreciation rates from the previous financial year.

Fixed assets with value at the date of closure of the financial year that is enduringly lower than the value as calculated above, have been entered at that lesser value; this has not been made in the following financial statements if the reasons for the adjustment made no longer exist.

Receivables

Receivables are entered using the amortised cost criterion, considering the time factor; differences arising from successive recalculation of value are entered in financial income and expenses.

Receivables falling due within 12 months are nonetheless entered at book value, since the effects are negligible, with regard to the criterion of amortised cost, pursuant to Art. 2423, subsection 4 of the Italian Code of Civil Procedure.

Receivables are entered net of all premiums, discounts, allowances and inclusive of any costs directly attributable to the transaction generating the receivable (these latter are entered in prepayments if the amortised cost criterion is not applied).

Receivables are subsequently adapted to probable realisation value, using the allocation of a special depreciation fund, to which an amount corresponding to the risk of receivables entered in the financial statement becoming irrecoverable is set aside, in relation to general economic conditions in the sector, as well as the sector of the debtor.

Receivables include issued invoices and those still to issue but which refers to services assigned to the financial year under examination.

Receivables with customers subject to insolvency proceedings or in a state of proven financial difficulties where it would serve no purpose to bring executive measures are entered as a total loss or a loss to the extent to which current proceedings and information obtained let us suppose them to be definitively irrecoverable.

Liquid assets

The item contains cash in hand both in Euro and in foreign currency, stamps and monetary reserves resulting from accounts held by the Company with financing institutions, all expressed at their nominal values and explicitly converted into Italian currency when the accounts were in foreign currency.

Accruals and deferrals

Accruals and deferrals have been calculated according to the temporal accruals principle of accounting.

Contingency funds for risks and charges

These have been allocated to cover losses or liabilities of a specific nature, certain or probable to exist, but for which, at the closure of the financial year, it was not yet possible to determine the amount or the date of occurrence.

These funds were assessed by applying general criteria of prudence and accrual. No generic contingency funds for risks lacking economic justifications were created.

Severance pay

The severance pay fund corresponds to the Company's real commitment with each employee, calculated pursuant to existing laws and, in particular, to the provisions of art. 2120 of the Civil Code, to the collective labor agreements and to Company's supplementary agreements.

This liability is subject to revaluation by applying indexes.

Payables

Payables are entered using the amortised cost criterion, considering the time factor; differences arising from successive recalculation of value are entered in financial income and expenses.

Payables falling due within 12 months are nonetheless entered at book value, since the effects are negligible, with regard to the criterion of amortised cost, pursuant to Art. 2423, subsection 4 of the Italian Code of Civil Procedure.

Payables are entered net of all premiums, discounts, allowances and inclusive of any costs directly attributable to the transaction generating the debt (these latter are entered in prepayments if the amortised cost criterion is not applied).

Conversion criteria for values expressed in currency

Receivables and payables originally expressed in foreign currency are converted into euros at the exchange rates at the date of occurrence. Exchange differences arising during payment of payables and collection of receivables in foreign currency are allocated to the Income Statement.

The existing receivables in currency at the end of the financial year have been converted into euros at the rate valid on the day of closure of the Financial Statement; profits and losses coming from the exchange have been entered in the Income Statement under the C.17-bis "Exchange profits/losses" item, allocating, if necessary, an amount equal to the net profits emerging from the algebraic sum of the values to net worth reserve that cannot be distributed until the time of collection.

As to the amount entered under C.17-bis item we clarify that the collected part of losses on exchanges is equal to euros 84.031, while that not collected profit is equal to euros 109.280.

Recording of revenue and costs

Income and proceeds are entered after deduction of returns, discounts and allowances as well as of taxes directly connected with sale of the products and lending of the services.

In particular:

- revenue for supply of services are calculated according to the actual supply of the service and in accordance with the relevant contracts. Revenue related to works in progress on order is calculated with the method of the percentage of completion of the works;
- costs are recorded according to the accruals principle of accounting;
- proceeds and financial charges are calculated according to the temporal accruals principle of accounting.

Income taxes

Financial year income taxes are allocated in accordance with the accruals principle of accounting and are calculated in accordance with existing laws and on the basis of the estimated taxable income. In the Balance Sheet the debt is indicated in the "Tax payables" item and the credit in the "Tax receivable" item.

We specify the following concerning detection of the fiscal effects caused by temporary differences between entry of economic items in the Financial Statements and the time they become fiscally important.

Deferred taxes were calculated according to the temporary taxable differences applying the tax rate valid at the moment these temporary differences will generate increases in the taxable base.

Assets for advanced taxes, in accordance with the prudence principle, were calculated on the deductible temporary differences applying the tax rate which is valid at the moment these differences generate a decrease in the taxable base, according to the principle of the reasonable certainty of the existence of future taxable bases sufficient to reabsorb the variations specified above.

The amount of advanced taxes is revised every year to check the existence of the reasonable certainty of having, in the future, fiscally taxable income sufficient to recover the entire amount of the advanced taxes.

The amount of deferred and advanced taxes is also subject to recalculation whenever there are changes in the taxation rates originally considered.

Notes forming part of the Financial Statements

SUPPLEMENTARY NOTES, ASSETS

Fixed assets

Intangible fixed assets

The composition of intangible fixed assets and the variations made during the financial year are illustrated in the following schedule.

(EUR)

Financial statements item	Initial balance	Increases	Decreases	Final balance
Intangible fixed assets in progress and down payments	328.584	54.976		383.560
Totals	**328.584**	**54.976**		**383.560**

Intangible fixed assets, after deduction of depreciation expenses, as of 31/03/2026 amount to Euros 383.560 (Euro 328.584 at the end of the previous financial year). The costs classified here relate to expenses incurred by the Company for the customization of the new offices. Although the relocation to the new premises took place on July 28, the costs have not yet been capitalized, as the Company is still awaiting receipt of the certificate of completion of the works from the landlord, Coima.

Tangible fixed assets

The following schedule illustrates the composition of tangible fixed assets and the variations that took place during the financial year.

(EUR)

	Initial balance	Increases	Decreases	Final balance
Other assets	191.012	321.689	168.717	343.984
- Furniture		37.045	6.432	30.613
- Lap top	191.012	224.656	157.157	258.511
- Eletronic equipment		59.987	5.128	54.859
Fixed assets in progress and down payments	109.182	166.799		275.981
Totals	**300.194**	**488.488**	**168.717**	**619.965**

Tangible fixed assets, after deduction of the depreciation fund, are equal to euros 619.965 (euros 300.194 at the end of the previous financial year).

Changes in tangible fixed assets

The following schedule illustrates the components that contributed to calculating the net book value of the Financial statements (art. 2427, point 2 of the Civil Code).

(EUR)

	Land and buildings	Plant and machinery	Industrial and commercial equipment	Other tangible fixed assets	Tangible assets in process and advances	Total tangible fixed assets
Year opening balance						
Cost	0	0	0	783.357	109.182	892.539
Amortisation (amortisation fund)	0	0	0	592.344	0	592.344
Balance sheet value	0	0	0	191.012	109.182	300.194
Changes during the year						
Increases for purchases	0	0	0	219.274	166.799	386.073
Decreases for transfers and disposals (of the balance sheet value)				(100.841)	0	(100.841)
Depreciation/amortisation for the year	0	0	0	167.143	0	167.143
Total changes	**0**	**0**	**0**	**152.972**	**166.799**	**319.771**
Year closing balance						
Cost	0	0	0	1.002.631	275.981	1.278.612
Amortisation (amortisation fund)	0	0	0	658.647	0	658.647
Balance sheet value	0	0	0	343.984	275.981	619.965

Notes forming part of the Financial Statements

Following report shows the details of the "Other tangible fixed assets", indicating the movements relating to each component.

(EUR)

Description	Automobiles and motorcycles	Electronic office machinery	Automobiles and motorcycles	Motor vehicles	Automobiles and motorcycles	Rounding off	Other tangible fixed assets balance
Historic cost	1.573	781.784				-1	783.356
Initial depreciation fund	1.573	590.772				-1	592.344
Financial year initial balance		191.012					191.012
Financial year purchases	35.471	123.815			59.987		219.273
Movements from another item		100.842					100.842
Financial year depreciations	4.859	157.157			5.127		167.143
Final balance	30.612	258.512			54.860		343.984

The increase in the different categories of property, plant and equipment is attributable to costs incurred to furnish and render the new offices operational.

Fixed Assets in progress and down payments

The fixed assets in progress amounting to Euro 275.981 mainly relates to assets and works carried out at the premises of the new registered office. Although the relocation took place on July 28, the amounts have not yet been capitalized, as the Company is still awaiting receipt of the certificate of completion of the works from the landlord, Coima. In addition, certain details regarding the allocation between supply and installation costs are still pending from the supplier and have not yet been shared.

CURRENT ASSETS

Receivables included among current assets

Changes and deadline of receivables posted to current assets

The following schedule illustrates the composition, the variation and the expiration dates of receivables present in current assets (art. 2427, point 4 and 6 of the Civil Code).

(EUR)

	Year opening balance	Change during the year	Year closing balance	Amount due within 12 months	Amount due beyond 12 months	of which beyond 5 years
Trade receivables included among current assets	11.554.668	7.063.532	18.618.200	18.618.200	0	0

Totals	**41.132.262**	**50.414.187**	**9.281.925**	

Costs raw materials, ancillary materials, consumables and good

They include mainly the costs for the purchases of the goods and products required for the office uses.

Costs for services

They include all the costs relating to the services incurred by the Company during the year. In particular: costs related to the providing of services for the projects (Euro 34.061.805), marketing and sponsorship related (Euro 83.755), legal, fiscal and consultancy expenses (Euro 331.768), and communication costs (Euro 38.862).

Use of third party assets

They include the fees incurred by the Company in relation to its offices (Euro 242.920), for the rent of the cars given to the employees (Euro 150.597) and for the apartments rented for its employees (Euro 1.143.516).

Costs for personnel

It represents the full costs for employees, including also the accruals for vacation and deferred provided by law.

Depreciation tangible assets

They have been calculated applying the rates provided by our fiscal law.

Sundry operations charge

They represent the residual category in which those costs not classified previously are accounted, like registration tax, stamp duty, government concession tax, fines and other management costs.

Financial income and charges

A schedule is also given concerning the composition of the "C.16.d) Proceeds other than the previous ones" item.

(EUR)

Description	Controlled companies	Associated companies	Controlling companies	Companies subject to the control of parent companies	Others	Total
Bank and postal interest					105.174	105.174
Totals					**105.174**	**105.174**

Notes forming part of the Financial Statements

INCOME TAX FOR THE YEAR, CURRENT, DEFERRED AND PREPAID

Operating income taxes

The composition of the "Operating income taxes" item is illustrated in the following table:

(EUR)

Description	Previous financial year balance	Variation	Var.%	Current financial year balance
Current taxes	1.983.857	-43.045	-2,17	1.940.812
Taxes relative to previous periods	-7.966	36.221	-454,69	28.255
Advanced taxes	-2.952	2.952	-100,00	
Deferred taxes				
Advanced taxes				
Income / costs from the adhesion to the transparency system				
Income / costs from the adhesion to the fiscal consolidation				
Totals	**1.972.939**	**-3.872**		**1.969.067**

"Current taxes" are composed by:

- IRES: Euros 1.541.863;
- IRAP: Euros 398.949.

Deferred taxation (art. 2427, point 14 of the Civil Code)

Deferred taxes were calculated taking into account the amount of all the temporary differences generated from application of tax regulations and applying the rates valid at the moment these differences arose.

Assets for advanced taxes were detected as it is reasonably certain that there will be, during subsequent financial year, a taxable base not inferior to the amount of the differences that will be written off. The total amount at the year end is Euro 211.104.

For a full disclosure, it is reported that the Company pays IRAP tax in three different regions:

- Tuscany: IRAP applicable rate 4,82%;
- Lombardy: IRAP applicable rate 3,9%;
- Piedmont: IRAP applicable rate 3,9%.

OPERATING POFIT (LOSS)	**3.369.192**	**7,32**	**3.196.986**	**5,89**

Below are comments over several areas of the Company's overall performance.

MACROECONOMIC TREND AND MARKET CONDITIONS

In 2026, Italy is expected to experience moderate economic growth with improving stability, following a subdued expansion in 2025. Real GDP growth is forecast at around 0.8%, supported primarily by domestic demand, while the contribution from net exports remains slightly negative due to still fragile global trade conditions.

Inflation is expected to remain contained at approximately 1.3–1.4%, but highly exposed to geopolitical escalation, particularly through energy markets.

The labor market is expected to remain robust. Employment growth continues to outperform GDP growth, and the unemployment rate is projected to decline slightly further to around 6.1%, close to historical lows for Italy.

According to Anitec Assinform forecasts, the Italian digital market is expected to exceed €90 billion in 2026, with year on year growth of around 5%, confirming IT as one of the most resilient and structurally expanding sectors in the country; in this context, Italy's IT market continues to outperform GDP growth and remain strategically critical, while requiring a strong focus on skills availability, execution capacity, and high value offerings to fully capture the opportunities generated by sustained structural demand.

Growth in 2026 is driven primarily by software, ICT services, and digital platforms, while traditional hardware and legacy infrastructure remain comparatively weak. Cloud computing, artificial intelligence, cybersecurity, and data & analytics continue to be the main technology enablers, underpinning enterprise digital transformation across manufacturing, financial services, utilities, retail, and the public sector.

MARKET STRATEGY

The target market of your Company is software consultancy. The target customer group did not experience any particular changes during the year. In fact, the markets in which Tata Consultancy Services Italia Srl is engaged, are traditional ones in which the ultimate Indian parent Company is well recognized worldwide.

The Company has a prestigious pool of clients including the best Italian companies. Sales by country are detailed below:

(EUR)

Geographic area	Previous financial year balance	Variation	Var. %	Current financial year balance
Italia	39.165.882	9.188.930	23,46	48.354.812
Europe	4.631.533	-971.320	-20,97	3.660.213
Rest of the World	2.202.318	21.974	1,00	2.224.292
TOTAL	**45.999.733**	**8.239.584**	**-**	**54.239.317**

Sales expenditure split by cost category is shown below:

(EUR)

Category	Domestic	European Market	Foreign Countries
Advertising	83.755	-	-
Representation expenses	22.826	-	-
TOTAL	**106.581**	**-**	**-**

INVESTMENT STRATEGY

Investment during the period is detailed below:

(EUR)

Investment in intangible assets	Financial year purchases
Intangible assets in progress and down payments	54.976
TOTAL	**54.976**

Investment in tangible fixed assets	Financial year purchases
Fixed assets in progress and down payments	166.799
Other assets	219.275
TOTAL	**386.074**

The above mentioned investments are related to the customization of the new office where the Company moved on 28th July 2026 the legal seat. The investment assets in progress are related to the costs have not yet been capitalised, as the Company is still awaiting receipt of the certificate of completion of the works from the landlord, Coima.

FINANCIAL STRUCTURE AND STRATEGY

The Company's net financial debt is detailed below; the report, based on ESMA guidelines, highlights the composition of the financial debt; a negative value states a situation in which financial assets are greater than financial liabilities.

(EUR)

In compliance with the provisions of art. 2428 par. 2 of the Civil Code, we point out the main financial and non-financial indicators of results.

Structural indexes	Meaning	Previous financial year	Current financial year	Comment
Primary structure ratio Net worth --- Financial year fixed assets	The index measures the capacity of the Company's financial structure to cover long term investments with its own resources.	19,73	15,55	Shareholders' equity is sufficient to fully cover fixed assets.
Secondary structure ratio Net worth + Consolidated liabilities --- Financial year fixed assets	The index measures the capacity of the Company's financial structure to cover long term with long term sources.	22,51	17,28	Long-term sources and uses are in balance.

Patrimonial and financial indexes	Meaning	Previous financial year	Current financial year	Comment
Leverage (financial dependence) Invested capital --- Net worth	The index measures the intensity of use of indebtedness to cover invested capital.	1,76	2,14	The Company does not resort to borrowing outside the Group.
Flexibility of the uses Circulating assets --- Invested capital	It allows to better define the percentage mix of uses, which depends substantially on the kinds of activity of the Company and on the flexibility level of the business structure. The more flexible the structure of the uses is, the greater the capacity of the business to adapt itself to the changeable market conditions.	97,11	97,00	Invested Capital is almost equal to current assets, highlighting the flexibility of the structure.
Total debt ratio Third party financing --- Net worth	The index represents the equilibrium degree of the financial sources.	0,76	1,14	The Company resorts to financing only within the Group.

Managerial indexes	Meaning	Previous financial year	Current financial year	Comment
Personnel efficiency Net operating revenue --- Financial year cost of personnel	The index shows the personnel productivity, calculated as the ratio between the net operating revenue and the cost of personnel.	3,24	4,17	Index showing improvement.
Days' payables outstanding Payables with Suppliers * 365 --- Financial year purchases	The index measures, in days, the commercial extension received from the suppliers.	23	21	Index showing a small decrease.
Days' sales in receivable Receivables with Customers * 365 --- Net operating revenue	The index measures, in days, the commercial extension offered to customers.	92	125	

Liquidity indexes	Meaning	Previous financial year	Current financial year	Comment
Quick ratio Prompt liquidity + deferred liquidity --- Short term period payables	The index measures the degree of coverage of short term payables by assets presumably collectible in the short term.	2,72	1,99	There is a good relationship between the sources and uses of financial resources, with current assets covering current liabilities.

Profitability indexes	Meaning	Previous financial year	Current financial year	Comment
Return on sales (R.O.S.) Financial year operating result --- - Net operating revenue	The index measures the percentage efficiency of current operations with respect to sales.	11,43	9,58	
Return on investment (R.O.I.) Financial year operating result --- - Financial year invested capital	The index offers a summary percentage measurement of the economics of current operations and the capacity of the Company to self-finance irrespective to the choices of the financial structure.	24,14	15,53	
Return on Equity (R.O.E.) Financial year operating result --- - Net worth	The index offers a summary percentage measurement of the global economics of Company operation as a whole and on the capacity to finance the owner's equity.	27,15	20,49	

INFORMATION ABOUT THE ENVIRONMENT

Today, the Company's commitment to social and territorial responsibility is fully embedded in its core values and operating practices. Its activities are guided by a strong focus on technological excellence, the maintenance of high safety standards, environmental protection, and energy efficiency, alongside the continuous training, awareness raising, and active involvement of employees on social responsibility matters.

Accordingly, the Company's environmental strategy is founded on the following key principles:

- Enhancing the efficient use of renewable energy and natural resources;
- Reducing adverse environmental impacts while promoting positive environmental effects;
- Fostering a shared environmental awareness and responsible culture;
- Pursuing continuous improvement in environmental performance;
- Implementing procurement policies that take environmental considerations into account.

Particularly the following initiatives were undertaken during the year:

- Restroom facilities are equipped with paper hand towels sourced from eco friendly and sustainable materials.
- Office greenery has been enhanced through the reuse of 15 plant vases, significantly reducing new plastic usage and generating cost savings of approximately €800.
- Courier services are provided by Poste Italiane, a supplier with a strong commitment to emissions reduction and a well established ESG governance framework.
- The legal office operates in a facility equipped with rainwater harvesting systems, enabling sustainable water management in the surrounding area.
- Electricity used in common areas is supplied exclusively from renewable (green) energy sources, contributing to the reduction of environmental impact.

ENVIRONMENTAL LITIGATION

At the moment the Company is not involved in any civil or criminal litigation with third parties for damages caused to the environment or environmental crimes.

INFORMATION ABOUT THE PERSONNEL

SAFETY AND HEALTHCARE

The Company operates in its environment in accordance with the provisions of Decree-Law 81/08 for workers safety.

Activities in this area include:

- train employees and collaborators;
- recurrent medical examinations;
- organize and train safety intervention teams provided by law;
- permanent corporate monitoring from RSPP;
- preparation and distribution of documents regarding Decree-Law 81/08.

Particularly the following initiatives were undertaken during the year:

- update risk assessment documents;
- update and edit of procedures regarding safety and health at work;
- training course for n. 11 new employees.

STAFF AND DEVELOPMENT OF HUMAN RESOURCES

With reference to employees, the following non-financial indicators are listed below:

- n. 84 men and n. 25 women are employed with a permanent contract;
- the average length of employment is 3/4 years;
- n.12 employees was hired during the year.

INJURIES

During the year, 1 injury occurred to an employee while commuting from office back home ("in itinere"). No injuries occurred to employees at workplace.

LITIGATION

Currently the Company is not involved in any litigation of any kind with employees or former employees.

DESCRIPTION OF THE MAIN RISKS AND UNCERTAINTIES WHICH MAY HAVE AN IMPACT ON THE COMPANY

In the course of its business activities, the Company is exposed to risks and uncertainties arising from exogenous factors related to the overall macroeconomic framework or the specific environment the Company operates in, as well as risks related to strategic decisions and internal risk management.

The identification and mitigation of these risks were carried out on a regular basis through consistent monitoring and immediate reactions in face of risk events.

The Company can count on a central risk management, although it allows its supervisors to take care of identification, monitoring and mitigation of the risks themselves. The aim is to estimate the impact of each risk according to going concern premises, reduce risks' occurrence and/or moderate their effect in proportion to the determining factor (controllable by the Company or not).

On the topic of business risks, the main risks identified, monitored and managed by the Company are as follows:

- risks dependent on exogenous variables;
- risk related to competitiveness;
- risks related to the demand / macro-economic cycles.

RISKS DEPENDENT ON EXOGENOUS VARIABLES

The Company is exposed to foreign exchange risk as it deals in multi currencies. However, the risk is hedged to a great extent as the expenses are incurred in the respective foreign currency.

RISK RELATED TO COMPETITIVENESS

The Company operates in highly competitive industry, which is reflected in intense price competition of products and services.

RISK RELATED TO OVERALL ECONOMIC DEVELOPMENT

In the course of its business activities, the Company is exposed to risks and uncertainties arising from exogenous factors related to the overall macroeconomic framework and the consequent reduction in IT spending by the companies, in containing their costs, could impact the Company's business.

INFORMATION EX ART. 2428 C. 6 BIS

The Company does not have investments in financial activities.

AIMS AND POLICIES ON FINANCIAL RISK MANAGEMENT

The Company aims to contain financial risks through a control system managed by the Executive Board and monitored by internal auditors.

COMPANY'S EXPOSURE TO RISKS

CREDIT RISK

The Company has a policy to extend credit terms, on an average 62 days, after carefully considering the credit worthiness of its clients based on reports obtained from Credit Rating Agencies.

Doubtful debts represent the 0% of the total amount of all receivables towards customers. The Company has a good portfolio of clients and carries on careful checks on the clients' credit worthiness. In line with the Company's accounting policy, the provision for doubtful debts is determined using the Expected Credit Loss (ECL) model.

LIQUIDITY RISK

Policy of the Company is to manage accurately its spare funds, using tools able to schedule revenues and expenditures. The Company intends to maintain liquidity reserves in order to avoid liquidity risk.

RESEARCH AND DEVELOPMENT

The Company has not made significant investments in Research and Development during the year.

TRANSACTIONS WITH SUBSIDIARIES, ASSOCIATED AND PARENT COMPANIES AND OTHER GROUP COMPANIES

Throughout the period ended 31st March 2024 the Company held commercial relations with companies of the Group.

Contract terms have been negotiated according to market conditions and do not give rise to significant advantages to any of the parties involved. Intercompany transactions are made at arm's length value.

The amount of the intercompany trade relations is listed below:

Annual Accounts

- Balance sheet 34.5
- Profit and loss account 34.9
- Notes to the annual accounts 34.10

MANAGEMENT REPORT FY 2025-26

TATA Consultancy Services Luxembourg S.A. (the "Company"), for the financial year ended March 31, 2026, reported a net margin of EUR 3.19 million. The Company continues to work closely with Tata Consultancy Services Limited (hereinafter referred to as "TCS") relationship teams managing global TCS customers that have operations in Luxembourg. The long-term relationship with our customers, the quality of service and innovative offerings, has led to consolidating TCS's presence. The service contracts currently in place signify enhanced revenue growth going forward.

Finding and hiring local qualified resources remains an important challenge in growing our presence in the country. However, within the above limits, the Company regularly plans to position and showcase its services and solutions for acquiring new customers and to develop new areas of business with existing customers.

On the basis of the current visibility, the revenue for the year 2026-27 is expected to be at the same level as that of the revenue during the year 2025-26.

There are no significant events after the balance sheet date which has a bearing on the financial statements for the year 2025-26.

Currently, the Company has no significant credit risks. The Company does not have any concentration of credit with a single customer or a geographical region which carries an unusually high credit risk and has no significant third-party interest risk. In FY 2025-26, the Company proved to be self-sufficient to meet its cash requirements and did not take recourse to Banks for financial operations.

The operations of the Company will continue as at present, the current assets exceed current liabilities and net equity have improved. The Company will be provided with all the necessary mechanisms to ensure the continuity of operations, the realization of its assets and the settlement of its liabilities, in the normal course of its operations.

The Company operates in a competitive market scenario which is reflected in the competitive prices for services.

The Company does not hold its own shares and does not have any investment in the shares of its parent company (Tata Consultancy Services Netherlands B.V) and the Company does not have any branches. The Company did not incur research and development expenses during the financial year.

The total net turnover for the year was EUR 66.49 million compared to EUR 70.87 million for the previous year. The year ended with a net profit of EUR 3.19 million as compared to EUR 5.19 million for the previous year. The net profit is expected to grow going forward.

Mr. Sapthagiri Chapalapalli

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

To the Board of Directors of
Tata Consultancy Services Luxembourg S.A.
89D, rue Pafebruch
L-8308 Capellen
Luxembourg

Report on the audit of the annual accounts

Opinion

We have audited the annual accounts of Tata Consultancy Services Luxembourg S.A. (the "Company"), which comprise the balance sheet as at 31 March 2026, and the profit and loss account for the year then ended, and notes to the annual accounts, including a summary of significant accounting policies.

In our opinion, the accompanying annual accounts give a true and fair view of the financial position of the Company as at 31 March 2026, and of the results of its operations for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the annual accounts » section of our report. We are also independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the annual accounts, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors for the annual accounts

The Board of Directors is responsible for the preparation and fair presentation of the annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts, and for such internal control as the Board of Directors determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the annual accounts

The objectives of our audit are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory requirements

The management report is consistent with the annual accounts and has been prepared in accordance with applicable legal requirements.

NOTE 1 - ORGANISATION AND BUSINESS PURPOSE

TATA CONSULTANCY SERVICES LUXEMBOURG S.A. (the **"Company"**) was incorporated on October 28, 2005, as a "Société Anonyme" under the laws of the Grand Duchy of Luxembourg for an unlimited period.

The Company is registered at 89 D, Rue Pafebruch, L-8308 Capellen and its commercial register number is R.C.S. Luxembourg B112.110.

The Company is a subsidiary of Tata Consultancy Services Netherlands B.V., a company organised under the Netherlands' laws under registered number 33237130 and whose registered address is Gustav Mahlerplein 85-91, 1082 MS Amsterdam, the Netherlands.

Tata Consultancy Services Netherlands B.V., a company organised under the Netherlands' laws is a subsidiary of TATA Consultancy Services Limited, a company incorporated under the laws of India under registered number L22210MH1995PLC084781 and whose registered address is Nirmal Building, 9th Floor, Nariman Point, Mumbai - 400 021, India.

The Company's object is the development, management, implementation and operating of information technology ("IT") and communication systems of credit institutions, professionals of the financial sector, undertakings for collective investment or pension funds established under Luxembourg or foreign laws. The Company may also develop and own IT and communication systems and make them available to its aforesaid clients.

The object further includes the processing and transfer of data stored in the IT systems.

The Company may also carry out any commercial, industrial, financial, movable and immovable operations, which are direct or indirect relation with its object, or which may deem useful in the accomplishment and development of its purposes.

The Company has the status of a professional of the financial sector, as such it may carry out any activities deemed useful for the accomplishment of its object remaining however within the limitations of articles 29(1), 29(2), 29(3) and 29(4) of the amended Luxembourg law of April 5, 1993 relating to the financial sector.

The Company's financial year starts on April 1 and ends on March 31 every year.

The consolidated accounts of TATA Consultancy Services Limited, which form the smallest and largest body of undertakings in which the Company is included, are available at the following address: Nirmal Building, 9th Floor, Nariman Point, Mumbai - 400 021, India.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

The Company maintains its books and records in Euro (EUR) and the annual accounts have been prepared in accordance with Luxembourg legal and regulatory requirements and the going concern principle under the historical cost convention.

Accounting policies and valuation rules are, besides the ones laid down by the amended Law of 19 December 2002, determined and applied by the board of directors of the Company (the "Board of Directors").

The preparation of annual accounts requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the accounting policies. Changes in assumptions may have a significant impact on the annual accounts in the period in which the assumptions changed. The Board of Directors believes that the underlying assumptions are appropriate and that the annual accounts therefore present the financial position and results fairly.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstance.

Significant accounting policies

2.1. Formation expenses

The formation expenses of the Company are directly charged to the profit and loss account of the year in which they are incurred.

2.2. Tangible assets

The value of tangible fixed assets with limited useful economic lives is reduced by value adjustments calculated on a straight-line basis to write off the value of such assets systematically over their useful economic lives.

The depreciation rates applied are as follows:

- Plant and machinery: 10%, 20% or 25%
- Other fixtures and fittings, tools and equipment: 10%, 20% or 25%

2.3. Debtors

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.4. Creditors

Debts are recorded at their reimbursement value. Where the amount repayable on account is greater than the amount received, the difference is recorded in the profit and loss account when the debt is issued.

2.5. Foreign currency translation

These annual accounts are expressed in EUR.

The transactions made in a currency other than EUR are translated into EUR at the exchange rate prevailing at the transaction date.

Long-term assets expressed in currencies other than EUR are translated into EUR at the exchange rate effective at the time of the transaction. At the balance sheet date, these assets remain translated at historic exchange rates.

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the year.

All other assets and liabilities expressed in a currency other than EUR are translated separately respectively at the lower and at the higher of the value converted at the historical exchange rate or the value determined on the basis of the exchange rates prevailing at the balance sheet date. Solely the unrealized exchange losses are recorded in the profit and loss account. The exchange gains are recorded in the profit and loss account at the moment of their realisation.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and the net unrealised losses are recorded in the profit and loss account whereas the net unrealised exchange gains are not recognised.

2.6. Revenues from operations

Revenues which are derived from management and operating of Information Technology are recognised over the term of related contract in the period when the services are provided.

Works in progress are classified as invoices to be issued under the caption "Trade debtors". Then invoices are issued in accordance with milestones set in the "Statement of work" agreed with each client.

2.7. Provisions

Provisions are intended to cover losses or debts the nature of which is clearly defined and which, at the date of the balance sheet are either likely to be incurred or certain to be incurred but uncertain as to their amount or as to the date on which they will arise.

Provisions may also be created to cover charges that have originated in the financial year under review or in previous financial year, the nature of which is clearly defined and which, at the date of the balance sheet, are either likely to be incurred or certain to be incurred but uncertain as to their amount or the date on which they will arise.

Provision for taxation

Provisions for taxation corresponding to the tax liability estimated by the Company for the financial years are recorded under the caption "Other creditors - Tax authorities". The advance tax payments are shown in the assets of the balance sheet under the "Other debtors" item.

2.8. Prepayments

This asset item includes expenditure incurred during the financial year but relating to a subsequent financial year.

2.9. Deferred income

This liability item includes income received during the financial year but relating to a subsequent financial year.

3. TANGIBLE ASSETS

The following movements have occurred during the financial year:

(EUR)

	Plant and machinery	Other fixtures and fittings, tools and equipment	Payments on account and tangible assets during construction	Total

4. TRADE DEBTORS AND AMOUNTS OWED BY AFFILIATED UNDERTAKINGS

Trade debtors are resulting from IT application support and application development business and amounts to EUR 25.687.770,42 (March 31, 2025: EUR 15.210.647,31).

Income on work in process not yet invoiced to clients amounts to EUR 1.316.817,64 (March 31, 2025: EUR 637.705,23).

Claims on affiliated undertakings amount to EUR 722.978,40 (March 31, 2025: EUR 872.746,89) and results from sales and services provided.

5. OTHER DEBTORS

Other debtors may be broken down as follows:

(EUR)

	Within one year	After more than one year	As at March 31, 2026	As at March 31, 2025
Staff allowance for travel and recoverable expenses	66.835,92	-	66.835,92	161.378,42
Advances for taxes	3.269.698,64	-	3.269.698,64	3.143.593,00
Total	**3.336.534,56**	**-**	**3.336.534,56**	**3.304.971,42**

6. PREPAYMENTS

This asset item includes expenditure incurred during the financial year but relating to the subsequent financial year for an amount of EUR 2.680.722,42 (March 31, 2025: EUR 6.008.434,56).

7. CAPITAL AND RESERVES

7.1 Subscribed capital

As at March 31, 2026, the issued capital of the Company amounts to EUR 5.600.000,00 consisting of 5.600 registered shares with par value of EUR 1.000,00 fully paid up.

7.2 Reserves

7.2.1. Legal reserve

In accordance with Luxembourg commercial law, the Company is required to transfer a minimum of 5% of its net profit for each financial year to a legal reserve. This requirement ceases to be necessary once the balance on the legal reserve reaches 10% of the issued share capital. The legal reserve is not available for distribution to the shareholders.

7.2.2. Other non-available reserves

The Company reduced its Net Wealth Tax liability in accordance with paragraph 8a of the Luxembourg Net Wealth Tax law. The Company allocates under non-distributable reserves an amount that corresponds to five times the amount of reduction of the Net Wealth Tax. This reserve is non-distributable for a period of five years from the year following the one during which the Net Wealth Tax was reduced.

The total amount of the Net Wealth Tax reserve amounts to EUR 1.347.175,00 (EUR 1.003.775,00 for 2025).

8. MOVEMENTS FOR THE YEAR ON CAPITAL, RESERVES AND PROFIT AND LOSS ITEMS

The movements for the year are as follows:

(EUR)

	Subscribed capital	Legal reserve	Other available reserves	Other non available reserves	Dividend	Result brought forward	Result for the financial year	Total
Balance as at March 31, 2025	5.600.000,00	560.000,00	-	1.003.775,00	-	623.601,45	5.949.552,46	13.736.928,91
Movements for the year:								
- Allocation of previous year's result	-	-	-	343.400,00	-	5.606.152,46	(5.949.552,46)	-
- Dividend distribution	-	-	-	-	-	-	-	-
- Result for the year	-	-	-	-	-	-	3.188.894,14	3.188.894,14
Balance as at March 31, 2026	**5.600.000,00**	**560.000,00**	**-**	**1.347.175,00**	**-**	**6.229.753,91**	**3.188.894,14**	**16.925.823,05**

9. OTHER PROVISIONS

Other provisions may be broken down as follows:

(EUR)

	2026	2025
	EUR	EUR
Others*	**25.672,86**	10.803,88
	25.672,86	**10.803,88**

* Others are mainly composed of the staff's expenses claims and the staff welfare long services awards.

10. TRADE CREDITORS

Trade creditors are made up of suppliers payable and a customer with a credit balance.

11. AMOUNTS OWED TO AFFILIATED UNDERTAKINGS

Amounts owed to affiliated undertakings are made of debts on purchase and services for an amount of EUR 6.464.439,14 (March 31, 2025: EUR 6.779.500,50).

12. OTHER CREDITORS

The amounts due and payable for the accounts shown under "Other Creditors" are as follows:

(EUR)

	Within one year	After more than one year	As at March 31, 2026	As at March 31, 2025
Tax authorities	4.850.500,25	-	4.850.500,25	7.064.428,90
Social security authorities	-10.691,31	-	-10.691,31	10.613,12
Other creditors:				
- Amounts payable to staff	153.596,36	-	153.596,36	168.196,33
Total	**4.993.405,30**	**-**	**4.993.405,30**	**7.243.238,35**

13. DEFERRED INCOME

Deferred income includes income received during the financial year ended March 31, 2026, but relating to a subsequent financial year.

14. NET TURNOVER

Net turnover is broken down by category of activity and geographical markets as follows:

Categories of activity

(EUR)

	Year ended March 31, 2026	Year ended March 31, 2025

Total	**66.490.191,63**	**70.872.695,67**

15. OTHER OPERATING INCOME

As at year-end, the Company's other operating income may be analysed as follows:

(EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Subsidies for operating activities	22.849,80	21.517,81
Benefits in kind	291.549,18	450.937,50
Other miscellaneous income	45.599,16	51.385,90
Total	**359.998,14**	**523.841,21**

16. OTHER EXTERNAL EXPENSES

The other external expenses amount of EUR 55.039.644,54 (March 31, 2025: EUR 53.090.407,60) and mainly consists of sub-contract expenses of EUR 50.996.626,03 in current year (March 31, 2025: EUR 49.575.881,44) for projects development.

17. STAFF

The average number of persons employed during the financial year by the Company is as follows:

	As at March 31, 2026	As at March 31, 2025
Senior Management	2	2
Employees	58	104
Total	**60**	**106**

18. OTHER OPERATING EXPENSES

As at March 31, 2026, the Company's other operating expenses may be analysed as follows:

(EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Staff & Wages - Meal Allowance	144.873,85	256.567,64
Tata Brand Equity Contribution	163.260,95	171.744,13
Software for Internal Use	216,04	-
	308.350,84	**428.311,77**

19. OTHER INTEREST RECEIVABLE AND SIMILAR INCOME

This item is composed of foreign currency exchange gains and interests on bank deposits, and it may be analysed as follows:

(EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Exchange Gains on affiliated undertakings	-	173.040,52
Interest on bank accounts	98.382,57	136.613,08
Exchange Gains	231.059,33	37.687,55
	329.441,90	**347.341,15**

The majority of the Company's billings are in GBP; the appreciation of EUR against GBP during the period resulted in foreign exchange Gain/Losses.

20. INTEREST PAYABLE AND SIMILAR EXPENSES

This item is mainly composed of foreign currency exchange losses and interests on bank accounts, and it may be analysed as follows:

(EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Exchange Loss on affiliated undertakings	-	(215.769,03)
Interest on bank accounts	(0,22)	(69,68)
Exchange Loss	(781.338,11)	(54.325,79)
Other Financial Charges	-	(7,83)
	(781.338,33)	**(270.172,33)**

The majority of the Company's billings are in GBP; the appreciation of EUR against GBP during the period resulted in foreign exchange Gain/Losses.

21. TAXATION

The Company is subject to all the taxes relevant to commercial companies in Luxembourg.

In 2023, Luxembourg enacted legislation implementing the OECD Pillar Two rules, which are designed to ensure that large multinationals pay a minimum 15% rate of corporation tax. As a member of the Tata group, the Company is potentially in scope of the Pillar Two rules, which will first apply to the Company for its financial year beginning April 1, 2024. The Company has performed a preliminary assessment of its potential exposure under Pillar Two. On the basis of this assessment, the Company does not currently expect any additional tax liability to arise under Pillar Two.

22. OFF-BALANCE SHEET COMMITMENTS

The off-balance sheet commitments may be broken down as follows:

(EUR)

	Within one year	After more than one year	As at March 31, 2026	As at March 31, 2025
Fixed rental payments	143.339,97	215.599,02	358.938,98	143.732,68
Company cars	26.182,20	23.539,25	49.721,45	97.362,74
Total	**169.522,17**	**239.138,27**	**408.660,43**	**241.095,42**

23. EMOLUMENTS, ADVANCES AND LOANS GRANTED TO THE MEMBERS OF THE MANAGEMENT AND SUPERVISORY BODIES

The Company has not granted any emoluments in respect of the financial year to members of the management and supervisory bodies by reason of their responsibilities.

As at March 31, 2026, the Company has not granted advances or loans to members of its administration (March 31, 2025: none).

24. RELATED PARTIES

During the financial year, no significant transactions were concluded outside the normal market conditions with persons holding participations in the Company neither with entities in which the Company holds participations, nor with members of the administrative, management or supervisory bodies of the Company.

25. AUDITOR'S FEES

The total fees expensed by the Company and due for the current financial year to the audit firm amounts to EUR 66.996,00 (March 31, 2025: EUR 63.194,00).

26. SUBSEQUENT EVENTS

No significant subsequent event has occurred since the balance sheet date.

Independent Auditor's Report

To the Board of Directors
Tata Consultancy Services Osterreich GmbH
Report on the special purpose Ind AS Financial Statements

Opinion

We have audited the accompanying Special purpose Ind AS financial statements of Tata Consultancy Services Osterreich GmbH ('the Company), which comprises the Balance Sheet as at 31st March 2026, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and the summary of the material accounting policies and other explanatory information (hereinafter referred to as "the special purpose Ind AS financial statements"). The special purpose Ind AS financial statements have been prepared by the management as described in Note 2 to the Special Purpose Ind AS financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special purpose Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2026, and it's profit (including other Comprehensive Income), Changes in Equity and its Cash Flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Special purpose Ind AS financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Special purpose Ind AS financial statements under the provisions of the Act and the Rules thereunder and fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibility for the Special purpose Ind AS financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Special purpose Ind AS financial statements that give a true and fair view of the state of affairs, profit/ loss and (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special purpose Ind AS financial statements that give a true and fair view and are free from misstatement, whether due to fraud or error.

In preparing these Special purpose Ind AS financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Special purpose Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Special purpose Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special purpose Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

  Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

(To the extent applicable to a Company incorporated outside India)

1. As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books.

   c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

Restriction on Distribution and Use

This Special purpose Ind AS financial statements have been prepared for the limited purpose of consolidated financial statements, to comply with the Section 129(3) of the Companies Act 2013, of Tata Consultancy Services Limited for the year ended 31st March,2026 in accordance with Accounting Standard specified in section 133 of the Companies Act 2013. Our report is intended solely for the information and use of Board of Directors of the company and Tata Consultancy Services Limited for the preparation of consolidated this Special purpose Ind AS financial statements as aforesaid and for the use at their annual general meetings for the information of their members. It is not intended to be and should not be used by anyone other than specified parties.

Notes forming part of the Financial Statements

1. Corporate information

Tata Consultancy Services Osterreich GmbH is into business of providing a wide range of information technology and consultancy services.

The Company is incorporated in Austria. The address is Orbi Tower, Thomas Klestil-Platz 13, 1030 Wien, Austria. Tata Consultancy Services Netherlands B.V, the holding Company owned 100% of the Company's equity share capital.

2. Statement of compliance

This special purpose financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time for sole purpose of inclusion for Tata Consultancy Services Limited (Intermediate Holding Company) under the requirement of Section 129(3) of the Companies Act, 2013 ('the Act').

3. Basis of preparation

These financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are measured at fair values or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle. Based on the nature of services rendered to customer and time elapsed between deployment of resources and realisation in cash and cash equivalents of the consideration for such a services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flows have been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

These financial statements have been presented in EURO which is the functional currency of the Company.The functional currency is the currency of the primary economic environment in which the Company operates.

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the statement of profit and loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The significant accounting policies used in preparation of the standalone financial statements have been discussed in the respective notes.

4. Use of estimates and judgements

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting estimates in preparation of its financial statements:

a. Revenue recognition

- The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

- Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.
- The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
- Revenue for fixed-price contracts are recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

b. Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

c. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d. Provision for income tax and deferred tax assets

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

e. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgements to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

f. Employee benefits

All the employees of the Company have been seconded from the holding Company. The costs relating to the employee cost is reimbursed to the holding Company which is including the retirement cost as applicable to such seconded employees. Hence no separate actuarial valuation is required to be done by the Company.

g. Lease

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

1. Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.
2. Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.
3. Ind AS 12, International Tax Reform – Pillar Two Model Rules applicable immediately - The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. This relief is immediate and applies retrospectively.

6. Financial assets, financial liabilities and equity instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of asset to another entity. The Company derecognises a financial liabilities when, and only when, the Company's obligations are discharged , cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets amortised cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognised in statement of profit and loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of Balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, the Company recognises lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

a. Trade Receivables

Trade receivables (unsecured) consist of following::

Amount in EUR

Trade Receivable - Current	As at March 31, 2026	As at March 31, 2025
Considered Good	6,040,665	3,887,741
	6,040,665	**3,887,741**

Above balances of trade receivables includes balance with related parties (Refer Note 17)

Ageing for trade receivables - current outstanding as at March 31, 2026 is as follows:

Amount in EUR

Particulars	Outstanding for following periods from due date of payment					
	Not due	Less than 1 year	1-2 years	3-4 years	More than 5 years	Total
Undisputed trade receivables - considered good	-	6,036,802	(226)	4,090	-	6,040,665
	-	**6,036,802**	(226)	**4,090**	**-**	**6,040,665**
Less: Allowance for doubtful trade receivables - billed	-	-	-	-	-	-
						6,040,665
Trade Receivables - unbilled						5,075,313
						11,115,978

Ageing for trade receivables - current outstanding as at March 31, 2025 is as follows:

Amount in EUR

Particulars	Outstanding for following periods from due date of payment					
	Not due	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Undisputed trade receivables - considered good	3,369,688	513,962	-	4,090	-	3,887,741
	3,369,688	**513,962**	**-**	**4,090**	**-**	**3,887,741**
Less: Allowance for doubtful trade receivables - billed	-	-	-	-	-	-
						3,887,741
Trade Receivables - unbilled						1,027,217
						4,914,958

Other financial assets

b. Cash and cash equivalents

Cash and cash equivalents consist of the following:

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Balances with banks		
- In current accounts	863,307	763,623
	863,307	**763,623**

c. Loans receivables

Loans receivables (unsecured) consist of the following

Loan receivables - current

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Considered Good		
Loans and advances to employees	3,000	9,775
	3,000	**9,775**

d. Other financial assets

Other financial assets consist of the following:

Other financial assets – Non- current

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Security deposits	6,229	-
	6,229	**-**

Other financial assets - Current

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Others	8,249	111
Security deposits	-	10,226
	8,249	**10,337**

e. Trade payables

Trade payables consist of the following:

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Accrued expenses	4,386,655	1,316,308
Trade and other payables	3,583,330	1,636,081
	7,969,985	**2,952,389**

Above balances of trade payables includes balance with related parties (Refer Note 17)

Ageing for trade payable - current outstanding as at March 31, 2026 is as follows:

Amount in EUR

Outstanding for following periods from due date of payment						
Particulars	**Not due**	**Less than 1 year**	**1-2 years**	**2-3 years**	**More than 3 years**	**Total**
Others	-	(3,485,024)	1,342	1,540	1,016	**(3,481,126)**
	-	(3,485,024)	1,342	1,540	1,016	**(3,481,126)**
Less: Allowance for doubtful trade payable	-	-	-	-	-	**-**
						(3,481,126)
Accrued expenses						**4,386,655**
						870,505

Ageing for trade payable - current outstanding as at March 31, 2025 is as follows:

Amount in EUR

Outstanding for following periods from due date of payment						
Particulars	**Not due**	**Less than 1 year**	**1-2 years**	**2-3 years**	**More than 3 years**	**Total**
Others	1,653,592	17,512	-	-	-	**1,671,104**
	1,653,592	17,512	-	-	-	**1,671,104**
Less: Allowance for doubtful trade payable	-	-	-	-	-	**-**
						1,671,104
Accrued expenses						**1,316,308**
						2,987,412

f. Other financial liabilities

Other financial liabilities consist of the following:

Other financial liabilities – Current

Amount in EUR

	As at March 31, 2026	**As at March 31, 2025**
Accrued Payroll	95,346	122,123
Others	9,299	1,201
Capital creditors	7,396	6,907
	112,041	**130,231**

g. Financial instruments by category

The carrying value of financial instruments by categories as of March 31,2026 is as follows:

Amount in EUR

	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	863,307	863,307
Trade receivables	6,040,665	6,040,665
Unbilled receivables	5,075,313	5,075,313
Loans receivables	3,000	3,000
Other financial assets	14,478	14,478
Total	**11,996,763**	**11,996,763**
Financial liabilities		
Trade payables	7,969,984	7,969,984
Lease liabilities	-	-
Other financial liabilities	112,041	112,041
Total	**8,082,025**	**8,082,025**

The carrying value of financial instruments by categories as of March 31,2025 is as follows:

Amount in EUR

	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	763,623	763,623
Trade receivables	3,887,741	3,887,741
Unbilled revenues	1,027,217	1,027,217
Loans receivables	9,775	9,775
Other financial assets	10,337	10,337
Total	**5,698,693**	**5,698,693**
Financial liabilities		
Trade payables	2,952,389	2,952,389
Lease liabilities	-	-
Other financial liabilities	130,231	130,231
Total	**3,082,620**	**3,082,620**

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables, loans receivables and trade payables as at March 31,2026 and March 31,2025 approximate the fair value. Difference between carrying amounts and fair values of bank deposits, earmarked balances with banks, other financial assets and other financial liabilities subsequently measured at amortised cost is not significant in each of the periods presented. Fair value measurement of lease liabilities is not required.

h. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consist of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 —Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

There are no financial liabilities or assets measured at fair value at the end of each reporting period.

Notes forming part of the Financial Statements

i. Financial risk management

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

  The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit and loss, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the Company.

  Considering the countries and economic environment in which the Company operates, its operations are subject to risk arising from fluctations in exchange rates in those countries.

  The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. Its hedges a part of these risks by using derivative financial instruments in line with its risk management policies.

  The foreign exchange rate sensitivity is calculated by aggregation of net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all currencies by 10% against the functional currency of the Company.

  The following analysis has been worked out based on the net exposures of the Company as of the date of balance sheet which could affect the statements of profit and loss and equity.

  The following table sets forth information relating to unhedged foreign currency exposure as of March 31, 2026

Amount in EUR)

	USD	SEK	CHF	HUF	DKK	NOK
Net financial assets	37,918	-	33,485	-	-	-
Net financial liabilities	-	8,122	6,740	-	2,478	-

10% appreciation / depreciation of the functional currency of the Company with respect to various foreign currencies would result in increase / decrease in the Company's profit before taxes by approximately EUR 54,063 for the year ended March 31, 2026.

The following table sets forth information relating to unhedged foreign currency exposure as of March 31, 2025

Amount in EUR

	USD	SEK	CHF	HUF	DKK	NOK
Net financial assets	153,988	-	63,872	-	-	-
Net financial liabilities	447	5,865	3,046,283	244	5,314	-

10% appreciation / depreciation of the functional currency of the Company with respect to various foreign currencies would result in increase / decrease in the Company's profit before taxes by approximately EUR 2,840,294 for the year ended March 31, 2025.

- **Interest rate risk**

  The Company is not exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled receivables (PY unbilled revenue), investments, cash and cash equivalents, bank deposits and other financial assets. None of the other financial instruments of the Company result in material concentration of credit risk.

- **Exposure to credit risk**

  The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was EUR 11,993,763.01 as of March 31, 2026 and EUR 5,688,917.21 March 31, 2025, respectively, being the total of the carrying amount of balances with banks, trade receivables, unbilled receivables and other financial assets excluding equity & loans.

- **Trade Receivables and Contract Assets**

  The entity's exposure to credit risk with regards to trade receivables and contract assets is influenced mainly by the individual characteristics of each customer in relation to the industry practices and business environment in which they operate. The entity limits its exposure to credit risk from trade receivables by establishing a maximum payment period of 365 days for its customers after which they are in default (credit impaired). To manage this risk, the Company has a robust Credit Management process in place. The Company has adopted a policy of dealing only with creditworthy counterparties. The Company's exposure of the counterparties is continuously monitored and necessary changes to the credit terms are made. The carrying amounts of financial assets represent the maximum credit risk exposure. None of the customer balances have been written off and no customer balances have been credit impaired at the reporting date.

  The following customers form more than 10% of outstanding trade receivable and unbilled receivables (PY Unbilled revenue) as at March 31, 2026 and March 31, 2025 are as follows.

Amount in EUR

	As at March 31, 2026		As at March 31, 2025	
	Total Trade receivables and Unbilled revenue	Percentage	Total Trade receivables and Unbilled revenue	Percentage
Customer A	10,059,403	90%	3,956,623	81%
Customer D	247,002	2%	349,942	7%
Customer E	195,612	1%	112,566	2%

Company's cash and cash equivalents, trade receivables, unbilled receivables (PY unbilled revenue), short-term loans and other financial assets are substantially held in Austria.

- **Geographic concentration of credit risk**

  The Company is not exposed to the risk as the customer base of Company is concentrated in Austria.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Company consistently generated sufficient cash flows from operations to meet its financial obligations as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as of:

Amount in EUR

As at March31, 2026	Due in 1st year	Due in 2nd year	Total
Non-derivative financial liabilities:			
Trade payables	7,969,984	-	7,969,984
Other financial liabilities	112,041	-	112,041
Total	**8,082,026**	**-**	**8,082,026**

Amount in EUR

As at March 31, 2025	Due in 1st year	Due in 2nd year	Total
Non-derivative financial liabilities:			
Trade payables	2,952,389	-	2,952,389
Other financial liabilities	130,231	-	130,231
Total	**3,082,620**	**-**	**3,082,620**

Other risk

Financial assets of EUR 863,307.09 as at March 31,2026 (PY: EUR 763,622.59 as at March 31, 2025) carried at amortised cost is in the form of cash and cash equivalents, where the Company has assessed the counterparty credit risk. Trade receivables of EUR 6,040,665.34 as at March 31, 2026 (PY:EUR 3,887,740.7 as at March 31, 2025) forms a significant part of the financial assets carried at amortised cost, which is valued considering provision for allowance using expected credit loss method. The Company has specifically evaluated the potential impact with respect to customers in Retail, Manufacturing and Energy verticals which could have an immediate impact and the rest which could have an impact with a lag. The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, discounting of receivables with institutions on no-recourse basis, recognition of revenue on collection basis etc., depending on severity of each case. The same assessment is done in respect of unbilled receivables EUR 5,075,312.69 as at March 31, 2026 (EUR 1,027,217.38 as at March 31, 2025) while arriving at the level of provision that is required.

j. Equity instruments

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Authorised :		
Equity share capital	35,000	35,000
(Share Capital of EUR 35000, PY EUR 35000)		
	35,000	**35,000**
Issued, subscribed and		
Equity share capital	35,000	35,000
(Share Capital of EUR 35000, PY EUR 35000)		
	35,000	**35,000**

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

i. Reconciliation

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Equity shares		
Opening balance	35,000	35,000
Closing balance	**35,000**	**35,000**

* The Company does not have number of equity shares.

ii. Rights, preferences and restrictions attached to shares

The Company has only one class of equity shares which is an 100% investment by TCS Netherlands. Since TCS Netherlands is the only shareholder for the Company, TCS Netherlands carry a right to dividend and also in the event of liquidation, TCS Netherlands is eligible to receive the remaining assets of the Company.

iii. Details of shares held by shareholders holding more than 5% of the aggregate shares in the Company

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Equity Shares		
TCS Netherlands NV (Holding Company)	35,000	35,000
% Holding in class	100%	100%

iv. Disclosure of shareholding promoters

Amount in EUR

Disclosure of shareholding of promoters as at March 31, 2026 is as follow:

Shares Held by Promoters					
Promoter name	AS at March 31,2026		AS at March 31, 2025		% Change During the year
	Number of Shares	% of Total Shares	Number of Shares	% of Total Shares	
TCS Netherlands NV	35,000	100%	35,000	100%	0%
Total	35,000	100%	35,000	100%	0%

Amount in EUR

Disclosure of shareholding of promoters as at March 31, 2025 is as follow:

Shares Held by Promoters					
Promoter name	As at March 31, 2025		As at March 31, 2024		% Change During the year
	Number of Shares	% of Total Shares	Number of Shares	% of Total Shares	
TCS Netherlands NV	35,000	100%	35,000	100%	0%
Total	35,000	100%	35,000	100%	0%

7. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the Company is as follows:

Amount in EUR

	Additions for the year ended March 31, 2026	Net carrying amount as at March 31, 2026
Leasehold building	-	-
Leased Motor Cars	-	-
Total	**-**	**-**

The details of the right-of-use asset held by the Company is as follows:

Amount in EUR

	Additions for the year ended March 31, 2025	Net carrying amount as at March 31, 2025
Leasehold building	-	-
Leased Motor Cars	-	-
Total	**-**	**-**

Depreciation on right-of-use asset is as follows:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Leasehold building	-	-
Leased Motor Cars	-	(4,407)
Total	**-**	**(4,407)**

Interest on lease liabilities is EUR 00 for the year ended on March 31, 2026 and EUR 15 for the year ended on March 31, 2025.

Lease contracts entered by the Company majorly pertains for motor cars taken on lease to conduct its business in the ordinary course. The Company does not have any lease restrictions and commitment towards variable rent as per the contract.

8. Non-financial assets and non-financial liabilities

a. Property, plant and equipment

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight line basis so as to expense the cost less residual value over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual value are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Useful lives
Computer equipment	4 years

Depreciation is not recorded on capital work-in-progress until construction and installation is complete and the asset is ready for its intended use.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

Property, plant and equipment consist of the following:

Amount in EUR

	Computer equipment
Cost as at April 1, 2025	241,884
Additions	20,022
Disposals	(228,021)
Cost as at March 31, 2026	**33,885**

Amount in EUR

	Computer equipment
Accumulated depreciation as at April 1, 2025	238,732
Depreciation for the year *	(228,021)
Depreciation expense	4,787
Accumulated depreciation as at March 31, 2026	**15,498**
Net Carrying amount as at March 31, 2026	**18,387**

*Accelaerated depreaciation being 100% of remaining depreciation on certain Computer Equipments purchased for specific projects where the period of the project is less than 4 years. Same have been depriciated over the period of respective projects.

Property, plant and equipment consist of the following:

Amount in EUR

	Computer equipment
Cost as at April 1, 2024	229,485
Additions	12,399
Disposals	
Cost as at March 31, 2025	**241,884**
Accumulated depreciation as at April 1, 2024	(52,171)
Depreciation for the year	(186,561)
Accumulated depreciation as at March 31, 2025	**(238,732)**
Net Carrying amount as at March 31, 2025	**3,152**

b. Capital Work In Progress as at March 31, 2026

Capital Work in Progress	To be completed in				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
	7,691	-	-	-	7,691
	-	-	-	-	-

	6,907	-	-	-	6,907
	-	-	-	-	-
	6,907	**-**	**-**	**-**	**6,907**

c. Other assets

Other assets consist of the following:

Amount in EUR

Other assets – Current	As at March 31, 2026	As at March 31, 2025
Considered Good		
Prepaid expenses	184,436	487,473
	184,436	**487,473**

d. Other liabilities

Other liabilities consist of the following:

Amount in EUR

Other liabilities - Current	As at March 31, 2026	As at March 31, 2025
Indirect tax payable and other statutory liabilities	431,400	590,338
	431,400	**590,338**

9. OTHER EQUITY

Other equity consist of the following:

Amount in EUR

	As at March 31, 2026	As at March 31, 2025
Retained earnings		
Opening balance	1,836,290	505,233
Profit/(Loss) for the year	814,350	1,331,057
	2,650,640	**1,836,290**

10. Revenue recognition

The Company earns revenue primarily from providing information technology, consultancy services and business solutions for its customers. The Company offers a consulting-led, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the entity expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.

- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Revenue from subsidiaries is recognised based on transaction price which is at arm's length.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of licence whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by industry verticals, geography and nature of services.

Revenue disaggregation by nature of services is as follows:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Consultancy services	14,868,365	20,927,794
Total	**14,868,365**	**20,927,794**

Revenue disaggregation by industry vertical is as follows:

Amount in EUR

Industry Vertical	Year ended March 31, 2026	Year ended March 31, 2025
Banking, Financial Services and Insurance	2,315,137	4,660,166
Manufacturing	10,578,031	13,944,209
Communication, Media and Technology	326,618	299,719
Energy & Utilities	1,648,306	1,935,519
Others	273	88,182
	14,868,365	**20,927,794**

Revenue disaggregation by geography is as follows:

Amount in EUR

Geography	Year ended March 31, 2026	Year ended March 31, 2025
Europe	14,868,365	20,927,794
	14,868,365	**20,927,794**

Geographical revenue is allocated based on the location of the customers.

Information about major customers:

RHI Magnesita GmbH represents 10% or more of the Company's total revenue during the year ended March 31, 2026

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in Ind AS 115. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognized corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is EUR 5,252,170 out of which 72.21% is expected to be recognized as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in Contract assets are as follows :

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Balance at the beginning of the year	945,935	1,268,447
Revenue recognised during the year	5,015,701	1,027,217
Invoices raised during the year	(945,935)	(1,268,447)
Balance at the end of the year	**5,015,701**	**1,027,217**

Changes in Unearned and deferred revenue are as follows :

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Balance at the beginning of the year	(226,808)	(644,040)
Revenue recognised that was included in the unearned and deferred revenue at the beginning of the year	226,808	644,040
Increase due to invoicing during the year, excluding amounts recognised as revenue during the year	(414,575)	(226,808)
Balance at the end of the year	**(414,575)**	**(226,808)**

Reconciliation of revenue recognized with the Contracted price is as follows:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Contracted price	14,868,365	20,927,794
Revenue recognised	**14,868,365**	**20,927,794**

Notes forming part of the Financial Statements

11. Other Income

Other Income consist of the following:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Net foreign exchange gains/(loss)	(3,850)	(3,918)
Other income	14,865	20,801
Interest Income	(2)	2,527
	11,013	**19,410**

12. Employee benefits

Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Compensated absences

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the balance sheet date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

Employee benefit expenses consist of the following:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Salaries, incentives and allowances	1,726,287	1,136,944
Contributions to Retirement funds	140,815	102,108
Staff welfare expenses	50,621	29,104
	1,917,723	**1,268,157**

Employee benefit obligations consist of the following:

Amount in EUR

Employee benefit obligations – Current	Year ended March 31, 2026	Year ended March 31, 2025
Other employee benefit obligations	47,002	63,692
	47,002	**63,692**

13. Cost recognition

Costs and expenses are recognised when incurred and have been classified according to their nature.

The costs of the Company are broadly categorised in employee benefit expenses, cost of equipment and software licenses, depreciation and amortisation expense and other expenses. Other expenses mainly include fees to external consultants,

facility expenses, travel expenses, communication expenses, bad debts and advances written off, allowance for doubtful trade receivable and advances (net) and other expenses. Other expenses is an aggregation of costs which are individually not material such as commission and brokerage, recruitment and training, entertainment, etc.

a. Other expenses

Other expenses consist of the following:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Fees to external consultants (including subcontractor cost)*	934,940	896,614
Project expenses	10,346,894	16,295,802
Facility expenses	40,291	66,986
Travel expenses	33,704	27,498
Communication expenses	1,692	1,846
Other expenses	537,081	475,515
	11,894,602	**17,764,261**

* Including cost of personnel on deputation from TCS

14. Finance Costs

Finance costs consist of the following:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Interest on lease liabilities	-	15
	-	**15**

15. Income Taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income taxes

The current income tax expense for the entity has been computed based on the tax laws applicable in the jurisdiction in which it operates.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction provided the Company has a legally enforceable right to set off the recognised amounts and intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax asset are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The Company recognises interest levied and penalties related to income tax assessments in income tax expenses.

The Income-tax expenses consist of the following:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Current tax		
Current tax expense for current year	9,315	16,328
Current tax benefit pertaining to prior years	3,595	(3,330)
	12,910	**12,998**
Deferred tax		
Deferred tax (benefit)/ expense for current year	235,006	379,747
Deferred tax (benefit)/ expense pertaining to prior years	-	-
	235,006	**379,747**
Total income tax expense recognised in current year	**247,916**	**392,745**

The reconciliation of estimated income-tax expenses at statutory income tax rate to the income tax expenses reported in the statement of profit and loss is as follows:

Amount in EUR

	Year ended March 31, 2026	Year ended March 31, 2025
Profit/(Loss) before taxes	1,062,266	1,723,802
Enacted Income tax rate in Osterreich	23.00%	23.00%
Expected Income tax expense	244,321	396,475
Tax effect of adjustments to reconcile expected income tax expense to reported income tax expense:		
Deferred tax adjustment of PY accounted in CY	3,595	(3,730)
Tax pertaining to prior years	-	-
	247,916	**392,745**

The tax rates under TCS Osterreich Income Tax Act, for the year ended March 31, 2026 and March 31, 2025 is 23% and 23% respectively.

Significant components of net deferred tax assets and deferred tax liabilities for the year ended March 31, 2026 are as follows:

As at March 31, 2026

Amount in EUR

Particulars	Opening balance	Recognised in profit or loss	Recognised in retained earnings	Closing balance
Deferred tax assets/ (liabilities) in relation to				
Accumulated Losses	(324,559)	(235,006)	-	(559,565)
Total deferred tax assets/ (liabilities)	**(324,559)**	**(235,006)**	**-**	**(559,565)**

Gross deferred tax assets and liabilities are as follows:

Amount in EUR

As at March 31, 2025	Assets	Liabilities	Net
Deferred tax assets/ (liabilities) in relation to			
Others	48,987	(608,552)	(559,565)
Total deferred tax assets/ (liabilities)	**48,987**	**(608,552)**	**(559,565)**

As at March 31, 2026

Amount in EUR

Particulars	Opening balance	Recognised in profit or loss	Recognised in retained earning	Closing balance

Statutory Auditors' report on the financial statements

For the year ended March 31, 2026

To the annual general meeting of Tata Consultancy Services France S.A.,

Opinion

In compliance with the engagement entrusted to us by your annual general meeting, we have audited the accompanying financial statements of Tata Consultancy Services France S.A. for the year ended March 31, 2026.

We certify that the financial statements, in accordance with French accounting rules and principles, are accurate and fair and present a true and fair view of the results of operations for the past fiscal year, as well as the financial position and assets of the company at the end of that fiscal year.

Basis for Opinion

Audit Framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the "Statutory Auditor's

Responsibilities for the Audit of the Financial Statements" section of our report.

Independence

We conducted our audit engagement in compliance with independence requirements of the French Commercial Code (Code de Commerce) and the French Code of Ethics (Code de déontologie) for statutory auditors rules applicable to us, for the period from April 1, 2025 to the date of our report.

Observation

Without questioning the opinion expressed above, we draw your attention to the note titled "I. Nature of the Business and Accounting Standards" in the notes to the financial statements, which describes the change in accounting policy resulting from the first-time application of ANC Regulation No. 2022-06.

Justification of assessments

In accordance with the provisions of Articles L.821-53 and R.821-180 of the Commercial Code (Code de Commerce) regarding the basis for our assessments, we hereby inform you that the most significant assessments we have made, in our professional judgment, relate to the appropriateness of the accounting principles applied, the reasonableness of the significant estimates used, and the overall presentation of the financial statements.

Specific verifications

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by French laws and regulations.

Information given in the management report and in the other documents with respect to the financial position and the financial statements provided to the Shareholders

We have no matters to report as to the fair presentation and the consistency with the financial statements of the information given in the management report of the Board of Directors and in the other documents with respect to the financial position and the financial statements provided to the Shareholders.

We attest the fair presentation and the consistency with the financial statements of the information relating to payment terms, required under Article D.441-6 of the French Commercial Code (Code de commerce).

In accordance with French law, we report to you that the non-financial statement provided for in article L.225-102-1 of the French Commercial Code (Code de Commerce) is not included in the management report and that the Company has not designated an independent third party to perform such procedures.

Report on Corporate governance

We attest that the Board of Directors' report on corporate governance sets out the information required by Article L.225-37-4 of the French Commercial Code (Code de Commerce).

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with French accounting principles and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is expected to liquidate the Company or to cease operations.

The financial statements were approved by the Board of Directors.

Statutory Auditor's Responsibilities for the Audit of the Financial Statements

Our role is to issue a report on the financial statements. Our objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As specified in Article L.821-55 of the French Commercial Code (code de commerce), our statutory audit does not include assurance on the viability of the Company or the quality of management of the affairs of the Company.

As part of an audit conducted in accordance with professional standards applicable in France, the statutory auditor exercises professional judgment throughout the audit and furthermore:

- Identifies and assesses the risks of material misstatement of the financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence considered to be sufficient and appropriate to provide a basis for his opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management in the financial statements.

- Assesses the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of his audit report. However, future events or conditions may cause the Company to cease to continue as a going concern. If the statutory auditor concludes that a material uncertainty exists, there is a requirement to draw attention in the audit report to the related disclosures in.

Paris la Défense, 30 April 2026

I. Nature of the activity and accounting standards

TATA CONSULTANCY SERVICES FRANCE SA is an IT services company launched in 1995. The company offers a wide range of specialized services related to IT systems set up, ranging from consulting to expert advice in advance technologies.

The balance sheet total before appropriation of earnings for the financial year is 219,189,820 euro and the statement of income for the year, presented in list form, recorded a profit of 5,274,880 euro on a turnover of 386,752,830 euro.

The FY was 12 months long, from 01/04/2025 to 31/03/2026, just like the previous FY that ended on 31/03/2025.

The notes and the tables below are an integral part of the annual accounts.

With effect from the financial year beginning on 1 January 2025, TATA CONSULTANCY SERVICES FRANCE will apply Regulation No. 2022-06 of 4 November 2022 on the modernisation of financial statements, which amends the Plan comptable général. This text, approved by Decree of 26 December 2023 and mandatory for financial years beginning on or after 2025, constitutes a change in accounting policies that is binding on the Company. Consequently, the financial statements for the 2025 financial year are presented in accordance with the new provisions of the regulation. The main changes introduced relate to:

- the definition of extraordinary result, now limited solely to major and unusual events (with day-to-day transactions being recorded in operating or financial result);
- the elimination of the expense transfer technique;
- and the adoption of new standardised balance sheet and income statement formats defined by the ANC, involving some reclassification of items to ensure compliance.

In accordance with the provisions of this regulation, the application is prospective from 1 January 2025, without restatement of prior comparative figures or opening balances as on 1 January 2025. The 2024 accounts, as prepared under the previous framework, have been included in this document. However, for the sake of clarity, we present the restated accounts for the FY 2024–2025, as if this new regulation applied retrospectively.

General accounting conventions have been applied in line with the principle of prudence and with the basic accounting concepts of going concern, consistency of accounting methods from one financial year to the next, independence of financial years and in line with the general rules for drawing up and presenting annual accounts.

The basis for evaluating the items recorded in the accounts is the historical-cost method.

II. Characteristic facts of the period

Events from previous years affecting this one.

- Tax audits started on April 17, 2025, for the FY 2020-2021 to 2023-2024. The tax authorities are still conducting this audit.
- The emergence of an armed conflict between Russia and Ukraine in early 2022, as well as that with Iran which began in late February 2026, impacted economic and business activities worldwide. However, this situation did not have any major impact on our business during this financial year.

III. Noteworthy events that took place during the FY

The Company has reported revenues of 386,753 million Euro for the FY 2025-26, which represents an increase of 1.58% compared to the last FY, over comparable scope.

The result of the year was a profit of 5.3 million Euro after considering 646 thousand euros of profit-sharing due to employees (including social contributions) and 746 thousand euros of corporate taxes. As on 31 March 2025, the result of TCS France recorded a profit of 5.7 million Euro.

The Company confirmed its return to profitability which has been evident for several financial years, with increased revenues, controlled gross margins from key customers, improved utilization rates and a continued focus on operational efficiencies.

Finally, the Company is continuously working on identifying expenses incurred during this fiscal year which qualify for research tax credit, as was done for the previous years. As the requests for the return of these tax credits under previous tax periods being audited by the administration, TCS France S.A. chose to post these amounts once they have been cashed.

IV. Noteworthy events following book closing

Apart from the above-mentioned points, the Company has not identified any other significant event that could have an impact on the next financial year.

V. Accounting principles – Methods of evaluation

General rules for drawing up and presenting accounts

Methods of evaluation and calculation used for the accounts of the financial year that ended on 31 March 2026 are identical to those used for the previous financial year that ended on 31 March 2025, whilst complying with the application of ANC Regulation 2022-06, which notably affected, particular, the transfer of expenses, and resulted in:

- crediting reimbursements received directly as compensation for personnel expenses to payroll;
- treating re-invoiced personnel expenses as revenue.

	2025-2026	2024-2025
Reimbursements received directly as compensation for personnel expenses to the payroll	6,224	597
Re-invoiced personnel expenses (revenue)	1,129	11,395

As a reminder, the balance sheet and income statement presented at the time of the approval of the accounts of the financial year that ended on 31 March 2025 and prepared in accordance with the previous regulations, are as follows**:**

Notes forming part of the Financial Statements

Method of evaluation chosen for certain items in the income statement

Research and development spend

The Company's spend on research and development is meant to develop its know-how and define its new technical positioning, especially in line with the potential customers' expectations. The corresponding expenses are recorded under the charges for the financial year in which they were incurred, depending upon their nature.

Tangible and intangible assets

Gross value of tangible and intangible assets corresponds to their initial value obtained after adding the extra expenses needed for readying them for use.

Depreciation is calculated over the normal lifetime of the assets which are generally as follows:

Intangible assets - Goodwill

Goodwill is assessed once a year based on the updated projections of future cashflow (c.f. § Financial assets hereafter).

Goodwill represents the cost of activities acquired as stated upon the date of acquisition of the business minus the buyer's participation.

Goodwill is not amortised as it is for an unlimited duration.

Goodwill is subject to a depreciation test annually or when the events or circumstances indicate a possible loss of value. If the recoverable amount is estimated to be lower than the book value, the book value is reduced to the recoverable value. A loss in value is recorded in the profit and loss account.

Financial assets

The security deposits are entered in the assets of the balance sheet for the amount corresponding to their payments.

Client receivables and recognition of revenues

Sequential performance contracts (T & M):

Services provided and not billed on the date of closing, in case of T&M contracts are considered as "due for billing".

Fixed price contracts:

Only that percentage of the fixed price contracts that has been delivered is taken into consideration.

According to this method, the revenue tagged to each contract is pro-rata to the time spent by associates as on the date of accounts closing.

When the amount of predictable costs for completion of an engagement could potentially record a loss, a provision for this risk is made based on the best available estimate of the losses at the date of accounts closing.

Account receivables:

Receivables are considered at their nominal value. A depreciation allowance is made on a case by case basis when the inventory value is lower than the book value, depending upon the risks of non-recovery.

Conversion of Account receivables and payables into foreign currency:

Receivables and debts in foreign currency are converted and considered in Euros based on the last known exchange rate on the date of the transaction. Assets and debts shall be revalued at the exchange rate on the date of closure of the FY.

When the application of the conversion rate at the date of FY closing impacts the amounts previously considered, the difference in the conversion rate is reported in a transitory account and adjusted later on, based on the:

- asset side of the income statement for the differences corresponding to unforeseeable losses (due to foreign exchange adjustment)
- liability side of the income statement for the differences corresponding to unforeseeable gains (due to foreign exchange adjustment)

Unrealised losses call for the earmarking of a provision commensurate with the risk.

Foreign exchange margins on payables and receivables fall under operating result and not under financial result.

Provision for Risks & Contingencies

At the closing of accounts, provisions have to be made for risks and charges that have been identified but not factored, and are likely to result as a consequence of the events that have occurred over the financial year. These provisions are estimated on a case by case basis, depending upon the information available.

Credit risk

Financial instruments that pose a credit risk to the company include mainly cash and cash equivalents, investments in securities and client receivables.

The Company's cash and cash equivalents are mainly expressed in Euro and are in the safekeeping of two major French banks.

Transactions on bank accounts in foreign currency shall be entered against their equivalent value on the date of transaction. The balance in foreign currency is updated as per the prevalent exchange rate and recorded in the financial result.

Assumptions and estimations made by the Management

For drawing up the financial statement, TCS CONSULTANCY SERVICES FRANCE S.A management needs to give estimates and make assumptions that are likely to have an impact on the values of assets, liabilities, revenues and charges as well as on the information given in the appendices.

These assumptions are determined based on the "going concern" principle and depend upon the information available on the date of drawing up the accounts and upon corresponding historical data as well as upon other factors deemed relevant in the circumstances.

Upon each book closure, the assumptions and estimations can be reviewed if the circumstances on which they were based have changed or new information is available to the management. The items in the future financial statements could vary from the present estimations on account of the changes in assumed values.

VI. Notes on the income statement

Total	**20,278**			**20,278**	**(1,096)**			**(1,096)**	**19,182**

Goodwill was tested for impairment during the financial year that ended.

The Company considers goodwill and merger losses (56.6 million Euro) as one single asset contributing to the activity of TCS FRANCE SA whose assets have been evaluated as part of the depreciation test.

The recoverable value of this asset subject to test is equivalent to its value in use. It is calculated based on the updated projections of future cashflows, based on the following hypotheses:

- Budgetary data for 2026-2027 and revenue projections for FYs 2027-2028 to 2030-2031 have been approved by the Management.

These assumptions are laid down, based on the visibility that the management has of the various sectors and growth prospects. These projections have been made at the end of the first quarter of 2026 in connection with the drawing up of a business plan for 2026-2027 and for the four subsequent FYs. They take into account the assumption of business as usual:

- Final values are calculated over 5 years by taking into account a perpetual growth rate of 1.5%.
- The discount rate considered as on 31 March 2026 is 9.36%.

The recoverable value of the tested asset calculated based on the assumptions above seems higher than the net accounting value of the asset tested. Therefore, no depreciation has been observed as on 31 March 2026 on the asset tested following the implementation of this depreciation test.

Key influencing factors

The recoverable value of TCS FRANCE S.A. is based on the assumption that the revenue targets will be reached and cost-cutting plan will give expected results. The Company has estimated revenue projections based on the existing orders, materialisation of the expected contracts and the market's development potential. Estimated reduction in sales costs, general operational expenses and administrative expenses is based upon the cost optimisation initiatives such as continuous focus on resource utilisation.

The company has carried out an analysis of the sensitivity of values to changes in the key assumptions and it has revealed that:

- A variation of +1 point of the discount rate and / or of -1 point of the perpetual growth rate would not result in a recoverable value of the tested assets to be lower than their accounting value.
- An annual variation of -5% of revenue targets and /or +4% of operational expenses over the period 2027-2031 would not result in a recoverable value of the tested assets to be lower than their accounting value. Beyond this variation, the accounting value of the assets tested could be challenged.

V1.2 Customer receivables and other current assets

(EURO in Thousand)

	31 March 2026	< 1 year	> 1 year	31 March 2025
Other financial assets	1,996		1,996	2,052
Doutbful and contentious clients	113	113		10
Group clients	4,475	4,475		6,574
Other customer receivables	113,487	113,487		126,540
Staff and related payables	176	176		192
Tax on profit	330	330		778
Value added tax	3,327	3,327		3,175
Miscellaneous – Government and other public bodies	230	230		622
Miscellaneous receivables (accounts receivable from suppliers)	1,818	1,818		2,350
Prepaid expenses	18,148	18,148		17,073
Total	**144,101**	**142,105**	**1,996**	**159,366**

Doutbful and contentious accounts are fully written off.

Notes forming part of the Financial Statements

V1.3 Accrued expenses and deferred income

(EURO in Thousand)

	March 31, 2026	March 31, 2025
Accrued income		
Customers – Invoices to be issued outside the group		
Suppliers - credit notes to be received (outside the group)	24,370	36,107
	1,812	2,199
Total	**26,182**	**38,307**

(EURO in Thousand)

	March 31, 2026	March 31, 2025
Accrued expenses		
Accrued expenses	25,686	26,371
Suppliers - Invoices yet to be received from within the group	10,173	11,029
Clients - credit notes to be issued	7,207	6,667
(outside the Group)	36	14
Clients – credit notes to be issued within the Group	16,647	16,918
Tax and social security liabilities	109	127
Other liabilities		
Total	**59,858**	**61,126**

V1.4 Income and and charges to be carried over to the next financial year

These are expenses and income that relate to the next financial year. They will contribute to the result for the 2026–2027 financial year.

(EURO in Thousand)

		31 March 2026	31 March 2025
Prepaid expenses	(1)	18,148	17,073
Unearned revenue	(2)	(17,672)	(21,213)

Prepaid expenses correspond mostly to the % of the project executed.

Deferred income corresponds to the excess of invoiced amounts over revenue recognised in relation to the stage of completion of the project under lump-sum contracts.

V1.5 Impact due to currency rate

Exchange rate differences reflect unrealised foreign exchange gains and losses recognised at the end of the financial year on receivables and payables denominated in foreign currencies.

	(EURO in Thousand)	
	31 March 2026	31 March 2025
Foreign exchange losses	118	32
- increase in foreign currency liabilities	116	4
- decrease in foreign currency receivables	2	28

	(EURO in Thousand)	
	31 March 2026	31 March 2025
Foreign exchange gains	39	33
- decrease in foreign currency liabilities	1	17
- increase in foreign currency receivables	38	16

V1.6 Equity

The break-up of the equity capital is as follows:

(EURO in Thousand)

	Opening balance 31 March 2025	Income appropriation for the previous financial year	Distribution of dividends	Capital increase	Capital reduction	Operating result	Other (to be specified)	Amount at the end of the financial year 31 March 2026
Capital	446							446
Issue, merger and contribution premiums	2,822							2,822
Legal reserves	37							37
Other reserves	10,655							10,655
Carry forward	(11,453)	5,717						(5,736)
Operating result for the FY	5,717	(5,717)				5,275		5,275
Total	**8,223**	**0**	**0**	**0**	**0**	**5,275**	**0**	**13,498**

	Number of securities	Face value	Total in Euro
31 March 2026	**14,867,651**	**0,03**	**446,029,53**

Shares entitled to double voting rights

A shareholder who can prove that s/he has personally held those shares for at least two years, enjoys double voting rights.

As of 31 March 2026, there are no securities with double voting rights.

Own shares of Group

None.

Stock options

No stock options have been floated since 30 September 2010.

Subscription warrants for founders' shares

There have been none since 30 September 2010.

Free shares

No free shares have been allotted since 27 October 2007.

Holding

TCS FRANCE S.A. previously known as ALTI S.A. is held wholly by Tata Consultancy Services Netherlands since 28 June 2013.

Notes forming part of the Financial Statements

V1.7Provisions for risks and charges

	Time period	Amount at the start of the financial year 31 March 2025	Increases	Decreases: Reversals for the financial year		Opening balance 31 March 2026
				Used	Unused	
Provisions for risks						
Labour cases	1 to 5 years	920	304			1,224
Foreseeable loss	1 year	27	207	(27)		207
Exchange rate related losses	1 year	32	118	(32)		118
Total	**1 an**	**979**	**629**	**(59)**		**1,549**

Labour cases

The Company has identified and classified the risks (high, medium, low) related to disputes with its employees. Based on its lawyers' opinions, the company has evaluated the extent of its liability involved.

Disputes are of 2 types:

1. Employees disagreeing with their being laid-off
2. Employees demanding additional remuneration (for being on call, etc.)

To factor for the disputes in front of the "Prud'hommes" between TCS FRANCE S.A and its current or former employees, the Company has set aside a provision for risk when there is a probability of an outflow of funds, based on the best risk evaluation along with the legal counsels. A provision of 1,224 K Euro has been earmarked as on 31 March 2026.

V1.8Schedule of debt maturities at the end of the financial year

(EURO in Thousand)

	31 March 2026	< 1 year	1 to 5 years	> 5 years
Loans and debts from credit institutions with an original maturity of up to 1 year	1	1		
Various loans and financial debts	425		425	
Group vendors	107,224 (*)	107,224		
Vendors and receivables (outside the Group)	31,671	31,671		
Staff and related payables	9,886	9,886		
Social security and other social security bodies	9,116	9,116		
Tax on profits				
Value added tax	11,238	11,238		
Tax, levies and others	3,321	3,321		
Group and associates				
Client receivables outside the Group	12,664	12,664		
Client receivables Group	44	44		
Other debts	840	840		
Unearned revenue	17,672	17,672		
Total	**204,103**	**203,678**	**425**	

(*) of which €54,166,000 past due (€45,188,000 as on 31 March 2025).

On September 26, 2024, TCS FRANCE S.A. secured a loan from TCS Technology Solutions GmbH for an amount of 20 million Euro, bearing interest at a rate of 3.5% per annum and ending on March 31, 2026. This loan is scheduled to be repaid in quarterly installments of 5 million Euro starting from June 2025. Interest is payable quarterly in arrears. This loan has been fully repaid on 31 March 2026.

V1.9 Other payables

Payment term for these payables is less than one year.

(EURO in Thousand)

	31 March 2026	< 1 year	1 to 5 years	> 5 years
Expense bills	127	127		
Other debts	713	713		
Total	**840**	**840**		

V1.10 Liquidities and investment securities

The company has invested in units of collective investment undertakings through JP Morgan. As of March 31, 2026, the investment details are as follows:

(EURO in Thousand)

Monetary funds	Contracts in foreign currency	Contracts in euros	Date of investment	Annual return as on 31 March 2026
EUR Liquidity LVNAV Fund	€11,800,000	€11,800,000	31 March 26	2.08%
USD Liquidity LVNAV Select	$900,000	€782,473	26 March 25	4.22%
Total		**€12,582,473**		

The item cash and cash equivalents refers to bank accounts and cash.

VII. Notes on the income statement

VII. 1. Revenues

Revenues as on 31 March 2026 stand at 386,753 K€ against 380,740 K€ on 31 March 2025. As in the FY 2024-2025, 96% of revenue was generated in France and 4% outside France.

The break-up of the revenues is as follows:

Activity	Revenues 2025–2026 (%)	Revenues 2024–2025 (%)
Energy and resources	21%	23%
BFSI	19%	21%
Healthcare	17%	16%
Industry	14%	14%
Others	29%	26%
Turnover	**100%**	**100%**

Notes forming part of the Financial Statements

VII.2. Other income and expenses

(EURO in Thousand)

	31 March 2026	31 March 2025
Trademark fee	(734)	(913)
Credit losses	(9)	
Translation gains and losses on purchases and sales	(245)	(79)
Other income	549	1 504
Total	**(439)**	**512**

"Other income" for the year is mainly composed of revenues from subleasing part of the La Défense office space.

VI.3 Headcount

The Company headcount as on 31 March 2026 is 1.120 compared to 1.142 on 31 March 2025.

Executives		Non-executives		Consultants		Average headcount As on 31 March 2026	Average headcountAs on 31 March 2025
Men	Women	Men	Women	Men	Women		
798	284	29	7	1	1	1,120	1,142

VII.4 Financial income and charges

The break-up of the financial results is as follows:

(EURO in Thousand)

	31 March 2026	31 March 2025
Revenues from receivables		
Financing commission	707	757
Bank interest		(2)
Interest to related parties	(423)	(334)
Exchange rate related gain/losses		(35)
Allowance for exchange rate related losses	(85)	(9)
Total	**198**	**377**

VII.5 Extraordinary income and charges

Under ANC Regulation 2022-06, only major and unusual events may be registered as extraordinary result. During the financial year ended 31 March 2026, TCS FRANCE did not experience any such event.

Notes forming part of the Financial Statements

VII.6 Corporate taxes and employee profit sharing

i. Breakdown of total tax on profit

(EURO in Thousand)

	Gross amount	Tax (savings)	Net amount
Operating result	6,667	(1,667)	5,001
- Non-taxable income	(1,157)	289	(868)
+ Non-deductible expenses	1,460	(365)	1,095
+ Unrecognised income for the year to be added back			
- Unrecognised expense for the year to be deducted			
= current taxable income	6,971	(1,743)	5,228
=+ extraordinary result			
- Non-taxable income			
+ Non-deductible expenses			
+ Unrecognised income for the year to be added back			
- Unrecognised expense for the year to be deducted			
= taxable income	6,971	(1,743)	5,228
- Tax credit			
- Tax losses offset	(3,985)	996	
= Tax payable		**746**	

The amount of the employees' share in the Company's 2025–2026 profits amounts to 539 thousands of euros, excluding the social security contribution (20%).

ii. Factors likely to result in reductions or increases in future income tax liabilities

Timing differences between the tax regime and the accounting processing of income and expenses.

Tax rate applied: 25%

(EURO in Thousand)

	Financial year 2025–2026		Financial year 2024–2025	
	Base	Corresponding tax	Base	Corresponding tax
Conversion adjustments at the balance sheet date	118	(29)	32	(8)
Provision for foreign currency adjustment	118	29	32	8
Provision for foreseeable losses	207	52	27	7
Organic	612	153	589	147
Building-related	346	87	350	87
Employee profit-sharing and social contributions	646	162	722	180
Carry-forward losses	65,884	16,471	69,870	17,467
Total		**16,924**		**17,889**

As on 31 March 2025, after considering the result for the FY 2025–2026 i.e. (6,971 K€) and the limitation on the use of losses for the FY), the amount of losses carried forward stands at 65,884 K€.

Notes forming part of the Financial Statements

VII.7 List of subsidiaries and interests

None.

VII.8 Directors' remuneration

No advance payments, credits or allotment of free shares were extended to the members of the Management Committee.

V1.9 Other information

Commitments and other contractual obligations

(amounts in thousands of euros)

Commitment given	Amount of expected risks and benefits of the transaction
Operating lease contract (1)	10,664
Retirement obligations and similar benefits (2)	7,955

(1) Commitments related to operating lease contracts

(amounts in thousands of euros)

Amount of the commitment made	< 1 year	1 to 5 years
10,664	2,823	7,841

Commitments related to retirement benefits

There is no special contractual commitment within TCS FRANCE SA. The employees of the Group are covered by the provisions of the "SYNTEC Collective Convention" in terms of retirement gratuity.

On this basis, the commitment amount is 7,955 K Euro including social security contributions as on 31 March 2026 against 7,608 K Euro as on 31 March 2025. No provision has been made for this amount in the Company accounts that have just been closed.

The cost of the services defined is determined using the actuarial valuation method based on projected unit credit.

The calculations were based on the following assumptions:

- Discount rate: 3.80%
- Annual salary increase rate: 2.38%
- Mortality table: TH/TF 00-02
- Turnover rate:

Age		Turnover rate	
o	16-44 years	o	15.38%
o	45-49 years	o	5.77%
o	50-59 years	o	2%
o	60 years and above	o	0%

Commitment received	Amount of expected risks and benefits of the transaction (amounts in thousands of euros)
Credit agreement	90,000

On March 19, 2026, Tata Consultancy Services France S.A. entered into a credit agreement with Tata Consultancy Services Netherlands B.V. granting it a financing facility of up to 90 million euros. This credit facility may be drawn down by TCS France S.A. in installments, according to its financing needs. Any amounts drawn down under this facility bear interest at a rate indexed to the European Central Bank interest rates. As of March 31, 2026, TCS France S.A. had not drawn down any funds under this agreement.

Notes forming part of the Financial Statements

Auditors' fees

The auditor' fee are split as follows:

	2025-2026	2024-2025
Auditors	108 K€	103 K€

Auditor' fee as it appears in the income statement for the FY is 103,287 Euros that is made up of the following:

- Fee charged for auditing the accounts: 108,089 Euros
- fee charged for advice and services that are part of the advisory obligations arising from the legal auditing of the accounts, as defined by the professional rules and standards mentioned in II of article L.822-11: 0 Euro

VIII. Identity of the holding company

TCS FRANCE SA is a 100% subsidiary of TATA CONSULTANCY SERVICES Netherlands BV. All financial information about the company is included in the consolidated financial statements of the ultimate holding company, Tata Consultancy Services Limited.

INDEPENDENT AUDITORS' REPORT

REPORT OF THE STATUTORY AUDITOR TO THE GENERAL MEETING OF TATA CONSULTANCY SERVICES SWITZERLAND LTD, ZURICH

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Tata Consultancy Services Switzerland Ltd (the Company), which comprise the balance sheet as at 31 March 2026, and the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements comply with Swiss law and the Company's articles of incorporation.

Basis for Opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Board of Directors' Responsibilities for the Financial Statements

The Board of Directors is responsible for the preparation of the financial statements in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Swiss law and SA-CH, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of financial statements according to the instructions of the Board of Directors.

Based on our audit in accordance with Art. 728a para. 1 item 2 CO, we confirm that the proposal of the Board of Directors complies with Swiss law and the Company's articles of incorporation. We recommend that the financial statements submitted to you be approved.

Notes to Financial Statements for the year ended March 31, 2026 and 2025

1. General information

Tata Consultancy Services Switzerland Ltd ("the Company") was incorporated on January 15, 1985. The Company was established as a limited company in Switzerland and is domiciled in Oerlikon, ZH. Its main activities consist of providing software products and computer services in Switzerland.

The Company is a wholly-owned subsidiary of Tata Consultancy Services Netherlands B.V. in the Netherlands ("the Group"). The Group is ultimately owned by Tata Consultancy Services Ltd, Mumbai, India.

The share capital is divided into 150,000 registered shares of CHF 10 par value.

The average number of full-time employees during 2026 and 2025 did not exceed 250.

As the Company is a wholly-owned step down subsidiary of Tata Consultancy Services Ltd in Mumbai, India that prepares consolidated financial statements in accordance with IFRS, the Company is exempt from additional disclosure requirements for larger companies in accordance with Art. 961d para 1 CO and also exempt to prepare consolidated accounts in accordance with Art 963a para. 1 CO.

2. Key accounting and valuation principles

Principles of financial reporting

The annual accounts for the Company have been prepared in accordance with the regulations of Swiss financial reporting law. The main accounting and valuation principles used, which are not already specified by the Code of Obligations, are described as follows.

Estimates and assumptions made by management

Financial reporting under the Code of Obligations requires certain estimates and assumptions to be made by management. These are made continuously and are based on past experience and other factors (e.g. anticipations of future results, which seem appropriate under the circumstances). The results subsequently achieved may deviate from these estimates.

Actual items in the annual accounts, which are based on the estimates and assumptions made by management, are as follows:

- trade receivables
- unbilled revenue
- accrued expenses

Foreign currency items

The functional currency is Swiss Francs (CHF). Transactions in foreign currencies are converted into the functional currency (CHF) at the exchange rate on the day the transaction takes place.

- Monetary assets and liabilities in foreign currencies are converted into the functional currency (CHF) at the exchange rate on the balance sheet date. Any profits or losses resulting from the exchange are recorded in the profit and loss account.
- Non-monetary assets and liabilities at historical costs are converted at the foreign exchange rate at the time of the transaction. Any foreign exchange profits are deferred in the balance sheet as not having an effect on net income. Foreign exchange losses, on the other hand, are recorded in the profit and loss account.

Derivatives

Derivative financial instruments are used to hedge foreign currency positions and interest rate risks. The financial derivatives that are open at the balance sheet date are measured at fair value at the balance sheet date and reported in the income statement under Non-operating (expenses) / Income. The positive and negative derivative financial instruments are recognised in Other receivables and Other payables respectively.

Related parties

Related parties include subsidiary companies, members of the board of directors and the shareholders of the Company. Transactions with related parties must take place under proper market conditions (dealing at an arm's length).

Trade receivables

Trade receivables are recorded at their original net invoice amount, less a value adjustment for specific receivables carrying risk (contingency reserves). Value adjustments are carried out for receivables, which are more than 12 months overdue (in arrears) for the full amount, 50% of the amount for receivables which are overdue for 9 to 12 month or for which specific risks have been identified. Doubtful receivables are written off.

Tangible fixed assets

The straight-line depreciation method is used for tangible fixed assets according to their expected useful life. Useful lives are established as follows and are revised each year:

- Leasehold improvements according to rent contract
- Furniture and fixtures 5 years
- Computer 4 years
- Office equipment 4 to 5 years

If there is any evidence of an over-valuation, the accounting values are checked and adjusted where necessary.

Revenue recognition

Revenue from contracts priced on a time and material basis are recognised when services are rendered and related costs are incurred.

Revenue from turnkey contracts, which are generally time bound fixed price contracts, are recognised over the life of the contract using the percentage of completion method, with contract costs determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

Revenue from sale of software licenses are recognised upon delivery.

Revenue from maintenance contracts are recognised on pro-rata basis over the period of the contract.

In respect of Business Process Services, revenue on time and material and unit priced contracts is recognised as the related services are rendered, whereas revenue from fixed price contracts is recognised using the percentage of completion method with contract cost determining the degree of completion.

When recognized revenue is not billed then it is accounted as unbilled revenue in balance sheet.

Revenue is reported net of discounts.

3. Information relating to items on the balance sheet and statement of income

3.1 Trade receivables – due from third parties

(In CHF)

	As at March 31, 2026	As at March 31, 2025

MANAGEMENT REPORT

EVOLUTION OF BUSINESS DURING THE YEAR

The revenue from operations during the financial year 2025-2026 was 69,799,059 euros, which is an increase of 3.3% against the previous year, due to stabilized demand of services from clients. The main activity contributing to this turnover continued to be information technology (IT) and IT-enabled services.

Related to employee benefit expenses of 44,435,650 euros represent 63.7% of sales, as it is the main direct cost of the activities. The employee costs have decreased by 1.3% compared mainly because of the adjustment of staff to activity.

Operative income for the year 2025-2026 has been profits of 4,434,742 euro, very similar to the prior year.

Financial income showed a loss of 502,719 euros due to the fluctuations of the exchange rate Euro/USD, which has not been favorable to the Company in this financial year.

The Company's investments in fixed assets during the year have been mainly in computers and hardware for improvement of the facilities.

The main clients of the Company are multinational companies and companies in the field of transportation, life sciences & healthcare and financial services.

The main business risks that the Company faces arise from the general economic situation and specifically the services business in information technology, where the principal players are the multinational companies.

The Company is using its Secure Borderless Work Space TM (SBWSTM) model, which allows its employees to work from home, with support from minimal associates working from office, to ensure business support to all its customers. The Company is then able to seamlessly adapt and extend this model to prospects for new business, sell, contract and execute programs with strong cybersecurity framework, project management practices and systems needed to ensure that work allocation, monitoring and reporting.

PAYMENT TERMS TO SUPPLIERS

The average term for payments to suppliers has been 23 days, which is lower than the previous year, having improved the management of payments to avoid overdue over and above the contracted payment terms. The Company will keep strengthening their processes going forward having in account that payables to the group companies constitute a major component of the total payables.

POSITION OF THE COMPANY

The equity of the Company was 20,699,051 euros. Share capital is represented by 60,200 shares with a face value of Euro 1, fully subscribed and paid. At the end of the year all the share capital belongs to the Group's company TCS Netherlands, B.V. and indirectly, all the share capital is owned by the company TATA CONSULTANCY SERVICES LIMITED.

BUSINESS FORECAST

The evolution of exchange rates in recent times, jointly with the difficulties in hiring personnel, is generating pressure on wages that may affect margins in the future, although their effect is not expected to be significant in the long term.

OBJECTIVES AND MANAGEMENT OF FINANCIAL RISKS

Management of risk is controlled by the company according to the policies approved by the Directors:

- **Market risk**

  There are no financial investments made by the Company. Hence there are no market risks in respect of financial investments.

- **Credit risk**

  The Company has a concentrated credit risk in few clients outside the group, being mainly multinational companies. The Company has policies to assess that the revenue is generated from the clients having a clean track record of payments. The Company has policies to limit the amount of credit risk with any customer.

  Impairment for credit risk from clients' insolvencies implies an elevated level of judgment by the Management and review of individual balances based on the credit quality of the clients, current trends and historical analysis of the insolvencies at an aggregated level with no forecasts of material impairments for credit risk.

- **Liquidity risk**

  The Company has a prudent management of the liquidity risk, based in holding adequate cash in order to meet its payment commitments.

  No financial instruments are carried at fair value. Financial instruments carried at amortised cost as of 31 March 2026 are 24,335,049 euros and were 21,215,979 euros as of 31 March 2025.

  Financial assets of 5,436,798 euros, carried at amortised cost are in the form of cash and cash equivalents, bank deposits and earmarked balances with banks where the Company has assessed the counterparty credit risk. Trade receivables of 18,898,251 euros form a significant part of the financial assets carried at amortised cost, which is valued considering provision for allowance for doubtful debts. The Company closely monitors its customers who are going through financial stress and assesses suitable actions on case-to-case basis. Similar assessment is done in respect of unbilled receivables while arriving at the level of provision that is required.

- **Foreign currency exchange risk**

  The Company has considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. The Company continues to believe that there is no impact on effectiveness of its hedges.

- **Interest rate risk**

  Financial assets subject to interest are Cash in banks and bank deposits, in the amount of 5,436,798 euros, as liabilities do not accrue interest, then the interest rate risk is not significant. A change in interest rate of 1% represents approximately 55,000 euro before taxes.

- **Price risk**

  There are no financial investments made by the company. Hence there are no price risks in respect of financial investments.

ENVIRONMENT

There are no significant assets dedicated to protection and improvement of the environment, nor have any major expenses of this nature incurred during the year. Equally, it is estimated that no material contingency related to protection and improvement of environment exists.

OWN SHARES

The Company does not own any shares of the company, nor has any transaction on its own shares been carried out during the year.

ACTIVITIES OF RESEARCH AND DEVELOPMENT

The Company did not incur any research and development expenses in the current year.

STATEMENT OF NON-FINANCIAL INFORMATON

The Company has used the exemption for preparing of the Statement of Non-Financial Information established in article 262.5 of the Law of Capital Companies, considering that the group's ultimate parent company, TATA CONSULTANCY SERVICES LIMITED, includes in its consolidated report the Company and its subsidiary, which has been prepared in accordance with GRI standards. This consolidated report will be deposited in the relevant Indian Register and is available on the group's website.

The present management report, included from pages 1 to 4 above, has been issued by the Board of Directors in Madrid, on May 8th 2026.

Independent Auditor's Report

To the Sole Shareholder of
Tata Consultancy Services De España, S.A.U.

Opinion

We have audited the financial statements of TATA CONSULTANCY SERVICES DE ESPANA, S.A.U., (the Company), which comprise the balance sheet as of 31 March 2026, the statement of income, the statement of changes in equity, the statement of cash-flows and the notes to the financial statements for the year then ended.

In our opinion, the accompanying financial statements express, in all material matters, a true and fair view of the equity and financial position of the Company as of 31 March 2026, and of its financial performance and its cash-flows for the year then ended in accordance with the applicable accounting framework, which is identified in note 2 and, specifically, with the principles and accounting criteria included in it.

Basis for Opinion

We conducted our audit in accordance with the regulation of the audit activity currently in force in Spain. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We are independent of the Company in accordance with the ethical requirements, included those of independence, which are applicable to our audit of the financial statements in Spain as obliged by the regulation of the audit activity in Spain. In this way, we have not rendered services different to the audit of the financial statements neither other situations nor circumstances have happened that, according to those established in the mentioned regulation, have affected to the necessary independence in a way that it has been compromised.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Most relevant audit matters

The most relevant audit matters are those matters that, in our professional judgment, were considered as most significant risks of material misstatement in our audit of the financial statements for the current period. These risks have been addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and do not provide a separate opinion on those risks.

We have determined that the issues described below are the most relevant audit matters which we have to disclose in our report.

Progress of revenue in services rendered

As explained in the attached notes to the financial statements 4 h) and 9, the Company estimates the value of the works performed at the end of the fiscal year but unbilled on that date and records the corresponding amount of assets as trade debtors for services rendered.

On our side, the procedures applied in our audit have consisted of an analysis of the criteria employed in the calculations of the amount of "Unbilled revenue", checking through selective samples of the data used in those calculations, checking their arithmetic integrity and comparison with the accounting balance.

Other information: Management report

Other information comprises exclusively the management report for the financial year ended on 31 March 2026, whose preparation is a responsibility of the Directors of the Company and is not a part of the financial statements.

Our audit opinion on the financial statements does not cover the management report. Our responsibility on the management report, in accordance with the compulsory legal regulation of the audit activity, consists in:

a) Check only that the statement of non-financial information, has been provided in the form established by the applicable regulation and, otherwise, to report on it.

b) Assessing and disclosing the concordance of the rest of information included in the management report with the financial statements, from the knowledge about the Company obtained when performing the audit of the mentioned financial statements and also to assess and disclose whether the content and disclosures of this part of the management report are in conformity with the applicable regulation. If, based on the work that we have performed, we conclude that there are material misstatemnets, we are obliged to inform them.

Based on our work performed, as described above, we have checked that the information mentioned in the paragraph a) above is disclosed ad established in the applicable regulation and the resto of the information that is contained in the management report is in accordance with the information of the financial statements for the year ended on 31 March 2026 and its content and disclosures are in conformity with the applicable regulation.

Responsibilities of the Directors of the Company for the Financial Statements

The Directors are responsible for the preparation and fair presentation of the attached financial statements in order to present the true and fair view of the equity and financial position and the financial performance of the Company in conformity with the legal framework of financial information applicable to the Company in Spain, which is identified in note 2, and for such internal control as the Directors determine necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

When preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the legal regulation of the audit activity in Spain, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We Communicate with the Directors of the company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the risks communicated to the Directors, we determine those risks that were of most significance in the audit of the financial statements of the current period and are therefore considered the most significant risks.

We describe these risks in our auditor's report unless law or regulation precludes public disclosure about the risks.

Notes forming part of the Financial Statements

1. GENERAL INFORMATION ABOUT THE COMPANY AND NATURE OF ITS ACTIVITY

a) Incorporation and company's name

On 30 May 2003, TATA CONSULTANCY SERVICES DE ESPAÑA, S.A.U. was incorporated, whose social address is situated at Santa Leonor 65, F building, 28037 in Madrid.

b) Social purpose

According to the bylaws the social purpose is, advisory and consultancy services, implementation and maintenance services related to information systems and information technologies.

The Company's activity is focused on rendering Information Technology and IT enabled Services.

c) Group companies

The company is integrated in the TCS group as disclosed in note 13, the group's company TATA CONSULTANCY SERVICES NETHERLANDS, B.V., whose social address situated at Symphony Towers 20th floor, Gustav Malherplein 85-91, Amsterdam (The Netherlands) is the direct parent company and the sole shareholder. The last parent company is the company TATA CONSULTANCY SERVICES LIMITED, with social address at 9th Floor, Nirmal Building, Nariman Point, Mumbai 400 021 (India).

d) Consolidated financial statements

The directors of the last parent company issue the consolidated financial statements as of 31 March 2026, which will be presented before the authority of India.

The company and its subsidiary TATA CONSULTANCY SERVICES PORTUGAL, UNIPESSOAL LIMITADA form a group of companies as established in the article 42 of the Spanish Commercial Code. The Directors issue consolidated financial statements for the Group that will be presented before the House of Companies in Madrid.

2. BASIS OF PRESENTATION

a) True and fair view

The financial statements have been prepared from the accounting records of the Company according to the current commercial law and the rules established in the General Accounting Plan, in order to present the true and fair view of the equity and financial position as of 31 March 2026 and the results of its operations, changes in net equity and cash flows for the year then ended.

The financial statements as of 31 March 2026 have not been submitted to the approval of the sole shareholder; nevertheless, the Directors hope that they will be approved without changes.

b) Functional and presentation currency

The financial statements are presented in euros, rounded to the nearest unit, which is the functional and presentation currency for the Company.

c) Comparative figures

The financial statements present, for comparative purposes, with each entry of the balance sheet, the statement of profit and loss, the statement of changes in equity, the cash flow statement and the notes, in addition to the figures for the year ended on 31 March 2026 (that are pending to be approved by the Sole Shareholder), those for the prior year which were included in the financial statements for the year ended on 31 March 2026 which have been approved by the sole shareholder.

d) Significant valuation issues and use of estimates and relevant judgements in applying the accounting policies

Preparing the financial statements require applying relevant accounting estimates and making judgments, forecasts and hypotheses in the process of applying the accounting policies of the Company. In this process, the aspects that imply a major level of judgment, complexity or where hypotheses and forecasts are significant for preparing the financial statements are mainly:

- The recognition of turnover and expense by reference to the stage of completion. This method is based on the estimations of the stage of completion of the projects. Based on the method to establish the completion of the projects, the forecasts include the cost incurred in executing the projects.
- The recoverability of deferred tax assets that depend on the future evolution of income and the obtaining of positive tax bases to offset tax losses from previous years.

e) Addition of entries

Some entries of the balance sheet, the statement of profit and loss, the statement of changes in equity, the cash flow statement and the notes are disclosed or added in order to enable easy comprehension, although when material, the information has been disaggregated in the notes.

f) Materiality

In determining the information to be disclosed in these notes regarding the various items in the financial statements or other matters, the Company, in accordance with the Conceptual Framework of the General Accounting Plan, has taken into account materiality in relation to the annual accounts for the 2026 financial year.

3. DISTRIBUTION OF INCOME

The Directors will propose to the sole shareholder the next distribution of income:

(EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Basis of distribution		
Income for the year	3,084,381	3,096,928
	3,084,381	**3,096,928**
Distribution		
Capitalization reserve	594,555	558,591
Prior's years earnings	2,489,826	2,538,337
	3,084,381	**3,096,928**

4. VALUATION AND RECORDING STANDARDS

a) Intangible assets

Assets included as intangible are software that is initially valued at cost. Costs of maintenance are expensed when incurred. As of 31 March 2026, and 2025, all of them are fully amortised.

b) Tangible assets

Assets included as tangible assets are recorded at cost of acquisition. Tangible assets are presented in the balance sheet at cost less accumulated amortisation.

Depreciation is calculated on a straight-basis method, during their estimated useful lives, in such a way that at the end of it, the net value is zero. Percentages of amortisation annually applied are:

Furniture and fixtures	20.0%
Computers	25.0%

The company reviews the residual value, useful life and method of amortisation of property, plant and equipment at the end of each year. Modifications in established criteria are recognised as change of estimations.

After the initial recognition of the asset, only those costs that increases the capacity, productivity or enhances the useful life are capitalised, writing-off those elements substituted. The daily maintenance costs are expensed when incurred.

The company evaluates periodically the possible existence of impairment in the value of tangible assets.

c) Operating leases

The company has the right of use for some assets under lease contracts. Given that those contracts do not transfer to the Company substantially all the risk and benefits inherent to the property of the goods, those leases are classified as operating leases.

Amounts paid for operating leases are recognised as expense on a straight-line basis during the term of the lease.

d) Financial instruments

i. **Classifications and separation of financial instruments**

Financial instruments are classified initially as a financial asset or a financial liability, as appropriate, according to the arrangement and definition of financial asset or financial liability.

In order to be valued, financial instruments are classified as financial assets or liabilities at fair value through profit or loss, financial assets at amortised cost and financial assets at cost. The classification in those categories is made initially according to the instrument and the Management intention.

Financial instruments are recognised when the company is obliged by a contract or arrangement.

Transactions of purchase or sale of financial assets documented in contracts in which reciprocal obligations must be carried out in an established time and cannot be settled by difference are recognised at the date of contract or settlement.

ii. **Non-compensation principle**

A financial asset and a financial liability are compensated only when the company has the right to compensate the recognised amounts and has the intention to settle the net amount or cancel the asset and the liability simultaneously.

iii. **Financial assets at amortised cost**

Financial assets at amortised cost are trade and non-trade credits with fixed collections or fixable that are not traded in an active market and different from other financial assets. These assets are initially recognised at fair value, including transactions costs and are valued after initial measurement at amortised cost using the effective interest rate method. Nevertheless, financial assets that does not have an interest rate or from which the maturity is less than a year and the effects are not material, are valued at face value.

iv. **Rental Deposits**

Rental Deposits given are initially valued as financial instruments. After the initial valuation, given that the effect is not material, these are valued at face value.

v. **Interests**

Interests are recognised using the effective interest rate method, which is the rate that equals the book value of the financial instrument with the cash flows estimated in the life of the instrument, from their contract conditions and with no loss for future credit risk.

vi. **Derecognition of financial assets**

The company derecognises a financial asset or a part of it, when it gets expired or when the rights on the cash flows of the financial asset are transferred, being necessary that risks, and rewards of ownership are substantially transferred.

When the financial asset is derecognised, the difference between the amount received net of transactions costs and the book value of the financial asset is the resultant profit or loss which arises upon de-recognition of the financial asset is included in the income for the year.

The company applies the average price in order to evaluate and derecognise the cost of equity instruments or debt that are included in a portfolio and have the same rights.

vii. **Impairment of financial assets**

A financial asset or a group of financial assets is impaired and a loss for impairment arises, if there is objective evidence of the impairment as a consequence of the events that have occurred after the initial recognition of the asset and which affects the estimated future cash flows from the asset or group of financial assets, that can be reliably estimated.

For financial assets at amortised cost, it is considered that there exists impairment when an event that causes reduction or delay in the future estimated cash flows, motivated by an insolvency of the debtor.

The amount of the impairment is the difference between the account value of the financial asset and the current value of the cash flows estimated, excluding future losses for credit risk, using the effective interest rate. For those financial assets with variable interest rate, the interest rate on the date of valuation is used according to the arrangement.

Losses for impairment are recognised in the income statement and it is reversible in future years if the decrease can be objectively related to a future event. Nevertheless, the reversal of the loss has a limit in the amortised cost of the asset with no loss for impairment.

viii. **Financial liabilities at amortised cost**

Financial liabilities at amortised cost, including trade creditors and other payable, are initially recognised at fair value, less, in case costs of transaction which are directly attributable to issuing them. After initial recognition, financial liabilities at amortised cost are valued using the effective interest rate method. Nevertheless, financial liabilities that do not have an established interest rate and the maturity is less than a year and the effect is not material are valued at face value.

ix. **Derecognition of financial liabilities**

The Company derecognizes a financial liability or a part of it when it has accomplished the obligation included in the liability or it is legally freed from the responsibility included in the liability, from a trial or agreement with the creditor.

e) Cash and equivalents

Cash and equivalents include cash in hand and disposable bank deposits in credit entities. Other investments of great liquidity are also included if they are easily converted in fixed amounts of cash and the risk of change value is not material. For these reasons, investments with a maturity of less than three months from acquisition are included.

f) Accruals

Turnover and expense invoiced that have not been carried out at the end of the year is recorded as a current liability or asset as short-term accruals.

g) Turnover and expenses

Turnover and expenses are accrued independent of the time / moment of cash flows from them. Nevertheless, the company only recognises profits realisable at the end of the year, but risks and losses are recognised when known.

h) Revenue from services rendered

- The Company's contracts with customers could include commitments to transfer multiple products and services to a customer. The Company assesses the commitment related to the product/services in a contract and identifies distinct performance obligation in the contract. which involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.
- Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price can be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price unless it is a payment for a distinct product or service form the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the

extent that is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and it is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

- The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period. The Company considers indicator such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.
- Revenues for fixed-price contracts is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of the completion of the performance obligation.

i) Employee benefit expenses

The company recognises the cost of the cash bonuses to employees when there is an obligation, legal or constructive, because of past events and can be reliably estimated.

Employee termination benefits are recognised when there is a formal plan and there is a valid expectation in the affected staff that the termination is going to be carried out, as the plan has been started, or the main characteristics have been informed.

j) Corporate tax

Expense or turnover for corporate tax includes current and deferred income tax.

Current income tax is the amount to be paid or collected for the corporate tax from the taxable base for the year. Assets or liabilities for the current income tax are valued for the amounts that are expected to be paid or recovered from the tax authority, using the current law and tax rates or those approved and pending to be published at the end of the year.

Income tax, current or deferred is recognised in the statement of profit and loss unless it arises from a transaction or event that is recognised in the same year or in other years and is recognised directly in net equity or a business combination.

Deductible temporary differences are recognised if it is likely with high probability that there will exist positive taxable bases in the future, enough for their compensation.

Deferred tax assets are valued according to the tax rates that will be applied in the years when it is expected to compensate those assets with the law and rates currently applicable.

k) Classification of current and non-current assets and liabilities

Assets are classified in the balance sheet as current when it is expected to be recovered or is intended to be sold or consumed in the normal operating cycle, are kept mainly to trade, is expected to be sold in twelve month after the end of the year or is cash or cash equivalents, except in those cases when they cannot be exchanged or used to settle a liability, at least in the next twelve months after the end of the year, when they are classified as non-current.

Liabilities are classified in the balance sheet as current when it is expected to be settled in the normal operating cycle, are kept mainly to trade, and must be settled in the next twelve months or the company does not have the right to delay the cancellation of the liability during the next twelve months after the end of the year, presented as non-current in any other case.

Financial liabilities are classified in the balance sheet as current when it must be settled in the next twelve months after the end of the year although the initial maturity is for a period higher to twelve months and there exists an agreement for refinancing or restructuring payments in a term completed after the end of the year and before the annual accounts are issued. In any other circumstance, they are classified as non-current liabilities.

l) Transaction with related parties

Transactions carried out with related parties are recognised at fair value of the consideration to be given or received. The main transactions carried out during the year with related parties have been recorded with the criteria given below:

- Services rendered have been valuated at cost of the work carried out plus a market margin.
- Cash balances for credits generate interests according to preferential market rates.

m) Foreign currency transactions

Those transactions in foreign currency are converted to the functional currency by applying the current exchange rates between the functional and the foreign currency at the date when the transactions are carried out. Nevertheless, the Company uses monthly exchange rates for those transactions carried out in that term.

Monetary assets and liabilities denominated in foreign currency have been converted to euros by applying the exchange rate at the end of the year and non-monetary assets valued at historic cost are converted applying the exchange rate when the transaction was carried out. Finally, conversion to euros of the non-monetary assets that are valued at fair value has been carried out by applying the exchange rate at the date when the valuation of the asset was made.

5. TANGIBLE ASSETS

a) Composition and movement as of 31 March 2026 in accounts included as tangible assets have been as follows:

(EUR)

	Balance as at March 31, 2025	Additions (Expense)	Disposals	Transfers	Balance as at March 31, 2026

Computers	423,411	---	---	---	657,783
Office equipment	36,764	---	---	---	52,668
Furniture and fixtures	149,186	---	---	---	256,631
Tangible assets in progress	103,899	---	---	---	452,325
	713,260	**---**	**---**	**---**	**1,419,407**

c) There are no significant tangible assets fully amortised.

d) The Company has contracted insurance policies in order to cover the risk for the goods in tangible assets. The coverage of those policies is considered enough.

6. OPERATING LEASES

a) The Company has taken on lease from third parties office buildings and vehicles. The total leases expenses incurred during the year as of 31 March 2026 have amounted to 716,165 euros and in the prior year as of 31 March 2025 were 380,790 euros.

b) The main lease contract included in the a) above is for lease for the facilities that the Company occupies in Santa Leonor, 65, F Building in Madrid, where is also the social address, which has incurred rents and expenses for an amount of 711,560 euros in this year and 326,734 euros in the prior year. This contract has been extended up a maximum term until June 2032. The company has made rental deposits for 511,942 euros.

c) Amount of lease commitments at the end of the year is as follows:

(EUR)

	As at March 31, 2026	As at March 31, 2025
Amounts to pay		
Less than 1 year	779,041	751,876
Between 1 and 5 years	2,983,287	2,884,216
More than 5 years	927,533	1,608,439
	4,689,861	**5,244,531**

d) The Company does not foresee any large-scale contraction in demand which could result in significant down-sizing of its employee base rendering the physical infrastructure redundant. The leases that the Company has entered with lessors towards properties used as delivery centres / sales offices are long term in nature and no changes in terms of those leases are expected.

7. FINANCIAL INSTRUMENTS

a) The classification of financial assets by categories and classes, without cash and equivalents nor equity instruments in group's companies is as follows:

(EUR)

	Non current assets		Current assets		Total	
	March 31, 2026	March 31, 2025	March 31, 2026	March 31, 2025	March 31, 2026	March 31, 2025
Financials assets at amortised cost						
Trade receivables and other debtors	---	---	18,898,251	15,917,859	18,898,251	15,917,859
Other financial assets	511,942	418,481	4,312,841	93,461	4,824,783	511,942
	511,942	**418,481**	**23,211,092**	**16,011,320**	**23,723,034**	**16,429,801**

Non-current financial assets are bails for lease contracts and current assets are mutual funds valued at fair value.

b) The classification of financial liabilities by categories and classes is as follows:

(EUR)

	Balance As at March 31, 2026	Balance As at March 31, 2025
Short term financial liabilities		
Financial liabilites at amortised cost		
Trade payables and other creditors	3,032,109	4,694,732
	3,032,109	**4,694,732**

c) Nature and level of risk from financial instruments

Management of risk is controlled by the company according to the policies approved by the Directors:

i. **Market risk**

There are no financial investments made by the company. Hence there are no market risks in respect of financial investments.

ii. **Credit risk**

The Company has a concentrated credit risk in few clients outside the group, being mainly multinational companies. The Company has policies to assess that the revenue is generated from the clients having a clean track record of payments. The Company has policies to limit the amount of credit risk with any customer.

Impairment for credit risk from clients' insolvencies implies an elevated level of judgment by the Management and review of individual balances based on the credit quality of the clients, current trends and historical analysis of the insolvencies at an aggregated level. No impairments for credit risk are forecasted.

iii. **Liquidity risk**

The company has a prudent management of the liquidity risk, based in holding adequate cash in order to meet its payment commitments.

No financial instruments are carried at fair value. Financial instruments carried at amortised cost as of 31 March 2026 are 24,335,049 euros and were 21,215,979 euros as of 31 March 2025.

Financial assets of 5,436,798 euros, carried at amortised cost are in the form of cash and cash equivalents,

bank deposits and earmarked balances with banks where the Company has assessed the counterparty credit risk. Trade receivables of 18,898,251 euros form a significant part of the financial assets carried at amortised cost, which is valued considering provision for allowance for doubtful debts. The Company closely monitors its customers who are going through financial stress and assesses suitable actions on case-to-case basis. Similar assessment is done in respect of unbilled receivables while arriving at the level of provision that is required.

iv. **Foreign currency exchange risk**

The Company has considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. The Company believes that there is no impact on effectiveness of its hedges.

v. **Interest rate risk**

Financial assets subject to interest are Cash in banks and bank deposits, in the amount of 5,436,798 euros, as liabilities do not accrue interest, then the interest rate risk is not significant. A change in interest rate of 1% represents approximately 55,000 euro before taxes.

vi. **Price risk**

There are no financial investments in traded securities. Hence there are no price risks in respect of financial investments.

8. EQUITY INSTRUMENTS FROM GROUP'S COMPANIES

a) The balance of equity instruments in group companies are shares of TATA CONSULTANCY SERVICES PORTUGAL UNIPESSOAL LIMITADA, owning the 100% of its share capital.

b) The social address of that company is Estrada de Alfragide, 67 Edificio D3. 2610-008 Amadora (Portugal) and its activities are in consultancy of information technologies.

Notes forming part of the Financial Statements

11. PREPAID EXPENSES

a) Detail of the balance and movement is as follows:

(EUR)

	As at March 31, 2026	As at March 31, 2025
Prepaid expenses		
Services TCS Limited	244,846	450,299
Other prepaid expenses	30,825	36,921
	275,671	**487,220**

12. CASH AND BANK BALANCES

Detail of the balance by categories is as follows:

(EUR)

	As at March 31, 2026	As at March 31, 2025
Cash in credit entities		
Current accounts, Euro	1,120,730	5,201,098
Current accounts, USD	3,227	3,561
	1,123,957	**5,204,659**

13. SHAREHOLDERS' FUNDS

a) Share capital is represented by 60,200 shares with a face value of 1 euro each, fully subscribed and paid being the sole shareholder being the group's company TATA CONSULTANCY SERVICES NETHERLANDS, B.V.

b) Indirectly, all the share capital belongs to the company TATA CONSULTANCY SERVICES LIMITED in both years.

c) Detail of reserves is as follows:

(EUR)

	As at March 31, 2026	As at March 31, 2025
Reserves		
Legal Reserve	12,040	12,040
Other reserves	1,035,886	477,295
	1,047,926	**489,335**

The legal reserve has been created according to the Law of Capitalists Companies, establishing that in any case, an amount equal to 10 per cent of the profit in the year will be dedicated to it until it is, at least, 20 per cent of the share capital. This reserve is not distributable to the shareholders, and it can only be used to compensate losses in case other reserves are not available for the same.

The capitalization reserve has been calculated in accordance with the provisions of the Corporate Income Tax regulations for the increase in equity equivalent to the reduction of the tax base for the year. This reservation is unavailable within three years.

d) The balance of income from previous years are profits pending to be distributed according to the sole shareholder's decisions.

Notes forming part of the Financial Statements

14. PUBLIC ENTITIES AND TAX POSITION

a) Detail of balances is as follows:

(EUR)

	Non Current		Current	
	31/03/2026	31/03/2025	31/03/2026	31/03/2025
Assets				
Deferred tax assets	1,138,277	1,194,566	---	---
Current tax assets	---	---	7,823	129,357
	1,138,277	**1,194,566**	**7,823**	**129,357**
Liabilities				
Withholdings on personal tax	---	---	190,071	387,665
Added Value Tax	---	---	815,555	893,564
Social Security Entities	---	---	1,205,600	47,301
	---	**---**	**2,211,226**	**1,328,530**
Current tax liability	---	---	509,813	---
	---	**---**	**2,721,039**	**1,328,530**

b) In prior years, the company has generated negative taxable bases that can be compensated with positive taxable bases in future years. The tax rate used in calculating the applicable for future Company's operations is 25%. The tax credit from the negative tax bases amounts 1,383,012 euros and it was 1,600,223 euros at the end of the prior year. Based on forecasts for future income, the directors consider that there is a high probability for the company to be able for compensating then with positive tax bases in future years.

c) Detail of negative bases pending to be compensated in the corporate tax is as follows:

(EUR)

End of the original year	
31/03/2014	1,421,132
31/03/2015	2,493,129
31/03/2016	585,585
31/03/2024	1,032,202
	5,532,048

d) Detail and movements for deferred tax assets are as follows:

(EUR)

	As at March 31, 2025	Addition	Reduction	As at March 31, 2026
Deferred tax assets				
Tax credit from negative bases	1,029,951	108,326	---	1,138,277
Temporary differences	164,615	---	(164,615)	---
	1,194,566	**108,326**	**(164,615)**	**1,138,277**

e) Movements for the prior year are as follows:

(EUR)

	As at March 31, 2024	Addition	Reduction	As at March 31, 2025
Deferred tax assets				
Tax credit from negative bases	1,890,837	---	(860,886)	1,029,951
Temporary differences	59,169	105,446	---	164,615
	1,950,006	**105,446**	**(860,886)**	**1,194,566**

f) The reconciliation between the net amount of revenues and expenses for the year and the taxable base is as follows:

(EUR)

	For the year ended March 31, 2026	For the year ended March 31, 2025
Balance of revenues and expenses for the year	3,084,381	3,096,928
Corporate tax	847,642	981,940
Permanent differences	---	---
Capitalisation reserve	(586,405)	(134,835)
Temporary differences		
Depreciation non-deductible and others	---	(16,273)
Compensation of negative bases	(1,000,000)	(2,031,297)
Taxable base	**2,345,618**	**1,896,463**
Tax amount	586,405	474,116
Deductions	---	(2,395)
Witholdings and payments in advance	(84,742)	(662,595)
Net payable (receivable)	**501,663**	**(190,874)**

g) The reconciliation between the income before tax and the tax expense for income tax is as follows:

(EUR)

	For the year ended March 31, 2026	For the year ended March 31, 2025
Income before taxes for the year	**3,932,023**	**4,078,868**
Income for corporate tax recognised in the statement of profit and loss		
Amount at tax general rate	(983,006)	(1,019,717)
Other differences	135,364	37,777
	(847,642)	**(981,1940)**

h) The Company has open to be reviewed tax assessment for the years given below:

Tax issue	
Corporate tax	2014 to 2025
Value Added Tax	2021 to 2025
Witholdings on personal tax	2021 to 2025
Local tax	2021 to 2025

Consequently, among others, of different possible interpretations of the current tax law, additional tax liabilities could

arise as a result of a tax audit. Nevertheless, the directors of the company consider that in that case those liabilities would not affect materially to the financial statements.

15. SERVICES RENDERED

a) Detail of the amount by geographical areas is as follows:

(EUR)

	For the year ended March 31, 2026	For the year ended March 31, 2025
Area		
Europe	67,371,287	65,242,187
United Kingdom	1,189,676	1,086,694
Americas	1,237,180	1,254,805
Asia Pacific	916	---
	69,799,059	**67,583,686**

16. WORKS PERFORMED BY OTHER COMPANIES

a) The entire amount comes from works in consultancy subcontracted to other companies. Approximately, 84% of the balance in the year ended as of 31 March 2026 and 98% in the prior year is from acquisition of services from group's companies.

b) Detail of expense by geographical markets is as follows:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Area		
Spain	2,776,085	219,054
Rest of Europe	314,154	337,710
America	600,779	763,603
Asia Pacific	13,013,749	13,392,960
	16,704,767	**14,713,327**

17. PERSONNEL

a) The average staff during the years by categories is as follows:

	For the year ended March 31, 2026			For the year ended March 31, 2025		
	Women	Men	Total	Women	Men	Total
Categories						
Managers	1	---	1	1	---	1
Technicians	122	576	698	131	615	746
Administrative	12	12	24	12	12	24
	135	**588**	**723**	**144**	**627**	**771**

b) Staff at the end of the year is as follows:

	For the year ended March 31, 2026			For the year ended March 31, 2025		
	Women	Men	Total	Women	Men	Total
Categories						
Managers	1	---	1	1	---	1
Technicians	123	554	677	122	575	697
Administrative	14	11	25	12	12	24
	138	**565**	**703**	**135**	**587**	**722**

c) Staff includes 6 handicapped persons, with a level higher than 33%, hired as technicians in both financial years.

d) Detail of the balance of social charges in both years is as follows:

(EUR)

	As at March 31, 2026	As at March 31, 2025
Social charges		
Social Securiy charged to the company	9,828,814	10,196,438
Other social charges	628,540	564,354
	10,457,354	**10,760,792**

18. EXTERNAL SERVICES

a) Detail of the balances by concepts is as follows:

(EUR)

	As at March 31, 2026	As at March 31, 2025
External services		
Leases and maintenace of facilities	1,223,240	784,079
External consultants	446,948	441,811
Travel expenses	559,397	443,701
Communications	238,628	411,769
Other expenses	1,153,802	1,210,790
	3,622,015	**3,292,150**

19. BALANCES AND TRANSACTIONS IN FOREIGN CURRENCIES

Detail of balances and transactions performed in foreign currency different from euros is as follows:

	US Dollar		SEK Krona		Other currencies	
	31/03/2026	31/03/2025	31/03/2026	31/03/2025	31/03/2026	31/03/2025
Balance sheet						
Trade receivables and other debtors	208,299	519,317	1,634,507	708,455	1,639,007	270,195

Notes forming part of the Financial Statements

20. Information On Deferred Payments To Suppliers. Third Additional Disposition "Commitment To Inform" Law 15/2010, 5 July

a) The detailed information to be presented related to payments delayed is as follows:

(EUR)

	As at March 31, 2026		As at March 31, 2025	
Average period of payments to suppliers	22	days	23	days
Ratio of paid transactions	22	days	23	days
Ratio of payable transactions	21	days	13	days
Amount of payments carried out	84,477,702	100%	76,483,236	100%
Amount of payments in legal term	71,312,919	84%	62,011,607	81%
Amount of payments pending	2,821,008		2,199,364	
Total number of invoices				
Number of invoices paid in the legal term	5,629	100%	5,175	100%
	3,883	69%	3,408	66%

b) The excess in the average period of payments over the legal limit is explained because the payments are to those suppliers that are Group's Companies and therefore, the payment to them is carried out depending of the availability of cash in the Company. Therefore, average period of payments to third parties is approximately 40 days.

21. OTHER COMMITMENTS AND CONTINGENCIES

The Company does not have bank guarantees neither the directors know other material contingencies different to those from the leases.

22. INFORMATION RELATED TO THE DIRECTORS AND OTHER RELATED PARTIES

a) In both years, the directors, all men, have not received any remuneration for their functions in the company. Additionally, at the end of both years there were no balances pending with directors, neither the company has commitments for pensions or life insurances with old or current directors of the company.

b) Accomplishing the Article 229 of the Spanish Law of Capitalistic Companies, the Directors state that they do not have any situation of conflict of interests with the activities carried out by the Company and also, they do not own significant stakes in other companies with the same, similar or complementary activity to the social purpose neither execute functions in other companies different from those belonging to the TCS group.

c) The top executive has received as salaries during the year ended on 31 March 2026 an amount of 221,021 euros and was 227,085 euros for the year ended on 31 March 2025.

23. ENVIRONMENTAL INFORMATION

At the end of the year, there are no significant assets dedicated to protection and improvement of the environment and no significant expenses of this nature have been incurred during the year. It is also estimated that no material contingency related to protection and improvement of environment exists, and hence it is not considered necessary to record any provisions in respect of risks and expenses for environmental reasons.

24. REMUNERATION TO THE AUDITORS

Fees of professional services accrued for BNFIX have been:

(EUR)

	March 31, 2026	March 31, 2025
Fees		
Audit	9,785	9,500
Tax advising	11,656	9,060
	21,441	**18,560**

Notes forming part of the Financial Statements

25. SUBSEQUENT EVENTS

After the end of the year, no facts or circumstances have arisen that could affect materially to these financial statements.

The present financial statements included from pages 1 to 24 above have been issued by the Board of Directors in Madrid, on May 8th 2026.

MANAGEMENT REPORT

Introduction

In accordance with what is stated in the by-laws and in accordance with the applicable requirements of the Commercial Companies Code, the Management of TATA CONSULTANCY SERVICES PORTUGAL, UNIP.LDA submits the MANAGEMENT REPORT for the year 2025/26 for consideration in the General Meeting of the Company.

Company Performance

The company's activity improved satisfactorily in 2025/26 and despite the challenges, the company presents positive net results, representing 13% of turnover.

The results obtained by the company in the current financial year were within the estimates made, as better described in chapter < Analysis of Economic and Financial position of the Company>.

We project the continuation of the company's growth on a sustainable basis, despite of taking into account the constant uncertainty of the markets' s evolution.

Economic and financial Company position analyses

The comparative situation of the various company indicators is shown in the following table:

(EUR)

	2022/23	2023/23	2024/25	2025/26
Sales	12,035,084	16,124,479	17,681,293	19,435,964
Income before tax	2,789,814	2,788,691	2,557,954	3,319,870
Net income	2,162,749	2,072,661	1,935,068	2,565,133
Current assets	7,811,135	10,711,922	12,111,068	14,758,463
Non-current Assets	115,668	565,840	395,085	123,742
TOTAL ASSETS	7,926,803	11,277,763	12,506,152	14,882,204
TOTAL EQUITY	3,822,333	5,894,944	7,830,062	10,395,195
TOTAL LIABILITIES	4,104,469	5,382,769	4,676,091	4,487,010
TOTAL LIABILITY AND EQUITY	7,926,803	11,277,763	12,506,152	14,882,204
Number of employees	11	43	46	74
Employee Expenses	1,015,268	1,841,128	2,954,630	4,141,560

The 2025/26 fiscal year was influenced by an increase turnover volume, from 17,681,293 € in 2024/25 to 19,435,964 € in the year to which this report concerns, representing an increase of 9.9%.

With the increase in business volume, operating and recurring results recorded an increase of €761,916 compared to the previous year.

In 2025/26, the company proved to be self-sufficient in meeting its treasury requirements and did not resort to banking institutions for financial operations.

The financial position of the company, is presented in the following table:

Indicators

Indicator	2022/23	2023/24	2024/25	2025/26
Financial autonomy	48.22%	52.27%	62.61%	69.79%
Solvency	93.17%	109.52%	167.45%	231.04%

The operations of the company will continue as at the present, the current assets exceed current liabilities, net equity has improved. The company will be provided with all the necessary mechanisms to ensure the continuity of operations, the realization of its assets and the settlement of its liabilities, in the normal course of its operations.

Human resources

Regarding the employees, in 2025/26, the company increased the number of jobs existing in the previous year, through the hiring of local workers.

Market Conditions

As in the previous year, the price levels practiced by the Company in 2025/26 were maintained this year by the consideration to maintain the services quality, which will enable sustained growth for the coming years. The market for our services has been characterized as quite competitive. Despite the increase in competition, which is highly competitive in terms of prices, the quality of TATA CONSULTANCY SERVICES PORTUGAL, UNIP. LDA. services, together with the seriousness with which the company operates, has allowed us to continue to improve the trust and preference of our current customers.

Communication and Image

In the perspective of the increase in sales volume, during the year 2025/26 and, in order to increase the market share, TATA CONSULTANCY SERVICES PORTUGAL, UNIP.LDA has benefited from an international corporate image.

Investments

Direct investment in 2025/26 was 28,928 € in IT equipment.

Relevant subsequent events

The year 2025/26 ended with strong signs of an economic recovery which is expected to continue in 2026/27 and is expected to slow down in subsequent years.

Prices are likely to rise, as in the previous year, which entails some uncertainty for all activities, and a general increase in prices is expected in all sectors of the economy.

However, taking into account the present scenario, we expect it will not have any impact on the continuity of the Company. Hence the assumption of the continuity of operations as a going concern used in the preparation of these financial statements remains appropriate.

Events occurring after the balance sheet date on conditions that existed at the balance sheet date have been considered in the preparation of the financial statements.

Business Forecast

Management believes that the results obtained at all levels by the company reinforce its stability both in economic and financial terms and in terms of the current market share.

The Company's activity in the first months of the next fiscal year is expected to remain identical compared to the activity in 2025/26.

Management believes that the company has adequate facilities to manage with the desirable evolution in turnover.

Proposal for profit appropriation

Management proposes that the net profit for 2025/26, in the amount of 2,565,133.34 €, should be transferred to the Retained Earnings account.

Final note

To the Companies and Entities that honored us with their preference, we thank the trust, shown, which was an important incentive and compensation for the efforts assumed by those who work in this Company.

To all the employees who contributed to the company's performance, with its professionalism and dedication, the Management expresses its gratitude.

The management

STATUTORY AUDIT REPORT

(Translation of a report originally issued in Portuguese. In the event of discrepancies, the Portuguese language version prevails)

Report on the audit of the financial statements

Opinion

We have audited the financial statements of **TATA Consultancy Services (Portugal), Unipessoal, Lda.** (the Entity), which comprise the balance sheet as at 31 March 2026 (which shows total assets of Euro 14,882,204 and total shareholders' equity of Euro 10,395,195 including a net profit of Euro 2,565,133), the statement of income, the statement of changes in equity and the statement of cash flows for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly in all material respects, the financial position of **TATA Consultancy Services (Portugal), Unipessoal, Lda.** as at 31 March 2026, and its financial performance and its cash flows for the year then ended, in accordance with generally accepted accounting principles in Portugal.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and other technical and ethical standards and recommendations issued by the Institute of Statutory Auditors. Our responsibilities under those standards are described in the "Auditor's responsibilities for the audit of the financial statements" section below. In accordance with the law we are independent of the Entity and we have fulfilled our other ethical responsibilities in accordance with the ethics code of the Institute of Statutory Auditors.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of management for the financial statements

Management is responsible for:

- the preparation of the financial statements, which present fairly the financial position, the financial performance and the cash flows of the Entity in accordance with the with generally accepted accounting principles in Portugal.
- the preparation of the Management' Report, in accordance with the applicable law and regulations;
- the creation and maintenance of an appropriate system of internal control to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error;
- the adoption of appropriate accounting policies and criteria;
- the assessment of the Entity's ability to continue as a going concern, disclosing, as applicable, events or conditions that may cast significant doubt on the Entity's ability to continue its activities.

Auditor's responsibilities for the audit of the financial statements

Our responsibility is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- communicate with those charged with governance, including the supervisory board, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit;

Our responsibility also includes verifying that the information included in the Management' report is consistent with the financial statements.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Management's report

In compliance with paragraph 3 e) of article No. 451 of the Portuguese Company Law, it is our understanding that the Management's report has been prepared in accordance with applicable requirements of the law and regulation, that the information included in the Management' report is consistent with the audited financial statements and, taking into account the knowledge and assessment about the Entity, no material misstatements were identified.

THE CERTIFIED ACCOUNTANT MANAGEMENT

Notes forming part of the Financial Statements As of March 31, 2026

1. INTRODUCTORY NOTE

TATA Consultancy Services (Portugal), Unipessoal, Lda. ("The Company"), has its head office in Amadora, was founded on July 4, 2005 and its corporate object consists of IT consultancy services.

The Company is included in TATA Group (whose mother company has its head office in India), which includes several companies with head office in Europe and America, with which it has transactions related to the development of its operations (Note 16), so that its activity and results are influenced by decisions taken at group level.

These financial statements were approved by Management on April 30, 2026.

2. ACCOUNTING REFERENCE FOR THE PREPARATION OF THE FINANCIAL STATEMENTS

The accompanying financial statements have been prepared in compliance with the requirements in force in Portugal in accordance with Decree-Law 158/2009, of 13 July and the conceptual structure, modified by Decree-Law 98/2015, of 2 June, interpretation standards and accounting and financial reporting standards ("NCRF"), contained in Notices 8254/2015, 8258/2015 and 8256/2015, which together make up the Portuguese Accounting Standards System ("Sistema de Normalização Contabilística" or "SNC"). These standards and interpretations are hereinafter referred to generally as "NCRF".

3. PRINCIPAL ACCOUNTING POLICIES

3.1. Bases of presentation

The accompanying financial statements were prepared on a going concern basis as from the Company's accounting records, in accordance with NCRF.

3.2. Tangible fixed assets

Tangible fixed assets are initially recorded at acquisition cost, which includes the purchase cost and any other direct expenses to put the assets in the location and conditions needed to operate in the intended manner and, when applicable, the initial estimates opowerf dismantling and removing assets and restoration of the places of installation/ operation of the assets that the Company expects to incur.

Depreciations are recognised after the asset is available for use, in a straight-line basis, according to its estimated useful life for each group of assets, as follows:

	Years
Administrative equipment	3 to 8
Other tangible fixed assets	8 to 16

Useful life and the depreciation method are revised on an annual basis. The effect of any change is recognised prospectively in the statement of profit and loss.

Costs of maintenance and repair (subsequent expenditure) that are not likely to generate future economic benefits are recorded as expenses in the period they are incurred on.

The gain (or loss) on disposal or write-off of a plant and equipment is determined as the difference between the amount received in the transaction and the amount of the asset and is recognized in the period in which it occurs.

3.3. Income tax

Income tax for the year consists of current tax and deferred tax. Current tax and deferred tax are recognized in the statement of profit and loss, except when they are related with items recorded directly in equity. In such cases current and deferred tax are also recorded in equity.

Income tax for the period is calculated based on the Company's taxable results. The taxable income differs from the accounting profit or loss, as it excludes several costs and earnings that are deductible or taxable in other years. Taxable income also excludes costs and earnings that will never be deductible or taxable, according to tax rules in force.

Deferred tax relates to the temporary differences between assets and liabilities for accounting and tax purposes.

Deferred tax liabilities are recorded for all taxable temporary differences.

Deferred tax assets are recorded for deductible temporary differences, only when there is reasonable expectation of sufficient future taxable income to use them. Temporary differences underlying deferred tax assets are reviewed at each balance sheet date in order to recognise or adjust them based on the current expectation of their future recovery.

Deferred tax assets and liabilities are calculated and assessed using the tax rates expected to be in force when the temporary differences reverse, based on tax rates (and tax legislation) that are formally or substantially issued at the reporting date.

The compensation between deferred tax assets and liabilities is only allowed when: (i) the Company has the legal right to do the compensation between this assets and liabilities for liquidating purposes; (ii) those assets and liabilities relate to income tax of the same fiscal authority; and (iii) the Company has the intention of compensating for liquidation purposes.

3.4. Financial assets and liabilities

Financial assets and liabilities are recorded in the balance sheet when the Company becomes part of the correspondent arrangements, as established by NCRF 27 – Financial Instruments.

Financial assets and liabilities at cost or at amortised cost

The financial assets and liabilities are measured at cost or at amortised cost net of accumulated impairment losses (in the case of financial assets) when:

- The maturity is defined; and
- They have a fix or determinate repayment; and
- They do not constitute or incorporate a derivative financial instrument.

The amortised cost is the amount at which a financial asset or financial liability is measured at initial recognition, less principal repayments and plus or minus a cumulative amortisation, using the effective interest method, of any difference between the original amount and the amount at the maturity date. The effective interest rate is the rate that discounts cash flows associated with the financial instrument net carrying amount.

Assets and liabilities at cost or at amortised cost net of accumulated impairment losses include, namely:

- Trade receivables;
- Other receivables;
- Suppliers;
- Other payables;
- Group companies.

Cash and cash equivalents

"Cash and cash equivalents" include cash, bank deposits and term deposits with maturity up to three months and that can be demanded immediately with insignificant risk of losses.

Trade receivables and other receivables

Trade receivables and other receivables are recorded at cost or amortised cost net of eventual impairment losses. Generally, the amortised cost of these assets doesn't differ from its nominal value.

Suppliers and other payables

Suppliers and other payables are recorded at cost or amortised cost.

Generally, the amortised cost of these liabilities doesn't differ from its nominal value.

Impairment of financial assets

Financial assets classified "at cost or at amortised cost" are tested for impairment at each reporting date. Such financial assets are impaired when there is objective evidence that, as a result of one or more events after their initial recognition, their estimated future cash flows are negatively affected.

For financial assets measured at amortised cost, the impairment loss recognised corresponds to the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the respective original effective interest rate.

For financial assets measured at cost, the impairment loss recognised corresponds to the difference between the asset's carrying amount and the best estimate of the fair value of the asset.

Impairment losses are recognized in the statement of profit and loss in the period in which they are determined.

Subsequently, if the amount of the impairment loss decreases and such reduction can be objectively related to an event that took place after the recognition of that loss, it is reversed through the statement of profit and loss. The reversal shall be done within the limits of the amount that would be recognized (amortised cost) if the loss had not been initially accounted for. Reversal of impairment losses are recognized in the statement of profit and loss.

Derecognition of financial assets and liabilities

The Company derecognizes the financial assets only when the contractual rights to receive the cash flows expire, or when the financial assets and the risks and rewards of its ownership are transferred to other entity. The Company derecognizes the financial assets transferred, even if some significant risks and rewards remain, when the transference of control occurs.

The Company derecognizes financial liabilities only when the corresponding obligation specified in the contract is either discharged, cancelled or expires.

3.5. Foreign currency balances and transactions

Transactions in foreign currency (different from functional currency) are recorded at the exchange rate of the transaction date. At each reporting date, the foreign currency monetary items are translated at the exchange rate of that date.

Exchange gains and losses arising from differences between the historical exchange rates and those prevailing at the date of collection, payment or at the reporting date are recorded in the statement of profit and loss for the period.

3.6. Provisions and contingent assets and liabilities

Provisions

Provisions are recognized when there is a present legal or implied obligation resulting from a past event, the resolution of which will probably require expending internal resources, the amount of which can be reasonably estimated.

The amount recorded in provisions is the present value of the best estimate at the reporting date, needed to settle the obligation. The estimate is determined based on risks and uncertainties related to the obligation. The amount of provisions is reviewed and adjusted at each reporting date so as to reflect the best estimate at that time.

Contingent liabilities

Contingent liabilities are not recorded in the financial statements, but are disclosed when the possibility of outflows of resources including economic benefits is not remote.

Contingent assets

Contingent assets are not recorded in the financial statements, but are disclosed when economic future inflows of resources are likely to occur.

3.7. Revenue

Revenue is measured at fair value of the compensation received or to be received. Revenue to be recorded is offset of the estimated discounts and other rebates.

Revenue provided by rendered services (projects) is recognised according to the stage of completion method of the transaction/service at the financial position date, subject to the following conditions:

- The amount of revenue can be reliably measured;
- It is probable that future economic benefits flow to the Company; and
- Incurred cost or costs to be incurred with transactions can be measured reliably

3.8. Accruals basis

Costs and earnings are recorded in the period to which they relate, independently of the date they are paid or received. Costs and earnings for which the real value is not known are estimated.

Costs and earnings attributed to the current period and which expenses and revenues will occur in future periods as well as costs and earnings that have already occurred but that respect to future periods are recorded as assets or liabilities.

3.9. Leases

As of March 31, 2026 and 2025, the Company has long term lease contracts, which, due to their characteristics, according to NCRF 9 – Leases, taking into account the substance over form principle, are recognized in the financial statements as operational leases. Payments of operational leases are recorded as costs in a straight line basis during the period of the lease. The operating assignment contract was considered for the purpose of recognizing the mobile assets underlying it and the associated debt.

3.10. Critical judgments/estimates in applying the accounting standards

In the preparation of the financial statements' judgments, estimates and assumptions were made, that can affect the value of the assets and liabilities presented, as well as earnings and costs of the period.

These estimates are based on the best knowledge available at the time and on the actions planned, and are constantly revised based on the information available at the financial position date. However, situations can happen in subsequent periods which are not predictable at the time of the approval of the financial statements and thus, were not considered on those estimates. Changes in estimates that occur after the date of the financial statements will be corrected prospectively. For this reason and due to that uncertainty, real results can differ from the corresponding estimates.

The most significant estimates reflected in the financial statements refer to: (i) impairment analysis of receivables; (ii) revenue recognition of ongoing projects

3.11. Subsequent events

Events that occur after the balance sheet date that provide additional information on conditions that existed as of that date ("adjustable events") are reflected in the financial statements. Events that occur after the balance sheet date that provide information on conditions that exist after that date ("non-adjustable events"), if material, are disclosed in the notes to the financial statements.

4. CASH FLOWS

Cash and cash equivalents include cash and bank deposits immediately callable. Cash and cash equivalents as of March 31, 2026 and 2025, are detailed as follows:

(Euros)

	2026	2025
Bank deposits immediately callable	3,555,588	3,059,725
Cash and equivalents	3,555,588	3,059,725

Notes forming part of the Financial Statements As of March 31, 2026

5. ACCOUNTING POLICIES, CHANGES IN ESTIMATES AND ERRORS

In the year ended as of March 31, 2026, there were no changes in accounting policies in relation to those used in the year ended as of March 31, 2025, presented for comparative purposes, nor were material errors relating to prior years identified.

6. TANGIBLE FIXED ASSETS

During the years ended March 31, 2026 and 2025, the movements in tangible fixed assets, as well as in the respective accumulated depreciations and impairment losses, were as follows:

(EUR)

Administrative equipment	2026	2025
Gross assets:		
Beginning balance	996,903	880,543
Increases	28,928	116,360
Decreases	867	-
Ending balance	1,024,964	996,903
Accumulated depreciation and impairment losses:		
Beginning balance	614,618	325,649
Decreases	819	-
Depreciation of the year	299,623	288,969
Ending balance	913,422	614,618
Net assets	**111,542**	**382,285**
Gross assets:		
Beginning balance	4,790	4,790
Increases	-	-
Ending balance	4,790	4,790
Accumulated depreciation and impairment losses:		
Beginning balance	1,896	1,298
Depreciation of the year	599	598
Ending balance	2,495	1,896
Net assets	2,295	2,894
Total Net assets	**113,837**	**385,179**

7. INCOME TAX

The Company is subject to corporate income tax, in accordance with article 87 of the Portuguese Corporate Income Tax Code ("IRC"), at the rate of 20%. This rate is increased up to a maximum of 1.5% of Municipal Surcharge.

For 2025, the nominal tax rate will vary between 21,5% and 28,5% depending on the determined taxable income, which will be taxable at the follow rates:

- IRC rate : 16% to the first 50.000 Euros;
- IRC rate: 20% over remaining taxable income;
- Municipal surcharge: 1,5% over taxable income;
- State surcharge: 3% over taxable income if 1,500,000 < taxable income <= 7,500,000 Euros, 5% over taxable income if 7,500,000 Euros < taxable income <= 35,000,000 Euros or 7% over taxable income if taxable income > 35,000,000 Euros.

In accordance with article 88 of the Portuguese Corporate Income Tax Code, the Company is also subject to autonomous taxation of certain expenses at the rates mentioned therein.

In accordance with applicable Portuguese legislation, income tax returns are subject to review and correction by the tax authorities for a period of four years (five years for social security) except where there are tax losses, tax benefits have been granted or there is litigation in progress where, depending on the circumstances, the period can be extended or suspended. Accordingly, the Company's tax returns for the years 2022 to 2025 are still subject to review. Management believes that possible corrections arising from inspections by the tax authorities of those tax returns will not have a significant impact on the financial statements of March 31, 2026 and 2025.

As of March 31, 2026 and 2025, there were no temporary differences between accountant and tax in order to create deferred taxes in the financial statements.

For the years ended March 31, 2026 and 2025, the tax rate reconciliation is as follows:

Reconciliation of the tax rate

(EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Profit/(Loss) before income tax	3,319,870	2,557,954
Nominal tax rate (<50.000 net income)	16.00%	17.00%
Nominal tax rate (>50.000 net income)	20.00%	21.00%
Municipal Tax	1.50%	1.50%
Derrama estadual	3.00%	3.00%
Expected income tax	766,368	605,278
Nominal tax rate	23.08%	23.66%
Profit/(Loss) before income tax	3,319,870	2,557,954

8. TRADE RECEIVABLES AND OTHER RECEIVABLES

As of March 31, 2026 and 2025, trade receivables and other receivables present the following composition:

(EUR)

	As at March 31, 2026			As at March 31, 2025		
	Gross amount	Impairment losses	Net amount	Gross amount	Impairment losses	Net amount
Current:						
Trade receivables	7,936,527	(12,298)	7,924,229	5,947,711	(12,298)	5,935,413
Other receivables	804,673	-	804,673	1,095,516	-	1,095,516
	8,741,200	**(12,298)**	**8,728,902**	**7,043,227**	**(12,298)**	**7,030,929**

As of March 31, 2026 and 2025, trade receivables include 6,125,219 Euros and 3,938,525 Euros, respectively, related with Group companies (Note 16).

For the years ended March 31, 2026 and 2025, movements occurred in impairment losses, were as follows:

(EUR)

	2026	2025
Beginning balance	12,298	12,298
Increase	-	-
Decrease	-	-
Effect of exchange rate adjustments	-	-
	12,298	**12,298**

As of March 31, 2026 there was no variation in this account line item.

Other receivables

As of March 31, 2026 and 2025, this caption was as follows:

(EUR)

	2026	2025
Accrued income:		
Unbilled services rendered	751,985	881,205
Other debtors	52,688	214,311
	804,673	**1,095,516**

As of March 31, 2026 and 2025, other receivables included 436,412 Euros and 881,197 Euros respectively, related with Group companies (Note 16).

9. ADVANCES TO SUPPLIERS

As of March 31, 2026, there were no advances to suppliers.

10. DEFERRALS

As of March 31, 2026 and 2025, these captions were detailed as follows:

(EUR)

	2026	2025
Deferred assets:		
Supplies and services	221,414	527,439
	221,414	527,439
Deferred liabilities:		
Services rendered	**319,842**	**594,369**

As of March 31, 2026, and 2025, the Deferrals included 199,361 Euros and 488,045 Euros, respectively, related with Group companies (Note 16).

11. QUOTA CAPITAL AND RESERVES

As of March 31, 2026 and 2025, the Company's fully subscribed and paid up quota capital was made up of one quota with the nominal value of 5,500 Euros. As of those dates, quota capital was totally owned by TATA Consultancy Services España, S.A. (head office at Spain).

Legal reserve:

Portuguese legislation establishes that at least 5% of annual net profit must be appropriated to legal reserves until the reserve equals the statutory minimum requirement of 20% of quota capital. This reserve is not available for distribution, except in the case of liquidation of the Company, but may be used to absorb losses once other reserves and retained earnings have been exhausted. The balance of this item as at March 31, 2026 is 17,574 Euros.

Results application:

As approved at the General Shareholders' Meeting held on April 30, 2025, the results of the year ended on March 31, 2025, EUR 1,935,061 were transferred to Retained earnings/(losses).

12. LEASES

Operating leases

As of March 31, 2026 and 2025, the Company has part of its operational lease contracts related to rented vehicles. The minimum non-cancellable lease payments as of March 31, 2026 and 2025, are as follows:

(EUR)

	2026	2025
Until 1 year	26,562	26,562
Between 1 and 5 years	45,346	71,908
	71,908	**98,470**

13. OTHER PAYABLES

As of March 31, 2026 and 2025, the caption "Other payables" had the following composition:

(EUR)

	2026	2025
Accrued costs:		
Employees	570,137	312,432
Supplies and services Group (Note 16) (a)	158,077	304,721
Bonuses	95,679	73,610
Audit	-	-
Credits to be granted	11,230	1,197
Subcontracts	1,084,672	1,604,281
Others	125,999	39,440
Other creditors	39,764	55,849
Other creditors - Group (Note 16) (a)	-	97,866
	2,085,558	**2,489,396**

a) As of March 31, 2026 and 2025 other payables included 284,075 Euros and 402,587 Euros, respectively, related with Group companies (Note 16).

14. SUPPLIERS

As of March 31, 2026 and 2025, the caption "Suppliers" was as follows:

(EUR)

	2026	2025
Suppliers, current account:		
Group companies (Nota 16)	588,332	502,019
Other suppliers	604,743	864,796
	1,193,075	**1,366,815**

15. STATE AND OTHER PUBLIC ENTITIES

As of March 31, 2026 and 2025, the caption "State and other public entities" was as follows:

(EUR)

	2026	2025
Corporate income tax:		
Withholding taxes	519,141	601,959
Advances	27,795	27,917
Withholding tax on capital	5,820	-
Estimated tax (Note 7)	(754,737)	(622,886)
Personal income tax	(62,961)	(46,277)
Value Added Tax	1,699,156	1,464,412
Social Security Contributions	(70,190)	(35,750)
	1,364,024	**1,389,375**

16. RELATED PARTIES

Transactions with related parties

During the years ended March 31, 2026 and 2025 transactions with related parties were as follows:

	84,328	**98,791**

22. OTHER OPERATING EXPENSES

The composition of caption "Other operating expenses" for the years ended March 31, 2026 and 2025, was as follows:

(EUR)

	2026	2025
Foreign exchange rate losses	79,106	25,971
Others	71	11
	79,178	**25,982**

23. SUBSEQUENT EVENTS

The year 2025 ended with signs of an economic recovery which is expected to continue in 2026 and is expected to slow down in subsequent years.

Prices are likely to rise, which entails some uncertainty for all activities, and a general increase in prices is expected in all sectors of the economy.

Events occurring after the balance sheet date on conditions that existed at the balance sheet date have been considered in the preparation of the financial statements.

24. RISKS

Credit risks

The Company is exposed to credit risk related with the possibility of the other part failing to comply with contractual obligations, resulting in losses relating to assets fulfilment.

Credit risk is mainly related with receivables, as a result of the Company´s operations, namely data-processing consultancy rendered services to its clients.

This risk is monitored, on a regular basis, with the objective of:

- limit credit granted to clients, considering the profile and age of account receivables;
- monitor the progress of the granted credit level;
- analyse the recoverability of receivables on a regular basis.

Impairment losses for accounts receivable are calculated considering:

- analysis of aged accounts receivable;
- client risk's profile;
- clients' financial conditions.

As of March 31, 2026, Management is convicted that estimated impairment losses for accounts receivable are appropriately accounted for in the financial statements.

25. NOTE ADDED FOR TRANSLATION

These financial statements are a translation of financial statements originally prepared in Portuguese in conformity with Portuguese legislation and following generally accepted accounting principles in Portugal. In the event of discrepancies, the Portuguese language version prevails.

INDEPENDENT AUDITORS' REPORT

KPMG Professional Services Company

Roshn Front, Airport Road

P. O. Box 92876

Riyadh 11663

Kingdom of Saudi Arabia

Commercial Registration No 1010425494

Headquarters in Riyadh

To the Shareholders of Tata Consultancy Services Saudi Arabia (A Foreign Limited Liability Company)

Opinion

We have audited the financial statements of Tata Consultancy Services Saudi Arabia ("the Company"), which comprise the statement of financial position as at 31 December 2025, the statements of profit or loss and other comprehensive income, changes in shareholders equity and cash flows for the year then ended, and notes to the financial statements, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (SOCPA).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards), that is endorsed in the Kingdom of Saudi Arabia, that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the Code's requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by SOCPA, the applicable requirements of the Companies Law, Company's Articles of Association and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, the Board of Directors, are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. 'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, then we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit of Tata Consultancy Services Saudi Arabia ("the Company").

SEE ACCOMPANYING NOTES FROM 1 TO 17 FORMING PART OF FINANCIAL STATEMENTS

The financial statements on pages 3 to 29 have been approved by the Board of Directors for issuance on 26 Dhu Al-Qidah, 1447H (corresponding to 13 May 2026) and signed on their behalf by:

Sudhir Sreedharan- Chairman of the Board of Directors

Notes forming part of the financial statements

1. Corporate information

Tata Consultancy Services Saudi Arabia ("the Company") is a Foreign Limited Liability Company registered in the Kingdom of Saudi Arabia under commercial registration numbered 1010435987 (Unified Number 7009352779) dated 14 Shawwal 1436H (Corresponding to 30 July 2017).

The registered address of Company is - Akaria Center II, office no 172, 7th floor, Olaya Road, P.O Box 30005, Riyadh - 11372, Kingdom of Saudi Arabia. The parent company of the Company is Tata Consultancy Services Netherlands B.V. and the ultimate parent company is Tata Consultancy Services Limited (a Company listed on stock exchange in India).

The Company provides all services related to information technology and services include business process management, application support and maintenance services, infrastructure and its maintenance support, call center services relating to any industry or trade or application or domain services. The Company's full service portfolio consist of activities related to software development, implementation, support and maintenance of any industry, trade, application, product, device, computer, microscopic including consulting, design and implementation of software, hardware for all these services processors, provide software and hardware consulting and information processing services.

The financial statements were approved by the Board of Directors and authorized for issue on dated 26 Dhu Al-Qidah, 1447H (corresponding to 13 May 2026).

2. Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by Saudi Organization for Chartered and Professional Accountants (SOCPA) (herein and after referred to as IFRS as endorsed in KSA).

The material accounting policies applied in the preparation of these financial statements have been consistently applied to all periods presented.

3. Basis of preparation

These financial statements have been prepared on historical cost basis using the going concern concept except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period and defined benefit plans which are measured in accordance with IAS 19. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customer and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

Cash flows are reported using the indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid as cash flow from financing activities and interest and dividend received as cash flow from investing activities. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The financial statements are presented in Saudi Arabian Riyals, which is the functional and presentation currency of the Company. Foreign currency transactions are translated into functional currency at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

Assets and liabilities of entities with functional currency other than presentation currency have been translated to the presentation currency using exchange rate prevailing on the date of statement of financial position.

Notes forming part of the financial statements

4. Use of estimates and judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of IFRS require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the period presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, valuation of deferred tax assets, provisions and contingent liabilities and has been discussed below. Key source of estimation of uncertainty in respect of revenue recognition, employee benefits and fair value measurement of financial instruments have been discussed in their respective policies.

The Company uses the following critical accounting estimates in preparation of its financial statements:

a. Revenue recognition

Revenue for fixed-price contracts are recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

b. Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may affect depreciation expense in future periods. The carrying amount of property, plant and equipment as on December 31, 2025 was SAR 2,145,050 (December 31, 2024 was SAR 2,691,915).

c. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d. Valuation of deferred tax assets

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

e. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgements to assess contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the unaudited consolidated interim financial statements.

f. Employee benefits

The cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each statement of financial position date. The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

g. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. Nature and purpose of reserves

a. Retained earnings

This reserve represents undistributed accumulated earnings of the Company as on the date of statement of financial position.

b. Statutory reserves

In accordance with the previous Regulations for Companies and Company's Articles of Association, the Company was required to transfer 10% of the net income for the year to a reserve until it equals to 30% of its share capital. Under the new Companies Law requirements issued by Royal Decree M/132 dated 30 June 2022 and consequently, the Company is no longer required to appropriate statutory reserve and accordingly, the reserve appropriated during the prior years will be subject to shareholders resolution in the future, either to keep it as a general reserve, or transfer it back to retained earnings.

6. Recent accounting standards

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective. Amendments to IFRS 9 and IFRS 7[1]

Annual Improvements to IFRS Accounting Standards[1] – Amendments to:

- IFRS 1 – First-time Adoption of International Financial Reporting Standards
- IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 – Financial Instruments
- IFRS 10 – Consolidated Financial Statements
- IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements[2]

IFRS 19 – Subsidiaries without Public Accountability: Disclosures[2]

[1] Effective for annual periods beginning on or after January 1, 2026.

[2] Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.In December 2024, the IASB issued targeted amendments to help companies better report the financial

effects of nature-dependent electricity contracts, which are often structured as power purchase agreements (PPAs). The amount of electricity generated under these contracts can vary based on uncontrollable factors such as weather conditions. Current accounting requirements may not adequately capture how these contracts affect a company's performance. The amendments include: clarifying the application of the 'own-use' requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows. The Company does not expect this amendment to have any significant impact in its financial statements.

Annual Improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. These amendments include clarifications, simplifications, corrections and changes aimed at improving the consistency of several IFRS Accounting Standards. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Company does not expect these narrow amendments to have any significant impact in its financial statements.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

7. Financial assets, financial liabilities and equity instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value to be cash equivalents. Cash and cash equivalents consist of balances with banks and which are unrestricted for withdrawal and usage.

Trade receivables

Trade receivables without a significant financing component are initially measured at transaction price.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Derecognition

(a) Financial asset

The Company derecognises a financial asset when the contractual right to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flow in a transaction in which substantially all of the risks and rewards of the ownership of financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of financial asset.

The Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases the transferred assets are not derecognised.

(b) Financial liability

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises financial liability when its terms are modified and cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of financial liability the difference between the carrying amount extinguished and the consideration paid (including any non cash asset transferred or liabilities assumed) is recognised in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liabilities simultaneously.

a. Cash and cash equivalents

(Amount in SAR)

	As at December 31, 2025	As at December 31, 2024
Balance with bank - current account	38,894,583	59,062,785

d. Trade and other payables

(Amount in SAR)

	As at December 31, 2025	As at December 31, 2024
Trade payables*	224,083,675	213,144,054
Accrued expenses - POC	62,828,790	38,071,851
Accrued expenses - Others**	22,465,692	16,938,394
Total	**309,378,157**	**268,154,299**

* Trade payables include balance with related party (refer note number - 15)

No interest is charged on trade payables. The Company has financial risk management policies in place to ensure that all payables are paid within the credit time frame.

**Accrued expenses – Others primarily comprise routine expense provisions, including fees to external consultant, facility expense, travel expenses and others.

e. Other financial liabilities

(Amount in SAR)

	As at December 31, 2025	As at December 31, 2024
Accrued payroll	4,673,724	4,448,867
Capital creditors	305,364	224,581
Total	**4,979,088**	**4,673,448**

f. Financial instruments by category

The carrying value of financial instruments by categories as of December 31, 2025 is as follows:

(Amount in SAR)

	Amortized cost	Total carrying value
Financial assets		
Cash and cash equivalents	38,894,583	38,894,583
Trade receivables		
Billed	456,458,527	456,458,527
Unbilled	23,089,148	23,089,148
Other financial assets	714,302	714,302
	519,156,560	**519,156,560**
Financial liabilities		
Trade and other payables	309,378,157	309,378,157
Lease liabilities	13,028,824	13,028,824
Other financial liabilities	4,979,088	4,979,088
	327,386,069	**327,386,069**

The carrying value of financial instruments by categories as of December 31, 2024 is as follows:

(Amount in SAR)

	Amortized cost	Total carrying value
Financial assets		
Cash and cash equivalents	59,062,785	59,062,785
Trade receivables		
Billed	294,067,875	294,067,875
Unbilled	13,450,055	13,450,055
Other financial assets	492,867	492,867
	367,073,582	**367,073,582**
Financial liabilities		
Trade and other payables	268,154,299	268,154,299
Lease liabilities	-	-
Other financial liabilities	4,673,448	4,673,448
	272,827,747	**272,827,747**

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables and trade payables as at December 31, 2025 and December 31, 2024 approximate the fair value due to their nature. Carrying amounts of bank deposits, earmarked balances with banks, other financial assets and other financial liabilities which are subsequently measured at amortised cost also approximate the fair value due to their nature in each of the periods presented.

g. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

h. Financial risk management

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

  The fluctuation in foreign currency exchange rate may have potential impact on the financial statement, where any transaction references more than one currency or where assets / liabilities are denominated in a currency

other than functional currency of the Company. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries.

The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the respective functional currencies of the Company.

The following analysis has been worked out based on the net exposures of the Company.

The following table sets forth information relating to foreign currency exposure as at December 31, 2025:

(equivalent SAR)

	INR	USD	Other
Net financial assets	5,877,839	143,269,878	(78,656)
Net financial liabilities	71,118	125,465,620	54,710

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of Tata Consultancy Services Saudi Arabia would result in decrease / increase in the Company's profit before taxes by approximately SAR 2,347,761 for the year ended December 31, 2025.

The following table sets forth information relating to foreign currency exposure as at December 31, 2024:

(equivalent SAR)

	INR	USD	Other
Net financial assets	(19,005)	75,754,597	67,937
Net financial liabilities	(20,109)	98,155,402	(6,744)

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of Tata Consultancy Services Saudi Arabia would result in decrease / increase in the Company's profit before taxes by approximately SAR 2,232,502 for the year ended December 31, 2024.

- **Interest rate risk**

  The Company's investments are primarily in fixed rate interest bearing investments. Hence, the Company is not significantly exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled receivables, cash and cash equivalents, and other financial assets.

- **Exposure to credit risk**

  The carrying amount of financial assets and contract assets represents the maximum credit exposure. The maximum exposure to credit risk was SAR 602,077,263 and SAR 412,718,621 as of December 31, 2025 and December 31, 2024, respectively being the total of the carrying amount of balance with bank, trade receivable, unbilled receivable and other financial assets. Balance with bank is placed with a bank with high credit ratings. As of December 31, 2025, there were no indications that any defaults will occur on trade receivable, unbilled receivables, contract assets or other financial assets.

Details of single customer who contribute to more than 10% of outstanding trade receivables, unbilled receivables and contract assets as at December 31, 2025 and December 31, 2024.

(Amount in SAR)

	As at December 31, 2025		As at December 31, 2024	
	Amounts	Percentage	Amounts	Percentage
Customer D	135,721,248	24.12%	112,941,443	32%
Customer H	76,662,121	13.36%	-	-
Customer I	62,130,213	11.04%	45,364,165	13%

- **Geographic concentration of credit risk**

The Company has a geographic concentration of trade receivables (gross and net of allowances),and contract assets is as follows:

	As at December 31, 2025	As at December 31, 2024
Middle east	97.83%	99%
India	2.15%	0%
Others	0.02%	1%

Geographical concentration of trade receivables, (gross and net of allowances) and contract assests is allocated based on the location of the customers.

The Company uses an allowance matrix to measure the expected credit loss of trade receivable from customers. The expected credit loss allowance is based on the ageing of the days the receivables are due and are as follows:

(Amount in SAR)

December 31, 2025	Weighted average loss rate	Gross carrying amount *	Loss allowance	Credit impaired
No Due	0.00%	165,536,780	-	No
1-90	0.00%	132,325,246	-	No
91-180	0.00%	65,718,657	-	No
181-272	0.00%	13,329,611	-	No
273-364	0.00%	1,713,719	-	No
365-455	0.00%	1,520,001	-	No
456-546	0.00%	86,257	-	No
>547	100.00%	9,989	-	Yes

(Amount in SAR)

December 31, 2024	Weighted average loss rate	Gross carrying amount *	Loss allowance	Credit impaired
Not Due	0.00%	110,885,484	-	No
1-90	0.00%	48,422,225	-	No
91-180	0.00%	8,816,126	-	No
181-272	0.00%	6,454,052	-	No
273-364	0.00%	336,998	-	No
365-455	0.00%	-	-	No
456-546	0.00%	-	-	No
>547	100.00%	-	-	Yes

*Gross carrying amount excludes inter-company receivables and receivable against which specific allowance has been made.

There is no credit risk for intercompany receivables as the receivables are due from Holding company and retention receivable from customers are considered through time value of money.

The above table provides the loss allowance calculated as per ECL and Management is expected to make at the minimum this amount as provision of bad and doubtful debts against trade receivables.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generated sufficient cash flows from operations to meet its financial obligations including lease liabilities as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as at:

(Amount in SAR)

December 31, 2025	Due in 1st year	Due in 2nd to 5th year	Total
Non-derivative financial liabilities			
Trade payables	309,378,157	-	309,378,157
Lease liabilities	3,600,358	10,801,074	14,401,432
Other financial liabilities	4,979,088	-	4,979,088
Total	**317,957,603**	**10,801,074**	**328,758,677**

(Amount in SAR)

December 31, 2024	Due in 1st year	Due in 2nd to 5th year	Total
Non-derivative financial liabilities			
Trade payables	268,154,299	-	268,154,299
Lease liabilities	-	-	-
Other financial liabilities	4,673,448	-	4,673,448
Total	**272,827,747**	**-**	**272,827,747**

i. Share capital

The authorised, issued, subscribed and fully paid up share capital consist of the following:

(Amount in SAR)

	As at December 31, 2025	As at December 31, 2024
Authorised, issued, subscribe and paid up Share capital		
Share Capital at SAR 3,750 (1,000 shares)	3,750,000	3,750,000
	3,750,000	**3,750,000**

(Amount in SAR)

Share holding	Percentage	No. of Shares	Amount per Share	Total
Tata Consultancy Services Netherlands B.V.	100%	1,000	3,750	3,750,000
				3,750,000

The authorized share capital of the Company is SAR 3,750,000 and the number of shares is 1,000 of SAR 3,750 each. All such shared rank equally with regard to Company's residual assets. Holders of these shares are entitled to dividends as declared from time to time and are entitled to one vote per share at general meetings of the Company.

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term product and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

8. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured

by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the Company is as follows:

(Amount in SAR)

	Additions for the year ended December 31, 2025	Net carrying amount as at December 31, 2025
Leasehold building	18,348,554	14,592,334
Office equipment	-	86,510
Total	**18,348,554**	**14,678,844**

(Amount in SAR)

	Additions for the year ended December 31, 2024	Net carrying amount as at December 31, 2024
Leasehold building	-	-
Office equipment	-	-
Total	-	-

Depreciation on right-of-use asset is as follows:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Leasehold building	3,648,083	3,517,095
Office equipment	21,627	-
Total	**3,669,710**	**3,517,095**

Set out below are the carrying amounts of lease liabilities and movements during the year:

(Amount in SAR)

	As at December 31, 2025	As at December 31, 2024
As at 1 January	**-**	**3,025,906**
Additions during the year	18,348,554	-
Accrued interest	852,312	3,237
Payments during the year	(6,172,042)	(3,029,143)
As at 31 December	**13,028,824**	**-**
Non-current portion	10,081,638	-
Current portion	2,947,186	-

Interest on lease liabilities is SAR 852,312 and SAR 3,312 for the year ended on December 31, 2025 and December 31, 2024, respectively. [Refer Note 12(b)]

The Company incurred SAR 10,122,500 and SAR 10,263,573 for the year ended December 31, 2025 and December 31, 2024, respectively, towards expenses relating to short-term leases and leases of low-value assets.

The total cash outflow for leases is SAR 6,211,261 and SAR 14,500,249 for the year ended December 31, 2025 and December 31, 2024, respectively, including cash outflow for short-term leases and leases of low-value assets.

The Company does not have lease term extension options that are not reflected in the measurement of lease liabilities.

Lease contracts entered by the Company majorly pertains for buildings taken on lease to conduct its business in the ordinary course. The Company does not have any lease restrictions and commitment towards variable rent as per the contract.

9. Non-financial assets and liabilities

a. Property, plant and equipment

The Company recognizes the cost of an item of property, plant and equipment as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can measured reliably. Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight-line basis so as to expense the cost less residual value over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Useful life
Buildings	20 years
Leasehold improvements	Lease term
Computer equipment	4 years
Furniture, fixtures, office equipment and other assets	2-10 years

Depreciation is not recorded on capital work in progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in statement of profit or loss.

The carrying amount of an item of property, plant and equipment shall be derecognised on disposal or when no future economic benefits are expected from its use or disposal.

Notes forming part of the financial statements

Property, plant and equipment consist of the following:

(Amount in SAR)

	Plant and machinery	Leasehold improvements	Computer equipment	Furniture and fixtures	Office equipment	Electrical installations	Total
Cost as at January 1, 2025	**120,000**	**73,945**	**6,277,830**	**1,479,989**	**2,037,546**	**1,127,412**	**11,116,722**
Additions	-	135,950	344,387	120,950	-	-	**601,287**

Accumulated depreciation as at January 1, 2024	**93,016**	**40,357**	**5,148,095**	**202,685**	**1,352,757**	**839,461**	**7,676,371**
Depreciation for the year	12,025	33,588	390,697	277,610	172,596	115,482	**1,001,998**
Disposals	-	-	-	-	-	-	**-**
Accumulated depreciation as at December 31, 2024	**105,041**	**73,945**	**5,538,792**	**480,295**	**1,525,353**	**954,943**	**8,678,369**
Net carrying amount as at December 31, 2024	**14,959**	**-**	**739,038**	**999,694**	**512,193**	**172,469**	**2,438,353**
Additions to capital work-in-progress							**253,562**
Total							**2,691,915**

Capital work in progress mainly include investments in computer equipment's (servers) and office furniture for the normal operation of the Company's employees. Expected date of completion is January 2026

b. Intangible assets

Intangible assets purchased including acquired in business combination, are measured at cost as at the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licences and customer-related intangibles.

Following table summarises the nature of intangibles and their estimated useful lives:

Type of asset	Useful lives
Rights under licensing agreement and software licences	Lower of licence period and 2-5 years
Customer-related intangibles	3 years

Intangible assets are amortised on a straight line basis over the period of its economic useful life.

Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Intangible assets consist of the following:

(Amount in SAR)

	Software licences
Cost as at January 1, 2025	**83,494**
Additions	-
Disposals	-
Cost as at December 31, 2025	**83,494**
Accumulated amortisation as on January 1, 2025	83,494
Amortisation for the year	-
Accumulated amortisation as on December 31, 2025	**83,494**
Net carrying amount as at December 31, 2025	**-**

(Amount in SAR)

	Software licences
Cost as at January 1, 2024	**83,494**
Additions	-
Disposals	-
Cost as at December 31, 2024	**83,494**
Accumulated amortisation as on January 1, 2024	82,964
Amortisation for the year	530
Accumulated amortisation as on December 31, 2024	**83,494**
Net carrying amount as at December 31, 2024	**-**

c. Other current assets

(Amount in SAR)

	As at December 31, 2025	As at December 31, 2024
Contract assets (refer note number 10)	81,748,638	45,231,087
Prepaid expenses - POC	35,879,274	10,473,247
Prepaid expenses - Insurance	2,945,831	9,552,291
Advance to suppliers	2,939,329	2,865,828
Prepaid expenses-Other	2,674,150	104,803
Prepaid rent	1,189,602	981,427
Contract fulfillment costs	817,089	-
Total	**128,193,913**	**69,208,683**

Contract fulfilment cost of SAR NIL for the year ended December 31, 2025 (SAR 42,131 for the year ended December 31, 2024) has been amortized in statement of Profit and Loss.

d. Other non-current assets

(Amount in SAR)

	As at December 31, 2025	As at December 31, 2024
Contract assets (refer note number 10)	1,314,614	-
Prepaid expenses	-	4,305
Total	**1,314,614**	**4,305**

e. Other current liabilities

(Amount in SAR)

	As at December 31, 2025	As at December 31, 2024
Advances from customer	838,592	-
Indirect taxes payable and other statutory liabilities	13,672,287	9,410,882
Total	**14,510,879**	**9,410,882**

10. Revenue recognition

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.

- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method .
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Transaction price attributed in case of contracts with subsidiary is arrived at on the basis of arm's length price. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of the licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be

allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company has signed an agreement with the branch of Tata Consultancy Services Limited (affiliate) in Saudi Arabia to mutually provide IT Support services at 7% markup on the cost of each party effective from January 2022. In accordance with the agreement the Company has started accounting it as revenue as the agreement meets IFRS 15 criteria to recognise revenue as principal.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals and geography.

Revenue disaggregation by nature of services is as follows:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Revenue from consultancy services	1,069,865,891	678,569,208
Revenue from sale of equipment and software licences	9,567,740	1,747,340
Total	**1,079,433,631**	**680,316,548**

Revenue disaggregation by industry vertical is as follows:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Banking, financial services and insurance	471,543,682	259,267,139
Communication, media and technology	230,972,776	252,717,440
Governance	162,306,060	78,891,634
Energy, resources and utilities	49,026,799	51,598,440
Manufacturing	30,151,805	8,999,545
TTH	21,075,661	-
Retail and consumer business	3,971,043	4,272,841
Others	110,385,805	24,569,509
Total	**1,079,433,631**	**680,316,548**

Revenue disaggregation by geography is as follows:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Middle east	1,063,174,913	677,444,872
India	15,505,917	-
Others	752,801	2,871,676
Total	**1,079,433,631**	**680,316,548**

Geographical revenue is allocated based on the location of the customers.

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has applied practical expedient of not disclosing the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognized corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc.). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is SAR 413,624,871 out of which SAR 339,410,377 (82.06 %) is expected to be recognized as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in contract asset is given below:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Balance at the beginning of the year	45,231,087	13,587,462
Invoices raised that were included in the contract assets balance at the beginning of the year	(42,124,754)	(12,526,925)
Increase due to revenue recognised during the year, excluding amounts billed during the year	79,982,083	44,158,290
Translation exchange difference	(25,164)	12,260
Balance at the end of the year	**83,063,252**	**45,231,087**

Changes in unearned and deferred revenue are a s follows:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Balance at the beginning of the year	15,820,754	8,190,687
Revenue recognised that was included in the unearned and deferred revenue balance at the beginning of the year	(15,810,511)	(8,190,686)
Increase due to invoicing during the year, excluding amounts recognised as revenue during the year	30,005,291	15,826,274
Translation exchange difference	(13,949)	(5,521)
Balance at the end of the year	**30,001,585**	**15,820,754**

11. Cost recognition

Costs and expenses are recognised when incurred and have been classified according to their primary functions in the following categories:

Cost of revenue

These costs primarily include employee compensation of personnel engaged in providing services, travel expenses, fees to external consultants, cost of equipment and software licences, depreciation and amortisation of production related equipment and software, facility expenses, communication expenses and other project related expenses.

Selling, general and administrative expenses

Selling costs primarily include employee compensation for sales and marketing personnel, travel expenses, advertising, business promotion expenses, bad debts and advances written off, allowance for expected credit losses and advances, facility expenses for sales and marketing offices and market research costs.

General and administrative costs primarily include employee compensation for administrative, supervisory, managerial and practice management personnel, depreciation and amortisation expenses of non-production equipment and software, facility expenses for administrative offices, communication expenses, fees to external consultants and other general expenses.

Notes forming part of the financial statements

Expenses by function

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Cost of revenue	845,316,030	561,446,009
Selling, general and administrative expenses	62,614,610	72,240,064
Total	**907,930,640**	**633,686,073**

Break-up of Cost of revenue is as follows:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Employee cost	306,433,677	279,141,768
Fees to external consultants	504,705,807	248,183,647
Travel expenses	18,432,360	20,550,254
Facility expenses	7,568,211	7,524,282
Communication	4,866,958	1,290,975
Other expenses	1,225,791	4,448,586
Depreciation	196,291	211,070
Cost of equipment and software licenses	1,886,935	95,427
Total	**845,316,030**	**561,446,009**

Break-up of Selling, general and administrative expenses is as follows:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Employee cost	41,550,532	53,489,943
Facility expenses	7,568,271	8,870,723
Depreciation	862,604	4,308,552

Bad debts and advances written off, allowance for doubtful trade receivable and advances (net)	(44,008)	48,305
Project expense	1,083,160	475,793
Cost of equipment and software licenses	1,886,935	95,427
Total	**596,431,730**	**296,534,739**

*Facility expenses includes short term lease expenses amounting SAR 10,122,500 for December 31, 2025 (SAR 10,263,573 for December 31, 2024).

12. Other (expenses) / income

a. Finance costs

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Interest on lease liabilities	852,312	3,237
Other interest expense	39,218	56,349
Total	**891,530**	**59,586**

b. Net foreign exchange loss

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Net foreign exchange loss	541,952	88,283
Total	**541,952**	**88,283**

13. Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year.

Current income taxes

Current tax is based on the taxable profit for the year and is calculated using tax rates that have been enacted by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income taxes are provided for the temporary differences between the tax base of assets and liabilities and their reported amounts in the financial statements.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

The income tax expense consists of the following:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Current tax		
Current tax expense	33,560,934	10,950,771
Deferred tax (credit) / expense	(604,995)	(1,203,175)
Total	**32,955,939**	**9,747,596**

The reconciliation of estimated income tax expense at the Saudi statutory income tax rate to income tax expense reported in statements of profit or loss and other comprehensive income is as follows:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Income before income taxes	170,069,509	46,482,606
Tax adjustments		
Provisions*	(628,323)	8,693,629
Depreciation	(81,543)	(282,886)
Others	(1,554,972)	(139,495)
Taxable income	**167,804,671**	**54,753,854**
Income tax rate	20%	20%
Current tax expense	**33,560,934**	**10,950,771**

*This includes provision for employee's end of service benefit liability, doubtful debts and foreseeable losses.

Income tax movement

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Opening tax liability	4,110,610	(2,173,620)
Provision for current tax charged to profit and loss	33,560,934	10,950,771
Tax paid	(17,185,343)	(4,666,541)
Net income tax (assets) / liability	**20,486,201**	**4,110,610**

1. The Company has filed its income tax declaration ("return") for and upto the year ended December 31st, 2025 with the Zakat, Tax and Customs Authority ("ZATCA").

2. Management requested the final tax certificate for FY 26 after submission of the tax return of FY Dec 25, which had been issued by the ZATCA valid until April 30th, 2027.

3. No assessment raised for FY20 and FY Dec 21 to Dec 24 and there are no outstanding / ongoing audits with the ZATCA.

Significant components of net deferred tax assets and liabilities for the year ended December 31, 2025 are as follows:

(Amount in SAR)

	Opening balance	Recognised / reversed through profit or loss	Recognised in other comprehensive income	Closing balance
Deferred tax assets / (liabilities) in relation to:				
Property, plant and equipment and intangibles	1,029,255	104,040	626,620	1,759,915
Provision for employee benefits	7,269,413	838,159	-	8,107,572

Foreseeable losses	338,223	-	338,223
Net deferred tax assets	**10,206,645**	**-**	**10,206,645**

Significant components of net deferred tax assets and liabilities for the year ended December 31, 2024 are as follows:

(Amount in SAR)

	Opening balance	Recognised / reversed through profit or loss	Recognised in other comprehensive income	Closing balance
Deferred tax assets / (liabilities) in relation to:				
Property, plant and equipment and intangibles	1,088,734	(59,479)	-	1,029,255
Provision for employee benefits	5,871,653	1,065,220	332,540	7,269,413
Provision for doubtful debts	-	9,661	-	9,661
Leases	478,928	(478,928)	-	-
Foreseeable losses	-	666,701	-	666,701
Net deferred tax assets	**7,439,315**	**1,203,175**	**332,540**	**8,975,030**

Gross deferred tax assets and liabilities are as follows:

(Amount in SAR)

	Assets	Liabilities	Net
Deferred tax assets in relation to:			
Property, plant and equipment and intangibles	1,029,255	-	1,029,255
Provision for employee benefits	7,269,413	-	7,269,413
Provision for doubtful debts	9,661	-	9,661
Leases	-	-	-
Foreseeable losses	666,701	-	666,701
Net deferred tax assets	**8,975,030**	**-**	**8,975,030**

14. Employee benefits

Defined benefit plan

The Company operates a defined benefit plan for employees in accordance with Saudi Labor and Workman Law as defined by the conditions stated in the laws of the Kingdom of Saudi Arabia. The cost of providing the benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements for actuarial gains and losses are recognised in the statement of financial position with a corresponding credit to retained earnings through other comprehensive income in the period in which they occur.

Remeasurements are not reclassified to statement of profit or loss in subsequent periods. Past service cost are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date the Company recognises related restructuring costs

Compensated absences

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as actuarially determined liability at the present value of the obligation at the year end.

Employee cost consist of the following:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Salaries and bonus	268,723,929	291,844,715
Contributions to provident and other funds	18,753,216	18,879,304
Staff welfare	19,293,160	21,907,692
Total	**306,770,305**	**332,631,711**

Employee benefit obligation consist of the following:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Employee benefit obligations - current		
Compensated absences	17,542,311	17,552,551
Gratuity liability	-	-
Others - Long Services	76,881	90,200
Total	**17,619,192**	**17,642,751**
Employee benefit obligations - non-current		
Gratuity liability	26,766,281	22,551,927
Total	**26,766,281**	**22,551,927**

Gratuity

In accordance with Saudi Labour Law, the Company operate a scheme of Gratuity which is a defined benefit plan. The gratuity plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment at an amount equivalent to:-

For service more than 2 years and less than 5 years - 1/3 of retirement benefits

For service more than 5 years and less than 10 years - 2/3 of retirement benefits

For service more than 10 years - Full retirement benefits

There is a vesting period of 2 years for the payment of end of services benefit.

The assumptions used in accounting for the defined benefit plan are set out below:

(Amount in SAR)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Discount rate	4.54%	5.19%
Salary escalation rate	3.33%	3.33%
Attrition rate	27.22%	24.01%
The following table provides a reconciliation from the opening balances to closing balances for defined benefit liability		
Benefit obligations, beginning of the year	22,869,900	18,870,400
Included in profit and loss statement		
- Service cost	5,270,000	4,950,100
- Past service cost		(400)
- Interest cost	1,090,200	852,600
Included in other comprehensive income / (loss)		
Loss on remeasurement of the net defined benefit liability	3,133,100	1,662,700
Benefits paid	(5,278,900)	(3,465,500)
Total	**27,084,300**	**22,869,900**

(Amount in SAR)

Sensitivity Analysis	December 31, 2025	December 31, 2024
Effect of "+0.50" change in rate of discounting	(420,200)	(426,400)
Effect of "-0.50" change in rate of discounting	436,300	444,600
Effect of "+0.50" change in salary escalation	439,300	450,600
Effect of "-0.50" change in salary escalation	(427,100)	(436,000)

The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligations has been calculated using the Projected Unit Credit Method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

15. Related party transactions

Tata Consultancy Services Saudi Arabia's principal related parties consist of its holding company Tata Consultancy Services Netherlands B.V., the Company's ultimate parent company Tata Consultancy Services Limited and ultimate controlling company Tata Sons Private Limited. The Company routinely enters into transactions with its related parties in the ordinary course of business.

- No compensation paid to key managerial personnel for the year ended December 31, 2025 and December 31, 2024.

16. Commitments and Contingencies

The Company has contractually committed (net of advances) SAR 324,962 as at December 31, 2025 and SAR 168,246 as at December 31, 2024 for purchase of property, plant and equipment.

17. Subsequent events

There have been no circumstances of a material nature that have occurred between the financial year end and the date of approval of these financial statements that require adjustment or disclosure in the financial statements.

The recent regional military escalations have triggered a high-risk conflict environment across the Middle East. The situation is still very fluid, and scenarios can shift very quickly. The management is in the process of evaluating the impact on the business and operations. With respect to financial statements for the year ended 31 December 2025, the potential financial reporting effects of the conflict are considered to be non-adjusting in nature.

No other event has occurred up to the date of the approval of these financial statements by the Board of Directors of the Company which could materially affect the financial statements and the related disclosures for the year ended 31 December 2025.

Note:

Rounding differences from the figures produced in accordance with exact mathematical procedures (monetary units, percentages etc.) may occur in tables and references for technical computational reasons. The publication or dissemination of the Financial Statements or the Management Report in any form deviating from the audited version (including translations into other languages) requires our prior consent if our audit opinion is quoted or reference is made to our audit; we refer to § 328 of the German Commercial Code (HGB) in particular.

FINANCIAL STATEMENTS, MANAGEMENT REPORT AND AUDIT OPINION

1 Audit Engagement

The management of **TCS Business Services GmbH, Düsseldorf,** – hereinafter also referred to as the "TBS" or "Company" – has engaged us to audit the Company's annual Financial Statements – including the accounting records – and the Management Report as of 31 March 2026 and to report on the result of our audit in accordance with professional practice and to report in writing on the results of our audit.

This report is addressed to the audited company.

In accordance with the minutes of the shareholders' meeting on August 26, 2025, we were elected as auditor (in accordance with § 318 (1) sentence 1 German Commercial Code [HGB]). Our engagement letter dated August 4, 2025 setting out the terms of the audit was confirmed by the management in the letter dated August 4, 2025.

The Company is a mediumsized Company within the meaning of § 267 (2) HGB. The audit constitutes a statutory audit in accordance with §§ 316 ff. HGB and is therefore subject to mandatory audit in accordance with Sections §§ 316 ff. HGB.

In accordance with § 321 (4a) HGB, we confirm that we observed the applicable independence requirements during our audit of the Financial Statements.

We based the following report on the results of our audit. We observed the audit standard IDW AuS 450 (n.v.) in preparing the audit report.

The detection and clarification of criminal offenses, such as embezzlement or misappropriation of funds, as well as the detection of administrative offenses committed are not the subject of the audit.

Section 2 of this report begins with our comments on the management assessment of the situation, findings in accordance with § 321 (1) sentence 3 HGB and a description of significant changes in legal, economic and tax circumstances of the company.

The scope of the audit and the audit results are presented in detail in sections 3 and 4. The unqualified audit opinion, which is based on the audit results, is reproduced in section 5.

We have attached to our report the audited annual financial statements, consisting of the balance sheet (Appendix 1.1), the income statement (Appendix 1.2) and the notes (Appendix 1.3) as well as the audited management report (Appendix 1.4).

The execution of this engagement and our responsibility, also in relation to third parties, are based on the agreed "General Engagement Terms for Wirtschaftsprüfer and Wirtschaftsprüfungs-gesellschaften dated January 1, 2024", which are attached to this report as an appendix. We also refer to the liability provisions contained in section 9 of these terms and to the exclusions of liability towards third parties.

2 Basic Findings

2.1 Comments on the management assessment of the situation

The management has assessed the company's position in the Management Report for the fiscal year from April 1, 2025, through March 31, 2026 (Annex 1.4) and in the annual financial statements (Annexes 1.1 to 1.3).

In accordance with § 321 (1) sentence 2 HGB, an assessment of the position of the Company as expressed in the Financial Statements and in the Management Report prepared by the management shall precede the report. In this assessment, particular emphasis was placed on the going concern assumption and the assessment of the opportunities and risks of the Company's future development as expressed in the Financial Statements and the Management Report, to the extent that the audited documents permitted such an assessment.

The Management Report includes the following core statements regarding the **financial position, business performance, and operating results** of the company:

- "According to Bitkom, the market for information technology and telecommunications (ICT) in 2026 is expected to grow by 4.4% to EUR 245.1 billion. IT revenue alone is forecast to rise to EUR 170 billion, an increase of 5.8%. Within this, the software business is expected to develop particularly dynamically, with growth of 10.2% to EUR 58.3 billion.
- The number of staff employed by the Company decreased from an average of 88 in the financial year 2024/2025 to an average of 78 in the financial year 2025/2026 due to fluctuation. The Company employs all staff in Germany, of which

58 are based in Düsseldorf and 20 in Berlin. All operating costs for these employees, together with all other costs of the Company, are charged in full to TATA Consultancy Services Deutschland GmbH at a mark-up of 7% (cost plus method).

- Revenues for the financial year decreased by 1,982 kEUR to 11,658 kEUR compared with the 2024/2025 financial year. Revenue is largely dependent on the costs incurred by TCS Business Services GmbH under the cost-plus method. Due to the decline in employee numbers and the associated reduction in personnel expenses, lower revenues were generated in the financial year than expected. As a result of higher interest income on our financial fixed assets, a higher profit before tax was achieved compared with the previous year. This increased from 823 kEUR to 2,421 kEUR. Accordingly, in 2025/2026 our central financial performance indicator "revenue" was negative, while the central financial performance indicator "profit before tax" developed positively.
- Overall, the forecast for fiscal 2025/2026 was achieved. Management considers business performance in 2025/2026 to be satisfactory."

These core statements about the Company's financial situation and business performance are discussed in sufficient detail in the Management Report and are understandable in and of themselves; we therefore refer to the Management Report, appended as Appendix 1.4, for further details.

The Management Report prepared by the Company's management includes the following core statements on the **opportunities and risks of the Company's future development:**

- "TCS' ability to generate growth and maintain economic momentum is linked to its ability to consistently meet customers' ever changing business needs and help them transform by deploying new digital technologies in their businesses. The supplier consolidation offers opportunities and new services and solutions such as S4 HANA, public cloud and cybersecurity services and solutions continue to offer good growth opportunities on the market. In addition, new business areas are to be developed, expanded and marketed to both new and existing customers (including German SMEs). Based on current knowledge, TCS assesses the opportunities as medium.
- In general, customers' willingness to invest is influenced by the overall economic development in their respective countries. As the Company generates the majority of its revenue in Germany, the development of the German economy is a key factor for the Company's growth.
- Based on the cost-plus method, no significant risks are seen here, with the exception of potential interest charges in connection with pension provisions.
- Foreign currency risks arise in particular from the conclusion of transactions in US dollars and other foreign currencies. A weakening of the dollar or other foreign currencies against the euro could therefore lead to foreign currency losses. The risk is considered to be low. The interest rate risks arising from pension commitments are to be offset by covering them with securities.
- At TCS, default and liquidity risks are limited by the selection of customers and close co-operation in payment transactions between sales and administration within the framework of a functioning dunning system. TCS has a solvent and creditworthy customer base. Bad debt losses are the absolute exception. In addition, there is a longstanding cooperation with the majority of customers. In this respect, we consider the financial risk of a liquidity bottleneck, in particular due to possible late payments to us by our sister company TCS, to be low.
- Management does not see any risks that could jeopardize the Company's ability to continue as a going concern.
- Based on current forecasts, slight revenue growth and a moderate increase in net income are once again expected for the 2026/2027 financial year."

These core statements about the legal representatives regarding the opportunities and risks of the company's future are discussed in sufficient detail in the Management Report and are understandable in and of themselves; we therefore refer to the Management Report, appended as Appendix 1.4, for further details.

Based on our assessment of the financial situation of the Company, which we derived on the basis of the findings of our audit of the Financial Statements and of the Management Report – to the extent the audited documents permitted such an assessment – we have concluded that the assessment by the management on the position of the Company, particularly with respect to its ability to continue as a going concern and the opportunities and risks of future development, appears to be realistic. The management assessment of the situation is appropriate in scope and accurate in content.

2.2 Findings Pursuant to Section 321 (1) Sentence 3 HGB

2.2.1 Facts Impairing Development or Threatening Existence

Pursuant to Section 321 (1) Sentence 3 HGB, we, as the auditors, are required to report any facts identified during the course of our audit that could significantly impair the company's development or threaten its continued existence.

As part of our audit, no circumstances came to our attention that would threaten the existence of the company or significantly impair its development.

2.2.2 Misrepresentations

As auditors, we are also required, pursuant to Section 321 (1) Sentence 3 HGB, to report any inaccuracies (misrepresentations due to errors) or violations of legal regulations (misrepresentations due to fraudulent acts) identified during the course of our audit.

Legal regulations within the meaning of Section 321 (1) Sentence 3 HGB refer to the accounting standards applicable to the preparation of the annual financial statements or management report in accordance with Section 317 (1) Sentence 2 HGB. These include the principles of proper accounting, recognition, presentation, and measurement rules for the annual financial statements,

as well as disclosure and explanatory requirements in the notes and regulations for the preparation of the management report, as well as, if applicable, relevant provisions of the company's articles of association.

As part of our audit, no circumstances came to our attention that would constitute significant inaccuracies or violations of applicable accounting standards as defined in Section 317 (1) Sentence 2 HGB.

2.2.3 Other Violations

Pursuant to Section 321 (1) Sentence 3 HGB, we are also required to report any facts identified during the course of our audit that indicate serious violations of laws or the company's articles of association by the managing directors or employees.

As part of our audit, no circumstances came to our attention that would indicate serious violations of laws or the company's articles of association.

3 Subject, nature and scope of the audit

The subject of our audit were the accounting records, the Financial Statements as of March 31, 2026, (Appendices 1.1 to 1.3), and the Management Report for the financial year ended March 31, 2026 (Appendix 1.4) as well as the compliance with the respective statutory accounting regulations.

We audited the Management Report to determine whether it is consistent with the Financial Statements as well as with the findings of the audit, whether it complies with the relevant statutory provisions and whether it gives a true and fair view of the Company's position; in doing so, we also audited whether the opportunities and risks of the Company's future development had been accurately depicted. The audit also covered whether the legal requirements for the preparation of the management report have been complied with.

The company's management is responsible for the accounting records, the preparation of the annual financial statements and the management report, the controls implemented for this purpose and the disclosures made to us. Our responsibility is to express an opinion on the documents submitted by the management and the disclosures made within the scope of our audit in accordance with our professional standards.

Our audit work was performed from March 11, 2026 to April 30, 2026 in our offices. The audit report was subsequently finalized.

The starting point for our audit were the assets, liabilities and capital accounts carried forward from the Financial Statements for the financial year from April 1, 2024 to March 31, 2025. The Financial Statements from the previous year were audited by us and received an unqualified audit opinion on April 28, 2025; it was approved unchanged by shareholder meeting on May 14, 2025.

We used the electronic accounting records and supporting documents as well as other documents and information provided digitally by the company served as audit documents.

All requested information, explanations, and supporting evidence were willingly provided to us by the management and the employees designated to provide such information.

In accordance with professional practice, the management confirmed in writing in a Company Letter of Representation on April 30, 2026 that the accounting records and the Financial Statements included all assets, liabilities (obligations, risks, etc.), accruals, expenses and income as reflected on the balance sheet, all required disclosures were made, and all existing contingent liabilities were made known to us. According to management's statements there were no other obligations or contingent liabilities requiring disclosure other than those reported in the balance sheet or in the notes to the Financial Statements. No events of particular significance have occurred since the end of the financial year and have not come to our attention during our audit.

In this report, management has further stated that the Management Report also contains, with regards to expected developments, all aspects essential for the assessment of the situation of the Company as well as the disclosures required pursuant to § 289 HGB.

Furthermore, the management has stated to us that, in their opinion, the effects of the uncorrected audit differences in the annual financial statements are individually and collectively immaterial.

In conducting our audit, we observed the requirements of §§ 316 ff. HGB and German Generally Accepted Standards for Financial Statement Audits promulgated by the IDW. Those standards require that we plan and perform the audit such that – but without specific focus on an embezzlement check – misstatements materially affecting the presentation of the net assets, financial position and results of operations of the company in accordance with the legal regulations are detected. Our audit did not extend to whether the continuation of the company as a going concern or whether the effectiveness and efficiency of the management is assured (§ 317 (4a) HGB).

The foundation of our risk- and process-oriented audit approach is the development of an audit strategy. This strategy is based on an assessment of the company's economic and legal environment, its goals, strategies, and business risks, which we evaluate using critical success factors. We supplement the audit of the internal control system related to financial reporting and its effectiveness with process and data analyses, conducted with the goal of determining their impact on relevant financial statement items, thereby allowing us to assess the risk of misstatements and our overall audit risk.

The insights gained from our data analyses, process reviews, and the evaluation of the internal control system related to financial reporting were taken into account when selecting our analytical procedures (plausibility assessments) and substantive tests concerning the existence, recognition, presentation, and valuation of items in the financial statements. In the company specific audit program, we defined the focus areas of our audit, the nature and scope of audit procedures, as well as the audit timeline and the allocation of staff. In doing so, we adhered to the principles of materiality and risk orientation, and consequently, our audit opinion was primarily based on the use of sampling techniques.

Audit planning and planning of our focal points was based on our preliminary appraisal of the position of the Company and the fundamental assessment of the accounting related internal controls and risk management (risk-oriented audit approach). That appraisal is developed from an assessment of the economic and legal environment in which the Company operates, its objectives, strategies and business risks, which we assessed on the basis of previous year's financial statements as well as discussions with the management and employees of the company.

Based on our risk assessment, the following areas represent the focal points of our audit:

- valuation of financial assets,
- completeness and valuation of other provisions and pension provisions,
- completeness and valuation of personnel expenses, as well as their proper accrual,
- completeness of balance sheet notes, notes and statements made in the Management Report.

Based on a preliminary assessment of the internal controls system, we applied the principles of materiality and efficiency when determining the further audit procedures. Both the analytical audit procedures and individual case reviews were therefore performed in selected samples according to type and scope, taking into account the significance of the audit areas and the organization of the accounting system. The samples were selected in such a way that they take into account the economic significance of the individual items in the annual financial statements and enable compliance with the statutory accounting requirements to be sufficiently verified.

The following audit procedures were carried out individually:

Valuation of financial assets

To prepare our impairment test of the financial assets, we obtained securities account statements from the custodian bank and assured ourselves that the Company was indeed the holder of the securities. Additionally, we compared the capitalized book values of these securities to year-end rates for the financial year as well as to up-to-date stock market prices at the date of our audit. This audit yielded no indications of necessary depreciations.

Completeness and valuation of other provisions and pension provisions

We reviewed the composition and development of other provisions compared to the previous year based on our understanding of the company's business activities, discussions with management, and the legal confirmations received. We assessed the completeness of these provisions and verified their valuation using the company's detailed schedules and calculation documents. Additionally, we examined the company's contracts for any unrecorded provision amounts.

As part of our audit of the recognized pension provisions, we relied on the actuarial report prepared by Lurse Pension & Benefits Consulting GmbH, Hannover, dated March 10, 2026 and March 24, 2026. We assessed the professional competence and qualifications of the actuary, as well as their impartiality, objectivity, and professional independence. Furthermore, we evaluated the nature and scope of the actuary's work. The plausibility of the pension provision valuations was confirmed through plausibility checks. Additionally, we obtained custody account statements from the custodian bank to verify the coverage assets and ensured that these assets are legally protected from access by other creditors and are solely dedicated to fulfilling pension obligations. We also compared the fair values of these securities with their market prices as of the balance sheet date.

Completeness and valuation of personnel expenses, as well as their proper accrual

We performed an analytical review of the development of personnel expenses compared to the previous year, including a comparison of key performance indicators. Monetary changes and personnel movements due to fluctuations were validated through discussions with the responsible personnel of the company. We also verified the proper presentation of personnel expenses, including the accruals for unsettled salary components and other personnel provisions.

Completeness of balance sheet notes, notes and statements made in the Management Report

The completeness of notes to the balance sheet, notes and statement of the Management Report was verified through interviewing the management and employees of the Company as well as examined against the background of our other audit procedures. We placed particular emphasis on verifying the correct attribution of balance sheet items and on the measurement and collateral security of the contingent liabilities.

Additional auditing procedures

Receivables and liabilities towards affiliated companies have been agreed with the companies concerned as of March 31, 2026. Where relevant, deviating balance confirmations were clarified as part of our audit.

Receivables from and payables to affiliated companies were fully reconciled.

Bank balances were verified using account statements as of the balance sheet date. Additionally, we checked the bank balance confirmation as of March 31, 2026, during our audit procedures to ensure the completeness of the notes to the balance sheet with regards to collaterals and contingent liabilities.

To audit the assets and liabilities, we reviewed excerpts from the commercial register, delivery and service contracts as well as other business records. We have requested confirmations from the Company's lawyers on pending legal disputes. We also requested a confirmation by the Company's tax consultant relating to possible tax risks.

According to management's statements there were no other obligations or contingent liabilities as per March 31, 2026, requiring disclosure other than those reported in the balance sheet or in the notes to the Financial Statements.

The management has further stated that the Management Report also contains, with regards to expected developments, all aspects essential for the assessment of the situation of the Company as well as the disclosures required pursuant to § 289 HGB. No events of particular significance occurred after the end of the financial year according to this declaration and none came to our attention during our audit.

4 Findings and explanations regarding the accounting

4.1 Conformity of the Financial Statements with legal requirements

4.1.1 Accounting records and other documents audited

For the accounting software used by the Company, "Kanzlei-Rechnungswesen", issued by DATEV eG, Nuremberg, there exists a software certificate pursuant to IDW AuS 880 issued by the auditing company EY GmbH & Co. KG, Stuttgart, dated May 9, 2025. According to this certificate, the software complies with the generally accepted accounting principles and allows for accounting procedures in accordance with these principles. In the course of our audit, we did not detect any issues that negate this finding. The additionally used accounting software constitutes a simple IT-system. We therefore abstained from a detailed system audit.

The organization of the Company's accounting and accounting related internal control system enables the complete, correct, timely and orderly recording and posting of business transactions. The chart of accounts is clear and well-arranged. The vouchers are compliant with our audited previous years balances and conclusive throughout the financial year.

The information obtained from the additional documents reviewed or used for the audit has been appropriately reflected in the bookkeeping, annual financial statements, and management report.

In our opinion, the accounting and additionally audited records and the other documents comply in all material matters with legal requirements, including the generally accepted accounting principles (or other relevant accounting principles). The audit did not give rise to any objections.

4.1.2 Financial Statements

The Company is a medium sized Company within the meaning of § 267 (2) HGB. These annual financial statements as of March 31, 2026 were prepared in accordance with the applicable commercial law provisions for medium sized companies.

The balance sheet and income statement have been properly derived from the accounting records and the other audited documents. The balance sheet (Appendix 1) is structured in accordance with the format of § 266 (2) and (3) HGB. The income statement (Appendix 1.2) was prepared using the total cost method in accordance with § 275 (2) HGB.

In instances where various presentation options are available for the balance sheet or income statement, the related disclosures are provided in the notes.

The notes to the Financial Statements (Appendix 1.3) comply with the legal requirements and include all necessary presentations, classifications, explanations, and justifications with regard to the evidence, preparation of the balance sheet, and the appraisal of the individual items of the balance sheet and the income statement as well as the other necessary information.

Pursuant to § 286 (4) HGB, the Company has abstained from declaring the remuneration of the board members. We confirm that the Company complies with the legal requirements necessary to claim this exemption.

In our opinion, the annual financial statements therefore comply in all material respects with the legal requirements, including generally accepted accounting principles. The audit did not give rise to any objections.

4.1.3 Management Report

The Management Report for the financial year 2025/2026 (Appendix 1.4) includes all required components pursuant to § 289 HGB. Concerning the Management Report we have determined the following

- Concordant with our findings, the business performance and the position of the Company are accurately portrayed; the Management Report is consistent with the Financial Statements and the findings of our audit.
- The Management Report complies with the statutory requirements.
- The Management Report gives a true and fair view of the Company's position.
- The Management Report accurately portrays the material risks and opportunities of future developments.

Please refer also to Appendix 1.4 for information about the Company's position from the management.

4.2 Overall picture conveyed by the Financial Statements

4.2.1 Findings regarding the overall picture conveyed by the Financial Statements

In our opinion, based on the findings of our audit, the Financial Statements, consisting of the balance sheet, income statement and the notes to the Financial Statements, provide an overall true and fair view of the Company's net assets, financial position and results of operations in accordance with the generally accepted accounting principles (§ 264 [2] HGB).

4.2.2 Measurement methods and their changes

TCS Business Services GmbH retained the accounting and measurement methods used for the items of the balance sheet and the income statement of the previous year. In order to maintain continuity with the previous year, the accounting and measurement options were not exercised again.

For further details, we refer to the disclosures in the notes to the Financial Statements (Appendix 1.3).

For the presentation of the measurement bases and other transactions not included in the balance sheet, please refer to the notes to the Financial Statements provided by the management.

During our audit, we also found no evidence of one sided application of margins of discretion for the purpose of a targeted manipulation of the results for the financial year or of grooming transactions taken which would have resulted in accounting differing from the economic situation.

4.3 Analysis of the Company's economic position

Because of the transparency of the annual Financial Statements and the additional explanations and breakdowns in the Management Report, we have abstained from explanations and break downs on items of the Financial Statements and an analysis of the assets, financial and profit situation.

5 Reproduction of audit opinion and signature of audit report

Upon completion of our audit, we issued the following unqualified audit opinion for the balance sheet, statement of income and notes to the Financial Statements (Appendices 1.1 to 1.3) as well as for the Management Report (Appendix 1.4) for the financial year from April 1, 2025, to March 31, 2026, of Financial Statements of TCS Business Services GmbH, Düsseldorf, as of April 30, 2026:

I. General information on the Company

The registered office TCS Business Services GmbH is in Düsseldorf. It is registered in the Commercial Register of the Local Court (Amtsgericht) in Düsseldorf under HRB 84792.

The Company is a medium sized Company within the meaning of § 267 (2) HGB.

The Financial Statements of TCS Business Services GmbH were compiled while maintaining the classification and valuation principles of the previous year in accordance with the legal requirements for medium sized companies by the German Commercial Code (HGB). Additionally, the provisions of the Limited Liability Act (GmbHG) were adhered to. The income statement was prepared according to the nature of expense method.

II. Accounting policies

The Financial Statements contain all assets, liabilities, deferred items, expenses and income in compliance with legal requirements. Items on the assets side were not offset with items from the liabilities side, expenses were not offset with income unless this was explicitly required pursuant to § 246 German Commercial Code.

The opening entries of the opening balance sheet were properly transferred from the previous years' statement. The valuation was based on the assumption of the Company's ability as a going concern. Assets and liabilities were valued individually.

Assets and liabilities were measured prudently, i.e. all foreseeable risks and losses which have occurred by the balance sheet date were taken into consideration, even if these only become known between the balance sheet date and the date of the preparation of the Financial Statements. Income was only recognized if it was realised ahead of the reporting date. Expenses and income of the financial year were recognized regardless of the date of payment.

Property, plant and equipment are measured at cost less scheduled straightline depreciation and unscheduled impairment losses if permanent impairment is expected. Scheduled straightline depreciation is measured based on the estimated operating lifespan. Tangible assets have an estimated lifespan of four years.

Financial assets were measured at cost or at a lower market value in case of expected permanent impairment.

Receivables and other assets are measured at acquisition costs. Recognizable individual risks as well as the risks of receivables default are recognized through value adjustments. Cash and cash equivalents are measured at face value.

Expenditures/income before the balance sheet date, insofar as they constitute costs/revenue for a period following this date, are presented as deferred items.

Provisions made for uncertain liabilities regarding pension obligations were estimated based on prudent commercial assessment with their probable settlement value which also accounts for expected wage developments. Provisions were made based on the projected unit credit method (PUC). Calculations were based on the guideline tables 2018 G of Dr. Heubeck. Provisions were discounted based on the average market interest rate annual for the last ten years of 2.11 per cent (Previous year: 1.94 per cent). According to historical experience, pension adjustments of 2.0 per cent, wage adjustments of 3.5 per cent as well as a rise of the upper limit for social security expenses of 2.5 per cent were considered.

Profit effects resulting from changes in the applied actuarial interest rate were shown within the personnel costs.

Assets that solely serve for fulfilment of pension obligations and cannot be seized by any other creditors were measured at fair value (cover assets). Income and expenditures from these assets were netted with the expenses resulting from provisions compounding. Additionally, these assets were charged against their underlying obligations. As this yields an obligation surplus at the balance sheet date, the result is shown with the provisions for pensions.

Provisions for taxation and other provisions which are uncertain regarding their value and/or their date of occurrence were measured on the basis of prudent commercial assessment at the expected settlement amount for these uncertain liabilities.

Current liabilities are reported with their repayment or settlement amount.

Assets and liabilities in foreign currencies with maturity dates of less than a year were measured based on the mean spot exchange rate of the balance sheet date. All other assets and liabilities were measured either at the exchange rate on the date of invoicing or the higher mean spot exchange rate of the balance sheet date.

Deferred taxes were recognized for amounts resulting from temporary differences between the amounts shown in the

commercial balance sheet and the tax balance sheet if these differences are expected to scale down in the following fiscal years. An overall resulting tax burden is shown as deferred tax liabilities in the balance sheet. In case of an overall resulting tax relief, the company does not apply the optional capitalization pursuant to § 274 (1) sentence 2 German Commercial Code.

Pursuant to § 274 (1) sentence 3 German Commercial Code, deferred taxes are shown without offsetting.

III. Explanatory notes on the balance sheet

The developments of the individual items of the fixed assets are shown in the statement of movements in fixed assets (gross).

Receivables from affiliated companies result exclusively from receivables for deliveries and services.

Within the other assets, an amount of 28 kEUR (Previous year: 28 kEUR) has a maturity date of more than a year.

The amounts barred from distribution pursuant to § 268 (8) German Commercial Code amount to 3,203 kEUR and are composed of 490 kEUR for covering of longterm work accounts and of 2,713 kEUR for covering pension obligations. The amounts barred from distribution therefore solely result from the capitalization of covering amounts at fair value.

From the discounting of provisions for pensions at the average market interest rate of the last ten years in comparison to the discounting at the average market interest rate of the last seven years results a difference of 676 kEUR. This difference is barred from distribution pursuant to § 253 (6) sentence 2 German Commercial Code.

For netting liabilities from pension obligations with amounts for cover assets, the following amounts were determined:

Settlement amount of liabilities: 16,533 kEUR

Acquisition costs of the netted assets: 8,571 kEUR

Netted assets at fair value: 11,284 kEUR

Netted expenses: 1,018 kEUR

The amount at fair value results from the end of day stock market price for the securities of the cover assets on the balance sheet date and was measured on the basis of securities account statements.

Other provisions (3,024 kEUR) essentially comprise provisions for bonus payments (1,556 kEUR), anniversary bonuses (766 kEUR), vacation payments (182 kEUR) and for overdue receivables (158 kEUR).

As in the previous year, all liabilities will be due within one year.

Of the liabilities from trade payables amounting to EUR 225,830.61, a total of EUR 119,258.73 is owed to affiliated companies.

Deferred tax balances for the financial year have developed as follows:

	At the beginning of the financial year	Change	At the end of the financial year
Deferred tax assets	2,941,100.00	(770,800.00)	2,170,300.00
Deferred tax liabilities	2,047,000.00	34,500.00	2,081,500.00

In accordance with § 274 (1) HGB, the resulting tax reduction is not recognized as tax as set in the balance sheet.

IV. Explanatory notes on the income statement

Other operating income in the amount of 12 kEUR (Previous year: 7 kEUR) comprises solely of income from foreign currency translation.

Other operating expenses contain expenses from foreign currency translation in the amount of 159 kEUR (Previous year: 24 kEUR).

The amount of other interest and similar expenses contains expenses resulting from provisions compounding for pension obligations in the amount of 342 kEUR (Previous year: 330 kEUR).

The transition from net income to retained profit is calculated as follows:

Net income	**2,224 kEUR**
+ Accumulated profit brought forward	**3,320 kEUR**
= Retained profit	**5,544 kEUR**

The net income for the year is carried forward to the next financial year.

V. Other disclosures

Other financial obligations

As of 31 March 2026, the other financial obligations amount to 718 kEUR

Members of the Company's executive bodies

During the financial year, the Company's business activities were managed by the following individuals:

Sapthagiri Chapalapalli, Chennai

Rabindran Vennimalai, Chennai

Mr. Sapthagiri Chapalapalli is responsible for Sales and Mr. Rabindran Vennimalai is responsible for Accounting and Finance. Mr. Sapthagiri Chapalapalli is employed by Tata Consultancy Services Deutschland and Mr. Rabindran Vennimalai is employed by Tata Consultancy Services Netherlands B.V.

The Company made use of the protection clause pursuant to § 286 (4) German Commercial Code.

Average number of employees during the financial year

The total average number of employees amounts to 78 (Previous year: 88). The Company has only salaried employees.

	2024/2025	2025/2026
Place of employment		
Düsseldorf	67	58
Berlin	21	20
Total average number of employees	**88**	**78**

Parent company

Tata Consultancy Services Limited, Mumbai, India, prepares the consolidated financial statement for the smallest group of companies and Tata Sons Limited, Mumbai, India, prepares the consolidated financial statements for the largest group of companies, into which Tata Consultancy Services Deutschland GmbH is respectively included. The consolidated financial statements can be obtained from Bombay House, Mumbai, India. The consolidated financial statements of Tata Consultancy Services Limited, Mumbai, India, are published unter the register number 11-84781 and the consolidated financial statements of Tata Sons Limited, Mumbai, India, are published under the register number 478.

Subsequent Events Report

Global trade tensions have escalated to a new level with the announcement of reciprocal tariffs, significantly increasing the likelihood of a recession.

As a result, the current market reactions have led to a negative price development of the coverage assets for the company's pension obligations, with an impact recognized in the new fiscal year 2026/2026.

The decline amounted to 502 kEUR (-5%) as of April 22, 2026, compared to the fair value reported in the financial statements as of the balance sheet date.

Back to content

Management report for the business year from April 1, 2025, to March 31, 2026

I. Company profile

1.1 Business Model

The Company operates in the information technology market. It provides services in the areas of management consulting and software development. It currently provides services exclusively for Tata Consultancy Services Deutschland GmbH (TCS), which is charged using the cost plus method.

1.2 Human Resources

The number of staff employed by the Company decreased from an average of 88 in the financial year 2024/2025 to an average of 78 in the financial year 2025/2026 due to fluctuation. The Company employs all staff in Germany, of which 58 are based in Düsseldorf and 20 in Berlin. All operating costs for these employees, together with all other costs of the Company, are charged in full to TATA Consultancy Services Deutschland GmbH at a mark-up of 7% (cost plus method).

II. Economic report

2.1. General economic conditions and industry environment

At the end of the first quarter of 2026, the German economy continued to be characterized by a subdued economic environment. According to the Federal Statistical Office, Germany recorded slight real growth in gross domestic product of 0.2% in 2025, after the economy had been in decline in the previous two years. According to the Federal Statistical Office, the reasons for this moderate growth lay in particular in higher consumer spending by private households and the state.

According to the industry association Bitkom, the IT market in Germany once again developed positively in 2025 despite persistently challenging economic conditions, achieving growth of 5.2%. Even though this growth did not reach the previous year's level of 6.4%, it nonetheless reflects the stability and resilience of the IT sector. According to Bitkom, the main growth driver in 2025 was the software segment, which recorded an increase of 9.5% (previous year: 13.7%). Revenues from IT services grew by 2.7% (previous year: 3.7%).

2.2. Business Performance

Revenues for the financial year decreased by 1,982 kEUR to 11,658 kEUR compared with the 2024/2025 financial year. Revenue is largely dependent on the costs incurred by TCS Business Services GmbH under the cost-plus method. Due to the decline in employee numbers and the associated reduction in personnel expenses, lower revenues were generated in the financial year than expected.

As a result of higher interest income on our financial fixed assets, a higher profit before tax was achieved compared with the previous year. This increased from 823 kEUR to 2,421 kEUR. Accordingly, in 2025/2026 our central financial performance indicator "revenue" was negative, while the central financial performance indicator "profit before tax" developed positively. Overall, the forecast for the 2025/2026 financial year was thus achieved. Management is satisfied with the course of the financial year.

2.3. Assets, liabilities, financial position and financial performance

Financial performance

Sales decreased from 13,640 kEUR to 11,658 kEUR. Due to the cost-plus method used, it is not possible to analyze sales by product and/or region. Rather, the decrease is mainly attributable to lower personnel expenses and material expenses. In addition, the net loss for the year is mainly influenced by increased interest expenses for additions to pension provisions, as the cost-plus method only relates to earnings before interest and taxes (EBIT).

kEUR

	2024/2025	2025/2026
Earnings after taxes	1,104	2,224

The development of the main types of expenses in relation to total output is shown below:

	01.04.2024 - 31.03.2025	01.04.2025 - 31.03.2026
	%	%
Personnel expenses	80	74
Other operating expenses	13	18

Due to the differing tax treatment of pension provisions and excessive prepayments, the reporting year shows positive income tax expense.

Financial position

Compared to March 31, 2025, cash and cash equivalents increased from 210 kEUR to 875 kEUR. The development of cash and cash equivalents is largely dependent on the Group's internal liquidity management. The Company was able to meet its payment obligations at all times in the year under review.

Cash flow from operating activities rose from 62 kEUR in the 2024/2025 financial year to 1,397 kEUR in the 2025/2026 financial year. This is mainly due to the reduction in receivables from affiliated companies and the reduction in pension provisions .

All liabilities and provisions (with the exception of pension provisions) have a shortterm maturity. Their share of total assets is 23.8 %.

The Company reports positive net current assets of 4,548 kEUR (previous year: 4,550 kEUR). Net current assets comprise cash and cash equivalents, current receivables and other assets less current provisions and liabilities.

Assets and liabilities

Total assets decreased by kEUR 1,328 to kEUR 14,202 compared with 31 March 2025, mainly due to the decline in receivables from affiliated companies.

The average collection period for trade receivables (trade receivables * 360 / revenue) decreased from 198 days in the prior year to 159 days in the current financial year. Management does not see any credit risk, as trade receivables exist exclusively due from a solvent affiliated company.

III. Forecast, opportunities and risks

3.1. Forecast report

According to the latest joint economic assessment by Germany's leading economic research institutes, the conflict in the Persian Gulf and the associated sharp rise in oil and gas prices have hit the German economy at a time when, after a prolonged downturn, it had only just begun to recover. The participating institutes have therefore revised their forecast from the autumn report and now expect real gross domestic product (GDP) in 2026 to grow by only 0.6%. For 2027, they forecast an increase of 0.9%. The institutes do not see cyclical but rather structural reasons for the economic weakness. They cite the decline in the export industry's competitiveness, the shrinking working age population, only weak productivity growth, and the high bureaucratic burden. By contrast, expansionary fiscal policy – especially the significant increase in new borrowing for defence, infrastructure and climate protection – is mentioned as a factor supporting economic activity. For the German IT and digital sector, the overall conditions remain significantly more favourable than for the economy. According to Bitkom, the market for information technology and telecommunications (ICT) in 2026 is expected to grow by 4.4% to EUR 245.1 billion. IT revenue alone is forecast to rise to EUR 170 billion, an increase of 5.8%. Within this, the software business is expected to develop particularly dynamically, with growth of 10.2% to EUR 58.3 billion. This means that the sector continues to be regarded as an important driver of growth in the German economy.

For a German IT company, this results in good market opportunities, especially in the areas of software, cloud, IT security and digital infrastructure. At the same time, however, the economic environment remains challenging, as customer investments may continue to be postponed and decision making processes may be delayed against the backdrop of overall economic uncertainty.

Outlook for the company

All operational risks are borne by TCS, as the company operates on a cost-plus basis, calculated on EBIT. A further slight decline in the number of employees is expected, which will therefore also have a slightly negative impact on our performance indicators revenue and profit before tax. As a result, the company's further development thus largely dependent on cost trends and the performance of TCS. Therefore, the following section addresses TCS's forecast:

In order to achieve growth rates above the industry average in the 2026/2027 financial year and beyond, management plans to deepen market shares with existing customers and selectively implement multiyear programmes to transform business and operating models with AI at their core. Based on current forecasts, slight revenue growth and a moderate increase in net income are expected for the 2026/2027 financial year.

3.2. Risk report

Industry-specific risks

Here, too, reference is made again to the risks of TCS. In general, customers' willingness to invest is influenced by the overall economic development in their respective countries. As the Company generates the majority of its revenue in Germany, the development of the German economy is a key factor for the Company's growth. Based on the current state of knowledge and the trend towards consolidating spending with fewer strategic partners, the German economy is considered to have sufficient growth potential despite weak forecasts. The Company therefore assesses this risk as low.

Income-related risks

Based on the cost-plus method, no significant risks are seen here, with the exception of potential interest charges in connection with pension provisions.

Financial risks

Foreign currency risks arise in particular from the conclusion of transactions in US dollars and other foreign currencies. A weakening of the dollar or other foreign currencies against the euro could therefore lead to foreign currency losses. The risk is considered to be low. The interest rate risks arising from pension commitments are to be offset by covering them with securities.

Reference is again made here to the financial risks of TCS:

At TCS, default and liquidity risks are limited by the selection of customers and close co operation in payment transactions between sales and administration within the framework of a functioning dunning system. TCS has a solvent and creditworthy customer base. Bad debt losses are the absolute exception. In addition, there is a long standing cooperation with the majority of customers. In this respect, we consider the financial risk of a liquidity bottleneck, in particular due to possible late payments to us by our sister company TCS, to be low.

Management does not see any risks that could jeopardize the Company's ability to continue as a going concern.

3.3. Opportunities

TCS' ability to generate growth and maintain economic momentum is linked to its ability to consistently meet customers' ever changing business needs and help them transform by deploying new digital technologies in their businesses. The supplier consolidation offers opportunities and new services and solutions such as S4 HANA, public cloud and cybersecurity services and solutions continue to offer good growth opportunities on the market. In addition, new business areas are to be developed, expanded and marketed to both new and existing customers (including German SMEs). Based on current knowledge, TCS assesses the opportunities as medium.

Düsseldorf, 30th Apr 2026

TCS BUSINESS SERVICES GMBH

S. Chapalapalli	R. Vennimalai
(Managing Director)	(Managing Director)

Independent auditor's report

To TCS Business Services GmbH, Düsseldorf:

Audit opinion

We have audited the annual Financial Statements of TCS Business Services GmbH, Düsseldorf, which comprise the balance sheet as of March 31, 2026, the statement of income and the notes to the Financial Statements. In addition, we have audited the Management Report of TCS Business Services GmbH, Düsseldorf, for the financial year from April 1, 2025, to March 31, 2026.

In our opinion, based on the knowledge obtained in the audit,

- the accompanying Financial Statements comply, in all material aspects, with the requirements of German commercial law as applicable to corporations and, in compliance with these requirements, give a true and fair view of the assets, liabilities, and financial position of the Company as of March 31, 2026 and of its financial performance for the financial year from April 1, 2025, to March 31, 2026, and
- the accompanying Management Report as a whole provides an appropriate view of the Company's position. In all material aspects, this Management Report is consistent with the Financial Statements, complies with German legal requirements and appropriately presents the opportunities and risks of future developments.

Pursuant to § 322 (3) sentence 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the Financial Statements and of the Management Report.

Basis for the audit opinion

We conducted our audit of the Financial Statements and of the Management Report in accordance with § 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the „Auditor's Responsibilities for the Audit of the Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of German commercial and professional law, and we have fulfilled our German professional responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements and on the Management Report.

Responsibilities of the management for the Financial Statements and the Management Report

The management is responsible for the preparation of the Financial Statements that comply, in all material aspects, with the requirements of German commercial law as applicable to corporations and that the Financial Statements, in compliance with these requirements, give a true and fair view of the assets, liabilities, financial position, and financial performance of the Company. In addition, the management are responsible for such internal controls as they have determined necessary to enable the preparation of Financial Statements that are free from material misstatements, whether due to fraud or error.

In preparing the Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matter related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting unless there is an intention to liquidate the Company or to cease operations, or there is no realistic alternative but to do so.

Furthermore, the management is responsible for the preparation of the Management Report that, as a whole, provides an appropriate view of the Company's position and is, in all material aspects, consistent with the Financial Statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future developments. In addition, the management is responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a Management Report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the Management Report.

Auditor's Responsibilities for the Audit of the Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatements, whether due to fraud or error, and whether the Management Report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the Financial Statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future developments, as well as to issue an auditor's report that includes our audit opinion on the Financial Statements and the Management Report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with § 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements and this Management Report.

We exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatements of the Financial Statements and of the Management Report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit of the Financial Statements and of the arrangements and measures (systems) relevant to the audit of the Management Report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of these systems.
- Evaluate the appropriateness of accounting policies used by the management and the reasonableness of estimates made by the management and related disclosures.
- Conclude on the appropriateness of the management use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the Financial Statements and in the Management Report or, if such disclosures are inadequate, to modify our respective audit opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements present the underlying transactions and events in a manner that the Financial Statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with the requirements of the German commercial law.
- Evaluate the consistency of the Management Report with the Financial Statements, its conformity with German law, and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by the management in the Management Report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the management as a basis for the prospective information and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during the audit.

6. Concluding remarks

We issue the above audit report on the Financial Statements and the Management Report of TCS Business Services GmbH, Düsseldorf, for the fiscal year from April 1, 2025, to March 31, 2026, in compliance with the statutory regulations as well as IDW AuS 450 (n. V.) „Generally accepted standards for the issuance of long form audit reports for the audits of Financial Statements".

For the unqualified audit opinion we have issued, please refer to section 5 Reproduction of audit opinion and signature of audit report.

Any use of this audit opinion reproduced above beside this report requires our prior approval. Any publication or dissemination of the annual financial statements and the management report in a form differing from the audited version (including translation into other languages) requires our prior renewed opinion if our audit opinion is cited or reference is made to our audit, reference is made to § 328 HGB.

INDEPENDENT AUDITOR'S REPORT

To the TCS Technology Solutions GmbH, Bonn

Audit Opinions

We have audited the annual financial statements of TCS Technology Solutions GmbH, Bonn, which comprise the balance sheet as at 31 December 2025, and the statement of profit and loss for the financial year from 1 January 2025 to 31 December 2025, and notes to the financial statements, including the presentation of the recognition and measurement policies. In addition, we have audited the management report of TCS Technology Solutions GmbH, Bonn, for the financial year from 1 January 2025 to 31 December 2025. In accordance with the German legal requirements, we have not audited the content of the statement on corporate governance pursuant to section 289f paragraph 4 HGB [Handelsgesetzbuch: German Commercial Code] (disclosures on the quota for women on executive boards).

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to business corporations and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2025 and of its financial performance for the financial year from 1 January 2025 to 31 December 2025 in compliance with German Legally Required Accounting Principles, and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our audit opinion on the management report does not cover the content of the statement on corporate governance referred to above.

Pursuant to section 322 paragraph 3 sentence 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Audit Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the annual financial statements and on the management report.

Other Information

The executive directors are responsible for the other information. The other information comprises the statement on corporate governance pursuant to section 289f Paragraph 4 HGB (disclosures on the quota for women on executive boards).

Our audit opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an audit opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report information audited for content or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Executive Directors and the Supervisory Board for the Annual Financial Statements and the Management Report

The executive directors are responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations and that the annual financial

statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles. In addition, the executive directors are responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud (i.e., fraudulent financial reporting and misappropriation of assets) or error.

In preparing the annual financial statements, the executive directors are responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The supervisory board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our audit opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of internal control or these arrangements and measures.
- Evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.
- Conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective audit opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.

- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with German law, and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by the executive directors in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes forming part of the Financial Statements

I. GENERAL NOTES TO THE FINANCIAL STATEMENTS AS OF 31 DECEMBER 2025

TCS Technology Solutions GmbH, Bonn (TCS GmbH), was entered in the Commercial Register at Bonn Local Court on 13 April 2023 under the number HRB 27943.

These financial statements have been prepared in accordance with the provisions of the Third Book of the German Commercial Code (Handelsgesetzbuch, "HGB").

The Company is a large corporation according to the criteria of Section 267 (3) HGB.

The income statement has been prepared using the expense method.

The fiscal year corresponds to the calendar year.

II. INFORMATION ON SHAREHOLDINGS

The share capital of TCS GmbH of TEUR 3,250,000 is held 100% by Tata Consultancy Services Netherlands B.V., Amsterdam, Netherlands (TCS).

For the smallest group, Tata Consultancy Services Limited, Mumbai, India, and for the largest group, Tata Sons Limited, Mumbai, India, each prepares consolidated financial statements in which TCS GmbH is included.

The consolidated financial statements are available at Bombay House, Mumbai, India. The consolidated financial statements of Tata Consultancy Services Limited, Mumbai, India, are published under registration number 11-84781, and the consolidated financial statements of Tata Sons Limited, Mumbai, India, under registration number 478.

III. ACCOUNTING AND VALUATION METHODS

Intangible assets purchased against payment are valuated at acquisition cost less straight-line depreciation. In the year of acquisition, an asset is depreciated pro rata temporis. The useful life is generally set to five years.

Property, plant and equipment are valued at acquisition cost less scheduled straight-line depreciation.

Depreciation in 2025 is based on the following definitions for useful life:

	Years
Data processing units	4.5
Telecommunications equipment	5
Operating equipment	6
Office equipment	10

Receivables and other assets are measured at nominal value.

Cash and bank balances

As of the reporting date, TCS GmbH had bank balances in the amount of TEUR 32,782, which are reported at nominal value.

Prepaid expenses are recognized pursuant to Section 250 para.1 HGB for expenses incurred prior to the balance sheet date, which represent expenditure for a certain period after the balance sheet date.

Obligations arising from pensions and similar obligations at TCS GmbH are secured against insolvency through cover assets at Metzler Trust e.V., Frankfurt am Main. The asset-side **difference from offsetting of assets** shows the asset-side surplus from offsetting the cover assets against provisions for pensions and similar obligations. Cover assets, serving exclusively to meet liabilities arising from pensions and similar obligations and are not accessible to all other creditors, are measured at fair value pursuant to Section 253 para. 1 sent. 4 HGB and offset against pension obligations pursuant to 246 para. 2 sent. 2 and 3 HGB.

Provisions for **pensions and similar obligations** are valued pursuant to actuarial principles (modified guideline tables 2018 G by Dr. Klaus Heubeck) based on an assumed interest rate of 2.06%, a salary dynamic of 2.80% and an adjustment rate for pensions of 2.20% p.a.. The projected unit credit method is used as the valuation method.

The difference resulting from the valuation of pension obligations using the actuarial interest rate based on the 10-year average and the valuation using the 7-year average is subject to the distribution ban as per Section 253 para. 6 HGB (see chapter VI 2. Distribution ban).

For discounting purposes, TCS GmbH uses the actuarial interest rate determined and published by the Deutsche Bundesbank, which results from an assumed remaining term of 15 years.

Equity is recognised at the nominal amount.

Other provisions are recognised as follows:

1. **Anniversary provisions**

   These are valued according to actuarial principles (modified guideline tables 2018 G by Dr. Klaus Heubeck) based on an actuarial interest rate of 2.22% and a salary dynamic of 2.80% p.a. The projected unit credit method is used as the valuation method.

2. **Death benefit provisions**

   These are valued according to actuarial principles (modified guideline tables 2018 G by Dr. Klaus Heubeck) based on an actuarial interest rate of 2.22% and a salary dynamic of 2.80%. The projected unit credit method is used as the valuation method.

3. **Early retirement provisions**

   These are valued according to actuarial principles (modified guideline tables 2018 G by Dr. Klaus Heubeck) based on an actuarial interest rate of 1.85% and a salary dynamic of 2.80%. The projected unit credit method is used as the valuation method.

4. **Miscellaneous other provisions**

   In accordance with Section 253 para. 1 Sentence 2 and para. 2 HGB, other non-current provisions are recognized at their settlement amount, which is discounted over the individual term using the interest rates of Deutsche Bundesbank. Provisions with a remaining term of up to one year are not discounted.

   Provisions are measured in such a way that they adequately cover all known but uncertain risks in terms of amount and/or timing. They are considered at the settlement amount deemed necessary in accordance with prudent business judgment.

   Liabilities are recognized at their settlement amount.

IV. DISCLOSURES ON INDIVIDUAL ITEMS OF THE BALANCE SHEET

1. Fixed assets

The development of fixed assets from 1 January 2025 to 31 December 2025 can be seen in the attached gross fixed asset movement schedule.

2. Receivables and other assets

Receivables and other assets of TEUR 20,095 (prior year: TEUR 38,959) include receivables from a loan to affiliated companies amounting to TEUR 5,000 (prior year: TEUR 20,000), trade receivables of TEUR 12,579 (prior year: TEUR 14,803), other receivables from employees of TEUR 51 (prior year: TEUR 157) and creditors with debit balances of TEUR 0 (prior year: TEUR 1,672).

There were no foreign currency receivables as at the balance sheet date.

Receivables and other assets have a remaining term of up to one year.

3. Prepaid expenses

Prepaid expenses mainly comprise advance payments for rent, maintenance and upkeep of hardware and software for subsequent years.

4. Asset-side difference from offsetting of assets

The asset-side difference from asset offsetting results from offsetting the cover assets available to secure the pension payment against the accruals for pensions and similar obligations.

Provisions for **pensions and similar obligations** are offset against the fair value of a cover asset pursuant to Section 246 para. 2 Sentence 2 HGB and, pursuant to Section 246 para. 2 Sentence 3 in conjunction with Section 266 para. 2 lit. E. HGB under the separate asset item "Asset-side difference from offsetting of assets".

The following table shows the fulfilment amounts of the pension provision existing at the end of the year and the fair value of the cover assets, which is based on market prices, as well as the resulting difference:

	As of December 31, 2025	As of December 31, 2024
	TEUR	TEUR
Settlement amount pension provision	119,560	121,815
Fair value cover assets	150,077	142,245
Difference on assets side from offsetting of assets	**30,517**	**20,430**
Acquisition costs of cover assets	126,717	126,397
Unrealised gains/losses on cover assets	23,360	15,848

The excess of cover assets over pension liability increased in the reporting year from EUR 20.4 million to EUR 30.5 million due to the higher valuation of cover assets and the simultaneous increase in pension obligations. The balance is recognised on the assets side of under Excess of cover assets over pension liability.

In fiscal year 2025, the acquisition costs of cover assets increased by TEUR 320 (prior year: TEUR 293). The unrealised gain from the cover assets increased by TEUR 7,512 to TEUR 23,360 as at the balance sheet date. As at 31.12.2025, the balance from the income from the valuation of the cover assets as at the balance sheet date of TEUR 7,512 (prior year: TEUR 19,726) is offset against the interest expense from the pension provision of TEUR 2,269 (prior year: TEUR 2,187) and the income from the change in interest rates of TEUR 2,923 (prior year: TEUR 1,354) and recognised under interest and similar income in the amount of TEUR 8,485 (prior year: TEUR 19,187).

The difference between the recognition of pension provisions based on the seven-year average interest rate and the ten-year average interest rate amounts to TEUR -(2,814) (prior year: TEUR -(1,142) as of the balance sheet date.

5. Equity

In accordance with Section 272 HGB, **equity includes** subscribed capital, the capital reserve and other revenue reserves. The company's **subscribed capital** amounts to TEUR 3,250.

As at 31 December 2025, the equity ratio was 55% (prior year: 63%).

Other revenue reserves include amounts of TEUR 8,579 (prior year: TEUR 8,579) that were allocated in the past due to amounts blocked from distribution.

6. Provisions

The **tax provisions** of TEUR 8 (prior year: TEUR 17) include TEUR 8 (prior year: TEUR 17) in corporate tax.

Other provisions mainly relate to early retirement (TEUR 8,488; prior year: TEUR 9,762), bonus entitlements (TEUR 2,014; prior year: TEUR 2,622), vacation/overtime entitlements (TEUR 1,431; prior year: TEUR 2,361) and outstanding invoices (TEUR 813; prior year: TEUR 2,635).

Notes forming part of the Financial Statements

7. Liabilities

Liabilities of TEUR 25,165 (prior year: TEUR 26,698) include TEUR 4,562 (prior year: TEUR 11,704) in trade payables, other liabilities for severance payments amounting to TEUR 19,593 (prior year: TEUR 12,710) and TEUR 1,457 (prior year: TEUR 2,473) in liabilities from operating taxes and levies.

There were no foreign currency liabilities or liabilities with a remaining term of more than 5 years as at the balance sheet date.

8. Deferred taxes

Deferred tax assets result from valuation differences in non-current assets and non-current provisions.

The option to capitalize the surplus of deferred income tax assets pursuant to Section 274 para. 1 sentence 2 HGB has not been exercised.

V. NOTES TO INDIVIDUAL ITEMS OF THE INCOME STATEMENT

1. Revenues

The sales revenues amounting to TEUR 86,363 (prior year: TEUR 126,162) were primarily generated through project services and have decreased by 31.5% compared to the previous year.

These were generated entirely domestically.

2. Other operating income

Other operating income of TEUR 3,117 (prior year: TEUR 3,617) includes income relating to other periods of TEUR 3,114 (prior year: TEUR 3,553), which is mainly attributable to the reversal of the WERE account and provisions.

3. Cost of materials

The cost of materials is made up of expenses for raw materials, consumables and supplies and for purchased goods totalling TEUR 0 (prior year: TEUR 154) and expenses for purchased services amounting to TEUR 16,664 (prior year: TEUR 37,034). Expenses for purchased services mainly relate to rent, maintenance and upkeep in the amount of TEUR 9,879. Another significant expense concerns IT consultant services at TEUR 6,713.

4. Personnel expenses

Personnel expenses comprise wages and salaries of TEUR 89,690 (prior year: TEUR 103,662) and social security contributions of TEUR 12,709 (prior year: TEUR 16,200).

5. Depreciation

Depreciation in the reporting period was allocated to intangible fixed assets in the amount of TEUR 285 (prior year: TEUR 409) and to technical equipment/operating and office equipment of TEUR 801 (prior year: TEUR 1,404).

6. Other operating expenses

Other operating expenses of TEUR 6,896 (prior year: TEUR 12,061) mainly include expenses for rent, occupancy costs and ancillary costs of TEUR 1,955, energy costs of TEUR 1,834, legal and consulting costs of TEUR 546 and insurance costs of TEUR 620.

7. Other interest and similar income

Other interest and similar income includes interest income from cash investments with SBI Bank of TEUR 959 (prior year: TEUR 2,893), interest from loans to affiliated companies of TEUR 562 (prior year TEUR 163) and income from the valuation of cover assets of TEUR 7,831 (prior year: TEUR 20,020).

8. Interest and similar expenses

Interest and similar expenses include expenses from the following effects regarding pensions:

	As of December 31, 2025	As of December 31, 2024
	TEUR	TEUR
Interest portion of pensions	**2,269**	2,187
Interest rate change	**(2,923)**	(1,354)
Net result	**(654)**	833

In addition, interest expenses from the interest portion of other personnel provisions amounting to TEUR 86 (prior year: TEUR 22) are reported under interest and similar expenses.

9. Taxes on income and earnings

Income taxes include expenses for corporate tax in the amount of TEUR 0 (prior year: TEUR 1,352) and trade tax in the amount of TEUR 0 (prior year: TEUR 83).

VI. OTHER INFORMATION

1. Other financial obligations

In the context of rental, maintenance and other contracts, there are other financial obligations pursuant to Section 285 No. 3a HGB. The breakdown is as follows:

	2025	2026	2027	2028	2029	Total
	TEUR	TEUR	TEUR	TEUR	TEUR	TEUR
Obligations from rental contracts	4,110	2,330	1,512	974	974	9,900
Obligations from maintenance contracts	4,140	27	27	0	0	4,194
Total obligation	**8,250**	**2,357**	**1,539**	**974**	**974**	**14,094**

2. Distribution/disbursement block

The Company acts in full compliance with the regulations on profit transfer based on the distribution and disbursement block.

The amounts relevant for distributions and disbursements are as follows:

	As of December 31, 2025	As of December 31, 2024
	TEUR	TEUR
Amounts blocked from distribution pursuant to section 268 para. 8 HGB in conjunction with Section 285 No. 28 HGB		
Difference between acquisition cost of cover assets and valuation at fair value	23,360	15,848
Difference from the valuation of pension provisions blocked against distribution as per Section 253 para. 6 HGB (No block on distributions in 2025, as it is negative)	(2,814)	(1,142)
Total	**20,546**	**14,706**

TCS Technology Solutions GmbH generated a loss in the reporting year.

Notes forming part of the Financial Statements

3. Report on subsequent events

Since 28.02.2026, a military conflict has been taking place between the United States of America (USA) and the State of Israel on the one hand and the Islamic Republic of Iran on the other (hereinafter also referred to as the "Middle East War"). The war in the Middle East has a significant impact on the entire global economy. Since the beginning of the war, energy prices have risen sharply and global supply chains have been significantly affected – especially due to the blockade of the Strait of Hormuz – resulting in scarce transport capacities, which are leading to cost increases and in some cases to delivery delays. We continuously monitor the further development of the Middle East war and the consequences on the business development of TCS Technology Solutions GmbH. A prolonged conflict in the Middle East could have negative effects on the net assets, financial position and results of operations of TCS Technology Solutions GmbH in 2026 due to the macroeconomic effects described above, the extent of which, however, cannot be reliably determined at this time.

Otherwise, there were no events of particular significance after the balance sheet date that had a material impact on our results of operations, financial position and net assets.

4. Organs of the company

Members of the Executive Board

Ingo Rosenstein, Velbert Chairman of the Management Board	until 31 March 2026
Vennimalai Rabindran, Zeist, Netherlands	
Managing Director	
Rajeev Das, Amstelveen, Netherlands	
Managing Director	

Members of the Supervisory Board

Sapthagiri Chapalapalli, Frankfurt am Main
Chairman of the Supervisory Board (Managing Director Tata Consultancy Deutschland GmbH)

Heinz Gehri, Monsingen, Switzerland
Deputy Chairman of the Supervisory Board (Country Head and Director of Tata Consultancy Services Switzerland)

Employee representatives

Andreas Beutner, Hameln
Employee at TCS Technology Solutions GmbH

5. Remuneration of the governing bodies

Board members did not receive any remuneration in the reporting year or in the previous year.

Pension obligations for former board members amount to TEUR 5,323 as of 31 December 2025 (prior year: TEUR 5,607)

Members of the Supervisory Board did not receive any remuneration in the reporting year or in the previous year.

There are no pension obligations for former members of the Supervisory Board.

No advances or loans were granted to members of corporate bodies.

Notes forming part of the Financial Statements

6. Number of employees

The average number of employees is as follows:

	As at December 31, 2025	As at December 31, 2024
Civil servants on leave	63	83
Employees	663	853
Total	**726**	**936**
Part-time employees hereof	86	110

Parental leave (7 in 2025), dual students (0 in 2025), apprentices (0 in 2025), working students (0 in 2025) and the Board (0 in 2025) are not included in the average number of employees.

7. Auditor's fee

	As at December 31, 2025	As at December 31, 2024
Auditor services	55.0	55.0
Other confirmation services	0.0	0.0
Tax consultant services	23.0	27.0
Other services	0.0	0.0
Total	**78.0**	**82.0**

8. Minimum taxation Pillar II

The Company is not an ultimate parent of a group which is Pillar II taxes and has consistently an effective tax rate of more than 15%.

Therefore, the Company does not anticipate any impact from Pillar II.

9. Appropriation of earnings

The Management proposes to carry forward the annual deficit of EUR 27,646,068.80 as a loss carryforward to new account.

Management Report for the Financial year 2025

1. Basics of the company

TCS Technology Solutions GmbH ('Company') has its registered office in Bonn and has nine locations: Berlin, Dortmund, Frankfurt, Hamburg, Hameln, Hannover, Munich, Nuremberg and Saarbrücken.

The company is a subsidiary of Tata Consultancy Services Netherlands B.V. (TCS NL), which in turn is a subsidiary of Tata Consultancy Services Ltd a globally operating IT services group.

1.1 Business model and governance

The company's range of products essentially comprised the planning, development, implementation and operation of IT application systems and IT infrastructure.

After the company was acquired by TCS NL at the beginning of 2021, the transformation of the previous business model, which included the exclusive activity of the company as a service delivery provider for the Deutsche Bank Group, was started. The company's personnel capacities, which are freed up due to the declining contractual agreements with the Deutsche Bank Group, are used to provide services for other projects. To this end, the company had reorganized itself in the previous years and now offers customer- and industry-specific IT services on the market through the established delivery centers and as part of the global Tata Consultancy Services Group (TCS Group). The company's market focus is primarily on German-speaking regions in Europe.

1.2 Research and development

As a service delivery provider for IT services integrated into a globally operating group, the company does not perform any research and development itself.

2. Economic report

2.1 Macroeconomic and Industry Conditions

According to initial calculations by the Federal Statistical Office (Destatis), the price-adjusted gross domestic product (GDP) grew by 0.2 % in 2025 compared to the previous year. When adjusted for calendar effects, GDP increased by 0.3 %.

Following two consecutive years of contraction, economic output thus returned to slight growth in 2025. The growth was primarily attributable to increased household and government consumption expenditure. Cyclical and structural pressures continued to limit economic momentum in 2025, despite a return to marginal growth. Structural weaknesses remained evident, particularly in export-oriented industries due to increasing international competition, high energy and labor costs, higher US import tariffs, appreciation of the euro, and broader geopolitical developments. According to the German industry association Bitkom, the market for IT services in Germany grew by around 3.5% to a market volume of around € 54.3 billion in 2025. This shows that demand for IT services in Germany continues to develop well, is benefiting from the digitalization needs of the German economy and offers IT service providers better development opportunities than in many other industries in an overall difficult macroeconomic environment. Artificial intelligence is also gaining strong momentum, though from a smaller base.

2.2 Business development

Revenues for the year declined from 126.2 million in 2024 to €86.46 million in 2025 (€-39.8million /-32%). The transition services for the transfer of the IT systems previously operated by the company for Postbank to the IT systems of Deutsche Bank Group (DB) is coming to an end, resulting in a revenue reduction.

Personnel freed up from existing contracts were deployed on new projects. The revenues from new projects increased by €13 million/59% in comparison to the previous year and thus above the industry average.

The number of employees continued to decrease during 2025 due to fluctuation, a new voluntary program to leave the company, and retirements. The number of employees employed by the company declined to an average of 724 in the year 2025 compared to an average of 936 during the year 2024 (-22.6%).

2.3 Assets, financial and earnings situation

2.3.1 Financial situation

The balance sheet total fell by €34 million to €85.2 million as on 31 December 2025 compared to €119.2 million as on 31 December 2024.

Out of the total intercompany loan of €20 million as of 31 December 2024, the company received repayment of €15 million during 2025 as per the agreement terms. Cash and cash equivalents (including deposits) decreased by €22.7 million to €32.8 million primarily due to operating losses.

The further improvement in the valuation of the plan assets compared to the previous year has led to a difference in the amount of €30.5 million being reported from the offsetting of assets, representing an increase of €10.1 million.

On the liabilities side, the reduction in equity is a result of the loss for the period of €27.6 million.

Trade payables decreased by €7.1 million to €4.6 million, while other liabilities increased by €5.6 million mainly due to higher employee obligations.

2.3.2 Financial position

As of the balance sheet date, the company reported an equity ratio of 55.2%. Although this represented a decrease compared to the previous year, the equity ratio continues to remain comparatively high.

The company's pension obligations are not only fully covered by existing plan assets as of the balance sheet date but exceeded by € 30.5 million.

Cash and cash equivalents (including deposits) decreased by €22.7 million to €32.8 million primarily due to operating losses. The company's strong liquidity position ensured that it was able to meet all of its payment obligations when becoming due. The company had not availed any credit lines with financing partners, as in the previous year.

2.3.3 Earnings situation

The 2025 financial year closed with earnings before interest and taxes (EBIT) of €-37.6 million, compared to EBIT of €-39.7 million in the previous year. Adjusted for cost related to the voluntary program to leave the company in 2025 and 2024, the adjusted EBIT was €-13,9 million compared to €-17.8 million; consequently, the adjusted EBIT shows the moderate improvement as communicated in 2024 for 2025.

Taking into account the interest result and income taxes, the net loss for the financial year amounted to €27.6 million, compared to a net loss of €17.4 million in the previous year.

Sales revenues were at €86.4 million compared with the previous year's figure of €126.2 million. Though there is decline in overall revenues, the expected increase in the revenues from new business as estimated in prior year was achieved.

The cost of materials, which includes software licenses and maintenance costs, in particular expenses for purchased personnel capacities – both from other a liated companies of the TCS Group and from third parties – reduced by €20.3 million (55%) year-on-year to €16.7 million.

The gross profit, defined as sales revenue less cost of materials, thus fell in absolute terms by €19.3 million from €89 million to €69 million. The gross profit ratio increased, however, from 70.5 % in the previous year to 80.7% in the reporting year.

Personnel expenses decreased by €17.5 million, from €119.9 million to €102.4 million. This reduction is the result of the decline in the annual average number of employees from 936 to 724.

As of the balance sheet date, a total of 654 employees worked for the company.

Depreciation amounted to €1.1 million (previous year: €1.8 million). Net of other operating income and other operating expenses amounted to €-3.8 million compared to €-8.4 million in previous year.

The interest result, as the sum of other interest and similar income and interest and similar expenses, showed a positive result in 2025 at €10 million (€22.3 in 2024). This was mainly due to the valuation of the existing plan assets for the pension obligations as at the balance sheet date.

The above factors led to loss after taxes of €27.6 million compared to a loss of €17.4 million in previous year.

2.3.4 Financial and non-financial performance indicators

The financial and non-financial performance indicators given here are the key figures used by the company to assess progress and success in achieving the defined corporate goals.

2.3.4.1 Financial performance indicators

The management and supervision of the company is based on the International Financial Reporting Standards (IFRS). By contrast, the company's annual financial statements are based on the accounting principles prescribed by German commercial law, which differs primarily for the valuation of existing pension obligations and the accounting treatment of rental and lease agreements. The most important financial performance indicators are revenues and earnings before interest and taxes (EBIT).

2.3.4.2 Non-financial performance indicators

As a service delivery provider for IT services, the most significant non-financial performance indicators are related to employees of the company.

The most important non-financial performance indicators include the average number of employees (on the basis of full-time equivalents, or FTE for short), the sickness rate and the fluctuation rate.

As of December 31, 2025, 654 people (December 31, 2024: 845) were employed, with women accounting for 23%.

The German labor market for IT specialists remains employee-friendly, making it easier to change employers. The fluctuation rate was 25% for 2025 (21% in 2024). 25% of the employees who left the company went into retirement. The fluctuation rate adjusted for retirements is therefore 19%.

The primary goal at the company is to ensure that every employee finds the perfect project that not only matches their skills but also offers suitable scope for personal development. Employees are given intensive support in further developing their skills and pursuing their ambitions, such as obtaining certifications, either through self-study or under the guidance of a trainer.

2.4 Assessment of the economic situation

Business performance in 2025 follows the trend of the previous year. Revenue from business with Deutsche Bank declined as expected, while there was increase in revenues from new projects.

The impact of the revenue decline on the (adjusted) EBIT was somewhat mitigated by the reduction in personnel costs due to the decline in headcount, along with reducing the cost base for coming periods.

Associates are being trained and redeployed on new projects, and with higher redeployments rates Revenue from new projects improved significantly during 2025 and is expected to further improve during coming periods which will then improve the economic situation of the company.

Overall, the situation of the company remains challenging but manageable.

3. Forecast, opportunity and risk report

3.1 Forecast

Germany recorded a modest GDP growth of 0.2% during 2025 – but the digital economy remains on a higher growth trajectory. Despite the current diffcult economic environment, the digital association Bitkom expects the German IT and telecommunications market to grow by 4.4 percent to EUR 245.1 billion in 2026 driven primarily by software and digital infrastructures. Last year, ICT revenues increased by 3.9 percent to EUR 235 billion. At the same time, new jobs are being created in the industry. The software business (up 10.2% to EUR 58.3 billion) is expected to be the main growth driver for the IT market. For the sub-segment of IT-service, Bitkom expects an increase from € 52.5 billion by 3.4% to € 54.3 billion. Bitkom expects high growth rates within this segment for artificial intelligence and cloud services.

On the global economic outlook: The spring forecast of the Kiel Institute for the World Economy (Kiel Institut für Weltwirtschaft - IfW) assesses the global economy as remaining on a moderate growth path, albeit amid heightened geopolitical and economic policy uncertainty. While global economic momentum was still robust in 2025, it has recently been dampened by rising energy prices and increased uncertainty following the escalation of the conflict in the Middle East, which has led to a temporary increase in oil and liquefied natural gas prices, weighing on activity and inflation in the short term.

Assuming that energy supply disruptions ease over the course of 2026, the IfW expects the longer-term impact on global growth to remain limited. Supported by fiscal policy impulses, easing monetary conditions and sustained investment demand driven by artificial intelligence and digital infrastructure, global economic growth is forecast at 3.1% in 2026, followed by 3.2% in 2027.

For Europe, economic growth is projected to remain modest. The IfW forecasts GDP growth of 1.2% for the European Union in 2026, with a gradual improvement expected thereafter as inflationary pressures subside, energy prices stabilize and fiscal investment programs take effect.

Though the overall revenue of the company is expected to further reduce in 2026 significantly with the reduction in headcount, the share of new customer business is expected to continue to rise. With the reduction in cost base from the lower headcount coming into effect the (adjusted) EBIT is expected to improve significantly compared to 2025 Though the overall 2026 EBIT might be slightly negative, positive operating margins are expected from 2nd half (H2) of 2026.

Liquidity position is expected to decline significantly due to a still negative operating cashflow and after the settlement of liabilities becoming due but will still be sufficient to enable the company to honor all obligations when they become due.

Management has put in focused initiatives, plans and actions to address the still existing EBIT challenges. With the successful completion of the company's transformation good growth and positive margins are expected in the medium term.

3.2 Opportunity and risk report

3.2.1 Opportunity report

The economic development of the company will continue to be increasingly shaped by the development of business with new projects. The resources freed up as a result of the ongoing reduction of the program with the customer Deutsche Bank continue to offer the potential to expand business with new projects in 2026.

Demand for IT expertise is also expected to remain high in 2026, as many companies are likely to continue to push ahead with digitalization & AI implementation.

Accordingly, the management of the company expects that the market environment for services as a service delivery provider for IT services will develop better than the overall economic environment in the relevant markets, particularly in Germany. In addition, the company can benefit from being part of the globally operating TCS Group.

3.2.2 Risk report

Transformation and market risks

In general, customers' propensity to invest is influenced by the overall economic development in their respective countries and in Europe as a whole, as well as by their confidence in positive economic development. As the Company generates its revenue in Germany, the development of the German economy is a key factor for the Company's growth. Based on the current state of knowledge and market share there is, despite the weak forecasts for Germany's overall economy, sufficient scope for growth specially in digital/IT services. The Company considers this risk to be low.

There is a transformation risk in getting employees into new engagements as quickly as possible, i.e. to utilize existing personnel capacities. Another risk remains that the reskilling of existing employees in line with market requirements will not have a sufficiently rapid effect.

Nevertheless, the company's medium to long-term assessment remains that revenue growth can be achieved through new business and redeployments. To this end, the growth promotion program being carried and further focused as described above will be continued.

Due to its business model and customer structure, the company is currently not exposed to any significant market price, counterparty or liquidity risks.

3.3 Concluding assessment

The company is very aware of opportunities and risks and appropriate measures are being taken with support from the entire group. Employees are seen as the real value of the company. Their initiative for personal development is specifically encouraged.

Taking into account the existing financial earnings position, the overall risk and opportunity situation is manageable. Assuming that the economy develops in line with expectations, the company sees no risks in the 2026 financial year that could pose an immediate threat to the company's continued existence.

4. Corporate governance declaration in accordance with Section 289f (4) HGB

The company is an equal opportunity employer and has a well-defined and progressive Diversity, Equity and Inclusion (DEI) policy that encompasses all parameters of diversity, including gender. The company recognizes that a diverse and inclusive workforce is necessary to drive innovation, foster creativity, and guide business strategies.

We are committed to equal opportunities. We have enshrined this in our core values and principles (Tata Code of Conduct). As signatories of the Diversity Charter, we reaffirm this position.

In accordance with the German Act on Equal Participation of Women and Men in Leadership Positions in the Private and Public Sector, TCS Technology Solutions GmbH had set targets for the proportion of women on the Supervisory Board, the Management Board and the two management levels below, as well as for their implementation period.

In May 2024, the shareholders' meeting set a target of zero percent for the proportion of women on the company's Supervisory Board. The members of the Supervisory Board of TCS Technology Solutions GmbH are currently elected for a tenure of 4 (four) financial years from 2021 (the year in which term of office begins is not included in the calculation). Accordingly, deselection of an existing Supervisory Board member is currently not intended by the shareholder. At the next election planned for 2026, the Company will endeavor to find and nominate women for election to the Supervisory Board. Appointment of new members would depend on qualifications, skills, experience and expertise to make the boards more effective. The combined expertise plays an active role in shaping the Company's vision and future outlook. If at any time the proportion of women in the Supervisory Board in equal to or more than 30%, the Company shall re-visit the requirement of setting the target for the Supervisory Board.

The Company's Supervisory Board has set a target of zero percent for the proportion of women on the Company's Management Board. There are currently no plans to increase the number of Managing Directors. However, the Company will endeavor to fill the position of Managing Directors with a woman whenever any of the current position becomes vacant. Appointment of new members would depend on the qualification, skills, experience and expertise to make the boards more effective. The combined expertise plays an active role in shaping the Company's vision and future outlook. If at any time the proportion of women is equal to or more than 30%, the Company shall revisit the requirement of setting the target for the Managing Directors.

The targets for the composition of the Supervisory Board and the Management Board were met at the reporting date. As at December 31, 2025, the proportion of women on the Supervisory Board and the Management Board of TCS Technology Solutions GmbH was zero percent in each case.

Furthermore, in May 2024, the Management Board decided on a quota of 8% for the proportion of women in the first two management levels below the Management Board of TCS Technology Solutions GmbH. This was based on similar considerations as for the determination of the proportion of women at Supervisory Board and Management Board level of the Company. The targets for appointments to the first two management levels below the Management Board were met at the reporting date. As at December 31, 2025, the proportion of women in the first two management levels below the Management Board was around 11%.

INDEPENDENT AUDITORS' REPORT

To The Shareholders and Board of Directors of
TCS Uruguay S.A.

Opinion

We have audited the financial statements of TCS Uruguay S.A. (the "Company"), which comprise the statement of financial position as of December 31st, 2025, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of TCS Uruguay S.A. as of December 31st, 2025, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Uruguay, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether TCS Uruguay S.A.'s financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

SEE ACCOMPANYING NOTES TO FINANCIAL STATEMENTS

Notes forming part of the Financial Statements

1. GENERAL INFORMATION

TCS Uruguay S.A. (the Company) is a private company whose headquarter is located on Monte Caseros 2600, in Montevideo, Uruguay.

The Company is part of a wider economic group, represented by TCS Iberoamerica S.A., therefore, the results of its operations could be affected to operate without this support.

The Company has a branch office offshore, TCS Solution Center (Colombia Branch) in Bogotá D.C., incorporated on August 15, 2006 in accordance with Colombian law.

These financial statements have been consolidated with such branch.

The Company's main activities are the development of software, provision of IT services and process outsourcing services aimed at both local and foreign markets.

The financial statements have been approved by the Entity´s Board of Directors for their issuance on March 02nd, 2026 March 2nd, 2026 and will be submitted to the Shareholders meeting for approval.

a. Merger between TCS Uruguay S.A. and TCS Solution Center S.A. along with TCS Uruguay S.A. Sucursal Colombia branch

On September 30, 2025, TCS Solution Center S.A. (the Absorbed Company) and TCS Uruguay S.A. (the Absorbing Company) signed a merger agreement.

The agreement stipulated that the Absorbed Company would be dissolved without being liquidated, transferring its assets and liabilities to the Absorbing Company, which then incorporated and absorbed it.

The purpose of said merger was to concentrate and enhance the operational capacity of the companies to be merged, bringing together their respective current activities in a single company.

The merger was carried out in accordance with the provisions of the aforementioned agreement and pursuant to Law No. 16,060 (Articles 125 et seq. and other related and supplementary provisions).

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with International Financial Reporting Standards (hereinafter "IFRS") adopted by the International Accounting Standards Board (IASB), translated into Spanish, and interpretations prepared by the Interpretations Committee of the International Financial Reporting Standards or the previous Interpretations Committee, in accordance with the Appropriate Accounting Standards in Uruguay pursuant to Decrees 291/014, 292/014 and 124/011.

3. BASIS OF PREPARATION

These financial statements have been prepared on historical cost basis except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flows has been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid and interest and dividend received as cash flow from operating activities. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional currency of the Company is the Uruguayan peso. Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses

arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policy information used in preparation of the financial statements have been discussed in the respective notes.

4. USE OF ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with the recognition and measurement principles of International Financial Reporting Standards (IFRS) requires management of company to make estimates and judgements that affect the reported balances of assets and liabilities, disclosures of contingent liabilities at the date of the financial statements and the reported amounts of income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting judgements, estimates and assumptions in preparation of its financial statements:

a. Revenue Recognition

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company estimates the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

The Company exercises judgement for identification of performance obligations, determination of transaction price, ascribing the transaction price to each distinct performance obligation and in determining whether the performance obligation is satisfied at a point in time or over a period of time. These judgements have been explained in detail under the revenue recognition note (Refer note 11).

b. Useful lives of property, plant and equipment and intangibles

The Company reviews the useful life of property, plant and equipment and intangibles at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods. (Refer note 10(a)).

c. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d. Impairment of financial assets (other than at fair value)

Measurement of impairment of financial assets require use of estimates, which have been explained in the note on financial assets, financial liabilities and equity instruments, under impairment of financial assets (other than at fair value). (Refer note 8).

e. Provision for income tax and deferred tax assets

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

f. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgement to assess contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

g. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. NATURE AND PURPOSE OF RESERVES

Legal reserve

The Legal reserve has reached the maximum amount established by Article 93 of Law 16.060.

Retained earnings

On March 01, 2024 it was determined to distribute dividends in advanced for a total of $ 127.247.250 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On June 03, 2024 it was determined to distribute dividends in advanced for a total of $ 155.168.000 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On September 06, 2024 it was determined to distribute dividends in advanced for a total of $ 120.999.000 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On December 19, 2024 it was determined to distribute dividends in advanced for a total of $ 202.893.600 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On February 24, 2025 it was determined to distribute dividends in advanced for a total of $ 287.251.604 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On May 27, 2025 it was determined to distribute dividends in advanced for a total of $ 165.876.000 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On August 14, 2025 it was determined to distribute dividends in advanced for a total of $ 139.954.500 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On November 24, 2025 it was determined to distribute dividends in advanced for a total of $ 158.924.000 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

6. REGISTRATION OF FINANCIAL STATEMENTS

According to Decree 156/16 dated May 30, 2016, commercial companies will not be able to distribute dividends as long as they do not comply with the obligation to register, within the established terms, the financial statements to the Auditoría Interna de la Nación (AIN), institution that regulates the commercial companies.

To date, the Company has complied with this obligation for the year ended on December 31, 2024. For the year ended on December 31, 2025 the company has time to comply until June 30, 2026.

7. RECENT ACCOUNTING STANDARDS

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

Amendments to IFRS 9 and IFRS 7[1]

Annual Improvements to IFRS Accounting Standards[1] – Amendments to:

- IFRS 1 – First-time Adoption of International Financial Reporting Standards
- IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 – Financial Instruments
- IFRS 10 – Consolidated Financial Statements
- IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements[2]

IFRS 19 – Subsidiaries without Public Accountability: Disclosures[2]

[1] Effective for annual periods beginning on or after January 1, 2026.

[2] Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

In December 2024, the IASB issued targeted amendments to help companies better report the financial effects of nature-dependent electricity contracts, which are often structured as power purchase agreements (PPAs). The amount of electricity generated under these contracts can vary based on uncontrollable factors such as weather conditions. Current accounting requirements may not adequately capture how these contracts affect a company's performance. The amendments include: clarifying the application of the 'own-use' requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows. The Company does not expect this amendment to have any significant impact in its financial statements.

Annual Improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. These amendments include clarifications, simplifications, corrections and changes aimed at improving the consistency of several IFRS Accounting Standards. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Company does not expect these narrow amendments to have any significant impact in its financial statements.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to

elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

The company has applied IFRIC 23 effective for annual periods beginning on or after January 1, 2019 as below:

IFRIC 23 Interpretation Uncertainty over Income Tax Treatment

IFRIC 23 interpretation addresses the accounting for income taxes when there is uncertainty over tax treatments. It clarifies that an entity must consider the probability that the tax authorities will accept a treatment retained in its income tax filings, assuming that they have full knowledge of all relevant information when making their examination. In such a case, the income taxes shall be determined in line with the income tax filings.

Application of IFRIC 23

The company reviewed its income tax treatments in order to determine whether IFRIC 23 interpretation could have an impact on the financial statements. In that respect, the Company observed that there are no continuous instances of any uncertain tax treatment in the past and on that basis, it is reasonable to conclude that all the tax treatments are accepted by the tax officer and hence IFRIC-23 is not applicable.

8. FINANCIAL ASSETS, FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company´s obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid financial investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for expected credit loss the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

a. Cash and cash equivalents

Cash and cash equivalents consist of the following:

(in Uruguayan Pesos)

	As at December 31, 2025	As at December 31, 2024
Cash in hand	52,530	32,987
Cash at bank	743,602,895	131,509,099
Total	**743,655,425**	**131,542,086**

b. Investments

Investments consist of the following:

(in Uruguayan Pesos)

	As at December 31, 2025	As at December 31, 2024
Investments carried at cost		
Fully paid equity shares		
i. TCS Argentina S.A.	3,128	3,128

Total Investments - Non current	**354,290,498**	**354,289,584**

c. Trade receivables-Billed

Trade receivables- Billed consist of the following:

(in Uruguayan Pesos)

Trade receivables –Billed- Current	As at December 31, 2025	As at December 31, 2024
Trade receivables - Billed	1,793,914,114	1,085,261,982
Less: Allowances for expected credit loss - Billed	(3,816,196)	(34,743,890)
Total	**1,790,097,918**	**1,050,518,092**

Trade receivables- Billed include balances with related parties amounting to UYU 1.328.768.047 and UYU 1.077.904.967 for the period ended on December 31,2025 and December 31, 2024 respectively. (Refer note 17)

d. Other financial assets

Other financial assets consist of the following:

(in Uruguayan Pesos)

Other financial assets – Current	As at December 31, 2025	As at December 31, 2024
Employee advances (*)	21,931,591	10,301,091
Accrued Interest	1,167,151	7
Loans to employees	686,715	-
Total	**23,785,457**	**10,301,098**

(*) Include recoverable advances to foreign employees deputed in Uruguay.

(in Uruguayan Pesos)

Other financial assets – Non-current	As at December 31, 2025	As at December 31, 2024
Deposits for premises	5,301,600	4,832,553
Others	7,977,200	5,554,224
Total	**13,278,800**	**10,386,777**

e. Trade Payables

(in Uruguayan Pesos)

	As at December 31, 2025	As at December 31, 2024
Trade payables	112,036,509	23,418,123
Accrued expenses	29,744,363	16,731,502
Total	**141,780,872**	**40,149,625**

f. Other financial liabilities

Other financial liabilities consist of the following:

(in Uruguayan Pesos)

Other financial liabilities – Current	As at December 31, 2025	As at December 31, 2024
Accrued payroll	162,446,318	35,877,668
Capital creditors	773,885	1,588,866
Security deposits	2,290,000	1,280,000
Total	**165,510,203**	**38,746,534**

g. Financial instruments by category

The carrying value of financial instruments by categories as at December 31, 2025 is as follows:

(in Uruguayan Pesos)

	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	743,655,425	743,655,425
Trade receivables		
Billed	1,790,097,918	1,790,097,918
Unbilled	317,394,536	317,394,536
Other financial assets	37,064,257	37,064,257
Total	**2,888,212,136**	**2,888,212,136**
Financial liabilities		
Trade payables	141,780,872	141,780,872
Lease liabilities	312,857,179	312,857,179
Other financial liabilities	165,510,203	165,510,203
Total	**620,148,254**	**620,148,254**

The carrying value of financial instruments by categories as at December 31, 2024 is as follows:

(in Uruguayan Pesos)

	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	131,542,086	131,542,086
Trade receivables		
Billed	1,050,518,092	1,050,518,092
Unbilled	130,587,030	130,587,030
Other financial assets	20,687,875	20,687,875
Total	**1,333,335,083**	**1,333,335,083**
Financial liabilities		
Trade payables	40,149,625	40,149,625
Lease liabilities	264,342,081	264,342,081
Other financial liabilities	38,746,534	38,746,534
Total	**343,238,240**	**343,238,240**

Carrying amounts of cash and cash equivalents, trade receivables and trade payables as at December 31, 2025 and December 31, 2024 approximate at the fair value due to their nature. Carrying amounts of other financial assets, other financial liabilities and borrowings which are subsequently measured at amortised cost also approximates the fair value due to their nature in each of the periods presented. Fair value measurement of lease liabilities is not required.

h. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

i. Financial risk management

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company´s exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the entity. Considering the economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries.

The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the respective functional currency of the Company.

The following analysis has been worked out based on the net exposures for Company as at the date of statement of financial position which could affect the statement of profit or loss and other comprehensive income and equity.

The following table sets forth information relating to unhedged foreign currency exposure as at December 31, 2025 and 2024:

(in Uruguayan Pesos)

December 2025	INR	USD	GBP	EUR	AUD	CAD	BRL	DKK	CHF	MXN	COP	ARS	CLP
Net financial assets	462,657	1,406,797,151	6,456,774	79,637,503	(1,199,107)	7,801,388	555,738	8,072,829	9,338,320	605,213	1,336,651,555	65,777	612,277
Net financial liabilitites	(37,311)	261,379,578	(467,967)	(16,549)	(4,704)	(102)	-	(4,464)	0	(203)	263,980,139	-	-

(in Uruguayan Pesos)

December 2024	INR	USD	GBP	EUR	AUD	CAD	BRL	DKK	CHF	MXN	COP	ARS	CLP
Net financial assets	1,962,802	1,131,671,806	32,764,298	54,325,737	543,659	8,282,150	1,694,208	-	20,681,115	(889,298)	-	-	-
Net financial liabilitites	146,259	290,152,337	(271,198)	189,072	(1,073)	196,783	-	-	24,110	-	-	-	-

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease / increase in the Company's profit before taxes by approximately UYU 233.102.966 for the period ended December 31, 2025 and UYU 96.060.019 for the period ended December 31, 2024 respectively.

Interest rate risk

The Company is not exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Refer note 4 for methods, assumptions and information used to measure expected credit losses.

Financial instruments that are subject to credit risk consist of trade receivables, investments, cash and cash equivalents, and other financial assets. Cash and cash equivalents include an amount of held with a bank UYU 743.602.895 having high quality credit rating which are individually in excess of 10% or more of the Company's total cash and cash equivalents as at 31st December, 2025 (UYU 131.509.099 as at 31st December, 2024). None of the other financial instruments of the Company result in material concentration of credit risk.

- **Exposure to credit risk**

The carrying amount of financial assets and contract assets represents the maximum credit exposure. The maximum exposure to credit risk was UYU 2.985.565.439 and UYU 1.289.419.979 as at December 31, 2025 and December 31, 2024 respectively, being the total of the carrying amount of balances with banks, trade receivables, contract assets and other financial assets.

Company's exposure to customers is diversified, and single customer which contributes more than 10% of outstanding trade receivable and contract assets as at December 31, 2025 and December 31, 2024, as follows:

	As at December 31, 2025		As at December 31, 2024	
	Total trade receivables and contract assets	Percentage	Total trade receivables and contract assets	Percentage
Customer A	**1,470,430,351**	**67%**	1,166,152,273	92%

Geographic concentration of credit risk

Geographic concentration of trade receivables (gross and net of allowances) and contract assets is as follows:

	As at December 31, 2025	As at December 31, 2024
	Net %	Net %
Americas	90%	85%
Europe	5%	7%
Others	5%	8%
	100%	**100%**

Geographical concentration of trade receivables (gross and net of allowances) and contract assets is allocated based on the location of the customers.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generated sufficient cash flows from operations to meet its financial obligations including lease liabilities as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as at:

(in Uruguayan Pesos)

December 31, 2025	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities:					
Trade payables	141,780,872	-	-	-	141,780,872
Lease liabilities (*)	83,731,838	85,969,975	124,517,477	53,560,543	347,779,833

Other financial liabilities	38,746,534	-	-	-	38,746,534
Total	**127,606,671**	**50,654,572**	**128,845,767**	**88,125,875**	**395,232,885**

(*) Amounts are presented at nominal value and not book value.

j. Equity instruments

The authorised, issued, subscribed and fully paid up share capital consists of the following:

(in Uruguayan Pesos)

	As at December 31, 2025	As at December 31, 2024
Authorised		
Equity shares of uruguayan pesos 1 each (500,000,000) shares)	500,000,000	1,800,000
Total	**500,000,000**	**1,800,000**
Issued, Subscribed and Fully paid up		
Outstanding balance of equity shares of uruguayan pesos 1 each (359,784,073 shares)	359,784,073	540,000
Total	**359,784,073**	**540,000**

Details of shares held by shareholders in the company equity shares.

(in Uruguayan Pesos)

	As at December 31, 2025	As at December 31, 2024
TCS Iberoa merica S.A. (Holding company)	359,784,073	540,000
% Holding in class	100%	100%

Fully paid equity shares, which have a par value of 359.784.073 Uruguayan pesos (UYU 1 each) carry one vote per share and have a right to dividend. In the event of liquidation of the Company, the holders of shares are eligible to receive the remaining assets of the Company, after distribution of all preferential amounts, in proportion of their shareholding.

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

9. LEASES

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the company is as follows:

(in Uruguayan Pesos)

	Additions for year ended December 31, 2025	Net carrying amount as at December 31, 2025
ROU Leasehold Building	104,887,468	276,422,096
ROU Leasehold improvements	21,797,482	19,848,324
Total	**126,684,950**	**296,270,420**

(in Uruguayan Pesos)

	Additions for year ended December 31, 2024	Net carrying amount as at December 31, 2024
ROU Leasehold Building	7,771,945	227,327,900
Total	**7,771,945**	**227,327,900**

Depreciation on right-of-use asset is as follows:

(in Uruguayan Pesos)

Depreciation	Year ended December 31, 2025	Year ended December 31, 2024
ROU Leasehold Building	55,793,272	37,299,339
ROU Leasehold improvements	1,949,157	-
Total	**57,742,429**	**37,299,339**

Interest on lease liabilities are UYU 15.629.925 and UYU 13.811.923 for the period ended on December 31, 2025 and December 31, 2024 respectively.

The Company incurred UYU 2.675.060 and UYU 24.647 for the period ended December 31, 2025 and December 31, 2024 towards expenses relating to short-term leases and leases of low-value assets.

The total cash outflow are UYU 71.14.447 and UYU 42.254.917 for the period ended December 31, 2025 and December 31, 2024 respectively for long term and short term leases.

Lease contracts entered by the Company majorly pertains for buildings taken on lease to conduct its business in the ordinary course. The Company does not have any lease restrictions and commitment towards variable rent as per the contract.

10. NON-FINANCIAL ASSETS AND LIABILITIES

a. Property, plant and equipment

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight-line basis so as to expense the cost less residual values over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Useful lives
Leasehold improvements	Lease term
Computer equipment	4 years
Furniture, fixtures, office equipment and other assets	4-10 years

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Property, plant and equipment consist of the following:

(in Uruguayan Pesos)

	Leasehold improvements	Computer equipments	Furniture and fixtures	Office equipments	Electrical Installations	Total
Gross block as at January 1, 2025	228,456,496	246,967,276	42,366,946	28,522,431	1,781,054	548,094,203

b. Other intangible assets

Intangible assets purchased including acquired in business combination, are measured at cost as at the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licences.

Following table summarises the nature of intangibles and their estimated useful lives:

Type of asset	Useful lives
Rights under licensing agreement and software licences	Lower of licence period and 2-5 years

Intangible assets are amortised on a straight line basis over the period of its economic useful life.

Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Intangible assets consist of the following:

11. REVENUE RECOGNITION

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method .
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of the licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues. The billing schedules agreed with customers could include periodic performance based payments and/or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals, and geography.

Revenue disaggregation by nature of services is as follows:

(in Uruguayan Pesos)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Consultancy services	5,714,011,620	4,483,570,467
Total	**5,714,011,620**	**4,483,570,467**

Revenue disaggregation by industry vertical is as follows:

(in Uruguayan Pesos)

Industry Vertical	For the year ended December 31, 2025	For the year ended December 31, 2024
Banking, financial and insurance	1,237,812,130	344,810,436
Manufacturing	495,292,244	549,380,963
Retail and consumer products	512,469,705	248,081,587
Communication, media and technology	2,471,035,453	2,519,420,461
Others	997,402,088	821,877,020
Total	**5,714,011,620**	**4,483,570,467**

Revenue disaggregation by geography is as follows:

(in Uruguayan Pesos)

Geography	For the year ended December 31, 2025	For the year ended December 31, 2024
Americas	4,894,572,404	3,834,652,442
Others	819,439,216	648,918,025
Total	**5,714,011,620**	**4,483,570,467**

Geographical revenue is allocated based on the location of the customers.

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognise those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is 4.577.864.856 Uruguayan Pesos out of which 48.36% is expected to be recognised as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in contract assets are as follows:

(in Uruguayan Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Balance at the beginning of the year	86,671,926	79,478,552
Increase due to revenue recognised during the year, excluding amounts billed during the year	43,611,381	32,465,243
Invoice raised that was included in the contract asset balance at the beginning of the year	(26,742,181)	(32,934,111)
Other movement during the year	3,081,380	-
Translation exchange difference	(12,254,817)	7,662,242
Balance at the end of the year	**94,367,689**	**86,671,926**

Changes in unearned and deferred revenue (contract liabilities) are as follows:

(in Uruguayan Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Balance at the beginning of the year	23,621,871	37,780,263
Revenue recognised that was incl uded in the unearned and deferred revenue at the beginning of the year.	(46,276,678)	(37,553,455)
Increase due to invoicing during the year, excluding amounts recognised as revenue during the year.	91,247,877	23,162,509
Other movement during the year	30,215,602	23,162,509
Translation exchange difference	(3,798,520)	232,553
Balance at the end of the year	**95,010,152**	**23,621,871**

12. OPERATING EXPENSES RECOGNITION

Costs and expenses are recognised when incurred and have been classified according to their primary functions in the following categories:

Cost of Revenue

The costs of the Company are broadly categorized into employee benefits expenses, depreciation and amortization and other operating expenses. Employee benefits expenses include employee compensation, allowances paid, contribution to

various funds and staff welfare expenses. Other operating expenses mainly include fees to external consultants, facility expenses, travel expenses, communication expenses, and other expenses.

Selling, general and administrative expenses

Selling costs primarily include employee compensation for sales and marketing personnel, travel expenses, advertising, business promotion expenses, bad debts and advances written off, allowance for expected credit losses and doubtful advances (net), facility expenses for sales and marketing offices and market research costs.

General and administrative costs primarily include employee compensation for administrative, supervisory, managerial and practice management personnel, depreciation and amortisation expenses of non-production equipment and software, facility expenses for administrative offices, communication expenses, fees to external consultants and other general expenses.

(in Uruguayan Pesos)

Expenses by nature	Year ended December 31, 2025	Year ended December 31, 2024
Communication	17,424,564	14,522,746
Facility running expenses	75,264,417	60,216,583
Fees to external consultants	47,010,867	10,732,315
Other expenses	204,090,380	95,963,564
Travel expenses	55,486,659	47,027,457
Cost of equipment and software licenses	878,112	447,992

Expenses by function	Year ended December 31, 2025	Year ended December 31, 2024
Cost of revenue	4,013,293,579	3,254,338,382
Selling, general and administrative expenses	815,618,936	591,964,132
	4,828,912,515	**3,846,302,514**

13. OTHER INCOME

a. Finance and other income

Dividend income is recorded when the right to receive payment is established. Interest income is recognised using effective interest method.

(in Uruguayan Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Interest revenue - Bank deposits	22,338,202	7,302,908
Interest revenue - Other Deposits	228,639	236,719
Interest revenue- loan to related parties (Refer Note 17)	-	1,538,412
Dividends received - Subsidiaries (Refer note 17)	214,130	1
Total	**22,780,971**	**9,078,040**

b. Finance costs

(in Uruguayan Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Lease interest	15,629,925	13,811,923
Other interest	1,937,926	-
Total	**17,567,851**	**13,811,923**

c. Other gains / (losses) net

(in Uruguayan Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Gain/(loss) on disposal of property, plant and equipment	(16,657)	(6,309)
Net foreign exchange gains/(losses)	(136,096,287)	94,234,124
Others	11,143	-
Total	**(136,101,801)**	**94,227,815**

14. INCOME TAXES

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income taxes

Current tax is based on the taxable profit for the year and is calculated using tax rates that have been enacted by the end of the reporting period.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred tax

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination, affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The income tax expense consists of the following:

(in Uruguayan Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Current income tax expense		
Domestic	34,073,154	38,986,596
Overseas	63,325,264	1,039,729
	97,398,418	**40,026,325**
Deferred income tax expense / (benefit)		
Domestic	(1,598,679)	2,340,483
Overseas	(14,906,360)	-
	(16,505,039)	**2,340,483**
Total income tax expense	**80,893,379**	**42,366,808**

The reconciliation of income tax expense and book net income is as follows:

(in Uruguayan Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Income before income taxes	754,210,424	726,761,886
Income tax rate Uruguay	25%	25%
Expected income tax expense	188,552,606	181,690,471
Tax effect of adjustments to reconcile expected income tax expense to reported income tax expense:		
Tax on transfer of foreign subsidiary overseas		
branches	2,343,794	-
Tax on income at different rates	14,310,603	-
Income exempt from tax	(1,049,384,077)	(963,074,920)

Provisions	267,728	(74,614)	-	193,114
	763,433	**(2,340,483)**	**-**	**(1,577,050)**

Investment tax credit

On June 25, 2014 the Ministry of Economy and Finance determined to give a tax benefit to TCS Uruguay S.A. under regulatory Decree 455/07 of Law 16.906 of Promotion and protection of investments. This benefit grants an exemption of 20.277.929 IU from IRAE (Corporate income tax) for 40.71% of the eligible investment to be used in a 6-year term and an exemption from IP (Net worth tax) on movable fixed assets for the whole of their useful lives and on civil works for a term of 8 years.

Direct Tax Contingencies

The Company has contingent liability of UYU NIL as at December 31, 2025 and December 31, 2024, respectively, in respect of tax demands which are being contested by the Company based on the management evaluation and advice of tax consultants. The Company has evaluated and concluded that this tax demand by authorities will not succeed on ultimate resolution.

15. EMPLOYEE BENEFITS

Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

The Company provides retirement benefits such as pension (other than Company managed fund) and foreign defined contribution plans to its employees which are treated as defined contribution plans.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Compensated absences

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the date of statement of financial position.

Employee cost consist of the following:

(in Uruguayan Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Salaries, incentives and allowances	3,852,074,605	3,109,027,463
Contributions to provident and other funds	374,117,673	374,951,524
Staff welfare	73,766,157	55,429,678
	4,299,958,435	**3,539,408,665**

Employee benefit obligations consist of the following:

Employee benefit obligations – Current

(in Uruguayan Pesos)

	As at December 31, 2025	As at December 31, 2024
Benefits to employees	570,435,499	371,656,403
Other employee benefit obligations	3,633,616	1,682,182
Total	**574,069,115**	**373,338,585**

16. COMMITMENTS AND CONTINGENCIES

Capital commitments

The Company has contractually committed (net of advances) UYU 3.393.078 and UYU 6.397.010 as at December 31, 2025 and December 31, 2024 respectively, for purchase of property, plant and equipment.

Contingencies

- **Direct tax matters**

  Refer note 14.

- **Indirect tax matters**

  There are no contingency in relation to Indirect tax matters.

- **Other claims**

  Claims aggregating UYU 3.917.031 and UYU Nil as at December 31, 2025 and December 31, 2024 respectively, against the Company have not been acknowledged as debts.

17. RELATED PARTY TRANSACTIONS AND BALANCES

Company's principal related parties consist of its ultimate holding company Tata Consultancy Services Limited and its subsidiaries, affiliates and key managerial personnel. The company's material related party transactions and outstanding balances are with related parties with whom the Company routinely enter into transactions in the ordinary course of business.

Notes forming part of the Financial Statements

INDEPENDENT AUDITORS' REPORT

To The Shareholders and Board of Directors of
TCS Solution Center S.A.

Opinion

We have audited the financial statements of TCS Solution Center S.A. (the "Company"), which comprise the statement of financial position as of September 30th, 2025, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of TCS Solution Center S.A. as of September 30th, 2025, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Uruguay, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether TCS Solution Center S.A.'s financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

SEE ACCOMPANYING NOTES TO FINANCIAL STATEMENTS

Notes forming part of the financial statements

1. GENERAL INFORMATION

TCS Solution Center S.A. (the Company) is a private company whose headquarter is located on Monte Caseros 2600, in Montevideo, Uruguay.

The Company has a branch office offshore, TCS Solution Center (Colombia Branch) in Bogotá D.C., incorporated on August 15, 2006 in accordance with Colombian law.

These financial statements have been consolidated with such branch.

The Company's main activities are the development of software, provision of IT services and process outsourcing services aimed at both local and foreign markets.

The financial statements have been approved by the Entity´s Board of Directors for their issuance on February 24, 2025 and will be submitted to the Shareholders meeting for approval.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with International Financial Reporting Standards (hereinafter "IFRS") adopted by the International Accounting Standards Board (IASB), translated into Spanish, and interpretations prepared by the Interpretations Committee of the International Financial Reporting Standards or the previous Interpretations Committee, in accordance with the Appropriate Accounting Standards in Uruguay pursuant to Decrees 291/014, 292/014 and 124/011.

3. BASIS OF PREPARATION

These financial statements have been prepared on historical cost basis except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The Statement of Cash flow have been prepared using the indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid and interest and dividend received as cash flow from operating activities. The cash flows from operating, investing and financing activities of the company are segregated. The company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional currency of the Company is the Uruguayan peso. Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policies related to preparation of the financial statements have been discussed in the respective notes.

4. USE OF ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with the recognition and measurement principles of International Financial Reporting Standards (IFRS) requires management to make estimates and judgements that affect the reported balances of assets and liabilities, disclosures of contingent liabilities at the date of the financial statements and the reported amounts of income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting estimates in preparation of its financial statements:

a. Revenue Recognition

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

b. Useful lives of property, plant and equipment and intangibles

The Company reviews the useful life of property, plant and equipment and intangibles at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

c. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d. Impairment of financial assets (other than at fair value)

Measurement of impairment of financial assets require use of estimates and judgements, which have been explained in the note on financial assets, financial liabilities and equity instruments, under impairment of financial assets (other than at fair value).

e. Provision for income tax and deferred tax assets

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

f. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgement to assess contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

g. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. NATURE AND PURPOSE OF RESERVES

Legal reserve

The legal reserve is a reserve fund created in compliance with article 93 of Law 16.060 for commercial companies, which establishes that no less than 5% of the net profit for the year should be used to increase the mentioned reserve, until it reaches 20% of the paid-in capital.

Retained earnings

On February 24, 2025 it was determined to distribute dividends in advanced for a total of $ 100,359,727.5 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On May 25, 2025 it was determined to distribute dividends in advanced for a total of $ 113,728,732.5 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On August 14, 2025 it was determined to distribute dividends in advanced for a total of $ 67,278,128 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On March 01, 2024 it was determined to distribute dividends in advanced for a total of $ 162,191,302 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On June 03, 2024 it was determined to distribute dividends in advanced for a total of $ 121,903,860 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On September 06, 2024 it was determined to distribute dividends in advanced for a total of $ 146,912,953 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

On December 19, 2024 it was determined to distribute dividends in advanced for a total of $ 166,885,560 Uruguayan Pesos in accordance to article 100 of Law 16.060, which have been cancelled at year end.

Other equity

The balance of the account corresponds to the difference of exchange rate in the Colombia branch with functional currency Colombian Pesos, within an equity account as set forth in IAS 21.

6. REGISTRATION OF FINANCIAL STATEMENTS

According to Decree 156/16 dated May 30, 2016, commercial companies will not be able to distribute dividends as long as they do not comply with the obligation to register, within the established terms, the financial statements to the Auditoría Interna de la Nación (AIN), institution that regulates the commercial companies.

To date, the Company has complied with this obligation for the year ended on December 31, 2024. For the year ended on September 30, 2025 the Company has time to comply until March 31, 2026.

7. RECENT ACCOUNTING STANDARDS

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

Amendments to IFRS 9 and IFRS 7[1]

Annual Improvements to IFRS Accounting Standards[1] – Amendments to:

- IFRS 1 – First-time Adoption of International Financial Reporting Standards
- IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 – Financial Instruments
- IFRS 10 – Consolidated Financial Statements
- IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements[2]

IFRS 19 – Subsidiaries without Public Accountability: Disclosures[2].

[1] Effective for annual periods beginning on or after January 1, 2026.

[2] Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

In December 2024, the IASB issued targeted amendments to help companies better report the financial effects of nature-dependent electricity contracts, which are often structured as power purchase agreements (PPAs). The amount of electricity generated under these contracts can vary based on uncontrollable factors such as weather conditions. Current accounting requirements may not adequately capture how these contracts affect a company's performance. The amendments include: clarifying the application of the 'own-use' requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows. The Company does not expect this amendment to have any significant impact in its financial statements.

Annual Improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. These amendments include clarifications, simplifications, corrections and changes aimed at improving the consistency of several IFRS Accounting Standards. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Company does not expect these narrow amendments to have any significant impact in its financial statements.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

The company has applied IFRIC 23 effective for annual periods beginning on or after January 1, 2019 as below:

IFRIC 23 Interpretation Uncertainty over Income Tax Treatment

IFRIC 23 interpretation addresses the accounting for income taxes when there is uncertainty over tax treatments. It clarifies that an entity must consider the probability that the tax authorities will accept a treatment retained in its income tax filings, assuming that they have full knowledge of all relevant information when making their examination. In such a case, the income taxes shall be determined in line with the income tax filings.

Application of IFRIC 23

The company reviewed its income tax treatments in order to determine whether IFRIC 23 interpretation could have an impact on the financial statements. In that respect, the Company observed that there are no continuous instances of any uncertain tax treatment in the past and on that basis, it is reasonable to conclude that all the tax treatments are accepted by the tax officer and hence IFRIC-23 is not applicable.

Notes forming part of the financial statements

8. FINANCIAL ASSETS, FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company´s obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for expected credit losses the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Notes forming part of the financial statements

a. Cash and cash equivalents

Cash and cash equivalents consist of the following:

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
Cash in hand	-	67,745
Current account balances with banks	-	628,067,499
Total	**-**	**628,135,244**

b. Investments

Investments consist of the following:

Investments – Non current

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
Investments carried at Cost		
Fully paid equity shares		
i. Tata Consultancy Services De México S.A. De C.V	-	906
ii. TCS do Brazil Ltda	-	8
Total Investments - Non current	**-**	**914**

c. Trade receivables - Billed

Trade receivables – Billed consist of the following:

Trade receivables – Billed – Current

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
Trade receivables - Billed	-	722,782,725
Less: Allowance for expected credit losses - Billed	-	(3,705,044)
Less: Provision for volume discount	-	(7,604,660)
Total	**-**	**711,473,021**

Trade receivables – Billed include balances with related parties amounting to UYU NIL and UYU 295.180.196 for the period ended on September 30, 2025 and December 31, 2024 respectively. (Refer Note 17)

d. Other financial assets

Other financial assets consist of the following:

Other financial assets – Current

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
Employee advances (*)	-	9,360,336
Accrued Interest	-	1,796,166
Loans to employees	-	45,000
Total	**-**	**11,201,502**

(*) Include recoverable advances to foreign employees deputed in Uruguay and Colombia.

Other financial assets – Non-current

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
Deposits for premises	-	2,537,528
Others	-	2,422,976
Total	**-**	**4,960,505**

e. Trade payables

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
Trade payables	-	63,766,066
Accrued expenses	-	17,949,964
Total	**-**	**81,716,030**

f. Other financial liabilities

Other financial liabilities consist of the following:

Other financial liabilities – Current

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
Accrued payroll	-	126,127,220
Capital Creditors	-	1,613,461
Security deposits	-	470,000
Total	**-**	**128,210,681**

g. Financial instruments by category

The carrying value of financial instruments by categories as at September 30, 2025 is Nil.

The carrying value of financial instruments by categories as at December 31, 2024 is as follows:

(in Uruguayan Pesos)

	Amortized cost	Total carrying value
Financial assets		
Cash and cash equivalents	628,135,244	628,135,244
Trade receivables		
Billed	711,473,021	711,473,021
Unbilled	144,409,259	144,409,259
Other financial assets	16,162,007	16,162,007
Total	**1,500,179,531**	**1,500,179,531**

(in Uruguayan Pesos)

	Amortized cost	Total carrying value
Financial liabilities		
Trade payables	81,716,030	81,716,030
Lease liabilities	158,504,158	158,504,158
Other financial liabilities	128,210,681	128,210,681
Total	**368,430,869**	**368,430,869**

Carrying amounts of cash and cash equivalents, trade receivables and trade payables as at September 30, 2025 and December 31, 2024 approximate at the fair value due to their nature. Carrying amounts of other financial assets, other financial liabilities and borrowings which are subsequently measured at amortized cost also approximates the fair value due to their nature in each of the periods presented. Fair value measurement of lease liabilities is not required.

h. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

i. Financial risk management

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company´s exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

  The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries.

  The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

  The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the respective functional currency of the Company.

  The following analysis has been worked out based on the net exposures for Company as at the date of statement of financial position which could affect the statement of profit or loss and other comprehensive income and equity.

The following table sets forth information relating to unhedged foreign currency exposure as at September 30, 2025 and December 31, 2024:

(in Uruguayan Pesos)

September 30, 2025	USD	GBP	CAD	COP	MXN	ARS	AUD	EUR	DKK	BRL	CLP
Net financial assets	-	-	-	-	-	-	-	-	-	-	-
Net financial liabilitites	-	-	-	-	-	-	-	-	-	-	-

(in Uruguayan Pesos)

December 31, 2024	USD	GBP	CAD	COP	MXN	ARS	AUD	EUR	DKK	BRL	CLP
Net financial assets	336,787,890	(432,806)	-	1,132,216,774	1,640,364	105,399	(1,290,849	13,013,698	7,387,395	(95,819)	929,971
Net financial liabilities	64,671,282	-	(110)	288,746,900	2,222	-	3,854	(14,759)	(608)	-	-

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease / increase in the Company's profit before taxes by approximately UYU NIL for the period ended September 30, 2025 and UYU 113,685,324 for the year ended December 31, 2024 respectively.

- **Interest rate risk**

  The Company is not exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, cash and cash equivalents and other financial assets. Cash and cash equivalents include an amount of NIL Uruguayan Pesos held with a bank in Uruguay and NIL Uruguayan Pesos held with banks in Colombia having high quality credit rating which are individually in excess of 10% or more of the Company's total cash and cash equivalents as at September 30, 2025 (an amount of 42.853.926 Uruguayan Pesos held with a bank in Uruguay and 572.470.722 Uruguayan Pesos held with banks in Colombia as at December 31, 2024). None of the other financial instruments of the Company result in material concentration of credit risk.

- **Exposure to credit risk**

  The carrying amount of financial assets and contract assets represents the maximum credit exposure. The maximum exposure to credit risk was UYU NIL and UYU 1,507,493,538 as at September 30, 2025 and December 31, 2024, respectively, being the total of the carrying amount of balances with banks, trade receivables, contract assets and other financial assets.

Company's exposure to customers is diversified, and single customer which contributes individually to more than 10% of outstanding trade receivable and contract assets as at September 30, 2025 and December 31, 2024, respectively are as follows:

(in Uruguayan Pesos)

	As at September 30, 2025		As at December 31, 2024	
	Total trade receivables and contract assets	Percentage	Total trade receivables and contract assets	Percentage
Customer A	-	0%	330,756,092	38%
Customer B	-	0%	226,443,219	26%
Customer C	-	0%	94,059,873	11%

Geographic concentration of credit risk

Geographic concentration of trade receivables (net of allowances) and contract assets is as follows:

	As at September 30, 2025	As at December 31, 2024
	Net %	Net %
America	0%	94%
Europe	0%	2%
Others	0%	4%

Geographical concentration of trade receivables and contract assets is allocated based on the location of the customers.

The allowance for lifetime expected credit loss on trade receivables for the period ended September 30, 2025 and December 31, 2024 was UYU NIL and UYU NIL, respectively. The reconciliation of allowance for expected credit losses is as follows:

(in Uruguayan Pesos)

	For the nine months period ended September 30, 2025	Year ended December 31, 2024
Balance at the beginning of the Year	3,705,044	-
Changes during the year	-	3,660,613
Translation Exchange difference	74,101	44,431
Merger with TCS Uruguay	(3,779,145)	-
Balance at the end of the Year	**-**	**3,705,044**

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generated sufficient cash flows from operations to meet its financial obligations including lease liabilities as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as at:

(in Uruguayan Pesos)

September 30, 2025	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities:					
Trade payables	-	-	-	-	-
Lease liabilities (*)	-	-	-	-	-
Other financial liabilities	-	-	-	-	-
Total	**-**	**-**	**-**	**-**	**-**

(in Uruguayan Pesos)

December 31, 2024	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities:					
Trade payables	81,716,030	-	-	-	81,716,030
Lease liabilities (*)	74,608,577	41,713,919	66,344,793	-	182,667,289
Other financial liabilities	128,210,681	-	-	-	128,210,681
Total	**284,535,288**	**41,713,919**	**66,344,793**	**-**	**392,594,000**

(*) Amounts are presented at nominal value and not book value.

j. Equity instruments

The authorised, issued, subscribed and fully paid up share capital consists of the following:

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
Authorised		
Equity shares of uruguayan pesos 1 each (500,000,000 shares)	-	500,000,000
Total	**-**	**500,000,000**
Issued, Subscribed and Fully paid up		
Outstanding balance of Equity shares of uruguayan pesos 1 each (359,244,073 shares)	-	359,244,073
Total	**-**	**359,244,073**

Details of shares held by shareholders in the Company Equity Shares

(in Uruguayan Pesos)

	As at September 30, 2025	As at December 31, 2024
TCS Iberoa merica S.A. (Holding Company)	-	359,244,073
% Holding in class	**100%**	**100%**

Fully paid equity shares, which have a par value of 359.244.073 Uruguayan pesos (UYU 1 each) carry one vote per share and have a right to dividend. In the event of liquidation of the Company, the holders of shares are eligible to receive the remaining assets of the Company, after distribution of all preferential amounts, in proportion of their shareholding.

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

9. LEASES

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability.

The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the Company is as follows:

(in Uruguayan Pesos)

	Additions for the year ended September 30, 2025	Net carrying amount as at September 30, 2025
ROU Leasehold Building	19,915,409	-
Total	**19,915,409**	**-**

(in Uruguayan Pesos)

	Additions for the year ended December 31, 2024	Net carrying amount as at December 31, 2024
ROU Leasehold Building	22,218,006	128,414,753
ROU Leasehold improvements	-	26,705,862
Total	**22,218,006**	**155,120,615**

Depreciation on right-of-use asset is as follows:

(in Uruguayan Pesos)

	For the nine months period ended September 30, 2025	Year ended December 31, 2024
ROU Leasehold Building	49,870,984	63,405,505
ROU Leasehold office equipment	-	63,913
ROU Leasehold improvements	5,617,069	7,361,599
Total	**55,488,053**	**70,831,017**

Interest on lease liabilities is UYU 9,931,628 for the period ended on September 30, 2025 (UYU 16,259,719 for the year ended on December 31, 2024).

The Company incurred UYU 14,196,503 for the period ended September 30, 2025 (UYU 17,129,765 for the year ended December 31, 2024) towards expenses relating to short-term leases and leases of low-value assets.

The total cash outflow is UYU 29,948,956 for the period ended September 30, 2025 for long term and short term leases (UYU 101,592,785 for the year ended December 31, 2024).

Lease contracts entered by the Company majorly pertains for buildings taken on lease to conduct its business in the ordinary course. The Company does not have any lease restrictions and commitment towards variable rent as per the contract.

10. NON-FINANCIAL ASSETS AND LIABILITIES

a. Property, plant and equipment

The Company recognizes the cost of an item of property, plant and equipment as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can measured reliably.

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight line basis so as to expense the cost less residual values over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted

for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Useful lives
Leasehold improvements	Lease term
Computer equipment	4 years
Furniture, fixtures, office equipment and other assets	4-10 years

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Property, plant and equipment consist of the following:

(in Uruguayan Pesos)

b. Other intangible assets

Intangible assets purchased including acquired in business combination, are measured at cost as at the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licences.

Following table summarises the nature of intangibles and their estimated useful lives:

Type of asset	Useful lives
Rights under licensing agreement and software licences	Lower of licence period and 2-5 years

Intangible assets are amortised on a straight line basis over the period of its economic useful life.

Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Intangible assets consist of the following:

Others	-	54,700
Total	**-**	**165,116,175**

Notes forming part of the financial statements

11. REVENUE RECOGNITION

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method .
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company´s contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Such costs are amortised over the contractual period or useful life of the licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers could include periodic performance based payments and/or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals, and geography.

Revenue disaggregation by nature of services is as follows:

(in Uruguayan Pesos)

	Nine months period ended September 30, 2025	Year ended December 31, 2024
Consultancy services	3,295,687,802	4,317,690,949
Sale of equipment and software licences	9,001,958	16,255,614
Total	**3,304,689,760**	**4,333,946,563**

Revenue disaggregation by industry vertical is as follows:

(in Uruguayan Pesos)

	Nine months period ended September 30, 2025	Year ended December 31, 2024
Banking, Financial and Insurance	2,131,760,881	2,667,666,472
Manufacturing	27,101,552	45,626,044
Retail and Consumer Products	448,581,435	596,025,497
Communication, Media and Technology	221,384,008	318,329,848
Others	475,861,884	706,298,702
Total	**3,304,689,760**	**4,333,946,563**

Revenue disaggregation by geography is as follows:

(in Uruguayan Pesos)

	Nine months period ended September 30, 2025	Year ended December 31, 2024
America	3,125,081,842	4,091,600,943
Others	179,607,918	242,345,620
Total	**3,304,689,760**	**4,333,946,563**

Geographical revenue is allocated based on the location of the customers.

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognized corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is 2.316.740.223 Uruguayan Pesos out of which 52.38% is expected to be recognized as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in contract assets are as follows:

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
Balance at the beginning of the year	7,314,007	11,336,066
Increase due to revenue recognized during the year, excluding amounts billed during the year	21,035,581	4,072,804
Invoice raised that was included in the contract asset balance at the beginning of the period	(6,251,685)	(8,750,466)

Merger wth TCS Uruguay	(20,669,254)	-
Balance at the end of the year	**-**	**7,314,007**

Changes in unearned and deferred revenue (contract liabilities) are as follows:

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
Balance at the beginning of the year	35,712,983	43,456,964
Revenue recognised that was included in the unearned and deferred revenue at the beginning of the year	(33,348,441)	(30,669,681)
Increase due to invoicing during the year, excluding amounts recognised as revenue during the year	35,064,361	22,342,528
Translation exchange difference	(747,869)	583,172
Merger wth TCS Uruguay	(36,681,034)	-
Balance at the end of the year	**-**	**35,712,983**

Notes forming part of the financial statements

12. OPERATING EXPENSES RECOGNITION

Costs and expenses are recognised when incurred and have been classified according to their primary functions in the following categories:

The costs of the Company are broadly categorized into employee benefits expenses, depreciation and amortisation and other Operating Expenses. Employee benefit expenses include employee compensation, allowances paid, contribution to various funs and staff welfare expenses. Other operating expenses mainly include fees to external consultants, facility expenses, travel costs, cost of equipment and software licenses, communication expenses and other expenses.

Other operating expenses

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
	Cost of sales	Selling and administrative expenses
Fees to external consultants	73,598,830	111,583,842
Facility running Expenses	32,350,118	30,101,768
Travel expenses	22,660,787	28,907,618
Communication	8,622,718	11,912,834
Cost of equipment and software licenses	7,579,408	12,087,874

Selling and administrative expenses	646,527,779	861,985,038
Total	**2,873,224,884**	**3,929,876,862**

13. OTHER INCOME

a. Finance and other income

Dividend income is recorded when the right to receive payment is established. Interest income is recognised using effective interest method.

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
Dividends received - Subsidiaries (Refer note 17)	18,645,996	24,719,689
Interest revenue - Bank deposits and Other deposits	31,084,379	39,230,791
Total	**49,730,375**	**63,950,480**

b. Finance costs

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
Lease interest	9,952,113	16,259,719
Total	9,952,113	16,259,719

c. Other gains / (losses), net

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
Gain/(loss) on disposal of property, plant and equipment	(78,858)	692,496
Net foreign exchange gains/(losses)	(32,938,497)	39,036,053
Others	(187,716)	540,820
Total	**(33,205,071)**	**40,269,369**

14. INCOME TAXES

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

TCS Solution Center S.A. is tax by a current Income tax at a 25%.

TCS Colombia branch is tax by a current Income tax at a 35%.

Current tax

Current tax is based on the taxable profit for the year and is calculated using tax rates that have been enacted by the end of the reporting period.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred tax

The Company accounts for the deferred income taxes using the balance sheet approach. Deferred income taxes are provided for the temporary differences between the tax base of assets and liabilities and their reported amounts in the financial statements.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in foreseeable future.

The income tax expense consists of the following:

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
Current income tax expense		
Domestic	40,106,515	31,652,052
Overseas	112,077,791	119,096,132
	152,184,306	**150,748,184**
Deferred income tax expense / (benefit)		
Domestic	(68,990)	188,724
Overseas	9,488,526	4,476,160
	9,419,536	**4,664,884**
Total income tax expense	**161,603,842**	**155,413,068**

The reconciliation of income tax expense and book net income is as follows:

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
Income before income taxes	438,038,067	492,029,831
Income tax rate Uruguay	25%	25%
Expected income tax expense	109,509,517	123,007,458
Tax effect of adjustments to reconcile expected income tax expense to reported income tax expense:		
Tax on transfer of foreign subsidiary overseas branches	40,794,895	19,449,238
Operating losses carry forwards		
Income exempt from tax	(260,772,248)	(333,684,747)
Tax pertaining to prior years:	(854,340)	5,466,402
Branch income tax	112,077,791	119,096,132
Deferred Tax	9,419,536	4,664,884
Fixed Assets of SEZ/STP	(78,229)	(1,967,156)
Disallowable expenses:

Direct tax contingencies

The Company has contingent liability of UYU NIL as at September 30, 2025 and December 31, 2024, respectively, in respect of tax demands which are being contested by the Company based on the management evaluation and advice of tax consultants. The Company has evaluated and concluded that this tax demand by authorities will not succeed on ultimate resolution.

15. EMPLOYEE BENEFITS

Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

The Company provides retirement benefits such as pension (other than Company managed fund) and foreign defined contribution plans to its employees which are treated as defined contribution plans.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Compensated absences

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the date of statement of financial position.

Employee cost consist of the following:

(in Uruguayan Pesos)

	For the Nine months period ended September 30, 2025	Year ended December 31, 2024
Salaries, incentives and allowances	2,079,402,441	2,825,064,056
Contributions to Provident and Other Funds	230,082,227	321,894,434
Staff Welfare	54,715,953	72,499,772
	2,364,200,621	**3,219,458,262**

Employee benefit obligations consist of the following:

Total	**-**	**172,921,148**

16. COMMITMENTS AND CONTINGENCIES

Capital commitments

The Company has contractually committed (net of advances) UYU NIL and UYU 25,283,246 as at September 30, 2025 and December 31, 2024, respectively, for purchase of property, plant and equipment.

Contingencies

- **Direct tax matters**

  Refer to Note No.14

- **Indirect tax matters**

  There is no contingency in relation to Indirect tax matters.

- **Other claims**

  Claims aggregating UYU NIL and UYU 93,690 as at September 30, 2025 and December 31, 2024, respectively, against the Company have not been acknowledged as debts.

18. MERGER BETWEEN TCS SOLUTION CENTER S.A. AND TCS URUGUAY S.A.

On September 30, 2025, TCS Solution Center S.A. (the Absorbed Company) and TCS Uruguay S.A. (the Absorbing Company) signed a merger agreement.

The agreement stipulated that the Absorbed Company would be dissolved without being liquidated, transferring its assets and liabilities to the Absorbing Company, which then incorporated and absorbed it.

The purpose of said merger was to concentrate and enhance the operational capacity of the companies to be merged, bringing together their respective current activities in a single company

The merger was carried out in accordance with the provisions of the aforementioned agreement and pursuant to Law No. 16,060 (Articles 125 et seq. and other related and supplementary provisions).

LETTER TO SHAREHOLDERS

FOR THE REGULAR FISCAL PERIOD FROM JANUARY 01, 2025 TO DECEMBER 31, 2025
(INFORMATION NOT COVERED BY THE INDEPENDENT AUDITORS' REPORT)

To the shareholders of
Tata Consultancy Services Argentina S.A.

In compliance with legal provisions in force and the bylaws, the Board of Directors is pleased to submit for your consideration the following documentation for the regular fiscal period of 12 months ended December 31, 2025: the letter to shareholders, balance sheet, statements of profit or loss, changes in shareholders' equity and cash flows, notes 1 to 9 and exhibits I to IV, the independent auditors' report and supervisory auditor's report.

1. MAIN CONTENTS OF BUSINESS POLICIES AND OBJECTIVES

a) Company's business, background and structure

The Company's main business is to services in the information technology sector.

b) Financial position and business development

Net sales for the fiscal year ended December 31, 2025 totaled $14,052,699,947, representing an increase of 46% over net sales generated during the previous fiscal year, which totaled $9,639,263,625 (both periods adjusted for inflation). Costs have increased by 21.8% and expenses by 21.6%. As of December 31, 2025, current assets are higher than current liabilities. Non-current assets are lower than non-current liabilities, the latter corresponding mostly to debts with related companies.

c) Decision taking and internal control

As it relates to decision taking, the Company is ruled by decisions adopted at meetings of directors and shareholders.

However, various systems have been implemented in relation to strategic planning, administrative procedures, IT and communication, personnel assessment and management and quality control, contributing to a proper internal control, to ensure that objectives are achieved efficiently and effectively, based on reliable financial information and in compliance with laws and regulations in force.

2. COMPARATIVE FINANCIAL STATEMENT RATIOS

Notes forming part of the Financial Statements

1 - DESCRIPTION OF THE BUSINESS AND FINANCIAL POSITION

Description of the business

Tata Consultancy Services Argentina S.A. (hereinafter either "Tata Consultancy Services Argentina S.A." or "the Company") was duly organized under the laws of the Republic of Argentina, and its formation is documented by deed dated November 19, 2001.

The Company is mainly engaged in rendering IT and communications services.

Its registered office is located at Esteban de Luca 2251, City of Buenos Aires, within the Technological District of the City of Buenos Aires.

2 - BASES OF PREPARATION OF THE FINANCIAL STATEMENTS

2.1. Applicable accounting standards

The accompanying financial statements are stated in pesos in a homogeneous closing currency and have been prepared in accordance with Technical Resolution No. 54 – consolidated text RT 59 – (RT 54), issued by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE), adopted by Resolution P. No. 460/2024 of the Professional Council of Economic Sciences of the Autonomous City of Buenos Aires (CPCECABA).

This resolution has been applied by the entity as from January 1, 2025, restating comparative figures through certain reclassifications in the presentation of specific items resulting from the application of RT 54, without generating differences in their recognition and measurement. The main reclassifications are detailed below:

Current Assets:

a) The balance of $332,078,219 corresponding to Receivables in currency from related parties, which was previously presented under the line item "Accounts receivables", was reclassified to the line item "Accounts receivable and rights to bill customers in currency."

b) The balance of $120,997,263 corresponding to Other receivables in currency, which was previously presented under the line item "Other receivables", was reclassified to the line item "Other accounts receivable in currency."

Non-current Assets:

a) The balance of $2,527,007 corresponding to Tax credits, which was previously presented under the line item "Other receivables", was reclassified to the line item "Tax credits."

b) The balance of $97,052,152 corresponding to Other receivables in currency, which was previously presented under the line item "Other receivables", was reclassified to the line item "Other accounts receivable in currency."

Current Liabilities:

a) The balance of $878,084,015 corresponding to Labor and social security liabilities, which was previously presented under the line item "Payroll and social security contributions", was reclassified to the line item "Employee and social security obligations."

b) The balance of $3,129,256 corresponding to Other payables, which was previously presented under the line item "Other liabilities", was reclassified to the line item "Other debts."

Non-current Liabilities:

a) The balance of $3,432,144,119 corresponding to Payables in currency to related parties, which was previously presented under the line item "Trade payables", was reclassified to the line item "Debts in currency with related parties."

b) The balance of $33,485,242 corresponding to Net deferred tax liability, which was previously presented under the line item "Tax liabilities" in the Statement of Financial Position, was reclassified to the line item "Net deferred tax liability."

2.2. Entity Classification

In accordance with the provisions of the aforementioned regulation, the Company qualifies as a medium-sized entity.

2.3. Unit of measurement

2.3.1 General Information

These financial statements have been prepared in a homogeneous currency as of the closing date of the current fiscal year, fully recognizing the effects of inflation in accordance with the provisions of Technical Resolution No. 54 (RT 54), given that a high-inflation environment has been identified.

For comparative purposes, these financial statements include financial position figures as of December 31, 2025, and statements of income, changes in equity, and cash flows for the fiscal year then ended. Such figures have been restated in closing currency of the current fiscal year, as described in this note and in accordance with the procedures outlined in the following paragraph, for comparability purposes and without such restatement modifying the decisions made on the basis of the accounting information corresponding to the previous fiscal year.

2.3.2. Description of the process for the re-expression to closing currency

For the purpose of restating the various items and line items included in the financial statements, the entity must, among other things:

- Determine the origination date of each item (or the date of its last adjustment, as applicable).
- Calculate the applicable restatement coefficients. For this purpose, the FACPCE price index is used. The variation of the index applied for the restatement of the financial statements was 31% for the fiscal year ended December 31, 2025.
- Apply the restatement coefficients to the historical amounts of items in order to express them in closing currency. In this regard, items to be adjusted are those not already stated in closing currency.

The application of the inflation-adjustment process established by RT 54 allows for the recognition of gains and losses arising from holding assets and liabilities exposed to changes in the purchasing power of the currency during the fiscal year. Such gains and losses are presented under the line item "Financial results and holding results (including RECPAM)" in the Statement of Income.

Financial results and holding results, including the result from changes in the purchasing power of the currency, are presented in a single line item in the statement of income.

The cash flow statement is presented in a summarized form, reporting only the opening and closing balances of cash and cash equivalents, their net variation, and the total net cash flows generated by operating, investing, and financing activities. The use of this simplification limits the information available for the analysis and interpretation of the financial statements and regarding the entity's ability to generate funds and the manner in which they are applied.

These financial statements must be read and interpreted considering the limitations that the use of the aforementioned exemptions may impose on the information contained herein.

2.4) Criteria for recognition, measurement and presentation of assets, liabilities, shareholders' equity, revenue and cash flows

These financial statements have been prepared in accordance with the presentation criteria set forth by the Technical Resolutions of the FACPCE.

For comparative purposes only, certain reclassifications were made to prior-year information in order to disclose the figures on a consistent basis. The modification of the comparative information does not imply changes in the decisions taken based thereon.

Using the simplification introduced by Resolution 11/2019 issued by the Steering Committee of the CPCECABA, the Company opted not to present the reconciliation required up to that date by accounting standards in force between the income tax charged to P&L and that resulting from applying the the prevailing tax rate to the income or loss for accounting purposes.

2.5) Valuation criteria

The Company has consistently adopted the following recognition and measurement criteria in the preparation of the financial statements:

2.5.1) Revenue recognition

Revenues from the provision of services are recognized as services are provided.

Income derived from the provision of services relating to a project is recognized in the statement of profit or loss in proportion to the percentage of completion of the transaction at year-end. The percentage of completion is valued in accordance with the progress achieved.

Sales of equipment are recognized in the income statement when the significant risks and benefits of ownership of the goods are transferred to the buyer.

Revenue is shown net of discounts.

2.5.2) Short-term investments and investment in subsidiary.

Time deposits: at nominal value plus interest accrued at period-end.

2.5.3) Foreign currency (Exhibit III)

Transactions agreed in foreign currency are converted to Argentine pesos at the exchange rate prevailing to the date of the transaction.

The assets and liabilities stated in foreign currency are converted into Argentine pesos by applying the exchange rates prevailing at year-end. Exchange gains/losses are recognized in Financial gains/losses (including RECPAM) of the Statement of profit or loss.

2.5.4) Fixed assets

They have been valued at acquisition cost restated under Note 2.5,2 , net of the related accumulated depreciation. The acquisition cost includes all the necessary expenses required to bring the assets to a working condition for their intended use.

Depreciation is calculated by applying the straight line method at annual rates sufficient to extinguish assets value by the end of their estimated useful lives.

The net book value of fixed assets, taken as a homogenous group, does not exceed their estimated recoverable value based on information available at the date of issuance of these financial statements.

2.5.5) Allowances

Deducted from assets:

For bad debts: it has been set up to reduce the valuation of accounts receivable to their probable recoverable value, based on the analysis of doubtful accounts.

Included in liabilities:

For contingencies: it has been set up for contingent situations that might result in liabilities for the Company. The related amounts and likelihood of occurrence have been estimated considering expectations of Company's Management and the opinion of legal advisors.

2.5.6) Income tax

The income tax is recognized by applying the deferred tax method. Based on such method, besides the provision for the tax payable for the year, the future tax effect of the tax loss carryforwards, if any, and of the deductible temporary differences derived from the valuation of assets and liabilities for accounting purposes in constant currency and for tax purposes are recognized as deferred tax assets, to the extent

of the recoverability thereof through future taxed earnings, and the future tax effects of the temporary differences between the valuation for accounting purposes in constant currency and for tax purposes of assets and liabilities are recognized as deferred tax liabilities.

Deferred tax assets and liabilities are stated at nominal value (not discounted), derived from applying to the recognized temporary differences the income tax rate effective at the date when reversal is expected, and presented in their net amount as non-current assets or liabilities, as applicable.

The annual variation in net deferred tax assets or liabilities is recorded as an income tax expense or benefit, as applicable.

Dated December 29th, 2017, the National Executive Power put in force by Decree N° 1112/2017 Law N° 27,430 that established different modifications to the tax system, including among others, the Income Tax, Value Added Tax and Internal Taxes.

Among the most important modifications introduced by the Law are the following: (i) the progressive reduction of the tax rate for Income Tax for certain companies , including the Limited Liabilities companies and Corporations from 35% to 30% for the fiscal years started on January 1st, 2018 and, from 30% to 25% for fiscal years started January 1st, 2020, (ii) the allocations of dividends and similar profits received by people and undivided successions as profits taxable in Income Tax with a rate of 7% and 13% for fiscal years started on January 1st, 2018 and January 1st, 2020 respectively, (iii) the possibility that the people, undivided successions and subjects included in article 49 of Income Tax Law, text ordered in 1997 and its modifications, residents in the country, revalue, for tax purposes, certain goods located or economically used in the country and that are affected to the generation of taxable profits in Income Tax.

Likewise, the mentioned Law 27,430 modified Art 95 of Income Tax Law by adding that the procedure for the inflation tax adjustment would be applicable in the fiscal year in which the percentage of variation of the prices index of the second paragraph of Art 89, accrued in the 36 months previous to the closing of the fiscal year, is over 100% with a transition regime for the determination of the accrued indexes since January 1st, 2018.

Law 27.430 was then amended by the current Law 27,468 that replaced the IPC (Consumers Price Index) for the IPIM (Wholesale Domestic Prices Index) and modified the transition regime, which will be in force for the first, second and third fiscal year started on January 1st, 2018, when the variation of the index calculated from the beginning as of the closing of each of those fiscal years is over 55%, 30% and 15 % respectively.

In addition, on December 23, 2019, Executive Order No. 58/2019 partially passed Law No. 27541 on social solidarity, which law modifies the application of inflation adjustment referred to in Chapter VI, Income Tax Act (restated text in accordance with Executive-Order 824/2019), for the first and second fiscal periods commencing as from January 1, 2019, to be computed when the requirements set forth in the last two paragraphs of Section 106, of the aforementioned Act are met; this amendments state that one sixth of the adjustment shall be applied to said fiscal period while the remaining five sixths shall be equally applied to the five following fiscal periods; this goes without prejudice to any outstanding third from previous periods, as stated in Section 194 of the aforementioned Act. Moreover, such Act established the suspension of section 86 provisions, subsections d) and e) of Law No. 27430 until the fiscal periods commencing on January 1, 2021 inclusive, establishing that for such suspension period the tax rate provided in subsections a) and b) of section 73 of the Income Tax Act, restated text in 2019, shall be of 30%.

On June 16, 2021, the Argentine Executive Branch passed and publish Law No. 27630, which abolished the generalized reduction of tax rates previously explained and introduced a new scale tax rates system, which shall be valid for the fiscal period commenced as from January 1, 2021, as follows:

The estimated amounts in this scale will be annually adjusted as from January 1, 2024, considering the annual variation of CPI (consumer price index) provided by INDEC (Argentine Statistics Bureau) for October of the year previous to the adjustment regarding the same month on the previous year. Amount determined that way shall be applied for the fiscal period starting after each update. The updated amounts applicable to this fiscal year are detailed below:

Accumulated taxable net profit		$ to be paid	Plus %	Over $ surplus
From $	To $			
$ 0	$ 101.679.575	$ 0	25%	$ 0
$ 101.679.575	$ 1.016.795.753	$ 25.419.894	30%	$ 101.679.575
$ 1.016.795.753	En adelante	$ 299.954.747	35%	$ 1.016.795.753

Moreover, as ordered by Law No. 27630, the rate applicable to dividends over generated income in fiscal periods commenced as from January 1, 2018 was unified in the 7%.

2.5.7) Use of estimates

The preparation of these financial statements requires that estimates and assessments be made about the assets and liabilities recorded, the contingent assets and liabilities disclosed to the date of issuance of these financial statements as well as income and expenses recorded during the year.

The Company's management makes estimates to calculate, among others, depreciation of fixed assets, the recoverable value of non-current assets, the income tax benefit and the allowances for contingencies and bad debts. The actual value of future results may differ from the estimates and assessments made to the date of preparation of these financial statements.

2.5.8) Profit and loss accounts

Original values have been restated in year-end currency, except for:

a) Depreciation

Depreciation and amortization expenses were calculated by applying the depreciation and amortization rates to restated amounts determined as indicated in Note 2.5.4.

b) Financial gains/(losses) (including gain or loss on net monetary position - RECPAM).

It is determined based on the difference between the income/loss for the year and the subtotal of the Statement of income accounts restated in constant currency. It includes:

- the gain or loss on net monetary position, and
- financial gains.

2.5.9) Lease agreements in force

The Company classifies its lease agreements into "financial" or "operating" leases in accordance with the provisions of Technical Resolution 18 of FACPCE, and pursuant to the economic substance thereof.

As of December 31, 2025, the Company does not have any financial lease in force. Operating leases costs are accrued over the term of the agreement.

2.5.10) Accounts receivable

Accounts receivable are stated according to their likelihood of recovery. When there is an intention and possibility of an early negotiation, they are stated at net realization value.

Receivables with related parties that do not accrue any interest are stated at nominal value.

Each time financial statements are prepared, the recoverability of accounts receivable is analyzed by estimating future collections and considering the existence of guarantees with a high likelihood of foreclosure An allowance for bad debts is recognized in the amount deemed non-recoverable; the changes in the allowance are recorded in Financial and holding gains/losses (including gain or loss on net monetary position - RECPAM) of the Statement of profit or loss.

2.5.11) Accounts receivables

Receivables are valued considering their probable destination. When there is the intention and feasibility of negotiating them in advance, they are valued at their net realizable value.

2.5.12) Accounts payable

Payables are stated according to their likelihood of recovery. When there is an intention and possibility of an early settlement, they are stated at settlement value.

The remaining payables are stated at their original value plus interest calculated by applying the effective rate determined upon initial recognition, less payments made.

Payables with related parties that do not accrue any interest are stated at nominal value. Payables in foreign currency are stated in Argentine Pesos at the exchange rate prevailing at year-end.

2.5.13) Statement of cash flows

The Company presents the statement of cash flows by applying the indirect method. Cash includes cash and banks and cash equivalents. Cash equivalents include short-term and highly liquid investments that can be easily converted into cash known beforehand, and are subject to insignificant exchange rate risks.

All the accounts of this statement are stated in constant currency at the end of the reporting period.

The monetary gain/loss provided by cash and cash equivalents is presented in the statement of cash flows segregated from the cash flows provided by operating, investing and financing activities, as a specific item of the reconciliation between cash and cash equivalents at the beginning and end of the fiscal year.

Balances included in Cash and cash equivalents are as follows:

(Amount in ARS)

	As at December 31, 2025	As at December 31, 2024
Cash and banks	1.776.193.535	2.317.208.357
Short-term investments	1.650.000.000	435.527.255
Total	**3.426.193.535**	**2.752.735.612**

2.5.14) Shareholders' equity

Shareholders' equity balance adjusted at beginning of year have been adjusted at year-end by applying the indexation rates described in Note 2.1.

The capital was restated in constant currency, as indicated in Note 2.1. The difference between the restated amount and the nominal value is disclosed as "Capital adjustment".

Retained earnings have been restated at year-end, under Note 2.1.

Income for the year was determined based on the difference between the algebraic sum of the equity at the beginning plus the quantitative movements of the equity and the equity at the closing, measured in constant currency as of December 31, 2025.

INDEPENDENT AUDITORS' REPORT

To the President and Directors of
Tata Consultancy Services Argentina S.A.
Legal address: Esteban de Luca 2251
City of Buenos Aires
Taxpayer Identification Number: 30-70784821-5

Opinion

We have audited the financial statements of **Tata Consultancy Services Argentina S.A.**, which comprise the balance sheet as of December 31, 2025, the income statement, statement of changes in shareholders´ equity and cash flows for the year then ended, and notes to the financial statements set out in notes 1 to 9, which includes a summary of the significant accounting policies, and annexes I to IV.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of **Tata Consultancy Services Argentina S.A.** as of December 31, 2025, as well as its results, the evolution of its equity and its cash flow corresponding to the year ended on that date, in accordance with Argentine Professional Accounting Standards.

Basis for the opinion

We conducted our audit in accordance with the auditing standards established in Technical Resolution No. 37 of the Argentine Federation of Professional Councils of Economic Sciences (FACPCE) adopted by Resolution C.D. No. 46/2021 of the Professional Council of Economic Sciences of the Autonomous City of Buenos Aires (CPCECABA).

Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of this report.

We are independent of **Tata Consultancy Services Argentina S.A.** and we have fulfilled the other ethical responsibilities in accordance with the requirements of the Code of Ethics of the Professional Council of Economic Sciences of the Autonomous City of Buenos Aires and Technical Resolution No. 37 of the FACPCE adopted by Resolution C.D. No. 46/2021 of the CPCECABA. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the management of Tata Consultancy Services Argentina S.A in relation to the financial statements

The management of **Tata Consultancy Services Argentina S.A.** is responsible for the preparation and fair presentation of the accompanying financial statements in accordance with Argentine professional accounting standards, and for such internal control that it considers necessary to enable the preparation of financial statements that are free of material misstatements due to fraud or error.

In preparing the financial statements, management is responsible for evaluating the ability of **Tata Consultancy Services Argentina S.A**. to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities in relation to the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with FACPCE Technical Resolution No. 37 adopted by Resolution C.D. No. 46/2021 of the CPCECABA will always detect a material misstatement when it exists. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Technical Resolution No. 37 of the FACPCE adopted by Resolution C.D. No. 46/2021 of the CPCECABA, we apply our professional judgment and maintain an attitude of professional skepticism throughout the audit. Also:

a) We identify and evaluate the risks of material misstatement of the financial statements and perform audit procedures to respond to such risks and obtain sufficient and appropriate evidence to provide a basis for our opinion.

b) We obtain knowledge of the internal control relevant to the audit to design audit procedures that are appropriate in the circumstances and not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

c) We evaluate whether the accounting policies applied are appropriate, as well as the reasonableness of the accounting estimates and the corresponding information revealed by the management of **Tata Consultancy Services Argentina S.A**.

d) We conclude on the appropriateness of the use by the management of **Tata Consultancy Services Argentina S.A.**, of the going concern accounting principle and, based on the elements of judgment obtained, we conclude on whether or not there is a significant uncertainty related to facts or conditions that may cast doubts about the capacity of **Tata Consultancy Services Argentina S.A**. to continue as a going concern. If we conclude that a significant uncertainty exists, we are required to draw attention in our auditor's report to the information set forth in the financial statements or, if such disclosure is inappropriate, to express a modified opinion. Our conclusions are based on the elements of judgment obtained up to the date of our audit report. However, future events or conditions may cause the Company to cease to be a going concern.

e) We evaluate the overall presentation, structure and content of the financial statements, including the information disclosed, and whether the financial statements represent the underlying transactions and events in a manner that achieves a fair presentation.

f) We communicate with the management of **Tata Consultancy Services Argentina S.A.** regarding, among other matters, the overall audit strategy and significant audit findings, as well as any significant deficiencies in internal control identified during the audit.

We also provide the management of **Tata Consultancy Services Argentina S.A.** with a statement that we have complied with applicable ethical requirements related to my independence.

Report on other legal and regulatory requirements

a) The accompanying financial statements arise from the Company´s accounting records, and their transcription into the Journal and Inventory Book is pending;

b) As it appears from the entity's accounting records, the liability accrued as of December 31, 2025 in favor of the Argentine Integrated Pension System in respect of contributions and pension contributions amounted to $210.808.363 and was not due on that date;

c) We have applied the procedures on prevention of money laundering of criminal origin and financing of terrorism for **Tata Consultancy Services Argentina S.A.** provided for in Resolution J.G. 420/11 of the FACPCE, adopted by Resolution C.D. No. 77/2011 of the Professional Council of Economic Sciences of the Autonomous City of Buenos Aires (CPCECABA)

SUPERVISORY AUDITOR'S REPORT

To the Shareholders of
TATA CONSULTANCY SERVICES ARGENTINA S.A.

Esteban de Luca 2251,
City of Buenos Aires
Taxpayer Identification Number: 30-70784821-5

In my capacity as Regular Supervisory Auditor of **Tata Consultancy Services Argentina S.A.**, based on the provisions of subsection 5, section 294 of the Companies Law, I have examined the documents described in paragraph 1. Based on the documents referred to above, my responsibility is to report on such documentation, based on the work mentioned in paragraph 2.

1) DOCUMENTS UNDER EXAMINATION

a) Balance Sheet as of December 31, 2025.

b) Statement of profit or loss for the regular fiscal period of 12 months ended December 31, 2025.

c) Statement of changes in shareholders' equity for the regular fiscal period of 12 months ended December 31, 2025.

d) Statement of cash flows for the regular fiscal period of 12 months ended December 31, 2025.

e) Notes 1 to 9 and Exhibits I to IV.

2) SCOPE OF EXAMINATION

My examination was made in compliance with the supervisory auditors' standards in force. Those standards require that the financial statements be examined in conformity with the auditing standards in force, including the verification of the consistency of the documents examined with the information on corporate decisions recorded in the minutes of the Board of Directors' meetings as well as the compliance of such decisions with the law and the bylaws in their formal and documentary aspects. An audit requires that the auditor plans and performs the procedures to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit also includes examining, on a test basis, evidence supporting the disclosures in the financial statements, as well as evaluating the accounting principles used, the significant estimates made by the Board of Directors, and the overall presentation of the financial statements taken as a whole. As it is not the supervisory auditor's responsibility to exercise management control, I have not considered in my examination the business criteria and decisions adopted by the Company to prepare my report.

In addition, I have verified that the Letter to Shareholders for the year ended December 31, 2025 contains the information required by section 66 of the Companies Law and that its figures agree with the Company's accounting records and other relevant documentation.

3) OPINION

Based on the examination conducted, in my opinion, the financial statements described in paragraph 1 present fairly, in all material respects, the financial position of **Tata Consultancy Services Argentina S.A.** as of December 31, 2025, the results of its operations, the changes in shareholders' equity and cash flows for the year then ended, in conformity with professional accounting principles in force.

With regard to the Board of Directors' Letter to Shareholders, I have no comments to make as it relates to my area of responsibility. The assertions on future events stated therein are the Board of Directors' exclusive responsibility.

These accompanying financial statements and the related inventory arise from the accounting records which, in their formal aspects, are kept pursuant to the legislation in force.

City of Buenos Aires, March 02, 2026

Pablo Gustavo Traini
Regular Supervisory Auditor

TATA CONSULTANCY SERVICES DO BRASIL LTDA.

INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS

TO
The Shareholders and Management of
Tata Consultancy Services do Brasil Ltda.
São Paulo – SP

Opinion

We have audited the accompanying financial statements of Tata Consultancy Services do Brasil Ltda. ("Company"), which comprise the balance sheet as of December 31, 2025, and the related statements of statement of profit or loss and other comprehensive income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025, and its financial performance and cash flows for the year then ended, in accordance with the accounting practices adopted by International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the relevant ethical requirements set forth in the Code of Ethics for Professional Accountants and the professional standards issued by the Federal Accounting Council and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibility of management and those charged with governance for the financial statements

The Company's Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements, unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative to avoid doing so.

Those charged with governance are those individuals responsible for overseeing the Company's financial reporting process.

Auditor's responsibility for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements taken as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Brazilian and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. In addition, we:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve override of internal control, collusion, forgery, intentional omissions or misrepresentations;

- Obtain an understanding of the internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management;
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements, including those regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

SEE ACCOMPANYING NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Notes forming part of the Financial Statements

1. CORPORATE INFORMATION

Tata Consultancy Services do Brasil Ltda. ("the Company") is headquartered in the City of Barueri, State of São Paulo, and is engaged mainly in the provision of information technology services, involving: (a) IT consulting services, such as provision of computer program, software, computer system project and IT technical project development services, information technology-related implementation services, including study, support, infrastructure, research, creation, adaptation, design, preparation, data warehousing, training, data processing, systematization, automated management, database, data retrieval, installation, technical maintenance and support; (b) business process outsourcing (BPO), such as provision of labor in administrative, accounting, payroll, tax department routines, human resource management, financial department routines, controllership and other administrative service and customer service areas; (c) sale of computer programs, software, either materialized or not, recorded computer programs and the assignment and licensing and use of systems.

To provide services to specific customers, the Company has branches in Aracaju/SE, Belo Horizonte/MG, Brasília/DF, Campinas/SP, Corumbá/MS, Itabira/MG, Joinville/SC, Londrina/PR, Macaé/RJ, Mariana/MG, Nova Lima/MG, Parauapebas/PA, Rio de Janeiro/RJ, Santos/SP, São Luis/MA, São Paulo/SP and Vitória/ES.

The Company is incorporated and domiciled in Brazil. The address of its corporate office is Alameda Madeira, 328 - 13º andar – Alphaville Industrial, Barueri – SP, Postal Code 06454-010.

The Executive Committee authorized the issuance of these financial statements at the meeting held on March 2, 2026.

1.1. Regulatory Environment

On December 20, 2023, Constitutional Amendment (EC) No. 132 was enacted, establishing the Tax Reform ("Reform") on consumption. The Reform model is based on a split VAT ("dual VAT") with two jurisdictions: a federal tax (Contribution on Goods and Services (CBS)), which will replace PIS and Cofins, and a subnational tax (Tax on Goods and Services (IBS)), which will replace ICMS and ISS.

A Selective Tax (IS) was also created – under federal jurisdiction – which will apply to the production, extraction, commercialization, or importation of goods and services harmful to health and the environment, as defined in supplementary law.

On December 17, 2024, the National Congress concluded the approval of the first Supplementary Bill (PLP) No. 68/2024, which regulated part of the Reform. PLP No. 68/2024 was sanctioned with vetoes by the President of the Republic on January 16, 2025, becoming Supplementary Law No. 214/2025.

There will be a transition period from 2026 to 2032 during which the old and new tax systems will coexist. The impacts of the Reform on the calculation of the aforementioned taxes, from the beginning of the transition period onward, will only be fully known once the regulatory process for outstanding topics is completed through supplementary law. Consequently, there is no effect of the Reform on the financial statements of the Company as of December 31, 2025.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB).

3. BASIS OF PREPARATION

These financial statements have been prepared on a historical cost basis except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flow has been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals, or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid

and interest and dividend received as cash flow from operating activities. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional currency of the Company is the Brazilian Real (R$). Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policy information related to preparation of the financial statements have been discussed in the respective notes.

4. USE OF ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with the recognition and measurement principles of International Financial Reporting Standards (IFRS) requires management of Company to make estimates and judgments that affect the reported balances of assets and liabilities, disclosures of contingent liabilities as at the date of the financial statements and the reported amounts of income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting judgements, estimates and assumptions in preparation of its financial statements:

a. Revenue Recognition

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company estimates the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

The Company exercises judgement for identification of performance obligations, determination of transaction price, ascribing the transaction price to each distinct performance obligation and in determining whether the performance obligation is satisfied at a point in time or over a period of time. These judgements have been explained in detail under the revenue recognition note (Refer Note 9).

b. Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods. (Refer Note 8(a)).

c. Impairment of goodwill

The Company estimates the value-in-use of the cash generating units (CGUs) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rates used for the CGUs represent the weighted average cost of capital based on the historical market returns of comparable companies. (Refer Note 8(b)).

d. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

e. Impairment of financial assets (other than at fair value)

Measurement of impairment of financial assets require use of estimates, which have been explained in the note on financial assets, financial liabilities and equity instruments, under impairment of financial assets (other than at fair value). (Refer Note 6).

f. Deferred tax assets

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

g. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgement to assess contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

h. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. RECENT ACCOUNTING STANDARDS

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

Amendments to IFRS 9 and IFRS 7[1]

Annual Improvements to IFRS Accounting Standards1 – Amendments to:

- IFRS 1 – First-time Adoption of International Financial Reporting Standards
- IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 – Financial Instruments
- IFRS 10 – Consolidated Financial Statements
- IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements[2]

IFRS 19 – Subsidiaries without Public Accountability: Disclosures[2]

[1] Effective for annual periods beginning on or after January 1, 2026.

[2] Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments

relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

In December 2024, the IASB issued targeted amendments to help companies better report the financial effects of nature-dependent electricity contracts, which are often structured as power purchase agreements (PPAs). The amount of electricity generated under these contracts can vary based on uncontrollable factors such as weather conditions. Current accounting requirements may not adequately capture how these contracts affect a company's performance. The amendments include: clarifying the application of the 'own-use' requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows. The Company does not expect this amendment to have any significant impact in its financial statements.

Annual Improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. These amendments include clarifications, simplifications, corrections and changes aimed at improving the consistency of several IFRS Accounting Standards. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Company does not expect these narrow amendments to have any significant impact in its financial statements.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

The Company has applied IFRIC 23 effective for annual periods beginning on or after January 1, 2019 as below:

IFRIC 23 Interpretation Uncertainty over Income Tax Treatment

IFRIC 23 interpretation addresses the accounting for income taxes when there is uncertainty over tax treatments. It clarifies that an entity must consider the probability that the tax authorities will accept a treatment retained in its income tax filings, assuming that they have full knowledge of all relevant information when making their examination. In such a case, the income taxes shall be determined in line with the income tax filings.

Application of IFRIC 23

The company reviewed its income tax treatments in order to determine whether IFRIC 23 interpretation could have an impact on the financial statements. In that respect, the Company observed that there are no continuous instances of any uncertain tax treatment in the past and on that basis, it is reasonable to conclude that all the tax treatments are accepted by the tax officer and hence IFRIC-23 is not applicable.

6. FINANCIAL ASSETS, FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid financial investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortized cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the company are recognised at the proceeds received net of direct issue cost

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for expected credit loss, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

a. Cash and cash equivalents

Cash and cash equivalents consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Cash at bank	1,370	1,591
Cash in hand	7	7
Bank deposits (original maturity less than three months)	80,757	106,991
Total	**82,134**	**108,589**

b. Trade receivables - Billed

Trade Receivable - Billed consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Trade receivables - billed	255,131	193,032
Total	**255,131**	**193,032**

Trade Receivable - Billed include balances with related parties amounting to 57,636 thousands BRL reais (49,375 thousands BRL reais for 2024). (Refer Note 15).

c. Other financial assets

Other financial assets consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Loan and advances to employee	420	620
Security deposits	38	66
Others	(24)	31
Total	**434**	**717**

d. Trade Payables

Trade payables consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Trade payables	10,948	11,012
Accrued expenses	9,511	8,538
Total	**20,459**	**19,550**

Trade payables include balances with related parties amounting to 7,780 thousands BRL reais (8,161 thousands BRL reais for 2024). (Refer Note 15).

e. Other financial liabilities

Other financial liabilities consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Capital creditors	739	1,213
Liabilities towards customer contracts	6,227	6,177
Accrued payroll	47,912	33,634
Caution money	1,215	1,015
Total	**56,093**	**42,040**

f. Financial instruments by category

The carrying value of financial instruments by categories as at December 31, 2025 is as follows:

(In thousands BRL Reais)

	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	82,134	82,134
Trade receivables		
Billed	255,131	255,131
Unbilled	90,810	90,810
Other financial assets	434	434
Total	**428,509**	**428,509**
Financial liabilities		
Trade payables	20,459	20,459
Lease liabilities	69,170	69,170
Other financial liabilities	56,093	56,093
Total	**145,722**	**145,722**

The carrying value of financial instruments by categories as at December 31, 2024 is as follows:

(In thousands BRL Reais)

	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	108,589	108,589
Trade receivables		
Billed	193,032	193,032
Unbilled	68,563	68,563
Other financial assets	717	717
Total	**370,901**	**370,901**
Financial liabilities		
Trade payables	19,550	19,550
Lease liabilities	41,901	41,901
Other financial liabilities	42,040	42,040
Total	**103,491**	**103,491**

Carrying amounts of cash and cash equivalents, trade receivables and trade payables as at December 31, 2025 and December 31, 2024 approximate at the fair value due to their nature. Carrying amounts of other financial assets and other financial liabilities which are subsequently measured at amortised cost also approximates the fair value due to their nature in each of the periods presented. Fair value measurement of lease liabilities is not required.

g. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

- Level 3 – Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

h. Financial risk management

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

  The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the entity. Considering the economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries.

  The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

  The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the respective functional currency of the Company.

  The following analysis has been worked out based on the net exposures for the company as at the date of statement of financial position which could affect the statement of profit or loss and other comprehensive income and equity.

  The following table sets forth information relating to foreign currency exposure as at December 31, 2025:

(In thousands BRL Reais)

	USD	GBP	EUR	Others*
Net financial assets	55,182	2,749	17,584	4,866
Net financial liabilitites	3,848	2,959	(273)	310

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease / increase in the Company's profit before taxes by approximately 7,354 thousands BRL reais for the year ended December 31, 2025.

The following table sets forth information relating to foreign currency exposure as at December 31, 2024:

(In thousands BRL Reais)

	USD	GBP	EUR	Others*
Net financial assets	56,224	1,846	11,648	1,019
Net financial liabilitites	6,919	2,725	730	449

10% appreciation/depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease/increase in the Company's profit before taxes by approximately 5,991 thousands BRL reais for the period ended December 31, 2024.

*Others include currencies such as Swiss Franc, Swedish Krona, Uruguayan Peso, Mexican Peso, Peruvian Nuevo Sol, Norwegian Krone, Indian Rupee, Chilean Peso, Australian Dollar and Canadian Dollar.

- **Interest rate risk**

  The Company's investments are primarily in fixed rate interest-bearing investments. Hence, the Company is not significantly exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Refer Note 4 for methods, assumptions and information used to measure expected credit losses.

Financial instruments that are subject to credit risk consist of trade receivables, investments, cash and cash equivalents and other financial assets. Cash and cash equivalents include an amount of 82,127 thousands BRL reais held with bank in Brasil having high quality credit rating which are individually in excess of 10% or more of the Company's total cash and cash equivalents as at December 31, 2025. None of the other financial instruments of the Company result in material concentration of credit risk.

- **Exposure to credit risk**

  The carrying amount of financial assets and contract assets represents the maximum credit exposure. The maximum exposure to credit risk was 455,738 thousand BRL reais and 321,443 thousand BRL reais as at December 31, 2025 and as at December 31, 2024, respectively, being the total of the carrying amount of balances with banks, trade receivables, contract assets and other financial assets.

  Company's exposure to customers is diversified and single customer contributes to more than 10% of outstanding trade receivable and contract assets as at December 31, 2025 and as at December 31, 2024 as follows:

(In thousands BRL Reais)

	As at December 31, 2025		As at December 31, 2024	
	Trade receivables and Contract assets	Percentage	Trade receivables and Contract assets	Percentage
Customer C	134,747	36%	89,184	32%
Customer B	35,507	10%	45,767	16%

- **Geographic concentration of credit risk**

  Geographic concentration of trade receivables (gross and net of allowances) and contract assets is as follows:

	As at December 31, 2025	As at December 31, 2024
	Net %	Net %
Ibero America	77%	72%
America	16%	22%
Others	7%	6%

  Geographical concentration of trade receivables (gross and net of allowances) and contract assets is allocated based on the location of the customers.

  The allowance for lifetime expected credit loss on trade receivables for the years ended December 31, 2025, and 2024 was Nil reais and Nil reais respectively.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generated sufficient cash flows from operations to meet its financial obligations including lease liabilities as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as at:

(In thousands BRL Reais)

December 31, 2025	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities:					
Trade payables	20,459	-	-	-	20,459
Lease liabilities	22,617	19,980	39,143	21,753	103,493
Other financial liabilities	56,093	-	-	-	56,093
Total	**99,169**	**19,980**	**39,143**	**21,753**	**180,045**

(In thousands BRL Reais)

December 31, 2024	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities:					
Trade payables	19,550	-	-	-	19,550
Lease liabilities	13,256	13,276	24,392	5,047	55,971
Other financial liabilities	42,040	-	-	-	42,040
Total	**74,846**	**13,276**	**24,392**	**5,047**	**117,561**

i. Equity instruments

The authorized, issued, subscribed and fully paid up share capital consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
(a) Authorized		
Equity shares of BRL reais 1 each (175,801,586 shares)	175,802	175,802
	175,802	**175,802**
(b) Issued, Subscribed and Paid up		
Equity shares of BRL reais 1 each (175,801,586 shares)	175,802	175,802
Total	**175,802**	**175,802**

Details of shares held by shareholders in the Company Equity Shares

	As at December 31, 2025	As at December 31, 2024
TCS Iberoamerica Sociedad Anonima (Holding company)	175,802	175,802
TCS Uruguay Sociedad Anonima	-	-
% Holding in class	100%	100%

*TCS Uruguay Sociedad Anonima holds one share of the Company, amount is zero because of rounding off.

Fully paid equity shares, which have a par value of 175,802 thousands BRL reais (BRL 1 each) carry one vote per share and have a right to dividend. In the event of liquidation of the Company, the holders of shares are eligible to receive the remaining assets of the Company, after distribution of all preferential amounts, in proportion of their shareholding.

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

7. LEASES

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses an incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the Company is as follows:

(In thousands BRL Reais)

	Additions for the year ended December 31, 2025	Net carrying amount as at December 31, 2025
Buildings	38,612	58,037
Leasehold Improvements	-	1,406
Total	**38,612**	**59,443**

(In thousands BRL Reais)

	Additions for the year ended December 31, 2024	Net carrying amount as at December 31, 2024
Buildings	14,462	31,924
Leasehold Improvements	-	1,717
Total	**14,462**	**33,641**

Depreciation on right-of-use asset is as follows:

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Buildings	12,499	7,102
Leasehold Improvements	311	1,495
Total	**12,810**	**8,597**

Interest on lease liabilities is 9,780 thousands BRL reais and 3,592 thousands BRL reais for the year ended on December 31, 2025 and 2024, respectively.

The Company incurred 751 thousand BRL reais and 877 thousand BRL reais for the years ended December 31, 2025 and 2024, respectively, towards expenses relating to short-term leases and leases of low-value assets.

The total cash outflow for leases is 20,826 thousand BRL reais and 12,383 thousand BRL reais for the years ended December 2025 and 2024, respectively, including cash outflow for short-term leases and leases of low-value assets.

Lease contracts entered by the Company majorly pertains for buildings taken on lease to conduct its business in the ordinary course.

The Company does not have any lease restrictions and commitment towards variable rent as per the contract.

The tables below provide details regarding the maturities of lease liabilities as at:

	Due in 1st year	Due in 2nd year	Due in 3rd year	Due in 4th year	Due in 5th year	Due after 5 years	Total
	(In thousands BRL Reais)						
December 31, 2025	12,065	13,089	11,585	10,389	5,158	16,884	**69,170**
December 31, 2024	5,834	9,821	8,493	6,579	4,922	6,252	**41,901**

8. NON-FINANCIAL ASSETS AND LIABILITIES

a. Property, plant and equipment

The Company recognises the cost of an item of property, plant and equipment as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can measured reliably.

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight-line basis with highlighted portion so as to expense the cost less residual values over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Useful lives
Leasehold improvements	Lease term
Computer equipment	4 years
Furniture, fixtures, office equipment and other assets	10 years

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Property, plant and equipment consist of the following:

(In thousands BRL Reais)

	Leasehold improvement	Computer equipment	Electrical installations	Furniture and fixtures	Office equipment	Total
Gross block as at January 1, 2025	7,638	67,135	3,026	2,211	5,911	85,921
Addition	411	17,470	789	966	3,251	22,887
Disposals	-	(1,870)	-	-	(11)	(1,881)
Gross block as at December 31, 2025	**8,049**	**82,735**	**3,815**	**3,177**	**9,151**	**106,927**
Accumulated depreciation as at January 1, 2025	**3,333**	**45,928**	**1,723**	**2,019**	**3,468**	**56,471**

Total						**32,206**

b. Goodwill

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount.

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. The financial projections basis which the future cash flows have been estimated consider economic uncertainties, reassessment of the discount rates, revisiting the growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit.

Goodwill consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Balance at the beginning of the year	33,106	33,106
Balance at the end of the year	**33,106**	**33,106**

Tata Consultancy services do Brasil Ltda. tests goodwill annually for impairment.

Goodwill of 33,106 thousands BRL Reais as at December 31, 2025 and December 31, 2024 has been allocated to the entity as a CGU. The Company estimated the value-in-use of the CGU based on future cash flows using a 3.5% annual growth rate for periods subsequent to the forecast period of 10 years and discount rate of 22.58%. An analysis of the sensitivity of the computation to a change in key parameters (operating margin, discount rates and long-term average growth rate), based on reasonable assumptions, did not identify any probable scenario in which the recoverable amount of the CGU would below its carrying amount.

c. Other assets

Other assets consist of the following:

(a) Other assets - Current

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Advances to suppliers	10	64
Prepaid expenses	5,256	5,373
Contract assets	27,188	18,435
Contract fulfillment costs	406	587
Others	1,155	(13)
Total	**34,015**	**24,446**

(b) Other assets - Non Current

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Prepaid expenses	675	41
Contract assets	48	659
Contract fulfilment costs	51	-
Others	2,970	2,890
Total	**3,744**	**3,590**

Contract fulfilment cost of 557 thousands BRL reais and 2 thousands BRL reais for the year ended December 31, 2025 and 2024, respectively, have been amortised in the profit or loss. Refer note 9 for changes in contract assets

d. Other liabilities

Other liabilities consist of the following:

Other liabilities – Current

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Indirect tax payable and other statutory liabilities	63,903	47,921
Advance received from customers	16	-
Total	**63,919**	**47,921**

e. Provisions

Current Provisions consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Provision for foreseeable losses	93	447
Total	**93**	**447**

Non-Current Provisions consist of the following:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Provision towards legal claims (refer note 14)	20,102	6,607
Total	**20,102**	**6,607**

9. REVENUE RECOGNITION

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customization services rendered significantly modifies or customizes the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method .
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.

- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products/services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Contract fulfilment costs are generally expensed as incurred except for certain software license costs which meet the criteria for capitalization. Such costs are amortised over the contractual period or useful life of the license, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as trade receivable - unbilled (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers could include periodic performance based payments and/or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals and geography.

Revenue disaggregation by nature of services is as follows:

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Consultancy services	1,450,768	1,214,254
Sale of equipment and software licences	-	84
Total	**1,450,768**	**1,214,338**

Revenue disaggregation by industry vertical is as follows:

(In thousands BRL Reais)

Industry Vertical	Year ended December 31, 2025	Year ended December 31, 2024
Banking, Financial and Insurance	278,755	263,091
Manufacturing	278,116	262,523
Retail and Consumer Products	60,575	62,081
Communication, Media and Technology	58,094	54,859
Others	775,228	571,784
Total	**1,450,768**	**1,214,338**

Revenue disaggregation by geography is as follows:

(In thousands BRL Reais)

Geography	Year ended December 31, 2025	Year ended December 31, 2024
Ibero America	1,053,683	886,961
America	314,708	270,376
Europe	81,847	56,753
India	-	2
Others	530	245
Total	**1,450,768**	**1,214,338**

Geographical revenue is allocated based on the location of the customers.

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognise those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc.). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is 233,301 thousands BRL Reais out of which 58.45% is expected to be recognised as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in contract assets are as follows:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Balance at the beginning of the year	19,094	12,717
Invoices raised that were included in the contract assets balance at the beginning of the year	20,892	14,453
Increase due to revenue recognised during the year excluding amounts billed during the year	(12,091)	(9,332)
Translation Exchange difference	(659)	1,256
Balance at the end of the year	**27,236**	**19,094**

Changes in unearned and deferred revenue are as follows:

(In thousands BRL Reais)

	As at December 31, 2025	As at December 31, 2024
Balance at the beginning of the year	11,524	12,181
Revenue recognized that was included in the unearned and deferred revenue balance at the beginning of the period	(10,828)	(11,739)
Increase due to invoicing during the year, excluding amounts recognised as revenue during the year.	14,352	10,677
Translation exchange difference	(459)	405
Balance at the end of the year	**14,589**	**11,524**

10. COST RECOGNITION

Costs and expenses are recognised when incurred and have been classified according to their primary functions in the following categories:

Cost of Revenue

The costs of the Company are broadly categorized into employee benefits expenses, depreciation and amortization and other operating expenses. Employee benefits expenses include employee compensation, allowances paid, contribution to various funds and staff welfare expenses. Other operating expenses mainly include fees to external consultants, facility expenses, travel expenses, communication expenses, bad debts, and other expenses.

Selling, general and administrative expenses

Selling costs primarily include employee compensation for sales and marketing personnel, travel expenses, advertising, business promotion expenses, bad debts and advances written off, allowance for expected credit losses and doubtful advances (net), facility expenses for sales and marketing offices and market research costs.

General and administrative costs primarily include employee compensation for administrative, supervisory, managerial and practice management personnel, depreciation and amortisation expenses of non-production equipment and software, facility expenses for administrative offices, communication expenses, fees to external consultants and other general expenses.

- **Expenses by nature**

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Fees to external consultants and others	49,676	59,778
Facility expenses	14,640	11,117
Cost of equipment and software licenses	8	(59)
Travel expense	15,800	10,956
Communication expense	1,897	1,690
Other expenses*	53,179	37,288
Total	**135,200**	**120,770**

* Other expenses includes mainly project expenses amounting to 15,741 thousands BRL Reais for year ended December 31, 2025 and 18,041 thousands BRL Reais for year ended December 31, 2024.

- **Expenses by function**

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Cost of revenue	1,072,132	897,106
Selling, general and administrative expenses	227,260	181,979
Total	**1,299,392**	**1,079,085**

11. OTHER INCOME

a) Finance and other income

Dividend income is recorded when the right to receive payment is established. Interest income is recognised using effective interest method.

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Interest income on bank deposits	8,804	4,466
Others	382	1,866
Total	**9,186**	**6,332**

b) Finance costs

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Interest on Lease Liabilities**	9,780	3,592
Other interest expense	7	7
Total	**9,787**	**3,599**

** Company has executed 3 new lease contacts for the year ended December 31, 2025.

c) Other Gains / (Losses) (net)

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Net (loss) on disposal of property, plant and eqiupment	(11)	(47)
Net foreign exchange gains (losses)	(6,251)	5,791
Others	794	446
Total	**(5,468)**	**6,190**

12. INCOME TAXES

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income taxes

Current tax is based on the taxable profit for the year and is calculated using tax rates that have been enacted by the end of the reporting period.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination, affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The income tax expense consists of the following:

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Current Tax		
Current tax expense for current year	54,450	40,683
Current tax benefit pertaining to prior years	-	29
Total	**54,450**	**40,712**
Deferred tax		
Deferred tax (benefit) / expense for current year	(6,904)	7,236
Deferred tax expense / (benefit) pertaining to prior years	-	12
Total	**(6,904)**	**7,248**
Total	**47,546**	**47,960**

The reconciliation of estimated income tax expense at statutory income tax rate to income tax expense reported in statement of profit or loss is as follows:

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Profit before taxes	145,307	144,176
Federal income tax rate	34%	34%
Expected income tax expense	49,404	49,020
Tax effect of adjustments to reconcile expected income tax expense to reported income tax expense		
Tax pertaining to prior years	-	41
Others (net)	(1,858)	(1,101)
Total income tax expense	47,546	47,960
Effective tax Rate	33%	33%

Significant components of net deferred tax assets and liabilities for the period ended December 31, 2025 are as follows:

(In thousands BRL Reais)

	Opening balance	Recognised in profit or loss	Closing balance
Deferred tax assets / (liabilities) in relation to			
Goodwill Amortization	(11,256)	-	(11,256)
Lease Liabilities (Refer Note 7)	3,080	855	3,935
Others	19,488	6,049	25,537
Total deferred tax asset / (liabilities)	**11,312**	**6,904**	**18,216**

Significant components of net deferred tax assets and liabilities for the period ended December 31, 2024 are as follows:

(In thousands BRL Reais)

	Opening balance	Recognised in profit or loss	Closing balance
Deferred tax assets/(liabilities) in relation to			
Goodwill Amortization	(11,256)	-	(11,256)
Accumulated Losses (Refer Note a)	13,263	(13,263)	-
Lease Liabilities (Refer Note 7)	2,973	107	3,080
Others	13,579	5,909	19,488
Total deferred tax asset / (liabilities)	**18,559**	**(7,247)**	**11,312**

Note

a) As at December 31, 2025, the Company's accumulated tax loss carry forwards is Nil BRL reais (Nil BRL reais as at December 31, 2024). In accordance with the prevailing tax law, tax loss carry forwards may be carried forward indefinitely, but their utilization is limited to 30% of future annual taxable income.

Direct tax Contingencies

The Company has ongoing disputes with Tax authorities in Brasil. These mainly include utilization of tax credit by the Company not validated by tax authority. As at December 31, 2025, the Company has contingent liability of 26,462 thousands BRL reais (December 31, 2024: 23,670 thousands BRL reais) in respect of tax demands which are being contested by the Company based on the management evaluation and on the advice of tax consultants.

13. EMPLOYEE BENEFITS

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Compensated absences

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the date of statement of financial position.

Employee costs consist of the following:

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Salaries, incentives and allowances	839,868	710,773
Contribution to provident and other funds	199,647	150,950
Staff welfare expenses	96,369	73,809
Total	**1,135,884**	**935,532**

Employee benefit obligations consist of the following:

Employee benefit obligations – Current

(In thousands BRL Reais)

	Year ended December 31, 2025	Year ended December 31, 2024
Compensated absences	68,552	58,028
Other employee benefit obligations	174	226
Total	**68,726**	**58,254**

14. COMMITMENTS AND CONTINGENCIES

- ***Capital Commitments***

  The Company has contractually committed (net of advances) 5,877 thousands BRL reais and 1,012 thousands BRL reais as at December 31, 2025 and 2024 respectively, for purchase of property, plant and equipment.

- ***Direct tax matters***

  Refer note 12.

- ***Indirect tax matters***

  The Company has ongoing disputes with Tax authorities in Brasil. These mainly include utilization of tax credit by the Company not validated by tax authority. As at December 31, 2025, the Company has contingent liability of 5,170 thousands BRL reais (December 31, 2024: 4,613 thousands BRL reais) in respect of tax demands which are being contested by the Company based on the management evaluation and on the advice of tax consultants.

- ***Other claims***

  As of December 31, 2025, the Company is party to legal and administrative proceedings for which the likelihood of loss has been assessed as possible. The aggregate amount of such claim's totals BRL 14,597 thousand (December 31, 2024: BRL 16,875 thousand). No provision has been recognized in respect of these matters, as the Company does not consider the recognition criteria under IAS 37 to be met.

15. RELATED PARTY TRANSACTIONS

The Company's principal related parties consist of its ultimate holding company Tata Consultancy Services Limited and its subsidiaries, affiliates and key managerial personnel the company's material related party transactions and outstanding balances are with related parties with whom the Company routinely enter into transactions in the ordinary course of business.

Transactions and balances with related parties are as follows:

INDEPENDENT AUDITOR'S REPORT

TO THE STOCKHOLDERS OF
TATA CONSULTANCY SERVICES DE MÉXICO, S.A. DE C.V.:

Opinion

We have audited the accompanying financial statements of TATA Consultancy Services de México, S.A. de C.V., (the "Company"), which comprise the statements of financial position as of December 31, 2025 and 2024, and the statements of profit or loss and other comprehensive income, changes in equity and of cash flows, for the years then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company, as of December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with IFRS Accounting Standards (IFRSs) as issued by the International Accounting Standards Board.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in Mexico in accordance with the Instituto Mexicano de Contadores Públicos A.C.'s Code of Professional Ethics (IMCP Code) and we have fulfilled our other ethical responsibilities in accordance with the IESBA and IMCP Codes. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with IFRSs, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of TATA Consultancy Services de México, S.A. de C.V., as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is included in 'Exhibit of the Independent auditor's report' of this auditor's report. This description, which is located in the following page, forms part of our auditor's report.

SALLES, SAINZ – GRANT THORNTON, S. C.

Mexico City, Mexico
March 2, 2026

C.P.A. Fernando Robles Garibay

EXHIBIT OF THE INDEPENDENT AUDITOR'S REPORT

Further description of our responsibilities regarding the audit of the financial statements

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

See accompanying notes to financial statements

Notes to the Financial Statements for the years ended December 31, 2025 and 2024

1. Reporting entity

Tata Consultancy Services de México, S.A. de C.V. (the "Company") is a subsidiary de TCS Iberoamérica, SA and is engaged in providing information technology and consultancy services, application development, IT infrastructure management, including services under contracts for software development, implementation and other related services. It was incorporated as a corporation with variable capital, in accordance with Mexican law, on April 9, 2003, with a duration of 99 years and with principal place of business in Avenida Insurgentes Sur, No. 1647, Piso 4 Colonia San Jose Insurgentes, Alcaldía Benito Juarez, C.P. 03900, México City.

Authorisation

On March 2, 2026 Ms. Gloria Corona Mercado (Finance Director) and Rajeev Gupta (Country Head, Mexico) authorised the issuance of the accompanying financial statements and related notes thereto.

In accordance with the General Corporations Law and the bylaws of Tata Consultancy Services de México, S.A. de C.V., the stockholders are empowered to modify the financial statements after issuance. The accompanying financial statements will be submitted to the next Stockholders' Meeting for approval.

2. Statement of compliance

The accompanying financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), issued by International Accounting Standard Board (IASB).

3. Basis of preparation

These financial statements have been prepared on a historical cost basis except for certain financial instruments and defined benefit plans which are measured at fair value or amortized cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realization in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

Cash flows have been prepared using indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals, or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid and interest and dividend received as cash flow from operating activities. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional currency of the Company is the Mexican Pesos. Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policy information related to preparation of the financial statements have been discussed in the respective notes.

Functional and reporting currency

The aforementioned financial statements are presented in Mexican pesos (reporting currency), which is the same as the local currency and the functional currency.

To determine the functional currency, management assesses the economic environment in which it primarily generates and disburses cash. For this, factors related to sales, costs, sources of financing and cash flows generated by the operation are considered.

As of December 31, 2025 and 2024, the peso/dollar exchange rates were $18.00 and $20.69, respectively. Unless otherwise indicated, all financial information presented in pesos has been rounded to the nearest millions. When referring to "US" or dollars, it refers to amounts expressed in millions of dollars of the United States of America or U.S.D, when referring

to "EUR" means millions of Euro, "CAD" means millions Canadian dollar, "BRL" means millions of Brazilian real, "UYU" means millions of Uruguayan Peso, and "COP" means millions of Colombian peso.

Prepayments

Mainly include prepayments for the purchase of services that are received after the date of the statement of financial position and in the ordinary course of operations.

Presentation of statement of cash flows

The statements of cash flows of the Company are presented using the indirect method.

4. Use of estimates and judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of IFRS requires management to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected.

The Company uses the following critical accounting estimates, accounting judgement and assumptions in preparation of its financial statements:

a. Revenue recognition

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine degree of completion of the performance obligation.

b. Useful lives of Property, Plant and Equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

c. Valuation of deferred tax assets

The Company exercise its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period. The policy has been explained under **note 14**.

d. Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at the end of each reporting period adjusted to reflect the current best estimates. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Contingent liabilities are not recognised in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

e. Foreign currency

Transactions in foreign currency are translated at the exchange rate prevailing on the date of execution or settlement. Monetary assets and liabilities are at the exchange rate on the balance sheet date. Gains and losses arising on conversion of foreign currency denominated monetary assets and liabilities are reported on the statement of income, on other gains, net.

f. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

g. Employee benefits

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

h. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. Nature and purpose of reserves

Retained earnings

This reserve represents undistributed accumulated earnings of the Company as on the date of statement of financial position.

Statement of comprehensive income presentation

The Company opted for reporting comprehensive income in a single statement that includes all the items that comprise net income or loss and other comprehensive income (OCI), entitled "Statement of Comprehensive Income". Additionally, the "Operating profit" line item is included, which results from subtracting the cost of sales and expenses from total revenues, as this line item is considered to provide a better understanding of the Company's economic and financial performance.

Given that the Company is a service entity, ordinary costs and expenses are presented based on their nature, as the information so reported is clearer.

Capital stock

Common shares are classified in stockholders' equity.

6. Recent accounting standards

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

The Group has not applied the following new and revised IFRSs that have been issued but are not yet effective. Amendments to IFRS 9 and IFRS 7[1]

Annual Improvements to IFRS Accounting Standards1 - Amendments to:

- IFRS 1 - First-time Adoption of International Financial Reporting Standards
- IFRS 7 - Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 - Financial Instruments
- IAS 7 – Statement of Cash flows

IFRS 18 - Presentation and Disclosures in Financial Statements[2]

IFRS 19 - Subsidiaries without Public Accountability: Disclosures[2]

[1] Effective for annual periods beginning on or after January 1, 2026.

[2] Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

In December 2024, the IASB issued targeted amendments to help companies better report the financial effects of nature-dependent electricity contracts, which are often structured as power purchase agreements (PPAs). The amount of electricity generated under these contracts can vary based on uncontrollable factors such as weather conditions. Current accounting requirements may not adequately capture how these contracts affect a company's performance. The amendments include: clarifying the application of the 'own-use' requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows. The Company does not expect this amendment to have any significant impact in its financial statements.

Annual Improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. These amendments include clarifications, simplifications, corrections and changes aimed at improving the consistency of several IFRS Accounting Standards. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Company does not expect these narrow amendments to have any significant impact in its financial statements.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

The Company has applied IFRIC 23 effective for annual periods beginning on or after January 1, 2019 as below:

IFRIC 23 Interpretation Uncertainty over Income Tax Treatment

IFRIC 23 interpretation addresses the accounting for income taxes when there is uncertainty over tax treatments. It clarifies that an entity must consider the probability that the tax authorities will accept a treatment retained in its income tax filings, assuming that they have full knowledge of all relevant information when making their examination. In such a case, the income taxes shall be determined in line with the income tax filings.

Application of IFRIC 23

The Company reviewed its income tax treatments in order to determine whether IFRIC 23 interpretation could have an impact on the financial statements. In that respect, the Company observed that there are no continuous instances of any uncertain tax treatment in the past and on that basis, it is reasonable to conclude that all the tax treatments are accepted by the tax officer and hence IFRIC-23 is not applicable.

7. Financial assets, financial liabilities and equity instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivable which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Derivative accounting

Instruments not in hedging relationship

The Company enters into contracts that are effective as hedges from an economic perspective, but they do not qualify for hedge accounting. The change in the fair value of such instrument is recognised in profit or loss.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of Financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowance for expected credit losses, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

a. Cash and cash equivalents

Cash and cash equivalents consist of the following:

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Cash at bank and in hand	51.63	111.43
Bank deposits (original maturity less than three months)	1,009.94	1,006.17
Total	**1,061.57**	**1,117.60**

As of December 31, 2025, and 2024 there is no restricted cash.

In note **7 (g)** the Company discloses the sensitivity analysis for financial assets and liabilities.

b. Trade receivables - Billed

Trade receivables -Billed consist of the following:

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Trade receivables- Billed	235.02	281.97
Less: Allowance for expected credit losses	-	(0.08)
Total	**235.02**	**281.89**

Movement in the allowance for expected credit losses are as follows:

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Balance at the beginning of the year	0.08	0.51
Allowance for expected credit losses	(0.08)	(0.43)
Balance at the end of the year	**(0.00)**	**0.08**

c. Related Parties

Security deposits	0.30	0.29
Total	**15.99**	**52.69**

g. Financial instruments by category

The carrying value of financial instruments by categories as at December 31, 2025 is as follows:

(In millions of Mexican Pesos)

	Derivative Instruments not in hedging relationships	Amortised cost	Total carrying value
Financial assets			
Cash and cash equivalents	-	1,061.57	1,061.57
Trade receivables			
Billed	-	235.02	235.02
Unbilled	-	164.35	164.35
Related parties	-	1,566.28	1,566.28
Other financial assets	54.95	38.52	93.47
Total	**54.95**	**3,065.74**	**3,120.69**
Financial liabilities			
Trade payables	-	321.65	321.65
Related parties	-	230.36	230.36
Lease Liability	-	279.07	279.07
Other financial liabilities	6.48	9.51	15.98
Total	**6.48**	**840.59**	**847.06**

The carrying value of financial instruments by category as at December 31, 2024 is as follows:

(In millions of Mexican Pesos)

	Derivative Instruments not in hedging relationships	Amortized cost	Total carrying value
Financial assets			
Cash	-	1,117.60	1,117.60
Trade receivables			
Billed	-	281.89	281.89
Unbilled	-	264.16	264.16
Related parties	-	1,792.86	1,792.86
Other financial assets	18.13	60.90	79.03
Total	**18.13**	**3,517.41**	**3,535.54**
Financial liabilities			
Trade payables	-	356.20	356.20
Related parties	-	187.51	187.51
Lease Liability	-	329.98	329.98
Other financial liabilities	44.34	8.35	52.69
Total	**44.34**	**882.04**	**926.38**

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables and trade payables as at December 31, 2025 and December 31, 2024 approximate the fair value due to their nature. Carrying amounts of other financial assets and other financial liabilities which are subsequently measured at amortised cost also approximate the fair value due to their nature in each of the periods presented. Fair value measurement of lease liabilities is not required.

h. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices, included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosures are required):

As of December 31, 2025

(In millions of Mexican Pesos)

	Level 1	Level 2	Level 3	Total
Financial assets				
Fair value of foreign exchange derivative assets	-	54.95	-	54.95
Total	**-**	**54.95**	**-**	**54.95**
Financial liabilities				
Fair value of foreign exchange derivative liabilities	-	6.48	-	6.48
Total	**-**	**6.48**	**-**	**6.48**

As of December 31, 2024

(In millions of Mexican Pesos)

	Level 1	Level 2	Level 3	Total
Financial assets				
Fair value of foreign exchange derivative assets	-	18.13	-	18.13
Total	**-**	**18.13**	**-**	**18.13**
Financial liabilities				
Fair value of foreign exchange derivative liabilities	-	44.34	-	44.34
Total	**-**	**44.34**	**-**	**44.34**

The Company has entered into derivative instruments not in hedging relationship by way of foreign exchange forwards. As at December 31, 2025 and December 31, 2024, the notional amount of outstanding contracts aggregated to MXN 4,049.31 million and MXN 3,578.59 million, respectively and the respective fair value of these contracts have a net gain of MXN 48.48 million and net loss of MXN 26.19 million.

Exchange gain of MXN 267.33 million and exchange loss MXN 235.63 million on foreign exchange forwards that do not qualify for hedge accounting have been recognised in profit or loss for the period ended December 31, 2025 and 2024, respectively.

i. Financial risk management

Tata Consultancy Services de México S.A. de C.V. is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. Tata Consultancy Services de México, S.A. de C.V has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

j. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

k. Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the Company.

Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar and Euro.

The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the functional currency of the Company.

The following analysis has been worked out based on the net exposures for the Company as at the date of statement of financial position which could affect the statement of profit or loss and other comprehensive income and equity.

The following table sets forth information relating to foreign currency exposure as of December 31, 2025:

2025

(in millions of MXN)

	USD	EUR	GBP	CAD	CHF	COP	ARS	BRL	CLP	PEN	UYU	PHP	KRW	INR	SEK
Net financial assets	1,965.56	27.98	4.01	21.02	1.98	4.02	1.64	0.39	0.13	1.16	0.81	3.30	12.36	0.17	0.27
Net financial liabilitites	316.94	0.98	14.21	1.53	0.33	-	-	-	-	0.02	-	-	-	-	0.01

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of Tata Consultancy Services de México, S.A. de C.V would result in decrease / increase in the Company's profit before tax by approximately MXN 171.04 million for the year ended December 31, 2025.

The following table sets forth information relating to foreign currency exposure as of December 31, 2024:

2024

(in millions of MXN)

	USD	EUR	GBP	CAD	CHF	COP	ARS	BRL	CLP	PEN	UYU	PHP	KRW	UDF
Net financial assets	1,797.70	34.80	9.03	34.72	6.96	4.73	2.95	1.86	2.70	2.00	0.13	3.84	14.44	0.14
Net financial liabilities	368.87	0.61	10.10	2.09	1.01	0.00	-	-	-	0.03	-	-	-	-

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of Tata Consultancy Services de México, S.A. de C.V would result in decrease / increase in the Company's profit before tax by approximately MXN 153.33 for the year ended December 31, 2024.

l. Interest rate risk

The Company's investments are primarily in fixed rate bearing investments. Hence, the Company is not significantly exposed to interest rate risk.

m. Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to credit risk consist of trade receivables, unbilled receivables, cash and cash equivalents, bank deposits and other financial assets. Cash and cash equivalents include an amount of MXN 1,061.57 and MXN 1,117.60 million held with a Mexican bank having high quality credit rating as at 31st December 2025 and 31st December 2024. None of the other financial instruments of the Company result in material concentration of credit risk.

Exposure to credit risk

The carrying amount of financial assets and contract assets represents the maximum credit exposure. The maximum exposure to credit risk was MXN 3,120.69 and MXN 3,535.54 as of December 31, 2025 and December 31, 2024, respectively being the total of the carrying amount of cash and cash equivalents, trade receivables and unbilled receivables and other financial assets.

Trade receivables - Billed and Unbilled

The Company's exposure to credit risk with regards to trade receivables and unbilled receivables is influenced mainly by the individual characteristics of each customer in relation to the industry practices and business environment in which they operate. The Company limits its exposure to credit risk from trade receivables by establishing a maximum payment period of 272 days for its customers after which they are in default (credit impaired). To manage this risk, the Company has a robust Credit Management process in place. The Company has adopted a policy of dealing only with creditworthy counterparties. The Company's exposure of the counterparties are continuously monitored and necessary changes to the credit terms are made. The carrying amounts of financial assets represent the maximum credit risk exposure.

Tata Consultancy Services de México, S.A. de C.V.'s exposure to customers is diversified and single customer which explains more than 10% of outstanding total trade receivable as at December 31, 2025 and 2024 are as follows:

None of the other financial instruments of the Company result in material concentration of credit risk.

Geographic concentration of credit risk

Geographic concentration of trade receivables billed (net of allowances) and trade receivables unbilled is as follows:

(In millions of Mexican Pesos)

	As on December 31, 2025		As on December 31, 2024	
	Total Trade receivables and Contract assets	Percentage	Total Trade receivables and Contract assets	Percentage
Customer A	1,387.19	69.14	1,613.39	63.54
Customer B	174.42	8.69	388.70	15.31

Geographical concentration of trade receivables billed and trade receivables unbilled is allocated based on the location of the customers.

The Company uses an allowance matrix to measure the expected credit loss of trade receivable from customers. The expected credit loss allowance is based on the ageing of the days the receivables are due and are as follows:

(In millions of Mexican Pesos)

31-Dec-25	Weighted average loss rate	Gross Carrying Amount*	Loss Allowance	Credit impaired
No Due	0.02%	248.41	0.05	No
1-90	0.13%	48.22	0.06	No
91-180	2.17%	-	-	No
181-272	13.04%	-	-	No
>272	100.00%	-	-	Yes

*Gross carrying amount excludes inter-company receivables.

n. Liquidity risk

Liquidity risk refers to the risk that Tata Consultancy Services de México S.A. de C.V. cannot meet its financial obligations. The objective of Liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

Tata Consultancy Services de México, S.A. de C.V. consistently generates sufficient cash flows from operations to meet its financial obligations as and when they fall due.

The table below provides details regarding the contractual maturities of significant financial liabilities:

(In millions of Mexican Pesos)

As at December 31, 2025	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total

o. Equity instruments

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
(a) Authorised		
Equity shares of MXN 1 each (2,614,406 shares)	2.61	2.61
	2.61	**2.61**
(b) Issued, Subscribed and Fully paid up		
Equity shares of MXN 1 each (2,614,406 shares)	2.61	2.61
Total	**2.61**	**2.61**

A) Structure of share capital

As of December 31, 2025 and 2024, share capital fully issued and paid is represented by 50,000 common shares (corresponding to the minimum fixed portion) with a par value of MXN 1 each. The fixed and variable portion is represented by 2,614,406 shares of MXN 1 each.

In the event of liquidation of the Company, the holders of shares are eligible to receive the remaining assets of the Company, after distribution of all preferential amounts, in proportion of their shareholding.

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

(In millions of Mexican Pesos)

Other Comprehensive income (OCI)	For the year ended December 31, 2025	For the year ended December 31, 2024
Remeasurement in Defined Benefit Obligation	63.94	(6.40)
Total Other Comprehensive Income	**63.94**	**(6.40)**

B) Restriction in stockholders' capital

In accordance with the General Corporations Law, five percent of net income for the year must be appropriated to the statutory reserve, until it reaches one-fifth of share capital. As of December 31, 2025 and 2024, the same has been constituted at MXN 0.01.

Retained earnings and other Stockholder's contributions, on which no income tax has been paid, are subject to income taxes in the event of distribution, at the rate of 30%, payable by the Company; consequently, the stockholders may only receive 70% of such amounts.

Stockholder contributions may be refunded to the stockholders tax-free, to apply that exemption, such contributions must be equal or less of the balance of the Contributed Capital Account (CUCA for its Acronym in Spanish). As of December 31, 2025, and 2024, the CUCA amount is in process of being updated.

C) Dividend

At the General Ordinary Stockholders' Meeting held on February 24, 2025, a cash dividend payment of MXN 305.60 was approved and paid on March 06, 2025. As a consequence of this dividend payment, 5% of withheld income tax was paid in the amount of MXN 15.28 in accordance with local tax regulations for payment of dividends abroad.

At the General Ordinary Stockholders' Meeting held on May 27, 2025, a cash dividend payment of MXN 289.84 was approved and paid on June 13, 2025. As a consequence of this dividend payment, 5% of withheld income tax was paid in the amount of MXN 14.49 in accordance with local tax regulations for payment of dividends abroad.

At the General Ordinary Stockholders' Meeting held on August 14, 2025, a cash dividend payment of MXN 278.49 was approved and paid on September 03, 2025. As a consequence of this dividend payment, 5% of withheld income tax was paid in the amount of MXN 13.92 in accordance with local tax regulations for payment of dividends abroad.

At the General Ordinary Stockholders' Meeting held on February 28, 2024, a cash dividend payment of MXN 256.89 was approved and paid on March 11, 2024. As a consequence of this dividend payment, 5% of withheld income tax was paid in the amount of MXN 12.84 in accordance with local tax regulations for payment of dividends abroad.

At the General Ordinary Stockholders' Meeting held on June 3, 2024, a cash dividend payment of MXN 264.51 was approved and paid on June 26, 2024. As a consequence of this dividend payment, 5% of withheld income tax was paid in the amount of MXN 13.23 in accordance with local tax regulations for payment of dividends abroad.

At the General Ordinary Stockholders' Meeting held on September 6, 2024, a cash dividend payment of MXN 300.26 was approved and paid on September 11, 2024. As a consequence of this dividend payment, 5% of withheld income tax was paid in the amount of MXN 15.01 in accordance with local tax regulations for payment of dividends abroad.

At the General Ordinary Stockholders' Meeting held on December 19, 2024, a cash dividend payment of MXN 303.54 was approved and paid on December 20, 2024. As a consequence of this dividend payment, 5% of withheld income tax was paid in the amount of MXN 15.18 in accordance with local tax regulations for payment of dividends abroad.

Distribution of dividends or profits to the shareholders that come from the CUFIN, will not generate income tax to legal entities resident in the country, until the balance of said account is zero. Dividends paid to individuals and legal entities resident abroad, on profits generated from January 1, 2014 and onwards, are subject to a 10% tax, which has the character of final payment.

The dividends paid to TCS Iberoamérica, S.A. and TCS Solution Center, S.A., are taxed at a lower rate than that mentioned above, since it applied the benefits of the agreement between the United Mexican States and the Oriental Republic of Uruguay to avoid double taxation.

As of December 31, 2025, and 2024 the restated balance of the CUFIN account (Net taxable income account or CUFIN for its Acronym in Spanish), is $ 3,733.39 and $ 3,857.98 pesos, respectively, taken into consideration the $ 873.93 dividends paid during 2025 and $ 1,125.20 for 2024.

8. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The details of the right- of – use asset held by the Company is as follows:

(In millions of Mexican Pesos)

	Additions for the year ended December 31, 2025	Net carrying amount as at December 31, 2025
ROU Leasehold Building	48.53	279.91
ROU Leasehold Building - Security deposit	2.73	1.22
ROU Leasehold improvement	-	13.84
Total	**51.26**	**294.97**

(In millions of Mexican Pesos)

	Additions for the year ended December 31, 2024	Net carrying amount as at December 31, 2024
ROU Leasehold Building	167.45	307.33
ROU Leasehold Building - Security deposit	-	1.11
ROU Leasehold improvement	-	20.24
Total	**167.45**	**328.68**

Depreciation on right – of – use asset is as follows:

(In millions of Mexican Pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Depreciation - Leasehold Buildings	80.63	80.34
Depreciation - Leasehold Building - Security deposit	0.50	0.55
Depreciation - Leasehold improvement - ROU	6.40	6.40
Total	**87.53**	**87.29**

Interest on lease liabilities is MXN 19.03 and MXN 21.83 for the years ended on December 31, 2025 and 2024, respectively.

The Company incurred MXN (1.89) and MXN 7.69 for the years ended December 31, 2025 and 2024, respectively, towards expenses relating to short-term leases and leases of low-value assets. The total cash outflow for leases is MXN 75.75 and MXN 89.19 for the years ended December 31, 2025 and 2024, respectively, including cash outflow for short-term leases and leases of low-value assets.

Lease contracts entered by the company majorly pertains for buildings taken on lease to conduct its business in the ordinary course. The Company does not have any lease restrictions and commitment towards variable rent as per the contract.

There are no property leases that contain extension options.

9. Non-financial assets and liabilities

a. Leasehold improvements, furniture and equipment

Improvements to leased buildings are carried at cost. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

The furniture and equipment are stated at cost less accumulated depreciation.

Depreciation is calculated on the amount susceptible to depreciation, corresponding to the cost of an asset, or another amount that replaces the cost.

Depreciation is recognised in the statement of comprehensive income using the straight-line method according to the estimated useful life of each component of an item of furniture and equipment, since this better reflects the usage pattern expected of the future economic benefits included in the asset. Leased assets are depreciated for the duration of the lease or the useful life of the assets, whichever is lower, unless there is reasonable certainty that the Company will acquire ownership of the leased assets at the end of the lease.

The annual depreciation rates of the assets as follows :	% average rate of depreciation
Improvements to leased buildings,Electrical installations, Plant and Machinery	5 – 10
Office furniture and equipment	20
Computers	25

Subsequent expenditures

Expenditures for repairs and modifications or improvements that prolong the useful life of the assets beyond the originally estimated, which allows the entity to obtain future economic benefits that can be measured reliably, are capitalised as fixed assets.

Impairment of Non-financial assets

i. Tangible assets

Leasehold improvements, furniture and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Leasehold improvements, furniture and equipment comprise the following:

(In millions of Mexican Pesos)

	Lease Improvements	Transportation equipment	Computer equipment	Furniture and fixtures	Office Equipment	Electrical Installations	Plant and Machinary	Total

MXN 71.84 has been capitalised and transferred to property, plant and equipment during the year ended December 31, 2024.

ii. Intangible assets

i. Other intangible assets

Other intangible assets that are acquired by the Company and have defined useful lives are recorded at cost less accumulated amortisation.

ii. Amortisation

The amortisation is calculated on the cost of the asset or other amount that replaces cost, less the residual value.

The amortisation is recognised in the statement of income under the straight-line method based on the estimated useful life of the intangible assets, other than goodwill, from the date they are available for use, this reflects the expected usage pattern of the future economic benefits included in the asset. The estimated useful lives for the current and comparative periods are as shown follow:

- **Software for internal use** **3 years**

The amortisation methods, useful lives and residual values of intangible assets are reviewed at the end of each year and adjusted if necessary.

b. Other assets

Other assets consist of the following:

(In millions of Mexican Pesos)

Other assets - Current	As of December 31, 2025	As of December 31, 2024
Advance to suppliers	131.09	115.13
Contract fulfillment costs - Current*	0.14	-
Contract assets	128.17	180.09
Prepaid expense	18.52	2.06
Other current assets	0.31	0.31
Total	**278.23**	**297.59**
Other assets - Non current		
Contract assets	0.83	20.48
Total	**0.83**	**20.48**

(*) MXN 0.14 has been charged to the Profit and loss during CY 2025 from contract fulfillment cost.

c. Trade payables

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Trade payables	321.65	356.20
Total	**321.65**	**356.20**

d. Other current liabilities

Other liabilities consist of the following:

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Advance received from customers	7.10	0.07
Indirect tax payable and other statutory liabilities	446.43	534.58
Total	**453.53**	**534.65**

e. Unearned and deferred revenue

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Unearned and deferred revenue	68.47	132.96
Total	**68.47**	**132.96**

10. Revenue recognition

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions. Revenue

is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customization services rendered significantly modifies or customizes the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

  Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

  The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

  Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

  The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

  Contract fulfilment costs are generally expensed as incurred except for certain software license costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of license, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected

to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers could include periodic performance based payments and/or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by industry verticals, geography and nature of services.

Revenue disaggregation by industry vertical is as follows:

(In millions of Mexican Pesos)

Industry Vertical	For the year ended December 31, 2025	For the year ended December 31, 2024
Banking, Financial & Insurance	5,915.09	6,299.78
Retail and Consumer Products	1,358.95	1,379.46
Manufacturing	1,018.65	1,013.09
Consumer, Media and Technology	704.53	544.35
Others	2,681.93	2,684.99
Total	**11,679.15**	**11,921.67**

Revenue disaggregation by geography is as follows:

(In millions of Mexican Pesos)

Geography	For the year ended December 31, 2025	For the year ended December 31, 2024
America	11,131.04	11,372.95
Europe	254.76	253.76
Others	293.35	294.96
Total	**11,679.15**	**11,921.67**

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognise those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has applied practical expedient of not disclosing the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts. Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc.). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is MXN 6,138.90 out of which 49.04 % is expected to be recognised as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in contract assets are as follows:

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Balance at the beginning of the period	200.56	143.36
Invoices raised that were included in the contract assets balance at the beginning of the period	(109.13)	(67.73)
Increase due to revenue recognized during the period, excluding amounts billed during the period	52.03	99.64
Translation exchange difference	(14.46)	25.29
Balance at the end of the period	**129.00**	**200.56**

Changes in unearned and deferred revenue are as follows:

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Balance at the beginning of the period	207.24	86.63
Revenue recognised that was included in the unearned and deferred revenue at the beginning of the period	(195.48)	(83.97)
Increase due to invoicing during the period, excluding amounts recognised as revenue during the period	139.30	200.14
Translation exchange difference	(5.99)	4.44
Balance at the end of the period	**145.07**	**207.24**

11. Cost recognition

Costs and expenses are recognised when incurred and have been classified according to their nature in the following categories:

Cost of revenue

The costs of the Company are broadly categorised into employee benefit expenses, depreciation and amortisation and other operating expenses. Employee benefit expenses include employee compensation, allowances, contribution to various funds and staff welfare expenses. Other operating expenses mainly include fees to external consultants, facility expenses, travel expenses, cost of equipment and software licenses, communication expenses and other expenses.

Selling, general and administrative expenses

Selling costs primarily include employee compensation for sales and marketing personnel, travel expenses, advertising, business promotion expenses, bad debts and advances written off, allowance for expected credit losses and doubtful advances (net), facility expenses for sales and marketing offices and market research costs.

Other operating expense. include employee compensation for administrative, supervisory, managerial and practice management personnel, depreciation and amortisation expenses of non-production equipment and software, facility expenses for administrative offices, communication expenses, fees to external consultants and other general expenses.

Expenses by nature

(in millions of MXN)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Fees to external consultants and others	770.85	832.90
Facility expense	69.43	82.22
Travel expense	54.82	36.24
Communication expense	41.67	51.96
Project Expense	15.67	20.53
Expected credit losses and doubtful advances (Net)	0.03	0.07
Expenses for administrative services	0.57	0.17
Other expenses	209.17	208.82
Total	**1,162.21**	**1,232.91**

Expenses by function

(in millions of MXN)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Cost of revenues	9,160.14	9,357.69
Selling, general and administrative expenses	1,433.51	1,357.49
Total	**10,593.65**	**10,715.18**

12. Employee benefits

Retirement benefits costs from termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period.

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur.

Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements).
- Remeasurement

The Company presents the first two components of defined benefit costs in profit or loss. Gains and losses for reduction of service are accounted for as past service costs.

The retirement benefit obligation recognised in the statement of financial position represents the actual deficit or surplus in the Company's defined benefit plans.

Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Employee benefit expense consists of the following:

(In millions of Mexican Pesos)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Salaries, incentives and allowances	7,307.47	7,425.18
Contribution to provident and other funds	1,777.75	1,701.59
Staff welfare expenses	167.03	165.68
	9,252.25	**9,292.45**

Employee benefit obligations consists of the following:

Employee benefit obligations

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Defined benefit obligation	406.39	366.22
Employee statutory profit sharing	144.29	173.62
Liabilities for social securities contributions	159.10	151.98
Liability for long service leave	374.13	365.47
Bonus accrual	7.69	5.65
Total employee benefit obligations	**1,091.60**	**1,062.94**
Current	685.21	696.72
Non-current	406.39	366.22
	1,091.60	**1,062.94**

a. Defined contribution plans

The Company manages a plan that covers seniority premiums for all staff working in Mexico, which consists of a single payment of 12 days per year worked based on final salary, not to exceed twice the minimum wage established by law. The related liability and annual cost of benefits is calculated by an independent actuary using the method of projected unit credit.

The plans typically expose the Entity to actuarial risks as investment risk, Interest rate, longevity and salary.

Interest risk	A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

No other post-retirement benefits are provided to these employees.

The most recent actuarial valuation of the present value of the defined benefit obligation were carried out as of December 31, 2025 and 2024 by Independents actuaries, who are members of the Institute of Actuaries of Mexico. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

(In millions of Mexican Pesos)

	2025	2024
Discount rates	9.30%	9.40%
Inflation long term rates	4.00%	4.00%
Salaries increase rates	4.64%	4.64%

Amounts recognised in comprehensive income in respect of these defined benefit plans are as follows:

(In millions of Mexican Pesos)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Remeasurement in Defined Benefit Obligation	63.94	(6.40)
Total Other Comprehensive Income	**63.94**	**(6.40)**

Activity in the present value of the defined benefit obligation was as follows:

(In millions of Mexican Pesos)

	As of December 31, 2025	As of December 31, 2024
Opening defined benefit obligation	366.22	263.99
Personnel Transferred	0.09	4.72
Current service cost	86.81	72.13
Financial cost	33.74	24.40
Benefits paid during the year	(17.59)	(7.13)
Actuarial obligation (income) / loss	(57.29)	(21.19)
Prior Service Cost (Seniority recognition)	1.06	1.72
Gain/(Loss) due to change in demographic assumptions	(12.10)	-
Gain/(Loss) due to change in financial assumptions	5.45	27.58
Net liability arising from defined benefit obligation	**406.39**	**366.22**

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

If the discount rate is 1.00 basis points higher (lower), the defined benefit obligation would decrease by MXN 50.18 (increase by MXN 60.71).

If the expected salary growth increases (decreases) by 1.00, the defined benefit obligation would increase by MXN 48.64 (decrease by MXN 41.44).

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the statement of financial position.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

13. Other Income

Finance income and cost, and other gains, (losses)

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Finance cost

Financial costs include interest expenses on loans. The loan costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in income using the effective interest method.

a. Finance income

(In millions of Mexican Pesos)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Interest income on bank deposits	14.90	23.26
Sublease Rent - Misc Income	4.46	3.97
Interest revenue - Other Deposits	0.61	0.55
Total	**19.97**	**27.78**

b. Finance cost

(In millions of Mexican Pesos)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Interest on lease liabilities	19.03	21.83
Other interest costs	0.78	3.74
Total	**19.81**	**25.57**

c. Other gains/(losses)

(In millions of Mexican Pesos)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Loss on disposal of property and equipment	-	(0.00)
Net foreign exchange (loss) / gain	41.46	36.75
Others	3.09	10.88
Total	**44.55**	**47.63**

14. Income taxes (IT)

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income taxes

The charge for current income tax is calculated based on enacted, or substantially enacted, tax laws at the balance sheet date. The management assesses periodically the positions assumed in the tax returns filed regarding situations in which the tax laws are subject to interpretation. The Company, as corresponds, creates provisions on amounts expected to be obliged to pay to tax authorities.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income taxes are recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. Such deferred IT assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

A deferred tax loss carry forward asset, tax credits and deductible temporary differences are recognised to the extent that it is likely that taxable income may be available in the future against which they can be applied. The deferred assets are reviewed as of the reporting date and are reduced to the extent that the realisation of the corresponding tax benefit is no longer probable.

IT Law effective as of January 1, 2015 imposes an IT rate of 30% for 2014 and thereafter.

The income tax expense consists of the following: (In millions of Mexican Pesos)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Current income tax expense	388.18	479.53
Deferred income tax	(1.52)	(78.49)
Total	**386.66**	**401.04**

Income tax expense attributable to income before income taxes, differed from the amounts computed by applying the Mexican statutory rates of 30% IT to income before income taxes, as a result of the items shown below:

(In millions of Mexican Pesos)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Income before income taxes	1,130.21	1,256.33
Income tax rate	30%	30%
Expected income tax expense	339.06	376.90
Non Deductable	45.08	43.08
Inflation Adjustment	(33.95)	(41.36)
Non-deductible payroll	27.67	28.14
Other Non deductible	8.80	(5.72)
	386.66	**401.04**

The tax effects of temporary differences that give rise to significant portions of the deferred income tax assets and liabilities, are presented below:

(In millions of Mexican Pesos)

Notes to the Financial Statements for the years ended December 31, 2025 and 2024

1. Employee profit sharing (PTU)

For the year ended December 31, 2025 and 2024, the Company generated employee profit sharing of MXN 131.58 and MXN 121.21 respectively.

Direct Tax Contingencies

a) In accordance with Mexican tax law, the tax authorities are empowered to examine transactions carried out during the five years prior to the most recent income tax return filed.

b) In accordance with the IT Law, companies carrying out transactions with related parties are subject to certain requirements as to the determination of prices, which should be similar to those that would be used in arm's-length transactions.

Should the tax authorities examine the transactions and reject the related-party prices, they could assess additional taxes plus the related inflation adjustment and interest, in addition to penalties of up to 100% of the omitted taxes.

c) Tax Contingencies for FYE 2013

On September 11, 2019, the Company received a notification from the Tax Authority determining a tax debit for the amount of MXN 838.09 for income tax and value added tax, update surcharge and fines, corresponding to fiscal year 2013, as well as an alleged omission in the provisional income tax payment for certain months corresponding to fiscal years 2014 and 2015.

In the opinion of the internal and external lawyers of the Company approximately a part of this tax debit is unduly determined by the tax authority, among other reasons, because the authority is including the omitted amounts payment of MXN 120 made by the Company on September 2, 2019, correcting its tax situation. Such amount was determined on the conclusive agreement between the Company and the Mexican Tax Authority signed before the Taxpayer Defense Office (PRODECON). In consequence, on September 2, 2019, the Company submitted the complementary tax filings with the corresponding corrections.

On October 24, 2019, an appeal for revocation was filled against said resolution before the Central Administration of the Contentious of Large Taxpayers of the Tax Administration Service.

On December 5, 2019, the Company presented the information requested in the SAT notification.

Currently, the appeal for revocation is under study by the officials of the Central Administration of the Contentious of Large Taxpayers of the Tax Administration Service. In case of obtaining an unfavorable resolution, the Company will file an annulment petition before the Federal Court of Administrative Justice, against the decision of the tax authority.

As a result of management's evaluation, the Company decided to recognize a provision of MXN 244.2 during 2019 and 2020, pertaining to income tax from the observations from the Tax Authority. For the remaining matter of observation from the Tax Authority, the Company has evaluated that the ultimate outcome of the matter cannot be determined presently and, accordingly, no provision for any effects on the Company that may result has been made in the financial statements. The Company has recognized contingent liability of MXN 333.9 (amount including surcharges and inflation).

d) Tax Contingencies for FYE 2015

On May 19, 2023, the Tax Authority issued an Assessment on the Company determining a tax liability for the period January 1, 2015, to December 31, 2015, of MXN 549.5 for VAT on export of services. The Company filed an administrative appeal before the Central Administration of the Contentious of Large Taxpayers of the Tax Administration Service on June 30, 2023.

Currently, the appeal for revocation is under study by the officials of the Central Administration of the Contentious of Large Taxpayers of the Tax Administration Service. In case of obtaining an unfavorable resolution, the Company will file an annulment petition before the Federal Court of Administrative Justice, against the decision of the tax authority.

The Company has evaluated that the ultimate outcome of the matter cannot be determined presently and, accordingly, no provision for any effects on the Company that may result has been made in the financial statements. The Company has recognized contingent liability of MXN 894.13 (amount including surcharges and inflation).

e) Tax Audit for FYE 2017

As a result of the conclusive agreement process, TMCV received on July 29, 2024, SAT Order, mandating a payment of MXN 47.1 for Income tax and VAT, closing all concepts observed except for offsetting of VAT favorable balances corresponding to March 2015 and May 2015 against the provisional income tax payments for January, February and June 2017. The reversal of this will depend upon the resolution of the administrative appeal filed against the tax assessment regarding favorable VAT balances for 2015. Payment of MXN 47.1 was done, and final signature of conclusive agreement was finalized on September 3, 2024. The Tax Authority notified TMCV on January 22, 2025 in which it determined a tax assessment for MXN 146.6 for the above-referred provisional payments offset with the VAT credit balances of 2015.

The Company filed an administrative appeal against this tax assessment on March 06, 2025.

The Company has evaluated that the ultimate outcome of the matter cannot be determined presently and, accordingly, no provision for any effects on the Company that may result has been made in the financial statements. The Company has recognized contingent liability of MXN 148.13 (amount including surcharges and inflation).

As a result of management's evaluation, the Company decided to maintain a total provision of MXN 246.08 in 2025.

15. Business and credit concentration

For the years ended at December 31, 2025 and 2024, consultancy services rendered to related parties represented 72.21% and 68.98%, respectively of the Company's total consultancy service revenue.

For the years ended at December 31, 2025 and 2024, purchase of services from a related party represented 7.73% and 8.11%, respectively of the Company's total operating expenses.

16. Contingencies and commitments

a. Liabilities for loss contingencies are recorded when it is probable that a liability has been incurred and the amount thereof can be reasonably estimated. When a reasonable estimation cannot be made, disclosure is provided in the notes to the financial statements. Contingent revenues, earnings or assets are not recognized until realization is assured.

b. The Company has entered into service agreements with related parties, under which these companies provide technical assistance services necessary for the Company's operations. These agreements are for a period ending on December 2025. Total payments under these agreements, reported under administrative expenses, were MXN 814.53 in 2025 and MXN 870.82 in 2024.

c. The Company is involved in a number of lawsuits and claims arising in the normal course of business. It is expected that the final outcome of these matters will not have significant adverse effects on the Company's financial position and income (loss).

d. Claims aggregating MXN 30.75 and MXN 32.65 as at December 31, 2025 and 2024 respectively against the Company, have not been acknowledged as debts.

e. The Company has contractually committed (net of advances) MXN 19.50 as at December 31, 2025 and MXN 17.95 as at December 31, 2024 for purchase of equipment.

f. The Company has Indirect Taxes contingency of MXN 1,372.62 and MXN 1,416.58 as at December 31, 2025 and 2024 respectively.

Notes to the Financial Statements for the years ended December 31, 2025 and 2024

17. Related party disclosure

The Company does not have business operations with members of management and close relatives outside operations at arm's length and available to the general public and for non-significant amounts.

INDEPENDENT AUDITOR'S REPORT

TO THE PARTNERS OF
MGDC, S.C.:

Opinion

We have audited the accompanying financial statements of MGDC, S.C., (the "Company"), which comprise the statements of financial position as of December 31, 2025 and 2024, and the statements of profit or loss and other comprehensive income, changes in the partner's equity and of cash flows, for the years then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company, as of December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended, in accordance with IFRS Accounting Standards (IFRSs), as issued by the International Accounting Standards Board.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in Mexico in accordance with the Instituto Mexicano de Contadores Públicos A.C.'s Code of Professional Ethics (IMCP Code) and we have fulfilled our other ethical responsibilities in accordance with the IESBA and IMCP Codes. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with IFRSs, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company´s financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of MGDC, S.C., as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is included in 'Exhibit of the Independent auditor's report' of this auditor's report. This description, which is located in the following page, forms part of our auditor's report.

SALLES, SAINZ – GRANT THORNTON, S. C.

Mexico City, Mexico

March 2, 2026

C.P.A. Fernando Robles Garibay

Exhibit of the Independent auditor's report

Further description of our responsibilities regarding the audit of the financial statements

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

SEE ACCOMPANYING NOTES TO FINANCIAL STATEMENTS

Notes forming part of the Financial Statements

1. CORPORATE INFORMATION

MGDC S.C. (the "Company") is a subsidiary of TCS Uruguay S.A. and TATA Consultancy Services Argentina S.A. Its main activity is to provide administrative services mainly to its related parties. It was incorporated as a Civil Society in accordance with Mexican law, on March 16, 2007, with a duration of 99 years, its main business center is located at Camino el ITESO No. 8699, Colonia El Mante, C.P. 45609 in the municipality of Tlaquepaque, Guadalajara, Jalisco.

Authorization

On March 02, 2026 Ms. Gloria Corona Mercado (Finance Director) and Mr. Rajeev Gupta (Country Head, Mexico) authorized the issuance of the accompanying financial statements and related notes thereto.

In accordance with the General Corporations Law and the bylaws of MGDC S.C., the partner's are empowered to modify the financial statements after issuance. The accompanying financial statements will be submitted to the next Partners' Meeting for approval.

2. STATEMENT OF COMPLIANCE

The accompanying financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), issued by International Accounting Standard Board (IASB).

3. BASIS OF PREPARATION

These financial statements have been prepared on a historical cost basis except for certain financial instruments and defined benefit plans which are measured at fair value or amortized cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realization in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

Cash flows have been prepared using indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals, or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid and interest and dividend received as cash flow from operating activities. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional currency of the Company is the Mexican Pesos. Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policy information related to preparation of the financial statements have been discussed in the respective notes.

Functional and reporting currency

The aforementioned financial statements are presented in Mexican pesos (reporting currency), which is the same as the local currency and the functional currency.

To determine the functional currency, management assesses the economic environment in which it primarily generates and disburses cash. For this, factors related to sales, costs, sources of financing and cash flows generated by the operation are considered.

As of December 31, 2025 and 2024, the peso/dollar exchange rates were MXN 18.00 and MXN 20.69, respectively. Unless otherwise indicated, all financial information presented in pesos has been rounded to the nearest thousands. When referring to "US" or dollars, it refers to amounts expressed in thousands of dollars of the United States of America or U.S.D, when referring to "EUR" means thousands of Euro, "CAD" means thousands Canadian dollar, "BRL" means thousands of Brazilian real, "UYU" means thousands of Uruguayan Peso, and "COP" means thousands of Colombian peso.

Foreign currency

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of execution or settlement. Monetary assets and liabilities denominated in foreign currency are translated at the exchange rate in force at the statement of financial position date. Exchange differences arising from assets and liabilities denominated in foreign currencies are reported on the statement of comprehensive income.

Prepayments

Mainly include prepayments for the purchase of services that are received after the date of the statement of financial position and in the ordinary course of operations.

Presentation of statement of cash flows

The statements of cash flows of the Company are presented using the indirect method.

4. USE OF ESTIMATES AND JUDGEMENTS

The preparation of these financial statements in conformity with the recognition and measurement principles of IFRS requires management to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting estimates, accounting judgement and assumptions in preparation of its financial statements:

a. Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

b. Valuation of deferred tax assets

The Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period. The policy has been explained under note number 13.

c. Provisions and contingent liabilities

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at the end of each reporting period adjusted to reflect the current best estimates. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Contingent liabilities are not recognized in the financial statements. Contingent assets are neither recognized nor disclosed in the financial statements.

d. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

e. Employee benefits

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

f. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. NATURE AND PURPOSE OF RESERVES

Statement of comprehensive income presentation

The Company opted for reporting comprehensive income in a single statement that includes all the items that comprise net income or loss and other comprehensive income (OCI), entitled "Statement of Comprehensive Income". Additionally, the "Operating (loss) profit" line item is included, which results from subtracting the cost of sales and expenses from total revenues, as this line item is considered to provide a better understanding of the Company's economic and financial performance.

Given that the Company is a service entity, ordinary costs and expenses are presented based on their nature, as the information so reported is clearer.

Partner's equity

Partner contributions are classified in partner's equity.

6. RECENT ACCOUNTING STANDARDS

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective. Amendments to IFRS 9 and IFRS 7[1]

Annual Improvements to IFRS Accounting Standards[1] - Amendments to:

- IFRS 1 - First-time Adoption of International Financial Reporting Standards
- IFRS 7 - Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 - Financial Instruments
- IAS 7 – Statement of Cash flows

IFRS 18 - Presentation and Disclosures in Financial Statements[2]

IFRS 19 - Subsidiaries without Public Accountability: Disclosures[2]

[1] Effective for annual periods beginning on or after January 1, 2026.

[2] Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

In December 2024, the IASB issued targeted amendments to help companies better report the financial effects of nature-dependent electricity contracts, which are often structured as power purchase agreements (PPAs). The amount of electricity generated under these contracts can vary based on uncontrollable factors such as weather conditions.

Current accounting requirements may not adequately capture how these contracts affect a company's performance. The amendments include: clarifying the application of the 'own-use' requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows. The Company does not expect this amendment to have any significant impact in its financial statements.

Annual Improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. These amendments include clarifications, simplifications, corrections and changes aimed at improving the consistency of several IFRS Accounting Standards. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Company does not expect these narrow amendments to have any significant impact in its financial statements.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

7. FINANCIAL ASSETS, FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

MGDC S.C. considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial liabilities

Financial liabilities are measured at amortized cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a Company of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables (other than related party receivables) that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

IFRIC 23 Interpretation Uncertainty over Income Tax Treatment

IFRIC 23 interpretation addresses the accounting for income taxes when there is uncertainty over tax treatments. It clarifies that an entity must consider the probability that the tax authorities will accept a treatment retained in its income tax filings, assuming that they have full knowledge of all relevant information when making their examination. In such a case, the income taxes shall be determined in line with the income tax filings.

Application of IFRIC 23

The Company reviewed its income tax treatments in order to determine whether IFRIC 23 interpretation could have an impact on the financial statements. In that respect, the Company observed that there are no continuous instances of any uncertain tax treatment in the past and on that basis, it is reasonable to conclude that all the tax treatments are accepted by the tax officer and hence IFRIC 23 is not applicable.

a. Cash and cash equivalents

Cash and cash equivalents consists of the following:

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Current account balances with banks	6,674	5,071
Bank deposits (original maturity less than three months)	48,000	50,000
Total	**54,674**	**55,071**

As of December 31, 2025 and 2024 there is no restricted cash.
The Company discloses in Note 7 (f) the sensitivity analysis for financial assets and liabilities.

b. Related parties

(A) Related party assets

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Trade receivables	3,327	416
Total	**3,327**	**416**

Trade receivables include balances only with related parties (Refer note 17).

(B) Related party liability

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Trade payable	2,558	965
Total	**2,558**	**965**

c. Other financial assets

Other financial assets consist of the following:

Other financial assets - Current

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Employee loans and advances	811	615
Others	34	39
Total	**845**	**654**

Other financial assets - Non-current

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Deposits for premises	423	423
Other Deposits	392	392
Total	**815**	**815**

d. Financial instruments by category

The fair values of the following financial assets and financial liabilities as at December 31, 2025 and December 31, 2024 approximate the carrying amounts due to short-term maturities of these instruments:

As of December 31, 2025

(In thousands of Mexican pesos)

	Amortised cost	Total carrying value
Financial assets:		
Cash	54,674	54,674
Trade receivables	3,327	3,327
Other financial assets	1,660	1,660
Total	**59,661**	**59,661**

(In thousands of Mexican pesos)

	Amortised cost	Total carrying value
Financial liabilities:		
Trade and other payables	19,945	19,945
Other financial liabilities	2,448	2,448
Total	**22,393**	**22,393**

As of December 31, 2024

(In thousands of Mexican pesos)

	Amortised cost	Total carrying value
Financial assets:		
Cash	55,071	55,071
Trade receivables	416	416
Other financial assets	1,469	1,469
Total	**56,956**	**56,956**
Financial liabilities:		
Trade and other payables	25,655	25,655
Other financial liabilities	886	886
Total	**26,541**	**26,541**

Carrying amounts of cash, trade receivables and trade payables as of December 31, 2025 and 2024 approximate the fair value. Difference between carrying amounts and fair values of other financial assets, other financial liabilities subsequently measured at amortized cost is not significant in each of the years presented.

e. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

f. Financial risk management

MGDC S.C. is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss, other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar.

The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the functional currency of the Company.

(In thousands of Mexican pesos)

2025	USD	EUR
Net financial assets	1,347	-
Net financial liabilitites	18	-

(In thousands of Mexican pesos)

2024	USD	EUR
Net financial assets	1,210	-
Net financial liabilitites	-	-

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of MGDC S.C. would result in decrease / increase in the Company's profit before tax by approximately MXN 136 for the year ended December 31, 2025 and MXN 121 for the year ended December 31, 2024 respectively.

Interest rate risk

The Company is not exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was MXN 56,661 and MXN 56,956 as of December 31, 2025 and December 31, 2024, respectively being the total of the carrying amount of cash and cash equivalents, trade receivables and other financial assets. Cash and cash equivalents are held with bank with high credit ratings. As at December 31, 2025, there were no indications that any defaults will occur on trade receivables or other financial assets.

MGDC S.C.'s total revenue is inter-company and hence there is no credit risk.

Liquidity risk

Liquidity risk refers to the risk that MGDC S.C. cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

MGDC S.C. consistently generates sufficient cash flows from operations to meet its financial obligations as and when they fall due. MGDC S.C. does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

The table below provides details regarding the contractual maturities of significant financial liabilities:

(In thousands of Mexican pesos)

December 31, 2025	Due in 1st year	Total
Non-derivative financial liabilities:		
Trade and other payables	19,945	19,945
Other financial liabilities	2,448	2,448
Total	**22,393**	**22,393**

(In thousands of Mexican pesos)

December 31, 2024	Due in 1st year	Total
Non-derivative financial liabilities:		
Trade and other payables	25,655	25,655
Other financial liabilities	886	886
Total	**26,541**	**26,541**

Other risk

Financial assets of MXN 54,674 as at December 31,2025 carried at amortised cost is in the form of cash and cash equivalents, bank deposits and earmarked balances with banks where the Company has assessed the counterparty credit risk. Trade receivables of MXN 3,327 as at December 31, 2025 forms a significant part of the financial assets carried at amortised cost which is valued at cost as the receivables are entirely intercompany receivables.

g. Partner's capital

a) Structure of partner's capital

As of December 31, 2021, partners' capital fully issued and paid is represented by 2 social portions with a value per part equivalent to 49,500 pesos and 500 pesos, each, in total the value of the capital was 50,000 pesos.

In the Extraordinary Partners´ Meeting held on March 23, 2022 was approved to increase the capital of the Company in the amount of $169.60, which was fully issued and paid. As of December 31, 2022, partners´ capital is represented by 2 social portions with a value per part equivalent to 169,649,500 pesos and 500 pesos, each, in total 169,650,000 pesos.

b) Other Comprehensive Income (OCI)

As at December 31, 2025 and 2024 OCI are comprised as follows:

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Opening balance	(19,260)	(19,196)
Remeasurement of defined benefit obligations	95	(64)
Closing balance	**(19,165)**	**(19,260)**

c) Restriction in Partners' capital

In accordance with the General Corporations Law, five percent of net income for the year must be appropriated to the statutory reserve, until it reaches one-fifth of share capital. As of December 31, 2025 has not been constituted.

Retained earnings and other partners' contributions, on which no income tax has been paid, are subject to income taxes in the event of distribution, at the rate of 30%, payable by the Company; consequently, the stockholders may only receive 70% of such amounts.

Partner's contributions may be refunded to the stockholders tax-free, to apply that exemption, such contributions must be equal or less of the balance of the Contributed Capital Account (CUCA for its Acronym in Spanish). As of December 31, 2025, and 2024, the CUCA amount is in process of being updated.

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

d) Dividend

Distribution of dividends or profits to the shareholders that come from the CUFIN, will not generate income tax to legal entities resident in the country, until the said account has exhausted balance. Dividends paid to individuals and legal entities resident abroad, on profits generated from January 1, 2014 and onwards, are subject to a 10% tax, which has the character of final payment.

As of December 31, 2025, and 2024 the restated balance of the CUFIN account (Net taxable income account or CUFIN for its Acronym in Spanish), is $597.03 and $582.68 pesos, respectively.

8. LEASES

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

During December 31, 2025 and 2024, There is no right-of-use asset and Depreciation on right-of-use asset.

During the year ended 2025 and 2024, company has incurred expenses MXN Nil and MXN Nil respectively relating to short-term leases and leases of low-value assets.

The total cash outflow on short-term leases and leases of low-value assets, recognized in the statements of cash flows is MXN Nil and MXN Nil for December 31, 2025 and December 31, 2024 respectively.

9. NON-FINANCIAL ASSETS AND LIABILITIES

a. Property, plant and equipment

Improvements to leased buildings are carried at cost. Cost includes professional fees and, for qualifying assets, borrowing costs capitalized in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

The furniture and equipment are stated at cost less accumulated depreciation.

Depreciation is calculated on the amount susceptible to depreciation, corresponding to the cost of an asset, or another amount that replaces the cost.

Depreciation is recognized in the statement of comprehensive income using the straight-line method according to the estimated useful life of each component of an item of furniture and equipment, since this better reflects the usage pattern expected of the future economic benefits included in the asset. Leased assets are depreciated for the duration of the lease or the useful life of the assets, whichever is lower, unless there is reasonable certainty that the Company will acquire ownership of the leased assets at the end of the lease.

The annual depreciation rates of the assets as follows:

	% average rate of depreciation
Improvements to leased buildings	5 – 10
Office furniture and equipment	20
Computers and equipment	25

Minor repairs and maintenance costs are expensed as incurred.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Subsequent expenditures

Expenditures for repairs and modifications or improvements that prolong the useful life of the assets beyond the originally estimated, which allows the entity to obtain future economic benefits that can be measured reliably, are capitalized as fixed assets.

Impairment of Non-financial assets

a) Tangible assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from

other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Property, plant and equipment comprise the following:

(In thousands of Mexican pesos)

	Leasehold improvements	Computer equipment	Furniture and office equipment	Total
Gross block as at January 1, 2025	**218**	**36,412**	**38,334**	**74,964**

Capital work-in-progress mainly include investments in equipment for the normal operation of MGDC employees, there is no investment in delivery centers.

b. Intangible assets

i. Other intangible assets

Other intangible assets that are acquired by the Company and have defined useful lives are recorded at cost less accumulated amortization.

ii. Amortization

The amortization is calculated on the cost of the asset or other amount that replaces cost, less the residual value.

The amortization is recognized in the statement of comprehensive income under the straight-line method based on the estimated useful life of the intangible assets, other than goodwill, from the date they are available for use, this reflects the expected usage pattern of the future economic benefits included in the asset. The estimated useful lives for the current and comparative periods are as shown follow:

Software for internal use 3 years

The amortization methods, useful lives and residual values of intangible assets are reviewed at the end of each year and adjusted if necessary.

c. Other assets

Other assets – Current are comprised as follows:

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Advance to suppliers	316	316
Prepaid expenses	103	62

Indirect tax payable and other statutory liabilities	740	(47)
Others	160	-
Total	**900**	**(47)**

Notes forming part of the Financial Statements

10. REVENUE RECOGNITION

The Company earns revenue by providing staffing solutions in the form of manpower services to its customer (being a related party), relating to various fields of operations of the customer.

The Company has a single performance obligation to provide manpower services to its customer. Revenue is recognized upon transfer of services to the customer in an amount that reflects the consideration which the Company expects to receive in exchange for those services based on the expected cost plus margin approach, in accordance with the terms of the underlying arrangement. Billings are made in accordance with the terms of the contract with the related party, which is generally on a monthly basis.

The Company has applied practical expedient to recognize revenue for services in proportion to the amount it has right to invoice the customer in accordance with the terms of the arrangement.

Revenue excludes taxes collected from customers.

All the revenue is derived from the customer in Ibero America.

11. COST RECOGNITION

Costs and expenses are recognized when incurred and have been classified according to their nature in the following categories:

The costs of the Company are broadly categorized into employee benefit expense, depreciation and amortization and operation and other expense. Employee benefit expenses include employee compensation, allowances, contribution to various funds and staff welfare expenses. Operation and other expense mainly include fees to external consultants, facility expenses, travel expenses, cost of equipment and software licenses, communication expenses and other expenses.

(In thousands of Mexican pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Fees to external consultants and others	1,786	1,821
Facility expenses	5,380	6,254
Bad debts and advances written off, allowance for doubtful trade receivable and advances (net)	28	-
Other expenses	(3,505)	(5,749)
Total	**3,689**	**2,326**

12. FINANCIAL INCOME, COST AND OTHER GAINS (NET)

a. Finance and other income

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(In thousands of Mexican pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Interest income on bank deposits	1,381	2,334
Total	**1,381**	**2,334**

b. Finance costs

Financial costs include interest expenses on loans. The loan costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in income using the effective interest method.

(In thousands of Mexican pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Other interest costs	2	13
Total	**2**	**13**

c. Other (losses) / gains, (net)

(In thousands of Mexican pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Net foreign exchange (loss) / gain	(173)	296
Others	(38)	40
Total	**(211)**	**332**

13. INCOME TAXES (IT) AND EMPLOYEE STATUTORY PROFIT SHARING (ESPS)

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Current income tax ("ISR") and employee statutory profit sharing (ESPS) are recognized in the results of the year in which is incurred.

Deferred tax

Deferred tax are recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Entity expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

A deferred tax loss carry forward asset, tax credits and deductible temporary differences are recognized to the extent that it is likely that taxable income may be available in the future against which they can be applied. The deferred tax assets are reviewed as of the reporting date and are reduced to the extent that the realization of the corresponding tax benefit is no longer probable.

IT Law effective as of January 1, 2014 imposes an IT rate of 30% for 2014 and thereafter.

The income tax expense consist of the following:

(In thousands of Mexican pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Current income tax	-	-
Deferred income tax	(493)	4,478
Total	**(493)**	**4,478**

Income tax expense attributable to income before income taxes, differed from the amounts computed by applying the Mexican statutory rates of 30% IT to income before income taxes, as a result of the items shown below:

(In thousands of Mexican pesos)

	Year ended December 31, 2025	Year ended December 31, 2024
Income before income taxes	4,542	6,022
Statutory rate	30%	30%
Income tax	1,363	1,807
Tax pertaining to prior years and other	937	2,701
No deductibles	118	(30)
Inflation effects	(2,911)	-
Others	-	-
	(493)	**4,478**

Significant components of net deferred tax assets and liabilities for the year ended December 31, 2025 are as follows:

(In thousands of Mexican pesos)

	2025				
Particulars	Opening balance	Recognised in profit or loss	Recognised in / reclassified from other comprehensive income	Exchange difference	Closing balance
Deferred tax assets / (liabilities) in relation to					
Property, plant and equipment and intangible assets	(21,475)	(65)	-	-	(21,540)
Receivables, financial assets at amortized cost	112,448	(1,728)	-	-	110,720

Employee profit sharing (PTU)

For the year ended December 31, 2025 and 2024, the Company generated a tax base for employee profit sharing of MXN 222 and MXN 1,100 respectively.

Direct Tax Contingencies

a) In accordance with Mexican tax law, the tax authorities are empowered to examine transactions carried out during the five years prior to the most recent income tax return filed.

b) In accordance with the IT Law, companies carrying out transactions with related parties are subject to certain requirements as to the determination of prices, which should be similar to those that would be used in arm's-length transactions.

Should the tax authorities examine the transactions and reject the related party prices, they could assess additional taxes plus the related inflation adjustment and interest, in addition to penalties of up to 100% of the omitted taxes.

c) There are no tax related contingencies in FYE 2025.

14. EMPLOYEE BENEFITS

Retirement benefits costs from termination benefits

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur.

Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements).
- Remeasurement.

The Company presents the first two components of defined benefit costs in profit or loss. Gains and losses for reduction of service are accounted for as past service costs.

The retirement benefit obligation recognized in the statement of financial position represents the actual deficit or surplus in the Company's defined benefit plans.

Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term and other long-term employee benefits

A liability is recognized for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Employee benefit expense consists of the following:

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Salaries, incentives and allowances	21,698	15,437
Social security contributions and payroll rated taxes	2,206	1,964
Staff welfare expenses	238	530
	24,142	**17,931**

Employee benefit obligations consists of the following:

(In thousands of Mexican pesos)

	As of December 31, 2025	As of December 31, 2024
Employee benefit obligations		
Defined benefit obligation	2,494	2,137
Employee statutory profit sharing	409	1,100
Liabilities for social securities contributions	(2,716)	(2,732)
Liability for long service leave	1,187	1,212
Bonus accrual	1,698	-
Total employee benefit obligations	**3,072**	**1,717**
Current	578	(420)
Non-current	2,494	2,137
	3,072	**1,717**

a. Defined contribution plans

The Company manages a plan that covers seniority premiums for all staff working in Mexico, which consists of a single payment of 12 days per year worked based on final salary, not to exceed twice the minimum wage established by law. The related liability and annual cost of benefits is calculated by an independent actuary using the method of projected unit credit.

The plans typically expose the Entity to actuarial risks as investment risk, Interest rate, longevity and salary.

Interest risk	A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

No other post-retirement benefits are provided to these employees.

The most recent actuarial valuation of the present value of the defined benefit obligation were carried out as of December 31, 2025 and 2024 by Independents actuaries, who are members of the Institute of Actuaries of Mexico. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

b. The principal assumptions used for the purposes of the actuarial valuations were as follows:

(In thousands of Mexican pesos)

	2025	2024
Discount rates	9.30%	9.40%
Inflation long-term rates	4.00%	4.00%
Salaries increase rate	4.64%	4.64%

c. Amounts recognized in comprehensive income in respect of these defined benefit plans are as follows:

(In thousands of Mexican pesos)

	2025	2024
Service Cost	252	42
Personnel transfer	-	(3,984)
Financial cost	201	515
Net cost for the year	**453**	**(3,427)**

d. The amount included in the statement of financial position arising from the entity's obligation in respect of its defined benefit plans is as follows:

(In thousands of Mexican pesos)

	2025	2024
Net liability arising from defined benefit obligation	**2,494**	**2,137**

Movements in the present value of the defined benefit obligation were as follows:

(In thousands of Mexican pesos)

	2025	2024
Opening defined benefit obligation	2,137	5,500
Current service cost	252	914
Prior Service Cost	-	(872)
Personnel transferred	-	(3,984)
Financial Cost	200	515
Benefits paid during the year	-	-
Remeasurement of defined benefit obligations	(95)	64
Net liability arising from defined benefit obligation	**2,494**	**2,137**

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

If the discount rate is 1 basis points higher (lower), the defined benefit obligation would decrease by $ 332 (increase by $ 391). If the expected salary growth increases (decreases) by 1 basis points, the defined benefit obligation would increase by $ 368 (decrease by $ 315).

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the statement of financial position.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

15. BUSINESS AND CREDIT CONCENTRATION

As of December 31, 2025 and 2024, the 100% of revenue provided for the consultancy services were provided to related parties.

Notes forming part of the Financial Statements

16. CONTINGENCIES AND COMMITMENTS

Liabilities for loss contingencies are recorded when it is probable that a liability has been incurred and the amount thereof can be reasonably estimated. When a reasonable estimation cannot be made, disclosure is provided in the notes to the financial statements. Contingent revenues, earnings or assets are not recognized until realization is assured.

a) The Company has entered into service agreements with related parties, under which the Company provides consultancy services and IT support services necessary for these companies' operations. Total revenues under these agreements, reported under consultancy services, were MXN 31,247 in 2025 and MXN 23,668 in 2024.

b) As at December 31, 2025, claims aggregating to MXN 5,683 against the Company have not been acknowledged as debts.

c) The Company is involved in a number of lawsuits and claims arising in the normal course of business. It is expected that the final outcome of these matters will not have significant adverse effects on the Company's financial position and income (loss).

d) The Company does not have any contractually committed (net of advances) as at December 31, 2025 and December 31, 2024 for purchase of property, plant and equipment.

17. RELATED PARTY DISCLOSURE

a. Operations with management and close family

The Company does not have business operations with members of management and close relatives outside operations at arm's length and available to the general public and for non-significant amounts.

b. Transactions with related parties:

(In thousands of Mexican pesos)

	With subsidiaries and associates of Tata Sons Limited, ultimate parent company	With Tata Consultancy Services Limited	With subsidiaries of Tata Consultancy Services Limited	Total

REPORT OF THE INDEPENDENT AUDITORS

To the Partners of
TCS Inversiones Chile Limitada

OPINION

We have audited the separate financial statements of TCS Inversiones Chile Limitada (the Company), which comprise the statement of financial position as of December 31, 2025, and the statements of comprehensive income, cash flows, and changes in equity corresponding to the year ended., and the notes to the financial statements, including information on material accounting policies.

In our opinion, the accompanying separate financial statements present fairly, in all material aspects, the financial position of the Company as of December 31, 2025, its results and its cash flows corresponding to the year ended, in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board (IFRS Accounting Standards).

BASIS FOR THE OPINION

We performed our audits in accordance with Generally Accepted Auditing Standards in Chile. Our responsibilities under those standards are described subsequently in the paragraphs under the section "Auditor's Responsibilities for the Audit of the separate Financial Statements" in this report. In accordance with the ethical requirements relevant to our audits of the separate financial statements, we are required to be independent of the Company and to comply with all other ethical responsibilities in accordance with those requirements. We consider that the audit evidence we have obtained is sufficient and appropriate to provide us with a basis for our audit opinion.

MANAGEMENT'S AND THOSE CHARGED WITH GOVERNANCE RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the accompanying financial statements in accordance with IFRS Accounting Standards, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

When preparing the separate financial statements, the management is required to evaluate whether there are facts or circumstances, which considered as a whole, raise substantial doubt about the ability of the Company to continue as a going concern for the foreseeable future.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to provide an auditor's report that includes our opinion. Reasonable assurance is a high, but not absolute, level of assurance and, therefore, does not guarantee that an audit performed in accordance with Generally Accepted Auditing Standards in Chile will always detect a material misstatement when it exists. The risk of not detecting a material misstatement due to fraud is greater than the risk of not detecting a material misstatement due to error, as fraud may involve collusion, falsification, intentional omissions, concealment, misrepresentations, or disregard of controls by management. A misstatement is considered material if, individually or in the aggregate, it could influence the judgment of a reasonable user of these financial statements.

As part of an audit performed in accordance with Generally Accepted Auditing Standards in Chile, we exercise professional judgment and maintain professional skepticism during the entire audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures in response to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement due to fraud is greater than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Evaluate the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as the appropriateness of the overall presentation of the financial statements.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We are required to communicate to those charged with governance, among other matters, the planned timing and scope of the audit and significant audit findings, including any significant deficiencies and material weaknesses in internal control that we identified during our audit.

EMPHASIS OF MATTER

The accompanying separate financial statements have been prepared to reflect the individual financial position of Tata Consultancy Services Chile S.A. before consolidating, on a line-by-line basis, with the financial statements of its subsidiaries. Accordingly, for proper interpretation purposes, these separate financial statements need to be read and analyzed along with the consolidated financial statements of Tata Consultancy Services Limited.

OTHER MATTERS - NEW AUDITING STANDARDS

The Chilean Association of Accountants (Colegio de Contadores de Chile A.G.) approved that Generally Accepted Auditing Standards in Chile shall adopt fully and without reservation the International Standards on Auditing issued by the International Auditing and Assurance Standards Board for audits of financial statements prepared for the year beginning on or after January 1, 2025.

The audit of the financial statements of TCS Inversiones Chile Limitada as of December 31, 2024 was performed in accordance with Generally Accepted Auditing Standards in Chile in force at that date. On those financial statements, we issued an unmodified opinion dated February 20, 2025.

OTHER MATTERS - TRANSLATION

The above translation of the auditors' report is provided as a free translation from the Spanish language original, which is the official and binding version. Such translation has been done solely for the convenience of non-Spanish readers.

We are required to communicate to those charged with governance, among other matters, the planned timing and scope of the audit and significant audit findings, including any significant deficiencies and material weaknesses in internal control that we identified during our audit.

Luis Velásquez Molina
Grant Thornton Auditoría y Servicios Limitada.

Notes to the Separate Financial Statements

1. GENERAL INFORMATION

TCS Inversiones Chile Limitada was incorporated by TCS IberoAmérica S.A. and Gabriel Rozman on December 16, 2002, and is engaged in investments, on its own or on behalf of third parties, in any type of movable and immovable property, tangible or intangible assets, purchase and sale, export, import, manufacturing, production, consignment, lease, trading, representation and distribution of any type of physical and intangible assets; rendering of all types of advisory and consultancy services, and services associated with computer, IT and general communication; and the representation, concession and operation of the franchise of any type of companies, brands and/or products associated with the above-mentioned operations.

On October 26, 2005, the articles of incorporation were amended via public deed, increasing the Company's capital through an amount contributed by the partner TCS IberoAmérica S.A.

On December 28, 2006, Tata Solution Center S.A. (a subsidiary of Tata Consultancy Services Chile S.A.), was incorporated in Ecuador and commenced its operations on June 1, 2007. It is mainly engaged in providing IT services, software development and maintenance, and administrative and operating processes (BPO) primarily to financial institutions.

On December 29, 2006, Tata Consultancy Services BPO Chile S.A. (formerly - Tata Consultancy Services (TCS) Chile Limitada) acquired 100% of shares of its subsidiary Tata Consultancy Services BPO Chile S.A. (formerly - Comicrom S.A.). Consequently, such subsidiary was dissolved by operation of law.

At Extraordinary Shareholders' Meeting held on July 30, 2010, the shareholders agreed on the merger through incorporation of Tata Consultancy Services BPO Chile S.A. to Tata Consultancy Services Chile S.A., and accordingly, at such meeting the company's name was changed from Tata Consultancy Services BPO Chile S.A. to Tata Consultancy Services Chile S.A.

On April 26, 2017, Mr. Gabriel Rozman sells, assigns and transfers to TCS Uruguay S.A. the entirety of his ownership interest in the Company, which represents 0.000004% of the Company's capital.

In Chile, it established its operations in 2003, and currently has 12 employees who perform support and advisory functions in the areas of finance, legal, marketing, and sales for the subsidiaries in the Latin American region.

2. BASIS OF PRESENTATION OF THE SEPARATE FINANCIAL STATEMENTS

a) Use of estimates and judgments

The preparation of these separate financial statements in conformity with the recognition and measurement principles under IFRS, requires that Management performs estimates and judgments which have an impact on the reported balances of assets and liabilities, the disclosures of contingent liabilities at the reporting date, and the balance of income and expenses for the reporting periods.

The underlying estimates and assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimate is revised and any future periods affected.

The key source of estimation uncertainty at the reporting date, which may result in a material adjustment to the carrying amounts of assets and liabilities within the subsequent financial year, relates to the impairment of goodwill, useful lives of items of furniture and equipment, valuation of deferred tax assets, provisions and contingent liabilities, as detailed below. The main key sources of estimation uncertainty related to revenue recognition, employee benefits, and fair value measurement of financial instruments, have been assessed based on the applicable policies.

Useful lives of items of furniture and equipment

The Company reviews the carrying amount of items of furniture and equipment at the end of each reporting period. This reassessment may result in changes to the depreciation expense for future periods.

Measurement of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period.

Provisions and contingent liabilities

Provisions are recognized when the Company has a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and reliable estimate can be made of the amount of the obligation. Provisions shall be reviewed at the end of each reporting period

and adjusted to reflect the current best estimate. Contingent liabilities are not recognized in the financial statements. Contingent assets are not recognized or disclosed in the financial statements.

Fair value measurement of financial instruments

When the Company is not able to measure the fair value of financial assets and financial liabilities in the statement of financial position based on quoted prices in active markets, the fair value is measured using valuation techniques which include the discounted cash flow model. Inputs to these models are obtained from observable markets where possible, otherwise a degree of judgment is required to establish fair values. The judgments include considering inputs such as liquidity risk, credit risk and volatility. Changes in the assumptions with respect to these factors could affect the reported fair value of financial instruments. The policy has been explained in further detail in Note 4 (h).

b) Statement of compliance

These separate financial statements of TCS Inversiones Chile Ltda. (hereinafter the "Company"), for the year ended December 31, 2025 and 2024, are presented in Chilean pesos and have been prepared in accordance with IAS 27, "Separate Financial Statements" included in International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board (hereinafter the "IASB"), applying the exception described in paragraph 4 of IFRS 10, Consolidated Financial Statements. Likewise, these financial statements are exempt from disclosure provisions contained in IFRS 12.

The information contained in these separate financial statements is the responsibility of the Company's Management which expressly states it has applied all the principles and criteria included in IAS 27 and IFRS; the separate financial statements have been approved by the Administration on March 2, 2026.

The translation of these financial statements is provided as a free translation from the Spanish language original, which is the official and binding version. Such translation has been made solely for the convenience of non-Spanish readers.

c) Comparative information

The separate statements of financial position at 31 December 2025 and the separate statements of comprehensive income, changes in equity and cash flows for the year then ended have been prepared in accordance with International Financial Reporting Standards, on a basis consistent with the criteria used at 31 December 2024.

d) Historical cost basis

The separate financial statements have been prepared on the historical cost basis. Generally, the historical cost is based on the fair value of the consideration paid in exchange for goods and services. The fair value is the price that would be received for selling an asset or paid for transferring a liability in an orderly transaction between market participants on the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. For purposes of measurement and/or disclosure in these separate financial statements, fair value is determined as described above, except for the determination of value in use under IAS 36, which has been measured at market value.

e) Period covered

These separate financial statements of TCS Inversiones Chile LTDA. were prepared as of December 31, 2025 and 2024 and for the years then ended.

f) Currency

The functional currency of TCS Inversiones Chile Ltda. is the Chilean peso.

Transactions in foreign currencies are translated into the respective functional currencies of Group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

g) Basis of translation

Balances of assets and liabilities in UF (inflation-adjusted units), U.S. dollars and other foreign currencies have been translated to Chilean pesos at the exchange rates in force at the closing date of the separate financial statements. At the reporting date, the effective exchange rates are detailed as follows:

In Chilean pesos (Ch$)

	2025	2024
U.S. Dollar	907.13	996.46
Inflation-adjusted units (UF)	39,727.96	38,416.69

Foreign currency translation differences and adjustments are debited or credited to profit or loss, as applicable, in accordance with IFRS.

h) Classification of balances (current and non-current)

In the accompanying statement of financial position, balances are classified according to their maturities, i.e. as current those with maturities of 12 months or less and non-current those with maturities exceeding 12 months.

i) Statement of cash flows

For the preparation of the statement of cash flows, the Company uses the following definitions:

Cash and cash equivalents relates to cash on hand, cash in bank current accounts, time deposit and highly-liquid fixed income mutual fund deposits held in financial entities with original maturities of up to three months and insignificant risk of loss of value.

The statement of cash flows considers the following account categories:

(a) Operating activities

Operating activities are the principal revenue-producing activities of the entity and other activities that are not investing or financing activities.

(b) Investing activities

Investing activities are the acquisition and disposal of long-term assets and other investments not included in cash and cash equivalents.

(c) Financing activities

Financing activities are activities that result in changes in the size and composition of the contributed equity and borrowings of the entity.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The entity has consistently applied the following accounting policies to all periods presented in these separate financial statements.

The accounting policies set out below have been used in the preparation of these separate financial statements. As required by IFRS 1, these policies have been defined considering the IFRS effective as of December 31, 2025.

a) Provisions and contingent liabilities

A provision is a liability of uncertain timing or amount. Provisions are recognized in the balance sheet when the following requirements are met in a copulative manner:

- The Company has a present legal or constructive obligation as a result of a past event.
- It is probable that at the reporting date an outflow of economic benefits will be required to settle the obligation.
- The obligation can be estimated reliably.

A contingent asset or liability is an obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

b) Offsetting of balances and transactions

Generally, in the separate financial statements there is no offsetting of assets or liabilities or revenue and expenses, except for those cases where offsetting is required or permitted by any standard and such presentation is the reflection of the substance of the transaction.

Revenues and expenses generated by transactions which contractually or mandatorily because of the enactment of a law include the possibility of offsetting, are those for which the Company intends either to settle the obligations on a net basis, or to realize the asset and settle the liability simultaneously.

c) Classification of balances (current and non-current)

In the accompanying statement of financial position, balances are classified according to their maturities, i.e. as current those with maturities of 12 months or less and non-current those with maturities exceeding 12 months.

d) Employee benefits

The Company recognizes accrued vacation expenses using the accrual method. Such benefit is applicable to all personnel and relates to a fixed amount according to each employee's contract, which is recorded at its nominal value.

e) Performance Awards

The Company recognizes a provision related to the Performance Awards plan, which corresponds to a variable compensation scheme granted to senior executives and key personnel. This program is part of the regional incentive plan, and its calculation is based on the achievement of performance indicators established by the organization at the Latam level, including financial targets, operational efficiency metrics, business growth objectives, and other strategic management indicators.

f) New accounting pronouncements

New accounting and sustainability pronouncements

The following accounting pronouncements are mandatory as of the period beginning January 1, 2025:

Amendments to IFRS Accounting Standards	Date of mandatory application
Non-convertibility (Amendment to IAS 21)	Annual periods beginning on or after January 1, 2025. Early adoption is permitted
Disclosures about Uncertainties in Financial Statements (Amendments to Illustrative Examples in IFRS 7, IFRS 18, IAS 1, IAS 8, IAS 36, and IAS 37	No effective date or transition requirements are provided, as the illustrative examples are not an integral part of IFRS Accounting Standards, but rather provide additional information on existing disclosure requirements.

Accounting pronouncements not yet in force

The following accounting pronouncements are applicable to annual periods beginning after January 1, 2026, and have not been applied in the preparation of these financial statements. The entity plans to adopt the applicable accounting pronouncements on their respective effective dates and not in advance.

Amendments to IFRS Accounting Standards	Date of mandatory application
Classification and measurement of financial instruments (Amendments to IFRS 9 and IFRS 7 – Post-implementation review)	Annual periods beginning on or after January 1, 2026. Early adoption is permitted.
Annual Improvements to IFRS Accounting Standards – Volume 11	Annual periods beginning on or after January 1, 2026. Early adoption is permitted.

Amendments to IFRS Accounting Standards	Date of mandatory application
Contracts for Nature-Dependent Electricity (Amendments to IFRS 9 and IFRS 7)	Annual periods beginning on or after January 1, 2026. Early adoption is permitted
Update to IFRS 19 Subsidiaries Not Subject to Public Accountability: Disclosure Requirements	Annual periods beginning on or after January 1, 2027. Early adoption is permitted.
Translation to a Hyperinflationary Presentation Currency (AmendmeAnts to IS 21)	Annual periods beginning on or after January 1, 2027. Early adoption is permitted
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)	Effective date deferred indefinitely. Early adoption permitted.

New IFRS Accounting Standards	Date of mandatory application
IFRS 18 Presentation and Disclosure in Financial Statements	Annual periods beginning on or after January 1, 2027. Early adoption is permitted.
IFRS 19 Subsidiaries Not Subject to Public Accountability: Disclosure Requirements (Updated)	Annual periods beginning on or after January 1, 2027. Early adoption is permitted

These accounting pronouncements, which have not yet come into effect, are not expected to have a significant impact on the separate financial statements.

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

Amendments to IFRS 9 and IFRS 7
Annual Improvements to IFRS Accounting Standards1 – Amendments to:

- IFRS 1 – First-time Adoption of International Financial Reporting Standards
- IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 – Financial Instruments
- IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements
IFRS 19 – Subsidiaries without Public Accountability: Disclosures

Effective for annual periods beginning on or after January 1, 2026
Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

4. FINANCIAL ASSETS AND FINANCIAL LIABILITIES, AND EQUITY INSTRUMENTS

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or reduce the fair value of financial assets or financial liabilities in the initial recognition.

Financial assets

Cash and cash equivalents

The Company classifies as cash and cash equivalents all highly-liquid financial instruments, which are readily convertible into known amounts of cash subject to an insignificant risk of changes in value, with maturities of three months or less from the date of acquisition. Cash and cash equivalents comprise cash in banks not restricted for withdrawal and use.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if those financial assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income.

Financial assets are measured at fair value through other comprehensive income if they are held within a business model whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has adopted the irrevocable option of presenting the subsequent changes in the fair values of capital investments not held for trading in other comprehensive income.

Financial assets at fair value through profit and loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortized cost or at fair value through other comprehensive income at initial recognition. Transaction costs directly attributable to the acquisition of financial assets or assumption of financial liabilities at fair value through profit or loss are immediately recognized in the interim condensed statement of profit or loss.

Financial liabilities

Other financial liabilities are measured at amortized cost using the effective interest method.

Equity securities

Equity securities are contracts which establish a residual interest on the Company's assets after deducting all its liabilities. Equity securities issued by the Company are recognized at the amount of the income received net of direct cost of issue.

Impairment of financial assets (not measured at fair value)

At each reporting date, the Company assesses whether a financial asset or group of financial assets is impaired. IFRS 9 requires that expected credit losses are measured through a loss allowance. The Company recognizes lifetime expected credit losses for all its contract assets and/or trade receivables that do not contain a significant financing component. To determine the allowance for doubtful accounts, the Company has used a practical expedient for the calculation of the allowance for expected credit losses of trade receivables using an allowance matrix. The allowance matrix considers the historical credit loss experience and is adjusted for prospective information. The allowance for expected credit losses is based on the maturity of accounts receivable past due and the rates used in the allowance matrix. For the remaining financial assets, expected credit losses are measured at an amount equal to 12-month expected credit losses or an amount equal to lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

a) Cash and cash equivalents

As of December 31, 2025 and 2024, this caption is composed of the following:

ThCh$

	2025	2024
Cash in banks	42,796	55,052
Deposits-Foreign banks	819,082	975,124
Total	**861,878**	**1,030,176**

As of December 31, 2025 and 2024, cash in banks is as follows:

ThCh$

Bank	Currency	2025	2024
Banco Santander	Chilean pesos	22,113	31,423
Banco Santander	U.S. Dollar	20,683	23,629
Total		**42,796**	**55,052**

Cash and cash equivalents have no availability restrictions.

The Company has made no investing or financing transactions that do not require the use of cash and cash equivalents.

Deposits-Foreign banks

As of December 31, 2025, cash in time deposits is as follows:

Bank Name / Counterparty Name	Placement date	Maturity date	Currency	Total Days	Closing Amount
Banco Santander	18-Dec-2025	08-Jan-2026	USD	21	252,025
Banco Santander	26-Dec-2025	07-Jan-2026	USD	12	540,054
Banco Santander	30-Dec-2025	07-Jan-2026	USD	8	27,003
					819,082

As of December 31, 2024, cash in time deposits is as follows:

Bank Name / Counterparty Name	Placement date	Maturity date	Currency	Total Days	Closing Amount
Banco Santander	24-Dec-2024	06-Jan-2025	USD	13	597,015
Banco Santander	27-Dec-2024	06-Jan-2025	USD	10	298,507
Banco Santander	30-Dec-2024	06-Jan-2025	USD	7	79,602
					975,124

b) Investments

Investments in subsidiaries held at cost

For the preparation of the separate financial statements the Company has used the exemption described in paragraph 4 of IFRS 10, which allows not using the equity method of accounting to recognize investments in subsidiaries in which the entity has control and significant influence provided that certain conditions are met. The Company meets each and every of such conditions as of December 31, 2025 and 2024. The Company's shareholders have authorized the preparation of the separate financial statement because the Company's financial information is included in the consolidated financial statements of its ultimate Parent, Tata Consultancy Services Limited (India), which have been prepared and presented in accordance with IFRS as issued by the IASB and can be found at the web site: https://www.tcs.com/investor-relations.

Investments in subsidiaries are recognized at cost and relate to:

Taxpayer ID No.	Company	Country	Ownership interest		Carrying amount of the cost investment	
			2025 %	2024 %	2025 ThCh$	2024 ThCh$
Foreign	Tata Solution Center S.A.	Ecuador	1.0000	1.0000	55,916	55,916
76.385.060-9	Tata Consultancy Services Chile	Chile	99.9998	99.9998	32,070,655	32,070,655
Total					**32,126,571**	**32,126,571**

The Company determines whether it is necessary to recognize an impairment loss in the subsidiaries. The Company determines at each reporting date whether there is objective evidence that the investment in the subsidiary is impaired; if this is the case, the Company calculates the impairment amount as the difference between the higher of the value in use and fair value of the subsidiary and the acquisition cost and recognizes the amount in the statement of profit or loss.

Changes in investments in subsidiaries held at cost by the Company are as follows:

2025

ThCh$

Taxpayer ID No.	Company	Country	Carrying amount of the investments	Additions	Disposals	Carrying amount of the investments as of
76.385.060-9	Tata Consultancy Services Chile S.A. (Ex BPO)	Chile	32,070,655	-	-	32,070,655
Foreign	Tata Solution Center S.A.	Ecuador	55,916	-	-	55,916
Total			**32,126,571**	**-**	**-**	**32,126,571**

2024

ThCh$

Taxpayer ID No.	Company	Country	Carrying amount of the investments	Additions	Disposals	Carrying amount of the investments as of
76.385.060-9	Tata Consultancy Services Chile S.A. (Ex BPO)	Chile	32,070,655	-	-	32,070,655

Total			**32,126,571**	**-**	**-**	**32,126,571**

Management has performed impairment testing and estimates that there is no risk of loss in the value of the assets recorded on December 31, 2025, and 2024.

As of December 31, 2025 and 2024, goodwill amounting to ThCh$17,720,950 which is recorded in Tata Consultancy Services Chile S.A.'s ledgers and recognized through the investment in this company, has been allocated to the cash-generating unit Tata Consultancy Services Chile S.A. The Company makes an estimate of the value in use of the Tata Consultancy Services Chile S.A. cash-generating unit based on future cash flows using an annual growth rate of 3% after a forecast of five years considering a discount rate of 8,21%. A sensitivity analysis of changes in measurement parameters (operating margin, discount rate and average long-term growth rate) based on assumptions fairly probable has identified no probable scenario where recoverable amounts of the cash-generating unit may decrease to less than the carrying amount.

As of December 31, 2025 and 2024, the financial information contained in the financial statements of the companies over which the Company has control is detailed as follows:

ThCh$

Taxpayer ID No.	Company	Country	Ownership Interest Direct	Indirect	Assets	At 31.12.2025 Liabilities	Equity	Profit or loss
76.385.060-9	Tata Consultancy Services Chile S.A.	Chile	99.9998	0.0002	56,236,143	13,529,011	42,707,132	4,777,993
Foreign	Tata Solution Center S.A.	Ecuador	1	99	26,534,747	11,121,730	15,413,016	4,517,504
Foreign	Tata Consultancy Services Sucursal del Perú	Perú	-	100.000	13,215,603	6,856,254	6,359,350	1,247,794

ThCh$

Taxpayer ID No.	Company	Country	Ownership Interest Direct	Indirect	Assets	At 31.12.2024 Liabilities	Equity	Profit or loss
76.385.060-9	Tata Consultancy Services Chile S.A.	Chile	99.9998	0.0002	51,007,870	9,069,094	41,938,776	1,521,202
Foreign	Tata Solution Center S.A.	Ecuador	1	99	27,288,036	11,854,730	15,533,306	1,174,189
Foreign	Tata Consultancy Services Sucursal del Perú	Perú	-	100.000	12,563,798	7,553,940	5,009,859	671,403

c) Trade and other receivables, current

(a) Trade receivables are detailed as follows:

ThCh$

	2025	2024
Receivables due from related parties	1,000,711	810,730
Total	**1,000,711**	**810,730**

The fair value of trade receivables corresponds to the same business amounts net of the related allowance for doubtful accounts.

(b) Trade receivables past due, unpaid but not impaired are detailed as follows:

ThCh$

	2025	2024
Up to 30 days	1,000,711	810,730
Total	**1,000,711**	**810,730**

d) Other financial assets

As of December 31, 2025 and 2024, other current financial assets are as follows:

ThCh$

	2025	2024
Advances to employees	5,453	43
Interest Accrued on investments	700	604
Total	**6,153**	**647**

e) Trade payables

Trade and other payables are recognized at their nominal amount, since their average payment term is short and there is no significant difference when compared to their fair value.

As of December 31, 2025 and 2024, trade and other payables are detailed as follows:

ThCh$

	2025	2024
Trade payables	60,171	49,799
Accounts payable due to related parties (Note 5.a))	184,130	364,492
Total	**244,301**	**414,291**

f) Equity disclosures

(a) Paid capital

As of December 31, 2025, and 2024, the Company's capital is composed of the following:

ThCh$

Series	Capital	Paid capital
Single	15,290,305	15,290,305

Capital management is intended to maximize the value for the shareholders, safeguard business continuity, and support the Company's growth. The Company determines capital requirements based on annual operating plans, long-term investment plans and other strategic investment plans. Financing requirements are met through capital and cash flows from operating activities generated. The Company is not subject to any capital requirement imposed externally.

g) Financial assets and financial liabilities

As of December 31, 2025, the carrying amount of financial instruments by category is as follows:

ThCh$

2025	Note	Amortized cost	Total carrying amount
Financial assets			
Cash and cash equivalents	4.a)	861,878	861,878
Trade and other receivables	4.c)	1,000,711	1,000,711
Other financial assets	4.d)	6,153	6,153
Total		**1,868,742**	**1,868,742**
Financial liabilities			
Trade payables	4.e)	244,301	244,301
Total		**244,301**	**244,301**

As of December 31, 2024, the carrying amount of financial instruments by category is as follows:

ThCh$

2024	Note	Amortized cost	Total carrying amount
Financial assets			
Cash and cash equivalents	4.a)	1,030,176	1,288,969
Trade and other receivables	4.c)	810,730	768,162
Other financial assets	4.d)	647	1,321
Total		1,841,553	2,058,452
Financial liabilities			
Trade payables	4.e)	414,291	448,988
Total		**414,291**	**448,988**

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables (prior year: unbilled revenue), and trade payables as of December 31, 2025 and 2024, approximate their fair value. The difference between carrying amounts and fair values of bank deposits, cash in banks, other financial assets, other financial liabilities and subsequent loans measured at amortized cost is not significant for each period presented.

Fair value hierarchy

Fair value hierarchy is based on valuation techniques used to measure the fair value of observable and unobservable inputs, and includes the following three levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair values are determined totally or in part using a valuation model based on assumptions that are not supported by market transaction prices currently observable in the same instrument or based on available market data.

h) Financial risk management

The Company is mainly exposed to variations in foreign exchange rates, credit, liquidity and interest rate risks that may negatively affect the fair value of its financial instruments. The Company has a risk management policy that covers the risks associated with financial assets and financial liabilities. The risk management policy is approved by the Board of Directors. The approach applied by the risk management committee is to assess the unforeseeability of the financial environment and mitigate the potential negative effects on the Company's financial performance.

(a) Market risk

The Company is exposed to market risk related to the risk of fluctuations in the fair value or future cash flows from a financial instrument because of changes in market prices. Such changes in the value of financial instruments may arise from movements in foreign currency exchange rates, interest rate, credit, liquidity and other changes in the market. The exposure to market risk relates mainly to the currency risk.

(b) Currency risk

The fluctuation of foreign currency exchange rate differences may have a potential effect in the statement of profit or loss and other comprehensive income, where any transaction refers to one or more currencies when assets / liabilities are denominated in a currency that is different from the entity's functional currency.

Considering the economic environment of the country in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in such country. The risks mainly relate to the fluctuations in U.S. dollar against the Company's functional currency.

The exchange rate sensitivity is calculated by adding the net exposure to currency risk and a simultaneous change of parallel exchange rates of all currencies by 10% compared to the Company's functional currency.

The analysis below has been prepared based on the Company's net exposure at the reporting date that may affect the statements of profit or loss and other comprehensive income and equity.

As of December 31, 2025, the information related to the exposure to the currency risk is detailed as follows:

ThCh$

2025	USD	UF
Net financial assets	1,824,361	-
Net financial liabilities	935,438	3,239

The appreciation / depreciation of 10% of related foreign currencies with respect to the functional currency of the Company would result in a decrease / increase in profit before taxes of approximately ThCh$ 885,685 for the year ended December 31, 2025.

As of December 31, 2024, the information related to the exposure to the currency risk is detailed as follows:

ThCh$

2024	USD	UF
Net financial assets	810,730	-
Net financial liabilities	414,291	1,113,042

The appreciation / depreciation of 10% of related foreign currencies with respect to the functional currency of the Company would result in a decrease / increase in profit before taxes of approximately ThCh$ (711,631) for the year ended December 31, 2024.

(c) Interest rate risk

The Company is not exposed to interest rate risk.

(d) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual terms or obligations. Credit risk includes the direct risk of default and impairment of credit quality, as well as the concentration of risks. Credit risk is controlled by the analysis of credit limits and the credit capability of customers on an ongoing basis that have been obtained the credit after receiving the authorizations required.

Financial instruments subject to concentrations of credit risk include mainly trade receivables, unbilled revenue, investments, cash and cash equivalents, bank deposits and other financial assets. As of December 31, 2025, cash and cash equivalents include ThCh$ 861,878 held in a bank located in Chile with a high quality credit rating exceeding individually 10% or more of the Company's total cash and cash equivalents as of December 31, 2025. None of the Company's other financial instruments result in a significant concentration of credit risk.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. As of December 31, 2025 and 2024, the maximum credit exposure amounted to ThCh$ 1,869,192 and ThCh$1,841,554, respectively, which corresponds to total carrying amount of cash in banks, bank deposits, trade receivables, unbilled revenue, other financial assets and investments.

Trade receivables and contract assets

The exposure to credit risk with respect to trade receivables and contract assets is mainly influenced by individual features of each customer in connection with the practices in the industry and the economic environment in which they operate. The entity limits its exposure to credit risk of trade receivables by establishing a maximum payment period of 272 days for its customers. Subsequent to this, the customers are at default (impaired loan). To manage this risk, the Company has a strong credit management process. The Company has adopted a policy to engage operations only with solvent counterparties. The counterparties' exposure is monitored on a regular basis, and changes to the credit conditions are made as required. The carrying amount of financial assets represents the maximum credit exposure. The Company has derecognized no customer balances, and only a few balances have impaired at the reporting date.

As of December 31, 2025 and 2024, the Company's exposure to customer is diversified; however, certain customers concentrate more than 10% of trade receivables and unbilled revenue:

Credit risk	As of December 31, 2025		As of December 31, 2024	
	Total receivables and provisions for revenue		Total receivables and provisions for revenue	
	ThCh$	%	ThCh$	%
Customer A	617,266	62%	508,169	63%
Customer B	139,016	14%	95,331	12%

(e) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations. Liquidity risk management is intended to maintain sufficient liquidity and ensure that funds are available for use as per the requirements.

On a regular basis, the Company generated sufficient cash flows from operations to meet its financial obligations as they mature.

6. Non-financial assets and liabilities

a) Furniture and equipment

On the date of transition to International Financial Reporting Standards, the Company elected to define deemed cost as the alternative for maintaining the assets measured at their acquisition cost adjusted and discounted for accumulated depreciation, where applicable, under Chilean standards applied until the date of adoption of IFRS.

The cost of items of furniture and equipment comprises their acquisition cost plus any other costs directly attributable to bringing the assets to a working condition for their intended use as foreseen by Management and the initial estimate of the costs of dismantling and removing the items and restoring the site on which they are located. Financial cost is capitalized in accordance with IAS 23.

Repair, preservation and maintenance expenses are expensed in profit or loss in the period in which they are incurred. Note that certain items of furniture and equipment of TCS Inversiones Chile LTDA. require regular reviews. In this sense, the items that are replaced are recognized separately from the rest of the asset and with a disaggregation level which allows their amortization in the period between the present and next repair.

Expansion, modernization and improvement costs that represent an increase in productivity, capacity or efficiency, or an increase in the useful life, are capitalized as an increase in the value of the assets.

The gain or loss from selling or retirement of an asset is calculated as the difference between the price obtained from the sale and the carrying amount in the accounting records with a debit or credit to profit or loss for the period.

Depreciation Items of furniture and equipment are depreciated using the straight-line method by distributing the acquisition cost of the assets less their estimated residual value over the estimated useful lives of assets.

The residual value and useful life of items of furniture and equipment are reviewed on an annual basis, and depreciation starts when assets are brought to working condition for their intended use.

The main items of property, plant and their related useful lives are shown below:

	Useful life (years)
Furniture	5
Machinery and computer equipment	4
Electrical and air conditioning equipment	10
Storage facilities	10

Depreciation

TCS Inversiones Chile Ltda., at least annually, assesses the existence of a possible impairment of assets in furniture and equipment. Any reversal of the impairment loss is recognized in profit or loss, where applicable.

Impairment

Furniture and equipment with a limited useful life are assessed to recover them as long as there is any indication that their carrying amount may not be recoverable. Should such indication exist, the recoverable amount (i.e. the higher of its fair value less costs to sell and its value in use) is determined based on an individual asset, unless such asset generates no cash inflows that are largely independent from other assets. In such cases, the recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is lower than its carrying amount, then the asset's carrying amount (or CGU) is reduced to its recoverable amount. Impairment losses are recognized in profit or loss.

(a) Detail

The detail by class of furniture and equipment at each year-end, net and gross, is as follows:

ThCh$

Classes of furniture and equipment, net	2025	2024
IT equipment	5,085	7,724
Office equipment	235	369
Total furniture and equipment, net	**5,320**	**8,093**

ThCh$

Classes of furniture and equipment, gross	2025	2024

7. Income and deferred taxes, other taxes

Income tax expense comprises the current income tax expense and net variation in the deferred income tax asset or liability during the year. Current taxes and deferred taxes are recognized in profit or loss, except when they relate to items recognized in other comprehensive income or directly recognized in equity, in which case they are also recognized in other comprehensive income or directly in equity, respectively.

Current income taxes

Current income tax is based on the tax profit for the year, and is calculated using the tax rates enacted at the reporting date.

Prepaid taxes and current income tax provisions are recognized in the statement of financial position upon offsetting such prepaid taxes and income tax provisions generated from the same tax jurisdiction and where the relevant tax payment unit is aimed at settling the asset and liability on a net tax basis.

Deferred income taxes

The Company recognizes deferred income taxes using the statement of position method. Deferred taxes are obtained from temporary differences between the tax base of assets and liabilities, and their reported amounts in the financial statements.

Deferred tax assets and liabilities are measured using substantially enacted tax rates or rates expected to be applied on taxable income in the years the Company expects to receive them or the temporary differences are settled. Deferred tax assets and liabilities are offset when they relate to the income taxes collected by the same tax authority and the relevant company intends to settle its assets and liabilities on a net tax basis.

The carrying amount of deferred tax assets is reviewed at each reporting date and discounted to the extent that it is not probable that sufficient taxable profit will be available to allow the use of a portion or all that deferred tax asset.

a) Income tax recognized in profit or loss for the year

ThCh$

Income tax expense	2025	2024
Income tax from prior periods	(27,784)	5,106
Other current tax income/(expenses)	(108,307)	984
Current tax expense	**(136,091)**	**6,090**
Deferred tax income/(expense) related to the generation and reversal of temporary differences for current tax	(52,266)	(70,799)
Income tax expense, net	**(188,357)**	**(64,709)**

b) Reconciliation of accounting profit or loss to taxable profit or loss

ThCh$

Income tax expense	2025	2024
Net gain	4,382,186	704,855
Effective tax rate	**27.0%**	**27.0%**
Tax expense using the legal rate	(1,183,190)	190,311
Adjustment of income tax recorded in prior periods	(27,784)	(984)
Non-taxable income	(23,742)	(5,106)
Other adjustments to net taxable income	-	(50,590)
Tax expense using the effective rate	1,046,359	(198,340)
Total	**(188,357)**	**(64,709)**

On September 29, 2014, Law No. 20.780 was enacted in Chile, establishing a permanent change in the corporate income tax rate of 21% starting from 2014, up to a 27% starting from 2019.

On January 27, 2016, the Act that simplifies the tax reform was passed, which is intended to simplify the income tax system in force from 2017; make adjustments to the value-added tax; as well as to the anticircumvention rules. Concerning tax system, the proposed amendment considers that Shareholders' corporations (openly and closely held), as in the case of the Company should always be taxed according to the partially-integrated system. Later, this system will be the general taxation regime for companies beginning from the commercial year 2017.

c) Deferred taxes

As of December 31, 2025 and 2024, the detail of accumulated balances of deferred tax assets and liabilities is as follows:

ThCh$

Recognized deferred tax assets related to:	2025	2024
Accrued vacations	135,803	122,008

Balances as of December 31, 2024	**451,884**	**1,113,042**	**321**	**1,565,247**

9. Operating profit

The Company obtains revenue from providing personnel solutions associated with loan staff to its customers (which are related parties), associated with different customers' operating areas.

The Company has a single performance obligation which is providing labour services to its customers. Revenue is recognized when services are provided to customers for an amount that reflects the consideration the Company expects to receive in exchange for such services, using the expected cost plus a margin approach, in accordance with the terms of the underlying agreement. Invoices are issued according to contractual terms entered into with the related party, which are usually monthly.

The Company has applied the practical expedient for recognizing service revenue in proportion to the amount it is entitled to invoice to customers in accordance with the terms of the agreement.

Revenue excludes taxes collected from customers.

All revenue is obtained from customers located in Latin America.

ThCh$

	Accumulated	
	2025	2024

REPORT OF THE INDEPENDENT AUDITORS

TO THE SHAREHOLDERS AND DIRECTORS OF
TATA CONSULTANCY SERVICES CHILE S.A.

Opinion

We have audited the separate financial statements of TATA Consultancy Services Chile S.A. (the Company), which comprise the statement of financial position as of December 31, 2025, and the statements of comprehensive income, cash flows, and changes in equity corresponding to the year ended on that date, and the notes to the financial statements, including information on material accounting policies.

In our opinion, the accompanying separate financial statements present fairly, in all material aspects, the financial position of the Company as of December 31, 2025, its results and its cash flows corresponding to the year ended on that date, in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for the opinion

We performed our audits in accordance with Generally Accepted Auditing Standards in Chile. Our responsibilities under those standards are described subsequently in the paragraphs under the section "Auditor's Responsibilities for the Audit of the separate Financial Statements" in this report. In accordance with the ethical requirements relevant to our audits of the separate financial statements, we are required to be independent of the Company and to comply with all other ethical responsibilities in accordance with those requirements. We consider that the audit evidence we have obtained is sufficient and appropriate to provide us with a basis for our audit opinion.

Management's and Those Charged with Governance Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the accompanying financial statements in accordance with IFRS Accounting Standards, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

When preparing the separate financial statements, the management is required to evaluate whether there are facts or circumstances, which considered as a whole, raise substantial doubt about the ability of the Company to continue as a going concern for the foreseeable future.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibility for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to provide an auditor's report that includes our opinion. Reasonable assurance is a high, but not absolute, level of assurance and, therefore, does not guarantee that an audit performed in accordance with Generally Accepted Auditing Standards in Chile will always detect a material misstatement when it exists. The risk of not detecting a material misstatement due to fraud is greater than the risk of not detecting a material misstatement due to error, as fraud may involve collusion, falsification, intentional omissions, concealment, misrepresentations, or disregard of controls by management. A misstatement is considered material if, individually or in the aggregate, it could influence the judgment of a reasonable user of these financial statements.

As part of an audit performed in accordance with Generally Accepted Auditing Standards in Chile, we exercise professional judgment and maintain professional skepticism during the entire audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures in response to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement due to fraud is greater than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.Evaluate the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as the appropriateness of the overall presentation of the financial statements.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We are required to communicate to those charged with governance, among other matters, the planned timing and scope of the audit and significant audit findings, including any significant deficiencies and material weaknesses in internal control that we identified during our audit.

Emphasis of matter

The accompanying separate financial statements have been prepared to reflect the individual financial position of Tata Consultancy Services Chile S.A. before consolidating, on a line-by-line basis, with the financial statements of its subsidiaries. Accordingly, for proper interpretation purposes, these separate financial statements need to be read and analyzed along with the consolidated financial statements of Tata Consultancy Services Limited.

Other Matters - new auditing standards

The Chilean Association of Accountants (Colegio de Contadores de Chile A.G.) approved that Generally Accepted Auditing Standards in Chile shall adopt fully and without reservation the International Standards on Auditing issued by the International Auditing and Assurance Standards Board for audits of financial statements prepared for the year beginning on or after January 1, 2025.

The audit of the financial statements of TATA Consultancy Services Chile S.A. as of December 31, 2024 was performed in accordance with Generally Accepted Auditing Standards in Chile in force at that date. On those financial statements, we issued an unmodified opinion dated February 20, 2025.

Other Matters - Translation

The above translation of the auditors' report is provided as a free translation from the Spanish language original, which is the official and binding version. Such translation has been done solely for the convenience of non-Spanish readers.

We are required to communicate to those charged with governance, among other matters, the planned timing and scope of the audit and significant audit findings, including any significant deficiencies and material weaknesses in internal control that we identified during our audit.

Luis Velásquez Molina
Grant Thornton Auditoría y Servicios Limitada.

Notes to the Separate Financial Statements As of December 31, 2025 and 2024

1. Overview of the Company

On October 18, 2005, Tata Consultancy Services (TCS) Chile Limitada was incorporated via public deed.

On December 1, 2006, the shareholders agreed to incorporate the Company as a closely-held shareholders' corporation in conformity with Articles No. 96 and 97 of Law No. 18.046 (the Public Company Act). The Company is referred to as Tata Consultancy Services BPO Chile S.A.

On December 28, 2006, Tatasolution Center S.A. (a subsidiary of Tata Consultancy Services Chile S.A.), was incorporated in Ecuador and commenced its operations on June 1, 2007. It is mainly engaged in providing IT services, software development and maintenance, and administrative and operating processes (BPO) primarily to financial institutions.

On December 29, 2006, Tata Consultancy Services BPO Chile S.A. (formerly - Tata Consultancy Services (TCS) Chile Limitada) acquired 100% of shares of its subsidiary Tata Consultancy Services BPO Chile S.A. (formerly - Comicrom S.A.). Consequently, such subsidiary was dissolved by operation of law.

On February 15, 2010, the foreign subsidiary "Tata Consultancy Services Sucursal Perú" was incorporated via public deed.

At Extraordinary Shareholders' Meeting held on July 30, 2010, the shareholders agreed on the merger through absorption of Tata Consultancy Services BPO Chile S.A. by Tata Consultancy Services Chile S.A., and accordingly, at such meeting the Company's name was changed from Tata Consultancy Services BPO Chile S.A. to Tata Consultancy Services Chile S.A.

In Chile, the Company began operations in 2003 and currently has 1,542 employees in offices located in Santiago (Head office) Buin, having operations throughout Chile through its Technical Service and Regional Exchange areas to provide services to more than 100 customers from several industries, e.g. Bank and Financial Services, Retail, Insurance, Telecommunications, Manufacturing, Governance, Mining and Transportation.

These separate financial statements have to be read and analyzed in conjunction with the consolidated financial statements of Tata Consultancy Services Limited.

2. Basis of presentation of the separate financial statements

These financial statements have been prepared on a historical cost basis except for certain financial instruments which are measured at fair value or amortized cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realization in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

Cash flows have been prepared using indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals, or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid and interest and dividend received as cash flow from operating activities. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional currency of the Company is the Chilean pesos (Thch$). Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The significant accounting policies used in preparation of the financial statements have been discussed in the respective notes.

a) Use of estimates and judgments

The preparation of these separate financial statements in conformity with the recognition and measurement principles under IFRS, requires that Management make estimates and judgments which have an impact on the reported balances of assets and liabilities, the disclosures of contingent liabilities at the reporting date, and the balance of income and expenses for the reporting periods.

The underlying estimates and assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimate is revised and any future periods affected.

The key source of estimation uncertainty at the reporting date, which may result in a material adjustment to the carrying amounts of assets and liabilities within the subsequent financial year, relates to the impairment of goodwill, useful lives of items of furniture and equipment, valuation of deferred tax assets, provisions and contingent liabilities, as detailed below. The main key sources of estimation uncertainty related to revenue recognition, employee benefits, and fair value measurement of financial instruments, have been assessed based on the applicable policies.

Revenue recognition

- The Company's contracts with customers may include multiple goods or services promised to customers. The Company assesses the goods / services promised in a contract and identifies distinct performance obligations in it. The identification of a different performance obligation implies judgment to determine the deliverables involved and the customer's ability to benefit from the good or service, independently of such deliverables.
- In addition, the Company is required to apply judgment to determine the transaction price of the contract. The transaction price could be a fixed amount of customer consideration, or a variable consideration including elements such as volume discounts, service level credits, performance bonuses, price concessions, and incentives. In addition, the transaction price is adjusted for the effects of the time value of money if the contract contains a significant financing component. Any consideration payable to the customer is adjusted at the transaction price, unless it relates to a payment for a different good or service of the customer. The estimated amount of the variable consideration is adjusted in the transaction price only to the extent that it is highly probable that that there will be no significant reversal of the retained earnings recognized, and it is reassessed at each reporting period. The Group allocates the elements of variable considerations to all performance obligations of the contract, unless there is observable evidence that such elements relate to one or more different performance obligations.
- The Company applies judgment to determine the appropriate stand-alone selling price for a performance obligation. Regularly, the Company allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of the separate goods or service promised in the contract. When the stand-alone selling price is not observable, the Company uses the expected cost plus a margin approach to allocate the transaction price to each separate performance obligation.
- The Company applies judgment to determine whether a performance obligation is satisfied at a point in time or over time. It takes into account indicators such as the manner in which the customer consumes the benefits as services are rendered or who controls the asset as it is created, or whether the Company has an enforceable right to payment for performance completed through the present date and the alternative use of such product or service, the transfer of significant risks and rewards to the customer, the acceptance of delivery by the customer, etc.
- Revenue from fixed-price contracts is recognized using the percentage of completion method. The Company applies judgment to estimate the future cost until completion of the contracts and it uses judgment to determine the progress towards complete satisfaction of the performance obligation.
- The costs incurred in complying with the contracts are generally recorded as expenses incurred, except for certain software license costs which comply with capitalization criteria. Such costs are amortized over the lower of the contract term or the license useful life. The assessment of this criterion requires judgment, particularly when considering whether the costs create or enhance resources that will be used in satisfying performance obligations, and whether such costs are expected to be recovered.

Impairment of goodwill

The Company estimates the value in use of cash generating units (CGU) based on future cash flows after taking into account current economic conditions and trends, estimated future operating profit or loss, growth rate, and estimated future economic and regulatory conditions. The Company estimates cash flows using internal forecasts. The discount rates used for the CGUs represent the weighted average cost of principal based on the historic market performance of comparable companies.

Useful lives of items of furniture and equipment

The Company reviews the carrying amount of items of furniture and equipment at the end of each reporting period. This reassessment may result in changes to the depreciation expense for future periods.

Measurement of deferred tax assets.

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period.

Provisions and contingent liabilities

Provisions are recognized when the Company has a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and reliable estimate can be made of the amount of the obligation. Provisions shall be reviewed at the end of each reporting period and adjusted to reflect the current best estimate. Contingent liabilities are not recognized in the financial statements. Contingent assets are not recognized or disclosed in the financial statements.

Fair value measurement of financial instruments.

When the Company is not able to measure the fair value of financial assets and financial liabilities in the statement of financial position based on quoted prices in active markets, the fair value is measured using valuation techniques which include the discounted cash flow model. Inputs to these models are obtained from observable markets where possible, otherwise a degree of judgment is required to establish fair values. The judgments include considering inputs such as liquidity risk, credit risk and volatility.

Changes in the assumptions with respect to these factors could affect the reported fair value of financial instruments. The policy has been explained in further detail in Note 4.

Leases

The Company assesses whether an agreement is classified as a lease as per the requirements of IFRS 16. Identifying a lease requires significant judgment. The Company uses significant judgment to assess the lease term (including early renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both: periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

In general, the discount rate is based on the specific incremental interest rate for the lease under assessment or a lease portfolio with similar characteristics.

b) Statement of compliance

These separate financial statements of Tata Consultancy Services Chile S.A. (hereinafter the "Company"), for the year ended December 31, 2025 and 2024, are presented in Chilean pesos and have been prepared in accordance with IAS 27, "Separate Financial Statements" included in International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board (hereinafter the "IASB"), applying the exception described in paragraph 4 of IFRS 10, Consolidated Financial Statements. Likewise, these financial statements are exempt from disclosure provisions contained in IFRS 12.

The information contained in the separate financial statements is the responsibility of the Company's Management which expressly states it has applied all the principles and criteria included in IAS 27 and IFRS; the separate financial statements have been approved by the Board of Directors on March 2, 2026.

The translation of these financial statements is provided as a free translation from the Spanish language original, which is the official and binding version. Such translation has been made solely for the convenience of non-Spanish readers.

c) Historical cost basis

The separate financial statements have been prepared on the historical cost basis. Generally, the historical cost is based on the fair value of the consideration paid in exchange for goods and services. The fair value is the price that would be received for selling an asset or paid for transferring a liability in an orderly transaction between market participants on the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. For purposes of measurement and/or disclosure in these separate financial statements,

fair value is determined as described above, except for the determination of value in use under IAS 36, which has been measured at market value.

d) Separate financial statements

(a) Separate statements of financial position

In the separate statements of financial position of Tata Consultancy Services Chile S.A., balances are classified on the basis of their maturities, i.e., as current when they have maturities of 12 months or less, and non-current when the maturity exceeds 12 months. If any obligations exist which maturity is less than 12 months, but according to the Company, its long-term refinancing is secured through credit contracts available unconditionally with long-term maturities, they are classified as long-term liabilities.

(b) Separate statements of comprehensive income

Tata Consultancy Services Chile S.A. has opted to present its statements of income classified by nature.

(c) Separate statements of cash flows

Tata Consultancy Services Chile S.A. has opted to present its statements of cash flows using the indirect method.

e) Reporting period

These separate financial statements of Tata Consultancy Services Chile S.A. were prepared as of December 31, 2025 and 2024 and for the years then ended.

f) Currency

The functional currency of Tata Consultancy Services Chile S.A. is the Chilean peso.

Transactions in foreign currencies are translated into the respective functional currencies of Group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

g) Basis of translation

Balances of assets and liabilities in UF (inflation-adjusted units), U.S. dollars and other foreign currencies have been translated to Chilean pesos at the exchange rates in force at the closing date of the separate financial statements. At the reporting date, the effective exchange rates are detailed as follows:

	2025 $	2024 $
US Dollar	907.13	996.46
Inflation- adjusted units (UF)	39,727.96	38,416.69

Foreign currency translation differences and adjustments are debited or credited to profit or loss, as applicable, in accordance with IFRS. The exchange rates used by the Company at the reporting date do not significantly differ from those currently in force.

h) Classification of balances (current and non-current)

In the accompanying statement of financial position, balances are classified according to their maturities, i.e. as current those with maturities of 12 months or less and non-current those with maturities exceeding 12 months.

i) Statement of cash flows

For the preparation of the statement of cash flows, the Company uses the following definitions:

Cash and cash equivalents relates to cash on hand, cash in bank current accounts, time deposit and highly-liquid fixed income mutual fund deposits held in financial entities with original maturities of up to three months and insignificant risk of loss of value.

The statement of cash flows considers the following account categories:

(a) Operating activities

Operating activities are the principal revenue-producing activities of the entity and other activities that are not investing or financing activities.

(b) Investing activities

Investing activities are the acquisition and disposal of long term assets and other investments not included in cash and cash equivalents.

(c) Financing activities

Financing activities are activities that result in changes in the size and composition of the contributed equity and borrowings of the entity.

3. Summary of significant accounting policies

The entity has consistently applied the following accounting policies to all periods presented in these separate financial statements.

The accounting policies set out below have been used in the preparation of these separate financial statements. As required by IFRS 1, these policies have been defined considering the IFRS effective as of December 31, 2025.

a) Provisions and contingent liabilities

A provision is a liability of uncertain timing or amount. Provisions are recognized in the balance sheet when the following requirements are met in a copulative manner:

- The Company has a present legal or constructive obligation as a result of a past event.
- It is probable that at the reporting date an outflow of economic benefits will be required to settle the obligation.
- The obligation can be estimated reliably.

A contingent asset or liability is an obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

b) Employee benefits

The Company recognizes accrued vacation expenses using the accrual method. Such benefit is applicable to all personnel and relates to a fixed amount according to each employee's contract, which is recorded at its nominal value.

c) Offsetting of balances and transactions

Generally, in the separate financial statements there is no offsetting of assets or liabilities or revenue and expenses, except for those cases where offsetting is required or permitted by any standard and such presentation is the reflection of the substance of the transaction.

Revenues and expenses generated by transactions which contractually or mandatorily because of the enactment of a law include the possibility of offsetting, are those for which the Company intends either to settle the obligations on a net basis, or to realize the asset and settle the liability simultaneously.

d) New accounting pronouncements

New accounting and sustainability pronouncements

The following accounting pronouncements are mandatory as of the period beginning January 1, 2025:

Amendments to IFRS Accounting Standards	Date of mandatory application
Non-convertibility (Amendment to IAS 21)	Annual periods beginning on or after January 1, 2025. Early adoption is permitted
Disclosures about Uncertainties in Financial Statements (Amendments to Illustrative Examples in IFRS 7, IFRS 18, IAS 1, IAS 8, IAS 36, and IAS 37	No effective date or transition requirements are provided, as the illustrative examples are not an integral part of IFRS Accounting Standards, but rather provide additional information on existing disclosure requirements.

Accounting pronouncements not yet in effective

The following accounting pronouncements are applicable to annual periods beginning after January 1, 2026, and have not been applied in the preparation of these financial statements. The entity plans to adopt the applicable accounting pronouncements on their respective effective dates and not in advance.

Amendments to IFRS Accounting Standards	Date of mandatory application
Classification and measurement of financial instruments (Amendments to IFRS 9 and IFRS 7 – Post-implementation review)	Annual periods beginning on or after January 1, 2026. Early adoption is permitted.
Annual Improvements to IFRS Accounting Standards – Volume 11	Annual periods beginning on or after January 1, 2026. Early adoption is permitted.
Contracts for Nature-Dependent Electricity (Amendments to IFRS 9 and IFRS 7)	Annual periods beginning on or after January 1, 2026. Early adoption is permitted.
Update to IFRS 19 Subsidiaries Not Subject to Public Accountability: Disclosure Requirements	Annual periods beginning on or after January 1, 2027. Early adoption is permitted.
Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21)	Annual periods beginning on or after January 1, 2027. Early adoption is permitted.
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)	Effective date deferred indefinitely. Early adoption permitted.

New IFRS Accounting Standards	Date of mandatory application
IFRS 18 Presentation and Disclosure in Financial Statements	Annual periods beginning on or after January 1, 2027. Early adoption is permitted.
IFRS 19 Subsidiaries Not Subject to Public Accountability: Disclosure Requirements (Updated)	Annual periods beginning on or after January 1, 2027. Early adoption is permitted.

Management has not conducted a formal assessment of these new IFRSs or amendments; however, these accounting pronouncements that have been issued but are not yet effective are not expected to have a significant impact on the separate financial statements.

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

Amendments to IFRS 9 and IFRS 7

Annual Improvements to IFRS Accounting Standards1 – Amendments to:

- IFRS 1 – First-time Adoption of International Financial Reporting Standards
- IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 – Financial Instruments
- IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

Effective for annual periods beginning on or after January 1, 2026

Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Group will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

4. Financial assets and financial liabilities, and equity instruments

Financial assets

Cash and cash equivalents

The Company classifies as cash and cash equivalents all highly-liquid financial instruments, which are readily convertible into known amounts of cash subject to an insignificant risk of changes in value, with maturities of three months or less from the date of acquisition. Cash and cash equivalents comprise cash in banks not restricted for withdrawal and use.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if those financial assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if they are held within a business model whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has adopted the irrevocable option of presenting the subsequent changes in the fair values of capital investments not held for trading in other comprehensive income.

Financial assets at fair value through profit and loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortized cost or at fair value through other comprehensive income at initial recognition. Transaction costs directly attributable to the acquisition of financial assets or assumption of financial liabilities at fair value through profit or loss are immediately recognized in the interim condensed statement of profit or loss.

Financial liabilities

Other financial liabilities are measured at amortized cost using the effective interest method.

Equity securities

Equity securities are contracts which establish a residual interest on the Company's assets after deducting all its liabilities. Equity securities issued by the Company are recognized at the amount of the income received net of direct cost of issue.

Impairment of financial assets (not measured at fair value)

At each reporting date, the Company assesses whether a financial asset or group of financial assets is impaired. IFRS 9 requires that expected credit losses are measured through a loss allowance. The Company recognizes lifetime expected credit losses for all its contract assets and/or trade receivables that do not contain a significant financing component. To determine the allowance for doubtful accounts, the Company has used a practical expedient for the calculation of the allowance for expected credit losses of trade receivables using an allowance matrix. The allowance matrix considers the historical credit loss experience and is adjusted for prospective information. The allowance for expected credit losses is based on the maturity of accounts receivable past due and the rates used in the allowance matrix. For the remaining financial assets, expected credit losses are measured at an amount equal to 12-month expected credit losses or an amount equal to lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

a) Cash and cash equivalents

As of December 31, 2025 and 2024, this caption is composed of the following:

	2025 ThCh$	2024 ThCh$
Cash on hand	3,790	3,468
Time deposits	6,580,077	6,397,264
Cash in banks	231,485	296,812
Total	**6,815,352**	**6,697,544**

As of December 31, 2025 and 2024, cash in banks is as follows:

Bank	Type of currency	2025 ThCh$	2024 ThCh$
Banco Santander	Chilean pesos	49,538	221,816
Banco Santander	U.S dollar	40,890	59,593
Banco Scotiabank Chile	Chilean pesos	141,057	15,403
Total		**231,485**	**296,812**

Cash and cash equivalents have no availability restrictions.

The Company has made no investing or financing transactions that do not require the use of cash and cash equivalents.

Time Deposits

As of December 31, 2025 and 2024, cash in time deposits is as follows:

2025

Bank Name / Counterparty Name	Placement date	Maturity date	Currency	Total Days	Closing Amount
Banco Santander	22-Dec-25	06-Jan-2026	USD	15	315,032
Banco Santander	22-Dec-25	07-Jan-2026	CLP	16	150,000
Banco Santander	23-Dec-25	07-Jan-2026	CLP	15	180,000
Banco Santander	24-Dec-25	07-Jan-2026	CLP	14	400,000
Banco Santander	26-Dec-25	16-Jan-2026	CLP	21	1,000,000
Banco Santander	26-Dec-25	26-Jan-2026	CLP	31	1,700,000
Banco Santander	30-Dec-25	06-Jan-2026	CLP	7	50,000
Banco Santander	19-Dec-25	07-Jan-2026	USD	19	450,045
Scotiabank	26-Dec-25	16-Jan-2026	CLP	21	650,000
Scotiabank	26-Dec-25	07-Jan-2026	CLP	12	800,000
Scotiabank	29-Dec-25	16-Jan-2026	CLP	16	150,000
Scotiabank	30-Dec-25	06-Jan-2026	CLP	15	180,000
Scotiabank	30-Dec-25	16-Jan-2026	CLP	17	200,000
Scotiabank	30-Dec-25	28-Jan-2026	CLP	29	355,000
					6,580,077

					6,397,264

b) Investments

Investment in equity shares at fair value through other comprehensive income.

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income.

For the investment in equity shares, the Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income which would otherwise be measured at fair value through profit or loss.

Name	2025 ThCh$	2024 ThCh$
Investment in equity shares recognized at fair value	162,830	90,366
Investments in subsidiaries held at cost	10,642,688	10,642,688
Investment in Equity shares	**10,805,518**	**10,733,054**

b.1 Investment in equity shares recognized at fair value through other comprehensive income is:

Name	2025 ThCh$	2024 ThCh$
Fully paid Equity shares	90,366	62,358
More: Changes in fair value of Investment	72,464	28,008
Investment in Equity shares	**162,830**	**90,366**

b.2 Investments in subsidiaries held at cost

For the preparation of the separate financial statements the Company has used the exemption described in paragraph 4 of IFRS 10, which allows not using the equity method of accounting to recognize investments in subsidiaries in which the entity has control and significant influence provided that certain conditions are met. The Company meets each and every of such conditions as of December 31, 2025 and 2024. The Company's shareholders have authorized the preparation of the separate financial statement because the Company's financial information is included in the consolidated financial statements of its ultimate Parent, Tata Consultancy Services Limited (India), which have been prepared and presented in accordance with IFRS as issued by the IASB, and can be found at the web site: https://www.tcs.com/investor-relations.

Investments in subsidiaries are recognized at cost and relate to:

Subsidiary	Country	Shares %	Address
Tata Solution Center S.A.	Ecuador	99.00	Francisco Salazar N°10-6 Quito
Tata Consultancy Services Sucursal del Perú	Perú	100.00	Av. Nicolas Ayllon 2941, 3er Piso, El Agustino, Lima10 - Perú

The Company determines whether it is necessary to recognize an impairment loss in the subsidiaries. The Company determines at each reporting date whether there is objective evidence that the investment in the subsidiary is impaired; if this is the case, the Company calculates the impairment amount as the difference between the higher of the value in use and fair value of the subsidiary and the acquisition cost and recognizes the amount in the statement of profit or loss.

This caption includes investments in subsidiaries held at cost by the Company. The detail is as follows:

Taxpayer ID	Company's Name	Country	2025 Ownership interest %	2024 Ownership interest %	2025 Carrying amount ThCh$	2024 Carrying amount ThCh$
Foreign	Tata Solution Center S.A.	Ecuador	99.0000	99.0000	5,535,701	5,535,701
Foreign	Tata Consultancy Services Sucursal del Perú	Perú	100.0000	100.0000	5,106,987	5,106,987
	Total				**10,642,688**	**10,642,688**

Balances of assets and liabilities in U.S. dollars and Peruvian nuevo sol are translated into Chilian pesos at the exchange rates in force at the closing date U.S. dollar 2025 and 2024 ($907.13) and 2024 ($996.46), Peruvian Nuevo sol 2025 ($269.91) and 2024 ($264.54).

Changes in investments in subsidiaries held at cost by the Company are as follows:

2025

Taxpayer ID	Company's Name	Country	Carrying amounts of the investment as of 01.01.2025 ThCh$	Acquisitions ThCh$	Disposals ThCh$	Carrying amounts of the investment as of 12.31.2025 ThCh$
Foreign	Tata Solution Center S.A.	Ecuador	5,535,701	-	-	5,535,701

As of December 31, 2025, and 2024, the financial information contained in the financial statements of the companies over which the Company has control is detailed as follows:

At 12.31.2025 ThCh$

Taxpayer	Company's name	Country	Assets	Liabilities	Equity	Profit or loss
Foreign	Tata Solution Center S.A.	Ecuador	26,534,746	11,121,730	15,413,016	4,517,504
Foreign	Tata Consultancy Services Sucursal del Perú	Perú	13,215,604	6,856,254	6,359,350	1,247,794

At 12.31.2024 ThCh$

Taxpayer	Company's name	Country	Assets	Liabilities	Equity	Profit or loss
Foreign	Tata Solution Center S.A.	Ecuador	27,388,036	11,854,730	15,533,306	1,174,189
Foreign	Tata Consultancy Services Sucursal del Perú	Perú	12,563,799	7,553,940	5,009,859	671,403

c) Trade and other receivables, current

(a) Trade receivables are detailed as follows:

	2025 ThCh$	2024 ThCh$
Trade receivables – Billed	5,467,391	6,783,631
Receivables due from related parties – Billed	1,946,219	594,971
Total	**7,413,610**	**7,378,602**

The fair value of trade receivables corresponds to the same business amounts net of the related allowance for doubtful accounts.

(b) Trade receivables past due, unpaid but not impaired are detailed as follows:

	2025 ThCh$	2024 ThCh$
Up to 30 days	7,347,370	7,312,273
31 to 60 days	13,285	46,497
61 to 180 days	60,745	30,158
Over 180 days	-	-
Impairment	(7,790)	(10,326)
Total	**7,413,610**	**7,378,602**

(c) Unbilled trade receivables are detailed as follows:

	2025 ThCh$	2024 ThCh$
Trade receivables – Unbilled	2,150,908	2,175,966
Trade receivables from related parties – Unbilled	344,297	139,499
Total	**2,495,205**	**2,315,465**

Fair value of unbilled trade receivables corresponds to the same business amounts net of the related allowance for doubtful accounts.

d) Other financial assets

As of December 31, 2025 and 2024, other current financial assets are as follows:

	2025 ThCh$	2024 ThCh$
Cash advances and loans to employees	39,623	56,462
Other financial assets	4,253	4,920
Total	**43,876**	**61,382**

e) Trade payables

As of December 31, 2025 and 2024, trade and other payables are detailed as follows:

Current	2025 ThCh$	2024 ThCh$
Trade payables	992,832	919,881
Payables due to related parties	1,401,770	1,106,038
Total	**2,394,602**	**2,025,919**

f) Other financial liabilities

As of December 31, 2025 and 2024, other current non-financial liabilities are detailed as follows:

Current	2025 ThCh$	2024 ThCh$
Liabilities for contracts with related Parties	8,504	12,729
Other employee benefits	194,204	217,210
Other financial liabilities	145,821	105,291
Total	**348,529**	**335,230**

g) Other non-financial liabilities

As of December 31, 2025 and 2024, other current non-financial liabilities are detailed as follows:

Current	2025 ThCh$	2024 ThCh$
Employee with holdings	743,620	676,407
Payroll tax with holdings	82,834	79,640
VAT fiscal debit, net	683,447	1,073,438
Other payables	6,927	26,798
Total	**1,516,828**	**1,856,283**

h) Equity disclosures

Subscribed, fully paid capital and number of shares.

As of December 31, 2025, and 2024, the Company's share capital is composed of the following:

Number of shares

ThCh$

Series	No. Subscribed	No. of paid shares	No. of shares with voting rights
Single	431,926	431,926	431,926

Capital

ThCh$

Series	Subscribed capital	Share capital
Single	16,997,134	16,997,134

Capital management is intended to maximize the value for the shareholders, safeguard business continuity, and support the Company's growth. The Company determines capital requirements based on annual operating plans, long-term investment plans and other strategic investment plans. Financing requirements are met through capital and cash flows from operating activities generated. The Company is not subject to any capital requirement imposed externally.

i) Financial assets and financial liabilities

As of December 31, 2025, the carrying amount of financial instruments by category is as follows:

ThCh$

2025		Amortized cost	Total carrying amount
Financial assets			
Cash and cash equivalents	4.a)	6,815,352	6,815,352
Trade receivables:			
Billed	4.c)	7,413,610	7,413,610
Unbilled	4.c)	2,495,205	2,495,205
Other current & non-current financial assets	4.d) 7.c)	69,431	69,431
Total		**16,793,598**	**16,793,598**
Financial liabilities:			
Trade payables	4.e)	2,394,602	2,394,602
Other financial liabilities	4.f)	348,529	348,529
Total		**2,743,131**	**2,743,131**

As of December 31, 2024, the carrying amount of financial instruments by category is detailed as follows:

ThCh$

2024		Amortized cost	Total carrying amount
Financial assets			
Cash and cash equivalents	4.a)	6,697,544	6,697,544
Trade receivables:			
Billed	4.c)	7,378,602	7,378,602
Unbilled	4.c)	2,315,465	2,315,465
Other current & non-current financial assets	4.d) 7.c)	109,919	109,919
Total		**16,501,530**	**16,501,530**
Financial liabilities:			
Trade payables	4.e)	2,025,919	2,025,919
Other financial liabilities	4.f)	335,230	335,230
Total		**2,361,149**	**2,361,149**

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables (prior year: unbilled revenue), and trade payables as of December 31, 2025 and 2024, approximate their fair value. The difference between carrying amounts and fair values of bank deposits, cash in banks, other financial assets, other financial liabilities and subsequent loans measured at amortized cost is not significant for each period presented.

Fair value hierarchy

Fair value hierarchy is based on valuation techniques used to measure the fair value of observable and unobservable inputs, and includes the following three levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). Fair values are determined totally or in part using a valuation model based on assumptions that are not supported by market transaction prices currently observable in the same instrument or based on available market data.

j) Financial risk management

The Company is mainly exposed to variations in foreign exchange rates, credit, liquidity and interest rate risks that may negatively affect the fair value of its financial instruments. The Company has a risk management policy that covers the risks associated with financial assets and financial liabilities. The risk management policy is approved by the Board of Directors. The approach applied by the risk management committee is to assess the unforeseability of the financial environment and mitigate the potential negative effects on the Company's financial performance.

(a) Market risk

The Company is exposed to market risk related to the risk of fluctuations in the fair value or future cash flows from a financial instrument because of changes in market prices. Such changes in the value of financial instruments may arise from movements in foreign currency exchange rates, interest rate, credit, liquidity and other changes in the market. The exposure to market risk relates mainly to the currency risk.

(b) Currency risk

The fluctuation of foreign currency exchange rate differences may have a potential effect in the statement of profit or loss and other comprehensive income, where any transaction refers to one or more currencies when assets / liabilities are denominated in a currency that is different from the entity's functional currency.

Considering the economic environment of the country in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in such country. The risks mainly relate to the fluctuations in U.S. dollar against the Company's functional currency.

The exchange rate sensitivity is calculated by adding the net exposure to currency risk and a simultaneous change of parallel exchange rates of all currencies by 10% compared to the Company's functional currency.

The analysis below has been prepared based on the Company's net exposure at the reporting date that may affect the statement of profit or loss and other comprehensive income.

As of December 31, 2025, the information related to the exposure to the currency risk is detailed as follows:

ThCh$

2025	USD	MXN	UF	EUR	COP	INR
Financial assets, net	2,977,136	68,350	-	-	11,836	-
Financial liabilities, net	1,220,813	7,048	24,047	-	-	-

The appreciation / depreciation of 10% of related foreign currencies with respect to the functional currency of the Company would result in a decrease / increase in profit before taxes of approximately ThCh$ 1,805,415 for the year ended December 31, 2025.

As of December 31, 2024, the information related to the exposure to the currency risk is detailed as follows:

ThCh$

2024	USD	MXN	UF	EUR	COP	INR
Financial assets, net	670,674	46,507	14,051	167,231	-	-
Financial liabilities, net	1,006,457	3,756	356,649	143,477	-	-

The appreciation / depreciation of 10% of related foreign currencies with respect to the functional currency of the Company would result in a decrease / increase in profit before taxes of approximately ThCh$ (611,877) for the year ended December 31, 2024.

(c) Interest rate risk

The Company is not exposed to interest rate risk.

(d) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual terms or obligations. Credit risk includes the direct risk of default and impairment of credit quality, as well as the concentration of risks. Credit risk is controlled by the analysis of credit limits and the credit capability of customers on an ongoing basis that have been obtained the credit after receiving the authorizations required.

Financial instruments subject to concentrations of credit risk include mainly trade receivables, unbilled revenue, investments, cash and cash equivalents, bank deposits and other financial assets. As of December 31, 2025, cash and cash equivalents include ThCh$ 6,815,352 held in a bank located in Chile with a high quality credit rating exceeding individually 10% or more of the Company's total cash and cash equivalents. None of the Company's other financial instruments result in a significant concentration of credit risk.

Exposure to liquidity risk

The carrying amount of financial assets represents the maximum credit exposure. As of December 31, 2025, and 2024, the maximum credit exposure amounted to ThCh$ 18,842,418 and ThCh$ 17,877,213, respectively, which corresponds to total carrying amount of cash in banks, bank deposits, trade receivables, unbilled revenue, other financial assets and investments.

Trade receivables and contract assets

The exposure to credit risk with respect to trade receivables and contract assets is mainly influenced by individual features of each customer in connection with the practices in the industry and the economic environment in which they operate. The entity limits its exposure to credit risk of trade receivables by establishing a maximum payment period of 272 days for its customers. Subsequent to this, the customers are at default (impaired loan). To manage this risk, the Company has a strong credit management process. The Company has adopted a policy to engage operations only with solvent counterparties. The counterparties' exposure is monitored on a regular basis, and changes to the credit conditions are made as required. The carrying amount of financial assets represents the maximum credit exposure. The Company has derecognized no customer balances, and only a few balances have impaired at the reporting date.

As of December 31, 2025 and 2024, the Company's exposure to customer is diversified; however, certain customers concentrate more than 10% of trade receivables and unbilled revenue:

ThCh$

	As December 31, 2025		As December 31, 2024	
	Total receivables and provisions for revenue	%	Total receivables and provisions for revenue	%
Customer A	1,302,647	14%	2,403,124	22%
Customer B	971,167	10%	968,474	9%

Geographical concentration of credit risk.

The geographical concentration of trade receivables (gross and net of provisions) and unbilled revenue are detailed as follows:

Geographic concentration of credit	2025 %	2024 %
Ibero-america	74	92
Other	26	8

Geographical concentration of trade receivables and unbilled revenue are assigned by the customer location.

The Company uses a provision matrix to measure the expected credit loss from receivables from customers. The expected credit loss is based on credit maturity dates and is detailed as follows:

ThCh$

12.31.2025	Weighted average loss rate	Gross carrying amount	Loss allowance	Credit-impaired
No due	0.01%	7,347	(0.83)	No
1-90	0.10%	74.03	(0.02)	No
91-180	2.64	-	-	No
181—272	94.34%	-	-	No
>273	100.00%	(7.79)	-	Yes

ThCh$

12.31.2024	Weighted average loss rate	Gross carrying amount	Loss allowance	Credit-impaired
No due	0.01%	7,312	(0.94)	No
1-90	0.10%	76.65	(0.08)	No
91-180	2.64	-	-	No
181—272	94.34%	-	-	No
>273	100.00%	(10.33)	-	Yes

The gross carrying amount excludes intercompany receivables.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations. Liquidity risk management is intended to maintain sufficient liquidity and ensure that funds are available for use as per the requirements.

On a regular basis, the Company generated sufficient cash flows from operations to meet its financial obligations as they mature.

The Company addresses no significant liquidity risk related to its lease liabilities, because current assets are sufficient to comply with obligations related to lease liabilities when they mature.

The detail of the contractual maturities of significant financial liabilities is included in the tables below:

ThCh$

2025	Expired in 1st year	Expired in 2nd year	Expired in 3rd and 5th year M&	Expired more than 5th year	Total
Non-derivative financial liabilities:					
Trade payables (Note 4.e)	2,394,602	-	-	-	2,394,602

Transactions among the Company and its related parties correspond to customary operations in terms of their objective and conditions.

Balances receivable and payable are mainly expressed in U.S. dollars and for interest-bearing loans of an approximate annual average rate ranging from 4% to 6% not associated with a repayment schedule, the classification is based on the expected collection period of such accounts receivable.

For 2025, current receivables mainly relate to trade receivables of ThCh$ 7,413,610 (services rendered), other current financial assets of ThCh$ 43,876 (loans and interests) while for 2024 this item mainly relates to trade receivables of ThCh$7,3,78,602 (services rendered), other current financial assets of

ThCh$61,382 (loans and interests).

Total	**2,512**	**34,341**

c) As of December 31, 2025 and 2024, Income tax Liabilities are as follows:

	2025 ThCh$	2024 ThCh$
Income tax Liabilities	(929,438)	(125,992)
Total	**(929,438)**	**(125,992)**

IFRIC 23 Interpretation Uncertainty over Income Tax Treatment

IFRIC 23 interpretation addresses the accounting for income taxes when there is uncertainty over tax treatments. It clarifies that an entity must consider the probability that the tax authorities will accept a treatment retained in its income tax filings, assuming that they have full knowledge of all relevant information when making their examination. In such a case, the income taxes shall be determined in line with the income tax filings.

Application of IFRIC 23

The Company reviewed its income tax treatments in order to determine whether IFRIC 23 interpretation could have an impact on the financial statements. In that respect, the Company observed that there are no continuous instances of any uncertain tax treatment in the past and on that basis, it is reasonable to conclude that all the tax treatments are accepted by the tax officer and hence IFRIC 23 is not applicable.

7. Non-financial assets and liabilities

a) Furniture and equipment

The cost of items of furniture and equipment comprises their acquisition cost plus any other costs directly attributable to bringing the assets to a working condition for their intended use as foreseen by Management and the initial estimate of the costs of dismantling and removing the items and restoring the site on which they are located. Financial cost is capitalized in accordance with IAS 23.

Repair, preservation and maintenance expenses are expensed in profit or loss in the period in which they are incurred. Note that certain items of furniture and equipment of Tata Consultancy Services Chile S.A. require regular reviews. In

this sense, the items that are replaced are recognized separately from the rest of the asset and with a disaggregation level which allows their amortization in the period between the present and next repair.

Expansion, modernization and improvement costs that represent an increase in productivity, capacity or efficiency, or an increase in the useful life, are capitalized as an increase in the value of the assets.

The gain or loss from selling or retirement of an asset is calculated as the difference between the price obtained from the sale and the amount carried out in the accounting records with a debit or credit to profit or loss for the period.

Depreciation

Items of furniture and equipment are depreciated using the straight-line method by distributing the acquisition cost of the assets less their estimated residual value over the estimated useful lives of assets.

The residual value and useful life of items of furniture and equipment are reviewed on an annual basis, and depreciation starts when assets are brought to working condition for their intended use.

The main items of property, plant and their related useful lives are shown below:

	Financial useful life (years)
Furniture and supplies	5
Computers and Equipment	4
Electrical and air conditioning equipment	10
Archive installations	10

Tata Consultancy Services Chile S.A., at least annually, assesses the existence of a possible impairment of assets in furniture and equipment. Any reversal of the impairment loss is recognized in profit or loss, where applicable.

Impairment

Furniture and equipment with a limited useful life are assessed to recover them as long as there is any indication that their carrying amount may not be recoverable. Should such indication exist, the recoverable amount (i.e. the higher of its fair value less costs to sell and its value in use) is determined based on an individual asset, unless such asset generates no cash inflows that are largely independent from other assets. In such cases, the recoverable amount is determined for the cash-generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is lower than its carrying amount, then the asset's carrying amount (or CGU) is reduced to its recoverable amount. Impairment losses are recognized in profit or loss.

(a) Detail

The details of furniture and equipment at each year-end, net and gross, is as follows:

(c) Additional information

(i) Insurance

The Company has entered into insurance policies to cover the possible risks to which the different elements of furniture and equipment may be exposed to, as well as possible claims that might be presented due to the exertion of its activity; these policies sufficiently cover the risks to which they are exposed to.

(ii) Depreciation cost

The depreciation of assets is calculated using the straight-line method during their economic useful life.

Such useful life has been determined based on the expected natural impairment, technical or business obsolescence from changes and/or improvements in production and changes in the market demands of products obtained from operations of such assets.

(iii) Operating leases

TCS records properties and equipment leased under operating lease agreements. Most lease agreements include renewal and escalation clauses. Rental expenses from operating leases amounted to MCh$ 0 and MCh$ 2 in fiscal years 2025 and 2024, respectively.

Below there is a summary of future minimum lease rental commitments for operating leases:

2025

Supplier	Concept	UF value annual	Beginning date	Completion date	Concept
Sociedad Lautaro Rios e Hijos Ltda.	Leasehold of Valparaiso's branch	-	-	-	There was not a renewal of the contract

2024

Supplier	Concept	UF value annual	Beginning date	Completion date	Concept
Sociedad Lautaro Rios e Hijos Ltda.	Leasehold of Valparaiso's branch	-	-	-	There was not a renewal of the contract

Future commitments are as follows

Leasehold of properties	2025 ThCh$	2024 ThCh$
Up to a year	-	1,849
Between a year and five years	-	-
More than five years	-	-
Total	**-**	**1,849**

b) Goodwill

Goodwill represents the positive difference between the acquisition cost and the fair value of the identifiable assets acquired, liabilities and contingent liabilities of the acquiree. Goodwill is initially measured at cost and subsequently measured at cost less impairment losses, if any. Goodwill is reviewed annually for the existence of any impairment indications or more frequently if events or changes in circumstances exist indicating that the carrying amount may be impaired.

Impairment

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. The financial projections basis which the future cash flows have been estimated consider the increase in economic uncertainties due to COVID-19, reassessment of the discount rates, revisiting the growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit.

Relates to goodwill generated as a result of the acquisition of Comicrom S.A. in 2005.

On November 7, 2005, Tata Consultancy Services BPO Chile S.A. (formerly, Tata Consultancy Services (TCS) Chile Ltda.) acquired from Opencrom S.A., 99.99% of ownership interest in Comicrom S.A. The initial balance paid amounted to ThCh$ 12,099,597 (historical amount), generating an initial goodwill of ThCh$ 8,584,142 (historical amount) at such date.

The Company determined the fair value of assets and liabilities of the acquiree based on the purchase assessment process, requiring the involvement of external professional specialists, who issued a report on March 10, 2006. Such report determined that no significant differences existed between the initial assessment of the fair value of the acquiree's assets and liabilities and the amount reported by the external specialists.

- The purchase and sale contract for the property of Comicrom S.A. included price adjustment provisions subject to the compliance with certain financial ratios until 2010, which were part of the final determination of the price paid and goodwill.
- As of December 31, 2025 and 2024, goodwill amounting to ThCh$17,720,950 has been allocated to the Tata Consultancy Services Chile S.A. cash-generating unit. The Company makes an estimate of the value in use of the Tata Consultancy Services Chile S.A. cash-generating unit based on future cash flows using an annual growth rate of 3% after a forecast of five years considering a discount rate of 8.63%. A sensitivity analysis of changes in measurement parameters (operating margin, discount rate and average long-term growth rate) based on assumptions fairly probable has identified no probable scenario where recoverable amounts of the cash-generating unit may decrease to less than the carrying amount.

c) Other non-current assets

The other non-current assets as of December 31, 2025 and 2024, respectively, are detailed below:

ThCh$

	As of December 31, 2025	As of December 31, 2024
Security Deposit	25,555	36,581
Contractual assets	-	11,956
Total	**25,555**	**48,537**

d) Other current assets

The detail of other current non-financial assets as of December 31, 2025 and 2024, is as follows:

	2025 ThCh$	2024 ThCh$
Prepayments	191,213	66,321
Contractual assets	1,911,545	1,319,719
Total	**2,102,758**	**1,386,040**

The movement in the contract assets is given below:

	2025 ThCh$	2024 ThCh$
Opening balances as of December 31, 2024	1,331,719	1,260,153
Recognized revenue at the beginning of the period	(1,268,498)	(1,134,329)

Foreign currency translation differences	(7,191)	(5,735)
Closing balances as of December 31, 2025	**1,911,545**	**1,331,719**

e) Other non financial liabilities

The detail of the other current non-financial liabilities as of December 31, 2025 and 2024, is as follows:

Currents	2025 ThCh$	2024 ThCh$
Employee withholdings	743,620	676,407
Payroll tax withholdings	82,834	79,640
VAT fiscal debit, net	683,447	1,073,438
Other payables	6,927	26,798
Total	**1,516,828**	**1,856,283**

8. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

- The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component based on the stand-alone price related to the lease component and the aggregate stand-alone price of non-lease components.
- The Company recognizes the right-of-use asset that represents its right to use the underlying asset during the lease term on the commencement date of the lease. The cost of the right-of-use asset measured at inception shall comprise the amount of the initial measurement of the lease liability adjusted for any lease payment made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. Right-of-use assets are subsequently measured at cost less any accumulated depreciation or accumulated impairment losses, if any, and are adjusted for any remeasurement of the lease liability. Right-of-use assets are depreciated using the straight-line method starting from the commencement date over the shorter of the lease term or the useful life of the right-of-use asset. Estimated useful lives of right-of-use assets are determined on the same basis as those of furniture and equipment. Right-of-use assets are tested for impairment when there is evidence that the carrying amount may not be recoverable. Impairment losses, if any, are recognized in profit or loss.
- The Company measure the lease liability at the present value of lease payments that are not paid at the commencement date of the lease. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If this rate cannot be readily determined, the Company shall use its incremental borrowing rate. For leases with reasonably similar characteristics, the Company may adopt, on a lease-by-lease basis, the incremental borrowing rate specific for the lease or the incremental borrowing rate for the portfolio as a whole. Lease payments will include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option if the Company is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.
- The lease liability is subsequently remeasured increasing the carrying amount to reflect the interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognizes the amount of the remeasurement of the lease liability due to the modification as an adjustment to the right-of-use asset and profit or loss, depending on the nature of the modification. When the carrying amount of the right-of-use asset is reduced to zero and there is further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the remeasurement in profit or loss.
- The Company has elected not to apply the requirements of IFRS 16 to leases of low-value assets and short-term leases. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Right-of-use assets owned by the Company are detailed as follows:

ThCh$

	Acquisitions for 2025	Net carrying amount for 2025	Acquisitions for 2024	Net carrying amount for 2024
Buildings	-	4,548,641	-	1,573,953
Total	**-**	**4,548,641**	**-**	**1,573,953**

The depreciation of the right-of-use asset is as follows:

ThCh$

	As of December 31, 2025	As of December 31, 2024
Buildings	946,855	874,832
Total	**946,855**	**874,832**

Amounts recognized in the statement of profit or loss

ThCh$

	As of December 31, 2025	As of December 31, 2024
Depreciation	946,855	874,832
Interest on the lease liability	334,253	123,045
Expenses related to short-term leases and leases of low value assets	56,026	21,168

Amounts recognized in the statement of cashflows

ThCh$

	As of December 31, 2025	As of December 31, 2024
Total cash outflows for leases	610,396	946,041

The leasing contracts entered into by the Company mainly refer to buildings leased to carry out its business in the ordinary course. The Company has no lease restrictions and commitment to equities under the contract.

Current and non-current lease liabilities are detailed as follows:

ThCh$

Supplier	Currency	Rate %	Beginning date	Termination date	12.31.2025		12.31.2024	
					Short Term Carrying amount	Long Term Carrying amount	Short Term Carrying amount	Long Term Carrying amount
Bello Monte	Ch$	6,88	Nov-17	Dec-31	581,362	3,587,906	640,197	-

Total					**948,086**	**4,085,150**	**945,856**	**774,003**

9. Income tax and deferred taxes

Income tax expense comprises the current income tax expense and net variation in the deferred income tax asset or liability during the year. Current taxes and deferred taxes are recognized in profit or loss, except when they relate to items recognized in other comprehensive income or directly recognized in equity, in which case they are also recognized in other comprehensive income or directly in equity, respectively.

Current income taxes

Current income tax is based on the tax profit for the year, and is calculated using the tax rates enacted at the reporting date.

Prepaid taxes and current income tax provisions are recognized in the statement of financial position upon offsetting such prepaid taxes and income tax provisions generated from the same tax jurisdiction and where the relevant tax payment unit is aimed at settling the asset and liability on a net tax basis.

Deferred taxes

The Company recognizes deferred taxes using the statement of position method. Deferred taxes are obtained from temporary differences between the tax base of assets and liabilities, and their reported amounts in the financial statements.

Deferred tax assets and liabilities are measured using substantially enacted tax rates or rates expected to be applied on taxable income in the years the Company expects to receive them or the temporary differences are settled. Deferred tax assets and liabilities are offset when they relate to the income taxes collected by the same tax authority and the relevant company intends to settle its assets and liabilities on a net tax basis.

The carrying amount of deferred tax assets is reviewed at each reporting date and discounted to the extent that it is not probable that sufficient taxable profit will be available to allow the use of a portion or all that deferred tax asset.

a) Income tax recognized in profit or loss for the year

Income tax (expenses) Benefit	2025 ThCh$	2024 ThCh$
Adjustment to prior period current tax	38,979	(269,220)
Other current tax income/(expenses)	(546,734)	(707,433)
Current tax expenses	**(507,755)**	**(976,653)**
Deferred tax income/expenses related to the generation an reversal of temporary differences for current tax		
Deferred tax income/expenses	363,012	65,145
Total	**(144,743)**	**(911,508)**

b) Reconciliation of accounting profit or loss to taxable profit or loss

Reconciliation of tax expenses using the legal rate to tax expenses using the effective rate	2025 ThCh$	2024 ThCh$
Profit before tax	4,850,273	2,404,702
Effective tax rate	27%	27%
Tax expenses using the legal rate	(1,309,574)	(649,270)
Adjustment of prior year tax determination	38,979	(269,220)
Change in deferred taxes	217,152	(330,567)
Dividends received from foreign source	908,699	337,549
Tax income using the effective rate	**(144,743)**	**(911,508)**

On September 29, 2014, Law No. 20.780 was enacted in Chile, establishing a permanent change in the corporate income tax rate of 21% starting from 2014, up to a 27% starting from 2019.

On January 27, 2016, the Act that simplifies the tax reform was passed, which is intended to simplify the income tax system in force from 2017; make adjustments to the value-added tax; as well as to the anti-circumvention rules. Concerning tax system, the proposed amendment considers that Shareholders' corporations (openly and closely held), as in the case of the Company should always be taxed according to the partially-integrated system. Later, this system will be the general taxation regime for companies beginning from the commercial year 2017.

c) Deferred taxes

As of December 31, 2025 and 2024, the detail of accumulated balances of deferred tax assets and liabilities is as follows:

Recognized deferred tax assets related to:	2025 ThCh$	2024 ThCh$
Accrued vacations	772,406	772,399
Adoption of IFRS 16	130,853	39,395
Other	874,596	636,649
Total	**1,777,855**	**1,448,443**
Recognized deferred tax liabilities related to:		
Furniture and equipment	(176,971)	(210,571)
Net amount	**1,600,884**	**1,237,872**

d) Movement in deferred taxes

As of December 31, 2025 and 2024, the detail of movements in deferred tax assets and liabilities is as follows:

ThCh$

2025	Opening balance	Effects recognized in profit or loss	Closing balance
Recognized deferred tax assets related to: Accrued vacations	772,399	6	772,405
Adoption of IFRS 16	39,395	91,459	130,854
Other	636,649	237,948	874,597
Total deferred tax assets	**1,448,443**	**329,413**	**1,777,856**
Recognized tax liabilities to: Furniture and equipment	(210,571)	33,599	(176,972)

2024	Other assignments	Accrued vacations	Total
Opening balance	17,380	2,856,035	2,873,415
Movements:			
Additional obligations	243,050	1,756,532	1,999,582
Obligations used	(242,584)	(1,751,829)	(1,994,413)
Total movements	**466**	**4,703**	**5,169**
Closing balance as of December 31, 2024	**17,846**	**2,860,738**	**2,878,584**

11. Deferred revenue

As of December 31, 2025 and 2024, deferred revenue as follows:

	2025 ThCh$	2024 ThCh$
Services invoiced in advance	125,703	15,366
Services invoiced in advance from related parties	284,996	111,861
Total	**410,699**	**127,227**

	2025 ThCh$	2024 ThCh$
Opening balance as of December 31, 2024	127,227	294,654
Recognized revenue at the beginning of the period	(122,111)	(294,654)
Increase due to invoicing during the year, excluding amounts recognized as revenue during the year	420,191	115,199
Foreign currency translation differences	(14,608)	12,028
Closing balance as of December 31, 2025	**410,699**	**127,227**

12. Dividends paid

The distribution of dividends to the shareholders is recognized as a liability at the end of each year in the separate financial statements, based on the dividend policy established in the by laws and by the shareholders at the Ordinary General Shareholders' Meeting.

Dividends of ThCh$ 4,009,628 relate to dividends paid with a debit to retained earnings as of December 31, 2025.

Dividends of ThCh$ 730,823 relate to dividends paid with a debit to retained earnings as of December 31, 2024.

13. Operating profit

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue from time and material and job contracts is recognized on output basis measured by units delivered, efforts expended, number of transactions processed, etc.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognized based on time elapsed mode and revenue is straight lined over the period of performance.

In respect of other fixed-price contracts, revenue is recognized using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.

Revenue from the sale of distinct internally developed software and manufactured systems and third-party software is recognized upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customization services rendered significantly modifies or customizes the software, these services and software are accounted for as a single performance obligation and revenue is recognized over time on a POC method.

Revenue from the sale of distinct third-party hardware is recognized at the point in time when control is transferred to the customer.

The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third-party products is recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognizes revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer.

Revenue also excludes taxes collected from customers.

The Group's contracts with customers could include promises to transfer multiple products and services to a customer. The Group assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and is reassessed at the end of each reporting period. The Group allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Group exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Group considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Contract fulfilment costs are generally expensed as incurred except for certain software license costs which meet the criteria for capitalization. Such costs are amortized over the contractual period or useful life of license, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognized when there are billings in excess of revenues.

The billing schedules agreed with customers include periodic performance-based payments and / or milestone-based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognizes an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The disaggregation of revenue per nature is as follows:

ThCh$

	Year ended December 31,2025	Year ended December 31, 2024
Consulting services	54,856,515	53,616,130
Sale of equipment and software licenses	53,524	114,817
Total	**54,910,039**	**53,730,947**

The disaggregation of revenue per industry is as follows:

ThCh$

Industry vertical's	Year ended December 31, 2025	Year ended December 31, 2024
Banking, finance and insurance	43,295,367	43,492,763
Manufacture	2,800,385	1,160,471
Retail and consumer products	1,709,533	1,917,855
Communication, Media and Technology	5,302,745	4,916,034
Other	1,802,009	2,243,824
Total	**54,910,039**	**53,730,947**

The disaggregation of revenue per geography is as follows:

ThCh$

Geographic location	Year ended December 31, 2025	Year ended December 31, 2024
Ibero-America	54,910,039	53,730,947
Total	**54,910,039**	**53,730,947**

Geographical revenue is allocated based on customers' location.

Although the Company discloses the aggregate amount of the transaction price not yet recognized as revenue for unsatisfied (or partially satisfied) performance obligations, along with the expected time to recognize revenue, the Company has applied the practical expedient included in IFRS 15.

Accordingly, the Company has not disclosed the aggregated transaction price allocated to the unsatisfied (or partially satisfied) performance obligations that relate to contracts in which recognized revenue corresponds to the value transferred to the client that generally involves time and materials, result-based contracts and events.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors, such as terminations, changes in the scope of the contract, periodic revalidation of estimates, economic factors (changes in the exchange rates, tax laws, etc.). The aggregated amount of the transaction price allocated to unsatisfied (or partially satisfied) performance obligations is ThCh$ 7,902,267 from which 75 % is expected to be recognized as revenue in the next year and subsequent balance. All considerations related to contracts with customers are included in the aforementioned amount.

Changes in unearned and deferred revenue are disclosed in Note 11.

14. Finance income and other income

As of December 31, 2025 and 2024, finance income and other income is as follows:

	2025 ThCh$	2024 ThCh$
Interest on deposits with Banks	315,313	269,482
Interest on Income Tax Refunds	18,908	24,692
Dividend from Subsidiary parties	3,365,942	373,499
Dividend from other Investment	7,337	-
Total	**3,707,500**	**667,673**

15. Operating expenses

As of December 31, 2025 and 2024, Operating expenses are detailed as follows:

	2025 ThCh$	2024 ThCh$
Salaries and employee benefits	(41,923,643)	(40,696,924)
Other operating expenses (a)	(9,334,628)	(9,540,611)
Depreciation and amortization expenses	(1,736,290)	(1,660,157)
Total	**(52,994,561)**	**(51,897,692)**

(a) As of December 31, 2025 and 2024, other operating expenses are as follows:

	2025 ThCh$	2024 ThCh$
Leases	(73,364)	(254,425)
Data transmissions circuits (communications)	(942,505)	(936,205)
Facilities expenses	(628,362)	(620,419)
Marketing and advertising	(64,530)	(57,115)
Office and other expenses	(5,065,998)	(4,679,673)
Subcontractor's expenses	(2,012,443)	(2,466,635)
Travel expenses	(207,726)	(130,684)
Notary and municipal expenses	(154,953)	(145,311)
Advisory services expenses	(129,591)	(122,889)
Bad debts and advances written off, allowances for doubtful trade receivable and advances (Net)	2,535	274,256
Other expenses	(57,691)	(401,511)
Total	**(9,334,628)**	**(9,540,611)**

16. Other non-operating expenses

As of December 31, 2025 and 2024, Other non-operating expenses are detailed as follows:

	2025 ThCh$	2024 ThCh$
Lease Interest	(334,253)	(123,045)
Financial Interest	(39,209)	(48,931)
Interest and Penalties	(13,264)	1,746
Total	**(386,726)**	**(170,230)**

17. Foreign currency translation difference

	2025 ThCh$	2024 ThCh$
Receivables due from/payables due to related parties	14,185	(88,939)
Other foreign currency translation differences	(400,164)	14,935
Total	**(385,979)**	**74,004**

Other differences generated by cash available, receivables and payables in foreign currency.

18. Guarantees committed with third parties

As of December 31, 2025, collaterals and commitments relate to performance bonds issued by Scotiabank Chile (Formerly - BBVA) and Santander, which are detailed as follows:

Customer	Currency	2025	2026	2027	Total
Banco del Estado de chile	UF	46.20	-	-	46.20
Agencia Calidad de la educación	CLP	24,000	180,059	63,051	267,110

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF:
TATASOLUTION CENTER S.A

Opinion

We have audited the financial statements of Tatasolution Center S.A. (hereinafter referred to as the "Company") which comprise the statement of financial position as of December 31, 2025, and the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, as well as the explanatory notes to the financial statements that include a summary of material accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Tatasolution Center S.A., as at December 31, 2025, and its profit or loss and other comprehensive income and its cash flows for the year ended, in accordance with IFRS Accounting Standards issued by the International Accounting Standards Board.

Basis of the opinion

We conducted our audit in accordance with International Standards on Auditing (ISA). Our responsibilities under those standards are described below in the *"Auditor's Responsibilities for the Audit of Financial Statements"* section of our report.

We are independent of the Company in accordance with the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements applicable to our audit in Ecuador. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

We consider that the audit evidence we have obtained provides a sufficient and appropriate basis for our audit opinion.

Other information

Management is responsible for the other information. The other information comprises the Management Report, which is expected to be made available to us after the date of this auditor's report. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained, we conclude that there is a material misstatement of the other information, we are required to report that fact.

Responsibilities of management and those charged with governance with respect to the financial statements.

Management is responsible for the preparation and fair presentation of the accompanying financial statements in accordance with IFRS Accounting Standards, and for the internal control necessary to enable the preparation of financial statements free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing related matters as appropriate and using the going concern basis of accounting, unless Management intends to liquidate the Company or cease operations, or has no realistic alternative but to do so.

Management and those charged with governance of the Company are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect material misstatements when they exist. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these financial statements.

As part of an audit in accordance with the International Standards on Auditing, we apply our professional judgment and maintain an attitude of professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of the accounting policies used and the reasonableness of the accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a fair presentation.

We communicate with those charged with the Company's governance regarding, among other matters, the scope and timing of the planned audit and significant audit findings, as well as any significant internal control deficiencies that we identify in the course of the audit.

SEE NOTES TO THE ACCOMPANYING FINANCIAL STATEMENTS.

Notes forming part of the financial statements

1. General information

Tatasolution Center S.A., a subsidiary of Tata Consultancy Services Chile S.A., was incorporated in Ecuador on December 28, 2006 and began operations on June 1, 2007. The Company's principal activity is the provision of IT services, software development and management services and Business Processing Operations (BPO), principally to financial sector institutions.

The principal client of Tatasolution Center S.A. is Banco Pichincha C.A., representing approximately 77% of its total revenues. Among the most significant services provided to the bank are software development services and maintenance and business processing operations (BPO).

Information included in these financial statements is the responsibility of Company´s management.

2. Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting IFRS Accounting Standards, as issued by the International Accounting Standard Board (IASB).

3. Basis of preparation

These financial statements have been prepared on historical cost basis except for certain financial instruments and defined benefits plans which are measured at fair value or amortized cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cashflow has been prepared using indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid and interest and dividend received as cash flow from operating activities. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional currency of the Company is the United States of America dollar (U.S. dollar). The functional currency of the Company is the currency of the primary economic environment in which the entity operates. Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policy information used in preparation of the financial statements have been discussed in the respective notes.

4. Use of estimates and judgements

The preparation of financial statements in conformity with the recognition and measurement principles of International Financial Reporting Standards (IFRS) requires management to make estimates and judgements that affect the reported balances of assets and liabilities, disclosures of contingent liabilities at the date of the financial statements and the reported amounts of income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting judgements, estimates and assumptions in preparation of its financial statements:

a. Revenue recognition

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

b. Useful lives of property, plant and equipment

The company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods. Refer note 10(a)

c. Impairment of financial assets (other than at fair value)

Measurement of impairment of financial assets require use of estimates and judgements, which have been explained in the note on financial assets, financial liabilities and equity instruments, under impairment of financial assets (other than at fair value). Refer note 8

d. Provision for income tax and deferred tax assets

The Company uses judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

e. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgement to assess contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

f. Employee benefits

The accounting of employee benefit provisions depends on various factors that are determined using an actuarial calculation based on various assumptions. The assumptions used in determining the net cost of the benefits include a discount rate. Any change in assumptions impacts the carrying amount of the employee benefit provisions.

The actuary contracted by the Company to perform the actuarial calculation uses the discount rate, the mortality rate and the turnover rate at the end of each year as reported by Company management. The discount rate is the interest rate to be used to determine the present value of estimated expected future cash flows that will be required to comply with the benefit obligation, which is determined by reference to market yields, at the end of the year, corresponding to high quality corporate bonds in the currency in which the profits will be paid.

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

g. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. Nature and purpose of reserves

a. Legal Reserve

The Companies' Law requires that at least 10% of annual income be appropriated as a legal reserve until such reaches a minimum of 50% of share capital. This reserve is not available for payment of dividends but may be capitalized in its entirety.

b. Retained Earnings

A summary of retained earnings is as follows:

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Retained Earnings – distributable	12,624	11,245
Accumulated Losses (*)	(140)	(140)
Total	**12,484**	**11,105**

*Generated on first time adoption of IFRS

Accumulated earnings from first-time adoption of IFRS - include amounts resulting from adjustments arising from first-time adoption of IFRS. The debt balance may be absorbed by accumulated earnings and those of the previous terminated year, if any, in accordance with the Resolution issued by the Superintendence of Companies on October 14, 2011.

6. Offsetting balances and transactions

As a general rule neither assets and liabilities nor income and expenses are offset in the financial statements, except in those cases in which compensation is required or permitted under a standard and such presentation reflects the essence of the transaction.

Income and expenses originating in transactions that, contractually or by statute, provide for the possibility of offset and that the Company has the intention of settling for their net amount or realizing the assets and proceeding to pay the liability simultaneously are presented net in profit and loss.

7. Recent accounting standards

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

Amendments to IFRS 9 and IFRS 7[1]

IFRS 1: First-time Adoption of International Financial Reporting Standards.

IFRS 7: Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7

IFRS 9: Financial Instruments

IAS 7: Statement of Cash Flows

IFRS 18 – Presentation and Disclosures in Financial Statements[2]

IFRS 19 – Subsidiaries without Public Accountability: Disclosures[2]

Effective for annual periods beginning on or after January 1, 2026.

Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

IFRIC 23 Interpretation Uncertainty over Income Tax Treatment

IFRIC 23 interpretation addresses the accounting for income taxes when there is uncertainty over tax treatments. It clarifies that an entity must consider the probability that the tax authorities will accept a treatment retained in its income tax filings, assuming that they have full knowledge of all relevant information when making their examination. In such a case, the income taxes shall be determined in line with the income tax filings.

Application of IFRIC 23

The Company reviewed its income tax treatments in order to determine whether IFRIC 23 interpretation could have an impact on the financial statements. In that respect, the Company observed that there are no continuous instances of any uncertain tax treatment in the past and on that basis, it is reasonable to conclude that all the tax treatments are accepted by the tax officer and hence IFRIC 23 is not applicable.

8. Financial assets, financial liabilities and equity instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes financial liabilities when, and only when, the company's obligations are discharged, cancelled or have expired.

Notes forming part of the financial statements

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

As of December 31, 2025, the line item "Bank deposits" includes a certificate of deposit held with a local financial institution for USD 3,500 thousand, with a term of 182 days and an annual interest rate of 5.65%.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortized cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a Company of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for expected credit losses, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Notes forming part of the financial statements

a) Cash and Cash Equivalents

Cash and cash equivalents consists of the following

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Current account balances with banks	716	348
Cash on hand	-	-
Deposits with banks (1)	18,160	19,766
Total	**18,876**	**20,114**

(1) At December 31, 2025, deposit with banks correspond to certificates of deposit and sweep account with local financial institutions maturing up to January and February (up to January and February 2025 for year 2024) with an average interest rate of 5.30% and 5.40% respectively (6.89%, 6.80% and 7.15% for year 2024).

b) Trade Receivables – Billed

Trade receivables - Billed – Current

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Trade receivables - Billed	192	381
Less: Allowances for expected credit losses	(91)	(91)
Total	**101**	**290**

Balances, beginning of year	359	1,189
Provision for the year	1,243	330
Payment made	(330)	(1,160)
Balances, end of year	**1,272**	**359**

f) Financial instruments by category

The carrying value of financial instruments by categories as at December 31, 2025 is as follows:

(In thousands of US dollars)

2025	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	18,876	18,876
Bank deposits	3,500	3,500
Earmarked balances with banks	202	202
Trade receivables		
Billed	101	101
Unbilled	2,021	2,021
Other financial assets	210	210
Total	**24,910**	**24,910**
Financial liabilities		
Trade and other payables	763	763
Lease liabilities	700	700
Other financial liabilities	1,739	1,739
Total	**3,202**	**3,202**

The carrying value of financial instruments by categories as at December 31, 2024 is as follows:

(In thousands of US dollars)

2024	Amortised Cost	Total carrying value
Financial assets		
Cash and cash equivalents	20,114	20,114
Earmarked balances with banks	447	447
Trade receivables		
Billed	290	290
Unbilled	1,680	1,680
Other financial assets	229	229
Total	**22,760**	**22,760**
Financial liabilities		
Trade and other payables	968	968
Lease liabilities	961	961
Other financial liabilities	1,079	1,079
Total	**3,008**	**3,008**

Carrying amounts of cash and cash equivalents, trade receivables, and trade payables as at December 31, 2025 and 2024 approximate the fair value due to their nature. Carrying amounts of bank deposits, earmarked balances with banks, other financial assets, other financial liabilities which are subsequently measured at amortised cost also approximates the fair value due to their nature in each of the periods presented. Fair value measurement of lease liabilities is not required.

g) Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

h) Financial risk management

The Company is exposed primarily to credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

  The Company is not exposed to foreign currency exchange rate risk.

- **Interest rate risk**

  The company's investments are primarily in fixed rate interest bearing investments. Hence, the Company is not significantly exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to credit risk consist of trade receivables, cash and cash equivalents, and other financial assets. Cash and cash equivalents and include an amount of USD 18,160 thousand held with a Bank in Ecuador having high credit rating which are individually in excess of 8% or more of the Company's total cash and cash equivalents as at 31st December' 2025. None of the other financial instruments of the Company result in material concentration of credit risk.

- **Exposure to credit risk**

  The carrying amount of financial assets and contract assets represents the maximum credit exposure. The maximum exposure to credit risk was USD 24,910 thousand and USD 23,020 thousand as at December 31, 2025 and 2024, respectively, being the total of the carrying amount of balances with banks, trade receivables, contract assets and other financial assets.

Company's exposure to customers is diversified, and single customer which contributes individually to more than 100% of outstanding trade receivable and contract assets as at December 31, 2025 and December 31, 2024, respectively are as follows:

	As at December 31, 2025		As at December 31, 2024	
	Total trade receivables and Contract Assets	Percentage	Total trade receivables and Contract Assets	Percentage
Customer A	2,050	75%	1,740	78%
Customer B	120	4%	346	16%
Customer D	118	4%	76	3%
Customer C	19	1%	3	0%
Customer E	408	15%	-	0%

Geographic concentration of credit risk

Geographic concentration of trade receivables (gross and net of allowances) and contract assets is as follows:

	As at December 31, 2025	As at December 31, 2024
	Net Percentage	Net Percentage
Ibero America	99%	98%
Americas	1%	2%

Geographical concentration of trade receivables (gross and net allowances) and contract assets is allocated based on the location of the customers.

The allowance for lifetime expected credit loss on trade receivables for the years ended Dec 31, 2025 and 2024 amounted to USD 91 thousand in both years. No movements were recorded in the provision during the years ended December 31, 2025 and 2024; accordingly, the balance remained unchanged in both periods.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generated sufficient cash flows from operations to meet its financial obligations including lease liabilities as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as at:

(In thousands of US dollars)

As at December 31, 2025	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities					
Trade & other payables	763	-	-	-	763
Lease liabilities	281	183	236	-	700
Other financial liabilities	1,739	-	-	-	1,739
Total	**2,783**	**183**	**236**	**-**	**3,202**

(In thousands of US dollars)

As at December 31, 2024	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities					
Trade & other payables	968	-	-	-	968
Lease liabilities	307	307	445	-	1,059
Other financial liabilities	1,079	-	-	-	1,079
Total	**2,354**	**307**	**445**	**-**	**3,106**

i) Equity instruments

The authorised, issued, subscribed and fully paid up share capital consist of following:

Paid-in share capital comprises 3,000,800 shares with a nominal value of USD1.00.

Fully paid equity shares, which have a par value of USD3,000,800 (USD 1) each carry one vote per share and have a right to dividend. In the event of liquidation of the Company, the holders of shares are eligible to receive the remaining assets of the Company, after distribution of all preferential amounts, in proportion of their shareholding.

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Authorised		
Equity shares of USD1 each (3,000,800 shares)	3,001	3,001
	3,001	**3,001**
Issued, Subscribed and Fully paid up		
Equity shares of USD1 each (3,000,800 shares)	3,001	3,001
	3,001	**3,001**

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

9. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the

straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the company is as follows:

(In thousands of US dollars)

	Additions for the year ended December 31, 2025	Net carrying amount as on December 31, 2025
Buildings	1	670
Total	**1**	**670**

(In thousands of US dollars)

	Additions for the year ended December 31, 2024	Net carrying amount as on December 31, 2024
Buildings	720	941
Total	**720**	**941**

Depreciation on right-of-use asset is as follows:

(In thousands of US dollars)

	Year ended December 31, 2025	Year ended December 31, 2024
Buildings	276	203
Security Deposit	1	-
Total	**277**	**203**

Interest on lease liabilities is USD 42 thousand and USD 34 thousand for the years ended on December 31, 2025 and 2024, respectively.

The Company incurred USD 49 thousand and USD 61 thousand for the years ended December 31, 2025 and 2024, respectively, towards expenses relating to short-term leases and leases of low-value assets.

The total cash outflow for leases is USD 268 thousand and USD 287 thousand for the years ended December 31, 2025 and

2024, respectively, including cash outflow for short-term leases and leases of low-value assets.

Lease contracts entered by the company majorly pertains for buildings taken on lease to conduct its business in the ordinary course. The company does not have any lease restrictions and commitment towards variable rent as per the contract.

10. Non-financial assets and non-financial liabilities

a) Property, plant and equipment

The Company recognises the cost of an item of property, plant and equipment as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can measured reliably.

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight line basis so as to expense the cost less residual values over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type Of Asset	Method	Useful life (in years)
Freehold building	Straight line	20
Computer equipment	Straight line	4
Leasehold improvements	Straight line	Lease period
Furniture, fixtures and office equipment	Straight line	5 and 10
Automobiles	Straight line	5

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Notes forming part of the financial statements

Property, plant and equipment consist of the following:

(In thousands of US dollars)

	Leasehold improvements	Computer equipment	Furniture and fixtures	Office equipment	Plant and machinery	Total
Gross block As at Dec 31, 2024	464	2,730	216	658	183	4,251

Total						**1,482**

b) Other intangible assets

Intangible assets purchased including acquired in business combination, are measured at cost as at the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licences and customer-related intangibles.

Following table summarises the nature of intangibles and their estimated useful lives:

Type of asset	Useful lives
Rights under licensing agreement and software licences	Lower of licence period and 2-5 years
Customer-related intangibles	3 years

Intangible assets are amortized on a straight line basis over the period of its economic useful life.

Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value¬in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

c) Other Assets

Other assets - Current

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Prepaid expenses	4	16
Advance to suppliers	1	8
Tax Credit Entitlements	-	-
Contract assets	615	260
Contract fulfillment costs (1)	3	3
Total	**623**	**287**

(1) Contract fulfillment costs of USD 3 thousand and USD 3 for the years ended December 31, 2025 and 2024, respectively, have been amortized in the profit or loss. Refer note 11 for changes in contract assets.

d) Other liabilities- Current

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Indirect tax payable and other statutory liabilities	1,306	1,660
Total	**1,306**	**1,660**

11. Revenue recognition

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.

- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of- completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of the licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there are billings in excess of revenues.

The billing schedules agreed with customers could include periodic performance based payments and/or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals, and geography.

Revenue disaggregation by nature of services is as follows:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Consultancy services	40,992	38,989
Sale of equipment and software licences	333	137
Total	**41,325**	**39,126**

Revenue disaggregation by industry vertical is as follows:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Banking, Financial Services	39,099	37,193
Communication, Media & technology	1,005	1,172
Consumer Business	413	144
Manufacturing	10	19
Others	798	598
Total	**41,325**	**39,126**

Revenue disaggregation by geography is as follows:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Ibero America	41,138	39,091
America	187	35
Total	**41,325**	**39,126**

Geographical revenue is allocated based on the location of the customers.

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially satisfied) performance obligations, along with the broad time band for the expected time to recognise those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is USD 4,347 thousand out of which 100% is expected to be recognised as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in contract assets are as follows :

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Balance at the beginning of the year	260	55
Invoices raised that were included in the contract + assets balance at the beginning of the year	(260)	(55)
Increase due to revenue recognised during the - year excluding amounts billed during the year	615	260
Balance at the end of the year	**615**	**260**

Changes in unearned and deferred revenue are as follows:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Balance at the beginning of the year	-	427
Revenue recongnized that was included in the		
- unearned and deferred revenue balance at the beginning of the period	-	(36)
Increase due to invoicing during the year		
+ excluding amounts recognized as revenue during the year	(40)	(391)
Balance at the end of the year	**(40)**	**-**

12. Cost recognition

Costs and expenses are recognised when incurred and have been classified according to their primary functions in the following categories:

The costs of the Company are broadly categorized into employee benefits expenses, depreciation and other operating expenses. Employee benefits expenses include employee compensation, allowances paid, contribution to various funds and staff welfare expenses. Other operating expenses mainly include fees to external consultants, facility expenses, travel expenses, cost of equipment and software licenses, communication expenses, bad debts, and other expenses.

Other Operating expenses

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Bad debts and advances written off, allowances for expected credit losses	-	16
Communication Expenses	259	181
Cost of equipment and software licences	(132)	132
Facility expenses	525	700
Fees to external consultants	967	1,329
Other expenses	2,727	2,878
Travel expenses	210	234
Total	**4,556**	**5,470**

Refer note 15 for function wise bifurcation of employee cost

Details of costs and expenses by their function are as follows:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Cost of revenue	26,014	25,464
Selling, general and administrative expenses	9,337	13,580
Total	**35,351**	**39,044**

13. Other income

a. Finance and other income

Interest income is recognised using effective interest method.

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024

Net gain/ (loss) on disposal of property, plant and equipment	(2)	4
Others	56	9
Total	**54**	**13**

14. Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax - The tax currently payable is based on taxable profit for the year. Taxable profit differs from reported profit because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates enacted at the end of the reporting period.

Deferred taxes - Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that the Company will have taxable profits available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The Company offsets deferred tax assets against deferred tax liabilities when, and only when, there is a legally enforceable right to set off from the taxation authority amounts recognised in these items, and when they relate to income taxes levied and the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred income tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Current and deferred taxes

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to a transaction or event that is recognised outside profit or loss, whether in profit and loss or directly in equity, in which case the tax is also recognised outside profit or loss, or where they arise from the initial accounting for a business combination.

Notes forming part of the financial statements

Current year assets and liabilities - A summary of current asset and liability taxes is as follows

(In thousands of US dollars)

		As at December 31, 2025	As at December 31, 2024
Tax credit on income tax withholdings at source and total			
Current income tax withholdings	US$	-	-
Non-current income tax withholdings		449	796
		449	**796**
Current tax liabilities:			
Value Added Tax - VAT payable and withholdings		418	481
Income tax payable		67	-
Income tax withholdings at source payable		254	269
Contributions and other taxes payables		97	376
		836	**1,126**

Tax reconciliation - current income tax - A reconciliation between profit (loss) according to the financial statements and the current income tax expense is as follows:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Profit before taxes	7,044	1,871
Local Income tax rate	25%	25%
Expected income tax expense	1,761	468
Tax effect of adjustments to reconcile expected income tax expense to reported income tax expense		
Tax pertaining to prior years	-	-
Tax on income at different rates (2)	(49)	(17)
Others (net) (3)	95	471
Current income tax expense (1)	1,807	922
Deffered Income Tax Expense	(129)	(525)
Income tax charged to profit and loss:	**1,678**	**397**
Effective Tax Rate	24%	21%

In accordance with current legislation, income tax was determined using a rate of 25% on profits subject to distribution (25% for 2024) and 15% on reinvested profits for some industries.

(1) For year 2025 The Company recorded USD 1,807 thousand for Current Tax and USD (129) thousand for Deffered Income Tax and For year 2024 USD 922 thousand and USD (525) thousand respectively in the income statement, corresponding to the income tax caused.

(2) For year 2025 and 2024, Applied reduction on income tax rate for new investments (from 25% to 22%)

(3) For year 2025, net value between temporary and permanent differences by USD 129 thousand and USD (34) thousand, respectively. For year 2024, net value between temporary and permanent differences by USD 525 thousand and USD (54) thousand, respectively

Tax returns for years 2022, 2023, 2024 and 2025 are subject to revision.

Movement in tax credit- Movements in tax credit were as follows:

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Balances, beginning of year	(465)	-
Provision for the year	(1,275)	(1,387)
Payment made	1,740	922
Balances, end of year	**-**	**(465)**

Payments made - Comprise withholdings at source and payment of the income tax balance due at beginning of year.

Deferred tax balances- Movements for deferred tax assets were as follows:

(In thousands of US dollars)

		Balances at beginning of year	Recognized in profit and loss	Balances at end of year
Year 2025:				
Deferred tax assets in relation to:				
Provision for bonuses	US$	35	1	36
Provision for bonuses (Giftcards to employees)		4	1	5
Retirement benefits		1,188	119	1,307
Other provisions		34	7	42

(In thousands of US dollars)

		Balances at beginning of year	Recognized in profit and loss	Balances at end of year
Year 2024:				
Deferred tax assets in relation to:				
Provision for bonuses	US$	59	(24)	35
Provision for bonuses (Gifcards to employees)		2	2	4
Retirement benefits		666	522	1,188
Other provisions		8	26	34
	US$	**735**	**526**	**1,261**

Direct tax contingencies

(a) Year 2015 Income Tax Assessment

On March 13, 2020, the Regional Director of the Internal Revenue Service (SRI) issued a Determination Order for year 2015, requiring the Company to pay additional income tax of USD 2,635 thousand.

On April 24, 2021, TATA filed a lawsuit before the DTLC against the income tax assessment of 2015. On June 7, 2021, DTLC suspended all effects of the income tax assessment. On July 19, 2021, IRS filed its response.

On August 24, 2022, the preliminary hearing took place.

On July 25, 2024, USD 430 thousand was paid to the IRS for the values accepted by TATA.

As of December 31, 2025, the Company has generated a guarantee for USD 202 thousand.

Transfer Pricing

In accordance with current legislation, taxpayers subject to income tax and that have performed operations with overseas and/or local related parties within the same fiscal period for an accumulated amount exceeding USD10 million are obliged to file a Transfer Pricing study to verify that such operations have been undertaken at arm's length prices.

Company operations with overseas related parties during the years 2025 and 2024, did not exceed the referred amount.

The Company Management based on the preliminary diagnosis performed together with its tax advisors for 2025 transactions, does not expect any adjustment to the expense or current tax liability, however, once said study is finished it may be determined if operations with related parties for the year ended at December 31, 2025, have met the arm's length principle.

15. Employee benefit

Defined benefits: For defined benefits, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at the date of each statement of financial position.

The service cost is recognised in profit and loss for the year in which such is generated, as well as the financing interest generated on the defined benefit obligation.

The new measurements, which include actuarial gains and losses, are recognised in the statement of financial position with a charge or credit to other comprehensive income in the period in which they occur.

Recognition of actuarial gains and losses in other comprehensive income is recognised immediately in accumulated earnings and is not reclassified to profit or loss for the period.

Employee profit-sharing - The Company recognises a liability and an expense for employee profit-sharing in Company income. This benefit is calculated based on 15% of pre-tax income in accordance with current legislation.

Executive bonuses - The Company recognizes an expense for bonuses paid to its principal executives and commercial area personnel. Bonus calculations are paid based on goals and compliance with key performance indicators.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Compensated absences

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the date of statement of financial position.

Employee benefit expenses consist of the following:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Salaries, incentives and allowances	23,016	24,521
Contributions to provident and other funds	5,799	7,410
Staff welfare	1,177	1,034
	29,992	**32,965**

a) Employee benefit obligation - Current

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Compensated absenses	379	477
Other employee benefit obligations	20	15
	399	**492**

Other employee benefit obligation: Company provisioned USD 16 thousand at the end of December 2025 (USD 15 thousand at the end of December 2024) to be paid as long service awards and start of the month recognition according to corporate policies.

b) Employee benefit obligation - Non Current

Defined Benefit Obligations

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
Retirement	3,893	3,338
Severance	1,602	1,464
	5,495	**4,802**

Retirement - In accordance with the Labor Code, employees with twenty-five or more years' continuous or interrupted service are entitled to receive pensions from their employers without prejudicing their right as affiliates to receive pensions from the Ecuadorian Social Security Institute.

Movements in the present value of the retirement obligation were as follows:

(In thousands of US dollars)

	Year ended December 31, 2025	Year ended December 31, 2024
Balances, beginning of year	3,338	3,539
Cost of the services	751	601
Cost of interest	160	141
Actuarial losses (gains) Reversal provision (1)	(517)	(1,106)
Actuarial losses (gains) current year	161	163
Balances, end of year	**3,893**	**3,338**

(1) Effects: USD (584) thousand in P&L and USD 67 thousand in OCI.

Severance - In accordance with the Labor Code, when an employee's labor contract is terminated either by the employee of the employer, the Company shall pay an amount equivalent to 25% of their last monthly salary for each year of service.

Movements in the present value of the severance obligation were as follows:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Balances, beginning of year	1,464	1,868
Cost of the services	113	93
Cost of interest	76	70
Actuarial losses (gains)	158	(57)
Reversal Provision	-	(7)
Short provision	313	678
Benefits paid	(521)	(1,181)
Balances, end of year	**1,603**	**1,464**

The actuarial calculations for the present value of the accrued defined benefits were performed at December 31, 2025 and 2024 by an independent actuary. The present value of defined benefit obligations (DBO) and the current service cost and the previous service cost were calculated using the projected credit unit method.

Under this method pension benefits must be attributed to the employee's period of service and based on the plan formula so that the same benefit amount is attributed to each year of service based on an actuarial hypothesis to calculate the present value of the referred benefits.

This hypothesis reflects the value in money over time, the salary increases and the probability of paying a pension.

Actuarial gains and losses arising from adjustments for experience and changes in actuarial assumptions are credited or charged to other comprehensive income.

The significant actuarial assumptions used to determine the defined benefit obligations are the discount rate, expected salary increases and mortality.

The principal assumptions used for the actuarial calculations are as follows:

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
	Percentage	Percentage
Discount rate (s)	5.37	5.44
Expected salary increase rate (s)	1.75	1.90
Turnover rate	18.28	32.96

The sensitivity analysis included below has been developed based on reasonably expected changes that may occur at the end of the reference period for the respective assumptions.

The sensitivity analysis presented above may not be representative of a real change in the defined benefit obligation, since it is unlikely that any change in the assumptions would occur.

(In thousands of US dollars)

	As at December 31, 2025	As at December 31, 2024
DBO variance (discount rate - (0.5%)	237	191
DBO variance (discount rate + (0.5%)	(222)	(217)
DBO variance (salary increase + (0.5%)	194	176
DBO variance (salary increase - (0.5%)	(185)	160

The sensitivity analysis presented above may not be representative of a real change in the defined benefit obligation, since it is unlikely that any change in the assumptions would occur in isolation from others (some of the assumptions may be correlated).

Note that the present value of the defined benefit obligation included in the developed sensitivity is calculated using the projected unit credit method, the same used in the calculation of the defined benefit obligation recognised in the statement of financial position.

Amounts recognised in the statement of profit/ loss and other comprehensive income for the referred defined benefit plans are as follows:

(In thousands of US dollars)

	For the year ended December 31, 2025	For the year ended December 31, 2024
Statement of profit and loss		
Service cost	906	694
Interest cost	295	211
	1,201	**905**
Other comprehensive income:		
Actuarial losses (gains) and subtotal	386	291
	386	**1,196**

16. Commitments and contingencies

(a) Capital Commitments - The Company has contractually committed (net of advances) USD 18 thousands and USD 22 thousands value as at December 31, 2025 and 2024 respectively, for purchase of property, plant and equipment.

(b) Contingencies

(a) Direct tax matters

Refer note on direct tax contingencies in Note 14 income taxes

(b) Indirect tax matters

There are no contigency in relation to Indirect tax matters.

DIRECTORS' REPORT

For the period January 1, 2025 to December 31, 2025

Principal activities and business review including principal risks and uncertainties

The business purpose of Tata Consultancy Services Bulgaria EOOD ("The Company") is to provide its main customer, Xerox with a range of services across Leasing, Accounting, Pricing and FP&A functions, while also continuing to expand the services Tata Consultancy Services Bulgaria EOOD can offer Xerox across its other capabilities.

The principal key performance indicators used by management to monitor performance are as follows:-

- Actual financial results versus forecasts
- Regulatory filings
- Employee turnover
- Customer satisfaction

The principal risks and uncertainties facing the company are as follows:

- the movement in currency rates between USD and BGN.
- increase in labour costs in the local market.
- Economic impact of war in Ukraine.

Results and dividends

Profit on ordinary activities before taxation for the period ended 31 December, 2025 amounted to BGN 844,360.

The directors do not recommend the payment of a dividend.

Future developments

The company is expected to increase its level of operations throughout the year 2026.

Events since the end of the financial year

There have been no significant events affecting the company since the balance sheet date.

Financial Risk Management

The Company is exposed to financial risk through both its financial assets and liabilities. The most important components of this financial risk for the Company are credit risk, foreign exchange risk, interest rate risk and liquidity risk.

Risk Management Framework

The Company's internal organisational and management structure and its system of internal financial reporting to the board of directors is the basis for identifying the predominant source and nature of the differing risks facing the entity.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Credit risk is controlled by the Company by ensuring credit limits and the credit worthiness of customers are monitored on an ongoing basis.

The Company has identified the credit risks associated with the cash and deposits it has placed with third party banking institutions.

Liquidity Risk

Liquidity risk is the risk that cash may not be available to pay obligations when due at a reasonable cost, the Company maintains a significant proportion of its funds in liquid form and maintains sufficient liquidity even at unexpected levels of demand.

Interest Rate Risk

Interest rate risk is the risk that the value/future cash flows of a financial instrument will fluctuate because of changes in interest rates. Based on current company operations it is not envisaged that the entity is exposed to significant interest rate risk.

Foreign Exchange Risk

Tata Consultancy Services Bulgaria EOOD conducts business in foreign countries with certain transactions denominated in currencies other than the functional currency of the Company (BGN). The purpose of the Company's foreign currency management is to manage the effect of exchange rate fluctuations on transactions denominated in foreign currencies (US dollars). The Company has an internal hedging agreement in place to mitigate its exposure, this is used for internal management reporting.

Accounting Records

The directors believe that they have complied with the requirements the Companies Act in Bulgaria with regard to adequate accounting records by employing accounting personnel with appropriate expertise and by providing adequate resources to the financial function. The accounting records of the Company are maintained at Sofia Business Park, Building 3, 1st floor, 1766 Sofia Bulgaria.

The names of the persons who were directors for the period ended 31 December, 2025 are set out below:

1. **Amit Kapur**
   (Director)
2. **Rabindran Vennimalai**
   (Director)
3. **Sapthagiri Chapalapalli**
   (Director)

Directors' and secretary's interests

The directors who held office at 31 December, 2025 had no disclosable interests in the shares, debentures or loan stock of the Company or group companies.

Political contribution

The Company made no political contributions or incurred any political expenditure during the period.

Directors Compliance Statement

The directors, in accordance with the Companies Act in Bulgaria, acknowledge that they are responsible for securing the Company's compliance with certain obligations.

The directors confirm that:

- A compliance policy statement has been drawn up setting out the Company's policies with regard to such compliance;
- Appropriate arrangements or structures that are designed to secure material compliance with the Company's relevant obligations have been put in place; and
- A review of the arrangements and structures referred to above has been conducted during the financial period ended 31 December, 2025.

Relevant audit information

The directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the Company's statutory auditors are aware of that information. In so far as they are aware, there is no relevant audit information of which the Company's statutory auditors are unaware.

Going concern

Management has made an assessment of the Company's ability to continue as a going concern taking into account all available information about the future which is at least, but not limited to, twelve months from the end of the reporting period. Based on the analysis they have concluded that the Company has sufficient resources to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT

TO THE BOARD OF DIRECTORS
TATA CONSULTANCY SERVICES BULGARIA EOOD

SPECIAL PURPOSE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying special purpose financial statements of Tata Consultancy Services Bulgaria EOOD ('the Company'), which comprise the statement of financial position as of 31st December 2025, and the related statement of profit or loss and other comprehensive income, changes in equity, and cash flow for the year ended on 31st December 2025, and the related notes to the special purpose financial statements. The special purpose financial statements have been prepared by the management as described in Note 2 to the Special Purpose financial statements in accordance with the International Financial Reporting Standards (IFRS).

In our opinion, the special purpose financial statements referred to above present fairly, in all material respects, the financial position of the Company as of 31st December 2025, and its financial performance and its cash flows for the year then ended in accordance with IFRS as issued by the International Accounting Standard Board.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) generally accepted in India. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Special purpose financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Special purpose financial statements under the provisions of the Act and the Rules there under and fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our opinion.

Management's Responsibility for special purpose Financial Statements

The Company's management and Board of Directors are responsible for preparation of these Special purpose financial statements that give a true and fair view of the state of affairs, profit/ loss and (including other comprehensive income), changes in equity, cash flows of the Company in accordance with the IFRS. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special purpose financial statements that give a true and fair view and are free from misstatement, whether due to fraud or error.

In preparing these Special purpose financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility

Our objectives are to obtain reasonable assurance about whether the Special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. We are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

  Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue going concern.
- Evaluate the overall presentation, structure statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Restriction on Distribution and Use

Audit of this special purpose financial statements, in accordance with IFRS of the Company for the period ended 31st December 2025 have been prepared for the limited purpose of consolidated financial statements, to comply with the Section 129(3) of the Companies Act 2013, of Tata Consultancy Services Ltd. for the year ended 31st December 2025. Our report is strictly intended solely for the information and use by TCS for the preparation of consolidated financial statements and for the use at their annual general meetings for the information of their members. It is not intended to be and should not be used by anyone other than specified parties.

Notes forming part of the financial statements

1. CORPORATE INFORMATION

Tata Consultancy Services Bulgaria EOOD ("the Company") provides IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions. This is delivered through its unique Location-Independent Agile delivery model recognised as a benchmark of excellence in software development. The Company will provide F&A operations supporting EU region for Xerox for the F&A consolidation / transformation initiative.

The Company was incorporated on 31 August, 2021 in Bulgaria. The registered address of the company is Sofia Business Park, Building 3, 1st Floor, 1766 Sofia, Bulgaria. Tata Consultancy Services Bulgaria EOOD is a 100% subsidiary of Tata Consultancy Services Ireland Limited.

2. STATEMENT OF COMPLIANCE

These special purpose financial statements have been prepared in accordance with the International Financial Reporting Standards (referred to as "IFRS") as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time. for sole purpose of inclusion for Tata Consultancy Services Limited (Intermediate Holding Company) under the requirement of Section 129(3) of the Companies Act, 2013 ('the Act'). The presentation currency of these financial statements is BGN.

3. BASIS OF PREPARATION

These financial statements have been prepared on historical cost basis except for certain financial instrument which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customer and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

Cash flows have been prepared using the indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional and reporting currency of the Company is Bulgarian lev ("BGN").

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policy information used in preparation of the financial statements have been discussed in the respective notes.

4. USE OF ESTIMATES AND JUDGMENTS

The preparation of these financial statements is in conformity with the recognition and measurement principles of International Financial Reporting Standards (IFRS) requires management to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the years presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting estimates in preparation of its financial statements:

a. Revenue recognition

Revenue for fixed-price contracts are recognised using percentage-of-completion method. The Company uses judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

The Company exercises judgement for identification of performance obligations, determination of transaction price, ascribing the transaction price to each distinct performance obligation and in determining whether the performance obligation is satisfied at a point in time or over a period of time. These judgements have been explained in detail under the revenue recognition note (Refer note.9).

b. Useful lives of property, plant and equipment

The Company reviews the useful lives of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

c. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d. Provision for income tax and deferred tax assets

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

e. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgements to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

f. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

g. Employee benefits

The accounting of employee benefit plans in the nature of defined benefit requires the company to use assumptions. These assumptions have been explained under employee benefits note.

Notes forming part of the financial statements

5. NATURE AND PURPOSE OF RESERVES

a. Retained earnings

This reserve represents undistributed accumulated earnings of the Company as on the date of statement of financial position.

6. RECENT ACCOUNTING STANDARDS

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective

Amendments to IFRS 9 and IFRS 7[1]

Annual Improvements to IFRS Accounting Standards[1] – Amendments to

IFRS 1 – First-time Adoption of International Financial Reporting Standards

IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7

IFRS 9 – Financial Instruments

IFRS 10 – Consolidated Financial Statements

IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements[2]

IFRS 19 – Subsidiaries without Public Accountability: Disclosures[2]

[1]Effective for annual periods beginning on or after January 1, 2026.

[2]Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments(Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9.The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Group will evaluate the amendments and implement them accordingly.

In December 2024, the IASB issued targeted amendments to help companies better report the financial effects of nature-dependent electricity contracts, which are often structured as power purchase agreements (PPAs). The amount of electricity generated under these contracts can vary based on uncontrollable factors such as weather conditions. Current accounting requirements may not adequately capture how these contracts affect a company's performance. The amendments include: clarifying the application of the 'own-use' requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows. The company does not expect this amendment to have any significant impact in its financial statements.

Annual Improvements to IFRS Accounting Standards

In July 2024, the IASB issued narrow amendments to IFRS Accounting Standards and accompanying guidance as part of its regular maintenance of the Standards. These amendments include clarifications, simplifications, corrections and changes aimed at improving the consistency of several IFRS Accounting Standards. Annual improvements are limited to changes that either clarify the wording in an IFRS Accounting Standard or correct relatively minor unintended consequences or oversights in the Accounting Standards. They also correct minor conflicts between the requirements of the Accounting Standards. The Group does not expect these narrow amendments to have any significant impact in its financial statements.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Group will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

7. FINANCIAL ASSETS, FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The company derecognises financial liabilities when, and only when, the Company obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments recognised by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowance for excepted credit loss the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Notes forming part of the financial statements

a. Cash and cash equivalents

(Amount in BGN)

	As at December 31, 2025	As at December 31, 2024

Accrued interest	-	35,477
Total	**1,355,380**	**3,904,396**

h. Financial instruments by category

The carrying value of financial assets and financial liabilities as at December 31, 2025 is as follows:

(Amount in BGN)

Financial assets	Amortised cost	Total carrying Value
Cash and cash equivalents	6,370,501	6,370,501
Trade receivables	6,307,153	6,307,153
Unbilled receivables	582,630	582,630
Other financial Assets	3,397	3,397
Total	**13,263,681**	**13,263,681**
Financial liabilities		
Trade payables	320,158	320,158
Lease Liabilities	641,018	641,018
Other financial liabilities	1,355,380	1,355,380
Total	**2,316,556**	**2,316,556**

The carrying value of financial assets and financial liabilities as at December 31, 2024 is as follows:

(Amount in BGN)

Financial assets	Amortised cost	Total carrying Value
Cash and cash equivalents	11,275,649	11,275,649
Trade receivables	3,019,604	3,019,604
Unbilled receivables	25,797	25,797
Other financial Assets	4,142	4,142
Total	**14,325,193**	**14,325,193**
Financial liabilities		
Trade payables	255,752	255,752
Lease Liabilities	1,657,829	1,657,829
Other financial liabilities	3,904,396	3,904,396
Total	**5,817,978**	**5,817,978**

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables and trade payables as at December 31, 2025 approximate the fair value.

i. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

j. Financial risk management

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

  The fluctuation in foreign currency exchange rate may have potential impact on the statement of financial statement, where any transaction references more than one currency or where assets/ liabilities are denominated in a currency other than functional currency of the company. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries.

  The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

  The risk primarily relate to fluctuation of USD and EUR against the functional currency of the Company.

  The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the functional currency of the company.

  The following table sets forth information relating to foreign currency exposure as at December 31, 2025:

(Amount in BGN)

	USD (equivalent BGN)	EUR (equivalent BGN)
Net financial assets	12,731,519	773,159
Net financial liabilities	-	932,078

The following table sets forth information relating to foreign currency exposure as at December 31, 2024:

(Amount in BGN)

	USD (equivalent BGN)	EUR (equivalent BGN)
Net financial assets	13,760,285	333,990
Net financial liabilities	65,020	4,995,561

10% depreciation / appreciation of the respective foreign currencies with respect to functional currency of Tata Consultancy Services Bulgaria EOOD Company would result in decrease / increase in the Company's profit before taxes by approximately BGN 1,257,260 and BGN 903,369 for the period ended December 31, 2025 and December 31, 2024 respectively.

- **Interest rate risk**

The Company is not exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled receivables, cash and cash equivalents, and other financial assets.

- **Exposure to credit risk**

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was BGN 13,508,075 and BGN 14,585,109 as of December 31, 2025 and December 31, 2024 respectively, being the total of the carrying amount of balances with bank, bank deposit, trade receivable, unbilled receivables, and other financial assets.

Tata Consultancy Services Bulgaria EOOD Company's exposure to customers is diversified and single customer contributes to more than 10% of outstanding trade receivables, unbilled receivables as at December 31, 2025 and December 31, 2024 respectively.

(Amount in BGN)

Client Name	As at December 31, 2025	
	Amount	Percentage
Customer A	6,889,783	100%

(Amount in BGN)

Client Name	As at December 31, 2024	
	Amount	Percentage
Customer A	3,045,401	100%

- ***Geographic concentration of credit risk***

The Company has a geographic concentration of trade receivables (net of allowances), unbilled receivables and contract assets as given below:

(Amount in BGN)

	As at December 31, 2025	
	Gross	Net
UK	100%	100%

(Amount in BGN)

	As at December 31, 2024	
	Gross	Net
UK	100%	100%

Geographical concentration of trade receivables, unbilled receivables and contract assets is allocated based on the location of the customers.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generates sufficient cash flows from operations to meet its financial obligations including lease liabilities as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as at:

(Amount in BGN)

December 31, 2025	Due in 1st year	Due in 2nd to 5th year	Total
Financial liabilities			
Trade and other payables	320,158	-	320,158
Lease Liability	221,994	419,025	641,018
Other financial liabilities	3,019,604	-	3,019,604
Total	**3,561,756**	**419,025**	**3,980,780**

(Amount in BGN)

December 31, 2024	Due in 1st year	Due in 2nd to 5th year	Total
Financial liabilities

(Amount in BGN)

Share holding	Percentage	Percentage
Tata Consultancy Services Ireland Limited	**100%**	100%

Capital management

The Company's objective for capital management is to maximize shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term product and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated.The Company is not subject to any externally imposed capital requirements.

8. NON-FINANCIAL ASSETS AND LIABILITIES

a. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The

Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the Company is as follows:

(Amount in BGN)

	ROU Building	Total
Gross Block as on 01.01.2025	2,486,456	2,486,456
Additions	-	-
Disposals	(1,243,228)	(1,243,228)
Gross Block as on 31.12.2025	**1,243,228**	**1,243,228**
Accumulated Depreciation as on 01.01.2025	946,417	946,417
Elimination on Disposal	(630,369)	(630,369)
Depreciation for the year	367,284	367,284
Accumulated Depreciation as on 31.12.2025	**683,332**	**683,332**
Net Carrying Amount as on 31.12.2025	**559,896**	**559,896**

The details of the right-of-use asset held by the Company is as follows:

(Amount in BGN)

	ROU Building	Total
Gross Block as on 1.01.2024	2,486,456	2,486,456
Purchases	-	-
Disposals	-	-
Gross Block as on 31.12.2024	**2,486,456**	**2,486,456**
Accumulated Depreciation as on 1.01.2024	525,306	525,306
Elimination on Disposal	-	-
Depreciation for the year	421,111	421,111
Accumulated Depreciation as on 31.12.2024	**946,417**	**946,417**
Net Carrying Amount as on 31.12.2024	1,540,039	1,540,039

Interest on lease liabilities are BGN 82,389 and 99,809 for the period ended on December 31, 2024 and December 31, 2023 respectively.

Lease contracts entered by the Company majorly pertains for buildings taken on lease to conduct its business in the ordinary course. The Company does not have any lease restrictions and commitment towards variable rent as per the contract.

b. Capital work-in-progress

(Amount in BGN)

	As at December 31, 2025	As at December 31, 2024
Capital work-in-progress	319,269	326,962
Total	**319,269**	**326,962**

c. Property, plant and equipment

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight line basis so as to expense the cost less residual values over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:.

Type of Asset	Useful Lives
Computer equipment	4 years
Electrical Installations	10 years
Office Equipments	5 years
Furnitures and Fixtures	5 years
Leasehold Improvements	6 years

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Property, plant and equipment consist of the following:

(Amount in BGN)

	Computers	Electrical Installations	Office Equipments	Furnitures and Fixtures	Leasehold Improvements	Total
Gross Block as on 01.01.2025	877,584	55,766	123,611	142,395	120,260	1,319,616
Purchases	-	-	-	-	-	-

d. Other assets

Other assets consist of the following:

(Amount in BGN)

	As at December 31, 2025	As at December 31, 2024
Other assets - Current		
Advance to suppliers	9,783	219,598
Prepaid expenses - Current	25,799	83,140
Tax Credit Entitlements	78,185	124,440
Prepaid Rent	25,338	100,767
Contract fulfillment costs	-	356
Total	**139,105**	**528,301**

e. Other liabilities

Other liabilities consist of the following:

(Amount in BGN)

	As at December 31, 2025	As at December 31, 2024
Other liabilities - current		
Indirect tax payable and other statutory liabilities	**196,744**	146,557
Other current liabilities - Others	**41,407**	15,756
Unearned and deferred revenue	**86,824**	-
Other employee benefits - Current	**5,782**	3,252
Total	**330,756**	165,565

9. REVENUE RECOGNITION

The Company earns revenue primarily from providing information technology , consultancy services and business solutions for its customers. The Company offers a consulting-led, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method .
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of the licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and/or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals and geography.

Revenue disaggregation by nature of services is as follows:

(Amount in BGN)

	For the period Jan 1, 2025 to Dec 31, 2025	For the period Jan 1, 2024 to Dec 31, 2024
Revenue from consultancy services	15,759,966	18,428,187
Total	**15,759,966**	**18,428,187**

Revenue disaggregation by industry vertical is as follows:

(Amount in BGN)

Industry vertical	For the period Jan 1, 2025 to Dec 31, 2025	the period Jan 1, 2024 to Dec 31, 2024
Hi-Tech Industry Practice	15,759,966	18,428,187
Total	**15,759,966**	**18,428,187**

Revenue disaggregation by geography is as follows:

(Amount in BGN)

Geography	For the period Jan 1, 2025 to Dec 31, 2025	For the period Jan 1, 2024 to Dec 31, 2024
UK	15,759,966	18,428,187
Total	**15,759,966**	**18,428,187**

Geographical revenue is allocated based on the location of the customers.

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognized corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Notes forming part of the financial statements

10. COST RECOGNITION

Costs and expenses are recognised when incurred and have been classified according to their primary functions in the following categories:

Cost of Revenue

These costs primarily include employee compensation of personnel engaged in providing services, travel expenses, fees to external consultants, cost of equipment and software licences, depreciation and amortisation of production related equipment and software, facility expenses, communication expenses and other project related expenses.

Selling, general and administrative expenses

Selling costs primarily include employee compensation for sales and marketing personnel, travel expenses, advertising, business promotion expenses, bad debts and advances written off, allowance for doubtful trade receivables and advances, facility expenses for sales and marketing offices and market research costs.

General and administrative costs primarily include employee compensation for administrative, supervisory, managerial and practice management personnel, depreciation and amortisation expenses of non-production equipment and software, facility expenses for administrative offices, communication expenses, fees to external consultants and other general expenses.

(Amount in BGN)

Expenses by function	For the period Jan 1, 2025 to Dec 31, 2025	For the period Jan 1, 2024 to Dec 31, 2024
Cost of revenue	12,024,060	14,114,983
Selling, general and administrative expenses	936,318	(1,408,295)
Total	**12,960,378**	**12,706,688**

Costs and expenses are recognized when incurred and have been classified according to their nature.

(Amount in BGN)

Expenses by nature	For the period Jan 1, 2025 to Dec 31, 2025	For the period Jan 1, 2024 to Dec 31, 2024
Other operating expenses		
Facility running expenses	647,365	632,518
Fees to external consultants	764,081	365,714
Travel expenses	1,603	2,413
Communication	5,413	2,737
Depreciation expenses	665,160	734,607
Other expenses	427,244	61,099
Total	**2,510,866**	**1,799,088**

Notes forming part of the financial statements

11. OTHER INCOME

a. Other gains (net)

(Amount in BGN)

	For the period Jan 1, 2025 to Dec 31, 2025	For the period Jan 1, 2024 to Dec 31, 2024
Interest income	(732)	-
Loss on disposal of PPE	1,394	-
Net gain on lease modification	(41,028)	-
Net foreign exchange loss/(gain)	1,934,763	(377,321)
Total	**1,894,397**	**(377,321)**

12. FINANCE COSTS

Finance costs consist of the following:

(Amount in BGN)

	For the period Jan 1, 2025 to Dec 31, 2025	For the period Jan 1, 2024 to Dec 31, 2024
Finance costs - Interest on obligations under finance leases	57,085	82,389
Interest on bank overdrafts and loans	-	48,638
Total	**57,085**	**131,027**

13. INCOME TAXES

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year.

Current income taxes

Current tax is based on the taxable profit for the year and is calculated using tax rates that have been enacted by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred Tax amount is immaterial hence not disclosed.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The income tax expense consists of the following:

(Amount in BGN)

	For the period Jan 1, 2025 to Dec 31, 2025	For the period Jan 1, 2024 to Dec 31, 2024
Current tax		
Current tax expense for current year	77,230	636,571
Total tax expense	**77,230**	**636,571**

The reconciliation of estimated income tax expense at the Statutory income tax rate to income tax expense reported in statement of profit or loss and other comprehensive income is as follows:

(Amount in BGN)

	For the period Jan 1, 2025 to Dec 31, 2025	For the period Jan 1, 2024 to Dec 31, 2024
Current tax expenses		
Income before taxes	844,360	5,967,792
Statutory tax rate	10.00%	10.00%
Expected income tax expense	84,436	596,779
Add : Disallowed expense - (Depreciation)	(6,945)	39,792
Others	(261)	-
Total tax expense	**77,230**	**636,571**

14. EMPLOYEE BENEFITS

The Company provides for amount payable to be employees for compensated absences as per the Company's policy, which are expected to occur within twelve months after the end of the period in which the employee render the related services are recognised as undiscounted liability at the date of statement of financial position.

Employee cost consist of the following:

(Amount in BGN)

	For the period January 1, 2025 to December 31, 2025	For the period January 1, 2024 to December 31, 2024
Salaries & bonus	8,959,316	9,152,742
Contributions to social security	1,310,979	1,603,430
Staff welfare	182,961	151,428
Total	10,453,257	10,907,601

Staff numbers

Average number of persons employed by the Company (including directors) is 145 and 198 for year ending on December 31, 2025 and December 31, 2024 respectively.

Statements of Profit or Loss and other Comprehensive Income	53.5
Statements of Changes in Equity	53.6
Statements of Cash Flows	53.7
Notes to Financial Statements	53.8

REPORT OF THE INDEPENDENT AUDITOR

TO THE BOARD OF DIRECTORS AND THE SHAREHOLDERS OF TATA CONSULTANCY SERVICES GUATEMALA, S.A.

Opinion

We have audited the financial statements of Tata Consultancy Services Guatemala, S.A., comprising the Statement of Financial Position as at December 31, 2025, the income statements and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, as well as the explanatory notes to the financial statements, which include a summary of significant accounting policies. The financial statements have been prepared by management using International Financial Reporting Standards (IFRS).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of TATA CONSULTANCY SERVICES GUATEMALA, S.A., as of December 31, 2025 and 2024, as well as its financial performance and cash flows for the years then ended, in accordance with International Financial Reporting Standard – IFRS --, indicated in Note 3.

Basis of the opinion

We have conducted our audit in accordance with International Standards on Auditing (ISAS). Our responsibilities under these standards are described later in the section. Auditor's responsibilities for auditing the financial statements of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Guatemala – Code of Ethics for Accounting Professionals issued by the International Ethical Standards Board for Accountants (IESBA Code of Ethics) and have fulfilled our other ethical responsibilities in accordance with such code. We believe that the auditor's evidence we have obtained provides a sufficient and adequate basis for our opinion.

Responsibilities of the entity's management and governance over the financial statements

Management is responsible for the preparation and fair presentation of the financial statements, in accordance with International Financial Reporting Standard (IFRS), and for the internal control that management deems necessary to enable the preparation of financial statements free from material misstatement, due to fraud or error.

Auditor's responsibilities for auditing the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether arising from fraud or error and to issue the auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement where it exists. Misaccuracies may arise from fraud or error and are considered material if, individually or in the aggregate, they can reasonably be expected to affect the economic decisions users make on the basis of these financial statements.

As part of an ISA compliance audit, the auditor exercises professional judgment and maintains professional skepticism throughout the audit. We too:

1. We identify and assess the risks of material misstatement in the financial statements, whether due to fraud or error, design and perform the audit procedures that responded to those risks; and obtained sufficient and appropriate audit evidence to provide the basis for our opinion. The risk of failing to detect a material misstatement resulting from fraud is greater than that resulting from an error, since fraud involves collusion, falsification, intentional omissions, distortion, or override of internal control.
2. We obtained an important knowledge of internal control for the audit, in order to design audit procedures that are appropriate according to the circumstances and not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
3. We evaluate the appropriateness of the accounting policies used and the reasonableness of the accounting estimates and related disclosures made by management in accordance with the applied basis of accounting.
4. We evaluate the overall presentation, structure and content of the financial statements, including disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a reasonable presentation.

5. We conclude on the appropriateness of management's use of the going concern bases and, based on the evidence obtained, determine whether or not there is material uncertainty regarding events or conditions that may give rise to significant doubt about the Company's ability to continue as a going concern. If we conclude that material uncertainty exists, we are asked to draw attention in our auditor's report to the respective disclosures in the financial statements or, if such disclosure is insufficient, we must modify our opinion. Our findings are based on audit evidence obtained to date from our auditor's report, however, future events or conditions may cause the company to cease to be a going concern.

   We communicate with government officials regarding, among other issues, the expected scope and timing of the audit and important audit findings, including potential significant deficiencies in the internal control we identified during our audit.

Néstor López

Erick Alexander García Ordoñez
67248896

The undersigned accountant registered in the Superintendency of Tax Administration - SAT under number 67248896 CERTIFIES that this Financial Statement was prepared based on the figures obtained from the accounting records of Tata Consultancy Services Guatemala S.A. as at December 31,2024 and December 31,2025

Notes forming part of the financial statements

1. CORPORATE INFORMATION

Tata Consultancy Services Guatemala S.A., with registered offices in Guatemala City (Diagonal 6 10-65 Zone 10 Las Margaritas Office 1501 B Tower 1), was incorporated according to Guatemalan Law on September 1, 2021 through the testimony of deed No. 111 and No. 112 under registration N ° 20170 Folio: 919 of the Electronic Book 91 of mercantile companies. Its corporate purpose is the provision of professional services within the IT, telecommunications, and engineering fields, consultancy services, delegated administration of IT services and business processes (outsourcing).

The authorized share capital of the Company is Seven Million Eight Hundred Thousand Quetzals (Q 7,800,000.00), represented by Seven Thousand Eight Hundred (7,800) shares with a par value each share of One Thousand Quetzals (Q1, 000.00) each one of them. The Shareholders of the Company are TCS Iberoamerica S.A. (Owns 99% of the shares of the subscribed and paid capital stock) and TCS Uruguay S.A. (Owns 1% of the shares of the subscribed and paid capital stock). Both Shareholders are registered offices are in the Oriental Republic of Uruguay.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), with their interpretations, conceptual framework, conclusion foundations and application guides authorized and issued by the International Accounting Standards Board (IASB); and other legal provisions defined by surveillance entities that may differ in some aspects with those set out by other state control bodies.

On March 2, 2026, the Shareholders authorized the issuance of the financial statements.

3. BASIS OF PREPARATION

These financial statements have been prepared on historical cost basis except for certain financial instruments defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flow has been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The Company classifies interest paid and interest and dividend received as cash flow from operating activities. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

The functional currency of the Company is the Guatemalan Quetzal (GTQ). Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the dates of statement of financial position and exchange gains and losses arising on settlement and restatement are recognised in profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policy information used in preparation of the financial statements have been discussed in the respective notes.

4. USE OF ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with the recognition and measurement principles of International Financial Reporting Standards (IFRS) requires management to make estimates and judgments that affect the reported balances of assets and liabilities, disclosures of contingent liabilities as at the date of the financial statements and the reported amounts of Income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Notes forming part of the financial statements

The Company uses the following critical accounting judgments, estimates and assumption estimates in preparation of its financial statements:

a. Revenue recognition

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company uses estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.

The company exercises judgement for identification of performance obligations, determination of transaction price, ascribing the transaction price to each distinct performance obligation and in determining whether the performance obligation is satisfied at a point in time or over a period of time. These judgements have been explained in detail under the revenue recognition note (Refer note 9).

b. Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods (Refer note 8 (a)).

c. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d. Impairment of financial assets (other than at fair value)

Measurement of impairment of financial assets require use of estimates and judgements, which have been explained in the note on financial assets, financial liabilities and equity instruments, under impairment of financial assets (other than at fair value) (Refer note 6).

e. Provision for income tax and deferred tax assets

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

f. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgement to asses contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

g. Employee benefits

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note (Refer note 13).

h. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IFRS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the noncancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5. RECENT ACCOUNTING STANDARDS

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

Rates[2]

Amendments to IFRS 9 and IFRS 7[1]

Annual Improvements to IFRS Accounting Standards1 – Amendments to:

- IFRS 1 – First-time Adoption of International Financial Reporting Standards
- IFRS 7 – Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7
- IFRS 9 – Financial Instruments
- IAS 7 – Statement of Cash flows

IFRS 18 – Presentation and Disclosures in Financial Statements[2]

IFRS 19 – Subsidiaries without Public Accountability: Disclosures[2]

[2] Effective for annual periods beginning on or after January 1, 2026

[3] Effective for annual periods beginning on or after January 1, 2027.

IFRS 9 and IFRS 7 – Financial Instruments and Financial Instruments: Disclosure

In May 2024, the IASB issued "Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) to address matters identified during the post-implementation review of IFRS 9. The amendments relate to derecognition of a financial liability settled through electronic transfer, classification of financial assets and disclosures of certain financial assets and financial liabilities. The Company will evaluate the amendments and implement them accordingly.

IFRS 18 – Presentation and Disclosures in Financial Statements

In April 2024, the IASB issued its new standard IFRS 18 – Presentation and Disclosures in Financial Statements that will replace IAS 1 – Presentation of Financial Statements. The new standard aims at improving how entities communicate in their financial statements. The Company will evaluate the standard and implement it accordingly.

IFRS 19 – Subsidiaries without Public Accountability: Disclosures

In May 2024, the IASB issued a new standard IFRS 19 - Subsidiaries without Public Accountability: Disclosures. The standard allows a subsidiary which does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards, to elect IFRS 19. Such an entity applies the requirements in other IFRS Accounting Standards, except for the disclosure requirements, instead the entity applies the requirements in IFRS 19.

6. FINANCIAL ASSETS, FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. IFRS 9 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for expected credit losses, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

a. Cash and cash equivalents

Cash and cash equivalents consist of the following:

(In Quetzals)

	As at December 31, 2025	As at December 31, 2024
Balances with banks	16,620,625	23,059,489
Total	**16,620,625**	**23,059,480**

b. Trade receivables - Billed

Trade receivables - Billed consist of the following:

Trade receivable - Billed - Current

(In Quetzals)

	As at December 31, 2025	As at December 31, 2024
Trade receivables - Billed	17,820,761	13,099,505
Total	**17,820,761**	**13,099,505**

c. Other financial assets

Other financial assets consist of the following:

Other financial assets – Current

(In Quetzals)

	As at December 31, 2025	As at December 31, 2024
Security deposits	59,283	58,059
Others	476	59,437
Total	**59,759**	**117,496**

d. Other financial liabilities

Other financial liabilities consist of the following:

Other financial liabilities – Current

(In Quetzals)

	As at December 31, 2025	As at December 31, 2024
Accrued payroll	1,594,514	1,716,421
Accrued interest	-	-
Volumen discount	32,815	37,068
Others	-	-
Total	**1,627,329**	**1,753,489**

e. Financial instruments by category

The carrying value of financial instruments by categories as at December 31, 2025 is as follows:

(In Quetzals)

	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	16,620,625	16,620,625
Trade receivables		
Billed	17,820,761	17,820,761
Unbilled	1,273,589	1,273,589
Other financial assets	59,759	59,759
Total	**35,774,734**	**35,774,734**
Financial liabilities		
Trade payables	605,660	605,660
Other financial liabilities	1,627,329	1,627,329
Total	**2,232,989**	**2,232,989**

The carrying value of financial instruments by categories as at December 31, 2024 is as follows:

(In Quetzals)

	Amortised cost	Total carrying value
Financial assets		
Cash and cash equivalents	23,059,489	23,059,489
Trade receivables		
Billed	13,099,505	13,099,505
Unbilled	2,032,100	2,032,100
Other financial assets	117,496	117,496
Total	**38,308,590**	**38,308,590**
Financial liabilities		
Trade payables	777,913	777,913
Other financial liabilities	1,753,489	1,753,489
Total	**2,531,402**	**2,531,402**

Carrying amounts of cash and cash equivalents, trade receivables and trade payables as at December 31, 2025 and December 31, 2024 approximate the fair value due to their nature. Carrying amounts of bank deposits, earmarked balances with banks other financial assets, other financial liabilities and borrowings which are subsequently measured at amortised cost also approximate the fair value due to their nature in each of the periods presented. Fair value measurement of lease liabilities is not required.

f. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

g. Financial risk management

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company's has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Foreign currency exchange rate risk**

  The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the entity. Considering the economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries.

  The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

  The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the respective functional currency of the Company.

  The following analysis has been worked out based on the net exposures of the Company as of the date of statement of financial position which could affect the statement of profit or loss and other comprehensive income and equity.

The following table sets forth information relating to foreign currency exposure as at December 31, 2025:

(In Quetzals)

	MXN	USD	Total
Net financial assets	-	19,698,291	**19,698,291**
Net financial liabilities	-	485,747	**485,747**

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease / increase in the Company's profit before taxes by approximately, 1,921,254 Quetzals for the year ended December 31, 2025.

The following table sets forth information relating to foreign currency exposure as at December 31, 2024:

(In Quetzals)

	MXN	USD	TOTAL
Net financial assets	-	17,842,648	**17,842,648**
Net financial liabilities	14,752	538,599	**553,351**

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of the Company would result in decrease / increase in the Company's profit before taxes by approximately, 1,728,930 Quetzals for the year ended December 31, 2024.

- **Interest rate risk**

  The Company is not exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Refer note 4 for methods, assumptions and information used to measure expected credit losses.

Financial instruments that are subject to measure expected credit losses of trade receivables, cash and cash equivalents and other financial assets. Cash and cash equivalents include an amount of 16,620,625 Quetzals held with a bank in Guatemala having high quality credit rating which are individually in excess of 10% or more of the Company's total cash and cash equivalents and Bank deposits as at December 31, 2025. None of the other financial instruments of the Company result in material concentration of credit risk.

- **Exposure to credit risk**

  The carrying amount of financial assets and contract assets represents the maximum credit exposure. The maximum exposure to credit risk was 35,774,734 Quetzals and 38,308,590 Quetzals as at December 31, 2025 and December 31, 2024, respectively, being the total of the carrying amount of balances with banks, bank deposits, trade receivables, contract assets and other financial assets.

Company's exposure to customers is diversified, and single customer contributes individually to more than 10% of outstanding trade receivable, and contract assets as at December 31, 2025 and as at December 31, 2024 as follows:

(In Quetzals)

	As at December 31, 2025	
	Total trade receivables, Unbilled receivables and contract Assets	Percentage
Customer A	16,095,268	84%
Customer B	1,455,948	8%
Customer C	789,253	4%

(In Quetzals)

	As at December 31, 2024	
	Total trade receivables, Unbilled receivables and contract Assets	Percentage
Customer A	12,801,245	85%
Customer B	1,690,461	11%

- **Geographic concentration of credit risk**

Geographic concentration of trade receivables, (gross and net of allowances) and contract assets is as follows:

	Year ended December 31, 2025	Year ended December 31, 2024
	Net %	Net %
Americas	98%	96%
Ibero America	2%	4%
	100%	**100%**

Geographical concentration of trade receivables, (gross and net of allowances) and contract assets is allocated based on the location of the customers.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generated sufficient cash flows from operations to meet its financial obligations including lease liabilities as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as of:

(In Quetzals)

December 31, 2025	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities:					
Trade payables	605,660	-	-	-	605,660
Other financial liabilities	1,627,329	-	-	-	1,627,329
Total	**2,232,989**	**-**	**-**	**-**	**2,232,989**

(In Quetzals)

December 31, 2024	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Due after 5 years	Total
Non-derivative financial liabilities:					
Trade payables	777,913	-	-	-	777,913
Other financial liabilities	1,753,490	-	-	-	1,753,490
Total	**2,531,403**	**-**	**-**	**-**	**2,531,403**

h. Equity instruments

The authorized, issued, subscribed and fully paid-up share capital consists of the following:

(In Quetzals)

	As at December 31, 2025	As at December 31, 2024
Authorized		
Equity share of 1,000 each	**7,800,000**	7,800,000
Issued, subscribed and fully paid up		
Equity share of 1,000 each	**7,800,000**	7,800,000

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

Retained earnings

Dividends paid during the period ended December 31,2025 include an amount of 1,821,527 Quetzals (233.53 Quetzals per equity share 7800 shares) for the year ended December 31, 2021, and an amount of 2,032,103 (260.53 Quetzals per equity share 7800 shares) Quetzals for the year ended December 31, 2022.

7. LEASES

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in profit or loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases

with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and profit or loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in profit or loss.

The Company has elected not to apply the requirements of IFRS 16 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

8. NON-FINANCIAL ASSETS AND NON-FINANCIAL LIABILITIES

a. Property, plant and equipment

The Company recognizes the cost of an item of property, plant and equipment as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the cost of the item can measured reliability.

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight-line basis so as to expense the cost less residual values over their estimated useful lives based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Useful lives
Leasehold improvements	Lease term
Computer equipment	4 years
Furniture, fixtures, office equipment and other assets	2-10 years

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use. Capital work-in-progress includes capital advances.

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

Property, plant and equipment consist of the following:

(In Quetzals)

	Computer equipment	Office equipment	Total
Gross block as of January 1, 2025	**2,172,297**	**10,973**	**2,183,270**
Purchases	-	-	-
Disposals	(17,530)	-	(17,530)
Gross block as of December 31, 2025	**2,154,767**	**10,973**	**2,165,740**
Accumulated depreciation as of January 1,2025	1,518,521	4,959	1,523,480
Depreciation for the period	525,682	2,195	527,877
Disposals	(16,107)	-	(16,107)
Accumulated depreciation as of December 31, 2025	**2,028,096**	**7,154**	**2,035,250**
Net carrying amount as of December 31, 2025	126,671	3,819	130,490
Capital work-in-progress	-	-	-
Total	**126,671**	**3,819**	**130,490**

(In Quetzals)

	Computer equipment	Office equipment	Total
Gross block as of January 1, 2024	**2,174,461**	**10,973**	**2,185,434**
Purchases	-	-	-
Disposals	(2,164)	-	(2,164)
Gross block as of December 31, 2024	**2,172,297**	**10,973**	**2,183,270**
Accumulated depreciation as of January 1,2024	975,312	2,760	978,072
Depreciation for the period	544,635	2,199	546,834
Disposals	(1,426)	-	(1,426)
Accumulated depreciation as of December 31, 2024	**1,518,521**	**4,959**	**1,523,480**
Net carrying amount as of December 31, 2024	653,776	6,014	659,790
Capital work-in-progress	-		-
Total	**653,776**	**6,014**	**659,790**

b. Other Intangible assets

Intangible assets purchased including acquired in business combination, are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licences.

Following table summarises the nature of intangibles and their estimated useful lives:

Type of asset	Useful lives
Rights under licensing agreement and software licences	Lower of licence period and 2-5 years

Intangible assets are amortised on a straightline basis over the period of its economic useful life.

Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss.

As at December 31,2025, and December 31, 2024 Company did not have Intangible assets.

c. Other assets

Other assets consist of the following:

Other assets – Current

(In Quetzals)

	As at December 31, 2025	As at December 31, 2024
Indirect tax recoverable	788,160	646,514
Prepaid expenses	21,600	22,509
Others	30,737	-
Total	**840,497**	**669,023**

Refer note 9 for changes in contract assets

d. Other liabilities

Other liabilities consist of the following:

Other liabilities – Current

(In Quetzals)

	As at December 31, 2025	As at December 31, 2024
Indirect tax payable and other statutory liabilities	583,074	654,199
Total	**583,074**	**654,199**

9. REVENUE RECOGNITION

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.

- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of the licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers could include periodic performance based payments and/or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with IAS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals and geography.

Revenue disaggregation by nature of services is as follows:

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Consultancy Services	51,205,185	65,052,004
Total	**51,205,185**	**65,052,004**

Revenue disaggregation by industry vertical is as follows:

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Industry Vertical		
Communication, Media and Technology	45,524,146	57,765,622
Transportation	4,184,079	3,607,078
Manufacturing	250,432	1,878,401
Retail and Consumer Business	329,305	830,381
Life Sciences & Healthcare	559,760	797,672
Banking, Financial and Insurance	357,463	172,850
Total	**51,205,185**	**65,052,004**

Revenue disaggregation by geography is as follows:

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Geography		
America	50,625,448	62,343,222
Ibero America	579,737	2,708,782
Total	**51,205,185**	**65,052,004**

Geographical revenue is allocated based on the location of the customers.

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied (or partially satisfied) performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in IFRS 15. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc.). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is 4,829,400.20 Quetzals, out of which 85.51% is expected to be recognized as revenue within the next year and the balance thereafter. No consideration from contracts with customers is excluded from the amount mentioned above.

Changes in unearned and deferred revenue are as follows:

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Balance at the beginning of the year	-	(948,844)
Revenue recognised that was included in the unearned and deferred revenue at the beginning of the year	-	943,648
Increase due to invoicing during the year, excluding amounts recognised as revenue during the year.	-	(661)
Translation exchange difference	-	5,857
Balance at the end of the year	**-**	**-**

10. COST RECOGNITION

Costs and expenses are recognized when incurred and have been classified according to their nature in the following categories:

Cost of revenue

The costs of the Company are broadly categorized into employee benefits expenses, depreciation and amortization and other operating expenses. Employee benefits expenses include employee compensation, allowances paid, contribution to various funds and staff welfare expenses. Other operating expenses mainly include fees to external consultants, facility expenses and other expenses.

Selling, general and administrative expenses

Selling costs primarily include employee compensation for sales and marketing personnel, travel expenses, advertising, business promotion expenses, bad debts and advances written off, allowance for expected credit losses and doubtful advances (net), facility expenses for sales and marketing offices and market research costs.

General and administrative costs primarily include employee compensation for administrative, supervisory, managerial and practice management personnel, depreciation and amortisation expenses of non-production equipment and software, facility expenses for administrative offices, communication expenses, fees to external consultants and other general expenses.

Expenses by nature

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Facility expenses	451,927	439,040
Fees to external consultants and others	1,429,146	1,829,893
Travel expense	5,690	14,067
Communication expense	2,911	6,107
Other expenses	351,615	360,557
Total	**2,241,289**	**2,649,664**

- **Expenses by function**

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Cost of revenue	44,263,366	46,482,360
Selling, general and administrative expenses	4,176,055	4,335,968
Total	**48,439,421**	**50,818,328**

11. OTHER INCOME

a. Finance costs

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Interest on loans other than banks	-	305,406
Total	**-**	**305,406**

b. Other Gains / (Losses) (net)

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Net foreign exchange gains (losses)	(180,826)	(283,850)
Disposal of assets (losses)	(1,423)	(4)
Others	101,515	260,892
Total	**(80,734)**	**(22,962)**

12. INCOME TAXES

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income taxes

The charge for current income tax is calculated based on enacted, or substantially enacted, tax laws at the balance sheet date. The management assesses periodically the positions assumed in the tax returns filed regarding situations in which the tax laws are subject to interpretation. The Company, as corresponds, creates provisions on amounts expected to be obliged to pay to tax authorities.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination, affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The income tax expense consists of the following:

(In Quetzals)

Current Tax	Year ended December 31, 2025	Year ended December 31, 2024
Current tax expense for current year	757,489	3,746,818
	757,489	**3,746,818**

(In Quetzals)

Deferred tax	Year ended December 31, 2025	Year ended December 31, 2024
Deferred tax (benefit) / expense for current year	(28,266)	(122,712)
	(28,266)	(122,712)
Total	**729,223**	**3,624,106**

The reconciliation of estimated income tax expense at statutory income tax rate to income tax expense reported in statement of profit or loss is as follows:

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Profit before taxes	2,685,030	13,905,308
Federal income tax rate	25%	25%
Expected income tax expense	671,258	3,476,327
Tax effect of adjustments to reconcile expected income tax expense to reported income tax expense		
Income exempt from tax	(25,283)	(28,639)
Permanent differences	83,248	176,418
Total income tax expense	**729,223**	**3,624,106**

Significant components of net deferred tax assets and liabilities for the period ended December 31, 2025 are as follows:

(In Quetzals)

	Opening balance	Recognised in profit or loss	Closing balance
Deferred tax assets in relation to			
Provision for Employee Benefits	664,892	28,266	693,158
Total deferred tax asset / (liabilities)	**664,892**	**28,266**	**693,158**

Significant components of net deferred tax assets and liabilities for the period ended December 31, 2024 are as follows:

(In Quetzals)

	Opening balance	Recognised in profit or loss	Closing balance0
Deferred tax assets in relation to			
Provision for Employee Benefits	542,180	122,712	664,892
Total deferred tax asset / (liabilities)	**542,180**	**122,712**	**664,892**

Direct Tax Contingencies

There are no contingencies in relation to direct tax matters.

13. EMPLOYEE BENEFITS

Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

The Company provides retirement benefit such as pension (other than Company managed fund) and foreign defined contribution plans to its employees which are treated as defined contribution plans..

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Compensated absences

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the date of statement of financial position. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the date of statement of financial position using the Projected Unit Credit Method.

Employee cost consists of the following:

(In Quetzals)

	Year ended December 31, 2025	Year ended December 31, 2024
Salaries, incentives and allowances	40,413,134	42,126,251
Contribution to provident and other funds	4,247,008	4,467,805
Staff welfare expenses	1,010,113	1,027,774
	45,670,255	**47,621,830**

Employee benefit obligations consist of the following:

(a) Employee benefit obligations – Current

(In Quetzals)

	As at December 31, 2025	As at December 31, 2024
Benefits to employees	2,914,131	2,888,007
Total	**2,914,131**	**2,888,007**

14. COMMITMENTS AND CONTINGENCIES

Capital Commitments

The Company has contractually capital commitment (net of advances) Nil Quetzals as at December 31, 2025 and December 31, 2025 for purchase of property, plant and equipment.

Contingencies

(a) Direct tax matters

Refer note No. 12

(b) Indirect tax matters

There are no contingency in relation to Indirect tax matters.

(c) Other claims

Claims aggregating GTQ 107,000 and GTQ 107,000 as at December 31, 2025 and December 31, 2024 respectively, against the Company have not been acknowledged as debts.

Notes forming part of the financial statements

15. RELATED PARTY TRANSACTIONS

The Company's principal related parties consist of its ultimate holding company Tata Consultancy Services Limited and its subsidiaries and key managerial personnel. The related party transactions and outstanding balances are with related parties with whom the Company routinely enter into transactions in the ordinary course of business.

Transactions with related parties are as follows:

Independent Auditor's Report

To the Board of Directors
Diligenta (Europe) B.V.
Report on the special purpose Ind AS Financial Statements

Opinion

We have audited the accompanying Special purpose Ind AS financial statements of Diligenta (Europe) B.V. (the Company), which comprises the Balance Sheet as at 31st March 2026, the Statement of Profit and Loss, other comprehensive income, changes in equity, and cash flow for the year then ended, and the related notes to the special purpose financial statements. The special purpose Ind AS financial statements have been prepared by the management as described in Note 2 to the Special Purpose Ind AS financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special purpose Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2026, and it's profit (including other Comprehensive Income), Changes in Equity and its Cash Flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Special purpose Ind AS financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Special purpose Ind AS financial statements under the provisions of the Act and the Rules thereunder and fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibility for the Special purpose Ind AS financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Special purpose Ind AS financial statements that give a true and fair view of the state of affairs, profit/ loss and (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special purpose Ind AS financial statements that give a true and fair view and are free from misstatement, whether due to fraud or error.

In preparing these Special purpose Ind AS financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Special purpose Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Special purpose Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special purpose Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

  Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

(To the extent applicable to a Company incorporated outside India)

1. As required by Section 143(3) of the Act, we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   b) In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books.
   c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

Restriction on Distribution and Use

This Special purpose Ind AS financial statements have been prepared for the limited purpose of consolidated financial statements, to comply with the Section 129(3) of the Companies Act 2013, of Tata Consultancy Services Limited for the year ended 31st March, 2026 in accordance with Accounting Standard specified in section 133 of the Companies Act 2013. Our report is intended solely for the information and use of Board of Directors of the company and Tata Consultancy Services Limited for the preparation of consolidated this Special purpose Ind AS financial statements as aforesaid and for the use at their annual general meetings for the information of their members. It is not intended to be and should not be used by anyone other than specified parties.

Notes forming part of the Financial Statements

1. CORPORATE INFORMATION

Diligenta (Europe) B.V. is into business of providing a wide range of information technology and consultancy services.

The Company was incorporated on September 14, 2023 in Netherland. The address is 6th floor of the office building situated at Kruseman van Eltenweg 1 in (1817 BC) Alkmaar. Diligenta Limited (UK), the holding Company owned 100% of the Company's equity share capital.

2. STATEMENT OF COMPLIANCE

This special purpose financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time for sole purpose of inclusion for Tata Consultancy Services Limited (Intermediate Holding Company) under the requirement of Section 129(3) of the Companies Act, 2013 ('the Act').

3. BASIS OF PREPARATION

These financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are measured at fair values or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current or non current as per the Company's normal operating cycle. Based on the nature of services rendered to customer and time elapsed between deployment of resources and realisation in cash and cash equivalents of the consideration for such a services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flows have been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

These financial statements have been presented in EUR which is the functional currency of the Company. The functional currency is the currency of the primary economic environment in which the Company operates.

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the statement of profit and loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policies used in preparation of the standalone financial statements have been discussed in the respective notes.

4. USE OF ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting estimates in preparation of its financial statements:

Notes forming part of the Financial Statements

a. Revenue recognition

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company estimates the future cost-tocompletion of the contracts which is used to determine degree of completion of the performance obligation.

The Company exercises judgement for identification of performance obligations, determination of transaction price, ascribing the transaction price to each distinct performance obligation and in determining whether the performance obligation is satisfied at a point in time or over a period of time. These judgements have been explained in detail under the revenue recognition note (Refer note 10).

b. Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

c. Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d. Provision for income tax and deferred tax assets

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

e. Provisions and contingent liabilities

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgements to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

f. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Notes forming part of the Financial Statements

5. RECENT PRONOUNCEMENTS

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

1. Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.

2. Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

3. Ind AS 12, International Tax Reform – Pillar Two Model Rules applicable immediately - The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. This relief is immediate and applies retrospectively.

6. FINANCIAL ASSETS, FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of asset to another entity. The Company derecognises a financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets amortised cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognised in statement of profit and loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of Balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, the Company recognises lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

a. Trade Receivables

Trade receivables (unsecured) consist of following:

(Amount in EUR)

	As at March 31, 2026	As at March 31, 2025
Trade Receivable - Current		
Considered Good	202,252	204,683
	202,252	**204,683**

Above balances of trade receivables includes balance with related parties (Refer Note 17)

Ageing for trade receivables - current outstanding as at March 31, 2026 is as follows:

(Amount in EUR)

Particulars	Outstanding for following periods from due date of payment				
	Not due	Less than 6 months	6 months - 1 year	1-2 years	Total
Undisputed trade receivables - considered good	202,252	-	-	-	**202,252**
	202,252	**-**	**-**	**-**	**202,252**
Less: Allowance for doubtful trade receivables - billed					-
					202,252
Trade Receivables - unbilled					-
					202,252

Ageing for trade receivables - current outstanding as at March 31, 2025 is as follows:

(Amount in EUR)

Particulars	Outstanding for following periods from due date of payment				
	Not due	Less than 6 months	6 months - 1 year	1-2 years	Total
Undisputed trade receivables - considered good	201,527	3,156	-	-	**204,683**
	201,527	**3,156**	**-**	**-**	**204,683**
Less: Allowance for doubtful trade receivables - billed					-
					204,683
Trade Receivables - unbilled					**162,083**
					366,766

b. Cash and cash equivalents

Cash and cash equivalents consist of the following:

(Amount in EUR)

	As at March 31, 2026	As at March 31, 2025
Balances with banks		
-In current accounts	463,894	963,747
	463,894	**963,747**

c. Trade payables current

Trade payables consist of the following:

(Amount in EUR)

	As at March 31, 2026	As at March 31, 2025
Trade and other payables	490,850	489,484
Accrued expenses	114,480	807,240
	605,330	**1,296,724**

Above balances of trade payables includes balance with related parties (Refer Note 17)

Ageing for trade payable - current outstanding as at March 31, 2026 is as follows:

Particulars	Outstanding for following periods from due date of payment				
	Not due	Less than 6 months	6 months - 1 year	1-2 years	Total
Others	490,850	-	-	-	**490,850**
	490,850	**-**	**-**	**-**	**490,850**
Less: Allowance for doubtful trade payables					**-**
					490,850
Accrued expenses					**114,480**
					605,330

Ageing for trade payable - current outstanding as at March 31, 2025 is as follows:

(Amount in EUR)

Particulars	Outstanding for following periods from due date of payment				
	Not due	Less than 6 months	6 months - 1 year	1-2 years	Total
Others	-	489,484	-	-	**489,484**
	-	**489,484**	-	-	**489,484**
Less: Allowance for doubtful trade payables					**-**
					489,484
Accrued expenses					**807,240**
					1,296,724

d. Financial instruments by category

The carrying value of financial instruments by categories as of March 31, 2026 is as follows:

(Amount in EUR)

	As at March 31, 2026	As at March 31, 2025
Financial assets		
Cash and cash equivalents	463,894	963,746
Trade receivables	202,251	204,683
Unbilled receivables	-	162,082
Total	**666,145**	**1,330,511**
Financial liabilities		
Trade payables	605,330	1,296,723
Total	**605,330**	**1,296,723**

Carrying amounts of cash and cash equivalents, trade receivables, unbilled receivables and trade payables as at March 31, 2026 approximate the fair value. Difference between carrying amounts and fair values of balances with banks, other financial assets and other financial liabilities subsequently measured at amortised cost is not significant in each of the periods presented. Fair value measurement of lease liabilities is not required.

e. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consist of the following three levels:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

There are no financial liabilities or assets measured at fair value at the end of each reporting period.

f. Financial risk management

The Company is exposed primarily to fluctuations in credit, liquidity and interest rate risks, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which covers risks associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors. The focus of the risk management committee is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on the financial performance of the Company.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

- **Interest rate risk**

  The Company is not exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled receivables, cash and cash equivalents, bank deposits and other financial assets. None of the other financial instruments of the Company result in material concentration of credit risk.

- **Exposure to credit risk**

  The carrying amount of financial assets represents the maximum credit exposure. Being no carrying amount of balances with banks, trade receivables, unbilled receivables and other financial assets excluding equity & loans.

- **Trade Receivables and unbilled revenue**

  The entity's exposure to credit risk with regards to trade receivables and Unbilled Receivables is influenced mainly by the individual characteristics of each customer in relation to the industry practices and business environment in which they operate. The entity limits its exposure to credit risk from trade receivables by establishing a maximum payment period of 365 days for its customers after which they are in default (credit impaired). To manage this risk, the Company has a robust Credit Management process in place. The Company has adopted a policy of dealing only with creditworthy counterparties. The Company's exposure of the counterparties is continuously monitored and necessary changes to the credit terms are made. The carrying amounts of financial assets represent the maximum credit risk exposure. None of the customer balances have been written off and no customer balances have been credit impaired at the reporting date.

  The Company's exposure to customers is diversified and single customer contributes to more than 10% of outstanding trade receivables, unbilled receivables and contract assets as at December 31, 2021.

(Amount in EUR)

	As at March 31, 2026	
	Total Trade receivables and Unbilled revenue	Percentage
Customer A	202,252	100%

(Amount in EUR)

	As at March 31, 2025	
	Total Trade receivables and Unbilled revenue	Percentage
Customer A	366,766	100%

Company's cash and cash equivalents, trade receivables, unbilled receivables other financial assets are substantially held in Netherlands.

- **Geographic concentration of credit risk**

  The Company is not exposed to the risk as the customer base of Company is concentrated in Europe.

Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Company consistently generated sufficient cash flows from operations to meet its financial obligations as and when they fall due.

The tables below provide details regarding the contractual maturities of significant financial liabilities as of:

(Amount in EUR)

As at March 31, 2026	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Total
Non-derivative financial liabilities:				
Trade payables	605,330	-	-	**605,330**
Total	**605,330**	**-**	**-**	**605,330**

(Amount in EUR)

As at March 31, 2025	Due in 1st year	Due in 2nd year	Due in 3rd to 5th year	Total
Non-derivative financial liabilities:				
Trade payables	1,296,724	-	-	**1,296,724**
Total	**1,296,724**	**-**	**-**	**1,296,724**

Other risk

Financial assets was EUR 463,894 as at March 31, 2026 & EUR 963,746 was March 31, 2025 carried at amortised cost is in the form of cash and cash equivalents, where the Company has assessed the counterparty credit risk. Trade receivables of EUR 202,251 as at March 31, 2026 & EUR 204,683 as at March 31, 2025 forms a significant part of the financial assets carried at amortised cost, which is valued considering provision for allowance using expected credit loss method. The Company has specifically evaluated the potential impact with respect to customers from BFSI (Banking and Financial Services) sector which could have an immediate impact and the rest which could have an impact with a lag. The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, discounting of receivables with institutions on no-recourse basis, recognition of revenue on collection basis etc., depending on severity of each case. The same assessment is done in respect of unbilled receivables EUR NIL as at March 31, 2026 & EUR 162,083 as at March 31, 2025.

g. Equity instruments

(Amount in EUR)

	As at March 31, 2026	As at March 31, 2025
Authorised:		
Equity share capital	1	1
(Share Capital of EUR 1)		
	1	**1**
Issued, subscribed and paid up:		
Equity share capital	1	1
(Share Capital of EUR 1)		
	1	**1**

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

h. Reconciliation

(Amount in EUR)

	As at March 31, 2026	As at March 31, 2025
Equity shares		
Opening balance*	1	1
Changes during the year	-	-
Closing balance	**1**	**1**

* The Company does not have number of equity shares.

ii. Rights, preferences and restrictions attached to shares

The Company has only one class of equity shares which is an 100% investment by Diligenta Limited (UK). Since Diligenta Limited (UK) is the only shareholder for the Company, Diligenta Limited (UK) carry a right to dividend and also in the event of liquidation, Diligenta Limited (UK) is eligible to receive the remaining assets of the Company.

iii. Details of shares held by shareholders holding more than 5% of the aggregate shares in the Company

(Amount in EUR)

Equity Shares	As at March 31, 2026	As at March 31, 2025
Diligenta Limited (UK)	1	1

	Amount in Euro	% of Total Shares		
Diligenta Limited (UK)	1	100%	0%	
Total	**1**	**100%**	**0%**	

7. LEASES

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

The details of the right-of-use asset held by the Company is as follows:

(Amount in EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Leasehold building	-	8,843
Total	**-**	**8,843**

During the previous year, the Company had entered into lease arrangements primarily relating to office premises. The said lease has since been cancelled, and accordingly, the Company does not have any active lease contracts during the current year. Consequently, there are no lease restrictions, commitments, or obligations towards variable lease payments as at the reporting date.

8. NON-FINANCIAL ASSETS AND NON-FINANCIAL LIABILITIES

a. Other liabilities

Other liabilities consist of the following:

(Amount in EUR)

	As at March 31, 2026	As at March 31, 2025
Other liabilities - Current		
Indirect tax payable and other statutory liabilities	381,613	175,803
	381,613	**175,803**

Notes forming part of the Financial Statements

9. OTHER EQUITY

Other equity consist of the following:

(Amount in EUR)

	As at March 31, 2026	As at March 31, 2025
Retained earnings		
Profit/(Loss) for the year	1,830	1,701
	1,830	**1,701**

10. REVENUE RECOGNITION

The Company earns revenue primarily by providing services to the customers from BFSI (Banking and Financial Services) sector.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the entity expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degree of completion of the performance obligation. The contract cost used in computing the revenues include cost of fulfilling warranty obligations.
- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of licence whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by industry verticals, geography and nature of services.

Revenue disaggregation by nature of services is as follows:

(Amount in EUR)

	For the Period Apr 24 to Mar 26	For the Period Sep 23 to Mar 25
Consultancy services	1,981,237	1,963,611
Total	**1,981,237**	**1,963,611**

Revenue disaggregation by geography is as follows:

(Amount in EUR)

Geography	For the Period Apr 24 to Mar 26	For the Period Sep 23 to Mar 25
Europe	1,981,237	1,963,611
Total	**1,981,237**	**1,963,611**

Geographical revenue is allocated based on the location of the customers.

Information about major customers:

Athora Netherlands N.V. represents 10% or more of the Company's total revenue during the year ended March 31, 2026.

While disclosing the aggregate amount of transaction price yet to be recognized as revenue towards unsatisfied or partially satisfied performance obligations, along with the broad time band for the expected time to recognize those revenues, the Company has applied the practical expedient in Ind AS 115. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognized corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts.

Reconciliation of revenue recognized with the Contracted price is as follows :

(Amount in EUR)

	For the Period Apr 24 to Mar 26	For the Period Sep 23 to Mar 25
Contracted price	1,981,237	1,963,611
Revenue recognised	**1,981,237**	**1,963,611**

a. Other income

Other Income consist of the following:

(Amount in EUR)

	For the Period Apr 24 to Mar 26	For the Period Sep 23 to Mar 25
Net foreign exchange gains/(loss)	-	1,018
	-	**1,018**

Notes forming part of the Financial Statements

11. COST RECOGNITION

Costs and expenses are recognised when incurred and have been classified according to their nature.

The costs of the Company are broadly categorised in, depreciation and amortisation expense and other expenses. Other expenses mainly include fees to external consultants, facility expenses, travel expenses, communication expenses and other expenses. Other expenses is an aggregation of costs which are individually not material such as commission and brokerage, recruitment and training, entertainment, etc.

a. Other expenses

Other expenses consist of the following:

(Amount in EUR)

	For the Period Apr 24 to Mar 26	For the Period Sep 23 to Mar 25
Fees to external consultants (including subcontractor cost)*	1,956,448	1,939,316
Facility expenses	19,346	9,679
Other expenses	3,147	3,103
	1,978,942	**1,952,097**

*EUR 509,581 pertains to cost of personnel on deputation from Tata Consultancy Services Netherlands.

12. FINANCE COSTS

Finance costs consist of the following:

(Amount in EUR)

	For the Period Apr 24 to Mar 26	For the Period Sep 23 to Mar 25
Interest on lease liabilities	36	1,474
	36	**1,474**

13. INCOME TAXES

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income taxes

The current income tax expense for the entity has been computed based on the tax laws applicable in the jurisdiction in which it operates.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction provided the Company has a legally enforceable right to set off the recognised amounts and intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax asset are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The Company recognises interest levied and penalties related to income tax assessments in income tax expenses.

The Income-tax expenses consist of the following:

(Amount in EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Current tax		
Current tax benefit pertaining to prior years	429	514
	429	**514**
	-	-
Total income tax expense recognised in current year	**429**	**514**

The reconciliation of

(Amount in EUR)

	Year ended March 31, 2026	Year ended March 31, 2025
Profit/(Loss) before taxes	2,259	2,215
Enacted Income tax rate in Diligenta (Europe)	19.00%	19.00%
Expected Income tax expenses	429	323
Tax effect of adjustments to reconcile expected income tax expense to reported income tax expense:	-	67
	429	**390**

The tax rates under Diliganta (Europe) B.V. Income Tax Act, for the year ended March 31, 2025 is 19.00%.

There are no material temporary tax difference during the year givind rise to Deffered Tax.

14. SEGMENT INFORMATION

The Company publishes the standalone financial statements of the Company along with the consolidated financial statements. In accordance with Ind AS 108, Operating Segments, the Company has disclosed the segment information in the consolidated financial statements.

15. RELATED PARTY TRANSACTIONS

Diligenta (Europe) B.V. principal related parties consist of its holding Company Tata Consultancy Services Netherlands BV, intermediate holding Company Tata Consultancy Services Limited and ultimate holding Company Tata Sons Private Limited. Company routinely enters into transactions with its related parties in the ordinary course of business.

Transactions with related parties are as follows:

Independent Auditor's Report

The Members

Coastal Cloud Holdings, LLC and Subsidiaries
Palm Coast, Florida

Opinion

We have audited the consolidated financial statements of Coastal Cloud Holdings, LLC and its subsidiaries (the Company), which comprise the consolidated balance sheets as of December 31, 2025 and 2024, and the related consolidated statements of income, changes in members' deficit, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Consolidated Financial Statements

1. Basis of Presentation and Summary of Significant Accounting Policies

Description of the Business

Coastal Cloud Holdings, LLC (Holdings), through its subsidiary Coastal Cloud, LLC (Coastal Cloud), provides professional IT consulting and managed services primarily built on the Salesforce platform. Headquartered in Palm Coast, Florida, Coastal Cloud serves clients across the United States operating in a variety of industries, including nonprofit, public sector, healthcare, manufacturing, professional services, technology, communications, media, hospitality, and financial services.

On June 1, 2020, the Amended and Restated Limited Liability Company Agreement of Coastal Cloud Holdings, LLC (Holdings Operating Agreement) was executed, which provides for, among other things, the governance of Holdings, economic and other rights of the members, and the authorization of the capital structure, as further described in Note 8.

On June 1, 2020, in accordance with the Securities Purchase Agreement, two investment funds controlled by Sverica Capital Partners, LP (Sverica) and an investment fund controlled by Salesforce Ventures, LLC (Salesforce Ventures) obtained a controlling interest in Holdings from Graphene Investments, Inc. (Seller) through a series of transactions hereinafter referred to as "the 2020 Transaction." Concurrently, Holdings entered into a management services agreement with Sverica, whereby Sverica provides financial advisory and management consulting services to Holdings at the stated fees so long as Sverica has any economic interest, as defined within the agreement.

On March 16, 2023, Holdings formed CC Structure Co LLC as a wholly owned Delaware limited liability company, which owns 0.2% of Coastal Cloud Intermediate, LLC. On March 27, 2023, Holdings formed Coastal Cloud Canada Corp., a Canadian Corporation wholly owned by Coastal Cloud, to expand its market presence and attract additional staff in the region. There has been no activity to date in Coastal Cloud Canada Corp.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Holdings and its wholly owned subsidiaries, Coastal Cloud Intermediate, LLC; Coastal Cloud; and CC StructureCo LLC, all of which are Delaware limited liability companies, and Coastal Cloud Canada Corp., which is a Canadian Corporation. All intercompany balances and transactions have been eliminated in consolidation. The consolidated entities will hereinafter be referred to as "the Company."

Basis of Presentation

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the amounts and disclosures reported in the consolidated financial statements. Actual results could differ from those estimates. On an ongoing basis, the Company evaluates its estimates, including allowances for credit losses, the fair value of contingent consideration, the fair value of share-based payment awards, and the recoverability of goodwill and long-lived assets. Any changes in estimates are adjusted prospectively in the consolidated financial statements.

Income Tax Status

The Company is treated as a partnership for income tax purposes and generally does not incur income taxes. Instead, the Company's earnings and losses are allocated in accordance with the related operating agreements and included in the income tax returns of the members. Accordingly, no provision or liability for federal or state income taxes has been included in the consolidated financial statements. Consequently, federal income taxes are not payable or provided for by the Company. The Company files income tax returns in the U.S. federal and various state jurisdictions.

Fair Value Measurements

A three-tier fair value hierarchy is used to classify and disclose all assets and liabilities measured at fair value on a recurring basis, as well as assets and liabilities measured at fair value on a non-recurring basis, in periods subsequent to their initial measurement. The hierarchy requires the use of observable inputs when available, and to minimize the use of unobservable inputs when determining fair value. The three tiers are defined as follows:

Level 1 – This level consists of observable inputs based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 – This level consists of inputs, other than quoted prices in active markets, which are observable either directly or indirectly.

Level 3 – This level consists of significant unobservable inputs that cannot be corroborated by observable market data, which are generally determined using valuation models incorporating management estimates of market participant assumptions.

The carrying amounts of the Company's financial instruments, including cash, accounts receivable, other current assets, accounts payable, accrued expenses, deferred revenue, and accrued compensation, approximate their respective fair values due to their short-term nature.

The fair value of the Company's long-term debt approximates the carrying value due to the variable interest at market rates.

Contingent consideration liabilities arising from business combinations are initially recognized at fair value as of the acquisition date and are subsequently remeasured at fair value at each reporting date until the contingency is resolved. The Company determines the fair value of contingent consideration using valuation techniques and assumptions that it believes a market participant would use in pricing the liability at the measurement date. The valuation technique and related fair value hierarchy classification depend on the nature of the significant inputs used in the measurement. Changes in the fair value of contingent consideration are recognized in the consolidated statements of income in the period of change.

Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Codification (ASC) Topic 606, Revenue from Contracts with Customers (ASC 606), which involves a five-step process that results in the recognition of revenue that depicts the transfer of promised services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those services.

The Company's revenue is derived from two primary types of professional services:

- Consulting services involve the installation, optimization, and integration of cloud-based technologies and software products into the customers' computing environments, as well as training, project management, and other IT-related consulting services.
- Managed services involve the delivery of a specified number of hours of technical support and maintenance services to the customer, which are required to be used within the agreed-upon timeframe (generally 12 months or less).

Contracts for professional services are priced and billed based on:

- Time and materials, whereby customers are invoiced based on actual hours expended at the negotiated hourly billing rates as specified in the contract, plus the actual cost of materials incurred.
- Fixed fee, whereby customers are invoiced based on amounts specified within the contract.

The majority of the Company's contracts with customers are completed within one year. Contract amendments and change orders, which are generally not distinct from the existing contract, are accounted for as a modification of the existing contract.

Revenue from contracts for professional services is recognized over time as services are rendered using a relevant measure of progress towards completion, such as the input method of labor hours expended for contracts priced on a time and materials basis, or the output method based on the completion of specified milestones for contracts priced on a fixed-fee basis.

Some of the Company's managed service arrangements are subject to customer acceptance clauses. In these instances, the Company must determine whether the customer acceptance clause is substantive. This determination depends on whether the Company can independently confirm the delivered service meets the contractually agreed-upon specifications or if the contract requires customer review and approval. When a customer acceptance is considered substantive, the Company does not recognize revenue subject to the acceptance clause until customer acceptance is obtained. The Company defers labor costs associated with revenue that is awaiting customer acceptance to recognize revenue.

Cost of Services

Cost of services primarily consists of salaries and other personnel-related costs for employees and contractors who provide professional services to customers. Additionally, expenses for travel and other job-related costs that are not reimbursed by the customer are included in cost of services. On an ongoing basis, management reviews estimates of total actual and expected project costs and assesses changes in job performance, conditions, and requirements, as these factors influence estimates of

the total contract transaction price, total costs to complete those contracts, and the Company's profit recognition. Changes in these factors could result in changes in estimates in the period in which the revisions are determined, which could affect the Company's consolidated results of operations for that period.

Cash

Cash balances consist of depository accounts held with a major financial institution. The Company considers all highly liquid investments with original maturities of 90 days or less to be cash equivalents. As of December 31, 2025 and 2024, the Company did not have any cash equivalents.

Accounts Receivable and Allowance for Credit Losses

Accounts receivable relate to services provided to customers in the ordinary course of business and are recorded when invoices are issued. Under ASC 326, Financial Instruments – Credit Losses, Measurement of Credit Losses on Financial Instruments, the Company reserves for potentially uncollectable accounts receivable. The current expected credit losses (CECL) methodology utilizes historical loss data combined with current conditions and reasonable and supportable forecasts of future losses. The Company regularly reviews the allowance for credit losses, and the estimate of expected credit losses is based on information about past events, historical loss experience, balances past due by aging category, prior payment history with affected customers, geographic conditions, current economic conditions, and forecasts of future economic conditions that affect the collectability. Accounts receivable which are determined to be uncollectable are written off against the CECL reserve. Write-offs of uncollectible accounts and the provision for the allowance for credit losses are a component of general and administrative expenses.

Contract Assets and Liabilities

Amounts recognized as revenue for the delivery of professional services but not yet invoiced are contract assets and are recorded as unbilled receivables within accounts receivable, net, in the consolidated balance sheets.

The Company sometimes receives advances or deposits from its customers before the related services are performed, resulting in contract liabilities (deferred revenue). These contract liabilities are recognized as revenues as the Company fulfills its performance obligations under the terms of the applicable contract.

In instances where the timing of revenue recognition differs from the timing of invoicing, the Company has determined its contracts do not include a significant financing component.

The Company may incur certain costs that can be capitalized, such as initial setup or mobilization costs. These costs were not material as of December 31, 2025 and 2024.

Internal-Use Software

Internal-use software relates to pre-designed application accelerators that can be leveraged on future client engagements and is amortized on a straight-line basis over the estimated useful life of five years. The Company assesses the recoverability of internal-use software whenever events or changes in circumstances indicate that the carrying value may not be recoverable. If the recoverability of these assets is unlikely because of the existence of certain factors, the Company may be required to record an impairment charge. There were no events or conditions identified during the years ended December 31, 2025 and 2024 that caused the Company to conclude that internal-use software should be tested for impairment.

Intangible Assets

Intangible assets include customer relationships, trade names, and noncompete agreements, which are marketing-related intangible assets and are amortized on a straight-line basis over their estimated remaining useful lives, which ranges from five to eleven years. The Company tests intangible assets for impairment when a triggering event occurs indicating the fair value might be below the carrying and may not be recoverable. Recoverability is assessed by comparing the carrying amount to the sum of the undiscounted future cash flows expected from the use and eventual disposition of the asset, and if the carrying amount exceeds that sum, the impairment loss is measured as the excess of the carrying amount over the asset's fair value. There were no events or conditions identified during the years ended December 31, 2025 and 2024 that caused the Company to conclude that intangible assets should be tested for impairment.

Goodwill

Goodwill represents the excess of the purchase price of an acquired business over the fair value of the identifiable net assets acquired. The Company has elected the private company alternative under Accounting Standards Update (ASU) 2014-02,

Accounting for Goodwill, to amortize goodwill on a straight-line basis over a ten-year period beginning June 1, 2020, the date of the 2020 Transaction. The ten-year useful life will be revised if warranted by changing events and circumstances, subject to the ten-year limit. The Company tests for impairment when triggering events occur indicating the fair value might be below the carrying amount. When a triggering event is identified, the Company first performs a qualitative assessment to determine whether it is more likely than not that the fair value of the entity is less than its carrying amount. If the qualitative assessment indicates that impairment is more likely than not, the Company performs a quantitative test at the entity level, measuring impairment as the excess of the carrying amount over fair value, limited to the total carrying amount of goodwill. There were no events or conditions identified during the years ended December 31, 2025 and 2024 that caused the Company to conclude that goodwill should be tested for impairment.

Leases

The Company primarily has operating leases for office space. Under ASC 842, Leases (ASC 842), the Company recognizes a right-of-use (ROU) asset and lease liability to account for its leases with a term longer than 12 months. ROU assets and lease liabilities are recognized on the commencement date based on the present value of lease payments over the lease term. ROU assets are based on the lease liability and are increased by prior-year deferred rent.

The Company elected the package of practical expedients permitted under the transition guidance in ASC 842 and did not reassess prior conclusions related to contracts containing leases, lease classification, and initial direct costs.

Leases typically contain rent escalations over the lease term. The Company recognizes expense for these leases on a straight-line basis over the lease term. Certain leases require the Company to pay taxes, insurance, maintenance, and other operating expenses associated with the leased asset. Such amounts are not included in the measurement of the ROU assets and lease liabilities to the extent they are variable in nature. These variable lease costs are recognized as a variable lease expense when incurred.

The Company includes renewal periods in its operating lease commitment when the renewals are considered reasonably assured of being exercised. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

As a practical expedient, lease agreements with lease and non-lease components are accounted for as a single lease component for all asset classes. The Company elected the short-term lease recognition exemption for all leases that qualify. Therefore, leases with an initial term of 12 months or less are not recorded on the consolidated balance sheets; instead, lease payments are recognized as lease expense on a straight-line basis over the lease term. The depreciable life of the ROU assets is limited by the expected lease term unless the Company is reasonably certain of a transfer of title or purchase option.

As a practical expedient, the Company elected to use a risk-free rate as the discount rate for all asset classes.

Debt Issuance Costs

Debt issuance costs are recorded as a reduction to the carrying amount of the related debt liability and are amortized to interest expense over the term of the debt instrument using the effective interest method. Upon the early extinguishment of the related debt, any unamortized debt issuance costs are immediately expensed and included in current earnings.

Advertising Costs

Advertising costs are expensed during the period in which they are incurred. Advertising costs are included in sales and marketing expense on the consolidated statements of income and amounted to USD 440 and USD 292, respectively, for the years ended December 31, 2025 and 2024.

Share-Based Compensation

Pursuant to individual equity award agreements and as part of the Company's Incentive Equity Plan, Common Units are granted to certain key employees and are accounted for by the Company as share-based compensation transactions in accordance with ASC 718, Compensation - Stock Compensation. The Company applies fair value recognition for all share-based payment transactions, which are measured at the grant date, based on the fair value of the award using the Black-Scholes pricing model, and recognized as compensation expense over the requisite service period and/or the achievement of certain performance criteria at the time of a qualifying change of control event.

Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Certain insurance policies held by the Company may reduce the cash outflows with respect to an adverse outcome related to loss contingencies.

Concentration of Credit Risk

Cash is deposited with a financial institution that management believes to be of high credit quality. Cash balances may exceed federally insured limits at times. To date, no losses have been experienced and management believes it is not exposed to any significant credit risk related to these cash accounts.

The creditworthiness of customers is regularly evaluated and allowances for anticipated losses are maintained. Exposure to losses on receivables is principally dependent on each customer's financial condition.

As of December 31, 2025, no customer accounted for more than 10% of accounts receivable. For the year ended December 31, 2025, no customer accounted for more than 10% of revenue. As of December 31, 2024, no customer accounted for more than 10% of accounts receivable. For the year ended December 31, 2024, one customer accounted for more than 10% of revenue.

2. Contracts with Customers

The following table presents the Company's revenues from contracts with customers by business activity:

Year ended December 31, 2025

(USD in thousands)

	Consulting Services	Managed Services	Other	Total
Services transferred over time	94,506	48,349	-	142,855
Services transferred at point in time	-	-	1,057	1,057
Total revenues, from contracts with customers	94,506	48,349	1,057	143,912

Year ended December 31, 2024

(USD in thousands)

	Consulting Services	Managed Services	Other	Total
Services transferred over time	98,781	31,937	-	130,718
Services transferred at point in time	-	-	1,382	1,382
Total revenues, from contracts with customers	98,781	31,937	1,382	132,100

Accounts receivable, net, is comprised of:

(USD in thousands)

	Year ended December 31, 2025	Year ended December 31, 2024
Trade accounts receivable	17,597	18,085
Unbilled receivables	2,337	644
Allowance for credit losses	(399)	(375)
Accounts Receivable, Net	**19,535**	**18,354**

There were no other contract assets recognized as of December 31, 2025 and 2024 or during the years then ended.

Contract liabilities consist of deferred revenue and relate to amounts invoiced and collected before the related services are

performed. Contract liabilities totaled USD 496 as of December 31, 2025, all of which is expected to be recognized as revenue for the fulfillment of the related performance obligations during the year ending December 31, 2026. Contract liabilities totaled USD 898 as of December 31, 2024, all of which was recognized as revenue for the fulfillment of the related performance obligations during the year ended December 31, 2025.

3. Earn-Out Payable

In connection with the 2020 Transaction, the Company recognized a contingent consideration liability for a potential future payment of up to USD 10,000 payable by Holdings to Seller, contingent upon achieving a specified return on invested capital upon a future exit event (the Exit Earn-Out). The Exit Earn-Out is a liability-classified contingent consideration arrangement and is remeasured at fair value at each reporting date, with changes in fair value recognized in the consolidated statements of income. During the year ended December 31, 2025, the Company revised its estimate of the fair value of the Exit Earn-Out from USD 5,920 to USD 10,000 and recognized a corresponding USD 4,080 increase in the consolidated statements of income. This increase was driven by updated facts and circumstances known as of December 31, 2025, including the execution and public announcement in December 2025 of a definitive agreement for the sale of the Company, as further discussed in Note 11. Based on the terms of the Exit Earn-Out arrangement and the transaction value associated with that agreement, management concluded that the threshold associated with the maximum contractual payout had been exceeded and that the full contractual amount of USD 10,000 represented the best estimate of fair value as of December 31, 2025. Although the transaction did not close until January 2026, management concluded that the definitive agreement in place as of December 31, 2025 provided sufficient evidence to support the year-end remeasurement. Management considers the 2025 remeasurement of the Exit Earn-Out to reflect a change in estimate.

The change in the fair value was as follows:

(USD in thousands)

	Year ended December 31, 2025	Year ended December 31, 2024
Earn-Out Payable, beginning of year	5,920	6,500
Changes in fair value	4,080	(580)
Earn-Out Payable, end of year	**10,000**	**5,920**

4. Intangible Assets, Internal-Use Software, and Goodwill

Intangible assets, internal-use software, and goodwill consist of the following:

December 31, 2025

(USD in thousands)

	Useful Life (Years)	Gross Carrying Amount	Accumulated Amortization	Net
Intangible Assets				
Customer relationships	9	22,600	14,020	8,580
Trade names	11	6,500	3,300	3,200
Noncompete agreements	5	2,000	2,000	-
Total Intangible Assets		31,100	19,320	11,780
Internal-use software	5	3,400	3,400	-
Goodwill	10	32,795	18,311	14,484
Total		**67,295**	**41,031**	**26,264**

(USD in thousands)

	Useful Life (Years)	Gross Carrying Amount	Accumulated Amortization	Net
Intangible Assets				
Customer relationships	9	22,600	11,509	11,091
Trade names	11	6,500	2,709	3,791
Noncompete agreements	5	2,000	1,833	167
Total Intangible Assets		31,100	16,051	15,049
Internal-use software	5	3,400	3,117	283
Goodwill	10	32,795	15,031	17,764
Total		**67,295**	**34,199**	**33,096**

Amortization expense related to intangible assets, internal-use software, and goodwill was USD 6,832 and USD 7,462 for the years ended December 31, 2025 and 2024, respectively, and was included in depreciation and amortization in the consolidated statements of income. The weighted-average remaining useful life of intangible assets included in the table above was approximately 3.96 years as of December 31, 2025.

Estimated future amortization expense as of December 31, 2025 is as follows:

(USD in thousands)

	Intangible Assets	Goodwill	Total
2026	3,102	3,280	6,382
2027	3,102	3,280	6,382
2028	3,102	3,280	6,382
2029	1,637	3,280	4,917
2030	591	1,364	1,955
Thereafter	246	-	246
Total	**11,780**	**14,484**	**26,264**

5. Debt

The Company is party to a credit agreement (the Credit Agreement) originally entered into on June 1, 2020 and amended from time to time, most recently on April 9, 2025, with various lenders and Eldridge Credit Advisers, LLC (formerly known as Maranon Capital, L.P.) as administrative agent. The April 2025 amendment extended the maturity date of the term loans and revolving credit facility from June 1, 2025 to June 1, 2027 and updated certain related terms, including the lender commitment schedule.

Long-term debt consists of the following:

(USD in thousands)

	Year ended December 31, 2025	Year ended December 31, 2024
Term A Loan	47,100	59,100
Less: debt issuance costs, net of accumulated amortization	(317)	(154)
Long-Term Debt, Net	**46,783**	**58,946**

During the years ended December 31, 2025 and 2024, the Company made voluntary principal prepayments of USD 12,000 and USD 6,500, respectively. After giving effect to the amendment and the Company's voluntary principal prepayments, no principal was due within one year as of December 31, 2025. Interest on the outstanding term loans is payable at least quarterly and

accrues at variable rates under the Credit Agreement based on either the Alternate Base Rate or Adjusted Term SOFR, in each case plus an applicable margin determined by the Company's Total Net Leverage Ratio. As of December 31, 2025 and 2024, the applicable interest rate on the outstanding term loans was 8.42% and 9.24%, respectively. In connection with the April 2025 amendment, the Company incurred additional debt issuance costs of USD 447 during 2025. Amortization of debt issuance costs was USD 285 and USD 371 for the years ended December 31, 2025 and 2024, respectively.

The Credit Agreement also provides for a revolving credit facility of USD 5,000. No amounts were outstanding under the revolving credit facility as of December 31, 2025 or 2024, and no amounts were drawn during the years then ended.

The Credit Agreement is collateralized by substantially all assets of Coastal Cloud and guaranteed by Coastal Cloud Intermediate, LLC. The Credit Agreement requires the Company to comply with certain financial and non-financial covenants and contains customary events of default subject to certain threshold amounts and grace periods. The Company was in compliance with all covenants as of December 31, 2025 and 2024.

Future maturities of the outstanding principal due on the long-term debt in years subsequent to December 31, 2025 are as follows:

(USD in thousands)

2026	-
2027	47,100
Total	**47,100**

6. Commitments and Contingencies

The Company is subject to various litigation that arises in the ordinary course of business and could be involved in litigation due to the nature of its business. Management cannot predict the outcome of such litigation or estimate the amount of any loss that may result. Accordingly, no provision for any contingent liabilities that may result has been made in the consolidated financial statements.

7. Leases

The Company leases office space facilities under operating lease arrangements with remaining lease terms extending through 2027. During 2025, two leases expired and one new lease commenced resulting in four operating leases as of December 31, 2025. During 2024, no leases expired, and no new leases commenced resulting in five operating leases as of December 31, 2024.

The components of lease expense are as follows:

(USD in thousands)

	Year ended December 31, 2025	Year ended December 31, 2024
Operating lease expense	471	492
Short term lease expense	163	156
Variable lease expense	21	38
Total Lease Expense	**655**	**686**

As of December 31, 2025, the maturities of lease liabilities under operating leases are as follows:

(USD in thousands)

2026	145
2027	53
	198
Less: imputed interest	(3)
Total	**195**

The following table presents the weighted-average remaining lease term and discount rate:

(USD in thousands)

	Year ended December 31, 2025	Year ended December 31, 2024
Weighted-average remaining lease term	1.25 years	3.61 years
Weighted-average discount rate	1.92%	1.59%

8. Members' Deficit

In accordance with the Holdings Operating Agreement, the Company's capital structure consists of two classes of membership interests:

- Class A Preferred Units – The Board of Managers has the authority to authorize and issue an unlimited number of Class A Preferred Units in accordance with the terms of the Holdings Operating Agreement. Members participate in profits and losses and are eligible to receive distributions first to the holders of Class A Preferred Units until their unreturned capital is reduced to zero, and second, to the holders of Class A Preferred Units in accordance with their percentage interest.
- Common Units – Common Units are authorized and reserved for future issuances, primarily to employees, consultants, directors, managers, or others providing services to the Company (the Incentive Equity Pool), pursuant to equity agreements approved by the Board of Managers. The terms and conditions of each Equity Agreement, which do not need to be the same, must be approved by the Board of Managers. The number of Common Units in the Incentive Equity Pool may be changed from time to time by the Board of Managers. Common Units forfeited to or repurchased by the Company shall be available for future grants under the Incentive Equity Pool. The authorized Common Units were increased to 9,380,060 from 6,651,339 on August 17, 2023.

No contributions were received during the years ended December 31, 2025 and 2024. During the years ended December 31, 2025 and 2024, the Company approved distributions to members in the amount of USD 4,394 and USD 1,968, respectively, related to tax estimates for 2025 and 2024.

During the years ended December 31, 2025 and 2024, pursuant to separate equity award agreements, Holdings issued a total of 0 and 164,258 Common Units, respectively, in consideration of services to be rendered by the recipients to Holdings and its subsidiaries. In addition, 199,355 and 888,903 Common Units were forfeited during the years ended December 31, 2025 and 2024, respectively. The Common Units contain time-based and performance-based vesting requirements and are subject to vesting and forfeiture restrictions if the recipient's employment with the Company is terminated. The fair value of Common Units granted for the years ended December 31, 2025 and 2024, which was determined using an option pricing model, was USD 5,108 and USD 5,137, respectively. The application of this valuation method involves assumptions that are judgmental and highly sensitive. Holders of Common Units are required to be continuously employed by the Company at the time of exercise. As of December 31, 2025 and 2024, and for the years then ended, no Common Units have vested, and share-based compensation expense of USD 991 and USD 961, respectively, has been recognized. As of December 31, 2025 and 2024, there was approximately USD 2,247 and USD 3,383, respectively, of unrecognized compensation cost related to Common Units, which is expected to be recognized over a weighted-average period over five years.

The Common Units activity is summarized as follows:

	Common Units
Outstanding, December 31, 2023	**8,013,824**
Granted	164,258
Forfeited	(888,903)
Outstanding, December 31, 2024	**7,289,179**
Granted	-
Forfeited	(199,355)
Outstanding, December 31, 2025	**7,089,824**

As of December 31, 2025 and 2024, there are 59,800,298 Class A Preferred Units authorized, issued, and outstanding, and 9,380,060 Common Units authorized, of which 7,089,824 and 7,289,179, respectively, have been issued and are outstanding.

9. Employee Benefits

Coastal Cloud has a 401(k) plan covering all eligible employees. The Company is required to match each employee's elective deferral on a dollar-for-dollar basis up to the first 3% of the employee's compensation and 50 cents on the dollar on the next 2%. Employees are fully vested in all contributions to their respective 401(k) plan. The employer match was USD 2,240 and USD 2,059, respectively, for the years ended December 31, 2025 and 2024.

10. Related Party Transactions

On June 1, 2020, Holdings entered into a management services agreement with Sverica, whereby Sverica will provide financial advisory and management consulting services to Holdings at the stated annual fee of USD 200, which is paid quarterly, so long as Sverica has any economic interest in the Company, as defined within the agreement. The Company incurred and paid USD 200 and USD 200 of management fees related to this agreement during the years ended December 31, 2025 and 2024, respectively, which are included within general and administrative expense in the consolidated statements of income.

11. Subsequent Events

The Company has evaluated events and transactions occurring subsequent to December 31, 2025 and through April 30, 2026, which is the date the consolidated financial statements were available to be issued, for events or transactions that require recognition in the consolidated financial statements or disclosure in the notes thereto. No material events or transactions have occurred since December 31, 2025 that require recognition or disclosure in the consolidated financial statements except for the following:

On January 14, 2026, affiliates of Tata Consultancy Services Limited completed the acquisition of 100% of the equity interests of Holdings pursuant to the Securities Purchase Agreement and Plan of Merger dated December 10, 2025 and publicly announced in December 2025. The transaction provided for base consideration of USD 700 million, subject to customary adjustments, and included repayment of the Company's existing Credit Agreement in connection with closing. Because the transaction was completed after year end, the effects of the acquisition are not reflected in the accompanying consolidated financial statements. As of the date the consolidated financial statements were available to be issued, the Company had not completed its initial accounting for the transaction, including the determination of the fair values of assets acquired and liabilities assumed and the related allocation of purchase consideration, and therefore the Company is unable to disclose the full consolidated financial statement effect of the acquisition at this time.

3-101-951221 SOCIEDAD ANÓNIMA

Report on the special purpose Ind AS Financial Statements

OPINION

We have audited the accompanying Special purpose Ind AS financial statements of 3-101-951221 SOCIEDAD ANÓNIMA ('the Company), which comprises the Balance Sheet as at 31st March 2026, (for the Period from December 15, 2025 to March 31,2026) the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the Period from December 15, 2025 to March 31,2026, and the summary of the material accounting policies and other explanatory information (hereinafter referred to as "the special purpose Ind AS financial statements"). The special purpose Ind AS financial statements have been prepared by the management as described in Note 2 to the Special Purpose Ind AS financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special purpose Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2026, and it's profit (including other Comprehensive Income), Changes in Equity and its Cash Flows for the period ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Special purpose Ind AS financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Special purpose Ind AS financial statements under the provisions of the Act and the Rules thereunder and fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MANAGEMENT'S RESPONSIBILITY FOR THE SPECIAL PURPOSE IND AS FINANCIAL STATEMENTS

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Special purpose Ind AS financial statements that give a true and fair view of the state of affairs, profit/ loss and (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special purpose Ind AS financial statements that give a true and fair view and are free from misstatement, whether due to fraud or error.

In preparing these Special purpose Ind AS financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE SPECIAL PURPOSE IND AS FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Special purpose Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered

material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special purpose Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

  Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS (TO THE EXTENT APPLICABLE TO A COMPANY INCORPORATED OUTSIDE INDIA)

1. As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books.

   c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

RESTRICTION ON DISTRIBUTION AND USE

This Special purpose Ind AS financial statements have been prepared for the limited purpose of consolidated financial statements, to comply with the Section 129(3) of the Companies Act 2013, of Tata Consultancy Services Limited for the year ended 31st March,2026 in accordance with Accounting Standard specified in section 133 of the Companies Act 2013. Our report is intended solely for the information and use of Board of Directors of the company and Tata Consultancy Services Limited for the preparation of consolidated this Special purpose Ind AS financial statements as aforesaid and for the use at their annual general meetings for the information of their members. It is not intended to be and should not be used by anyone other than specified parties.

Notes forming part of the Financial Statements
For the years ended March 31, 2026
(In thousands of CRC)

1) CORPORATE INFORMATION

3-101-951221 Sociedad Anónima (hereinafter referred as 'the Company') is a subsidiary of TCS Iberoamerica S.A and TCS Uruguay S.A. provides information technology (IT) and IT enabled services in the Country of Costa Rica. The company has been incorporated during the year on December 15, 2025 and started its operation from January 2026. As a result, figures for the previous year are not applicable. The company's principal business center is located at Tower G, at El Cafetal II, C. Arbolito 419, Heredia, CRI 40703.

Authorization

On May 06, 2026 Mr. Renzo Parodi and Mr. Latesh Sewani authorized the issuance of the accompanying financial statements and related notes thereto.

2) STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules as amended from time to time.

3) BASIS OF PREPARATION

These financial statements have been prepared in Costa Rican Colones (CRC) which is the functional currency of the company. These financial statements have been prepared on historical cost basis except for certain financial instruments and defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customer and time elapsed between deployment of resources and realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flow has been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the balance sheet date and exchange gains and losses arising on settlement and restatement are recognised in the statement of profit and loss.

The significant accounting policies used in preparation of the financial statements have been discussed in the respective notes.

4) USE OF ESTIMATES AND JUDGEMENTS

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting estimates in preparation of its financial statements.

a) Useful lives of property, plant and equipment

The Company reviews the Useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

b) Valuation of deferred tax assets

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. The Company reviews the carrying amount of deferred tax assets at the end of each reporting period.

c) Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

d) Employee benefits

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

e) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 16. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5) RECENT ACCOUNTING STANDARDS

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

1. Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the

reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.

2. Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

3. Ind AS 12, International Tax Reform – Pillar Two Model Rules applicable immediately - The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. This relief is immediate and applies retrospectively.

6) FINANCIAL ASSETS, FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial liabilities

Financial liabilities are measured at amortized cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

a. Cash and cash equivalents

Cash and cash equivalents consists of the following:

(In Thousands of CRC)

	As at March 31, 2026
Balances with banks	
In current accounts	219,228.43
	219,228.43

b. Other financial assets

Other financial assets consist of the following:

(In Thousands of CRC)

	As at March 31, 2026
Security deposits	2,493.98
	2,493.98

c. Other financial liabilities

Other financial assets consist of the following:

(In Thousands of CRC)

	As at March 31, 2026
Interest accrued but not due on borrowings	1,417.34
Accrued payroll	1,659.31
	3,076.65

d. Financial instruments by category

The carrying value of financial instruments by categories as of March 31, 2026 is as follows:

(In Thousands of CRC)

	Fair value through profit or loss	Amortised Cost	Total carrying value
Financial assets:			
Cash and cash equivalents	-	219,228.43	219,228.43
Other financial assets	-	2,493.98	2,493.98
Total	**-**	**221,722.41**	**221,722.41**
Financial liabilities:			
Other financial liabilities	-	3,076.65	3,076.65
Total	**-**	**3,076.65**	**3,076.65**

Carrying amounts of cash and trade payables as of March 31, 2026 approximate the fair value. Difference between carrying amounts and fair values of other financial assets, other financial liabilities subsequently measured at amortized cost is not significant in each of the years presented.

e. Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

f. Financial risk management

The Company is exposed primarily to credit, liquidity and interest rate risk which may adversely impact the fair value of its financial instruments. The Company's focus is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on its financial performance.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

Foreign currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss, other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar.

The foreign exchange rate sensitivity is calculated by aggregation of the net foreign exchange rate exposure and a simultaneous parallel foreign exchange rates shift of all the currencies by 10% against the functional currency the Company.

The following table sets forth information relating to unhedged foreign currency exposure as at March 31, 2026:

	USD
Net financial assets	92,921.26
Net financial liabilities	1,417.34

10% appreciation / depreciation of the respective foreign currencies with respect to functional currency of the company would result in decrease / increase in the Company's profit before tax by approximately CRC 9,150.40 thousands for the year ended March 31, 2026.

Interest rate risk

The Company is not exposed to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was CRC 221,722.41 thousands being the total of the carrying amount of cash and cash equivalents, trade receivables and other financial assets. Cash and cash equivalents are held with bank with high credit ratings. As at March 31, 2026, there were no indications that any defaults will occur on trade receivables or other financial assets.

Liquidity risk

Liquidity risk refers to the risk that the company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The company will generate sufficient cash flows from operations to meet its financial obligations as and when they fall due.

The table below provides details regarding the contractual maturities of significant financial liabilities:

(In Thousands of CRC)

	Due in 1st Year	Total
March 31, 2026		
Other financial liabilities	3,076.65	3,076.65
Total	**3,076.65**	**3,076.65**

g. Equity instruments

The authorised, issued, subscribed and fully paid-up share capital comprises of the following :

(In Thousands of CRC)

	As at March 31, 2026
Authorised :	
2,371,300 equity shares of CRC 100 each	237,130.00
	237,130.00
Issued, Subscribed and Fully paid-up:	
2,371,300 equity shares of CRC 100 each	237,130.00
	237,130.00

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

(a) Reconciliation of number of shares

	As at March 31, 2026	
	No. of Equity shares	Amount (In Thousands of CRC)
Opening balance	-	-
Issued during the year	2,371,300	237,130.00
Closing balance	**-**	**237,130.00**

(b) Rights, preferences and restrictions attached to shares

The Company has one class of equity shares having a par value of CRC 100 each. Each shareholder is eligible for one vote per share held and carry right to dividend. The dividend, proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts in proportion of their shareholding.

(c) Shares held by holding company and subsidiaries of holding company

	Number of shares
	As at March 31, 2026
Equity shares Holding Company	
Equity shares are held by TCS Iberoamerica S.A (99%)	2,347,587
Equity shares are held by TCS Uruguay S.A. (1%)	23,713
	2,371,300

7. NON-FINANCIAL ASSETS AND LIABILITIES

a. Other liabilities

Other liabilities consist of the following:

Other liabilities – Current

(In Thousands of CRC)

	As at March 31, 2026
Indirect taxes payable and other statutory liabilities	6,927.18
	6,927.18

8. OTHER INCOME

Other income consists of the following:

(In Thousands of CRC)

	For the year ended March 31, 2026
Net foreign exchange (loss)/gain	3,228.21
	3,228.21

9. EMPLOYEE BENEFITS

Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in full in the other comprehensive income for the period in which they occur. Past service cost both vested and unvested is recognised as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognises related restructuring costs or termination benefits.

The retirement benefit obligations recognised in the balance sheet represents the present value of the defined benefit obligations reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme.

Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Compensated absences

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the obligation at the balance sheet date.

Employee Benefit Expenses

Employee benefit expenses consist of the following:

(In Thousands of CRC)

	As at March 31, 2026
Salaries, incentives and allowances	22,433.00
Contribution to provident fund and other funds	5,471.00
	27,904.00

Employee benefit obligations – Current

(In Thousands of CRC)

	Year ended March 31, 2026
Compensated absences	830.23
	830.23

10. COST RECOGNITION

Costs and expenses are recognized when incurred and have been classified according to their primary nature.

The costs of the Company are broadly categorised in employee benefit expenses, depreciation and other expenses. Employee benefit expenses include employee compensation, allowances paid and contribution to various funds. Other expenses is an aggregation of costs which are individually not material.

a) Other expenses

Other expenses includes the following:

(In Thousands of CRC)

	Year ended March 31, 2026
Other expenses	87.41
	87.41

11. FINANCE COSTS

Finance cost consist of the following:

(In Thousands of CRC)

	Year ended March 31, 2026
Other Interest expenses	1,483.45
	1,483.45

12. EARNINGS PER SHARE

(In Thousands of CRC)

	Year ended March 31, 2026

To the Board of Directors

Tata Consultancy Services Maroc SARL AU

Report on the special purpose Ind AS Financial Statements

Opinion

We have audited the accompanying Special purpose Ind AS financial statements of Tata Consultancy Services Maroc SARL AU ('the Company), which comprises the Balance Sheet for the as at 31st March 2026 (for the period from January 23, 2026 to March 31,2026), the Statement of Changes in Equity and the Statement of Cash Flows for the for the from January 23, 2026 to March 31,2026 and the summary of the material accounting policies and other explanatory information (hereinafter referred to as "the special purpose Ind AS financial statements"). The special purpose Ind AS financial statements have been prepared by the management as described in Note 2 to the Special Purpose Ind AS financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special purpose Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2026, and it's Changes in Equity and its Cash Flows for the period ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Special purpose Ind AS financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Special purpose Ind AS financial statements under the provisions of the Act and the Rules thereunder and fulfilled our other ethical responsibilities in accordSance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibility for the Special purpose Ind AS financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Special purpose Ind AS financial statements that give a true and fair view of the state of affairs, profit/ loss and (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special purpose Ind AS financial statements that give a true and fair view and are free from misstatement, whether due to fraud or error.

In preparing these Special purpose Ind AS financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Special purpose Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Special purpose Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special purpose Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

  Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements
(To the extent applicable to a Company Incorporated outside India)

1. As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books.

   c) The Balance Sheet, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

Restriction on Distribution and Use

This Special purpose Ind AS financial statements have been prepared for the limited purpose of consolidated financial statements, to comply with the Section 129(3) of the Companies Act 2013, of Tata Consultancy Services Limited for the year ended 31st March, 2026 in accordance with Accounting Standard specified in section 133 of the Companies Act 2013. Our report is intended solely for the information and use of Board of Directors of the company and Tata Consultancy Services Limited for the preparation of consolidated this Special purpose Ind AS financial statements as aforesaid and for the use at their annual general meetings for the information of their members. It is not intended to be and should not be used by anyone other than specified parties.

Rammohan Gourneni
Manager

Notes forming part of the financial statements

1) Corporate information

Tata Consultancy Services Maroc SARL AU (hereinafter referred as 'the Company') is a subsidiary of Tata Consultancy Services Limited provides information technology (IT) and IT enabled services in the Country of Morocco. It was incorporated on January 23, 2026, its main business center is located at CFC Tower, Lot 57, 4ème étage, Avenue Main Street, Casa Anfa, Hay Hassani,Casablanca, Maroc, Casablanca.

Authorization

On 7th May, 2026 Mr. Rammohan Gourneni authorized the issuance of the accompanying financial statements and related notes thereto.

2) Statement of compliance

These financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules as amended from time to time.

3) Basis of preparation

These financial statements have been prepared in Moroccon Colón (MAD) which is the functional currency of the company.

These financial statements have been prepared on historical cost basis except for certain financial instruments and defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customer and time elapsed between deployment of resources and realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flows have been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the balance sheet date and exchange gains and losses arising on settlement and restatement are recognised in the statement of profit and loss.

The significant accounting policies used in preparation of the financial statements have been discussed in the respective notes.

4) Use of estimates and judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting estimates in preparation of its financial statements.

a) Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods. (Refer note 8(a)).

b) Provision for income tax and deferred tax

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax. A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.The Company reviews the carrying amount of deferred tax assets at the end of each reporting period.

c) Provision and contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

d) Employee benefits

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note.

e) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

5) Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

1. Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.
2. Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range

of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

3. Ind AS 12, International Tax Reform – Pillar Two Model Rules applicable immediately - The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. This relief is immediate and applies retrospectively.

6) Financial assets, financial liabilities and equity instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Cash and cash equivalents

The Company considers all highly liquid investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

Impairment of financial assets (other than at fair value)

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowances for doubtful trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is

based on the ageing of the receivables that are due and allowance rates used in the provision matrix.For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

a) Cash and cash equivalents

Cash and cash equivalents consist of the following:

(In Thousands of MAD)

	As at March 31, 2026
Balances with banks	
In current accounts	2,380.00
	2,380.00

b) Financial instruments by category

The carrying value of financial instruments by categories as of March 31, 2026 is as follows:

(In Thousands of MAD)

	Fair value through profit or loss	Amortised cost	Total carrying value
Financial assets:			
Cash and cash equivalents	-	2,380.00	2,380.00
Bank deposits	-	-	-
Earmarked balances with banks	-	-	-
Investments	-	-	-
Trade receivables	-	-	-
Other financial assets	-	-	-
Total	**-**	**2,380.00**	**2,380.00**

c) Financial risk management:

The Company is exposed primarily to credit, liquidity and interest rate risk which may adversely impact the fair value of its financial instruments. The Company's focus is to assess the unpredictability of the financial environment and to mitigate potential adverse effects on its financial performance.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such change in financial instruments may result from changes in the credit rating and other market changes. The Company's exposure to the market risk is primarily on account of fluctuation in market rates of NAV of mutual funds.

Interest rate risk

The fixed deposits and intercorporate deposits made by the Company bears a fixed rate of interest. Hence the Company is not significantly expose to interest rate risk.

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

- **Exposure to credit risk**

  The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was MAD 2.38 Million and Nil as of March 31, 2026 and 2025, respectively, being the total of the carrying amount of balances with banks, bank deposits, trade receivables, investments and other financial assets.

d) Equity instruments

The authorised, issued, subscribed and fully paid-up share capital comprises of the following:

(In Thousands of MAD)

	As at March 31, 2026
Authorised :	
25000 equity shares of MAD 100 each (March 31, 2026 : Nil)	2,500.00
	2,500.00
Issued, Subscribed and Fully paid-up:	
25000 equity shares of MAD 100 each (March 31, 2026 : Nil)	2,500.00
	2,500.00

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed.

(a) Reconciliation of number of shares

(In Thousands of MAD)

	As at March 31, 2026	
	No. of Equity shares	Amount
Opening balance	-	-
Issued during the year	25,000.00	2,500.00
Closing balance	**25,000.00**	**2,500.00**

(b) Rights, preferences and restrictions attached to shares

The Company has one class of equity shares having a par value of MAD 100 each. Each shareholder is eligible for one vote per share held and carry right to dividend. The dividend, proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts in proportion of their shareholding.

(c) Shares held by holding company and subsidiaries of holding company

(In Thousands of MAD)

	Number of shares As at March 31, 2026
Equity shares	
Holding Company	
25000 equity shares (March 31, 2025: Nil) are held by Tata Consultancy Services Netherlands B.V.	25,000.00
	25,000.00

(d) Details of shares held by shareholders holding more than 5% of the aggregate shares in the Company

(In Thousands of MAD)

	Number of shares	
	As at March 31, 2026

Tata Consultancy Services Netherlands B.V. (Holding company)	25,000.00	100%
	25,000.00	**100%**

(e) Disclosure of Shareholding of Promoters

Disclosure of shareholding of promoters as at March 31, 2026 is as follows:

	Shares held by promoters at the end of the year		Number of shares
Sr. no.	Promoter name	No. of shares*	% of total shares
1	Tata Consultancy Services Netherlands B.V. (Holding company)	25,000	100%
Total	10	**25,000**	**100%**

7) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to-use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature

of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

8) Non-financial assets and non-financial liabilities

a) Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment loss, if any.

Cost of an item of property, plant and equipment comprises of its purchases price including non-refundable taxes, after deducting trade discount and any directly attributable cost of bringing the item to its working condition for its intended use.

Depreciation is provided for property, plant and equipment on straight line method so as to expense the cost less residual value over their estimated useful lives based on technical evaluation. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Method	Useful life
Computer equipment	Straight line	4 years
Office equipment	Straight line	5 years
Electrical installation	Straight line	5 years
Furniture and fixtures	Straight line	5 years
Leasehold improvements	Straight line	Lease term

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

Notes forming part of the financial statements

a) Other assets

Other assets consist of the following:

(In Thousands of MAD)

Other assets - Current

	As at March 31, 2026
Considered good	
Prepaid expenses	-
Contract fulfillment costs	-
Indirect taxes recoverable	0.00
Advances to suppliers	120.00
Others	0.00
Considered doubtful	-
Less: Allowance on doubtful assets	-
	120.00

9) Employee benefits

Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in full in the other comprehensive income for the period in which they occur. Past service cost both vested and unvested is recognised as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognises related restructuring costs or termination benefits.

The retirement benefit obligations recognised in the balance sheet represents the present value of the defined benefit obligations reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme.

Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages, etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Compensated absences

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the obligation at the balance sheet date.

10) Cost recognition

Costs and expenses are recognised when incurred and have been classified according to their primary nature.

The costs of the Company are broadly categorised in employee benefit expenses, depreciation and other expenses. Employee benefit expenses include employee compensation, allowances paid and contribution to various funds. Other expenses majorly include fees to external consultants, travel expenses, communication costs and other expenses. Other expenses is an aggregation of costs which are individually not material.

11) Income taxes

Income-tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are

recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current income taxes

The current income tax expense includes income taxes payable by the Company.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences.

12) Segment Reporting

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker for assessing the Company's performance and allocating the resources based on an analysis of various performance indicators by business segments and geographic segments. The Company is mainly engaged in the business of providing IT enabled services to various departments of Government of Maharashtra which constitute a single business segment. These activities are conducted only in one geographic segment viz India. Therefore, the disclosure requirements of the Ind AS 108 "Segment Reporting" are not applicable.

13) "No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend or invest in party identified by or on behalf of the Company (Ultimate Beneficiaries). The Company has not received any fund from any party(s) (Funding Party) with the understanding that the Company shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries."

14) On November 21, 2025, the Government of India notified the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing labour laws. The Ministry of Labour & Employment published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations. The Company continues to monitor the finalisation of Central / State Rules and clarifications from the Government on other aspects of the Labour Code and would provide appropriate accounting effect on the basis of such developments as needed.

The above subsidiary did not have any financial transactions during the period or balances as at the reporting date to report. Hence, no financial information or Independent Auditors' reports relating to this entity has been included.

TCS Safe Harbor Clause

Certain statements in this release concerning our future prospects are forward-looking statements. Forward-looking statements by their nature involve a number of risks and uncertainties that could cause actual results to differ materially from market expectations. These risks and uncertainties include, but are not limited to, our ability to manage growth, intense competition among global IT services companies, various factors which may affect our profitability, such as wage increases or an appreciating Rupee, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on cross-border movement of skilled personnel, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which TCS has made strategic investments, withdrawal of governmental fiscal incentives, political instability, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property, cyber attacks or security breaches, pandemics, natural disasters and general economic conditions affecting our industry. TCS may, from time to time, make additional written and oral forward-looking statements, including our reports to shareholders. These forward-looking statements represent only the Company's current intentions, beliefs or expectations, and any forward-looking statement speaks only as of the date on which it was made. The Company assumes no obligation to revise or update any forward-looking statements.
