India-SA Covid Patent Waiver Plea Gets 62 Backers

Co-sponsors of proposal issue first joint statement to WTO, say universal access to vax, treatments must be priority

Kirtika.Suneja@timesgroup.com

New Delhi: The 62 co-sponsors of a proposal floated by India and South Africa seeking patent waivers on Covid-related medical products have said that universal access to immunisation, treatments, testing and other products to control the pandemic should be the priority of all countries.

In the first ever joint statement issued Monday, the co-sponsors—that includes Indonesia, Kenya and Pakistan—said an amended waiver proposal is being worked on to clarify the scope of the proposed waiver and the time period during which it will apply. The statement is also the first joint official response after the US gave its support for text-based negotiations.

They also said that they will engage in the negotiations to achieve a waiver with the "necessary flexibility to ensure swift outcomes" as there is a need to mobilise global manufacturing capacity and to diversify supply options.

"Universal access to immunisation, treatments, testing and other products to control the pandemic should be our priority," the co-sponsors said in their statement to the World Trade Organization (WTO).

India and South Africa had in October last year sought a waiver in global intellectual property agreements to ensure uninterrupted flow of vaccines amid the ongoing pandemic.

The proposal calls for a waiver for all WTO members of certain provisions of copyrights, industrial designs, patents and protection of undisclosed information in the Trade Related Intellectual Property Rights (TRIPS) Agreement for prevention, containment or treatment of Covid-19.

It is being revised now to bring more countries on the negotiating table and proceed to text-based discussions.

Almost 130 countries support the proposal at present. The US has supported a waiver for vaccines only.

"The amended waiver proposal seeks to further clarify the scope of the proposed waiver while also addressing the period during which it will apply," they said in the statement.

They also said that continuous mutations and emergence of new variants of Covid-19 highlight the significant uncertainties and complexities of controlling it and underscore the urgency of this proposal.

"Co-sponsors confirm that they will engage in this process with the necessary flexibility to ensure swift outcomes," they said, adding that any outcome in these negotiations must respect the wishes and common interests of the majority of the WTO members.

"We are keeping our scope as before. It is a matter of negotiation what the final scope will be—products, IP or duration," said an official.

As per the submission, the promise of international solidarity and of global public good "sounds hollow as staggering inequity in access persists" as countries fail to work in solidarity and take action to remove intellectual property barriers.

'GREEN TARIFF' ON THE CARDS

Renewable Energy may be Supplied via State Discoms

Plans afoot to allow customers to buy directly from developers

Sarita.Singh
@timesgroup.com

New Delhi: India is considering offering renewable energy through state power distribution companies to consumers at a separate "green tariff" and also allowing customers to directly buy renewable energy from developers by exempting additional surcharge.

The government proposes to frame rules targeting removal of barriers on easy trade of renewable energy between buyers and sellers, said a senior government official.

Most green projects are currently based on power contracts with states or bidding agencies such as NTPC and Solar Energy Corporation of India. The government's proposal aims to encourage merchant green energy projects.

"There are two types of buyers in green energy – obligated entities and people who want to buy on a voluntary basis. For trading in renewable energy certificates on power exchanges, one has to be a registered entity. There are entities who want to buy green energy in a less cumbersome manner," said the official, who did not wish to be identified. "We are exploring if they can buy green energy from discoms at a separate green tariff. The logic behind green tariff is that it is very consumer friendly."

The power ministry, which is in the process of framing the draft rules, is also exploring "green energy open access", which enables electricity consumers to buy power from any source other than distribution utilities.

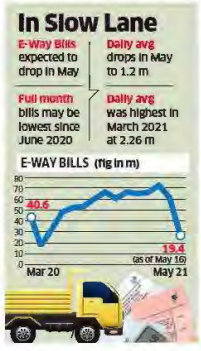
May E-way Bills may Dip to Lowest in a Yr

Daily average bills in the first half of the month drop to 1.2 m from 1.83 m before lockdown last year

Our Bureau



New Delhi: Generation of e-way bills, an indicator of inter- and intra-state movement of goods, could plummet this month to the lowest in a year, as restrictions to control the second wave of Covid-19 infections has reduced mobility. Daily average generation of these electronic bills in the first half of May has dropped to 1.2 million from the average of 1.83 million before the nationwide lockdown last year.

Going by the daily average, for the full month of May, about 37-38 million e-way bills are expected to be generated, which may well be the lowest since June 2020 when 43.4 million bills were recorded.

"Numbers indicate that May 2021 will have the lowest average of everyday e-way bills generated since June 2020," said Rajat Mohan, senior partner at AMRG Associates.

As of May 16, 19.4 million e-way bills have been issued.

"The fall has been remarkably sharp and more than expected since it was not a national lockdown. Logistics supply chain which has primarily been diverted to transportation of oxygen and other critical medical items could be one possible reason for the disruption," said Abheek Barua, chief economist at HDFC Bank.

Pharmaceuticals and some extent FMCG products continue to be transported but most other supplies relating to automobiles, electronics and construction have virtually stopped, said Pratik Jain, partner at Price Waterhouse & Co LLP.

"The lockdowns have limited the movement of non-essential goods and a large part of the services sector, including hotels, airlines and cinema halls, has been virtually closed and therefore supplies to the sector would also be impacted," Jain added.

E-way bills, generated for movement of goods of more than Rs 50,000 in value, are one of the key economic indicators and relied upon to gauge the changes in demand and supply.

The lowest number of e-way bills recorded was in April 2020 at 8.6 million, when the country was under a nationwide lockdown, followed by 25.4 million the following month. The monthly average last year before the nationwide lockdown was about 55 million, or a daily average of over 1.83 million.

When unlock 1.0 began in June 2020, the numbers started to rise, showing a spurt in economic recovery which continued into 2021.

More than 60 million e-way bills were recorded in January and February this year, and the highest ever was clocked in March at 71.2 million. April saw some slowing down with 58.7 million bills generated, data from the Goods and Service Tax Network showed.

Haryana Allows Reimbursement of GST on Covid Items' Donations

Gulveen.Aulakh
@timesgroup.com

New Delhi: The Haryana government has allowed reimbursement of goods and service tax paid by companies, non-governmental organisations and individuals on purchase of 15 items including Covid vaccines, remdesivir injections, ventilators and oxygen cylinders that they have donated free of cost to the state government or state-run hospitals.

Haryana is the first state to give such a relaxation.

The Centre has already waived integrated GST (IGST) till June 30 on the import of Covid-related relief material donated or received from outside India for free distribution.

"In order to encourage such efforts, it is necessary in the public interest to facilitate donation of such items appearing in the table annexed herewith by way of reimbursement of GST (including the state, central or IGST portions), if any, already paid on such Covid-related items," the state government said in a notification seen by ET.

The relaxation will also apply to donations made to a hospital or institution permitted by the Haryana government to receive such material through the health and family welfare department of the state.

JOB WORK NOW UNDER IGCR RULES

Duty Cut for Importers Relying on Contract Mfg

Our Bureau

New Delhi: The Central Board of Indirect Taxes and Customs (CBIC) has brought job work under the ambit of import of goods at concessional rate of duty or IGCR rules, allowing importers who rely on contract manufacturers to pay duty at concessional rates on materials imported for domestic production of goods or providing services.

"The absence of this facility had earlier constrained the industry, especially those in the MSME sector which did not have the complete manufacturing capability in-house," the Board said in a statement on Tuesday. "Importantly, even importers who do not have any manufacturing facility can now avail the IGCR, 2017 to import goods at concessional customs duty and get the final goods manufactured entirely on job work basis."

Sensitive sectors such as gold, articles of jewellery and other precious metals or stones have been excluded from this facility.

In another change, importers bringing in capital goods at a concessional customs duty can clear them in the domestic market on payment of duty and interest, at a depreciated value. This, the Board said, would provide an incentive to manufacturers as they would be able to re-export capital goods after end of use.

The rule changes come at a time when the government is focusing on encouraging manufacturing opportunities in India. The changes address demands from trade and industry, while enabling domestic manufacturing to become globally competitive and self-reliant.

Sensitive sectors such as gold, articles of jewellery and precious metals are excluded from this facility

CBIC has laid down the process for importers, which includes a one-time intimation to customs authorities and furnishing a continuity bond.

Further, the procedure for availing concessional customs duty under these rules has been reviewed and rationalised. The required intimations and records can be sent by email to the jurisdictional customs officer, thereby obviating any physical interface, the Board said.

Experts said the amendments will enable local players to adjust to the revised global manufacturing practices, while providing certainty to trade.

MNCs, Local Cos at Forefront in Covid Fight

New Delhi: Eli Lilly, Roche, Salesforce, Raytheon, Virgin Atlantic and a host of multinational and domestic companies have rushed in key Covid-19 medical aid to India to bolster the country's capacities to battle the more deadly second wave of Covid-19 pandemic.

"Private sector (both Indian and international) has been at the forefront of fighting against the second wave of covid pandemic. The private sector is aiding the fight by supporting the government of India, the state government and private donations besides direct intervention at the ground level," a government official said on Tuesday.

Government think-tank NITI Aayog is coordinating and providing end-to-end support to all non-monetary donations from the private sector to the government of India.
