Independent Auditors' Report

To the Board of Directors of Tata Consultancy Services Limited

Report on the Audit of the Consolidated Interim Financial Results

Opinion

We have audited the accompanying statement of consolidated interim financial results of Tata Consultancy Services Limited (hereinafter referred to as the "Holding Company") and its subsidiaries listed in Annexure I (Holding Company and its subsidiaries together referred to as "the Group"), for the quarter ended 30 June 2021 ("the Statement" or "consolidated interim financial results"), attached herewith, being submitted by the Holding Company pursuant to the requirement of Regulation 33 of

Independent Auditors' Report (Continued)

Tata Consultancy Services Limited

Management's and Board of Directors' Responsibilities for the Consolidated Interim Financial Results

These consolidated interim financial results have been prepared on the basis of the condensed consolidated interim financial statements.

The Holding Company's Management and the Board of Directors are responsible for the preparation and presentation of these consolidated interim financial results that give a true and fair view of the consolidated net profit/ loss and other comprehensive income and other financial information of the Group in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, 'Interim Financial Reporting' prescribed under Section 133 of the Act and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. The respective Management and Board of Directors of the entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of each entity and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated interim financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated interim financial results by the Management and the Directors of the Holding Company, as aforesaid.

In preparing the consolidated interim financial results, the respective Management and the Board of Directors of the entities included in the Group are responsible for assessing the ability of each entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the entities included in the Group are responsible for overseeing the financial reporting process of each entity.

Auditor's Responsibilities for the Audit of the Consolidated Interim Financial Results

Our objectives are to obtain reasonable assurance about whether the consolidated interim financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated interim financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated interim financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditors' Report (*Continued*)

Tata Consultancy Services Limited

Auditor's Responsibilities for the Audit of the Consolidated Interim Financial Results (*Continued*)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the consolidated interim financial results made by the Management and Board of Directors of the Holding Company.
- Conclude on the appropriateness of the Management's and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated interim financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group (Holding company and subsidiaries) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated interim financial results, including the disclosures, and whether the consolidated interim financial results represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated interim financial results. We are responsible for the direction, supervision and performance of the audit of financial information of entities included in the consolidated interim financial results. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated interim financial results of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Independent Auditors' Report (*Continued*)

Tata Consultancy Services Limited

Auditor's Responsibilities for the Audit of the Consolidated Interim Financial Results (*Continued*)

We also performed procedures in accordance with the circular No CIR/CFD/CMD1/44/2019 issued by the SEBI under Regulation 33(8) of the Listing Regulations, as amended, to the extent applicable.

Other Matter

Attention is drawn to the fact mentioned in Note 1 to the consolidated interim financial results that the figures for the quarter ended 31 March 2021 as reported in these financial results are the balancing figures between the audited figures in respect of the full previous financial year and the published audited year to date figures up to the third quarter of the previous financial year.

Our opinion is not modified in respect of this matter.

Hence, assets and liabilities have not been identified to any of the reportable segments.

Select explanatory notes to the Statement of Audited Consolidated Interim Financial Results for the three month period ended June 30, 2021

1. These results have been prepared in accordance with the Indian Accounting Standard (referred to as “Ind AS”) 34 - Interim Financial Reporting prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time. The results for the three month period ended March 31, 2021 are the balancing figures prepared on the basis of the consolidated audited financial statements for the year ended March 31, 2021 and the consolidated audited condensed interim financial results upto the third quarter ending December 31, 2020, which are prepared in accordance with the Ind AS notified under the Companies (Indian Accounting Standards) Rules 2015. These results have been reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on July 8, 2021. The statutory auditors have expressed an unmodified audit opinion on these results.
2. Pursuant to ruling at the Appeals Court on August 20, 2020, in the case relating to Epic Systems Corporation (referred to as Epic) for alleged unauthorised access to and download of Epic’s confidential information and use thereof in the development of the Company’s product MedMantra, considering all the facts and various legal precedence, on a conservative and prudent basis, the Company provided ₹1,218 crore (US \$165 million) towards this legal claim in its consolidated statement of profit and loss for the three month period ended September 30, 2020. This was presented as an “exceptional item” in the consolidated statement of profit and loss. The Company filed a petition for re-hearing of the awards for both compensatory and punitive damages at the Appeals Court on September 3, 2020. Epic also filed for re-hearing of the Appeals Court’s decision that invalidated a portion of the award of punitive damages. In November 2020, the petitions for re-hearing filed by the Company and Epic, respectively, were denied by the Appeals Court. The proceedings for assessing punitive damages have been remanded back to the District Court. Both the Company and Epic have filed their briefs at the District Court in relation to punitive damages. The matter is under consideration by the District Court. On April 8, 2021, Epic has approached the Supreme Court seeking review of the order of the Appeals Court vacating the award of ₹2,084 crore (US \$280 million) towards punitive damages and remanding back to District Court with an instruction to reassess the punitive damages, to no more than ₹1,042 crore (US \$140 million). The Company will continue to pursue all legal options available in the matter.
3. The Board of Directors at its meeting held on July 8, 2021, has declared an interim dividend of ₹7.00 per equity share.
4. The results for the three month period ended June 30, 2021, are available on the BSE Limited website (URL: www.bseindia.com/corporates), the National Stock Exchange of India Limited website (URL: www.nseindia.com/corporates) and on the Company’s website (URL: www.tcs.com/investors).

Rajesh Gopinathan
CEO and Managing Director

- Selected by a multinational pharmaceutical company headquartered in the US, as a partner for their Master Data Rationalization program to drive effective master data management and governance to drive reduced time to market, improved quality and increased safety of medicine. TCS will also implement a leading Laboratory Information Management System.
- Selected by a leading medical supplies and equipment company as a business transformation partner to advise on, create and manage the design standards for future systems, helping institutionalize a user-centric mindset within the organization, reduce time-to-market and enhance customer experience.
- Selected by a Japanese pharmaceutical company, to enable their workplace transformation by reimagining HR and payroll processes as well as to enhance employee experience through self-service options and automated operations.
- Engaged by an Asian automotive manufacturer, to set-up the digital infrastructure to enable their entry into North America segment and to facilitate sales and servicing of their electric cars on a leading cloud CRM platform.
- Selected by an EMEA-based global brand & leader in car & truck rental, to empower their Hybrid Cloud strategy leveraging TCS Enterprise Cloud with dual availability zones. This hybrid environment will enable reliable IT Operations with resilience, and support cloud native applications, DevOps and Microservices based architecture which is key for application modernization in driving Digital Transformations.
- Selected by a major American airline, to improve business agility and reliability of on-time flight operations, especially during peak loads by leveraging a leading hyperscaler cloud platform. TCS will also take the E2E ownership of customer's infrastructure operations by creating an integrated Service Delivery model based on Machine First™ principles to eliminate the siloed operations across LoBs and optimize TCO.
- Selected by a global investment bank and financial services firm, to transform their collaboration experience using a leading enterprise collaboration platform including an end-to-end implementation of content, email migration and unified collaboration.

“This is a strategic initiative to drive the next wave of growth for ALE, therefore it is critical for us to bring a partner who comes with a deep understanding of our business model, an extensive experience in end-to-end services from design to delivery of customer experience transformation and proven expertise in Salesforce technology.

TCS is a long-term partner for ALE and has led several transformation projects. Being one of the largest global Salesforce partners, TCS brought us a unique business transformation approach enabling agility by accommodating the changing business needs and delivering this program under tight schedules.”

Jean-Pierre Roullin
Head of IT
Alcatel-Lucent Enterprise

- Selected by a Sweden-based banking and financial services provider, to help them create an Ecosystem Banking Platform that will help them combine their business capabilities and other FinTech/ Transaction capabilities to deliver a seamless ecosystem of digital financial products to its customers. This program will develop the digital core which will improve their time-to-market for new products in newer geographies with various channel partners.
- Selected by a leading American insurance provider, for modernization of the customer and agent interaction interfaces. TCS will transform the processes to provide a consistent omni-channel engagement experience and intelligent interaction, leveraging a cloud-based Software-as-a-Service (SaaS) platform and an apps, connectors and data platform suite.
- Engaged by a leading Canadian supermarket, as a partner for modernization of their core pharmacy dispensing platform leveraging a leading hyperscaler platform. This program is expected to deliver better customer experience, making the pharmacy operations more patient-centric and one of the best in the business.
- Engaged by a global leader in the HR services industry, as the PAM solution provider by leveraging a leading privileged access management platform as part of their zero-trust foundation set up. This will help customer secure passwords, enable session monitoring and embed threat analytics into their access ecosystem and significantly improve cyber resilience.
- Engaged by a leading multinational finance and insurance corporation, to setup Security Vulnerability Remediation factory to bring automation and simplification of application vulnerability management.
- Selected by a leading North American energy transportation company, to provide Integrated Identity Management functions across IT and OT ecosystems. This transformation program will focus on several advanced functions including AI/ ML driven role-based access control, to establish strong governance over privileged identities and enable seamless governance of identities.
- Engaged by a European international manufacturer of HVAC solutions, to manage its network security across the globe for next 5 years. TCS will implement industry leading solutions to provide 24X7 managed network security services. The solution will help ensure agile policy management and maintain secured & resilient network operations.
- Chosen by a Canadian multinational insurance and financial services provider, for transforming the employee experience and improving NPS. TCS will leverage TCS Cognix™ for Workspace for bringing together the combined power of Analytics, AI and NLP technologies through pre-integrated value builders coupled with contextualized and persona-driven operating model, improving efficiency and experience.

“From the outset of our working relationship, TCS’ deep-rooted expertise in the airline industry and innovative approach to digital solutions has consistently helped us transform the modern-day flight experience. As we emerge from a period of great challenge and transition, our strong foundations and belief in our partnership with TCS remains integral to our strategy for future transformation.”

Ash Jokhoo
Chief Information & Data Officer
Virgin Atlantic

- Selected by Europe's leading electronics retailer, to partner in their journey to transform user experience including “Smartifying” its stores. TCS will transform the local support model powered by Machine First™ philosophy. TCS will leverage its retail domain experience and analytics, AI-led operations through TCS Cognix™ to bring the personalized and contextualized experience for users.
- Selected by a leading human resources provider, to help transform the user experience, improve agility and productivity. TCS will leverage TCS Cognix™ and ignio™ to help transform user experience with pre-integrated suite of digital capabilities of self-heal, analytics and AI for Workplace.
- Chosen by a Canadian multinational banking and financial services corporation, as its Quality assurance partner for for one of their key modernization programs by leveraging the TCS CX Assurance Platform.
- Chosen by a multinational consumer credit reporting company, to accelerate its go-to-market initiatives including rolling out of commercial models across its business units like consumer services and credit services. The engagement will further enhance the client’s capacity to shorten the lead time to release a product, while improving its quality achieved leveraging Smart QE and Big Data and Analytics (BITS) Platforms.
- Engaged by a leading American consumer healthcare and pharmaceutical company, to improve its customer engagement by leveraging TCS analytics, cloud-based data engineering & visualization solution. This will help gain customer insights and take informed business decisions to drive business growth. TCS will also build a new Natural Language Processing (NLP) based complaint management system using a services-based solution from a leading public cloud to improve the end customer experience.
- Chosen by a European petroleum refining company, for enhancing sub-surface data analytics across exploration, field development and production units to improve hydrocarbon recovery rates and reduce extraction costs. TCS will leverage a state-of-the art cloud platform and IoT solution to foundations for improved data availability across the organization and client ecosystem.
- Engaged by **XL Catlin Services SE**, a UK-based insurance company, to develop and deploy analytical models for product pricing to optimally price its insurance products to its customer segments, thereby helping the organization drive sales and stay competitive.
- Selected by a leading US-based electricity and gas company, for GIS-based wildfire applications development and support. This program aims at significantly improving detection and emergency response for wildfire events, thereby ensuring environment protection and public/employee safety.

“This partnership with TCS brings to LACChain, an international consulting firm with wide experience in the development and implementation of technology. We believe that TCS’ expertise will be a very relevant contribution to the working groups on blockchain infrastructure and digital identity, and we welcome with excitement their desire to help us to continue developing the blockchain ecosystem in Latin America and the Caribbean.”

Irene Arias Hofman
CEO, IDB Lab

- Selected by a large UK-based tobacco company, to implement a Track & Trace solution for the finished goods movements from the production units throughout the supply chain. This will help the client to meet global regulatory requirements and popularize their brand value for a genuine product.
- Engaged by a US-based water management and services major, to develop a secure, cloud based IoT Platform for Data Analytics & Digital Twin implementation at their chemical manufacturing plants, which will help improve hygiene & food quality, regulatory compliance and customer service & satisfaction.
- German Auto Tier1 manufacturer, **ZF**, has chosen TCS as the partner for their Advanced Driver Assistance System (ADAS) project. TCS will be leveraging its expertise in AI/ML to develop an Autonomous Vehicle Data Annotation and Analysis Framework.
- SonyLIV has entrusted TCS with a multi-year, multi-million dollar deal to transform its OTT platform and extend its reach across 50 countries. TCS will leverage its contextual knowledge and spirit of innovation to enable the transformation and create a state-of-the-art platform for SonyLIV. With this, SonyLIV can realize its vision of being among the top 5 global OTT platforms, using its rich library of content and programs.
- Selected as the single preferred partner for IT and Engineering services by the largest Pay TV provider in Malaysia by subscriber base. TCS will support and enhance various existing front-end channel applications for video-streaming and also build new applications like a Video Orchestration Layer on the AWS platform using Agile/ DevOps.
- Selected by a UK-based financial services provider, to design and develop a unified customer experience with a new digital architecture, for improved customer engagement, conversions, and NPS. TCS will also leverage its platform-driven Quality Engineering Services for faster time to market.
- Engaged by a leading audience measurement and consulting services firm, as a strategic partner for their rebranding initiative. TCS W12 Studios will help extend the new brand into a digital design system and apply it to their new brand website, and product experience.

“As WBA continues to build on its foundation of a new machine-first operating model for global technology services, we have been able to further advance our strategic priorities and rapidly address evolving business needs through TCS’ ignio™ automation product. We are realizing business results by accelerating our digitalization agenda and launching new and innovative products and services for our customers and patients.”

Francesco Tinto
Senior Vice President, Global CIO
WBA

As on June 30, 2021, the company has applied for **5,989** patents, including **110** applied during the quarter and has been granted **1,971** patents.

Human Resources

TCS' employee headcount crossed the 500,000 mark in Q1, with **509,058** employees as of June 30, a net addition of **20,409** its highest quarterly net addition ever. The workforce continues to be very diverse, comprising **155** nationalities and with women making up **36.2%** of the workforce.

The company's investment thrust in organic talent development initiatives has helped it build deep capabilities on newer technologies. Employees logged over **10 million** learning hours in Q1. Over **478,000** employees have been trained in Agile methods and over **407,000** employees have been trained on multiple new technologies.

TCS' philosophy of investing in people and its progressive workplace policies have resulted in industry-leading talent retention. IT Services attrition rate (LTM) was at **8.6%**, the lowest in the industry.

*"During the months of April and May, the second wave of pandemic has been quite demanding for the TCS Family. Our thoughts are with the families who suffered personal loss despite our best efforts. I want to acknowledge the temperament and personality of our associates who stood by each other in these stressful times. We continued to place a premium on associate health and wellbeing and have taken vaccination as a priority for all our associates, dependents and contract staff. In less than two months, over half a million associates and family members and over 70 percent of our associates have been vaccinated, and we are on track to vaccinate all TCSers and families by September," said **Milind Lakkad, Chief HR Officer**. "The TCS family crossed a new milestone, with over 500,000 associates this quarter. We continue to attract the best talent across the globe with a net addition of 20,409 associates to the TCS family this quarter."*
