Statement on Prevention of Modern Slavery and Transparency in Supply Chain

Applicability

This **Statement on Prevention of Modern Slavery and Transparency in Supply Chain** is applicable to Tata Consultancy Services Limited and its wholly owned subsidiary companies (henceforth referred as TCS or Tata Consultancy Services) across the world. However, if any wholly owned subsidiary has published its own Statement, the same shall override this Statement in respect of that subsidiary.

Introduction

TCS is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformational journeys for over fifty years. TCS is part of the Tata group, a multinational conglomerate founded more than 150 years ago, led by inspiring leaders who have stayed true to the vision of the founder, Jamsetji Tata. His vision placed the greater good of society at par with business growth and pioneered social initiatives that changed the way responsible business was run. The Tata group philosophy of management has always been that corporate enterprises must be managed not merely in the interests of their owners, but equally in those of their employees, of the consumers of their products, of the local community and finally of the nation as a whole.

TCS operates in over 55 countries through its Branches and Subsidiaries with a global workforce, developing software and delivering services to customers through the unique Location Independent Agile™ global delivery model.

At TCS, we believe in building greater futures for people and communities through innovation and collective knowledge. Human rights are enshrined in TCS' core value of 'Respect for the individual' and upholding of human rights is an integral aspect of the way we conduct our business, treat our employees and support the communities where we live and work. Our approach starts from respecting and protecting human rights in every aspect of our business and supply chain and remediating any adverse human rights impact that may be resulting from or caused by our operations.

Modern Slavery is a term under Human Rights that is used to describe serious exploitation of people. It includes human trafficking, slavery, servitude, forced or compulsory labour, debt bondage, child labour, securing services by threat or deception, etc. Acknowledging the prevalence of modern slavery across the globe, TCS is taking appropriate steps to prevent and address the concerns of modern slavery within its scope of business.

References to modern slavery and human rights are based on the definitions set out in applicable regulations across the globe such as the UK Modern Slavery Act 2015, the Australia Modern Slavery Act, 2018, the Norwegian Transparency Act, the EU Corporate Sustainability Due Diligence Directive and those of other countries where we operate, and guided by the UN Universal Declaration of Human Rights and the conventions of the International Labour Organisation (ILO), particularly relating to forced or compulsory labour.

This statement sets out the steps that we, Tata Consultancy Services, have undertaken during the 2022-23 fiscal year that ended on the 31st of March 2023, to identify potential threats of modern slavery and other human rights violations and to the best of our ability prevent the existence of such violations within our own internal operations, within any stage of our product and services operations and within local and global supply chains. With numerous suppliers across geographies, TCS takes a risk-based approach to the same.

Tata Code of Conduct

We are governed by the [Tata Code of Conduct](#) ('the Code') which represents the values and core principles that guide the conduct of every Tata business.  - Supplier risk assessment (Stage 1 Assessment) is conducted annually for all suppliers of products and services procured by TCS. Our supplier risk assessment process categorizes and identifies suppliers for additional assurance evaluations (Stage 2 Assessment). The evaluations include verification of steps taken by our suppliers to prevent modern slavery in their operations as well as in their supply chains. TCS reserves the right to undertake supplier audits.
 - We have completed the annual Stage 1 Assessment for our suppliers and no supplier has been identified as high-risk. There have been no instances or suspected instances of modern slavery, identified or received through our reporting channels in the past year. We understand the imperative to maintain focus and continually review the steps we take to ensure we maintain a slavery free business and supply chain.
