DIVIDEND DISTRIBUTION POLICY

Ver. 1.0
1. Introduction

From the time of its public listing in 2004, Tata Consultancy Services Ltd has been meeting all its capital requirements through internal accruals and consistently returning surplus cash to shareholders through regular annual dividends and special dividends.

A regular annual dividend consists of three interim dividends after each of the first three quarters of the fiscal year, topped up with a final dividend after the fourth quarter. In addition, every second or third year, the accumulated surplus cash has been returned to shareholders through a special dividend. Including these special dividends, TCS’ overall Dividend Payout Ratio has been an industry benchmark.

While adhering to this core philosophy of returning surplus cash to shareholders, and to provide shareholders with greater visibility and predictability in the payouts; TCS is hereby publishing a formal Dividend Distribution Policy in accordance with Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.
